THE CRESTON REVIEW

XXV. CRESTON, B. C., FRIDAY, MARCH 29, 1935 No. 48

Creston Favors Central Selling

Messrs. Haskins and Barrat Discuss Tree Fruit Board with Local Growers—Standing Vote Solid for Central Selling.

W. E. Haskins and G. A. Barrat, members of the B.C. Tree Fruit Board, who spent Thursday and Friday interviewing orchardists and shipping house executives, were greeted with a capacity turnout for their meeting in the United Church hall Friday afternoon, which was presided over by P. R. Truscott, with J. F. Murrell acting as secretary.

The gathering was primarily for the purpose of giving growers an opportunity to ask all the questions they had in mind in connection with the board operations the past season, and for over three hours the crowd got the information it desired on a great variety of subjects.

To open proceedings Mr. Haskins spoke briefly, urging that all mark their ballots in connection with the vote to be taken in April as to whether the growers wished to continue some form of controlled marketing for another year. Mr Haskins also had a few words to say of the difficulties of marketing the 1934 crop of which more than 50 per cent in excess of 1933 had to be sold on the domestic market. He also referred to the breakdown in Jonathans and Romes, the large quantity of large size apples, the coming in of the crop almost six weeks earlier than in 1933 and the inferior keeping quality of all varieties.

In establishing a case for orderley marketing Mr. Haskins referred to his own operations to show that in years when control was effective prices were better. Taking the years 1931 and 1932 when the price of wheat was much the same, with partial control in 1931 he had received a much better price than in 1932 when there was no control. Mr. Haskins was more emphatic in this connection arguing that better results would be had from regulating supplies than in price fixing without regulation. Mr. Haskins estimated that control in 1934 had meant 25 cents a box higher price. He also stated the cost of operating the board would hardly be more than one cent a box, in place of the two cents originally estimated.

Some objection was registered in connection with keeping small apples off the prairie market which was answered by Mr. Barrat whose argument was that the best place to sell small sizes was in the Old Country which market did not want large apples. Mr. Barrat also thought the domestic market demand for small apples was very limited and in this he was corroborated by S. S. Savage, well known member of the wholesale firm of Plunkett & Savage, Calgary, who was at the meeting, and who said his more than 30 years experience in selling fruit had taught him the preference was for an apple of the 150 size.

Mr. Barrat had some grief for the orchardists with Cox Orange, in his observation that this variety had been very heavily planted in England the past few years, and when these new English orchards came into bearing the sale overseas of Cox was bound to almost disappear.

On the matter of licenses Mr. Haskins was of the opinion too many had been issued in 1934, and certainly there would be less in 1935. He made it quite clear the truckers would be effectively controlled in 1935, and urged that Creston orchardists agree on a policy in this regard which the Tree Fruit Board would endorse. He hoped it could be arranged that Creston would have one central depot to handle the truck trade.

Mr. Barrat announced that for 1935 the board would control all tree fruits, starting with cherries. Until such time as size of the crop was more definitely established nothing could be said as to control policy. For 1935 it is proposed to have a travelling inspector sent out by the board to visit all packing houses to prevent, as far as possible, any monkey business with grading.

In connection with prices J. W. Handley asked would it not be possible for the board to fix a price delivered at the shed, but this Mr. Haskins figured was impossible and would not be good business as the houses would only buy such varieties and in such quantities that they felt sure they could sell to advantage.

The matter of price fixing created a splendid opening for introducing central selling, or sales over one desk, both of which were warmly supported by the visitors. At the present time 80 per cent. of the B.C. crop was sold to three firms on the prairie and Mr. Haskins could not see how anything but grief as to price could be avoided with 50 or more selling firms trying to dispose of their tonnage to these three big buyers. Mr. Barrat figured at least eight cents a box could be saved on selling costs alone under central selling. He also advised the Natural Products Marketing Act now gave the board authority to enforce central selling if a substantial majority favored it at the vote to be taken in April.

Mr. Savage was also asked his opinion as to the benefit of central selling and he came out strongly in its favor. He was quite sure the wholesale trade would take to it kindly. Mr. Savage took occasion to point out the advantages enjoyed by oranges and bananas due the wide advertising these fruits were given, and advised the apple growers to try out extensive publicity.

The meeting concluded with a standing vote as to whether those present favored central selling, and the vote was almost unanimous in its favor.

Lister

G. Pearson of Yahk has taken advantage of the night freezup of the highway to make two trips here for alfalfa, which he secured from Frank Dodgson.

A. R. Bernard left at the end of the week to resume work in the Columnario mine, where he was employed last season. He expects to be away until late this fall.

A representative of the A. H. Green Company of Nelson, the firm that installed the Lister waterworks system, was a business visitor here the past week

Mr. and Mrs. C. H. Barker and family have arrived from Creston and are on the ranch just vacated by Mr. and Mrs. M. Riedimayer, who have moved to Victoria.

Notices are up for the annual meeting of Lister Waterworks District which will be held at the schoolhouse on April 13th. Two new trustees have to be elected.

The B.C. Forestry Association, on the recommendation of the local school principal, named Manning Powers, as the 1935 junior fire warden for Lister Huscroft.

Col. Fred Lister is absent this week on visits to Kellogg, Butte, Idaho, and Anaconda, Montana, where he is organizing posts of the Canadian Legion at the request of the B.C. Command.

Miss Agnes Sinclair, who has been employed at Cranbrook for some time past, is home at present. She had the bad luck to rather severely cut her thumb, which is receiving medical attention.

Mr. and Mrs. Ben Byer and family are again residents in this section, occupying the old schoolhouse at Huscroft. Mr. Byer recently returned from Anyox, to which point he went last September.

Five tables of court whist and three of cribbage were in evidence at he windup of the Community Society operations on on Saturday night. At whist the night's honors were taken by Miss Jane Ross and Wallace Sinclair. At cribbage the winning team was Frank Baker and Frank Yerbury. The prizes for the high scores for the whole season were taken by Miss Curtis and A. W. Sinclair. The hostesses for the evening were Mrs. Mc Kee and Mrs. H. Yerbury.

Erickson

Birth—At Creston hospital on March 23rd, to Mr. and Mrs. Jim Ha dley, a son.

Miss Olive Speaker, who has been at Salmo for some time past, returned home on Sunday.

E. Kopienick is an Erickson visitor at present, a guest at the home of Mr. and Mrs. J. E. Healey.

Rev. M C. Percival had quite a good turnout at the Anglican Church service at the schoolhouse Sunday afternoon

Walter Dodds got back last week from his trap line at Sanca, and has left again for the same place, where he expects to be employed.

Mrs. W. Woodhall and daughter, Anne Louise, of Nelson, who have been on a visit with the former's parents, M. and Mrs. John Hall, returned this week.

The Bluebirds are back again, making their first appearance at the first of the month. They are not quite so blue as last year, which is taken as a sure sign times are improving.

Frank Putnam, M.P.P., and Mrs. Putnam returned on Wednesday from Victoria, where they have been for the past six weeks while the former was attending the session of the legislature.

Most all the Erickson ranchers were at Creston Friday afternoon for the Haskins-Barrat growers meeting. Quite a few were at the metropolis again on Saturday for the Co-Op. annual meeting.

Miss Joan Kemp, whose marriage takes place next month, was guest at a cup and saucer shower in her honor at the home of Miss M. Hamilton on Saturday afternoon when she was remembered with a nice assortment of china. Bridge was the feature of the affair with the high score prize taken by Mrs. (Dr.) McKenzie. Refreshments were served after cards.

WANTED—5 to 20 acres uncleared land suitable for poultry and garden in Creston-Erickson district, situated reasonably near school. State price and give full particulars. Write Box 19, Review Office.

Plan Have Three Crow Shoots, '35

Fishery Regulations on Summit Creek Tightened Up—Crow Kills Set for April 7, 28; May 19th—Dinner—Prizes.

There was a good turnout of members for the March meeting of Creston Valley Rod and Gun Club at the clubhouse on Monday evening, with the president, Harry Smith, in charge, and the feature discussion on the 1935 crow shoot. This was inaugurated in 1934 and for 1935 it was decided to have three of them. There was also a letter from C. H. Robinson, fishery inspector, notifying of a change in the regulations applicable to Summit Creak.

The letter from Mr. Robinson notified that the paragraph of the sport fish regulations applicable to the close season on Summit Creek has been changed to read: "No one shall fish for, catch or kill fish of any kind in Summit Creek from November 15th in each year to June 30th following." This paragraph previously referred to trout of any kind.

The dates for the crow shoots were fixed for April 7th and 28th, and May 19th. The customary dinner for those participating will be held on May 19th. There will be three prizes for the three biggest kills, given in sporting goods, valued at $5, $3 and $2. An additional prize will be given for the closest guess to the total number of crows killed, donated by Vic. Mawson.

Any sportsman not members of the club, who would like to take part in the shoot, are asked to get in touch with ny of the following members of the shoot committee: R. Maxwell, Ron. Stewart, Charlie Holmes, W. Donaldson, Lloyd Couling, Vic Mawson or Sid. Bell.

Barbecue, Sports Maypole, Parade

Popularity Contest Features of Coronation Jubilee Celebration, May 6th—Night Dance—Committees Named.

A well attended meeting of those previously named by local organizations to arrange for a fitting observance of the silver anniversary of the coronation of King George, was held at the town hall on Monday night with the general committee chairman, W. V. Jackson, in charge, at which a tentative programme for the day was outlined and committees named to look after the several features.

It was agreed that the opening exercises would be a community church service on Sunday, May 5th, in which all the local clergy will be invited to participate.

For Monday, May 6th, among the things arranged for is a parade, prominent in which will be the float transporting the winner of the popularity contest and her attendents. The business men of the town have already been canvassed and have promised to participate in the parade either with floats or decorated cars.

In connection with the popularity contest any organization or group of citizens may enter a candidate on guaranteeing to purchase $5 worth of tickets, or votes, tickets to be sold at 10 cents and the entrant securing the most votes to be fittingly crowned as queen of the celebration. It is hoped that all who desire to enter a candidate will make the necessary arrangements with secretary H. A. Powell not later than Friday, April 5th.

The oldtime may pole will be revived. Mrs. W. Fraser, who has previously handled this feature has consented to take charge and suitable music for the exercises will b furnished by the band. To expedite matters much of the equipment required will be loaned for the day.

An entirely new feature will be a barbecue which will come toward the close of the afternoon. This will be under the direction of Matt. York, who is to arrange for the roasting and serving of a 400-pound beef animal. Bread and butter with tea and coffee will be provided all who wish to enjoy the beef feed, but diners must bring their own plate and knife and fork. A charge of 25 cents per plate will be made.

For the children there will be a full list of school sports, and the different school boards will be written to asking them to make arrangements for the children to be present and take part in the parade as well as the athletic features of the celebration.

Various committees, with full power to add, were named to handle the celebration, as follows: Finance—H. W. McLaren, W. V. Jackson, H. A. Powell. Sports—J B. Holder, W. J. Truscott, Mrs. G. Vigne, Mrs. W. V. Jackson. Grounds and floats—W. J. Craig, M. York, Mrs. McLaren, Mrs. Hassard, Mrs. Hendy. Popularity contest and publicity—M. York, W. J. Craig, H. A. Powell.

The celebration will close with a dance at Park pavilion in the evening, with an admission not to exceed 50 cents, supper included, and a committee to look after this was named to consist of G. Vigne, W. G. Hendy, Mrs. McWilliams and Mrs. Vigne. Those who wish to have refreshment stands on the grounds should apply to secretary H. A. Powell for such permit.

Those handling the affair have in mind the possibility of a chilly day and should the weather be unsuitable for the outdoor features that are being planned, then arrangementt will be made for an indoor observance of the auspicious occasion.

Kitchener

Fritz Molander was a Nelson business visitor at the first of the week.

Mrs. H. H. Redmile was a weekend visitor with friends at Cranbrook.

R. Walmsley of Creston was a business visitor at Kitchener one day last week.

P Parnaby, C.P.R. roadmaster at Procter, was here on official business, Monday.

Allan Verch of Canal Flats arrived on Monday, and is a visitor at the home of Mr. and Mrs. G. A. Hunt.

Mrs. John Renzie has returned from Creston hospital, where she has been a patient for the past couple of weeks.

Samuelson brothers, who have a con tract making posts at Hazel Creek, loaded out a carload for Alberta last week.

Mr. and Mrs. D . F. Putnam, with Frank and Wayne, of Erickson, were here at he weekend with her mother, Mrs. Senesael.

Mr. and Mrs. W. Wickholm were visitors at Canyon at the weekend, with the former's parents. Their son, Douglas, returned with them.

Mr. and Mrs. G. Priest and son, Billy, left on Thursday for Nelson where they will reside. Mr. Priest has secured employment in that city.

A. L. Palmer of Creston, road superintendent, was here on business in connection with the bridge being built over Meadow Creek on the pack trail up Leadville.

Alice Siding

W. Keirn was a Nelson visitor this week, leaving on Monday.

Hope prevails that spring is not far off. Bluebirds have been seen in this section the past week.

Miss Edith Mather is home again, after spending a short time in Creston working for Mrs. Rose.

Miss Yvonne LaBelle of Creston spent a few days last week, a guest of Miss Elsa Willis at Lakeview.

W Armstrong had a buyer in from Proctor on Saturday, who purchased a couple of teams of work horses.

Mr. and Mrs. Guy Constable were Nelson visitors at the first of the week, t e latter proceeding to Victoria for a visit.

Reed & Mather have purchased a new work horse It is one of the carload W. Armstrong brought in from Saskatchewan last week.

Another pupil has been enrolled at Alice Siding school in Floyd McCreary, whose parents arrived from Saskatchewan a few days ago, and have the Pease ranch on lease.

There was a large turnout on Friday night for the benefit dance at the Compton hall for Mr. and Mrs. John Miller, jr, who lost their home and all its contents by fire about a month ago. Music was provided by Corrie Celli, A. B. Ness, Bob Marshall, Tom Marshall, Tom Trevelyan, Miss L Trevelyan, Gerald Craigie, E. Hooverman and Don. Phillips.

Ladies' Hospital Auxiliary

The March meeting of Creston Hospital Women's Auxiliary was held Thursday afternoon. The president, Mrs. R. Stevens, presided, and there was a turnout of 29 members.

The proposed visit to Canyon Auxiliary has been protponed due the poor shape of the highways. It will take place later. Mr. Maxwell reported for the visiting committee, and Mrs. A. Corrie and Mrs. A. L Palmer will act as that committee for the ensuing month. Mrs. Jas. Cook reported a quiet month for the buying committee. Dona ions of feathers and salt and peppers were received.

The president thanked all who had assisted in handling the dance on March 1st, especially the kitchen and decorating committees. Three bridge parties during the past month brought in $19.80. These were given by Mrs. Beninger and Mrs. Jas. Carr, Mrs. R. Stevens and Miss Downes, and Mrs F. V. Staples.

Plans for raising funds were discussed and it was decided to have a community auction sale. The committee to handle this was named with Mrs. Jackson as convenor, and Mrs. Wilks and Mrs Goodwin are to formulate tentative plans.

In order to co-ordinate the activities of the various auxiliaries in the valley if the other organizations approve, a district executive will be formed, which would meet once every three or four months Committees were struck for the Easter Monday dance and plans made.

Revision of the by laws will come up at the April meeting. The usual social hour followed the meeting with the following as hostesses: Mrs. G. Bush, Mrs. W. H. Cartwright, Mrs. A. Corrie and Mrs Franson. The freewill offering was $2.55.

Review Ladies Hoop Champs.

Trim Moore's Garage by Two Points in Overtime Struggle—Most Exciting Game of Season—Banner Crowd Out.

The largest crowd seen at Park pavilion for basketball this season was in evidence Friday night for the final game in the ladies' section, with Creston Review taking the championship for the second season in succession, triumphing over Moore's garage by a 16-14 margin in a struggle that went into overtime, and giving the newspaper squad the honors in a best two-out-of-three playoff series. It was a bitter struggle from the starting whistle when a stagetic move by coach Martello of the Review, caught Moore's flat-footed and enabled his team to build up an 8-3 lead in the first quarter. Moving his chief scoring threat from guard to forwasd line he disorganized Moore's defense for about five minutes, before Tony Cobus could possibly switch his players to meet the move. After that, Moore's Garage slowly whittled down the 5-point lead, just managing to tie it in the last minute. In the overtime period both teams were exhausted, but game, and it was only a toss up that the Review and not Moore,s Garage came through.

First Quarter

Levirs broke through, missed a try, but the rebound was picked up by Nora Payne, who passed back to Levirs, who scored. Swain fowled by Lewis, missed the penalty. Hare failed to convert penalty on Palmer. Levirs scored on penalty on Swain. Lewis shot penalty on Abbott, but missed. Nora Payne scored on an assist from Levirs. Levirs sank another free shot when fouled by Swain. Levirs fouled Nell Payne in the act of shooting, and the latter sank the second shot. Swain took pass from Nell Payne to score. Nora Payne picked up a pass from Palmer and made the basket. Score 8-3.

Second Quarter

An exhibition of poor shooting, with Review especially off. In this quarter they missed 12 shots at the basket, while Moore's muffled 6. The only score was a pretty field basket by Nell Payne on an assist from Abbott, who was playing a beautiful game. In fact, all the guards did nobly, with Ruth Hare especially qualifying on intercepting. Lewis missed a free shot when Swain was called. Nell Payne failed to convert twice when fouled by sister Nora. Score 8-5.

Third Quarter

A much stronger defense, with play about even. Both teams missed five field shots. Palmer began the period by sinking one from well out on an assist by Bourdon Swain, fowled by Lewis, sank the first of two penalty shots Lewis sank one on Nell Payne. The latter retaliated by converting one on Bourdon. Score 11-7.

Fourth Quarter

Moore's Garage turned on the steam in a last effort to take the series and had much the better of the play They missed 11 shots against Review's 5. Nell Payne scored first on a rebound. Bourdon took a pass from Levirs and sank it. Abbott was the next to score, on a pass from Nell Payne. Then Swain picked up a rebound to score the tying basket. At the closing whistle Moore's were under their basket. Score 13-13.

Overtime

Moore's were tierd and lost their edge on the play. Speers charged Levirs, who sank the penalty. This one-point lead went a minute later when Lewis pushed Swain, who converted. With two minutes to go Levirs dribbled in and sank the winning basket. Score 16-14. The teams:

Creston Review—Levirs 7, Bourdon 2, Palmer 2, Lewis 1, Payne 4. Total 16.

Moore's Garage—Swain 6, Payne 6, Abbott 2, Hare, Speers, Crane. Total 14.

In a preliminary Loallo won from the High School, 21-18.

Loallo—Maddess 10. LaBelle 2, Bourdon 9, A. Nastasi, S. Nastasi. Total 21.

High School—L. MacLaren 4, York 2, Goplin 7, Truscott 3, H. MacLaren, Morabito 2. Total 18.

Green tea drinkers will find a sheer delight in the exquisite flavour of Salada Japan tea. Try a package.

Is Democracy A Failure?

Articles appearing in this column from week to week have, over a considerable period of time, had two main objectives, to convey information and to provoke constructive thought on the part of the reader. At the same time an earnest endeavor has been made to refrain from discussion of questions which are the subject of partizan political controversy or of sharp differences of opinion arising out of racial or religious views. In the present disturbed state of the world, when practically every financial, economic and social question has become part and parcel of some political creed it is no easy matter for any writer, unless he confines himself to meaningless platitudes, not to appear to take sides and express views which others may interpret as somewhat partizan in character one way or another. Notwithstanding this difficulty an honest effort has been made in this column to steer clear of partizanship while at the same time in discussing matters of public interest to give some point and value to these articles.

The writer is firmly convinced that what is needed at all times, and never more so than at present, is adherence to well grounded sound principles, the dissemination of accurate information, and clear constructive thinking on the part of each individual citizen. A demagogue may be clever and interesting and able to sway a mob, but he is not a safe and constructive leader and a mob is a dangerous thing.

This week we propose to submit a few questions, but do not intend to answer them. Rather our object is to have the reader answer them for himself or herself; in other words, do their own thinking.

General Hugh S. Johnson, until recently director of Roosevelt's NRA programme, stated the other day that "democracy is the best government in the world for peace and prosperity, but it is the worst government in the world for a great war or a great crisis." Is this true, and if it is true what does such a statement or situation imply? Does it mean that democracy as a system of government is right, but that the people who constitute the democracy, and therefore the government, are unreliable and cannot be trusted? Is it the system or the people who are weak? Does it mean that when things are proceeding smoothly and the people have a minimum of worries, they are careless, thoughtless, indifferent? Does it mean that when a crisis develops these same people become panic stricken, emotional and reckless, ready to act precipitately without taking thought of the ultimate consequences of their action?

Does General Johnson's statement, if true, imply that the nations of the world should abandon democracy as a system of government and revert to more autocratic and dictatorial forms of government, thereby relinquishing the political freedom which is now theirs, and entrusting to such more autocratic governments full control at all times, in peace and prosperity as well as in times of war, emergency and crisis?

If democracy is not to be abandoned, and we are not to accept Communism, Facsism, Socialism, or other forms of government which involve abandonment of existing democratic political rights and freedom, how is democracy to be made safe for the world at all times, because it cannot be thrown into the discard in times of trouble and emergency and resurrected and made to function efficiently the moment the crisis passes?

It will be admitted that with the coming of what has been termed the Industrial Revolution of the Nineteenth Century, human society was completely reorganized. The worker has risen from his old feudal state and there has been an extraordinary rise in wage levels and living standards. With this rise of the economic status of the worker there has been an even more pronounced rise in his social and political status. Public schools, newspapers, labor unions, and the influence of wage-earners as consumers have established the political power of the workers and primary producers. The universal ballot, without property or educational qualification, have given control of government to the masses of the people.

Commenting on this development a professor of economics in one of the great American universities has written: "Here lies the danger of injury to progress. This power has been obtained, naturally enough, in advance of economic knowledge. Visionary theorists and self-seeking politicians may guide and direct it into perilous paths. Nobody wants to throw back this tide of democracy. Nobody can. But it needs to learn self-control and to gain understanding. It has neither at present."

Is this professor of economics right? Is democracy endangered by lack of self-control and understanding on the part of those very people who have the most to lose and suffer if democrocy is lost to the world, and who have the most to gain and enjoy if democracy is maintained and made to function in times of emergency and crisis as well as in times of peace and prosperity? In a word, are our present political rights and power under democracy to be unthinkingly utilized in a time of stress and emergency to overthrow and destroy democracy itself? Are people going to prove the truth of General Johnson's observation that democracy is not a safe system in times of crisis?

How can people be taught self-control in times of emergency? How can the tendency to panic be overcome? How can understanding be given to the masses so that they will refrain from panic and exercise self-control and thus overcome the crisis and prevent the taking of disastrous action? How, when there are always demagogues, agitators, self-seekers whether in politics or other spheres, ever ready to inflame and mislead the masses, are these masses of voters who to-day control all governments, going to be educated to think for themselves, refrain from being influenced by mob psychology, and exercise self-control through the obtaining of sound knowledge and an understanding of basic irrefutable principles?

Doctors advise this *natural* corrective for Constipation!

Not a drug . . . safe, effective, economical!

Stop sour stomach, bad breath, headaches and all constipation ills. You can do it easily, cheaply with Quaker Bran.

Quaker Bran, the coating of the wheat, is milled so soft it cannot irritate. Yet it is effective. It works with nature to produce normal, healthy bowel movement . . . persuading the intestinal muscles to *normal* activity.

Remember, Quaker Bran is different from all *prepared* bran cereals. It is pure bran, uncooked—untreated—unadulterated. For these reasons it is definitely richer in mineral and vitamin content.

Serve it with your regular cereal each morning or in muffins, cookies, etc. There is a recipe book in every package.

QUAKER BRAN

Pure, *Natural*, packaged bran. 3810

Bells Rung Electrically

Italian Villagers Looked For Miracle Until Mystery Solved

When they heard the bells of the little church of Sante San Pietro ringing for a number of days and nights, apparently by themselves, the villagers of Lucca, Italy, thought it portended a miracle. The clappers of the bells were tied and the parish priest locked the bell tower and put the key in his pocket. But still the bells went on ringing. Finally the local electrician discovered the bells were being rung electrically as the overhead wire for the tramway line between Lucca and Maggiano had come into contact with the belfry. Now the villagers are able to sleep again.

Cheerful Factors

Moderate Improvement Shown Is Expected To Continue

"The moderate improvement reported a year ago may be expected to continue," the fourth annual "Farm Outlook for Saskatchewan" prepared by Dr. William Allen and Professor E. C. Hope of the department of farm management of the University of Saskatchewan, predicted. Wheat doubtful but more likely to rise than decline, some improvement over last year in prices for beef cattle, dairy cows and butter, rising prices for sheep and work horses, and a rise in wool towards the end of the year, are some of the cheerful factors indicated.

DOUBLED UP WITH RHEUMATISM

Could Not Wash Himself Nor Brush His Hair

So bad was his rheumatism that his friends declared he would never work again. Although he is 70 years old, he proved they were wrong. Read what he says:—

"I am seventy years of age. Last Christmas I was completely doubled up with rheumatism. I could not brush my hair nor wash myself. People said I should never work any more. I am working harder than a young man to-day. Thanks, many thanks, to Kruschen Salts. I take them in my tea, and I have recommended them to many. I could not get in or out of bed myself, nor sit up. But see me work now—12 hours a day sometimes. Kruschen Salts have done it."—G. J.

Rheumatic conditions are the result of an excess of uric acid in the body. Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals. Other ingredients assist Nature to expel these dissolved crystals through the natural channel. In addition, there are still other salts in Kruschen which prevent food fermentation in the intestines, and thereby check the further accumulation, not only of uric acid, but of other body poisons which undermine the health.

Watch Is Recovered

Lost In A Bag Of Relief Foodstuffs, Watch Will Go Back To Ontario

Lost in a bag of relief foodstuffs forwarded in a carload to Saskatchewan last fall, a wrist watch belonging to Mrs. Oscar Coleman, Delta, will be returned to her.

The watch was found by a relief recipient at Luseland, Sask. Mrs. Coleman missed the watch after the bag was forwarded and word was sent to Saskatchewan where a newspaper advertisement led to recovery of the timepiece.

To Suppress Crime

United States Enforcement Agencies Make Widespread Drive On Law Violators

A total of 1,219 arrests was reported by United States treasury law enforcement agencies as a result of a coast-to-coast drive against law violators.

Narcotic peddlers and addicts, smugglers, counterfeiters, liquor tax evaders, violators of every law for which the treasury holds enforcement responsibility, were rounded up the country over.

Approximately 50,000 Canadian farmers and other land owners are in the maple sugar business.

Golden eagles fly faster than two miles a minute. 2091.

Left Estate To Servants

Chauffeur, Cook, And Maid Inherit Mansion Of Mistress

A chauffeur and his wife, a cook and an "upstairs girl" are masters and mistresses of an estate at Newton, Mass., in which a few days ago they were servants.

The will of their late employer, Mrs. Jessie A. Goddard, 80, left them the stately mansion to do with as they saw fit.

Heirs to the estate were William Wilson, for 25 years Mrs. Goddard's chauffeur; his wife, Annie; Miss Margaret Macauley, cook; and Miss Jane Douglass, maid.

Other bequests, totalling $200,000, were distributed to friends, former servants, charities, churches and distant relatives.

PILE TORTURE NOW UNNECESSARY

Writer Offers To Prove Swift Value Of Home Method

The torture and suffering from Piles is well nigh inexpressible, and on account of the delicacy of the subject, many hesitate to seek relief.

Why continue the miserable torture of Piles, or neglect your condition until a painful and expensive surgical operation is necessary, when a safe, pleasant Home Treatment may bring you such freedom from soreness and pain?

VANDERHOOF'S PILE REMEDY is a special "Time-Tested" private method that brings almost instant relief. It is soothing, healing and absorbing, without the use of appliances, messy salves and lotions to stain and embarrass.

Simply send your name and address and enclose 5 cents and a generous trial treatment will be sent to you.

VANDERHOOF & CO. LIMITED
Box 247 Dept. 55C.6. WINDSOR, Ont.

Cattle exported from Canada to Great Britain in 1935, from January 1 to February 21, numbered 4,781.

Must License Variety

According to the Canada Seeds Act, no new variety of cereal grain can be offered for sale in Canada under its variety name unless that variety has been licensed by the Dominion Minister of Agriculture after tests conducted by the cereal division of the Dominion experimental farms.

Kidney Troubles

cause poisons to accumulate in the system and bring on persistent Backache, Lumbago, Rheumatism, or Sciatica. Take Gin Pills to restore the kidneys to a healthy condition and eliminate the poison from your system.

Thanks Anyway

Uncle John came to stay, and before he left he gave his nephew a pound note. "Now, be careful with that money, Tommy," he said. "Remember the saying, 'A fool and his money are soon parted'." "Yes, uncle," replied Tommy, "but I want to thank you for parting with it, just the same."

Bunches of small carrots were worn as corsages by the ladies of the court of Queen Elizabeth.

The Full Vitamin Value of Cod Liver Oil PLUS Further Body-Building Virtues

Generations have proved the body-building, energy-giving power of pure cod liver oil. Generations, too, have proved that Scott's Emulsion of Cod Liver Oil gives you all these, PLUS easier assimilation, pleasanter taste, and the added value of hypophosphites of lime and soda. PLUS values found only in Scott's Emulsion.

SCOTT'S EMULSION

THE COD LIVER OIL WITH THE PLUS VALUE

OTTAWA WILL EXTEND RELIEF ANOTHER YEAR

Ottawa.—Relief agreements with the provinces will be extended for another year at an Ottawa conference with Dominion officials, it was announced in the House of Commons by Labor Minister Wesley Gordon. The present agreements lapse at the end of the month.

The house devoted some time to the government's relief bill which would extend the present blank cheque for another year. Liberals announced they would oppose it because they considered it was an admission by the government of its inability to cure unemployment and relieve widespread distress.

The labor minister said the bill was designed merely to continue the direct relief agreements with the provinces and "before this session ends, other measures will be presented, looking toward providing work for our citizens." At the moment he could not disclose the nature of the bills.

Although pressed by various Liberals and Progressives, the labor minister said it would be impossible for the Dominion to relieve municipalities of direct relief costs. There was no machinery through which the Dominion could watch its money except at prohibitive cost. It was a safeguard to have provinces and municipalities contribute, it made them zealous to see the money was spent properly.

"I do not believe," Mr. Gordon said, "this form of relief (direct) can be abandoned. It may be possible to adjust it in the light of other measures which may be brought down in this house and in the legislatures, but I do not think direct relief can be abandoned."

Hon. Ernest Lapointe, former minister of justice, announced the Liberals would oppose the bill. "After five years of administration, no relief program or program to solve unemployment has yet been placed before the parliament of Canada," he said. When the government sought the fifth blank cheque it admitted its inability to formulate definite policies.

Another former Liberal cabinet minister, Hon. W. D. Euler, led the forces urging the government relieve municipalities of relief costs, claiming cities and towns were being pushed into bankruptcy.

Solve West's Problems

Will Repay All Debts With Return Of Normal Crops

Ottawa.—The belief that, with cooperation of governments, financial institutions of the east and the church, the problems of the west would be solved, was expressed here by Premier J. G. Gardiner, of Saskatchewan. He added that people of the west would repay a hundred fold every sacrifice which might be made by people of Canadian in assisting to maintain westerners on their land.

Premier Gardiner was addressing a meeting of the University Club of Ottawa. He said that the question to-day was whether or not the west could come back—if it could again produce the wealth it had in the past. If the west could get back to the crops and prices which prevailed before the depression he believed Saskatchewan could pay off its debt "and have money left over for gasoline and other luxuries."

Object To Jap Goods

Shanghai, China. — "The breast-beating nation-lamenting group" is the newest thing in anti-Japanese societies to make its appearance in Shanghai. Members of the society congregate in front of Chinese shops believed to be selling Japanese-made goods. They beat their breasts, sing a wailing chant, and then smash the windows of the shop, taking to their heels as soon as policemen appear.

A German has invented an automatic painting machine to be used in decorating walls and ceilings.

Cost Of Canadian Legation

Expenses Of Upkeep Of Legation At Washington Are Announced

Ottawa. — Hon. W. D. Herridge, Canadian minister to Washington, has received $96,470 from June 1, 1931, to the present, according to a return tabled in the House of Commons. This amount was for salary and expenses. Mr. Herridge's outlay for entertainment was paid out of that amount.

The total cost of the Canadian legation at Washington in that period was $338,089.

Total cost of the high commissioner's office in London, from August, 1930, to February, 1935, was $554,273, another return said. This figure includes salaries and expenses.

Hon. G. Howard Ferguson, the Canadian high commissioner, has in that period received $164,803, the return said, from which he was obliged to make expenditures for entertainment. Additional sums, however, totalling in the neighborhood of $5,000, were advanced to cover Dominion Day receipts.

Riot In New York

Negroes Run Wild When Told Boy Killed For Stealing

New York.—Rioters raged through Harlem, largest negro settlement in United States, bringing injuries to at least 100, besides smashing store windows and looting them of their contents.

Seven hundred policemen drawn from all parts of Manhattan which includes Harlem, and from Brooklyn to the Bronx, broke up mob gatherings but could not prevent guerilla outbreaks. About 100 prisoners were booked at one station.

Police officials charged agitators with inciting the negroes and whites of the area to violence by telling them employees of a store had killed a young negro who was caught stealing a pocketknife.

In reality, the store manager had turned the boy loose although he had bitten the two floor-walkers who caught him.

Not until 10 hours after the trouble began could the police find the boy to prove he was alive.

Notorious "Ghost" Caught

Young Boy Responsible For Strange Happenings On Ontario Farm

Perth, Ont.—The ghost of Burgess township, who last January was responsible for mysteriously breaking windows, walking flatirons and bouncing crockery in the home of John Quinn on the shore of Black Lake, is in the custody of Ontario provincial police.

The ghost turned out to be a 13-year-old Burgess boy, who is held also on a charge of arson in connection with the fire which destroyed a barn on the farm of Michael McFarland, a neigbor of his parents.

He is said to have admitted setting fire to the barn, and also to have told of being responsible for the mysterious goings on at the Black Lake farmhouse, which drew hundreds of curious visitors to the place, and baffled police and newspaper reporters.

Police turned the boy over to the superintendent of Lanark County Children's Aid Society, where he will be arraigned in juvenile court.

Relief Distribution

320 Carloads Of Foodstuffs Sent To West By Presbyterian Church

Toronto—The Presbyterian Church in Canada distributed 320 carloads of relief in the form of foodstuffs to drouth-stricken areas in the west in recent months, it was stated at a meeting of the board of missions here.

In addition to the food supplies, which had been collected in the east and sent to the prairie provinces and the Peace River district, 21,000 pounds of clothing were forwarded.

The number of families helped was 1,050. Mrs. W. H. Fletcher, Toronto, superintended the collection and Mrs. H. R. Horne, Regina, the distribution of articles. The church also provided 14 cases of Christmas gifts to needy families and in one instance cared for a whole community.

INTRODUCES BILL

Premier Angus L. Macdonald, of Nova Scotia, who is to introduce a bill in the Nova Scotian Legislature which will set up a permanent civil service for Nova Scotia in line with a recommendation of the Jones Commission of Economic Enquiry.

Building Programs

Sees Drawbacks In Scheme To Relieve Unemployment

Ottawa.—Building programs designed to relieve unemployment have drawbacks, Minister of Labor Wesley Gordon advised the House of Commons.

He visualized a government building erected in a county town with attendant publicity. For a time the local situation was improved but in a few days the town became flooded with men from all parts of the country, men who either did not have jobs or whose wages were lower than those paid on the government building.

"I have seen that happen time after time," he said.

Curtail Council Rights

Alberta Legislature May Pass Bill Re Closing Of Schools

Edmonton.—Communists or others in control of municipal councils or school boards will have their rights curtailed in declaring civic or school holidays, if a legislature bill proposed is adopted.

The measure would prevent such towns as Blairmore, where radicals control the administration, from declaring civic or school holidays—as was decided in Blairmore in honor of Tim Buck's visit—without first obtaining a permit from the minister of municipal affairs.

Arrests In Russia

Moscow.—Soviet authorities have announced the arrest of 1,074 members of the old aristocracy and old moneyed class. Some of them, it was said, will be tried for "activities against the state in behalf of foreign countries", while the rest will be exiled to the eastern reaches of the Soviet Union.

Rainy Season Expected

Government Entomologist Looks For End Of Drouth In West

Ottawa.—"We expect a more or less rainy season in the west this year, and that the drouth is over," declared R. Painter, entomologist in the department of agriculture, in an address here. He dealt with the ravages of grasshoppers in recent years in the west, and the methods being taken to combat them.

Mr. Painter said two or three species of grasshoppers were responsible for the "outbreaks" which cause such distress and ruin crops. They were always the pests of semi-arid countries which had periodical drouth conditions. But it was possible to kill 95 per cent. of these insects by one application of "bait," consisting of bran, sawdust and poison.

During the year 1934 a total expenditure of $708,000 was involved in the three prairie provinces in the work of extermination, he said.

Election Act

Voters' List Will Be Revised Between May 15 And July 1st

Ottawa.—Some details of the Dominion election and franchise regulations as amended last year were understood to have been discussed at a caucus of Conservative members of the House of Commons and senate with particular reference to their bearing on the forthcoming elections.

A report that a proposal was adopted by caucus to amend the Franchise Act so annual revision of the list which the statute provides must be made between May 15 and July 1 might be waived this year was denied by a government spokesman. No such proposal was adopted nor made, he said.

Under the present act a basic list was prepared during the winter and is now practically ready for distribution. This list will be revised between May 15 and Juy 1, and each year thereafter on the same dates.

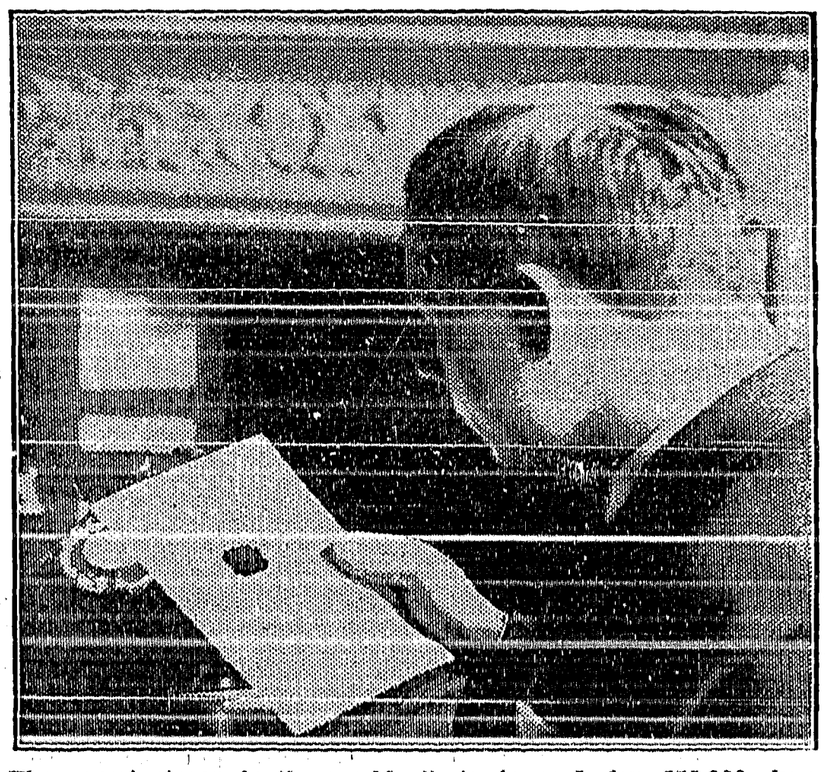
Regaining His Health

Expected Premier Bennett Will Return To House In Few Weeks

Ottawa. — Government supporters in the House of Commons and senate were given positive assurance by Sir George Perley that their party chieftain, Prime Minister R. B. Bennett, had been given every reason to believe he would be back in his place in parliament within a few weeks.

So far as the best medical opinion could judge, the acting government leader told his colleagues, Mr. Bennett would be able to return to his parliamentary duties before prorogation and would be in condition to lead his party in the general election campaign. Mr. Bennett will be confined to bed for about another week, according to present progress, and will then seek recuperation at some health resort for about a fortnight.

RAREST STAMP FOR SALE



The rarest stamp in the world—it is insured for $50,000—has just arrived in England from the United States for sale in London. It is the British Guiana one cent stamp, the only one in the world, the property of Mr. Arthur Hinds, who purchased it in Paris in 1922 for 300,000 francs (then worth about $37,000). Here we see the stamp being examined by Mr. Gordon Harmer, famous British stamp expert.

U. S. REMOVES ALL RESTRICTIONS AGAINST SEEDING

Washington. — Fearing a wheat shortage if another drouth—already threatened — occurs, Secretary of Agriculture Henry Wallace announced removal of all restrictions on plantings of spring wheats in the United States.

This action followed quickly after the year's first crop report showing farmers intend to plant 17,847,000 acres of spring wheat, compared with 18,521,000 acres planted in 1934.

"The drouth quite definitely continues," in part of the west, Wallace said, adding that a survey of the situation led the administration to the conviction that "in view of the possibility of another drouth which would seriously effect the output of wheat the government and farmers have a duty" to protect consumers against a wheat shortage.

The secretary estimated farmers will plant an additional 900,000 to 2,300,000 acres as a result of the action and would harvest between 10,000,000 and 30,000,000 bushels more. Spring wheat is normally about one-fourth of the total wheat crop.

Any surplus of wheat which may accumulate will be taken care of by the "ever-normal" granary plan, or the storing of reserves to be held against lean years, he said.

Drouth conditions are reported prevalent in the western parts of North and South Dakota, Nebraska, Kansas, Oklahoma, the Texas Panhandle and the eastern portions of Colorado, Wyoming and Montana, the secretary said.

Secretary Wallace said that while wheat supplies had been reduced to about normal, none of the factors which contributed to the 1933 surplus, such as the loss of foreign markets, had been removed.

Need Health Certificate

Bill Introduced In Alberta Legislature In Respect To Prospective Bridal Couples

Edmonton.—Bills of health will have to be produced by prospective bridal couples in this province before marriages can be performed, under a bill introduced in the legislature by Hon. George Hoadley, minister of health.

Last year a similar bill caused widespread interest and was finally withdrawn, as it was felt that the public was not sufficiently informed.

An educational campaign has been carried on in the province during the year by those approving of such legislation and Mr. Hoadley expects it to receive a more favorable reception.

The minister said the Local Council of Women, women's institutes, U.F.A., U.F.W.A., and the medical profession had approved of the proposed legislation.

Gold Production Mounts

Canada's January Output Worth Over Eight Million Dollars

Ottawa.—An increase of more than 15,000 ounces was shown in production of gold in January when the output totalled 249,029 ounces compared with 231,288 ounces in January, 1934, the Dominion bureau of statistics reported.

Ontario led the provinces with an output of 179,054 ounces, and Quebec second with 32,102 ounces while British Columbia was third with 25,726 ounces. Manitoba and Saskatchewan produced 11,498 ounces, Nova Scotia 580 ounces, Alberta 10 ounces, and the Yukon had an output of 23 ounces of alluvial gold.

The average price of gold in Canadian funds in January was $34.95 per ounce, valued at this price, the Canadian output was worth $8,703,564.

Advocates Coal Quota

Edmonton.—Adoption of a compulsory coal quota system under which the eastern market would absorb part of the Alberta production was advocated in the legislature by A. Smeaton, Labor member for Lethbridge.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, MAR. 29

Letters to the Editor

Another Boswell Broadside

Boswell, March 16.

Editor Review:

Sir,—Under "Home Brew," in March 15th issue, you refer to the Boswell and District Farmers' Institute request for free ferry service on the Kootenay Lake ferry.

Much could be written in respect to your very poor statements on this subject. Regarding "first base," I would merely say, wait and see.

The opinion of 100 Nelson board of trade members at a luncheon, on November 8th, was that there was no logical reason why the lake residents should not have a free ferry service, and Boswell residents have had that opinion a long time.

Perhaps you have never troubled to find out the cost of operating the various free ferries in B.C. Government blue book says $40,000 odd in 1931, including the one in your own district, Reclamation Farm, at a cost of around $3,950 for that year.

You state, Creston has all the facilities that Nelson has; well, all I need say is—"I ask you?" Even Creston people have urged that an extra ferry trip be made, one day per week, to allow them to visit Nelson, and return in one day—according to your idea they do not need such a thing.

Don't you think we might be allowed the privilege of going west sometimes, much as we enjoy going to Creston? Even your own paper reports visits of your people to Spokane, quite often. Why leave Creston?

I could continue arguing with you a long time, but i am sure the local institu e secretary will also be answering you. In conclusion, why not all ferries free, instead of some of them? Toll ferries are only a hindrance. What money would be lost in tolls, would be collected through the extra travelling done, via the gasoline tax.

Sure, let the Creston ranchers ride free. Why not set the ball rolling, and ask for what you want. Yours for free ferries.

K. WALLACE.

Old Age Pensions

Editor Review:

Sir,—May I present in the Review some thoughts regarding old age pensions in this province. It is not my intention to raise a political issue. Old age pensions should be considered from the national point of view. All parties are agreed that the aged should be provided for as a right of citizenship. While I understand that the entire question is receiving a great deal of study regarding future improvements, this letter is for the purpose of securing better, more humane treatment of applicants under the act as it exists at the present time.

The act defines those who are eligible very clearly. That is the applicant is entitled to receive the pension benefit when 70 years of age. But when application is made a thousand and one difficulties are raised, and a long, weary, heartbreaking correspondence follows from six to twelve months or more of endless letters, even if according to the old age pensions act the applicant is a citizen of 70 years of age, and has resided 20 or more years in Canada.

The method of creating a correspondence course with Vancouver is very inefficient and means a long delay. This delay is at the expense of the applicant who receives a pension only from the time it is finally approved. Where there is sickness or want, sometimes, both are the conditions of the applicant. The situation can easily be imagined. The long delay is an injustice and that the citizens of Canada who support the legislation are unaware of the difficulties that beset the applicant. The following, I submit, as an improvement:

Applicants to make application before local magistrate, government agent, or B.C. Police, all of whom fully understand the requirments of the act.

And that applicant have the right to make application six months in advance of age reduirements to enable the applicant to receive the pension when of age. When applicant is past 70 years of age that pension date from time of application.

In all cases where sickness or infirmity renders it difficult for applicant to leave home, then their application be taken in their home.

I am fully aware that local officials are likely to be more lenient than under the present system. There great advantage would be persenal contact with applicant, and any difficulties could be straightened out in one-tenth of the time.

I trust that this question be brought before our local member, who will, I feel sure, give the matter his active support.

FRANK BAKER.

Notice to Vegetable Producers

DISTRICT No. 9

The Meeting of Registered Vegetable Producers in the above district for the purpose of electing one delegate will be held in the City Hall, Nelson, B.C., at 10.30 a.m., April 12t , 1935.

All Vegetable Producers are urged to attend. A member of the Provisional Board will be present and a supply of registration forms will be available for such producers as have not already registered.

For further information or registration forms apply to the Secretary, P.O. Box 580, Kelowna, B.C. or to Mr. F. W. Hack, Oliver, B.C.

By Order of the Board.

J. H. THOMPSON,
Secretary.

Creston Delicious Unpopular

Vernon News: Indication that some shipments o Delicious apples from parts of British Columbia are not of good quality are shown by a letter recently received in this valley from O tario.

The wriier says that some of the shipments coming through are not up to the mark and that a box of Delicious from the Creston district which was purchased in Hamilton had "no more flavor than any ordinary green apple."

"They had that greeny taste of fruit that is unmatured and I would say that they would be a real detriment as a sample of fruit coming from the Okanagan," declares the writer.

Three of the apples were mailed back to the Okanagan and on inspection proved to be of deplorabl quality. They were also small, and had evidently been picked before they had a chance to ripen.

Sirdar

A. Vito spent the weekend with friends at Creston.

James S. Wilson was a weekend visitor at Creston.

Monrad Wigen of Wynndel was a business visitor to Sirdar, Monday.

Lumber has arrived for the new house to be built opposite Mr. Talaricos.

Mrs. L. Miller of Kuskanook was a business visitor in Creston, Monday.

Robert Steward was a business visitor to Nelson at the middle of the week.

Mr. and Mrs. Joe Koliman were at Cranbrook at the beginning of the week.

James Mannarino was a visitor to Creston on Monday, making the trip by stage.

Mrs. and Miss Francis Talarico were shopping visitors to Nelson over the weekend.

Wesley Bethune of Kuskanook was a business visitor by stage at Creston on Thursday.

J. McDonald, forest ranger, was a business visitor here Monday and went up the lake later.

W. Tillotson, whose trap line ext nds to Atbara, was here at the weekend looking over the line.

A. Gino, who is employed at the dyking work at Wynndel, was home here for the weekend.

Both the Sirdar and the Kootenay Landing section crews have been increased by several men.

Gerry Towgood of the Bayonne mine was a weekend visitor here and returned to Tye on Sunday.

Frank Hamilton of Kuskanook and Chas. Wilson were business visitors to Creston, Monday, going by car.

Clarence Tedford of Canyon arrived with his truck and will be engaged on the new highway for some time.

Last weekend saw the Greyhound stages resuming their run. So far the busses are going as far as Creston only.

W. Muir of Kuskanook was in Sirdar Thursday to take delivery of a pedigreed Spaniel pup which he imported from the coast.

Walter Dodds, who has a trap line between Kootenay Landing and Cultus Creek, came in on Monday to go over the line.

A. Mackie with his large truck took a load of Boswell and district fruit growers to the meeting in Creston, Thursday afternoon.

Considerable extra men were brought into Tye at the beginning of the week to work for the Bayonne mine. The men were from Nelson.

A. S. Jones, road superintendent, of Cranbrook, stopped off here and inspected the progress of the highway construction before proceeding to Nelson.

Wilmer Chesler along with another C.P.R. lineman have been engaged for several days putting new arms for the wires over the railway bridge at Atbara.

The water as indicated by guage at Slough bridge reads 1 50, a rise of 0.10 for the week. Although early yet, indications are for a steady rise from now on.

Splendid progress is being made on the road this week and it is rapidly coming into shape. Traffic is proceeding without any interference from operations on the work.

Donald Young of Creston, who has been in charge of one of the trucks on road construction all winter, has left to drive another truck in town, Cliff Gregory of Wynndel taking over the truck here.

Our K. B. O. Broadcast

Another barber shop has opened for business at Fernie.

A move is on foot to revive the board of trade at Golden.

Full bloom butttrcups are reported near Cranbrook last week.

The C.P.R. has commenced dismantling its buildings at Yahk.

The Bank of Montreal has closed its branch at Revelstoke.

At Penticton the council is converting the airport into a golf course.

A cougar was seen in the back yard of a Grand Forks resident one morning last week.

The Observer hears that the Imperial Bank will shortly open a branch at Salmon Arm.

Pear and apple blight is bad at Grand Forks where orchardists have been ordered to clean up.

Due to the bad shape of the roads Greenwood theatre is only open one night a week—Friday.

School attendance at Kelowna is away down. The town has an epidemic of both mumps and measles.

For singing on the streets of Trail after midnight six youths of that town have just been fined $10 each.

Cranbrook dealers have shipped in very little hay this season. The retail price has been around $23 a ton.

The new dog by-law at Vernon puts the same restrictions on Airedales as are imposed on police dogs.

The April meeting of Creston Valley Post Canadian Legion will be held Tuesday, evening, 2nd, at 8 o'clock The chief business will be consideration of a report from the building committee.

To-night's social attraction is the baseball club bridge at the Parish Hall, with cards at 8.15 prompt and an admission of 35 cents. The funds will be used to buy needed equipment for 1935.

WANTED—5 to 20 acres uncleared land suitable for poultry and garden in Creston-Erickson district, situated reasonably near school. State price and give full particulars. Write Box 19, Review Office.

Mr. Major of Proctor as a business visitor to Creston at the weekend, and during his stay purchased two teams of work horses from W. Armstrong, which the latter recently brought in from Saskatchewan.

C. S. Squires of Robson, a former manager of Creston Co-Operative Fruit Exchange, when the Exchange was the sub-central for the Associated Growers, was renewing acquaintances in Creston at the end of the week.

Word from Spokane is to the effect that Chas. O. Rodgers is making quite a satisfactory recovery from quite a serious operation he underwent at Sacred Heart hospital, in that city late last week. Mrs. Rodgers is with him.

The two big scrapers and bulldozer are back on the finish-up work of Creston Reclamation Company, Limited, dyke in the neighborhood of the J. W. Dow ranch. The two draglines are nearing completion of operations at the Wynndel end.

It is expected the drawing for the lucky ticket on the hospital sweepstakes will take place at the Grand theatre after the show on Saturday night, 30th. The winner gets $750 in cash or ten acres of the Creston Reclamation Company, Limited, flats acreage.

About the largest crowd ever seen at an orchardists meeting in Creston was in evidence Friday afternoon for the gathering at which the speakers were W. E Haskins and G. A. Barrat of the B.C. Tree Fruit Board, who were in the district Thursday and Friday last.

The basketball season was wound up in spectacular fashion on Friday night before a capacity house at Park pavilion when the Creston Review quintette won the championship in the ladies' division of the league by beating Moore's Garage 16-14 in over time in the final of the best in three series of the playoffs.

There was a fair turnout for the annual meeting of Creston C.C.F. Club on Thursday last at which John F. Murrell was re-elected president; A F. Rudd, Wynndel, vice-president; R G. Penson, Erickson, secretary-treasurer, and an executive of five members. Announcement will be made in a few days of the appearance here of a speaker.

Col. Wright of Vancouver was a visitor at Creston at the middle of the week, and by special request spoke on Thursday night in the United church basement under the auspices of the local branch of the British Israel Federation, continuing his talk on "Marks of Identification," that was so well received on his appearance here March 20th.

It is reliably stated that the motor bus service between Spokane and Creston has changed hands, the new owners being the Washington Motor Coach Company. With the change of ownership also comes the announcement that when bus service is resumed the bus will make the Canadian connection at Yahk, instead of Creston as for several years past. There is some talk of a night bus being put on by the new owners.

Word reached here on Thursday afternoon last of the death of W. S Bush, a former well known Creston resident, who passed away quite suddenly at his home on Lulu Island, near Vancouver. He was 62 years of age and is survived by his widow, one daughter and three sons one of whom, George, is still resident of Creston. Mr. and Mrs. Bush left here about four years ago, and lived at Spokane for a time, before going to the coast.

There was a large turnout of shareholders of Creston Valley Co-Operative Association for the annual meeting at the United Church hall on Saturday afternoon, with the president, L. T. Leveque, in the chair. The balance sheet and trading statement was the best ever submitted J.Turner, Percey Boffey were re elected to succeed themselves as directors, and along with T. R. Mawson, L. Littlejohn, H. Young, L. Goodwin and Mr. Leveque make up the board of management for 1935.

Wynndel

Mrs. Sixsmith and Miss Chaplin returned on Sunday from a visit at prairie points.

Cranbrook Courier: Oscar Ofner is making application under the placer mining act for a claim on Nigger Creek, in the Lumberton district.

The weather took a wintry turn on Sunday, snow falling all day. The side-roads are in bad shape, and in some places really dangerous for a horse and buggy.

Mrs. W Cooper was a bridge hostess on Tuesday afternoon at which the high score prize fell to Mrs Towson; second prize, Mrs. E. Uri, and consolation went to Mrs. S. Benedetti.

A meeting of Wynndel tennis club was held in the hall Wednesday evening when the following officers were elected: President, G. Benedetti; vice-president, A. E Towson; secretary-treasurer, D. Taylor.

Miss. D Butterfield was hostess to a number of friends on Friday afternoon at bridge. The high score prize was taken by Miss E. Towson; second prize to Miss Florence Wood, and Mrs Cooper consolation winner.

Mrs. Jas. Wood and Miss Florence Wood were joint hostesses at a bridge at their home on Wednesday afternoon. High score prize was won by Mrs. M. Wigen; second prize went to Miss D. Butterfield; consolation prize, Mrs. A. Benedetti.

The Wynndel Women's Institute will celebrate the seventh birthday of the organization with a community treat this evening, bridge to start at eight o'clock, to be followed by musical items and a dance. Music will be supplied by local talent.

There was a large turnout for the meeting in the hall on Thursday night when Tom Mountford spoke "What I Saw in Soviet Union (Russia)." H. Pearson was chairman. After Mr. Mountford's talk he was called upon to answere numerous questions which kept him busy.

The K.K. dramatic club members are putting the finishing touches on their three-act offering, "Lighthouse Nan," which will be seen at the hall on Friday evening, April 5th, with the curtain at 8 o'clock prompt. The club promises the best comedy offering yet submitted and to substantiate their claim it is only necessary to mention the cast which includes Clem. and Campbell Payette, Fred and Ellen Hagen, Betty and Jim Hulme, Mary Abbott, Mrs. E. Uri and Clarence Wilson. There will be musical numbers between the acts, and after the play there will be a dance. The admission is at popular prices.

Fernie, B.C., March 22.—Fernie lost another of its pioneer families Tuesday when Mr. and Mrs. Jim Broley moved their home to their property to Wynndel. Mr. Broley had seriously considered going back to the mining propert at Two Brothers Lake where he spent the greater part of last year but decided finally to stay closer home. On the eve of his departure he received notice of his appointment as road foreman near the Creston district so that things seem to be breaking his way at present. Mr. and Mrs. Broley will be missed from Fernie where they have been well known for many years.

The March meeting of the Women's Institute was held in the church on Thursday last. 27 members were present. Five new members were enrolled. Final arrangements were made for birthday party. The neighborhood needs committee reported underwear had been given out. Resolution from Robson institute, re-education was unanimously endorsed. The matter of a library was discussed and members were fully in accord with the plan. More information is to be secured. Donations toward fall fair prize list reported. April meeting will be a talent afternoon, each member to sing, tell a story or do something. Tea hostesses were Mrs. Clark, Mrs. Glasier, Mrs. Ogilvie, Mrs. E Uri. Mrs. Eakin, jr., favored with an organ solo.

Our K. B. O. Broadcast

During the laying serson of 1934 the experimental farm at Windermere had three hens in the 300-egg class.

According to the Herald more new settlers are coming into the Bonners Ferry district this year than ever before.

The 1935 lambing season at the Windermere experimental farm has been a distinct success. The increase is 175 per cent.

The Granada is the name of the remodelled Grand Forks movie theatre. It will operate Tuesdays, Thursdays and Saturdays.

In order to clean up the balance of the apple crop the prices on all varieties has beed cut—Delicious as much as 40 cents a box.

At Kelowna the council has decided no more fall fairs are likely to be held in that town and will sell the exhibition grounds and buildings.

A homing pigeon club has been organized at Cranbrook and many birds are due to reach that town next month. The first races will be held in July.

Rossland's swimming pool operated at a profit of $3.54 last year. $755 was collected on membership tickets and swimming privileges.

The Herald say there is at present almost $400,000 of new construction work in sight at Penticton and district. Much of this is for cold storage and packing houses.

WORLD HAPPENINGS BRIEFLY TOLD

Reunion of Toronto survivors of the Northwest rebellion in 1885 has been planned for July 26.

Lord Edward Montagu, young British nobleman who is determined to lead "a life of adventure," was said by friends to be planning to join the Spanish foreign legion.

The Quebec government's $10,000,000 plan, "to promote colonization and return to the land," received third reading by a 41-8 vote, in the Quebec legislative assembly.

Amendments to the British Columbia Hours of Work Act to provide a six-hour day and 36-hour working week were defeated in the legislature.

Former Premier Eleutherios Venizelos, leader of the unsuccessful Greek revolt, forecasts policies of the present Greek government would lead to restoration of the monarchy.

When it comes to fighting a duel, J. E. Pageot, Montreal restaurant owner, prefers soda bottles to revolvers any time. Pageot routed a bandit by laying down a barrage of soda bottles.

A thoroughbred Great Dane, Sax of Cairndania, will leave York Mills within the next two weeks to become guard for the Dionne quintuplets' hospital at Callander, Ont. Mrs. George Hyslop is making the presentation.

Possibility of distillation of fuel alcohol from surplus low-grade potatoes will be studied and representations made to the provincial government by Edmonton District Market Gardeners' Association, that body has decided.

Soviet authorities announced the arrest of 1,074 members of the old aristocracy and old moneyed class. Some of them, it was said, will be tried for "activities against the state in behalf of foreign countries," while the rest will be exiled to the eastern reaches of the Soviet Union.

The number of hogs graded in Canada for the first eight weeks of 1935 was 473,011. During the corresponding eight weeks of 1934 the number was 517,324.

New Zealand was the principal source of butter imported into the United Kingdom during 1934, supplanting Denmark as the premier exporter.

Little Journeys In Science

PETROLEUM

(By Gordon H. Guest, M.A.)

Petroleum consists chiefly of a mixture of compounds known as hydrocarbons. It is found in large quantities in California, in Oklahoma, in Russia, Mexico, the Dutch East Indies, Galicia, Persia, and Rumania. In 1925 the world's production of crude petroleum was about 1,000,000,000 barrels.

Crude oil is trapped in what the geologist calls an anticline, which is a sort of inverted bowl of clay or shale, and is reached by drilling wells. The first oil well in America was dug by Colonel Drake at Titusville, Pennsylvania, in 1859.

Russian petroleum is found in and around Baku, near the Caspian Sea. History tells us that as far back as 600 B.C. "the eternal fires of Baku" attracted the fire-worshippers.

Petroleum is separated into various products by a process known as fractional distillation. The compounds which make up petroleum boil at different temperatures, and hence they can be separated by distillation. One fraction comes off as a vapour at a certain temperature, and is collected in the receiver of the still. When most of this fraction has been boiled off the temperature is increased, and another receiver placed in the still to collect this fraction of the petroleum.

Petroleum contains gases in solution, such as methane (marsh gas) and ethane. When the crude oil is heated gently these gases are driven off and used as fuel and for the manufacture of carbon-black, which is of value in the paint industry. As the temperature is slowly increased liquids which are known as naphthas come off as vapours, and are condensed by cooling to liquids again. The scientist finds that these liquids consist chiefly of pentane and hexane. This fraction of the petroleum is used as a solvent in the rubber and varnish industries. The next fraction is gasoline, which is used extensively as motor fuel and as a solvent. Kerosene (coal-oil) comes off next and is used as an illuminant and a fuel. After the kerosene is distilled off, lubricating oils and paraffin are obtained. The tar-like material which is left in the still is used as artificial asphalt and as a source of a light, porous coke.

Workers' Rights

Need Of Amicable Arrangements Between Masters And Men

Acceptance of the workers' right to live comfortably and participate in their part of the direction of industry was set forth by one of the foremost figures in Canada's mineral industry as tantamount to preservation of existing social and industrial fabrics.

Selwyn Gwillym Blaylock, vice-president and general manager of the Consolidated Mining and Smelting Co., Trail, B.C., invited 300 members of the Canadian Institute of Mining and Metallurgy to study the "co-operative committee" system his company has substituted for trade unionism.

Declaring government labor legislation or state-controlled industry quite inadequate, the president of the institute stressed the need of amicable arrangements between employers and employees to put industry and commerce on a sound basis.

Mr. Blaylock's address featured the closing day of the institute's three-day meeting in Winnipeg. Mr. Blaylock was presented a platinum medal for his "outstanding contribution" to the mineral industry.

Employers did not monopolize the brains of the country but the average brain of the artisan was "fully equal, if not superior, to the average of the rest of the world." Industry and every phase of life would function more fairly and make better progress if the brains of both classes were pooled in the friendliest possible co-operation—"and the best way I know of accomplishing this is through 'co-operative committees'."

Mr. Blaylock outlined the co-operative plan in effect at the Trail, B.C., smelter.

Germany, Scotland and England are all waging war on muskrats.

FOR DISTINGUISHED SERVICE

As the annual award for distinguished service to the Canadian mineral industries, the medal of pure Canadian platinum shown above, was made to S. J. Blaylock, noted Canadian mining executive of Trail, B.C. The first of the platinum medals, designed by the famous sculptor, Tait McKenzie, was struck at the Royal Mint in Ottawa.

New Style Torpedo

Invention Of Italian Scientists Does Not Warn Of Approach

A torpedo which gives its victims not even the present momentary warning of its approach is to be added to the submarine terrors of the next war. Two Italian scientists have produced a torpedo which leaves no track. The motive power is ammonia gas, which dissolves instantly in water. Present day torpedoes, driven by compressed air, leave a tell-tale track of air bubbles. These can be sighted at a distance and the victim is thus given a slight chance of manoeuvring out of danger.

Sees Large Tourist Business

Banner Year Predicted By Official Of Travel Bureau

Prediction 1935 would be a banner tourist year with business approximating the $309,000,000 peak year of 1929 was made by D. Leo Dolan, director of the Canadian Travel Bureau, Ottawa, in addressing the Advertising Club of Montreal.

The tourist dollar was the "healthiest money" the Dominion could hope to receive this year and in the years to come, he said, as it increased general employment and made possible greater distribution of the products of the farm and stream.

The blind of York, England, are to be given free rides on trolleys and busses.

SUNDAY SCHOOL LESSON

MARCH 31

LESSONS FROM THE LETTERS OF PETER

Golden text: Grow in the grace and knowledge of our Lord and Saviour Jesus Christ. II. Peter 3:18.

Lesson: I. Peter 5:6-11; II. Peter 3:14-18.

Devotional Reading: Isaiah 55:6-13.

Explanations And Comments

Through Antagonisms to Perfecting; I. Peter 5:6-11. Humble yourselves under the strong hand of God then, so that when it is time, he may raise you; let all your anxieties fall upon him, for his interest is in you (Moffatt's translation). The last clause in the Greek reads literally, "because he has you in his heart."

Be sober, be watchful. "See to it that you are not intoxicated, drugged into any perilous stupor. Keep your head clear. Be collected. Now the apostle is writing to men and women who are professedly the followers of Jesus Christ; and I think there are two perils in the religious life which have their issue in moral stupor. We can lose our senses in excitement, and we can lose them in sleep. There are perils in sensationalism, and there are perils in an encroaching drowsiness. There is an excessive emotionalism which is the peril of all revivals And there is the moral stupor which is the issue of a growing indifference."

Your adversary the devil, as a roaring lion, walketh about, seeking whom he may devour. "I think there is something very suggestive in the figures employed by the Bible to describe the approaches of the powers of evil and night. The devil has a fairly extensive wardrobe, but his common and more familiar guises are of three types:—a serpent, an angel of light, and a roaring lion. It is in one or the other of these three shapes that the forces of sin most frequently assail us They come in the guise of the serpent! They beguile our senses. They pervert our judgment. They enchant our imaginations. We are fascinated, bewitched, paralyzed, by the influence of some illicit and unclean spell. He comes also in the guise of an angel of light! He would turn religion into thin refinements; he would convert a deep devotion into a plausibility; and he would transform a hallowed trust into light and flippant presumption. And the devil also comes as a roaring lion! When the apostle wrote this letter the lion was about; Nero was at work; the Christians were being hunted unto death, in the vain attempt at stamping out their faith and devotion to the Man of Nazareth, their Saviour and their Lord!" (J. M. Jowett).

New 'Plane Tested

A swift new government monoplane, equipped with an improved radio compass, soared out twice over the Pacific ocean at Oakland, Cal., testing the equipment which the U.S. department of commerce officials said may be used as the "keystone of a system of air navigation over water."

One-thirteenth of an individual's body weight consists of blood.

A Law Every Mother Should Know and Observe

Never Give Your Child An Unknown Remedy without Asking Your Doctor First

According to any doctor you ask, the only safe way is *never* to give your child a remedy you don't know *all* about, *without asking him first.*

When it comes to "milk of magnesia," that you know everywhere, for over 60 years, doctors have said "PHILLIPS' Milk of Magnesia for your child."

So—*always* say *Phillips'* when you buy. And, for your own peace of mind, see that your child gets this; *the finest men know.* Made in Canada.

Safety for You and Yours
You can assist others by refusing to accept a substitute for the genuine Phillips' Milk of Magnesia. Do this in the interest of yourself and your children—and in the interest of the public in general.

Author of "The Coronado Trail", "The Canyon Trail", Etc.

SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin."

Dad Kane, desert rat and luckless prospector till now returns to tell Dustin and Spike Goddard, who had grubstaked him, of his doscovery of a rich gold mine, and shows samples of the ore.

Dustin unexpectedly comes along while Stone and Edith are riding fence, and seeing them, stops and talks to Edith. He mentions their dispute could be settled by marrying him, and Edith refuses his proposal with remarks that make Dustin furious. He insults Stone, who promptly throws him into a pool of water.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men rustling Carr's cattle. He sets out with Dad Kane to learn the location of his gold discovery. Dad Kane shows Dustin the mine.

They go back to camp, and Dustin shoots Kane. He fixes the shooting on Peyotl Gregg, a drug addict, who, stupefied by the narcotic he had taken, did not know whether he was guilty or not. They bury Kane and then return to the Broken Spur ranch.

Meanwhile at the Hour Glass, Carr, Crewe and Stone speculate as to the meaning of entries in the notebook belonging to Dad Kane that Stone had found. Stone thinks of a possible solution, and, accompanied by Edith Carr, rides out to Red Water to test out his theory, which proves correct, and they find the rich gold deposit mentioned in the prospector's notebook. As they return to the ranch, they meet Dustin leaving the house, who purposely, but unsuccessfully tries to ride down Stone.

(Now Go On With The Story)

CHAPTER XIV.—Continued

He walked on up the street and never saw the tall figure of Sam Dustin standing in the shadows by the court-house door. Dustin's finger crooked in the shadows and another figure joined him; the loose, shambling shape of Peyotl Gregg.

"See that man, Peyotl?" Dustin pointed to Stone. "That man has come in to meet the man Gerald Keene, who comes on the night train. The man will call himself Keene, but his right name's Kane. You see, the old man found a gold mine and it was on the Hour-glass land. This nephew wants to find him. If he finds him . . . you'll hang. Don't forget that. I'll be at the hotel when you're ready to go back to the Broken Spur."

Peyotl gave him one frenzied glance and his right hand sought his coat pocket. Dustin gave a little gasp. The man was half-crazed with fright and murderous intent. Dustin grabbed him by the arm. A little white foam lay in the corners of Peyotl's mouth and his eyes glared with a light there was no mistaking. After a dozen of those infernal cigarettes Peyotl was ready to kill and Dustin knew it.

"Don't you take a chance," he muttered. "Don't pull anything at the station or in public where people can see you. Wait! You'll be sure to get a chance in the dark if you wait. I'd trail 'em if I were you and choose some dark place. Of course I don't know what you're plannin'. . . . You're a damned fool, Peyotl. . . ."

He sauntered off in the dusk and Peyotl, half walking, half reeling, headed for the little station.

Stone had already picked up Carr and Crewe and was waiting at the car when the train came in with a sheet of flying sparks from the hard-set brakes. Stone himself was the first to leap to the steps of the Pullman and was almost knocked off his feet by the rush of a man who did not wait for the train to stop.

"Duro . . . Duro Stone, by all the gods! . . ." A great hand smote Stone on the shoulder, almost knocking him over. "Who's with you? We must get together. . ."

"Wait a bit . . ." Stone muttered between his teeth. "Here's your present partner. . . . We'll have to get together as soon as we can. I've got a lot to tell you. We need two heads here. . . ."

The crowd prevented any exchange of confidences and then Crewe came up with old Joe Carr.

"Mr. Carr"—Stone grabbed Joe by the arm—"you wanted to meet Mr. Keene. . . ."

A hand thrust forward and old Carr seized it. This was Gerald Keene, the nephew of his old-time partner. Gerald Keene, the only man who could help him in his hour of trouble. He shook that hand as one might snatch at a life-preserver flung in roaring seas.

"If you're Gerald Keene," he said, "you don't know how darned glad I am to see you. We've got a lot to talk over this very night."

"How about some grub, sir, first of all?"

"Fine. And after that we'll have a few drinks at the Silver Dollar and then home to the Hour-glass."

Those last words reached Peyotl, standing among the freight. He was satisfied now. The party would go to the Silver Dollar and that would give him his chance. He slunk off up the street and busied himself in the Mexican quarter of the town while Stone headed with his party for the hotel.

That dinner with its long delays and frequent drinks that came slowly from the bar, kept them till nearly ten o'clock and old Joe Carr fought his way from the table in spite of Crewe. His manager saw signs of what was coming and wanted to avoid it. Carr insisted.

"Of course Keene wants to see the sights," he clamored. "I haven't been in town for a year. I'm a wolf and this is my night to howl. Hell, man! Come on. No one's goin' to get drunk. I just want to play my old favorite 'Cripple creek' once more. Let's get down to the Silver Dollar. They have a big lottery there at eleven."

They headed for the Silver Dollar.

CHAPTER XV.

Peyotl Gregg had friends in Seco of whom Sam Dustin knew nothing. For five years he had supposed that he was the sole source of Peyotl's dope supply but that was because Peyotl had successfully smuggled his store into the Broken Spur unknown. If Dustin had known, it would have gone hard with Peyotl. The moment he left Dustin, Peyotl sought out one of those friends.

Pascual Mendez herded sheep (and that shows how far Peyotl had fallen. Not for nothing does the proverb run "If a man will do that, he'll steal sheep"). Many of Pascual's sheep were black and Peyotl was not one of the whitest . . . In Mendez's jacale, Peyotl tock account of stock. Mendez was absent but Peyotl knew where to find what he wanted. From a hole in the trodden clay-floor he extracted an old cigar-box from which he took a red-and-green package of those ill-favored cigarettes, lit one and sat down to think. The very first puff stimulated him; the next gave exhilaration. Dustin was a good friend who had given him excellent advice and the future seemed roseate and happy. He passed rapidly from the first stage of half-lifted despair to the next, in which he saw complete fulfillment of his own desires. When he had smoked three cigarettes on an empty stomach he knew suddenly that he faced a golden future . . . if only this man Gerald Kane . . . or Keene . . . could be removed. Who was this stranger that he should hound a man to the gallows?

"By Gar . . ." The home-made oath satisfied him. . . . He flung the cigarette to the floor, stamped out the spark, felt in his pockets and laid their contents before him . . . the stubby little Derringer pistol and three cartridges filched, he thought unseen, from Dustin's desk; a knife, a box of matches and a huge yellow-and-green bandana neckerchief that stunk and reeked of the peyotl that he had been smoking. He very carefully loaded both barrels of the pistol, snapped it shut, wrapped it in the bandana neckerchief and thrust it into his coat-pocket on the right side.

This stranger must be removed! If he remained in Seco, his search for old man Kane, his uncle, would disclose the fact that he, Peyotl, had killed him. The result was plain.

He had heard those men say that they were going to the Silver Dollar and, of all places, the Silver Dollar was the most satisfactory for the carrying out of his plans. Of course he could not go brazenly into the bar and shoot down this man Gerald Kane. That was not necessary. Some subterfuge must be devised. He felt in his pocket to assure himself that the bandana lay ready-to-hand and moved down Seco's main street toward the lights of the Silver Dollar.

He was too wise to enter that brightly lighted room where a dozen men knew him. From the back door that gave on the littered yard he studied the place.

The bar was crowded with men from the Broken Spur, the Cross Keys and with a dozen "Dry-farmers" in town for a night off. The roulette table and the chuck-a-luck stand were doing a healthy business and May Wilson keeping cases at the faro table had her hands full. As Peyotl stared in through the partly open back door, he realized that the setting was perfect. All he needed was the opportunity.

The slatted front door slammed suddenly open and Peyotl shrank back into the dark as Carr and his party flung into the room.

Another Tradition Upset

Earth Ebbs And Flows Like Tides Of The Sea

A favorite occupation of physical scientists is the carefree upsetting of history, fables, or common belief by the insertion of facts which prove or explain how things really happened.

From time immemorial the good dirt regions of earth have been considered stable. Even the Romans famed instigators of tall stories, never thought of calling the ground anything but terra firma. Now, Dr. Harlan Stetson, Harvard astrophysicist, tells us that not only are we walking on a thin upper "crust" of a wrinkled old apple called Earth, but even this crust heaves to and fro like the tides of the sea.

Everyone knows the sea has its ebbs and flow, but no one guessed that land areas could be affected likewise until Dr. Stetson said so. With superaccurate clocks or chronometers, and more careful squinting at the stars, he corrected those "clocks" to the split second and found that Europe and America drift apart as much as sixty-three feet twice daily and come together again by a similar amount. All of which means another time worn tradition is ready for the discard.

But for all the researchists, when Popeye and Barnacle Bill step ashore with their curious "sealegs" they can't get away with any tales about how difficult it is to get used to the billowing waves of land tides after a peaceful jaunt at sea. Nor is sixty-three feet enough of a variation to excuse European or American fluctuations of policy when attempts are made to agree on matters of trade, finance and world peace.—Christian Science Monitor.

SKIN BLEMISHES

Vanish Before Physician's Prescription

Those spots, or pimples on your face—why let them go on tormenting you? Like millions of others have done, you can get rid of your skin trouble through the work of a great physician—Dr. D. D. Dennis. Dr. Dennis' prescription—known in many countries as D.D.D. and now manufactured by Campana's Italian Balm chemists—will bring you relief at once, and quickly restore your skin to health. All druggists sell D.D.D. Trial size, 35c. Guaranteed to give instant relief or money refunded. 3

The Pony Express

Was Started In United States 75 Years Ago

Just seventy-five years ago the Pony Express, which used to carry mails in the United States, was started. The most famous of these services operated between San Francisco and New York. There were 80 of the finest horsemen and 400 hardy mustangs in the service. They worked in relays of 80 to 90 miles each, and covered the transcontinental journey in nine days.

Evidently He Knew

The teacher asked whether any one could give her a good definition of toast. Only one hand went up.

"All right, John, you tell us about toast."

"Toast," said John confidently, "is burnt bread scraped."

The remarkable thing about family pride is that people can be proud of so little.

The less a man boasts the more true worth he possesses. 2001.

Little Helps For This Week

"He that is slow to anger is better than the mighty, and he that ruleth his spirit than he that taketh a city." Proverbs 16:32.

Purge from our hearts and strains so deep and foul,
Of wrath, and pride, and care;
Send Thine own holy calm upon the soul,
And bid it settle there.

Let this truth be present to thee in the excitement of anger—that to be moved by passion is not manly, but that mildness and gentleness, as they are more agreeable to human nature, so also are they more manly. For in the same degree in which a man's mind is nearer to freedom from all passion, in the same degree also it is nearer to strength.

It is no great matter to associate with the good and gentle, for this is naturally pleasing to all, and everyone enjoyeth peace and loveth those best who agree with him. But to be able to live peaceably with hard and perverse persons, or with the disorderly, or with such as go contrary to us, is a great grace, and a most commendable manly thing.

The True Optimist

One Who Faces Difficulties And Tries To Overcome Them

"The true optimists of life are not those who have always 'had things easy,' and know nothing of care or trouble; neither are they the ones who resolutely refuse to acknowledge the presence of sin and sorrow. They are those who determine to meet facts honestly and can give themselves eagerly, untiringly, to fighting the sin and lessening the sorrow and the pain."

HAVE YOU Digestive Troubles?

Mr. W. J. Fisher, 398 Hunter St. W., Hamilton, Ont., said: "I suffered from catarrh of the stomach, could eat but very little and that would cause distress. I grew weaker daily and had headache almost constantly. I became very much discouraged. After taking Dr. Pierce's Golden Medical Discovery I was able to eat, gained in weight and resumed my work." All druggists.

Italians Dislike Radio

Get More Pleasure Out Of Talking Than Listening

Out of 43,000,000 in Italy only 395,000 own radio sets. Even Austria with a bare 6,000,000 population claims to have 506,000 sets. Character of Italian tastes, illogical taxation, commercial ineptitude, poor programs and irksome police control are blamed. First and foremost, the people spend much of their leisure in cafes, bars, hotels, restaurants and being voluble they find in a radio a competitor who can be neither reasoned with nor bawled to silence.

Madame Marie Curie was the first person to receive the Nobel prize twice; she received it in 1903, with her husband, for physics, and again in 1911 for chemistry.

SWEARS TO TRUTH OF STATEMENT

Mr. Sam Sansone, 44 Front Street, Toronto, tells in a sworn statement how Fruit-a-tives brought lasting relief after he had suffered badly from indigestion. He wants other sufferers to be helped as he was. That is why he gives a statement of his experience. And in order that everyone may be convinced of its absolute truth Mr. Sansone made his statement under oath before a notary. In part, it reads,—"For a long time I suffered badly from indigestion. I tried everything but I continued to get worse. A friend of mine recommended Fruit-a-tives. After taking them, it was not long before I was entirely well and could eat anything without pain or after effects."

Copy of Mr. Sansone's complete sworn statement will be sent on request. Write Fruit-a-tives Limited, Ottawa, Canada.

FRUIT-A-TIVES—25c and 50c EVERYWHERE

A barbecue, popularity contest, maypole, children's sports, parade and dance at night will be features of Creston's observance of the coronation silver jubilee on May 6th.

George Bush left on Friday for the coast to attend the funeral of his father, the late W. S. Bush, who died quite suddenly at his home on Lulu Island, on Thursday.

S. S. Savage of Calgary, Alberta, manager for the brokerage firm of C. H. Ro - onson & Co., was here a couple of days last week in conference with valley fruit shipping houses.

TENDERS WANTED—For stumping and breaking five acres, work to be completed by June 1, 1935. Lowest or any bid not necessarily accepted. Enquire Review Office.

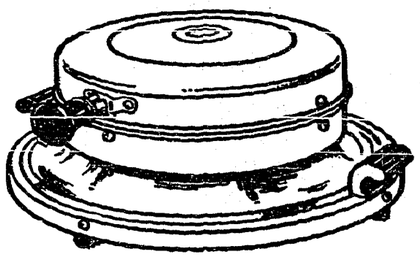
The March meeting of the Women's Auxiliary to Creston Valley Post Canadian Legion was held on Tuesday evening. Due the poor shape of the highways members from outside points were unable to be present. The treasurer's report was encouraging. Mrs. K. Knott reported on card party and dance at Canyon. The president, Mrs. W. V. Jackson, reported a number of visits and remembered sick members with fruit. Per capita tax was discussed at some length, the same being payable this month. New members wishing to join in June may attend meetings as visitors up to the last month of the preceding year. Mrs. G. Vigne gave a report on the King's Jubilee committees' meeting held in the town hall. There was the usual half hour of sociability after adjournment, with Mrs. Jackson as hostess.

CARD OF THANKS

Mr. and Mrs. John Miller, jr., wish to express their sincere appreciation of the help accorded them by their many friends since the destruction of their home by fire, particularly for the shower, the benefit dance and many other kindnesses.

Hotpoint

Waffle Iron



If you have never eaten waffles you have a delightfully pleasant surprise coming. To whiff the appetizing aroma of a waffle as it cooks at the breakfast table—to see its honeycombed surface brimming with syrup and to crunch its delicious crispness, is to satisify all these senses, of smell, sight and taste in as many moments. Incidently there are forty-eight different recipes to make with a General Electric WAFFLE IRON $8.95
