ORE FOR THE TYEE SMELTER

Capilano Arrives From North With Ore—Captain States Omar Mines in Position to Ship 2,000 Tons Monthly

Ore Carriers, However, Not at Present Available—Vessels Engaged in Alaska

The Capilano arrived in port this morning from the North. She had on board 120 tons of ore from Omar mines and 180 tons from the Gold Stream Mines, on Gavina Island, for the Tyee Smelter.

The Capilano is returning from Skagway, having touched at various ports on the way down. The captain reports bad weather most the trip, today being, he says, the first they have seen since the first of April when it was not snowing.

Speaking of the mining outlook in the North this season, Capt. Johnson stated that the Omar mines could be shipping two thousand tons of ore monthly to the Tyee smelter if transportation was available. This also applies to the mines on Gavina Island.

"The whole of Southeastern Alaska," said the captain, "will be producing ore in quantity this season, the great trouble being poor transportation facilities. At Skagway this year they are counting on an increase of twenty-five per cent. in freight shipments over last season."

The Capilano will unload here today, proceeding to Vancouver this evening.

As showing the tonnage, class etc., of vessels engaged for the season of 1906, for the Alaska salmon pack, the following list is of interest:

HON. R. GREEN INSPECTS ROAD

Mr. Green Accompanied by Mr. Gamble and Mayor Make Tour of Proposed Crossings

Does Not Favor New Government Road Being Made From Brenton's Crossing to City

Chief Commissioner of Lands and Works, Hon. R. Green, accompanied by Mr. Gamble, provincial land surveyor, arrived on the noon train today from Victoria, and at once proceeded to examine into the question of a crossing over or under the tracks of the E. & N., and Wellington Colliery Company. Mayor Nicholson accompanied the visitors up the track as far as first creek, where Mr. Green made an inspection of the new bridge which has been put in by the Wellington Colliery Company. At this point the old wagon road has been switched over from the lower to the upper side of the new short line, thus avoiding two crossings of the track by the wagon road. This also necessitated the building of another bridge across First creek and considerable cutting in order to obtain a good grade. The work has been well done, and appeared in that light to Mr. Green. Mr. Green also wanted a clearer idea than obtainable by drawings of the proposed alteration of the wagon road from Brenton's crossing to run alongside and below the tracks of both the E. & N., and Wellington Colliery Co. This route has been surveyed and a report made of same. Upon Mr. Green inquiring from Mr. Gamble what advantages such a road would have over the present one, the latter gentleman replied that he could see none. It would avoid only one

This Morning in San Francisco Over One Thousand People Were Killed by Earthquake at 5.10—Buildings Wrecked by Thousands

FIRES STILL RAGING

The Examiner Building, Call Building, City Hall, Valued Seven Million Dollars and Other Buildings Completly Destroyed

San Francisco, April 18.—(Special)—3 p.m.—San Francisco was practically wrecked by an earthquake at 5.10 this morning. The shock lasted for three minutes and thousands of buildings were damaged or destroyed.

The Loss of Life

is reported as very great in all parts of the city. No water is obtainable and fires are breaking out in every section. The City Hall, costing seven million dollars is in ruins. Modern buildings suffered less than those of brick and frame.

The terror and excitement which prevails is indescribable. Most of the people were asleep when the shock came and rushed into the streets undressed. Buildings swayed and crashed, burying many occupants. Panic reigned in down-town hotels. The Lick House is badly damaged, but no loss of life is reported from there.

Fires started in every direction. The first shock threw street cars off the tracks and completely wrecked the telegraph offices. It is reported that there are

1000 Lives Lost

Both postal and Western Union Telegraph buildings are destroyed. Serious fire is eating its way along the south side of Market Street and at last accounts was within three blocks of the Palace Hotel. The Palace and St. Francis hotels stood the shock.

People flocked to the telegraph offices to send

Messages to Friends

and were frantic because there were no wires. The greatest damage to buildings occurred on Market Street, where they are mostly frame and tenement houses.

Fires occurred in every block in the district. All

Business is Suspenped

Power of every kind is gone, and there are no lights, either gas or electric.

Between the Postoffice and waterfront there has been great damage by fire, which is burning fiercely and there is little or

No Water

The fire is burning both on east and south sides of Postal Telegraph building.

The damage done by the earthquake apparently extends all over the city. The

STREESSA E BLOCKED

with debris and buildings are being blown up. Residence districts are safe so far as heard from. The business section from Market street to Mission and from Bay back, are almost completely wrecked.

The Call and Examiner buildings are destroyed. Many buildings along Market and Mission streets, including department stores, collapsed. Hundreds of people in cheap tenement buildings are

REPORTED KILLED

Office of Postal Telegraph Co., in Hobart building is wrecked, as is the Association Press building.

BASEBALL FANS MEET

At a meeting of the local baseball club last evening, it was decided to organize an intermediate team, perhaps two, to represent Ladysmith in the district Intermediate League this season.

Tonight the Seniors will meet the intermediates on the bunker grounds, in the first local game of ball this season. This will not only be a good practice match for the Seniors for the game with Duncan on Saturday, but will bring some of the best intermediates to the fore, and make the selection of the latter team a much easier proposition. So it is up to the younger aspirants for baseball fame to get in and drill tonight, as the better they show up, the more chance they will have to catch a place on the intermediate nine.

The secretary was authorized to purchase the necessary paraphernalia such as balls, bats, etc., and will also obtain sufficient wire netting for the erection of a substantial backstop, which will be put up before Saturday's match, which is called for 4:30.

The Secretary of the club is expecting a corrected schedule of games for the season from Nanaimo shortly, which will be published as soon as received. This will give the fans no excuse for not turning out to practices before a scheduled match is pulled off.

FOOTBALL

Captain Michie requests all the intermediate football players of the city to meet in the rooms at the Bowery this evening for the purpose of discussing the trip to Westminster this week for the return game with the Columbian College boys for the championship of British Columbia.

The question has arisen as to whether or not the team shall journey over on a launch, and this matter is to be settled tonight. All those who cannot swim are particularly requested to say so tonight, as it is considered wise, in case a launch is used, to launch all the non-swimmers around the ball during the trip over in case of accidents, as it is thought best that they should be in the forward line when it comes to getting back into the boat. However Capt. Michie will explain things tonight.

THE RUSSIAN LOAN

St. Petersburg, April 17.—The successful negotiation of a foreign loan of $150,000,000 ruinous as are the rates which Russia is obliged to give for the money, extricates the government from much of its embarrassment and enables it to clear the decks of the accumulation of debts and furnish the necessarys to keep the treasury above water, at least for two years

DOWN FROM EAGLE CITY

Seattle, April 17.—Samuel Hale, of Eagle, Alaska, is in the city at the Rainier-Grand hotel en route to London, England, carrying with him special messages from Roald Amundson, the explorer who recently accomplished the feat of sailing his ship Gjoa through the northwest passage to Nansen, the great Norwegian explorer, who is now minister to England from Norway.

Mr. Hale is the manager of an English syndicate that has just acquired large placer holdings near Eagle, which will be worked this season with dredger and hydraulic on a large scale. He is on his way to London to report on the project and to place the orders for the dredging and hydraulic machinery, and simply carries the messages from Amundson as a matter of accommodation to the explorer.

Mr. Hale became acquainted with Roald Amundson during his stay at Eagle after his trip across the ice from Herschel island to report the news of his great scientific accomplishment. In speaking of Amundson and the messages which he bears to Nansen, Mr. Hale said:

"Mr. Amundsen did not regard his trip through the Northwest passage as anything out of the ordinary. He realized that it was of scientific importance, but gave the members of the crew of the ship Gjoa as much credit for the success of the expedition as he took himself.

"When he left Eagle to start on the mush back to Herschel, Mr. Amundson did not seem to think that he was undertaking a hard task and to talk with him one would almost think he was simply going out for a pleasure jaunt."

In speaking of the prospects in mining in the Eagle district this year and the plans of the syndicate which he represents to operate their property, Mr. Hale said:

"The ground at Eagle is low grade but we have prospected sufficiently to know that it will pay for dredger or hydraulic operations and will put in at least one dredger and several giants this season. There will be very little operation this year, as it will take the greater part of the season to get the machinery on the ground and installed."

LIGHT BY-LAW FOR NEXT WEEK

Will Receive Legal Advice on Framing of By-law During Week From Victoria City Solicitor

Request to Have Hop Lee's Steps Pulled Down Made by Mr. Gould—Will Test Fire Hose

At the Council meeting last evening, while the subject of electric lights was introduced, there was not much discussion on the matter. After the vote had been taken last week, Mr. C. D. Mason, city solicitor of Victoria, was communicated with regarding the framing of a by-law which it was the intention of Ald. Campbell to introduce at last night's meeting. A letter which had been received from Mr. Mason was read to the council in which the writer asked for more information regarding the city. After the receipt of this information Mr. Mason promised to have the by-law framed and in readiness by Wednesday next. As this was, of course, too late for introducing same at last night's meeting, it was decided to bring the by-law before the meeting next Monday evening, and Ald. Campbell's motion of withdrawal until such time was carried.

Communications.

A letter was read by City Clerk Stewart from Mr. L. H. Solly, District land agent of the E. & N. Co., giving notice that grounds owned by them must not be used for a dumping grounds by the city council, and requesting that the council attend to the matter at once.

This letter had been received some time ago, but owing to the fact that there was no council meeting last week, the matter had been left in abeyance until such time as the council met, and in the meantime the grounds have been used. Last evening, however, it was decided that the scavenger should be instructed to find a new dumping ground at once, and discontinue the use of the present place immediately. It was suggested that the boat formerly used by the scavenger at the spit be removed to a point about three miles north of the city where the road runs close to the beach and where it will be convenient to unload a wagon into a boat, which can then be taken into the bay and dumped. The Sanitary committee will carry out the instructions of the council at once.

Mr. Isaac Gould wrote asking why the council did not take steps to to have the steps in front of Hop Lee's shop and Christie's boarding house removed. He stated that similar steps in other portions of the city had been removed, and wanted to know why these should be left, as he considered them as dangerous as any. The matter was left to the Street Committee to report on.

W. Siler asked permission through a letter to put up a post near the sidewalk in front of his place for the purpose of erecting a sign. It was thought by some of the aldermen present that such signs had been forbidden last year, and in some cases the owners had been obliged to remove same. However, the street committee will investigate, and if they find that the proposed sign will not interfere with traffic, or prove an inconvenience to the public, permission will be granted.

The following letter is self explanatory, and after being read, the motion that it be received and filed, carried.

Vancouver, April 11, 1906.

To the Secretary Treasurer of the town of Ladysmith, B.C.

Dear Sir,—Our Corporation, as you will see a purely British Columbia one, is prepared to buy, sell, loan on and deal generally in Bonds and Debentures, and if, in the near future you should be issuing debentures, it might be to our mutual benefit if you will advise me of the fact, giving the standing of your town, and I assure you that your proposition will receive our immediate consideration and our best advice should you ask for the same.

We have valuable connections East and in London, Eng., that would assure the subscriptions of any Debentures we took hold of.

Yours truly,
General Manager.
P. DONNELLY,

J. Thomas complains of a stump which is propped up on Buller St., and which is, he says, a menace to public safety, as it is liable to fall at any time. This was also called to the attention of the council in the street foreman's report, and steps will be taken by the street committee to have same removed.

To Test Hose.

The fire warden's report not being forthcoming at last night's meeting, Fire Chief Smith, who was present, asked permission to address the council. He brought up the matter of the paying of firemen who were working at the recent fire at Jas. Sarnino's house. The bill for express work he had not put in to the council, as he first wanted to know if he or the expressman who had hauled hose to the fire at the request of Chief Smith, should present same. This brought up the question as to whether or not it would be a good idea to offer a bonus for the first team which arrived at the fire after an alarm had been turned in. The Mayor thought it would be a good plan. Chief Smith, however, said he did not think it would work, as it had been tried before, and on one occassion two teams had arrived at about the same time, which resulted in a dispute as to who was entitled to the five dollars offered. The chief pointed out that similar disputes would arise as long as such a plan was in force. There will be no bonus offered, but any express engaged by the fire chief is to send in their bill to the council.

Regarding the testing of the hose, which the fire wardens had requested the chief to have done, the latter inquired if it were permissable to call out the brigade for this purpose. He stated that while he would not need a full brigade, those who turned out would have to be paid, as it was rather a lengthy, unpleasant job. The council decided that the firemen were entitled to regular pay for the work. As to the necessity of a test, the chief stated that

WEDNESDAY April 18. 1906

LIVELY TIMES IN RICHMOND

Vancouver, April 17.—The usual dull routine of the sessions of the Richmond municipal council were enlivened at the last meeting by a heated wordy altercation between the reeve and the municipal Pooh Bah, Mr. A. B. Dixon, clerk, assessor and collector, which ended in the passage of a resolution by the council requesting the clerk to resign within 30 days and ordering the reeve to advertise for applicants for the job.

The council had ordered the corporate seal attached to an application to the Dominion government for aid in maintaining the North Arm bridges when the reeve asked that it be attached before he had signed it, as he wished to mail it himself. This Mr. Dixon refused to do and from accounts of the meeting the next few moments were as follows: "You will." "I won't." "Yes you will." "No I wont," etc., etc., etc.,. Finally the council ordered the reeve to first sign the document which was done, but the chief officer immediately got square for the temporary victory by stating that the clerk was constantly refusing to obey him. Again there was a war of heated words when the motion for request for resignation was introduced and carried by a vote of 4 to 2. The clerk then demanded a committee of investigation but no action was taken on his request.

His Wife—Have you had a bad day dear?

The Financier — Yes, I lost over $250,000. And the worst of it is that $100 of that was my own money.—Life.

FAME'S PATHWAY.

Senator Knox of Pennsylvania has been besieged so much for his signature that he has adopted a new plan to prevent the possible fraud. The senator's signature is valuable at a good many banks. Being good natured, the senator dislikes to refuse any person who asks for his autograph. He has usually written it on a bank card. Hereinafter he will use a blank card on which is engraved the work autograph."

Lord Leaconfield, who has just celebrated his 34th birthday, is a nephew of Lord Rosebery. He is unmarried, and his mother often acts as hostess for him. Lord Leaconfield, who served with distinction in the Boer war, owns about 100,000 acres of land, and has a rent roll of $450,000 a year. His London house in Chesterfield gardens, is one of the finest mansions in the metropolis, while his country seat, Petworth, is one of the show places of Sussex, and has been named "The House Beautiful."

OBJECTED TO FOREIGNERS

St. Catherines, Ont., April 17.—Men employed in Malleable iron department of the McKinnon Dash and Metal factory struck today because of employment of foreigners. The Company for some time past has been, on account of the objection of the English workmen employing foreigners only on night work, when the English speaking men demanded dismissal of the foreigners.

LOVED A NEGRO.

Montreal, April 17.—Because Edward Thompson, a colored man whom she loved married another woman, Maggie Dean, a white girl, twenty-six years old yesterday afternoon tried to end her life by shooting herself in Thompson's saloon. The bullet wound was slight. Doctors say the victim will recover in a few days.

TARTARS TROUBLESOME.

Tiflis, April 17—The Tartars in many places are resisting the punitive expeditions, especially in Elizabethpol Province. Recently they caught a squadron of dragoons in defile, routed them killing two and mortally wounding four, At Halkalaki a number of Cossacks were killed on a train by prisoners, whom they were charged to escort to Tiflis.

GRIP QUICKLY KNOCKED OUT.

"Some weeks ago, during the severe winter weather, both my wife and myself contracted severe colds, which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Eglesten, of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain Cough Remedy, aiding the same with double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Sold by Ladysmith Pharmacy.

WAR ON POOL ROOMS.

New York, April 17—The second day of the war on pool rooms, inaugurated by Jockey Club at the Aequadect race track was marked by the same delay and strict censorship of all telegraphic messages which put the pool room representatives in a panic yesterday. In the city smaller pool rooms closed their doors, while the larger places by an elaborate system did a cautious business.

SAD SUICIDE.

Brampton, Ont., April 17—Mrs. Buster, thirty-two years old, wife of a farmer living 5 miles from here whose mind was temporarily affected by illness shot and killed herself on Sunday afternoon in the absence of her husband, who was hitching up a horse to take her to a doctor here.

"Gee! Some of these rustabouts are strong. See how easily that fellow raises that barrel of buckwheat flour."

"That's no trouble. That's self raising buckwheat."—Cleveland Leader.

DEATHS FROM EXPLOSION TOTAL EIGHT

Washington, April 17—Two more deaths were reported to the United States Navy Department today as the result of the explosion on the battleship Kearsarge last Friday. A cablegram was received from the Commander in chief of the United States Atlantic fleet stating that Frederick Thomas Fisher, chief gunner's mate, died Sunday night, April 15 and that James S. McArdle electrician, first class, died on April 16. Frederick T. Fisher was a resident of San Francisco. Next of kin is gaven on the records as Miss. Minnie Fisher (sister) Buckworth Rectory, Huntington, England. McArdle was a resident of New York.

Mrs. Knicker—I thought you were going abroad?

Mrs. Becker—So I was, but my doctor afforded me such a lovely bargain in appendicitis — only $1,00.—Harper's Bazar.

RENEWAL OF RIOTING AT LENS, FRANCE

Lens, France, April 17—There was a renewal today of the disturbance consequent on the strike of miners. The wife of a miner who refused to strike was taken in her home by 150 women, the wives of strikers, her clothing torn of her and her furniture wrecked. Gendarmes who interfeired were stoned and cavalry ordered to assist the gendarmes were similarly treated. A cavalry officer and two soldiers were severly injured and 15 others received minor wounds. Several women were arrested, but they were subsequentlyreleased. Rioting was resumed tonight.

INCREASE CAPITAL.

Toronto, April 17—Shareholders of the Traders Bank today unanimously authorized the board of directors to increase the capital of the bank by two million dollars making total capital five million.

WARNING——GLANDERS

In districts where the existence of Glanders is suspected, and especially in neighborhoods where actual outbreaks have occurred, the adoption of the following precautions by owners of horses and others interested, will do much to prevent the spread of the disease and the establishment of fresh centres of infection.

1. Horses or mules having a nasal discharge or other suspicious symptoms should not be admitted to livery or feed stables or yards, blacksmith shops, church or school sheds, railway stock-yards, private stables or other places where they are likely to come into direct or indirect contact with animals of the equine species.

2. All stables, yards or sheds used for the accommodation of horses or mules should be regularly and frequently cleansed and disinfected in the manner prescribed below.

3. After cleansing the premises thoroughly, and burning all debris, the interior should be well gone over with hot steam, or boiling water, adding to the latter at least one quart of crude carbalic acid to each five gallons, after which the entire surface should be thickly coated with a hot solution of fresh lime wash, to which crude carbolic acid has been added in the above mentioned proportion.

Outbuildings, fences and tying posts with which infected animals have been in contact should also, when possible, be thoroughly treated in a similar manner.

All ordinary harness and stable utensils which have been in contact with infected animals or infected premises, should be thoroughly soaked in a hot solution of crude carbolic acid of a strength of one part to twenty.

Materials which might be injured by the above treatment, such as valuable harness, robes, cushions, etc., which have been in contact with infection, should be placed in an air-tight room and fumigated with Formaldehyde, after which they should be thoroughly cleaned.

4. Stables where outbreaks have occurred or where diseased animals have, inadvertently or otherwise been stabled, even temporarily, the cleansing and disinfection should be especially thorough, and in such cases it is safest to remove and burn feed boxes and mangers when of wood; iron articles can be rendered harmless by passing them through fire, or by immersing them for some time in boiling water. All litter from suspected animals should be burned, or carefully fenced until used.

5. Farmers and others should, whenever possible, avoid admitting strange horses or mules to the premises occupied by their own animals, especially of the same species. It is a good plan to reserve an isolated building for outside horses or mules, but where this is impossible they may be accommodated in cow stables, cattle not being subject to glanders infection. Such horses and mules should be watered from special pails, which, together with other stable utensils used on or about them, should be carefully cleansed and disinfected before being used for other animals. Stalls occupied by strange horses or mules should be well cleansed and disinfected, and if, at all possible, left unoccupied for some time.

6. Where new horses or mules are purchased in or from districts where glanders exists, they should, unless carefully tested with Mallein prior to purchase, be stabled apart and closely watched for some time before being brought in contact with other animals of the equine species.

7. It must be borne in mind that while nasal discharge, or ulceration, enlarged glands, the presence of farcy buds, unaccountable swelling of the limbs and general unthriftness often characterizes cases of Glanders, the disease exists in many animals without, for the time being, any external manifestation whatever, the only means of detection in such cases being the Mallein test, and that these occult or latent cases, are in some respects the most dangerous because unsuspected. Our experience shows that it is possible for animals of this class to convey infection to others without themselves developing acute symptoms. It is therefore plain that great caution should be exercised on the purchase or handling of strange horses or mules, especially in those districts where the disease has become established.

8. The carcasses of animals dying from, or slaughtered as being affected with Glanders should, when possible be burned, or failing this, buried at least six feet beneath the surface.

9. Owners of premises where outbreaks have been dealt with should bear in mind that Inspectors cannot recommend release from quarantine unless disinfection has been carried out in a satisfactory manner, and that compensation for animals slaughtered cannot be paid unless a certificate of cleansing and disinfection has been received by the Minister of Agriculture.

10. Horse owners should have no hesitation in reporting to this Department or to its inspectors the existence of actual of suspected cases of glanders. The disease has been spreading rapidly of late years, and it is a matter of public interest that every fresh centre of infection should be discovered and dealt with as promptly as possible.

J. G. RUTHERFORD,
Veterinary Director General
Department of Agriculture,
Ottawa, March, 1906.

TENDERS.

TENDERS addressed to the undersigned at Ottawa and marked on the envelope "Tender for the construction of a Hydrographic Steel Twin Steamer," will be received up to the FIRST DAY OF MAY NEXT, for the construction of a Steel Twin Screw Steamer for the Hydrographic Service in British Columbia waters.

Specifications, plans and forms of tender can be seen at the office of the Agent of the Department of Marine and Fisheries at Victoria, B.C., at the Custom House at Vancouver, B.C. and at the department here.

Each tender must be accompanied by an accepted bank cheque equal to 10 per cent. of the whole amount of the tender, which will be forfeited if the person sending the accepted tender declines to enter into a contract with the department. Cheques accompanying tenders which are not accepted will be returned immediately after a decision has been arrived at.

Newspapers copying this advertisement without authority from the department will not be paid.

F. GOURDEAU,
Deputy Minister of Marine and Fisheries.
Department of Marine and Fisheries.
Ottawa, 28th March, 1906.

Public Notice
Attention is called to the fact that the
Ogilvie Flour Mills Co., Limited
makers of ROYAL HOUSEHOLD FLOUR, have for some time past been producing flour in a vastly improved and purified form by the aid of ELECTRICITY
and having secured control of all the basic patents relating thereto, take this opportunity of advising the public that authorized users of the electrical flour purifying processes will be prosecuted.
Ogilvie Flour Mills Company Limited are the only millers in Canada whose Flour is purified by the Electric Process

INTERESTING WEDDING AT NANAIMO

This morning's Herald says:

At St.Pauls, church of England at 11 o'clock this morning the Rev Silva White will unite in the bonds of matrimony, Miss Edith Blanch, the second daughter of Mr. and Mrs A. H. Horne of this city and Mr. William Arthur Owen of Victoria, son of the late William Owen of Mumbles, near Swansea, South Wales. The bride, who will be given away by her father will be attired in a charming gown of peau de chene trimmed with allover silk lace and applique with orange blossoms and a veil worn at her mother's wedding. She will carry a white prayer book and a boquet of lillies of the valley and stephanotis. She will be attended at the altar by four bridesmaids and two flower girls. The maid of honor, Miss. Gertrude M. Horne, sister of the bride will be gowned in a dress of cream, coliene trimmed with lace and ribbon, with a large white chiffon picture hat.

Miss. Gladys Horne also a sister of the bride will wear a cream princess coline gown trimmed with cream lace and a white picture hat. Miss. Esme Horne in a pale blue coliene, trimmed with cream lace with a white picture hat. The flower girls, Miss. Olive and Francis Miller will wear dainty dresses of white China silk with bows and wreaths in their hair and carrying baskets of flowers. The bridesmaids will carry shower boquets.

The groom is to be attended by Mr. R. Reid of Victoria.

The church is decorated with flowers and the service will be choral. The ceremony over, the happy couple and the invited guests are to proceed to the residence of Mr. and Mrs. Horne on Albert street, where breakfast will be served and in the afternoon the newly married couple will leave for Victoria from there proceeding to Vancouver and the Sound cities where the honeymoon will be spent. They will reside for a month at Victoria, where Mr. Owen is engaged as Draughtsman in the E. & N. Company's office. Early in May Mr. and Mrs. Owen will return to Nanaimo where they will reside, Mr. Owen having resigned his position in Victoria, accepting one with the Western Fuel Company

The bride for travelling will wear a tight fitting fawn dress trimmed with violet velvet and a white silk braid hat trimmed with heliotrope, poppies and silk chiffon.

Today's wedding is one of the most interesting society events of the present season, both the bride elect and Mr. Owen having a large circle of friends in the city and province. In entering married life they are blessed with innumerable good wishes. They are recipients of many handsome presents, a list of which is as follows:

Bride to groom, gold and enamel ring; groom to bride, gold chatelaine watch; groom to bridesmaid, gold lockets and chains; groom to flower girls, gold lockets and pins; groom to best man, cheque; groom to Miss. Jessie Shepherd, gold locket and chain.

Mr. A. H. Horne, cheque; Mrs. A. H. Horne, marble clock; Rev. and Mrs. A. Silva White, Silver tray; Mr. Thos. R. and Miss. Stockett, cut glass decanter and wine glasses and Japanese screen; Dr. and Mrs. J. H. Hogle, large Japanese vase. Mrs. Capt. Honeyman, Silver and cut glass fruit dishes; Mr and Mrs. E. Arnold, Silver fern dish; Mr. and Mrs. T. Bate, Cumberland, silver and China fruit stand; Miss. V. Bate, Cumberland, bread board and knife; Mr. A. W. Hayes, cut glass water bottle; Mr. M. Hodgson, 1 dozen cut glass tumblers; Mrs. W. H. Thompson and Mrs. Easley, gold en oak tea table; Mr. and Mrs. E. H. Bird, brass crumb tray and brush; Mr. and Mrs. H. Cooper, Doylies; Miss. Cooper, silver butter knife and sugar spoon; Mrs. Capt. and Miss. Morrison, Victoria, sofa cushion; Mrs. W. Mc W. Bourke, Siam, Japanese cushion tops; Mr. and Miss. A. Holmes, Vancouver, drawn work tea cloth; Capt. and Mrs. Butler, Victoria, Cloisne vase; Mrs. Thos. and Miss. H. Morgan, silver fruit knives with pearl handles; Mr. and Mrs. M. Bate, jr., silver nut bowl; Misses Gertrude and Catherine Bate, hand painted cake dish; Mrs. J. Kirkman and family, chenille curtains; Mr. and Mrs. E. M. Yarwood, silver syrup jug and tray; Messrs A. W. Bowman and D. H. McKay, silver mounted art China salad bowl and servers; Mr. and Mrs. M. Bate sr., silver tea service; Miss. Annie Webb, triple mirror, brass mounted; Mr. and Mrs. B. H. Smith, cut glass vase; Mr. C. S. Wells, massive oak centre table; Mrs. D. Stephenson, cut glass bon-bon dish; Mrs. S. V. Smith, solid silver card tray. Mr. and Mrs. W. Thompson, Vancouver, silver syrup jug; Mr. and Mrs. J. W. Glaholm, silver salt cellars and spoons; Rev. R. J. and Mrs. Bowen, Ladysmith, silver meat fork; Mr. and Mrs. F. H. Sheppherd, oak biscuit jar; Mr. H. Gordon, art China marmalade jar; Mr. L. Shepherd, silver bon-bon dish; Mrs. Sabiston and Miss. Muir, statuette; Mr. and Mrs. F. H. Archibald, China biscuit jar; Miss. E. Marden, Hillma City, silver bon-bon dish; Mr. C. Bate, silver sugar sifter; Mr. J. Grant, solid silver berry spoon; Mr. W. O. Miler, Vancouver, silver handled carvers; Mrs. W. O. Miller, Vancouver, 1 dozen knives and case; Miss. G. Miller, Vancouver, cut glass salt and pepper shakers; Master S. Miller, Vancouver, silver sugar spoon, Olive Miller, Vancouver, silver mustard spoon; Francis, Miller, Vancouver, silver salt spoon; Miss. Gladys Bailey, Ashcroft; silver sugar tongs; Miss. V. Thicke, Vancouver, oak butter dish, Miss. E. Bate, Cumberland, cut glass vase; Mrs. Clancy, solid silver nut cracker; E. W. Harding, large cut glass bowl; Mr. and Mrs. E. Norcross, Vancouver, silver butter knife and berry spoon; Mr. and Mrs. J. W. Caldwell, Japanese tea table and cover; Mr. and Mrs. W. K. Leighton, large Japanese jardineire; Mr. and Mrs. W. E. Rumming, burnt wood card tray; Mr. H. Horne, ½ dozen silver teaspoons; Mr. and Mrs F. S. Brown, Victoria, cutglass salt cellars; Mr. and Mrs. A. Shuttleworth, Victoria, hand-painted chocolate jug; Messrs H. and L. Horne, 1 dozen silver forks; Miss. Horne, silver bread tray; Mrs and Miss. Stromgren, burnt green plush cushion and Irish point lace handkerchief; Miss. Esene and master Basil Horne, 1 pair silver knife rests, Mr. R. Reid, Shakespeare's poems, Austrian ware tea set; Mr. and Mrs. M. Daverys, Nelson, silver salt cellars; Dr. and Mrs. R. O'Brian, silver butter dish; Mr. and Mrs. W. Lewis, cut glass knife rests; Mr. and Mrs. R. P. Wallis, cut glass salt cellars.

BROWN—FRAZER.

One of Nanaimo's most popular daughters is to be married this afternoon. At the famly residence at 2 o'clock Miss. Nora Beatrice, the daughter of Mrs. Frazer will be united in marriage to Mr. Brown of Vancouver, formerly a resident of New York, the Rev. J. Millar performing the ceremony. The bride will be gowned in navy blue braodcloth with a champagne and violet hat, and will be attended by Miss. Polly Tunstell, who will wear a dress of cream crepe de chene and a chiffon hat to match. The best man will be Mr. W. Chase of Vancouver. After the ceremony luncheon will be served and in the evening a reception will be held. Tomorrow morning the happy couple will proceed to Vancouver and will reside at the corner of Hastings Street and Boundry avenue.

Miss. Frazer is very well known in Nanaimo and for some years has been employed in Stevenson's store

Her friends, young and old and those of Mr Brown will unite in wishing the young people, every happiness. They have received a large number of valuable presents

RHEUMATISM MAKES LIFE MISERABLE.

A happy home is the most valuable session that is within the reach of mankind, but you cannot enjoy its comforts if you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatism pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continual use for a short time will bring about a permanent cure. For sale by Ladysmith Pharmacy.

Dr. Dier can be found at any time at his office on Gatacre st. His dental work is guaranteed to be first class and rates reasonable

NOTED PICTURE.

Philadelphia, April 17—The portrait of Benjamin Franklin, which was taken by Major Andre during the resolution arrived here today and was placed in the Pennsylvania academy of fine arts. The picture has been in the possession of Sir Chas.Grey.

A late Sitka despatch says:

"Word has been received of the murder of a native at Killisnoo a few days ago. Yen Kose, an Indian, shot and killed another Indian. Jealousy over a girl was the cause of the shooting. The Indians captured the murderer and locked him up in the local jail. The next morning he was found dead. He had hanged himself with his suspenders.

AN EXPERT SAFE MAN WANTED

New Westminster, April 16—Every effort to open the safe of Mr. Harry Hughes, who died recently have failed. Mr. Hughes formerly conducted the Oyster bay Restaurant, and the secret of the combination of his strongbox, supposed to contain money and valuable papers, was carried with him to the grave.

An appeal to Col. Whyte, warden of the penitentiary, for permission to let one or two of his skilled burglars try their hand at the safe tumblers, was firmly but politely declined. The colonel said he did not believe in keeping his wards in practice.

The Vancouver police were also communicated with in the hope that they could furnish an expert who could solve the combination. Word was sent back that bank robbers were scarce in that city. Meantime Mrs. Hughes is greatly inconvenienced, but her friends hope to guess the combination before resorting to dynamite to blow off the hinges.

TO INVESTIGATE.

Washington, April 17—United States Attorney General Moody, tonight gave out this statement. C. E. Hughes of the New York Bar, and Alex. Simpson of the Pennsylvania Bar have been retained by the Department of Justice to take under consideration all the facts now known or which can be ascertained relating to transportation or sale of coal in interstate commerce to advise what, if any, legal proceedings should be taken and to conduct under direction of the attorney general such suits or prosecutions if any, as may be warranted by the evidence in hand and forthcoming.

TAKEN ILL IN COURT.

Montreal, April 17.—John Bond, president of the Bond Hardware of Guelph, Ontario was taken ill while testifying in a case in the civil court today. He was taken to St. Lawrence hall in a cab when physicians pronouncing his condition serious he was at once hurried in an ambulance to the general hospital but died before reaching the institution. He was 65 years of age and a prominent citizen of Guelph.

Tonight the Eagles are at home, in the opera house, and those who attend will be made to feel the same. Preparations for the affair have been completed, and all that remains is to attend and have a good time.

To-day, and until Monday, April 23rd, I will continue to make cabinet photos at $2 per doz. Stamp Photos 25c. Schenck, the photographer, Campbell's Corner.

HALL ENGAGED FOR INDIGNATION MEETING

Vancouver, April 17.—The city hall has been engaged for the evening of Friday, April 20, for a meeting to protest against the proceedings taken against Moyer, Haywood, Pettibone and St. John, of the Western Federation of Miners. The men named have been arrested by the United States authorities on the charge of assassinating ex-Governor Steunenberg, of Idaho. Eugene V. Debs has stated: "If they hang Moyer and Haywood, they've got to hang me," and the other friends of Moyer, and Haywood, who are getting up the meeting use stronger terms. Mr. Frank Bohn, of Seattle, general organizer of the Industrial Workers of the World, of which the Western Federation of Miners forms a part, is here to promote the meeting. A paper circulated to arouse interest in this matter contains a letter from Debs in which he speaks of the following up and arresting of these men as: "A foul plot; a damnable conspiracy, a hellish outrage." The paper says that, Steunenberg simply reaped what he had sowed and Debs says that if the men are hanged the governors of Idaho and Colorado and their masters from Wall Street, New York, to the Rocky Mountains he'll prepare to follow them. He says that such an action will precipitate armed revolution from the Atlantic to the Pacific and from Canada to the Gulf.

Several local unions have signified their intention of taking part in the meeting.

CAUGHT COLD WHILE HUNTING A BURGLAR.

Mr. Wm. Thos. Lanorgan, provincial Constable at Chapleau, Ontario says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and after using two small bottles, I was completely cured." This remedy is intended especially for coughs and colds. It will loosen and relieve a severe cold in less time than by any other treatment and is a favorite wherever its superior excellence has become known. For sale by Ladysmith Pharmacy.

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself as well as prescribed it in my practice where a liniment was required and have never failed to get the desired effect.

C. A. KING, M.D.

The Young Ladies' Guild, of the local Presbyterian Church intend giving a Conversazione in the Opera House on Friday, April 20. A splendid programme is being prepared.

HON. R. GREEN INSPECTS ROAD

(Continued from Page One.)

crossing which now exists, and would involve considerable expense. The worst feature about the present wagon road is the bad crossing at Brenton's. In this place the road ran down a steep incline and crossed both tracks. However, there seemed to be no way of avoiding that unless the road was carried on the upper side a little further to a point where a level crossing could be obtained.

On reaching the city again, the much talked-of crotsing to the wharf was looked at. Mr. Green stated that he had been of the opinion that there might be some way of obtaining a level crossing where the old one existed. After seeing the place, however, he was of the opinion that such was impossible owing to the Wellington Colliery Co.'s tracks being lower than he anticipated. He also was inclined to think that a subway was out of the question, as it would involve a much larger outlay than a new wharf situated at much talked-of crossing to the wharf itself was the next to come under consideration, after an inspection of which the party adjourned for lunch.

After lunch the party viewed the site which has been talked of below the bunker wharf for a new location in case a satisfactory crossing cannot be obtained for the present structure.

Mr. Green, asked as to his opinion on the subject, stated that he would have to talk the matter over with Mr. Gamble, as he was the practical man. Personally, however, he was of the opinion that it would be impossible to obtain a level crossing to the present wharf. As for a subway, he also thought that out of the question as the expense would be too great. The situation will be talked over, however, and further information furnished shortly.

UNEARTH COFFIN

London, April 7—Workmen frequently come upon curious things in their street excavations, but it is not every day the district the last resting place of a famous giant. Some workmen had this uncanny experience while digging in Trenchard Street, Bristol recently.

Their picks and shovels grated against the leaden coffin of Patrick Cotter O'Brien, whose immense stature of eight feet three inches made his name a household word a century ago.

There was no mistaking the identity of the coffin, for the plate hereon bore the following quaint inscription:

PATRICK COTTER O'BRIEN.
Whose name was Cotter,
But he called himself O'Brien,
Whose stature was 8ft. 4 in.
He died on 8th Sept., 1806.
Aged 46.

Patrick, it appears, was as gigantic in graces as inches.

A native of Kinsale, Ireland, local history records that his manners were amiable and unoffending and the inflexible integrity of his conduct through life, united to the calm resignation with which he waited the approach of death, proved that his principles were strictly virtuous.

It is said that O'Brien hated the idea of exhibiting himself and he directed that his body should be so buried as to cheat the grave robbers that gave additional terror to death in those days.

Accordingly, his friends provided a leaden coffin and had it interred at a great depth, iron bars being placed in the sides of the rock to render removal impossible.

The local authorities at Bristol are proud of their find, and it is thought they will resist any overtures from Green Isle to recover the remains of their biggest "boy."

BILLIARDS.

New York, April 17.—The shortest and most exciting game of the world's championship tournament was played here tonight and a new world's record was established. George Sutton, formerly of Elmira, N.Y., defeated Willie Hoppe, the world's champion at 18-1 balk line in the 15th game, making 500 points in five innings, an average of 100 which constitutes the new world's record. The highest run was Sutton's 234 unfinished. There is no telling how far he could have gone if opportunity had pressed himself for he had the balls under perfect control. Hoppe's average was 23¾ and his high run 53.

Toronto, April 17.—Trouble between the members of the Austrian Jewish synagogue on Chestnut st., which was closed by the police recently on account of disturbances is accumulating. A writ was issued today by Henry Greisman, president of one of the factions against S. Freilich, president of opposing faction and his colleagues for an injunction to restrain defendants from acting as officers of congregation and for declaration that the Grisman party are proper officers and for a dissolution of congregation and sale and distribution of property.

Chief, Fruit Division,
Department of Agriculture, Dairy Commissioner's Branch.

LIGHT BY-LAW FOR NEXT WEEK

(Continued from Page One)

at two recent fires the hose had burst near a coupling each time, and thus causing the loss of considerable time before water could be turned on the flames.

A test will be made from the hydrant near the Abbotsford hotel, where a pressure of about 185 pounds is obtainable. The nozzle will be blocked and any length of hose standing the test will be considered safe to take to a fire in any portion of the city, as the above mentioned hydrant gives as much pressure as any in the city.

Before adjournment, the Mayor remarked that it would be advisable to have as representative a meeting as possible on Monday evening next, as the Light by-law would be up for discussion. He also reminded the council that nearly three months had elapsed since the resignation of Ald. McIntosh, and if, after that time, the council were so disposed, they could elect another representative for Middle Ward.

Those present at the meeting last evening were Mayor Nicholson, Aldermen Patterson, Campbell and Green.

LADYSMITH HOTEL BAR
Having taken over the bar-room of the above hotel, we intend to run a first-class, up-to-date establishment, and in soliciting the patronage of our friends and the public in general, we guarantee good treatment to all.
