THE CRESTON REVIEW

Vol. XXVI | CRESTON, B.C., FRIDAY, NOVEMBER 15, 1935 | No. 29

Fire Destroys Packing Sheds

Long, Allan & Long, Limited, Warehouse at Erickson Prey to Flames—Everything is Lost Including 12,000 Boxes Apples

Fruit warehouses covering about 350 x 40 feet, along with fully modern packing house equipment and some 12,000 boxes of apples went up in smoke at Erickson on Saturday when fire completely destroyed the extensive fruit packing, shipping and warehousing plant of Long, Allan & Long, Limited.

How the fire started is still a mystery. It was noticed about 12.30 by some of the shed employees who promptly raised an alarm, and equally promptly phoned Creston for the village fire fighting equipment, which was quickly rushed to the blaze.

With quite a moderate gale blowing out of the northeast the flames spread rapidly and although a large number of volunteer fire fighter were promptly on the scene the blaze had gained such control that nothing could be salvaged. The heat was so intense that the C.P.R. depot was seriously threatened but the volunteers with the aid of the chemical engine from Creston were able to save it, although the waiting room and office were badly scorched. The contents of the freight shed and the household effects of the agent, T. W. Bundy, were removed without damage.

Four refrigerator cars that were on the siding waiting to be loaded were also destroyed, but one car loaded with apples was safely removed from the danger zone. Cranbrook was promptly advised of the fire and a light engine was rushed to Erickson but arrived too late to save the empties, which were coupled and were too heavy for the fire fighters to shift out of danger. So fast did the flames spread that some of the employees were unable to re-enter the building to save their hats and coats.

Three buildings went up in the conflagation. These included the old Crestland Fruit Company warehouse, purchased two years ago by Long, Allan & Long, adjoining which was the firms original main building, and the third structure was owned by Putnam & Cartwright. Along with the buildings the firm suffered complete loss of all packing house equipment and supplies, including their new Cutler rotary grader, which was only installed this fall.

In an interview with C. W. Allan, he stated that "The orchardists interests will be protected to the fullest extent and that no grower has occasion to worry."

The firm is now employing the packing crew in town where they are at present putting up a bench pack, but expect to start running a grader some time this week, in order to finish up the balance of the season's pack of about 35,000 boxes of apples.

Mr. Allan also states that he is now working on plans for a new warehouse on the same site at Erickson, and will commence building as soon as possible. The shed will be fully modern and will have greater storage capacity than the former building. He will have everything in readiness for the 1936 season. The firm will hold a meeting of the growers some time in the near future to fully explain the situation.

BRIDGE and Whist Drive

Wynndel

Mr. and Mrs. E. Andestad and Miss H. Andestad were Nelson visitors last week.

Mr. and Mrs. Stan. O'Genski of Slocan were auto visitors, guests of Mr. and Mrs. E. Uri.

Mr. and Mrs. A W. Burch were auto visitors to Cranbrook for the Armistice weekend holiday.

Misses Mary Abbott and Hilda Hagen were weekend visitors at Robson, guests of Mr. and Mrs. Berry.

The November meeting of the Women's Institute will be held at the church at 2.30 p.m., Thursday 21st.

Mr. and Mrs. G. McIntyre and son, of Trail, who have been visiting Mrs. McIntyre's parents, have returned home.

Principal and Mrs. Martello and young daughter returned on Monday from Trail where they were visitors at the Armistice weekend.

H. A. Bathie and son while hunting one day last week bagged about the largest white tail deer ever shot in this district. It had 25 points, and weighed about 300 pounds.

The November meeting of the Ladies' Aid was held at the home of Mrs. J. G. Abbott. A fruit contest was won by Miss Agnes Crane. Wool was carded and a baby comforter was made for a needy person.

The military whist in aid of the Christmas tree fund was a splendid success, $20 being realized for this good cause. The winners were C. Wilson, Miss M. Rogers and Mr. and Mrs. J. Pascuzzo, the latter three of Sirdar. Consolation honors were annexed by J. Hulme, A. Benedetti, M. Hackett and Mary Abbott. The goose donated by Mrs. Hulme was won by C. Ostrensky, who held the lucky ticket. Alf. Edgar won the casserol which was raffled by the Women's Institute. Dancing brought the evening to a close, with music by A. and R. Andestad, J. Hulme, F. Hagen and Miss Talarico of Sirdar The entertainment was in charge of Mrs. M. Hagen and Mrs Hulme, convenors of the Christmas tree fund.

Erickson

Mr. and Mrs. H Armstrong of Cranbrook spent a couple of days here, guests of Mrs. Speaker.

Miss Muriel Thurston, who has been at Toronto for the past year, arrived home on Sunday.

Mrs. Fred Speaker, who has been visiting at Cranbrook the past two weeks, arrived home Monday.

Mrs. J. Murphy was hostess to Christ Church Ladies' Guild at the November meeting on Tuesday last.

J. E. Brown, the new public school inspector, was here on his semi-annual visit at Erickson school at the first of the week.

Mr. and Mrs. Alger, Mrs Adams and Miss Munn of Los Angeles, Calif., who have been visiting with Mrs. McKelvie, left for home the latter part of the week.

The November meeting of Erickson Ladies' Hospital Auxiliary was held at the home of Mrs. Palfreyman on Friday evening. Plans were discussed for the New Year ball. Mrs. Baldwin was named secretary for the balance of the year, replacing Miss Edith Palfreyman who is leaving, and who was accorded a hearty vote of thanks for her splendid work the past two years.

Creston Observes Armistice Day

Weather Unpropitious and Cenotaph Exercises are Curtailed—Light Attendance at Dinner—Large Crowd at Dance.

Although the weather was anything but favorable there was a splendid turnout of returned men and a representative gathering of citizens for the morning exercises at the cenotaph. The number attending the dinner was below the standard of the last appearance around the festive board, but the turnout at the dance was excellent, the crowd at Park pavillion being estimated as just over 300.

Due the inclemency of the weather the service at the monument was brief but none the less genuine. Bugler Cox sounded the usual calls, Cease Fire, Reveille and Last Post. The invocation was by Rev. J. A. T. McLagan, and Rev. R. E. M. Yerburgh spoke briefly but fittingly. The band, which headed the parade to the monument as well as to the cemetery, played the accompaniment for O Canada, "O God Our Help in Ages Past," and the national anthem. The benediction was by Rev. A. H. Walker, who also introduced his fellow clerics. After the service at the cenotaph the ex-service men paraded to he cemetery where the graves of all fallen comrades were decorated.

At 12.30 the annual dinner was served at the Creston Cafe with the new manager and chef, Harold Beninger, providing an excellent spread and with equally efficient service. John Bird, president of the Legion, presided in happy fashion, and after full justice had been done the excellent menu there was the usual round of toasts and responses.

"The King" was replied to with a vigorous rendering of the national anthem "The Province," was introduced by C B. Twigg, and replied to by Frank Putnam, M.P.P. "The Services" was proposed by H. A. Powell, with a response by Chas. Moore. Col. Mallandaine handled the "Visitors," with responses by R. Skillicorn, H. Carne and Rev. R.E M. Yerburgh. Striking tributes to the excellent practical service rendered by the Women's Auxiliary to the Legion was expressed in the toast to the auxiliary, which was introduced by John Hall and replied to by W. V. Jackson. During the speechmaking vocal numbers were given by John Hall and J. B. Holder, and the community singing was heartily entered into by all present.

The day was concluded in splendid fashion with the usual dance for which splendid music was provided by the Imperial orchestra of Cranbrook, who were even more popular on this occasion than on their first appearance a year ago The Legion Women's Auxiliary provided a fine supper which was served expeditiously by Legion members, and during the evening the Auxiliary had a drawing for a cushion on which raffle tickets had been sold. Miss Cooke, matron at the hospitol drew the winning ticket, No. 97, which was held by Bert Lowther.

Hi Reps., Loallo Groceteria Win

Loallo Hand Cardinals Surprise Beating—High Reps. Continue Winning Streak—Groceteria Shows Some Oldtime Form.

Friday night's Commercial League basketball was witnessed by the largest crowd seen in the hall this season. Play was fast with all the teams playing bang up ball till the final whistle. There was one upset, Loallo dishing up a 20-15 beating to the flashy Cardinals. Groceteria showed up well displaying fine combination to get the High School boys 16-41. The High Rep girls disposed of Creston Motors 24-9

In the first clash which brought High Reps. and Creston Motors into action, hard checking was in evidence throughout and the score did not indicate the play by any means. High Reps. did not display the brand of ball shown in previous games, due the hard checking of the opposition. Helen Staples played a steady game at guard, as well as scoring seven points. Motors showed to good advantage with the scoring honors evenly divided. All the Motors material played steadily except Dot Weightmann, who was passing the ball far too carelessly throughout the game. The teams:

High Reps—Nell Payne 9, Theo Tompkins 4, Hare, Ruby Palmer 4, Staples 7, Beryl Palmer, Maise Ferguson, Marion Cooper, Doris Hendy, Thelma Erickson. Total 24.

Creston Motors—Browell 2, Armitage 2, VanAckeren, D. MacDonald, Avery 2, Wightmann, K Payne 1, H. Moore. Total 9.

In the second fixture Imperial Groceteria trimmed the High School boys 41-16.. From the spectators' angle this was the best game of the evening. Groceteria showed the form which carried them to the championship last season. Play was fast with High School lacking in weight and height. Scoring for the winners was distributed with Herb Couling leading with 12 points. Few shots were missed by the grocery hands. For High School LaBelle led with six points and along with Truscott and Gus Morabito were the pick of the losers. Teams:

Imperial Groceteria—H. Couling 12, Payne 7, Downes, Bill Bourdon 9, Bus Ross, Kirk 2, Speers 4, Nickel. Total 41.

High School—LaBelle 6, Gus Morabito 4, Goplin 3, York 2, Truscott, Rogers, Avery 1, Weir. Total 16.

In the final, Loallo vs. Cardinal, Dale was the star of the fruit men, making the playf with Maddess. For Cardinals, the D. Corrie-Cobus-Crawford combination was as good as ever but due the lack of teamwork by the other members of the squad they found it difficult to find their opponents' b sket. Corrie accounted for eight of the 15 points scoren. Teams:

Loallo—Maddess 3, Scott, Dale 1, Young 2, S. Nastasi 4, F. Bourdon 10, A Nastasi. Total 20.

Cardinals—Corrie 8, Hurford 3, Cobus 3. Crawford 2, Morabito, Phillips, Walde. Total 15.

The men's teams in the league have named D. Todd to act as their representative on the league executive. The ladies are due to name their representative before the end of the week.

Boswell

Clifford Bebbington expects to leave shortly for Rochester

The school at Sanca was opened last with a good attendance.

S. Spence was in Boswell at the weekend disposing of a veal he has just killed.

K. Wallace, who has been confined to his house, is now able to be about as usual.

Mr. and Mrs. S. Gullett are visiting with Mrs. Ike Lewis, prior to leaving for Harrop.

W. Mackie was hauling apples to Atbara last week. The packing shed operated a few hours on Saturday.

Eric Bainbridge has returned from a trip over his trap line. Prospects look good for the season. Numerous tracks have been seen.

The Nelson-Creston freight truck will only make two trips weekly during the winter, arriving at Boswell from Nelson Tuesday and Friday.

P. Garvie of Sanca left on Friday for the coast. He will, in future, make his home there. Mrs. Garvie and the children will follow later.

Stanley Bebbington was a recent visitor from Salmo at his home in Boswell. He met with a minor accident while employed in the mine.

Up to the present no deer have been shot in this district. There are very few tracks low down, but many are in evidence on the high ridges.

C. Schaub of Lomond, Alberta, has purchased the ranch from Mr. and Mrs. S. Gullett. He moved in with his wife and son, Kenneth, last week.

Stanley Hepher has left for Salmo where he will take up the position he relinquished in the spring to take a position with the forestry department.

C. Holden is laid up with a sprained ankle and is unable to leave the house. His neighbors organized a bee to dig his potatoes. About 30 per cent. of the crop was lost by frost.

Remembrance Day exercises were held in Memerial Hall Monday evening, under the auspices of the Farmers Institute. 33 people enjoyed an evening of military whist. B. H. Smith was master of ceremonies.

A new industry, as yet in its infancy, is springing up in Boswell. A number of the ranchers are putting up crystallized fruit in fancy packages for the Christmas trade. Some of the containers are made of pine needles, which makes an attractive gift. The demand this year far exceeds the supply. Another year, no doubt, they will go in for this on a larger scale.

The annual general meeting of Boswell Memorial Hall was held on Saturday evening. H. L. Hepher, president of the retiring board, was in the chair. In an effort to economize little was accomplished during last year. The new fence built around the grounds was the only work done. Little headway was made at financing the purchase of a new piano, which is bably needed. A resolution to amalgamate the Memorial Hall Society with the Farmers' Institute was rejected. The following were erected to the board of directors for the ensuing year: President, A. Mackie; secretary-treasurer, K. Wallace; executive. Misses S. Cummings and B. Davies, and J. Johnstone. A vote of thanks was tendered the retiring directors and the librarians.

Organ for Arrow Creek School

Women's Institute Makes Donation to Help with Payment—Hear Talk on Ethiopian War—Further Move re Cemetery.

The November meeting of Creston and District Women's Institute was held at the home of the president, Mrs. H. W. MacLaren, on Friday afternoon. The president was in charge. 16 members and two visitors were in attendance. Correspondence was light.

The government grant was received from the minister of agricultnre, also a letter of congratulation from the provincial superintendent, Mrs. MacLachaln, congratulating the local institute on work done this year. The secretary is to send a letter of thanks to all those helping with the school fair.

Prizes for the winners at the school fair were discussed. They will be the same as last year and the secretary will issue the prize money as soon as possible. Community welfare was discussed and milk will be continued for babies for another month. Christmas boxes were medtioned and will be supplied to local children now in Vancouver.

A donation of $10 was made to help with the purchase of an organ for Arrow Creek school, on request of Principal Kolthammer, who also asked for magazines that could be used for supplementary reading in that school. Storm windows will be purchased by the Institute for their ward at Creston hospital.

Following the business session Rev. A. H. Walker was guest speaker and gave an enlightening talk on the Ethiopian war. He followed this up with a discussion of current events, including Creston's need of a new cemetery. He had the latter question well in hand and discussed it from all angles. A vote of thanks was tendered the speaker. The cemetery committee will send out circular letters to all local bodies and to outlying points calling a public meeting.

The tea hostesses were Mrs. MacLaren and Mrs. Vigne. Tea money was generous, and will go to the crippled children's work. The December meeting will be at Mrs. Mallandaine's.

Alice Siding

Harry Webster has just taken delivery of a light delivery truck.

Principal Page of Alice Siding school was at his home at Rossland for the weekend.

George Willis is home from Eholt, where he has been employed for the past few months.

Mr. and Mrs. John Spratt have moved into their new residence on which construction was rushed following the disastrous fire of November 3rd.

At the meeting of Alice Siding Social club at Mrs John Marshall's it was decided to have a dance Saturday, 16th, at the home of Mrs. Marshall.

Harry Mather, Bob Parkin and Arthur Constable had a successful hunting trip over the weekend, each bringing home a deer. Frank Martin and Frank Travis were not so successful. In the duck hunting Jim Taylor had all the weekend luck.

WORLD HAPPENINGS BRIEFLY TOLD

Convicted from fingerprints on a mirror they had stolen, three middle-aged men were sentenced at Bombay to imprisonment of from one to three years.

Ontario department of education has ordered compulsory teaching of civics in all public and high schools in the province, starting in October. A new text book will be ready soon.

Business is better all over Canada and the morale of the west is improved, Robert O. McCulloch of Galt, Ont., president of the Mutual Life Assurance Company of Canada, said in an interview in Victoria.

A pearl the size of a pigeon's egg and said to be capable of protecting its wearer from all danger was part of the loot recently taken from the tomb of a Manchu prince near Peiping by grave robbers.

Lady Byng of Vimy, widow of the former commander of the Canadian Corps, Lord Byng, who died last June, has informed Dominion headquarters of the Canadian Legion she will take part in the Vimy pilgrimage in July next year.

Successful use of an instrument which bores through the brain to the skull pan and burns away tissues producing a fluid that causes hydrocephalus, a condition causing infants to become idiots, is announced by Dr. Tracy J. Putnan, of Boston Children's hospital.

Nearly $27,000,000 of new ordinary life insurance, a slight increase as compared with the same month last year, was sold in Canada and Newfoundland in August according to returns of the Life Insurance Sales Research Bureau, Toronto. Of the total, sales in Saskatchewan were $996,000.

England To Receive Relic

Armada Jewel Has Been Given To Art Collection Fund

The Armada jewel, one of the most beautiful relics of Queen Elizabeth's time, is to return to Britain. It was bought at a saleroom in London for 2,700 guineas, and it was announced that it had been given by Lord Wakefield to the National Art Collection Fund. The jewel formed part of the Pierpont Morgan collection of miniatures. It will go to the Victoria and Albert Museum, Kensington, London.

D. E. Warford, of Sawtelle, Calif., lays claim to being the most tattooed man in America.

IN UP-TO-DATE STABLES
—Old Reliable Minard's
When horses come in to stable with wire-cuts or saddle boils, or cows have caked udder, the thing to do is get the Minard's bottle at once, as Mr. Dowd of Glenboro, Manitoba, knows. He writes:
"I like your Minard's Liniment. Like to have it in the house. I have found your Minard's Liniment especially good for barbed wire cuts on horses."
A family doctor prepared Minard's Liniment over 50 years ago. Still invaluable in every stable and every house. 89

Grows Huge Grape Vine

German Boy Planted Riding Switch Left By Customer

Thirty-five years ago a Dr. Dick of Diamond Creek, Victoria, was out riding near Heidelberg, Germany. He left his riding switch behind at a smithy's where he was having his pony shod. The smithy's lad recognized the switch as a grape vine cutting. He planted it in his cottage. Now it has grown to a full vine 35 yards long extending over the fence across a line and along the eastern wall of a hotel.

Liner Gangway Blocked

Passengers At Southampton Held Up By Thousands Of Bees

Thousands of bees held up passengers about to embark on the liner Moldavia at Southampton, England. The bees settled down comfortably at the foot of the passenger gangway and defied attempts to move them. A hose was tried, but this merely incited the bees, and caused them to buzz in clouds, scattering onlookers. Eventually order was restored, and embarkation proceeded.

To Shorten Ocean Trip

Irish Free State Plans Ship-to-Shore 'Planes

London will be brought within three days of New York when civil aviation plans which are being devised by the government of the Irish Free State come into operation—possibly next year.

The scheme aims at a service of high-speed aircraft of the Douglas type, to intercept the big Atlantic liners off the west coast of Ireland and to speed the passengers to London, with the saving of a full day of travel time.

With ships of the type of the Queen Mary and Normandie the Anglo-Irish air ferry will make London and New York a matter of a mere week-end trip.

From Galway on the west coast of Ireland to Southampton by liner is at present a full day's journey, with an additional two hours to London. The new air link would bring Galway within three hours of London.

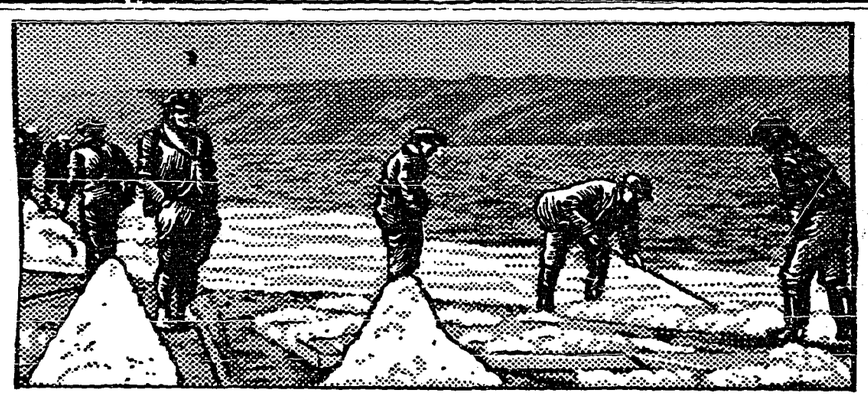
It is proposed to use amphibian machines.

From Dublin the idea is to form a new air link not only with London but also with Paris, Brussels, and Berlin.

Alberta's Coal Reserves

Alberta's coal reserves total 40,200,000,000 tons and lie buried in 1,717 square miles of provincial soil, Sir Montague Barlow, one-man commission investigating collieries, was told. Dr. J. A. Allan, head of the geology department, University of Alberta, explained Alberta's topography and geological formation.

A recent check showed that only 25 of the 1,100 Gideon Bibles placed in one Detroit hotel in 1928 remain in their rooms.



HARVESTING IN SASKATCHEWAN AT 20 BELOW!

Just about the middle of December, one of the most unique and interesting annual harvests to be garnered on the North American Continent will be in full swing. No! Not wheat—but Mineral Salts. The scene will be Little Manitou Lake, Watrous, Saskatchewan. The harvesters will be the employees of the Department of Natural Resources of Saskatchewan; and the harvest itself will consist of the tiny crystals of mineral salt which form in Little Manitou Lake each year at "freeze-up." It is one of the essential conditions that the harvest be completed within a period of ten days. When the Prairie winter comes in real earnest, and the thermometer shivers down to 20 below zero, the Departmental men, warmly attired, and wearing waist-high rubber boots, gather up these crystals with specially constructed shovels, and store them in the Government warehouse at Watrous, from where they are later distributed. The medicinal qualities of this saline lake, known for many years, are becoming more and more widely recognized, and as a consequence these harvesting operations are assuming ever-increasing proportions, and the Lake is proving to be one of the Province's most important natural resources.

Household Arts

Crochet Your Gay Scraps of Wool Into an Afghan

Persian Garden

PATTERN 5439

Even though you have nothing on hand but tiny scraps of wool, you can fashion this lovely afghan. And the wool may be of different weights. Each block—4¼ inches square—can be done in different colors. And what a jeweled effect you have when done! It does indeed look like a colorful oriental tapestry. Doing each block in different colors, too, makes the work more fascinating for each is an adventure. Besides an afghan you can make lovely pillow tops or chair sets. Can't you see what a lovely and inexpensive Xmas gift these would be?

In pattern 5439 you will find complete instructions for making the afghan shown as well as pillow tops and chair sets; an illustration of the block and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

SUNDAY SCHOOL LESSON

OCTOBER 13

THE STORY OF JEREMIAH

Golden text: To whomsoever I shall send thee thou shalt go, and whatsoever I shall command thee thou shalt speak. Jeremiah 1:7.

Lesson: Jeremiah 1:1-10; 6:10, 11; 8:18; 26:1-24; Chapters 36, 37, 38.

Devotional Reading: Psalm 26:1-7.

Explanations And Comments

Courageous Speaking Enjoined, Jeremiah 1:6-10. In the thirteenth year of Josiah's reign (about 626 B.C.), Jeremiah, the son of a priest, became conscious of a divine call to the prophetic office. It is natural to understand that he had long meditated upon his country's sins and had felt impelled to denounce them, but was most reluctant to undertake the task. The inward struggle which took place in his sensitive and shrinking heart when something different from his ordinary consciousness made him certain that he was destined to be the prophet of woe, he tells in the form of a dialogue between God and himself.

"Ah, Lord Jehovah! behold I know not how to speak; for I am a child," He was not a child in years but he lacked experience, he feared he had not the ability to speak, he distrusted himself. In the jargon of to-day, he had an inferiority complex. "Say not, I am a child" was the answer to his troubled thoughts that came to him; "for to whomsoever I shall send thee thou shalt go, and whatsoever I shall command thee thou shalt speak. Be not afraid because of them; for I am with thee to deliver thee."

The commission which Jeremiah received was to be "over the nations and over the kingdoms, to pluck up and to break down, and to destroy and to overthrow, to build and to plant." His task was to be destructive and constructive. He must strive to make the people give up their vices and weaknesses which were making for internal corruption and for political destruction, and to implant in their hearts new ideals of righteousness.

The Courageous Speaker Threatened, Jeremiah 26:8-11. During the 40 years of Jeremiah's ministry, his was the task of setting himself in opposition to all the currents of his time, for Judah believed that she would escape the impending doom, that Jerusalem was inviolable because it held the temple, that the nation could not perish. Jeremiah had to warn her that her only possible course was to surrender to Babylon. At some great feast, doubtless when the people were gathered at Jerusalem, Jeremiah uttered the warning recorded in the first seven verses of chapter 26.

The Courage of Convictions, 26: 12-15. Jeremiah's defense was that his message had come to him from God, and he urged them to amend their ways and doings, and to obey the voice of Jehovah. If they would do this, Jehovah would avert the evil which he had pronounced upon them. Prophecy, then was regarded as conditional; a change of conduct could prevent the threatened punishment.

Busy Year For Sun

More Eclipses In 1935 Than For Past 130 Years

The sun this year presents its greatest show of eclipses for the past 130 years. The moon will have passed between the sun and the earth no fewer than five times, and the moon will be in the earth's shadow twice. This according to Professor Alfred H. Joy, secretary of the Mount Wilson Observatory, is the greatest number of eclipses possible in one year. Not since 1805 have the sun's rays been obscured so often, states Reuter's correspondent in Pasadena. It will be only the second time since 1255 that there have been five solar eclipses in one year, and there will not be another such number until the year 2485.

Making Ten-Year Tour

Bicyclists From Sumatra Do Not Believe In Speed

Two Sumatran cyclists who do not believe in the modern craze for speed have arrived at Bombay on a ten-year tour of the world. They started from their home in Sumatra in July, 1931, and have taken over three-and-a-half years to complete 5,000 miles on their bicycles. They made fairly long stops in Indo-China, Siam and Burma and in various parts of India in order ot learn the language and study the people and their religion.

Out Of Politics

Henry Ford said in an interview published in The Detroit News that he is not interested in any "Ford for president" boom, or in politics generally. Discussing the business outlook, the motor magnate said: "I am not a prophet but I have the feeling that business and wage trends will be up, and I do not believe the political campaign of next year will have any appreciable effect on business, one way or the other."

A SAFE OINTMENT
McCOY'S THE HOME REMEDY
Soothing Healing Pain-Relieving
25¢, 35c (tube), 50c, $1

URGE LARGE SCALE EMIGRATION PLAN TO THE DOMINIONS

Newcastle-On-Tyne, England.—The conference on emigration to the empire concluded after preparing a written case for a government-assisted emigration scheme.

The brief, which a deputation will present to the government, urges a large-scale emigration scheme would help solve unemployment at home and abroad. Financial assistance would be repaid by saving unemployment relief.

Establishment of an empire development and emigration board with statutory powers is advocated and it is suggested the annual budget should provide grants to settlers.

The plan will be submitted to the cabinet by the lord mayor of Newcastle, R. S. Dalgleish, and a deputation of members of parliament and representatives of emigration authorities from all parts of the country. Copies of the statement afterward will be circulated to Dominion premiers, high commissioners and agents-general, with a letter from the lord mayor of Newcastle appealing for their co-operation in an effort to bring about the biggest move ever made for the repopulation of the empire by families and communities from the United Kingdom.

New Gold Strike

Made On North Arm Of Great Slave Lake

Edmonton.—A new gold strike west of Yellowknife bay on the north arm of Great Slave lake was revealed to the world when Dr. Fred Jolliffe, of the federal geological survey, flew out of the north after a summer spent in the northwest territories.

"The strike was made September 15 several miles from the Burwash discovery," said Dr. Jolliffe.

He refused to divulge the name of the prospector who made the strike pending the filing of his official report when he returns to department of mines headquarters at Ottawa.

Dr. Jolliffe and his party of 15 student assistants from the University of Alberta, explored an area of roughly 10,000 square miles on the north shore of Great Slave lake and found that 2,800 square miles of the district was underlined by pre-Cambian sediments and volcanics, relatively favorable for the occurrence of gold and silver deposits.

Dr. Jolliffe left Sept. 24 for Ottawa.

Stage Sham Air Raid

Fleet Of Giant Bombers Visit Island Of Malta

Valetta, Malta.—A fleet of giant bombers and other aircraft droned over Malta in a sham air raid recently, with this tiny British island outpost plunged in darkness and eerie silence.

Promptly at 9:30 p.m., every house, street and traffic light blinked out. Simultaneously, the twinkling lights of British warships riding at anchor in the harbor went off.

Thousands of citizens thronged the historic bastions of Valetta and the seafront during the raid.

Acting-Governor Luke surveyed the operations. Aerial and military authorities said they were well pleased with the island's loyal co-operation.

Coining Ethiopian Money

Rome.—Italy is already coining Ethiopian thalers, for use following the incursion of Italian forces into Ethiopia. Employees of the mint said the coins are to be used by the military and civil governors which Italy plans to install in Ethiopia, to pay off tribesmen who seek work under Italian domination.

More Wheat In Store

Ottawa.—The Dominion bureau of statistics reported Canadian wheat in store for the week ended Sept. 20 amounted to 220,862,570 bushels, an increase of 13,958,389 over the previous week. The visible supply for the corresponding week last year was 223,660,206 bushels.

A Quiet Session

Prince Edward Island's House Of Assembly Meets

Charlottetown. — Another chapter was written into the history of British parliamentary procedure when Prince Edward Island's House of Assembly, filled with 30 Liberal members, met and carried on the affairs of state without an official opposition.

It was not a house of "yes-men," however. At least two government supporters served notice on Premier Walter Lea that they were not going to be a rubber-stamp for cabinet-directed policies.

When the money bill, the most important legislation of the special one-day session, was being studied in committee under the guidance of the premier, W. H. Dennis, Prince, and H. H. Cox, King's, raised objection to Canada's smallest province providing for $3,000,000 expenditure to refund loans and carry on public works. To give the cabinet this authority two months after taking office would be going directly against the policy of retrenchment which placed them in power, the critics contended.

Absence of an official opposing party helped to speed the work of the session and at an early hour the governor, accompanied by his secretary and aide-de-camp, returned to give His Majesty's assent to the bills passed.

The house was prorogued to meet ordinarily in March, 1936.

Abolish Ration System

New Decree Is Effective In Soviet Russia

Moscow. — A government decree abolished the ration system of selling some prime food products, cutting prices in open commercial shops.

The decree constitutes an important step toward liquidation of the present double sales system whereby workers make purchases in "closed" ration shops and the general public buys in open shops.

Prices of the two have differed widely, workers getting the benefit of extremely low rates.

The decree abolished ration shop sale of meat, sugar, fish, butter and potatoes and threw all buying of these products into open shops, substituting one fixed price for the previous double price system.

The new price scale reduced beef more than 50 per cent. It now will sell from five rubles up per kilogram. Sugar will be four rubles and 52 kopecks per kilogram as compared with 6.50, and butter was reduced from 24 rubles per kilogram to 15.

To prevent speculation, it was announced, no purchaser will be permitted to buy at one time more than two kilograms of meat; two of sugar; a half kilogram of butter or three kilograms of fish.

Hours Of Labor Set

Legislation Will Be Brought Into Effect October 5

Ottawa.—Legislation for limitation of the hours of labor in certain industrial undertakings in Canada will be brought into effect on Oct. 5. Regulations for the carrying out of the measure have been drafted.

Based on a 1919 convention of the international labor organization of the League of Nations, the legislation constitutes part of the reform program brought down by the government at the last session of parliament.

Would Defend Record

If Speed Prestige Threatened Campbell Will Race Again

London. — Sir Malcolm Campbell and his Bluebird are through with breaking records unless some foreigner gives them a new mark to shoot at.

Sir Malcolm announced at a dinner in his honor that he had had his fill of blistering speeds, but that there was still a great deal of lightning in his racing car that might be coaxed out if Britain's speed prestige was threatened.

Another Leaf Competition

Montreal.—Third annual competition for the most beautiful autumn tinted maple leaf is announced by the Canadian government through the Canadian travel bureau. First prize will be $100. 2118

FILIPINO PRESIDENT

By an overwhelming majority, Senator Manuel Quezon, above, was elected first President of the new Philippines Commonwealth. Vice-President Garner, of the United States, will attend the inauguration exercises on November 15, when Quezon will take office for six years.

The Federal Vote

Results Should Be Quickly Available After Closing Of Polls

Ottawa.—Although various adaptations of proportional representation and the single transferable vote are used in some provincial elections the Dominion general election Oct. 14 will be conducted on the traditional single-vote system.

Electors will have only one choice between the contending candidates. They will mark an "X" opposite the name of the candidate they favor and the candidate with the largest number of "X's" will be elected. There are no second or third choices.

With the single-vote system in operation throughout the Dominion on election day results will be available probably for all constituencies within a few hours of the closing of the polls.

Another Storm Hits Japan

Typhoon Kills 48 And About 100 Are Missing

Tokyo.—A typhoon which whirled freakishly and destructively across Japan, from Kagoshima to Wendai, killed at least 48 persons, and about 100 were missing.

Several ports in the inland sea reported that fishing craft were missing, and the steamer Tonegawa Maru, with a crew of 13 and 19 passengers, also was missing.

The typhoon was the fifth death-dealing storm in three months over Japan proper.

Installing McGill Principal

Montreal.—It is expected at least 24 Canadian universities and colleges will be represented at the installation of Professor A. E. Morgan as principal of McGill University Oct. 5. Dr. Robert C. Wallace, president of University of Alberta, Edmonton, will be in attendance.

Farewell Banquet

Governor-General And Countess Of Bessborough Are Honored

Ottawa.—A farewell banquet was given by the government of Canada to the Governor-General and Countess of Bessborough.

The term of office of the Earl of Bessborough as the king's representative in Canada expires shortly.

It was an affectionate farewell at which, in addition to Sir George Perley, who presided, there was a distinguished gathering of representatives of the state, the diplomatic corps, the church, the judiciary and the civil service with their wives.

Responding to the toast proposed by Sir George Perley, the governor-general dwelt on the happy relations he had enjoyed during his four years in Canada.

Veregin Resigns

No Longer Head Of Brotherhood Of Doukhobors

Saskatoon.—Peter Veregin, for 10 years president of the Christian Community of the Universal Brotherhood of Doukhobors in Canada, stated here that he had severed all connection with the community. He declared that he stood now as a private Canadian citizen. He had no intention of leaving the country, he said.

Mr. Veregin, who has been virtual ruler of the sect in Canada since the death of his father in a British Columbia railway accident, said he had tendered his resignation about six months ago. He would not disclose any reason for his action. He is now on his way to Montreal.

Honesty Was Rewarded

Delivery Boy Returns Valuable Bonds And Gets Good Job

New York.—From the lowly plane of delivery boy of "coffee and—" at $3.15 a week, young Albert Correri vaulted to a remunerative position in Wall street.

Correri's role in "the street's" newest success story was cast when he picked from the gutter a packet of bonds valued at $150,000 and returned them to the owners. C. F. Grunwald, vice-president of C. F. Childs and Co., Wall street brokers, owners of the bonds, announced Correri would start work in the cashier's department of the brokerage firm.

Correri, who is 22, may also get a reward.

Siege Of Lucknow

Ten People Alive To Celebrate Thrilling Event

London.—Ten people in different parts of the world celebrate one of the most thrilling incidents in the modern history of the British Empire, the siege of Lucknow in the Indian mutiny.

The oldest survivor of the siege is C. G. Palmer, a resident of British Columbia; the youngest Arthur Dashwood, 78, living in London. Dashwood's mother gave him birth in the residency at Lucknow, where 17 people were herded in one room during the siege. Despite her ordeal, Mrs. Dashwood lived for more than 70 years.

RECEIVING THE KING'S CUP

Pilot T. Rose, driving a Miles Falcon machine, won the King's Cup Air Race "round the British Isles" this year, and is shown receiving the coveted trophy from the hands of Sir Phillip Cunliffe-Lister.

TO STRENGTHEN NAVY AND AIR FORCE IN BRITAIN

London.—Prime Minister Baldwin intends to outline measures to strengthen both the navy and the air force when he addresses the Conservative party at its annual conference at Bournemouth.

George Lansbury, Labor leader in the House of Commons in an address declared Britain and other nations were on the brink of a war in which it would be "Christian against Christian, Mohammedan against Mohammedan, Jew against Jew—all praying to the same God for Victory.

"I cannot bow to that sort of thing," the leader said. "The way out is for some nation, and I want it to be Britain, to blaze a new trail."

Athens.—The semi-official Athens news agency announced information from a German source indicated arrangements had been completed at Instanbul for Greek and Turkish warships and planes to start manoeuvres in the Dardanelles and that two Roumanian torpedo boats would also participate.

It has been reported Greece is prepared to support Great Britain in any Mediterranean activity which might become necessary at the outbreak of Italo-Ethiopian warfare.

Greek newspapers hailed the arrival of British ships in Greek ports, saying that the people of Greece have come to regard the annual British naval manoeuvres in Mediterranean waters as a welcome tradition.

Mussolini Opposed

Report From Italy Of Some Opposition To War Plans

Paris. — French newspapers reprinted a story from The London Referee saying Prince Umberto, heir to the Italian throne, is opposed to Premier Benito Mussolini's conflict with Ethiopia.

(This report was described as utterly false in Rome and London by authoritative Italian spokesmen.)

There is a possibility, the story said, of General Italo Balbo, governor of Libya and Italian air hero, leading a revolt against Il Duce.

"Balbo, whose relations with the royal family are excellent, is also opposed to the Ethiopian campaign," the story asserted. "A large number of Italian superior officers share his view."

Sentry Killed By Lions

Five Belonging To Emperor Selassie Make Dash For Freedom

Addis Ababa.—Five of Emperor Haile Selassie's big lions escaped, killed one sentry, and injured five more.

In this rush for freedom they devoured several of the Emperor's pedigreed Australian sheep and killed two horses.

Colonel Mekouria, the commander of the imperial guard, seized a machine gun and shot all five beasts in succession.

Insurance Premiums Higher

British Vessels Passing Through Suez Canal Must Pay More

Singapore.—Fear of trouble developing in the Mediterranean was reflected here when marine insurance companies warned special premiums for "war risks" must be paid by British vessels returning to England through the Suez canal.

To escape payment of the war risk premiums British ships must go all the way around the Cape of Good Hope.

Gordon Bennett Trophy

Warsaw.—The Polish balloon Polonia was awarded the Gordon Bennett trophy as the winner of the 27th Bennett international races that began here Sep. 15. The Polonia, one of the 13 entries, travelled about 1,007 miles after a flight of 58 hours and 54 minutes, it was officially announced. It reached an altitude of 16,732 feet. Another Polish balloon, the Warsaw, was second.

"My telephone gives me a sense of security"

"It's a relief to see a telephone in our house again," said Mrs Pinkfield. "It gives me a sense of security.

"When we were without a telephone, I used to wonder how we'd get word quickly to the doctor if someone in the house took sick, or what we'd do about sending for help in case of fire or burglary.

"But those days of worry have gone. I feel safer with a telephone in the home."

Hospital Erects Nurses' Home

Structure Will be 28 x 26 Feet—Two Story High—Stucco Finish Match Hospital—Modernly Planned and Equipped.

The many friends of Creston Valley hospital have read with interest the brief announcement in last week's Review that a Nurses' Home will be built immediately. The building as planned will be two stories, having living room 16 x 12 feet with fireplace; five bedrooms. kitchenette, bathroom, modern sanitation and a verandah 26 x 6 feet. The contract calls for interior finish of plaster, and the same stucco exterior finish as the main hospital building.

The need for such a building has been felt for many months. In the interests of efficiency it is essential to have the nursing staff in a separate building, and there will also be a cash saving monthly of rent for outside quarters. Another important purpose is served in that the change will make available two more wards for patients, and add ten per cent. to hospital accomodation, which is often taxed to capacity.

Some idea of the growth of hospital work can be gathered from a study of figures. Less than three years ago there was one full time and one part-tim nurse. now the nursing staff comprises four steadily employed. Hospital days in 1934 showed a 98 per cent increase over hospital days in 1933, and in the 10 months of 1935 there have been 3393 hospital days compared to 3235 hospital days in the whole of 1934. October, with 440 hospital days, was the busiest month in the institution's history. Surgical operations, major and minor, also show a large increase.

These figures, though interesting in themselves, do not show the most important advances made by the institution. In the matter of service and equipment betterments have been made steadily since the time of incorporation, and especially since the present building was opened. A glance through the register will show that the hospital's reputation for service has spread far outside the borders of the district.

The financing of continued service betterments, and expansion of facilities, is a different problem. In the case of the Nurses' Home, as in the building of the hospital, the need must be met before the necessary finance is available.

From the point of view of dollars and cents, the hospital is probably the most important business in the town, for it circulates all the money received from local patients, and also many thousands of dollars annually, received from outside sources, such as government grants, public works, Workmen's Compensation Board, National Defense, C.P.R. and transients, which money would not be spent here, were hospital facilities unobtainable. Even the membership drive of last winter brought into Creston some $900 from outside the district.

It is hoped that the people in the district from Yahk to Crawford Boy will rally to the support of the hospital, as in the past; so that the expense of building and furnishing the Nurses' Home may be met.

Sirdar

Bob Stewart left for Calgary where he will spend a few days.

Irene Karpowich of Sanca is spending the weekend here with friends.

James S. Wilson and Jas. Nannarino were business visitors to Creston Tuesday.

Dr. Shaw and Gordon Grenfell of Nelson were among those hunting here this week.

The water as indicated by guage at Slough bridge reads .95, a fall of .05 for the week.

3 STAR RYE

A special quality old rye of fine flavor, thoroughly matured in oak for seven years.

NOW ONLY $1.00 13 OZ. $1.80 25 OZ. $2.75 40 OZ.

This advertisement is not published or displayed by the Liquor Control Board or by The government of British Columbia.

Syd Rogers, Joe Brogan and Harry Dickson attended the basketball game in Creston on Friday evening.

Charles Wilson was a Creston visitor Saturday. John Andino was a business visitor there the same day.

The hunting over the flats for the past several days has been exceptionally good with ideal weather conditions.

Arthur Lombardo of Trail, along with a party of friends from there, spent the weekend hunting over the flats.

Joe Karpowich of Sanca was a business visitor Wednesday, looking over his stock of hay cut on the flats.

A. L. Palmer, road superintendent, Creston, was a business visitor here Tuesday, and proceeded to Gray Creek.

Syd. Rogers was home from Glenlily for the weekend, and brought with him as guests Joe Brogan and Harry Dickson of Yahk.

Tie loading operations at Quarry siding, Atbara, has been brisk this last week, and is expected to continue this way over the winter.

A. H. Piggott, C.P.R. tie inspector, Wynndel, was a business visitor Tuesday in connection with tie loading operations at Atbara.

A. Hepher, secretary of the Boswell Fruit Growers, was at Atbara Thursday, arranging insulation of fruit cars going to eastern seaports.

George Everall, who has been timekeeper at the road camp here for a considerable time, has resigned He is at Rossland at present.

Mr. Dean, fruit inspector from Nelson, was a business visitor to Atbara on Friday in connection with the heating of fruit cars being loaded.

The compressor and other tools, which have been in use at the new bridge at Boulder Creek, have been taken to the road widening operations east of Sirdar

A fall of snow, which seemed localized around Kuskanook Mountain, fell on Friday afternoon. On Saturday morning it had become general and to a depth of two inches.

Messrs. Coe and Carne, of Creston, were visiting several of the ranchers here, this week in their official capacity of Tree Fruit Board inspector and fruit inspector respectively.

R Moule, who is engaged in hauling ties from Sanca to Atbara, has taken a lease on the Colombo home and moved his furniture and family in on Saturday. There are no houses empty here now.

Wednesday last saw geese in large numbers in flight all day and well on into the night. Many of them were taken by the hunters who were fortunate enough to be in the vicinity hat day.

Slim Smythe, Bo. Harkness and Chas. arrived on Friday from Nelson to spend some time hunting. While here the party will make its headquarters at the former's houseboat, near Kootenay Landing.

Boswell Fruit Growers have resumed the shipping of fruit from Quarry siding Atbara. These cars, as they are for export, have to be insulated with heavy paper. A car was loaded Friday the first since the cold spell.

Fred Smythe and Jack Townsend of Nelson are hunting here this week making their headquarters at Kootenay Landing. This party brought in a very nice buck deer on Thursday, and have met with good luck with other game.

Those who attended the military whist at Wynndel to secure funds for the Christmas tree were Miss Margaret Rogers, Mr. and Mrs. J. Pascuzzo, Mr. and Mrs. L. Anderson, Miss Sylvia Talarico, Frank Hamilton, Fred Smythe, Joe Talarico, Art. Rutledge, Charles Lombardo. Many others were present from the road camp.

WORLD HAPPENINGS BRIEFLY TOLD

Convicted from fingerprints on a mirror they had stolen, three middle-aged men were sentenced at Bombay to imprisonment of from one to three years.

Ontario department of education has ordered compulsory teaching of civics in all public and high schools in the province, starting in October. A new text book will be ready soon.

Business is better all over Canada and the morale of the west is improved, Robert O. McCulloch of Galt, Ont., president of the Mutual Life Assurance Company of Canada, said in an interview in Victoria.

A pearl the size of a pigeon's egg and said to be capable of protecting its wearer from all danger was part of the loot recently taken from the tomb of a Manchu prince near Peiping by grave robbers.

Lady Byng of Vimy, widow of the former commander of the Canadian Corps, Lord Byng, who died last June, has informed Dominion headquarters of the Canadian Legion she will take part in the Vimy pilgrimage in July next year.

Successful use of an instrument which bores through the brain to the skull pan and burns away tissues producing a fluid that causes hydrocephalus, a condition causing infants to become idiots, is announced by Dr. Tracy J. Putnan, of Boston Children's hospital.

Nearly $27,000,000 of new ordinary life insurance, a slight increase as compared with the same month last year, was sold in Canada and Newfoundland in August according to returns of the Life Insurance Sales Research Bureau, Toronto. Of the total, sales in Saskatchewan were $996,000.

England To Receive Relic

Armada Jewel Has Been Given To Art Collection Fund

The Armada jewel, one of the most beautiful relics of Queen Elizabeth's time, is to return to Britain. It was bought at a saleroom in London for 2,700 guineas, and it was announced that it had been given by Lord Wakefield to the National Art Collection Fund. The jewel formed part of the Pierpont Morgan collection of miniatures. It will go to the Victoria and Albert Museum, Kensington, London.

D. E. Warford, of Sawtelle, Calif., lays claim to being the most tattooed man in America.

IN UP-TO-DATE STABLES
—Old Reliable Minard's
When horses come in to stable with wire-cuts or saddle boils, or cows have caked udder, the thing to do is get the Minard's bottle at once, as Mr. Dowd of Glenboro, Manitoba, knows. He writes:
"I like your Minard's Liniment. Like to have it in the house. I have found your Minard's Liniment especially good for barbed wire cuts on horses."
A family doctor prepared Minard's Liniment over 50 years ago. Still invaluable in every stable and every house. 89

Grows Huge Grape Vine

German Boy Planted Riding Switch Left By Customer

Thirty-five years ago a Dr. Dick of Diamond Creek, Victoria, was out riding near Heidelberg, Germany. He left his riding switch behind at a smithy's where he was having his pony shod. The smithy's lad recognized the switch as a grape vine cutting. He planted it in his cottage. Now it has grown to a full vine 35 yards long extending over the fence across a line and along the eastern wall of a hotel.

Liner Gangway Blocked

Passengers At Southampton Held Up By Thousands Of Bees

Thousands of bees held up passengers about to embark on the liner Moldavia at Southampton, England. The bees settled down comfortably at the foot of the passenger gangway and defied attempts to move them. A hose was tried, but this merely incited the bees, and caused them to buzz in clouds, scattering onlookers. Eventually order was restored, and embarkation proceeded.

To Shorten Ocean Trip

Irish Free State Plans Ship-to-Shore 'Planes

London will be brought within three days of New York when civil aviation plans which are being devised by the government of the Irish Free State come into operation—possibly next year.

The scheme aims at a service of high-speed aircraft of the Douglas type, to intercept the big Atlantic liners off the west coast of Ireland and to speed the passengers to London, with the saving of a full day of travel time.

With ships of the type of the Queen Mary and Normandie the Anglo-Irish air ferry will make London and New York a matter of a mere week-end trip.

From Galway on the west coast of Ireland to Southampton by liner is at present a full day's journey, with an additional two hours to London. The new air link would bring Galway within three hours of London.

It is proposed to use amphibian machines.

From Dublin the idea is to form a new air link not only with London but also with Paris, Brussels, and Berlin.

Alberta's Coal Reserves

Alberta's coal reserves total 40,200,000,000 tons and lie buried in 1,717 square miles of provincial soil, Sir Montague Barlow, one-man commission investigating collieries, was told. Dr. J. A. Allan, head of the geology department, University of Alberta, explained Alberta's topography and geological formation.

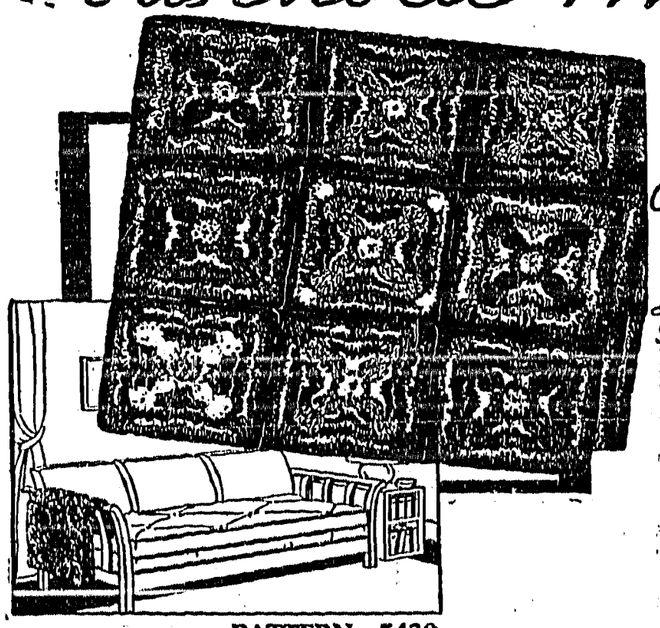
A recent check showed that only 25 of the 1,100 Gideon Bibles placed in one Detroit hotel in 1928 remain in their rooms.

HARVESTING IN SASKATCHEWAN AT 20 BELOW!

Just about the middle of December, one of the most unique and interesting annual harvests to be garnered on the North American Continent will be in full swing. No! Not wheat—but Mineral Salts. The scene will be Little Manitou Lake, Watrous, Saskatchewan. The harvesters will be the employees of the Department of Natural Resources of Saskatchewan; and the harvest itself will consist of the tiny crystals of mineral salt which form in Little Manitou Lake each year at "freeze-up." It is one of the essential conditions that the harvest be completed within a period of ten days. When the Prairie winter comes in real earnest, and the thermometer shivers down to 20 below zero, the Departmental men, warmly attired, and wearing waist-high rubber boots, gather up these crystals with specially constructed shovels, and store them in the Government warehouse at Watrous, from where they are later distributed. The medicinal qualities of this saline lake, known for many years, are becoming more and more widely recognized, and as a consequence these harvesting operations are assuming ever-increasing proportions, and the Lake is proving to be one of the Province's most important natural resources.

Household Arts

by Alice Brooks



Crochet Your Gay Scraps of Wool Into an Afghan

Persian Garden

PATTERN 5439

Even though you have nothing on hand but tiny scraps of wool, you can fashion this lovely afghan. And the wool may be of different weights. Each block—4½ inches square—can be done in different colors. And what a jeweled effect you have when done! It does indeed look like a colorful oriental tapestry. Doing each block in different colors, too, makes the work more fascinating for each is an adventure. Besides an afghan you can make lovely pillow tops or chair sets. Can't you see what a lovely and inexpensive Xmas gift these would be?

In pattern 5439 you will find complete instructions for making the afghan shown as well as pillow tops and chair sets; an illustration of the block and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

SUNDAY SCHOOL LESSON

OCTOBER 13

THE STORY OF JEREMIAH

Golden text: To whomsoever I shall send thee thou shalt go, and whatsoever I shall command thee thou shalt speak. Jeremiah 1:7.

Lesson: Jeremiah 1:1-10; 6:10, 11; 8:18; 26:1-24; Chapters 36, 37, 38.

Devotional Reading: Psalm 26:1-7.

Explanations And Comments

Courageous Speaking Enjoined, Jeremiah 1:6-10. In the thirteenth year of Josiah's reign (about 626 B.C.), Jeremiah, the son of a priest, became conscious of a divine call to the prophetic office. It is natural to understand that he had long meditated upon his country's sins and had felt impelled to denounce them, but was most reluctant to undertake the task. The inward struggle which took place in his sensitive and shrinking heart when something different from his ordinary consciousness made him certain that he was destined to be the prophet of woe, he tells in the form of a dialogue between God and himself.

"Ah, Lord Jehovah! behold I know not how to speak; for I am a child," He was not a child in years but he lacked experience, he feared he had not the ability to speak, he distrusted himself. In the jargon of to-day, he had an inferiority complex. "Say not, I am a child" was the answer to his troubled thoughts that came to him; "for to whomsoever I shall send thee thou shalt go, and whatsoever I shall command thee thou shalt speak. Be not afraid because of them; for I am with thee to deliver thee."

The commission which Jeremiah received was to be "over the nations and over the kingdoms, to pluck up and to break down, and to destroy and to overthrow, to build and to plant." His task was to be destructive and constructive. He must strive to make the people give up their vices and weaknesses which were making for internal corruption and for political destruction, and to implant in their hearts new ideals of righteousness.

The Courageous Speaker Threatened, Jeremiah 26:8-11. During the 40 years of Jeremiah's ministry, his was the task of setting himself in opposition to all the currents of his time, for Judah believed that she would escape the impending doom, that Jerusalem was inviolable because it held the temple, that the nation could not perish. Jeremiah had to warn her that her only possible course was to surrender to Babylon. At some great feast, doubtless when the people were gathered at Jerusalem, Jeremiah uttered the warning recorded in the first seven verses of chapter 26.

The Courage of Convictions, 26: 12-15. Jeremiah's defense was that his message had come to him from God, and he urged them to amend their ways and doings, and to obey the voice of Jehovah. If they would do this, Jehovah would avert the evil which he had pronounced upon them. Prophecy, then was regarded as conditional; a change of conduct could prevent the threatened punishment.

Busy Year For Sun

More Eclipses In 1935 Than For Past 130 Years

The sun this year presents its greatest show of eclipses for the past 130 years. The moon will have passed between the sun and the earth no fewer than five times, and the moon will be in the earth's shadow twice. This according to Professor Alfred H. Joy, secretary of the Mount Wilson Observatory, is the greatest number of eclipses possible in one year. Not since 1805 have the sun's rays been obscured so often, states Reuter's correspondent in Pasadena. It will be only the second time since 1255 that there have been five solar eclipses in one year, and there will not be another such number until the year 2485.

Making Ten-Year Tour

Bicyclists From Sumatra Do Not Believe In Speed

Two Sumatran cyclists who do not believe in the modern craze for speed have arrived at Bombay on a ten-year tour of the world. They started from their home in Sumatra in July, 1931, and have taken over three-and-a-half years to complete 5,000 miles on their bicycles. They made fairly long stops in Indo-China, Siam and Burma and in various parts of India in order ot learn the language and study the people and their religion.

By 1936, the United States public debt is expected to total $34,253,000,000; approximately $270 for every man, woman and child in the country.

Soviet scientists are building a telescope which will have the third largest lens in the world. 2118

Out Of Politics

Henry Ford said in an interview published in The Detroit News that he is not interested in any "Ford for president" boom, or in politics generally. Discussing the business outlook, the motor magnate said: "I am not a prophet but I have the feeling that business and wage trends will be up, and I do not believe the political campaign of next year will have any appreciable effect on business, one way or the other."

MECCA THE HOME REMEDY
A SAFE OINTMENT
Soothing Healing Pain-Relieving
25c, 35c (tube), 50c, $1

URGE LARGE SCALE EMIGRATION PLAN TO THE DOMINIONS

Newcastle-On-Tyne, England.—The conference on emigration to the empire concluded after preparing a written case for a government-assisted emigrat'on scheme.

The brief, which a deputation will present to the government, urges a large-scale emigration scheme would help solve unemployment at home and abroad. Financial assistance would be repaid by saving unemployment relief.

Establishment of an empire development and em'gration board with statutory powers is advocated and it is suggested the annual budget should provide grants to settlers.

The plan will be submitted to the cabinet by the lord mayor of Newcastle, R. S. Dalgleish, and a deputation of members of parliament and representatives of emigration authorities from all parts of the country. Cop'es of the statement afterward will be circulated to Dominion premiers, high commissioners and agents-general, with a letter from the lord mayor of Newcastle appealing for their co-operation in an effort to bring about the biggest move ever made for the repopulation of the empire by families and communities from the United Kingdom.

New Gold Strike

Made On North Arm Of Great Slave Lake

Edmonton.—A new gold strike west of Yellowknife bay on the north arm of Great Slave lake was revealed to the world when Dr. Fred Jolliffe, of the federal geological survey, flew out of the north after a summer spent in the northwest territories.

"The strike was made September 15 several m'les from the Burwash discovery," said Dr. Jolliffe.

He refused to divulge the name of the prospector who made the strike pending the filing of his official report when he returns to department of mines headquarters at Ottawa.

Dr. Jolliffe and his party of 15 student assistants from the University of Alberta, explored an area of roughly 10,000 square miles on the north shore of Great Slave lake and found that 2,800 square miles of the district was underlined by pre-Cambian sediments and volcanics, relatively favorable for the occurrence of gold and silver deposits.

Dr. Jolliffe left Sept. 24 for Ottawa.

Stage Sham Air Raid

Fleet Of Giant Bombers Visit Island Of Malta

Valetta, Malta.—A fleet of giant bombers and other aircraft droned over Malta in a sham air raid recently, with this tiny British island outpost plunged in darkness and eerie silence.

Promptly at 9:30 p.m., every house, street and traffic light blinked out. Simultaneously, the twinkling lights of British warships riding at anchor in the harbor went off.

Thousands of citizens thronged the historic bastions of Valetta and the seafront during the raid.

Acting-Governor Luke surveyed the operations. Aerial and military authorities said they were well pleased with the island's loyal co-operation.

Coining Ethiopian Money

Rome.—Italy is already coining Ethiopian thalers, for use following the incursion of Italian forces into Ethiopia. Employees of the mint said the coins are to be used by the military and civil governors which Italy plans to install in Ethiopia, to pay off tribesmen who seek work under Italian domination.

More Wheat In Store

Ottawa.—The Dominion bureau of statistics reported Canadian wheat in store for the week ended Sept. 20 amounted to 220,862,570 bushels, an increase of 15,958,380 over the previous week. The visible supply for the corresponding week last year was 223,669,206 bushels.

A Quiet Session

Prince Edward Island's House Of Assembly Meets

Charlottetown. — Another chapter was written into the history of British parliamentary procedure when Prince Edward Island's House of Assembly, filled with 30 Liberal members, met and carried on the affairs of state without an official opposition.

It was not a house of "yes-men," however. At least two government supporters served notice on Premier Walter Lea that they were not going to be a rubber-stamp for cabinet-directed policies.

When the money bill, the most important legislation of the special one-day session, was being studied in committee under the guidance of the premier, W. H. Dennis, Prince, and H. H. Cox, King's, raised objection to Canada's smallest province providing for $3,000,000 expenditure to refund loans and carry on public works. To give the cabinet this authority two months after taking office would be going directly against the policy of retrenchment which placed them in power, the critics contended.

Absence of an official opposing party helped to speed the work of the session and at an early hour the governor, accompanied by his secretary and aide-de-camp, returned to give His Majesty's assent to the bills passed.

The house was prorogued to meet ordinarily in March, 1936.

Abolish Ration System

New Decree Is Effective In Soviet Russia

Moscow. — A government decree abolished the ration system of selling some prime food products, cutting prices in open commercial shops.

The decree constitutes an important step toward liquidation of the present double sales system whereby workers make purchases in "closed" ration shops and the general public buys in open shops.

Prices of the two have differed widely, workers getting the benefit of extremely low rates.

The decree abolished ration shop sale of meat, sugar, fish, butter and potatoes and threw all buying of these products into open shops, substituting one fixed price for the previous double price system.

The new price scale reduced beef more than 50 per cent. It now will sell from five rubles up per kilogram. Sugar will be four rubles and 52 kopecks per kilogram as compared with 6.50, and butter was reduced from 24 rubles per kilogram to 15.

To prevent speculation, it was announced, no purchaser will be permitted to buy at one time more than two kilograms of meat; two of sugar; a half kilogram of butter or three kilograms of fish.

Hours Of Labor Set

Legislation Will Be Brought Into Effect October 5

Ottawa.—Legislation for limitation of the hours of labor in certain industrial undertakings in Canada will be brought into effect on Oct. 5. Regulations for the carrying out of the measure have been drafted.

Based on a 1919 convention of the international labor organization of the League of Nations, the legislation constitutes part of the reform program brought down by the government at the last session of parliament.

Would Defend Record

If Speed Prestige Threatened Campbell Will Race Again

London. — Sir Malcolm Campbell and his Bluebird are through with breaking records unless some foreigner gives them a new mark to shoot at.

Sir Malcolm announced at a dinner in his honor that he had had his fill of blistering speeds, but that there was still a great deal of lightning in his racing car that might be coaxed out if Britain's speed prestige was threatened.

Another Leaf Competition

Montreal.—Third annual competition for the most beautiful autumn tinted maple leaf is announced by the Canadian government through the Canadian travel bureau. First prize will be $100. 2118

FILIPINO PRESIDENT

By an overwhelming majority, Senator Manuel Quezon, above, was elected first President of the new Philippines Commonwealth. Vice-President Garner, of the United States, will attend the inauguration exercises on November 15, when Quezon will take office for six years.

The Federal Vote

Results Should Be Quickly Available After Closing Of Polls

Ottawa.—Although various adaptations of proportional representation and the single transferable vote are used in some provincial elections the Dominion general election Oct. 14 will be conducted on the traditional single-vote system.

Electors will have only one choice between the contending candidates. They will mark an "X" opposite the name of the candidate they favor and the candidate with the largest number of "X's" will be elected. There are no second or third choices.

With the single-vote system in operation throughout the Dominion on election day results will be available probably for all constituencies within a few hours of the closing of the polls.

Another Storm Hits Japan

Typhoon Kills 48 And About 100 Are Missing

Tokyo.—A typhoon which whirled freakishly and destructively across Japan, from Kagoshima to Wendai, killed at least 48 persons, and about 100 were missing.

Several ports in the inland sea reported that fishing craft were missing, and the steamer Tonegawa Maru, with a crew of 13 and 19 passengers, also was missing.

The typhoon was the fifth death-dealing storm in three months over Japan proper.

Installing McGill Principal

Montreal.—It is expected at least 24 Canadian universities and colleges will be represented at the installation of Professor A. E. Morgan as principal of McGill University Oct. 5. Dr. Robert C. Wallace, president of University of Alberta, Edmonton, will be in attendance.

Farewell Banquet

Governor-General And Countess Of Bessborough Are Honored

Ottawa.—A farewell banquet was given by the government of Canada to the Governor-General and Countess of Bessborough.

The term of office of the Earl of Bessborough as the king's representative in Canada expires shortly.

It was an affectionate farewell at which, in addition to Sir George Perley, who presided, there was a distinguished gathering of representatives of the state, the diplomatic corps, the church, the judiciary and the civil service with their wives.

Responding to the toast proposed by Sir George Perley, the governor-general dwelt on the happy relations he had enjoyed during his four years in Canada.

Veregin Resigns

No Longer Head Of Brotherhood Of Doukhobors

Saskatoon.—Peter Veregin, for 10 years president of the Christian Community of the Universal Brotherhood of Doukhobors in Canada, stated here that he had severed all connection with the community. He declared that he stood now as a private Canadian citizen. He had no intention of leaving the country, he said.

Mr. Veregin, who has been virtual ruler of the sect in Canada since the death of his father in a British Columbia railway accident, said he had tendered his resignation about six months ago. He would not disclose any reason for his action. He is now on his way to Montreal.

Honesty Was Rewarded

Delivery Boy Returns Valuable Bonds And Gets Good Job

New York.—From the lowly plane of delivery boy of "coffee and—" at $3.15 a week, young Albert Correri vaulted to a remunerative position in Wall street.

Correri's role in "the street's" newest success story was cast when he picked from the gutter a packet of bonds valued at $150,000 and returned them to the owners. C. F. Grunwald, vice-president of C. F. Childs and Co., Wall street brokers, owners of the bonds, announced Correri would start work in the cashier's department of the brokerage firm.

Correri, who is 22, may also get a reward.

Siege Of Lucknow

Ten People Alive To Celebrate Thrilling Event

London.—Ten people in different parts of the world celebrate one of the most thrilling incidents in the modern history of the British Empire, the siege of Lucknow in the Indian mutiny.

The oldest survivor of the siege is C. G. Palmer, a resident of British Columbia; the youngest Arthur Dashwood, 78, living in London. Dashwood's mother gave him birth in the residency at Lucknow, where 17 people were herded in one room during the siege. Despite her ordeal, Mrs. Dashwood lived for more than 70 years.

RECEIVING THE KING'S CUP

Pilot T. Rose, driving a Miles Falcon machine, won the King's Cup Air Race "round the British Isles" this year, and is shown receiving the coveted trophy from the hands of Sir Phillip Cunliffe-Lister.

TO STRENGTHEN NAVY AND AIR FORCE IN BRITAIN

London.—Prime Minister Baldwin intends to outline measures to strengthen both the navy and the air force when he addresses the Conservative party at its annual conference at Bournemouth.

George Lansbury, Labor leader in the House of Commons in an address declared Britain and other nations were on the brink of a war in which it would be "Christian against Christian, Mohammedan against Mohammedan, Jew against Jew—all praying to the same God for Victory.

"I cannot bow to that sort of thing," the leader said. "The way out is for some nation, and I want it to be Britain, to blaze a new trail."

Athens.—The semi-official Athens news agency announced information from a German source indicated arrangements had been completed at Instanbul for Greek and Turkish warships and planes to start manoeuvres in the Dardanelles and that two Roumanian torpedo boats would also participate.

It has been reported Greece is prepared to support Great Britain in any Mediterranean activity which might become necessary at the outbreak of Italo-Ethiopian warfare.

Greek newspapers hailed the arrival of British ships in Greek ports, saying that the people of Greece have come to regard the annual British naval manoeuvres in Mediterranean waters as a welcome tradition.

Mussolini Opposed

Report From Italy Of Some Opposition To War Plans

Paris. — French newspapers reprinted a story from The London Referee saying Prince Umberto, heir to the Italian throne, is opposed to Premier Benito Mussolini's conflict with Ethiopia.

(This report was described as utterly false in Rome and London by authoritative Italian spokesmen.)

There is a possibility, the story said ,of General Italo Balbo, governor of Libya and Italian air hero, leading a revolt against Il Duce.

"Balbo, whose relations with the royal family are excellent, is also opposed to the Ethiopian campaign," the story asserted. "A large number of Italian superior officers share his view."

Sentry Killed By Lions

Five Belonging To Emperor Selassie Make Dash For Freedom

Add'is Ababa.—Five of Emperor Haile Selassie's big lions escaped, killed one sentry, and injured five more.

In this rush for freedom they devoured several of the Emperor's pedigreed Australian sheep and killed two horses.

Colonel Mekouria, the commander of the imperial guard, seized a machine gun and shot all five beasts in succession.

Insurance Premiums Higher

British Vessels Passing Through Suez Canal Must Pay More

Singapore.—Fear of trouble developing in the Mediterranean was reflected here when marine insurance companies warned special premiums for "war risks" must be paid by British vessels returning to England through the Suez canal.

To escape payment of the war risk premiums British ships must go all the way around the Cape of Good Hope.

Gordon Bennett Trophy

Warsaw.—The Polish balloon Polonia was awarded the Gordon Bennett trophy as the winner of the 27th Bennett international races that began here Sep. 15. The Polonia, one of the 13 entries, travelled about 1,007 miles after a flight of 58 hours and 54 minutes, it was officially announced. It reached an altitude of 16,732 feet. Another Polish balloon, the Warsaw, was second.

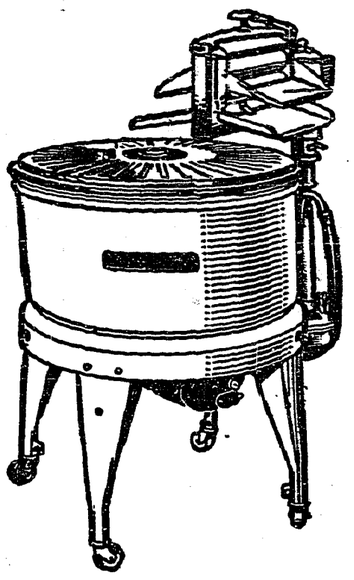
Save Time and Work



It's decidedly economical to own a General Electric Washer. For less than two cent's worth of electricity, you can do a week's washing and do it better than by any other method. Your clothes are cleaner and fresher—and they last ever so much longer. In fact, what you save by this modern home-laundering will soon pay for the General Electric Washer you buy.

You also save in time and energy. A General Electric Washer puts an end to old fashioned laborious methods, does a week's washing in an amazingly short time, and gives you new leisure each Monday.

By choosing a General Electric Washer you are assured of long faithful performance—and the greatest value for your investment. Prices are exceedingly reasonable and we offer you convenient terms of payment.

Al's Four Aces orchestra will play for the High School Literary Society dance at Park pavillion next Friday evening, November 22nd. The admission is 50 cents.

LAND FOR SALE—Well watered, partly timbered, first-class agricultural land for sale at $20 per acre. Also ten acres orchard for $1,200. R. Sinclair Smith, Creston.

When doing your Christmas shopping have in mind the sale of fancy work and home cooking on December 14th, under the auspices of the Catholic Ladies' League, Creston.

Creston got its first ground level snow on Monday, when about an inch of the white mantle came down during the morning. Mild weather since then has taken it away, however.

Murdoch McLeod, Registered Optometrist, of Vancouver, will be at Fred Klingensmith's, Creston, all day Monday, November 18th. Why not have comfortable and perfect sight.

Commencing Monday, Nov. 18th, Floyd Walde, agent for Spic and Span Cleaners, announces there will be a Thirty-Day Special. Suits and Dresses, $1 each. All other dry cleaning 20% discount on regular prices.

Armistice poppy sales, which were in charge of the Women's Auxiliary to Creston Legion were well up to expectations despite the unfavorable weather that prevailed. The ladies report wreath sales as better than in 1934.

Mr. and Mrs. T. Goodwin got away on Friday for their usual winter sojourn at points in southern California, making general headquarters, as usual, at Long Beach. They spent the weekend at Coeur d'Alene en route south.

For the last week in October and the first week in November Creston fuel dealers report sales of coal that are greater than for October, November and December in any ordinary year. The demand for wood has also been extensive.

The sacrament of the Lord's Supper will be dispensed at the Presbyterian Church at the morning service at 11.30, Sunday, November 17th, with preparatory service this (Friday) evening at eight. The pastor's subject Sunday morning will be "The Secret of Victory."

Creston high school basketball teams got an even break in their first games in the East Kootenay league at Fernie on Saturday. The girls' squad won 24-11, but the boys were trimmed 34-11. The next games are at Creston when Kimberley boys and girls will be here.

Mr. and Mrs. Ted Winchcombe of Nelson were renewing acquaintances in Creston at the weekend, guests of Mr. and Mrs A. Goplin. Since selling his barber shop here about three years ago, Ted has been in business at Winfield and Kelowna, and has recently opened out a butcher shop and grocery at Nelson.

The fire equipment was rushed to Erickson at noon on Saturday for the disastrous blaze that completely destroyed the fruit warehouses of Long, Allan & Long, Limited. The chemical engine did good work in preventing the blaze wiping out the C.P.R. station.

CARD OF THANKS

To all those who in any way assisted with the removal of the contents of the freight shed and the removal of furniture and household effects from the station and for the help in saving the depot building at Erickson in Saturday's disastrous fire we wish to extend our sincerest thanks. The care shown both in taking out and returning the furniture is particularly appreciated. Mr. and Mrs. T. W. BUNDY.
