LADYSMITH LEADS IN BASEBALL LEAGUE

Match in Nanaimo Ends Suddenly After Several Unpleasant Things Had Been Said

First Intermediate Team Sustained Their Right to be Classed as the Best Players After Hard Game

After the first league baseball game in the series, Ladysmith leads. May we be able to say as much after the last game.

Yesterday in Nanaimo, the local nine and the Nanaimoites had a little friction near the close of the seventh innings, and as a result, Nanaimo refused to continue the game, despite the fact that the referee called upon the players to "play ball" three times before awarding the game to Ladysmith. His decision, however did not make any difference, as Ladysmith was one run to the good, the score standing 7—6.

It was in the sixth inning that the locals fell down, and Nanaimo came in for five runs, tieing the score. With Ladysmith to bat, the seventh commenced, and Clarke was resting on first when Muir made connections and started for first. He was not soon enough, however, and was put out. In attempting to make a double play, and catch Clarke between first and second, the Nanaimo second baseman got excited and thought he had driven Clarke off the baseline, whereas Clarke said that he had not. The referee's decision should have been enough, but it evidently was not, as the Nanaimo man refused to play unless Clark was declared out. The latter in the meantime had reached home, and the home team refusing to take the field after three calls by the umpire, Mr. J. Hardy, the game was declared off, Ladysmith having twenty minutes in which to catch the train. Unless a protest is lodged and sustained, Ladysmith will have a win to her credit in the League.

A fairly good crowd witnessed the match yesterday, and it is too bad for the good of the game and those which are to come, that anything unpleasant arose. The locals, though, say it was not their fault, and that it is up to the other fellows to square themselves with the public who paid forty dollars to see the game.

The next match of the series will take place here on Saturday, 21st, when Ladysmith and Duncan meet.

FOOTBALL

Yesterday it was clearly demonstrated by the First, or Michie's intermediate team that they can play football better than some others who think they know a few points which the First team has not yet developed. Some claim that the score was 6—5 and others 6—4, but at any rate, the First team won, and proved that the Second team was travelling in too fast company. Up to half time, the score was even, 2 goals each, but after that, training began to tell, and the First team walked away with the ball and the score.

It was a good practice game for the First team, and should help a whole lot in getting them in better condition to meet the Westminster bunch again on Friday next in New Westminster. They were in better condition and training when the two teams met here on Friday last, and if they keep busy and get a little better combination in their forward line, there is no reason why they should not secure a win in the Royal City.

There was some talk of chartering a launch to take the boys and their supporters across to Vancouver, and there transfer to cars. However, this project will likely be abandoned, and the team will probably go by regular boat.

Regarding the chances of the game being won by the locals, there are all kinds of reports. Some say the Westminster team will win by reason of being on their home grounds and having a stronger team than they brought over. The last reason should not make any difference as the locals will also make a couple of changes. As for the grounds, well, we will hear more about them after tonight, if reports be true. It is said that at the balloon ascension at Blair & Adam's store tonight, which is advertised elsewhere, the captain of the eleven and another will pull straws to see who shall volunteer an ascent for the purpose of seeing just what kind of grounds the boys from the Fraser have. The results of the observation will be awaited with interest by the members of the team.

HANG AND ROAST NEGROES

Springfield, Mo., April 15. — A mob of 300 men tonight took Horace Duncan and John Copelank negroes from the county jail and hanged them to the Godess of Liberty on the courthouse and built a fire under, roasting the bodies. The men were charged with assaulting Mabel Edwards, but it is probable that they were innocent.

BOY'S PRANK COSTS 3 LIVES

Chicago, April 14.—During a panic following a prankish cry of "fire" by a boy tonight while 400 persons were participating in Easter evening services at St. Ludmilas Roman Catholic Church, Twenty-fourth street and Albany avenue, Emily Hotka, Lillie Gunaw and Barbaram Hoerkanik, the child of Mrs. Kate Kancka were killed and a score of other persons injured, several seriously. There was no fire. Father Farnik was offering prayer when one of the crowd of boys outside the church pushed open the front door and shouted "fire". Seeing the serious effect his words had on the congregation, the boy ran away. The pastor and ushers vainly endeavoted to quiet the congregation explaining that there was no danger and those who had no fear were trampled on by those who were frightened.

WALTER SCOTT RELEASED

Los Angeles, Cal., April 16.— Walter Scott returned here tonight from San Bernardino, where he was released from jail today on habeas corpus proceedings. He resumed his role with his theatrical company.

COMMITS SUICIDE

Mount Holly, N.J., April 14—Geo. R Young, who, it is said, was wanted in St. Louis for embezzlement committed suicide here today. He was 55 years of age. Young was a cashier of the Postal telegraph Co in St. Louis, and it is alleged he fled from the city last January after embezzling funds of the Company.

11,000 MINERS ARE ON STRIKE

Wheeling, West Va., April 14—The United Mine Workers convention of sub-district number five met here today to receive the answer of the operators to demand for the 1903 scale made upon them yesterday. The answer was a flat refusal to grant the demands and instead an offer to arbitrate on the lines proposed by John H. Winder, was presented. This the miners would not accede to. The operators then withdrew and a strike was declared. 11,000 miners are affected.

ASSIZE CASES FOR TRIAL IN VANCOUVER

Vancouver, April 16.—A striking feature of the list for the coming May court of criminal assize is the comparatively small number of white men included in it. Chinese, Japanese and Indians are decidedly in the majority.

There is only one woman on the list and she hardly needs introduction. It is Mrs. Jones, who is now, with her daughter, doing time for perjury. It will be remembered that Thomas Jackson, Mrs. Jones' son-in-law, died of poison. At the inquest, she and her daughter swore that a man going by the name of Fisher was Mrs. Jones' nephew. As he turned out to be really her son masquerading under a false name to cover up a past record, the women were found guilty of perjury.

The charge against Mrs. Jones in the present instance is also pretty well known. The case was up at the last assize, but the jury failed to agree. Before the poisoning of Jackson, Mrs. Jones was out on bail but after that affair, the young man who was one of the bondsmen, got rid of his property and was no longer qualified as a surety. She is accused of stealing a receipt. The allegation is that Capt. Sprague called to collect money due. She, it is deposed, simulated a desire to pay and had Capt. Sprague make out a receipt. She then, it is claimed, grabbed the receipt and refused to part with either it or the money.

In Rex vs. Kurtz, the defendant is the young man that figured in the Redfern diamond robbery case in Victoria. The charge in this instance, is stealing a bicycle.

A. Aptaka is charged with assaulting a fellow-Hebrew named Brown, with a pick.

James Yeo is awaiting trial on the charge of criminal mischief. The allegation is that, being angry at a lady of the restricted district, he went into her warbrobe and slashed a few hundred dollars worth of her gowns and jackets into ribbons.

Wetsi-Stala is charged with perjury in an Alert Bay Indian murder case. The story is that he tried, by his evidence, to fasten the crime of murder on two boys, whereas it was proven afterwards that they had nothing to do with the crime.

Sheck Foo is a Chinaman. He was book-keeper for the Man On Company. When the time for New Year settlements came around Sheck Foo could not produce the company's books, which were in his charge. He is now accused of stealing them.

Michael Ruzinski, a Pole, was sent up from the local police court on a charge of carving William Mottishaw of the Golden Gate hotel, with a knife.

N. Okawa, a Japanese, originally arrested as a vagabond, was afterwards committed on a charge of stealing a bicycle from W. J. Annand.

Koxanus is the Indian, also from Alert Bay, who is charged with taking unto himself a wife and four children, while he had a wife with eight children, from whom he had not been divorced, still living. His second marriage allegedly took place at the big potlatch just concluded at Alert Bay.

FORCED DOWIE TO LISTEN

Chicago, April 4.—Today a summons, which a deputy sheriff vainly attempted to serve upon Dowie when he arrived in this city, was read to him in his rooms at the auditorum by Deputy Sheriff Wilson. Deputies Herone and Wilson visited the hotel and after trouble entered the Dowie ante-room. The followers of Dowie endeavored to have the writ served upon Dowie's attorneys, but Deputy Wilson declined to do this. The large coloured man who serves as a personal guard for Dowie told Wilson to leave the room and moved as if to put him out. The Deputy drew a revolver and said that he proposed to serve the summons and would not leave until he had done so.

He was then admitted to Dowie's room and read the summons to which Dowie listened without replying. The summons is in a civil suit brought against Dowie for $500 by a local alienist.

Mr. and Mrs. B. Mason, are in the city from Vancouver, having arrived Saturday evening on the Joan.

WM. K. LEIGHTON IS DANGEROUSLY ILL IN NANAIMO

Word was received from Nanaimo today to the effect that Mr. Wm. K. Leighton, who has many friends in this city as well as all over the island, is very dangerously ill, and according to the physicians' report it is doubtful if he will recover.

Mr. Leighton has been slightly ailing for some time, and on Friday last he was found lying on the floor of his office at the Opera House. After being roused, he acted strangely for some time, and upon being taken home grew rapidly worse. Last evening his recovery was dispaired of.

MISS SUTTON ABANDONS TRIP.

Los Angeles, April 16.—Miss May Sutton announced today that she would not go to England to defend her title as the champion woman tennis player of England on account of the large expense involved. It is possible that her expenses may be defrayed by public subscription, in which case Miss Sutton would probably consent to go.

HOSPITAL MEETING IN CUMBERLAND

The hospital meeting and election of officers was held in the city hall last Saturday President Abrams in the chair.—The minutes, treasurer's and auditor's reports were read showing the institution in a flourishing condition. The election of officers then took place, with Rev. Mr. Hall in the chair.

President—Mr. Abrams.

Vice-president—L. A. Mounce.

Secretary—F. Dalby.

Treasurer—J. L. Roe.

Board of Directors—A. McKnight, Dr. Gillespie, T. Bennett, M. Magnane, J. Weir.

The president then invited remarks and Mr. Patridge mentioned that Saturday night was inconvenient for business men or there would have been a larger meeting, and moved that Tuesday night be adopted. Mr. White moved in amendment that Monday night next be chosen. The amendment carried. A vote of thanks was passed to the Wellington Colliery Company for free coal to auditors, physicians and outgoing officers, and then the meeting adjourned. It had been expected that the District would this year be represented by one or more directors from the Valley, but there were no nominations from there.—Cumberland News.

EAGLES WILL GIVE ENTERTAINMENT WEDNESDAY

On Wednesday evening next the Eagles are giving an entertainment which promises to be most successful. They have taken much pains with the details of the affair, and have invitations out today. The invitations speak for themselves. They are printed on brown paper, such as is used in butcher shops, and the wording is in every sentence original. For the benefit of those who have not been at the postoffice today, the wording of the invitation is produced below:

LIBERTA. WAHRHEIT GEUTEZE AEQUALITAS

MR .....

If you value your life; if you ever wish to see your family and friends again, do not fail to obey these commands.

YEA! YEA! YEA!

On Wednesday night, April 18, at 20:30 o'clock sharp you must appear at the Eagles' Hall, the occasion being the second anniversary of the Ladysmith Aerie, No. 686, to partake of the good things of this earth. Come before the hour to be sure you are not a minute late, or beware of the vengeance of him supreme.

GRAND EXECUTIONER.

Guests are cautioned not to eat anything 12 hours previous.

Mr. B. Forcimmer will present during the evening a pair of vases to the lady who comes nearest the correct number as to how many beans are contained in a jar which will be on exhibition during the entertainment.

The vases to be presented may be seen tonight in Mr. Forcimmer's window.

MINE OFFICIALS BANQUETED

Mr. T. R. Stockett, Manager of the Western Fuel Company, gave the officials of the mines a banquet at the Windsor hotel last evening. About thirty sat down to a splendid repast provided by Mine Host Fox and after the good things had been done full justice to, a programme of songs, speeches, etc., was gone through, the Manager's guests spending a most enjoyable few hours.

DISASTER ON U. S. WARSHIP KEARSARGE

Washington, D.C., April 14—The navy department has received word of a serious accident on the battleship Kearsarge, while she was engaged in target practice yesterday at Culebra. An explosion occurred in one of the forward turrets as the powder was being taken down and Lt. John M. Hudgins and five men were killed. One officer and a numberof men were slightly injured.

The official account of the disaster is contained in the following cable from Admiral Evans at Clamaniera, dated April 14.

Secretary Navy, Washington.

"On April 13, about 3:15 p. m. shortly after competition target practice of Kearsarge forward turret, while the power was going below three sections of a thirteen inch charge of powder was ignited. A charge of powder in the other lift just below, and one section inside the 13 inch remained intact. The cause is not yer determined and the matter is being investigated.

"Lieut. Joseph W. Grahame, gun umpire has been sent to the Maryland hospital in a very critical condition about 9 p.m.. The following have since died:

LIEUT. HUDGINS, third officer.

P. NORBERG, gunners mate

THEO. NAEGELY, seaman.

ANTONIO THORSON, ordinary.

Washington, April 14.—Two years ago, today, later than the fatal Missouri disaster, and on a Friday to a day, later than the fatal six men were killed in the forward turret of the battleship Kearsarge by one of those accidents which acquire additional terror for scores because of their obscure origin and almost impossibility of preventing. The Atlantic fleet, the strongest fighting fleet that has ever been owned by America, has been for weeks engaged in the most severe drills in the waters of the Caribbean Sea culminating in a quarterly target practice. This practice was just about concluded with most satisfactory results and it was confidentially expected at the department on the basis of preliminary reports received that all records would be broken in the matter of rapid firing and efficiency of the gunners, but today, just at the close of the week's work at the department came a cable gram from Rear Admiral Evans, the commanding chief of the Atlantic fleet, telling of a fatal accident on one of his ships, the Kearsarge. The news came from the Clamenaria a little cable station at the mouth of Guantanamo bay, stating that the Kearsarge herself had arrived at that place. A slight telegraphic error requiring the consumption of some time to effect the reception of the message added to the anxiety of the officials as soon as they had made out the entire fact that a serious accident had occurred.

Immediately on receipt of the cable gram, acting secretary of the Navy, Newberry carried it to the President at the White House, and was authorized to send an expression of sympathy to Admiral Evans.

The Kearsarge is regarded as one of the best battleships in the American fleet. She is commanded by Capt. Winslow, is of 11,520 tons displacement of 375 feet in length 72 feet in breadth and 23 feet draught with a speed of speed of 16.82 knots and battery of 22 guns, four inches.

SUBSCRIBED WELL FOR NEW STORE

Trustees Received Subscription on Saturday Night From Those in Favor of Establishing Store

Another Meeting Will be Held Soon When Initial Steps Toward Starting Business Will Be Taken

On Saturday evening the trustees elected at the last meeting held by those desirous of starting a co-operative store in Ladysmith, Messrs. Hawes, McRae and McMurtrie, met in the Checker Rooms for the purpose of receiving subscriptions for capital stock of the proposed store.

While the amount subscribed is not given out for publication, the trustees state that sufficient money was raised to assure the starting of a co-operative store in Ladysmith. Further details will likely be forthcoming at the next public meeting, which will be about the 25th of this month, although no definite arrangements for another meeting were made at the last gathering, it being understood that an adjournment was taken until the call of the secretary.

NANAIMO NEWS NOTES

PROGRAMME.

Following is the programme of the Wallace Street church entertainment to be given on Monday evening next:

Chorous—Children.

Instrumental duett—Miss. Smith and Mrs. Vipond.

Recitation—Miss. Leask.

Solo—Mr. Letcher.

Instrumental—Miss. Watson.

Recitation—Children.

Quartette—Messrs. Letcher, Jones, Dobeson and Davison.

Solo—Miss. Locke.

Recitation—Mr. Sedgewick.

Chorous—Children.

Mr. Thomas O'Connell, jr., accountant in the Nanaimo branch of the Royal Bank of Canada has given notice of resignation to the bank which will take effect in about a month from now, when he will leave Nanaimo as a member of one of the Dominion government survey parties appointed to mark out the boundary line between Alaska and Canada.

Mr. O'Connell is anold resident of Nanaimo and has been connected with the Royal Bank for quite a number of years having risen from the position of messenger to his present responsible office and has not only enjoyed the confidence of the Bank officials, but the esteem and friendship of the patrons. Outside his connection with the bank also he has been one of Nanaimo's best known and most popular young men and he will take up his new work with the best wishes of a very large number of people in Nanaimo.

A committee of the Rod and Gun club were busy yesterday afternoon buttonholing new members for the club. As the result of their day's labor about sixty new members were added to their already long oned.

FOR THE HOSPITAL.

The proprietor of the merry-go-round now in operation near the E and N. railway station desires the Herald to make a proposition that if it can be taken advantage of, will result in netting a nice sum of money for the hospital. The proprietor, Mr. Kent of Victoria, states that next Saturday and evening he will be very glad if the hospital committee will furnish a committee of ladies to sell tickets on the grounds for the Merry-go round. Mr. Kent and his assistants will run the plant, the ladies will handle all the money. The actual cost of running the plant will be about one-half of the receipts if it is kept busy. In other words one half of the entire receipts for the day and evening will be given to the hospital, the other half going to the proprietor for expenses. If there is a good turn out $30 or $40, and perhaps more may be realized for the hospital. The Herald will be very glad to publish anything from the Hospital committee or those interested in providing funds for the same in connection with the suggestion as above. Could not the city band be interested in the matter if it is thought best to take advantage of Mr. Kent's proposition.

Scores of children are enjoying themselves every day and evening up near the E. and N. station where the merry go round is whirling and circling to the music of a calliope. The horses are rocking and the coaches that are drawn by wooden horses all tend to cause the children to think it is a great entertainment, and it is even the grown ups are in evidence, and with a have to do it, to take care of Johnnie and the father mounts a pony by Johnnie's side and enjoys it just about as much. Meantime, Susie must ride in the coach and mother gets in to take care of her, and is fair enough to admit that she enjoys it. It is a great game for children to play. It only costs a nickle a ride and the children will enjoy it all of next week.

RIFLE SHOOT.

The results of the Rifle shoot yesterday were as follows:

Name	200	500	600	Tt.
W. Waddington	31	33	30	91
Dr. O'Brian	30	30	26	86
R. Adam	31	29	19	79
A. McNeil	24	28	21	73
A. Escott	25	22	23	70
E. Jones	22	19	25	66
C. Graham	26	18	17	61
E. H. Gough	25	15	14	54
C. Graham	25	18	3	46

The next shoot takes place on Saturday, April 21st, and on Thursday, the 19th inst., these will be a practice shoot.

London, April 14.—Jabez Spencer Balfour formerly a financial magnate and a member of parliament who was sentenced to 14 years in prison in 1895 for extensive frauds in connection with the Lands Allotment Company and the House Land Investment Liberator group of companies, was released today from the Parkhurst prison in the Isle of Wight. The case of Jabez Balfour caused a great deal of interest. He is a man of good education and pleasant manners and succeeding in swindling thousands of people, especially persons belonging to the poorer and middle classes. It was estimated that these lost about $30,000,000.

The Band regret having had to postpone their Sunday Concert yesterday on account of the unsettled state of the weather, and the unavoidable absence of some of their members.

They will give a concett on Tuesday evening, the 17th inst., (weather permitting), at Blair & Adam's corner, starting at 6 o'clock sharp.

One week from tonight, Monday, April 23rd, the play to be given by the Ladysmith Amateur Dramatic Club will take place. The cast is made up of local players, and the proceeds are to go towards the sport grounds fund. There should be no empty seats. Posters announcing the cast are out today.

AT THE ABBOTSFORD.

T. F. Lewis, Montreal.
W. H. Donaldson, Seattle.
R. E. Grant, Nebraska.
R. C. Thomas, California.
T. W. Bennett, Spokane,
M. Ross, Vancouver.
Mrs. A. Shuttleworth, Victoria.
Miss A. Smith, Victoria.

MATTEUCI'S STORY OF THE ERUPTION

Naples, April 14.—After a hard ride on horseback up the side of the mountain, the Associated press representative today succeeded in reaching the highest habitable spot on Vesuvius where Professor Matteuci, director of the Royal observatory, courageously has held his post throughout the eruption. The noted scientist was found to be comparitively calm, and undisturbed by his recent fearful experience. For three days Professor Matteuci and his little band were cut off from the outside world. Their provisions ran low and the rations consisted of cheese, bread and dried onions, until professor Matteuci's urgent telegraphic appeals led a venturesome guide to push through off Friday with a stock of supplies for their relief. Meantime the professor had kept at his instruments, taking observations and making calculations day and night while a perfect inferno raged around him. As he came forward to greet the correspondent his blackened face and dust covered clothes told of the ordeal through which he had passed. Professor Matteuci was asked to tell in his own way the story of the cataclysm from the outset. He readily consented to do so, and in good French gave the detailed narrative:

"I first noticed Mount Vesuvius giving unusual signs about a month ago when lave began to overflow, taking a southwest direction. This gradually increased as several small lave streams formed into one great current. The real danger began the middle of last weel. Then an enormous stream of lava came from the summit and other streams which burst from the lower strata. Throughout the lava discharge the volcano was comparitively quiet and without electric phenomena or explosions. The only ominous sign was the advancing wave of lava and the cinders forming an enormous cloud in the shape of a pine tree over the crater. Our really terrible period came at 3 o'clock Sunday morning, and lasted until 8 a.m. The mountain, which hitherto had been quiet suddenly gave out a deafening roar and a great rent was made in its cone. Huge rocks were hurled skyward, some of them fell near the observatory, threatening to crush in the roof but most of them fell outside the observatory zone. There was no scoria in the first discharge, but solid-like stones which cut the roof and damaged the windows.

Professor Matteuci continued. "At midnight on Saturday I ordered the women and children to be removed That was just before the rain of huge stones began and I was then left with Professor Potter, of New York, my American assistant and two domestics. There was scarcely any eating and all domestic order was abandoned. Throughout Sunday enormous solid blocks of stone rose to a height of 250 feet from the crater; while ashes and sand were thrown much higher, but towards Monday the terrible shocks of earthquake had gradually diminished. One of the worst features of the eruption was the unusual extent of the electric phenomena, the darkness being broken by vivid flashes of lightning giving the sky a blood like color with short heavy peals of thunder interposed. These moments were terrible, very terrible, yes, a veritable hell."

Concerning Mount Vesuvius in the future, Prof. Matteuci said: "I am unable to tell with any degree of certainty. I sincerly hope that this eruption is over, but we cannot tell whether another eruption may not come during the next minute. However, all my indications point to a period of calm for the next few days and therefore am hopeful. But I was hopeful last night although serious explosions occurred at ten o'clock in the evening without any warning.'

Professor Matteuci handed the representative a stone the size of a three inch shell as a souvenir of his visit saying: "These are very precious stones, some of them have hit me at one time or another. They represent my wounds."

GRIP QUICKLY KNOCKED PUT.

"Some weeks ago, during the severe winter weather, both my wife and myself contracted severe colds, which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Egleston, of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain Cough Remedy, aiding the same with double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Sold by Ladysmith Pharmacy.

Paris, April 14.—This was "varnishing day" or the 36th annual exposition of the National Society of Fine Arts and it attracted a brilliant gathering at the Grand Palace. In spite of the presence of a number of new works the saloon this year marks a lower artistic level than that of last year. No picture stands out prominently. Bochardt displays a large portrait of the German Emperor, which attracted crowds of people. It is especially guarded by police to prevent possible mischief on the part of the French patriots.

CLOTH TRADE GOOD.

Manchester, Eng., April 14—Early in the week a fair amount of business was transacted in the cloth market and prices were firm and unaffected by the ease in common. The holiday suspended all transactions.

A Great Boot for Prospectors

They are all leather, and made to stand strenuous usage in mine or forest.

L117. Men's Tan Chippewan Veal Kip Prospectors' Boots

Ten-inch blucher cut, with with full bellows tongue to the tip; have double silver eyelets and stud hooks; double sole and slip; standard screw fastened; slugged around the forepart and heel. A comfortable as well as a durable boot.

Greenville, Pa, April 14.—As the result of a grade crossing accident at Atlata, near here, on the Erie Railroad today three persons were killed and two injured.

MAXIM GORKY AND HIS FAMILY TROUBLES

New York, April 14.—When Maxim Gorky arrived in this country last Tuesday, he stated to the immigration officers that he was accompanied by Mme. Gorky. This morning the statement was published that his companion was not his legal wife, who, with his children remain in Russia. As a result of this publication Gorky today issued a statement, which, translated reads as follows: "I think this disagreeable act against me, could not have come from the American people. My respect for them does not allow me to suspect that they lack so much courtesy in their treatment of women.

"I think that this dirt is conspired by the friends of the Russian government. My wife is my wife. The wife of Maxim Gorky. She and I both consider it too low to go into any explanation about this. Everyone may say about us what they please. For us, it remains to overlook the gossip of others. The best people of all lands will be with us.

("Signed) "Maxim Gorky."

The published story went on to say that Mrs. Gorky, who is now with the author is Andreva, a Russian actress with whom he has lived since the separation of his wife about three years ago. The explanation was made that being unable to secure a divorce in Russia because of the strong official strength against him. Gorky secured a divorce in Finland and was married to Andreva. When he was approached on the subject Gorky said: "The publication of such a libel is astonishing, and I am surprised that in a country famed for its love of fair play and its reverence for women such slanders should be given credence "She is my wife."

CUMBERLAND.

(From the News.)

Messrs J. Fraser and O. H. Fechner, the two barbers, P. Monte; shoe maker, and Hugh Mitchell, blacksmith were charged with carrying on business with out licenses, under the Act. The defence set up by Capt. Dillon, for the defendants, on Monday evening, before Messrs Abrams and McKnight, was that they were not liable to the tax because of being dependent on the skill of their hands solely for a livelihood, and therefore it was a direct tax on labor. The magistrates took the view that under the act they could not do otherwise than convict and imposed a fine of $1.00 costs, $3, and license 95, on Messrs Fraser, Fechner and Monte. Mr. Mitchell was dismissed on account of being owner of his premises and was carrying on an industry. The fines were paid under protest and notice of appeal given.

Under the same act Dr. Quinlan was summoned last week, and his case was also dismissed on the grounds of his being a professional man, it being persumed that a profession did not rank as an occupation.

RHEUMATISM MAKES LIFE MISERABLE.

A happy home is the most valuable session that is within the reach of mgnkind, but you cannot enjoy its comforts if you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatism pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continual use for a short time will bring about a permanent cure. For sale by Ladysmith Pharmacy.

MUTINY SPREADS.

Lisbon, April 14.—The mutinous spirit has spread to the crew of Portugese ironclad Vario De Gama. The authorities have taken precautions to prevent further outbreaks. A number of the crew of the cruiser Don Carlos I, who mutinied on April 11 have been imprisoned.

The Young Ladies' Guild, of the local Presbyterian Church intend giving a Conversazione in the Opera House on Friday, April 20. A splendid programme is being prepared.

The Rathbone Sisters, of Ladysmith, will hold their dance tonight, April 16. Nothing will be left undone to make the affair a most enjoyable one. The price of tickets will be 75c per couple and 25c for extra lady. Supper will be served in the Banquet Hall for 25 cents. The Grand March will start at 8:30. Good music will be furnished.

Mrs. F. Shuttleworth, of Victoria, paid a brief visit to Ladysmith yesterday. Mr. Shuttleworth is employed at the E. & N. station here.

Tonight at the Opera House, the Rathbone Sisters entertain. Dancing commences at 8.30 sharp and a good time is assurred those attending. Supper will be served during the evening in the banqueting room adjoining the dancing hall.

Delagoa, South Africa, April 16.—The British ship George T. Hay, bound for Argentina, being in a sinking condition, was abandoned and burned off Port Elizabeth. The Captain and crew were brought here by a German vessel.

Colonel William Elliot, of Beaufort, S.C., formerly a representative in congress from that state, has been appointed by Secretary Taft to be a commissioner to mark the graves of the confederate soldiers, who died in northern prisons.

TENDERS.

TENDERS addressed to the undersigned at Ottawa and marked on the envelope "Tender for the construction of a Hydrographic Steel Twin Steamer," will be received up to the FIRST DAY OF MAY NEXT, for the construction of a Steel Twin Screw Steamer for the Hydrographic Service in British Columbia waters.

Specifications, plans and forms of tender can be seen at the office of the Agent of the Department of Marine and Fisheries at Victoria, B.C., at the Custom House at Vancouver, B.C. and at the department here.

Each tender must be accompanied by an accepted bank cheque equal to 10 per cent. of the whole amount of the tender, which will be forfeited if the person sending the accepted tender declines to enter into a contract with the department. Cheques accompanying tenders which are not accepted will be returned immediately after a decision has been arrived at.

Newspapers copying this advertisement without authority from the department will not be paid.

F. GOURDEAU,
Deputy Minister of Marine and Fisheries.

DEALER IN FURNITURE AND STOVES

WARNING——GLANDERS

In districts where the existence of Glanders is suspected, and especially in neighborhoods where actual outbreaks have occurred, the adoption of the following precautions by owners of horses and others interested, will do much to prevent the spread of the disease and the establishment of fresh centres of infection.

1. Horses or mules having a nasal discharge or other suspicious symptoms should not be admitted to livery or feed stables or yards, blacksmith shops, church or school sheds, railway stock yards, private stables or other places where they are likely to come into direct or indirect contact with animals of the equine species.

2. All stables, yards or sheds used for the accommodation of horses or mules should be regularly and frequently cleansed and disinfected in the manner prescribed below.

3. After cleansing the premises thoroughly, and burning all debris, the interior should be well gone over with hot steam, or boiling water, adding to the latter at least one quart of crude carbalic acid to each five gallons, after which the entire surface should be thickly coated with a hot solution of fresh lime wash, to which crude carbolic acid has been added in the above mentioned proportion.

Outbuildings, fences and tying posts with which infected animals have been in contact should also, when possible, be thoroughly treated in a similar manner.

All ordinary harness and stable utensils which have been in contact with infected animals or infected premises, should be thoroughly soaked in a hot solution of crude carbolic acid of a strength of one part to twenty.

Materials which might be injured by the above treatment, such as valuable harness, robes, cushions, etc., which have been in contact with infection, should be placed in an air-tight room and fumigated with Formaldehyde, after which they should be thoroughly cleaned.

4. Stables where outbreaks have occurred or where diseased animals have, inadvertently or otherwise been stabled, even temporarily, the cleansing and disinfection should be especially thorough, and in such cases it is safest to remove and burn feed boxes and mangers when of wood; iron articles can be rendered harmless by passing them through fire, or by immersing them for some time in boiling water. All litter from suspected animals should be burned, or carefully fenced until used.

5. Farmers and others should, whenever possible, avoid admitting strange horses or mules to the premises occupied by their own animals, especially of the same species. It is a good plan to reserve an isolated building for outside horses or mules, but where this is impossible they may be accommodated in cow stables, cattle not being subject to glanders infection. Such horses and mules should be watered from special pails, which, together with other stable utensils used on or about them, should be carefully cleansed and disinfected before being used for other animals. Stalls occupied by strange horses or mules should be well cleansed and disinfected, and if, at all possible, left unoccupied for some time.

6. Where new horses or mules are purchased in or from districts where glanders exists, they should, unless carefully tested with Mallein prior to purchase, be stabled apart and closely watched for some time before being brought in contact with other animals of the equine species.

7. It must be borne in mind that while nasal discharge, or ulceration, enlarged glands, the presence of farcy buds, unaccountable swelling of the limbs and general unthriftness often characterizes cases of Glanders, the disease exists in many animals without, for the time being, any external manifestation whatever, the only means of detection in such cases being the Mallein test, and that these occult or latent cases, are in some respects the most dangerous because unsuspected. Our experience shows that it is possible for animals of this class to convey infection to others without themselves developing acute symptoms. It is therefore plain that great caution should be exercised on the purchase or handling of strange horses or mules, especially in those districts where the disease has become established.

8. The carcasses of animals dying from or slaughtered as being affected with Glanders should, when possible be burned, or failing this, buried at least six feet beneath the surface.

9. Owners of premises where outbreaks have been dealt with should bear in mind that Inspectors cannot recommend release from quarantine unless disinfection has been carried out in a satisfactory manner, and that compensation for animals slaughtered cannot be paid unless a certificate of cleansing and disinfection has been received by the Minister of Agriculture.

10. Horse owners should have no hesitation in reporting to this Department or to its inspectors the existence of actual or suspected cases of glanders. The disease has been spreading rapidly of late years, and it is a matter of public interest that every fresh centre of infection should be discovered and dealt with as promptly as possible.

J. G. RUTHERFORD,
Veterinary Director General
Department of Agriculture,
Ottawa, March, 1906.
