LEGISLATIVE ASSEMBLY

Legislative Assembly VICTORIA, B. C. AUG 4 - 1905

THE LADYSMITH DAILY LEDGER

VOL. 2. THURSDAY, AUGUST 3, 1905. PRICE FIVE CENTS

CELEBRATIONS AT SAULT STE MARIE

Opening of St. Mary's Ship Canal is the Occasion For Much Jubilation

Distinguished Party of Canadians and Americans Partcipate in Celebrations

Sault Ste Marie, Mich., Aug 2.—With the city crowded with thousands of visitors and with hundreds of yards of bunting flying in the breeze from all the buildings on both the American and Candalan sides of the Stl Marie river, a salute at sunrise from the government ships in the harbor opened the two days celebration of the semi-centennial of the opening of the St. Mary's ship canal which connects Lake Superior with the lower lakes. Vice President Charles W. Fairbanks, Governor Fred M. Warner of Michigan and his staff, United States Senator J. J. Burrows of Michigan, Congressman Livingstone, president of the Lake Carriers' Association, Charles L. Harvey of Toronto, who constructed the original locks, and Miss Betty Poe, daughter of Gen. O. M. Poe, who constructed the Poe lock, are among the distinguished guests present at the celebration. Hon. Rodolph Leieux, solicitor-general of Canada, and a party of Canadian officers also assisted in the ceremony.

The first day was devoted to naval and military parades, Indian sports and exhibitions, and reception by Governor Warner to the other distinguished guests followed by a magnificent illumination of fireworks. Tomorrow the commoration exercises will be held.

Saut St. Marie, Aug. 0.—Commemoration exercises in the government park here adjoining the canal, made up the second day's programme of the semi-contennial celebration of the opening of the St. Mary's ship canal, which connects Lake Superior with the lower lakes. The exercise took the form of a programme of addresses, the feature of which was an address by Vice-president G. W. Fairbanks.

The shrill tones of a bugle call and the boom of a sunrise gun opened the second day of the celebration. The streets leading to the park were early filled with people walking to the scene of the day's exercises. The park was handsomely decorated. Two addresses were made from a stand erected at an advantageous point. A concert by the Calumet and Hocla band at 9 o'clock opened the exercises. The park was filled before the musical programme was begun and at its conclusion the grounds were crowded with thousands of people.

After the distinguished guests and speakers had taken their places on the stand, Arch-deacon Lord of S.S. Marie opened the exercises with an invocation. Chas. E. Osborne, of this city, followed with an address in which in graceful words he made the throngs welcome to the city. Second in importance, perhaps, to the address of the vice president, was that made by Peter White of Marquett, president of the commission which had in charge the celebration, and who is the most widely known men in the upper peninsula of Michigan. Mr. White's topic was the development of the Lake Superior region. Mr. White is a pioneer of the upper peninsula and is an authority on the history of that part of the state and its development, from an unexplored region to its present importance as a mining centre.

Other addresses were made by Congressman T. E. Burton of Ohio, chairman of the Rivers and Harbors Commission of the House of Representatives, Hon. Rodolph Lemieux, solicitor-general of the Dominion of Canada, Governor Warner of Michigan on the "State of Michigan, and of the St. Mary's Canal," Senator Burrows on the "Future of America's Commerce," and Wm. Livingstone, President of the Lake Carriers' Association of the navigation of the Great Lakes. The commemoration exercises were so lengthy that they were divided into a morning and afternoon programme, the speakers and distinguished guests being entertained during the interval at luncheon at the Lesault de Ste Marie Club.

MAN. STOCKETT ASKED ABOUT BRECHIN MINE

To The Ledger this afternoon at 3 o'clock, Manager Stockett stated, upon being asked over the long-distance telephone, that he had nothing further to state regarding the opening of the Brechin mine than that the Company were very much gratifire regarding the number of men who had made application for work.

Mr. Stockett was asked if this could be interpreted as meaning that the mine would be reopened soon, and replied:

"I am not yet prepared to say what can be done, as there are some things yet to be worked out."

Nothing further could be obtained. It is evident, however, that the company will make a move of some sort very soon. What it will be and what the results will be, time only will tell.

Ladysmith people who visited Nanaimo yesterday say that the citizens of the neighboring town were greatly interested as to the result of the invitation of the Western Fuel Company for miners who desire to return to work to hand in their names. It was generally thought that a very considerable number had applied, but up to a late hour last night it was impossible to obtain authoritative information, and the residents were left in doubt as to whether or not the Brechin mines would be opened today.

Manager Stockett, when asked if the company would re-start work in Brechin replied that he could make o statement regarding that question, but he expressed great pleasure at the number of applications for work which had been handed to him. It was impossible to elicit any further information last evening.

A SHORT VISIT.

During the past week R. J. Sprott B. A., principal and manager of the Sprott-Shaw Business University, of Vancouver, has been making short visits to the Island cities looking after the interests of that institution.

It is only one year since Mr. Sprott and his associates, W. H. Shaw, Esq., and H. A. Scriven, B. A., took over the institution in question, and in that short time they have worked such a revolution in both courses and general management that the attendance has increased fifty per cent. This phenominal growth is attributable to two courses—first, the wide and practical range of the new course of studies, and second, to the very high standard set up by the new management. The following list of applications for his students received by Mr. Sprott during the last seven months is ample proof of how the public of Vancouver and the surrounding districts view the output of the Sprott-Shaw College: January, 25; Feb., 20; March, 12; April, 6; May 4; June, 15, and July, 12.

There is absolutely no possibility of a failure if the student will put forth even a small amount of effort. For subjects taught in the Sprott-Shaw Business University, Vancouver, see Saturday's issue of this paper. For particulars, address R. J. Sprott, B.A., 336 Hastings W., Vancouver.

OBJECT TO SENDING LABORORS TO PANAMA

Immigration Companies Assert That Conditions are Unsatisfactory

No Arrangements to Care for Sick and Sanitary Conditions are Bad

Tokio, Aug. 3.—The immigration companies object to sending laborers to Panama to work on the canal on the ground that the conditions there are unsatisfactory. They assert that there are no arrangements to care for the sick, and no provisions for returning home the families of deceased laborers, and no allowance of passage money. They also assert that the drinking water and sanitary conditions are bad. The government placed the question of sending the laborers and the conditions before the immigration officers who found as above.

THE TROUBLES OF NORWAY AND SWEDEN

Stockholm, Aug 3.—The extraordinary session of the Riksdag was brought to a close today. King Oscar was not present, but was represented by the new premier, Christian Luderburg. In declaring the session closed the speaker of the lower house said the situation still contained disquieting elements, but Sweden would be absolved from blame if a breach occurred after the offer made by the Riksdag. Another special session will be called as soon as Norway is ready to act on the Swedish conditions.

BISHOP HARGRAVE DIES AT NASHVILLE

Nashville, Tenn., Aug. 3.—Bishop Hargrave of the Methodist Episcopal Church, died at his home here shortly after midnight aged 76. He had been in feeble health for a year past and seriously ill since Friday.

Bishop Hargrave was elected president of the Vanderbilt University in 1889 and served in that position until last spring.

On Sabbath evening next the Rev. R. Boyle will conduct an open air service on the Pavilion grounds, commencing at 8.15 o'clock.

Mrs. Cecil is in receipt of a cable message from Mr. Cevil, now in London, in which he states that his business affairs in connection with mining near Ladysmith are concluded satisfactorily. He expects to start for home soon.

A handball match for a bet of $10 was played in the handball alley last evening, the contestants being Daniels and Arthur Morrison. Morrison won out, the score at the conclusion of the game being 21 17. G. Hepple refereed the game.

MINISTER IS CONVICTED OF MURDER

Valdosta, Ga., Aug. 2.—Rev. J. G. Rawlins early today was found guilty as accessory to the murder of two children of Rev. and Mrs. W. L. Carter, and unless a higher court intervenes Rev. Rawlins and his sons Milton and Jesse, and Alfred Moore, will have to hang. The Rawlins sons and Moore were found guilty of murder some time ago. Both Rawlins and Carter were for years ministers in the Methodist church. A feud started and Rawlins plotted to wipe out the Carter family. It was arranged that Moore and Milton and Jesse and Leonard Rawlins were to go to the Carter home and kill the parents while they sat at the supper table. When the children ran out they were to be shot down.

The assassins, however, arrived after the evening meal, and could not shoot through the windows at their victims. Some noise caused Willie and Fanny Bell Carter to run into the yard. Instantly the guns of the murderers spoke, and the girl fell dead. The boy, shot through the body dragged himself into the house and told who had done the shooting.

All night long Rev. and Mrs. Carter crouched in their home. Through crevices in the logs the Carters could see the assassins creeping about the yard but whether their daughter was dead or not they could not leave. Finally Rev. Carter reached his rifle and fired through a crack in the door. The shot caused the murderers to flee. Moore confessed the plot.

MAGNETIC SURVEY OF NORTH PACIFIC

A Wooden Sail Boat Will Sail on Expedition in Few Days

To Secure Precise Data of Distribution of Magnetic Force on Ocean

San Francisco, Cala., Aug. 3.—A magnetic survey of the North Pacific ocean will be inaugurated within a few days by the department of international research interrestal mangetism of the Carnegie institution at Washington. A wooden sailing vessel, the brig Galilee, has been fully prepared for the work of the expedition and it is expected she will sail from this port the latter part of next week.

The object of the expedition is to secure precise data of the distribution of the magnetic force over the Pacific ocean. Except for data from occasional expeditions, and such as are acquired wooden vessels a long time ago. The present magnetic charts used by the navigator over these regions depends largely upon observations on islands along the coast. Such land observations, however, are rarely representative of the true values of prevalent electric disturbances. It is therefore impossible to make any statement as to the correctness of the charts.

MOUNT SICKER MINES

Vancouver, Aug. 3.—The Mount Sicker and Brenton mine is to be developed in a vigorous manner without delay. W. A. Dier has just arrived after an absence of seven months in the east, where he succeeded in interesting capital in the Vancouver Island mine, which is stated to show promising signs of proving a successful shipper of high grade ore. Three engineers were sent out to examine the mine by eastern capitalists, and they reported very favorably on the mine. Assays were made which ran from $14 to $70 were obtained. Development work to the extent of about 1,000 feet has already been done and it is the intention to further open up the mine.

ATHLETICS

Alfred Shrubb, England's champion distance runner and the world's record holder from one to 12 miles, is expected to arrive in America about the middle of August, his registration papers having already been sent in advance.

Shrubb has just returned to England from a tour of the Antipodes, and is without a doubt the most phenomenal long distance runner the world has ever seen.

In 1901 he first became champion by winning the Southern cross-country championship of England, then winning the national cross-country championship from 240 runners, covering the full ten miles inside the hour.

He then took to the cinder paths. When the championships were held he won the four mile run. Since that time he has won the southern, national, four and ten-mile championships each year, in addition to which he has won the one-mile twice.

At Ibrix Park, Glasgow, Shrubb startled the athletic world by running two miles in the world's record time of 9 min. 9 3-5 sec. running his first mile in 4 min 66 sec. His record for three miles is 14 min. 17 3-5 sec. made on the grass. Two days later, at the same park, Shrubb broke every world's record from four miles up to 11, the four being done in 19 min. 23 2-5 sec., 10 in 50 min. 40 sec., and the 11 in 58 min. 23 2-5 sec. While in Australia he established new figures for every distance from one mile to 12 miles, and since his return to England has showed his old-time form by running two miles at Wolverhampton in 9 min. 13 1-5 sec.

He will leave England with the Corinthian football team, which plays in New York on September 6th. He will probably be accompanied by Reed, Duffy and Watson, the quarter-miled. Shrubb is member of the South London Harriers, and was born in South London 34 years ago. He weighs, when in condition, 136 pounds.

DAMAGED BY RUSSIAN SHELLS

One of Togo's Scouting Vessels Came Near Being Total Loss

Was First Ship to Discover Russian Fleet on Morning of Battle

San Francisco, Cal., Aug. 3.—Advices have been received here by the mail steamer Siberia, just arrived from the Orient, that the former Toyo Kisen Kabushiki Kishas liner Nippon was so badly damaged by shells of the Russian warships during the battle of the Sea of Japan that it was found necessary to run the vessel ashore to save her from being a total loss.

She was one of Admiral Togo's scouting vessels, and was the first to discover Admiral Rojestvensky's fleet on the morning of the naval battle. It was while hearing the news to the Japanese fleet that the steamer met with disaster.

Ever since the beginning of the war in the Far East, the Nippon and her sister ship, America, and the Hongkong, formerly engaged in trade between this city and the Orient, have been doing duty for Japan as converted cruisers and scoutships. From all accounts, the Nippon can be raised and it is probable that she will again resume her old run.

TOUR ISLAND IN MOTORS

A party of C. P. R. Officials, consisting of Supt. Marpole, J. S. Dennis, G. L. Courtney, Capt. Tatlow, Col. Prior and Capt. Troup, passed through Ladysmith to Nanaimo last evening. The party went up to Comox last evening, taking with them two splendid automobiles, in which they intend returning.

It is understood that the C. P.R. officials' trip through the Comox district is to inspect the country with a view to extending the E. & N. Railway next summer. They are expected to return to Nanaimo this evening.

A large crowd of people assembled at the Nanaimo wharf to see the party leave on the steamboat and much interest was evinced in the two automobiles.

ANOTHER RAILROAD DEAL PENDING.

Seattle, Wash., Aug. 2.—H. H. Taylor of San Francisco, President of the Bellingham Bay and British Columbia Railroad, came to the city today for the purpose of deciding the offer made by the Canadian Pacific for the road. He held a long conference this morning with J. J. Donovan, general superintendent, and C. W. Howard, attorney for the road.

The deal has been hanging fire for some time. It is understood that the last offer made by the C.P.R. will be accepted at today's conference. The C.P.R. desires this road as it would give them a direct outlet to Puget Sound and the Lytle Baker mining region via Sumas, Wash.

CHESTERFIELD WAS JACK CHRISTOPHER.

Chesterfield, who shot himself fatally in the Seattle county jail yesterday morning rather than go to the penitentiary, is really Jack Christopher, who escaped from jail in Vancouver some time ago, after having been arrested for taking indecent photographs. He escaped by the aid of a woman supposed to be his wife, but whom he was only married to a few months ago, and who has now confessed to supplying him with the firearms with which he shot himself yesterday.

GERMAN EMPEROR IS AGAIN AFLOAT

Copenhagen, Aug. 3.—The German imperial yacht Hohenzollern, with Emperor William on board, sailed today for Sassnitze, Pomerania.

Mr. N. A. Morrison has received a letter from the secretary of the Crofton baseball team offering to play the local nine on the 6th inst. The Ladysmith club have fallen in with the proposal and a match will be arranged. The team representing Ladysmith will be published tomorrow.

RELATIONS BETWEEN ENGLAND & GERMANY

Visit of British Fleet to Baltic Sea will Mark Beginning of Cordiality

Both King and Kaiser Thought to be Anxious to End Friction Now Existing

London, Aug. 3.—The forthcoming visit of a British fleet to the Baltic sea appears more than likely to mark the beginning of more cordial relations between Germany and Great Britain, instead of, as has been suggested in some quarters, adding to the friction now existing.

The proposed visit was known to the German foreign office months ago and suggestions that objections to it were raised by Germany are unfounded. George P. Rietyman, secretary of the admiralty, today, in a reply to questions, stated definitely that no protests regarding the visit ly comment on the pending cruise of the fleet had been received. Friend from German Baltic ports creates the belief that it will be King Edward's desire for good relations between Germany and Great Britain, and the announcement of Emperor William for the support of the candidacy of Prince Charles of Denmark for the Norwegian throne is accepted as an indication that the German ruler proposes to work in the same direction.

The report is received that Emperor William will meet King Edward during the latter's forthcoming trip to Marie Nbad.

TRAIN WRECK IN SOMERSET COUNTY

Johnstown, Pa., Aug. 3.—The morning Baltimore and Ohio passenger train, bound for Johnstown from Rockwood was wrecked at 8.30 at the Paint Creek bridge, in Somerset county. A rail broke on the bridge and the train plunged down.

Louis Don, the baggage-master was killed, and seventeen others were injured. The smoker and baggage car went into the river. The train left Somerset at 7.17 o'clock for Johnstown and consisted of the engine, baggage car and two passenger coaches.

Just where the railway crosses the creek, the rails spread and the baggage car and the coach next it went over a twenty-five foot embankment into a creek, a shallow stream. The engine and the last coach were not dragged down.

Don, the only man killed, was known as the hero of the frightful Duquesne limited wreck, on the Baltimore & Ohio, near Connelville, two years ago. On that occasion, although his eye was knocked out and was hanging down on his cheek, he pluckily went back to flag the next train.

MADE MISTAKE IN REFUSING ENGLAND'S OFFER

New York, Aug. 3.—Interviews with leaders of the Zionist movement gathered by special correspondents among the Zionist congress, which closed yesterday at Basle, Switzerland, are published today by the Jewish morning Journal. Attorney James Sinowski, leader of the seceding Zionists of WarsaR, declares that the majority of the Congress did not represent the interests of the Jewish nation, and adds:

"A great mistake was made in refusing the land offered by the English government as a site for a colony. It would have been the beginning of a movement that would have had world-wide significance and would have been a haven where persecuted Jews could have taven refuge."

Israel Sangwell, the author, said "The rejecting of the English offer, if it had been agreed to by the majority of our people, would have been the death-blow to practical Zionism and would have reduced the movement to a case of phantoms. Zionism will be rescued by the terrorists who have abandoned the original movement and have organized a new movement that is bound to be crowned with success."

J. R. Anderson, deputy minister of agriculture, was a passenger on the north-bound train today, going to Nanaimo in answer to complaints about fruit trees. Mr. Anderson stated that the complaints would be thoroughly investigated, but doubted there being anything serious to combat in the fruit pest line in the Nanaimo neighborhood.

Mr. R. J. Sprott, B.A., principal and manager of the Sprott-Shaw Business University of Vancouver, spent a few hours in the city today. A business local in reference to the college appears in this issue. It is worth looking over and considering.

RUSSIANS STRENGTHENING THEIR FORCES

Tokio, Aug. 3.—An unofficial report has been received to the effect that General Linevitch's first army is disposed near Chung Munen, that the second army hold the Fingbaw Paminchen line, and that the third army occupies positions in the vicinity of Tacoa. Bodies of cavalry protect the extremities of either wing. It is reported that the Russians are gradually strengthening the forces south of the Tumen river in Northern Korea. The total number there is estimated at 32,000. The force north of the Tumen, along the lines of cammunication, is said to be small.

SPRUNG JOKE ON SEATTLE NEWSPAPERS.

Capt. E. G. Baughmann, master of the steamer Humboldt, on Sunday "loaded," some innocent Seattle newsgatherers with a yarn that on his way south he had passed through what he was pleased to call an aurora borealis. Since the Seattle papers have gravely accepted the yarn and given due credit for it to Capt. Baughmann, that gentleman may not think the joke so funny. Captain Baughmann, in his account of the "phenomenon," said:

"I first saw a light as we rounded an island in the sound near Port Simpson. The aurora borealis curved in a majestic circle from South Dundas Island to Green Top Island. The ends of the light seemed to find a resting place upon either island.

"Another remarkable feature of the aurora borealis was its great light. As we passed under the semi-circlet of heavenly illumination, it became sufficiently light upon the decks to read. The significance of that statement can be more fully appreciated when I say that it was about midnight, the night of July 23, that we passed off Lucy Island and under the light.

FAME'S PATHWAY.

Elizabeth McCarthy of Boston, at one time prominent as a nurse and preacher, is now an artist's model, a following which she finds remunerative through her picturesque personality.

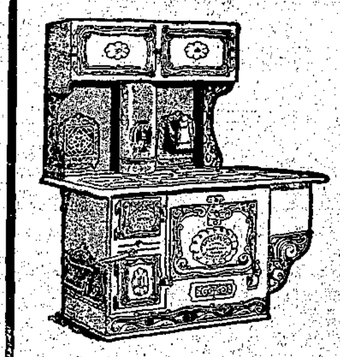
The prince of Monaco is rendering to aerial navigation a service more valuable than the invention of flying machines. He is making a really systematic study of the air currents of the upper atmosphere.

The real name of Maxim Gorki, the Russian author, is Alexei Maximovitj Pjeshkov. He is now about 37 years of age and he won his first pronounced literary success with a short story published 12 years ago.

Hugh O'Beirne, first secretary of the British embassy at Washington, was decorated with the Order of the Bath on the occasion of the king's birthday for his services in connection with the Doggerbank congress at Paris.

M. Combes, who until a short time ago was prime minister of France, is a physician. Now that the worries of the premiership no longer trouble him he is practicing medicine in his native village.

Thomas Elwood Garrett, the well known St. Louis poet, dramatist and critic, is dead. He was born in 1827 in Chester county, Pennsylvania, going to St. Louis in 1851. His chief literary contribution is a book of poems entitled "The Masque of the Muses."



Kootenay Steel Range

Burns Coal, Coke or Wood

Two sets of grates are supplied with every Kootenay Range—one for coal and the other for coke or wood—and the flues are wide and deep, with no square corners, so that the ashes and soot produced by soft fuels cannot clog up the smoke and draft passages.

This feature of the Kootenay Range is a decided success.

The grates are so easily changed that a boy can perform the operation.

Sold by all enterprising dealers. Booklet free.

PRETTY HOUSEHOLD SUGGESTIONS.

In one of the most artistic of American potteries are lovely green lemonade sets, pitcher or jug and six mugs. The shapes are delightful and the color most beautiful.

In the same ware, which is all made on the wheel, and not molded, as cheaper pottery is, are very beautiful bowls and flat dishes for the centre of the table, in greens, blues, yellows and exquisite tones of violet. They are not expensive, considering that each piece is a separate work of art, not duplicated, and is signed by the artist.

A low bowl of soft green filled with fruit was an attractive object in the centre of the table at dessert, the bowl of flowers having been removed. The bowl held besides fruit clusters of green almonds, with some of the leaves still perfect on the stems. The almonds are to be had at any of the fruit stores, which are increasing in New York, as the taste for luxuries spreads. The nuts are imported and are rather expensive. A few suffice to help the fruit dish make a handsome appearance. Fresh figs are another luxury in fruit. Not every one cares for them in this climate, as they become somewhat insipid after being plucked. They look well with other fruit however.

At the fruit stores imported cherries as large as plums and of a brilliant color are to be had at a price. The cherries are very coveted and the little molds are very well to have in the house.—New York Post.

ISN'T THAT SWELL?

Our customers are always pleased with the wall and ceiling papers they have selected from our charmingly varied stock, as well as with the skillful way our workmen hang it. General approbation is given our interior decorations. May we make up an estimate for you?

VANCOUVER ISLAND

AND

Its Great Resources

No part of British Columbia today offers so many advantages to the investor as does VANCOUVER ISLAND.

Its vast and varied natural wealth has never been as yet thoroughly appreciated by reason of the fact that it has never been promiently laid before the public.

COAL	GOLD
TIMBER	SILVER
FISH	IRON
GAME	COPPER

Its Vast Agricultural Resources

Its land, when properly cleared, will grow almost any product of the soil known to man,

WHEAT	VEGETABLES	APPLES,
OATS	OF	PRUNES
RYE	ALL KINDS	PEARS

A WONDERFUL SOIL FOR SMALL FRUITS AND BERRIES.

The Canadian Pacific Company will adopt a liberal land policy, and the 1,500,000 acres controlled by them will be disposed of on reasonable terms to actual settlers

Government lands can be secured and money can be made by those who desire a new home in a country possessing the

BEST CLIMATE

In the World

THE DAILY LEDGER, Ladysmith, will supply any information obtainable to those who contemplate a visit with a view of investment if conditions are found as advised.

Is the centre of the great coal mining district; a beautiful Harbor, where hundreds of great colliers come in each year.

LADYSMITH

IT IS THE JUNCTION OF THE LINE FROM VICTORIA TO VANCOUVER, and will continue to grow in importance as the Island is developed.

FOR DISPOSAL OF MINERALS ON DOMINION LANDS IN MANITOBA THE NORTHWEST TERRITORIES AND THE YUKON TERRITORY.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five years, upon payment in advance $7.50 per annum for an individual, and from $50 to $100 per annum for a company,according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to lorate claims containing iron and mica, also copper, in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2½ per cent. of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T., excepting the Yukon Territory—Placer mining claims generally are 100 ft. square, entry fee$5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive, entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee may dregde to high water mark each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1stday of August in the year of the the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100 per mile for first year and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten miles of mining Recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hald a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the out put of which no royalty shall be chargen, the rest of the party ordinary claims only.

Entry fee, $10. Royalty at the rate of two and one-half per cent. on the alue of the gold shipped from the Yukon Territory to be paid to the comptroller.

No free miner shall receive a grant f more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying a fee of $2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon official Gazette.

Petroleum—All unappropriated Dominion lands in Manitoba, the Northwest Territories, and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide. the length of width shall not exceed three times the breadth.

Should the prospector discover oil n paying quantities, and satisfactorly establish such discovery, an area not exceeding 640 acres, including the oil well will be sold to the prospector at the rate of $1.00 per acre and the remainder of the tract reserved namely, 1,280 acres will be sold at the rate of three dollars an acre, subject to royalty at such rate as may be specified by order-in-council.

JAS. A. SMART.
Deputy Minister of the Interior.
Department of the Interior,

SYNOPSIS OF CANADIAN NORTH WEST MINING REGULATIONS.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—A free miner's certificate is granted upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet. The fee for recording a claim is $5.00

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the descretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

DEFEND THE USE OF THE WEED

Although it is universally admitted that smoking is not a necessity, but only a habit, and a bad habit at that, a great many learned and distinguished men, including physicians and scientists, maintain that it is not an evil but a positive good.

"It is certainly a remarkable fact in the history of mankind," said a well-known physician, "that since the fifteenth century a vegetable growth known to botanists as nicotiana tabacum has come into such general use for smoking as almost to revolutionize the social customs of civilized people. It would be difficult today to find a quarter of the globe where the use of the plant is not known.

"Nevertheless, smoking has met with vigorous opposition at times. It has been denounced by papers, from pulpits, and on platforms; even reigning sovereigns have set themselves to stamp out the practice. Russia at one time insisting on cutting off the nose of every smoker, and Persia once made it an offense punishable by death. It has been proclaimed against on the continent in almost every part, and in England King James I.'s 'Counterblast Against Tobacco,' is a lasting memorial of his determination that no puffer of tobacco should receive any crown appointment.

"It has been contended, on the one hand, that tobacco is a poison and every smoker a suicide; while on the other it has been hailed as an aid to tear of life that naturally ensue in longevity, minimizing the wear and old age. In spite of all opposition and of every argument raised against it, the use of the soothing weed is a well-nigh universal custom.

"That tobacco is not a necessity is readily conceded on all sides, for no sane person could possibly claim that its use is essential to life. Its most devoted friends plead nothing beyond the fact that smoking is a luxury one which sustains a cheerful brightness and affords an enjoyment out of all proportion to the smallness of its cost. Complaints against the extravagance of the habit are unreasonable, and only to be attributed to wilful ignorance or want of reflection. Many things in daily use are by no means necessary, yet they largely contribute to the enjoyment and pleasure of life.

"Thackery once said: I vow and believe that tobacco has been one of the greatest creature comforts of my life—a kind companion, a gentle stimulant, an amiable anodyne, a cementer of friendship. May I die if I abuse that kindly weed which has given me so much pleasure.!

"The only objection really worth consideration is that tobacco acts as a poison in the healthy system. On this score a great deal has been put forth which is matter for serious reflection, but other allegations have failed to discriminate between the use and the abuse of the weed. It is easy to find similar fault with most things we eat and drink, for more harm has resulted from lack of self-control in these matters than could possibly follow the excessive use of tobacco.

"Indeed, there is nothing wrong which, though lawful and right in itself, is not open to the same kind of abuse, and if we deprive ourselves ofeverything capable of being wrongly used away go money, food and life.

"The two common conditions which, result from excessive smoking are a characteristic alteration of the rhythm in the beating of the heart and an affection of the eyes which impairs the vision and reduces the power of distinguishing colors. The furred tongue, the chronic irritation of the throat, and the accompanying dyspepsia, though less important, are nevertheless inconvenient and ought never to be present in a healthy person.

"That such harm does result when use passes into abuse is sufficient warning to ever smoker to put him on his guard, and if an occasion arises should prompt him to reduce his consumption of tobacco or lay aside forever a habit which threatens to impair his health.

"Theopponents of smoking unfortunately rely upon evidence gathered from these cases of abuse, and the consequence is their allegations do not accord with established fact. If every smoker were being slowly poisoned deaths would occur at an early age and their number would markedly increase. There are many things beside tobacco which are highly detrimental when abused, yet the rational use of them is beneficial in the highest degree.

"The late Prof. Huxley said: "There is no more harm in a pipe than there is in a cup of tea. You may poison yourself by drinking too much tea or kill yourself by eating too many beefsteaks."

Senator Steece.—I want $50,000 for that job.

Railway Magnate—You won't get the tenth part of it. Senators are going to jail now for $2,000. This is a bear market for senators.P Pittsburg Post.

Smith (reading paper)—What fools some men do make of themselves!

Mrs. Smith—Now! Clarence, what have you been doing this time?—Chicago News.

LOCAL ITEMS

FOUND.

On First Avenue on August 1st, a bracelet. Owner can have the same by calling at the postoffice, identifying the article, and paying for this notice.

Mr. Jas. Warnock, of Galiano Island, was in the city this afternoon

Judge Harrison was a passenger on the through train at noon today.

The Ladies' Guild, of the Presbyterian church are making arrangements to hold an ice-cream social in the near future.

Capt. Walker and Mr. Fisher, who as mentioned in these columns, are considering plans to erect a fertilizer on Galiano Island, are expected up tomorrow.

Messrs. Simon Leiser have the White Swan prize gramophone, and the holder of the successful ticket, No. 6320, should call at their store on Gatacre street.

I have been notified by the publishers that on and after the 1st of September the subscription price of Everybody's will advance to $1.50 a year. Subscribe now at $1.00 a year at Knight's bookstore.

P. C. Craig, of Nanaimo, monoline operator in the Herald office, has signed a contract to spend one or two years in Bloomfontein, South Africa, in setting up and operating monoline composing machines. He will leave carrying the best wishes of his fellows of the craft on Saturday for Montreal. Mr. Craig has a sound contract on good terms.

At the drawing held yesterday for ticket number 6320 was the winner the White Swan prize, a gramaphone. The drawing was personally conducted by Mr. K. K. Peiser, the company's general agent. Since the introduction of White Swan soap to the public a few months ago it has made remarkable progress and is today consiered one of the best articles in its line that is sold.

People living at the top of the hill have been complaining about the manner in which their young chickens disappear. It was some time thief, but yesterday one lady declares before they were able to discover the she had the pleasure of seeing five small birds swallowed alive by a big dog. The animal must have a good digestion for he did not masticate the dainty meal at all.

OPERA TROUPE WILL VISIT LADYSMITH

Mrs. (Dr.) Davis, who spent yesterday in Ladysmith returned to Nanaimo on last evening's train. During the day Mrs. Davis completed arrangements to bring her Opera troupe to this city during this month. The children will present H. M. S. Pinafore in the local Opera House on two successive evenings. August 21st and 22nd, will probably be the dates.

The entire proceeds, over and above expenses will be donated to the Nanaimo Hospital fund.

When in need of stationary call at Knight's bookstore and he will try to fill your wants.

The children of the Church of England Sunday School will long remember the happy day they spent yesterday at Mr. Porter's ranch near Chemainus. The annual picnic which Mr. Porter kindly allowed the directors of the Sunday School to hold on his property, was a pronounced success and all who went to it spent a thoroughly enjoyable day.

FOOTBALLERS HAVE ARRANGED EXCURSION

Mr. Geo. L. Courtney was among the C. P. R. officials who passed through Ladysmith on last evening's train from Victoria. Mr. Courtnay was interviewed at the station by Mr. J. Adam, secretary of the Football Club, in reference to the proposed moonlight excursion. After some conversation it was arranged to run the excursion on the evening of Monday, August 14th. The S. S. Joan will be chartered for the occasion and will leave this port at 7.30 for Nanaimo and after staying there an out an hour will leave on her return trip, arriving home about 11 o'clock. The excursion promises to be an enjoyable one for the footballers are determined to leave undone nothing that will help to give the trippers a pleasant time.

VICTORIA, B. C.

MARINE

For the first time in the history of the port of Vancouver the shipping master today insisted on the crew of a coastwise vessel signing articles, says the Province. This was done in the case of the steamer Camosun, which is scheduled to sail tonight for ports along the British Columbian coast as far north as the Naas River. At 11 o'clock this morning the entire crew of the Camosun were signed on the articles of the ship at the shipping master's office. No person has been enlightened as to the reason for this strange departure from usual proceedings, and there are many shipping men who have come to the conclusion that it is all humbug and nonsense for a coaster to have to place her crew on articles with consequent expense and trouble in the employing and discharging of men.

NANAIMO.

At the regular meeting of Onward Lodge, No. 2, I.O.G.T., held last evening, the following officers were installed for the ensuing term: C. T.—Bro. C. Graham; V.T.—Sis. L. Smith; Sec.—Bro. W. J. Brown; Ass.st. Sec.—Sis. L. Smith; Marshall,—Sis. E. Bowen; Dep. Marshal—Bro. M. Cottle; J.G.—Bro. A. Toaler; Chaplain—Sis. R. Morton; Sen.—Bro. H. Rogers; Past Chief Temp.—Bro. Geo. Wilson.

The funeral of the late Mr. Danie, Stewart sr., took place yesterday afternoon from the family residence, Milton street, to the Nanaimo cemetery, and was attended by the relatives of the deceased as well as by a large number of sympathizing friends. Funeral services were held at the home by the Rev. J. M. Millar, after which the cortege wended its way to the cemetery where the deceased was laid at rest. The burial service was read at the graveside by the Rev. J. M. Miller. The pall bearers were: Messrs. Sinclair, Quinn Adams, Grant, Bamerman and Gillespie.

John Gordon, a digger in the mines and resident of Extension, was badly hurt in the mines on Monday. A runaway car knocked down a post which struck Mr. Gordon on the head, causing severe injuries. At first his condition gave cause for much anxiety but thanks so the careful attention of the doctor he is now improving.

Mr. Harry Smith, editor of the Cowichan Leader, visited Ladysmith yesterday afternoon.

SPORT

BASEBALL

A baseball match between the Duncan Intermediates and Ladysmith ground on Saturday afternoon next. Juniors will be played on the Bunker

THE RING—

Charles Dryden, the well-known American sporting writer, sums up the career of James J. Jeffries by declaring that in putting heads in boilers and knowking them off human beings "Jim has the field beaten one nautical mile and eight furlongs flat."

An exchange says: Paddy Ryan was not without honor in his own country. John L. Sullivan was worshipped. Jim Corbett was generally respected. Bob Fitzsimmons was an artistic triumph. The world had to give it to Jeffries for what nature had done for him. But Marvin Hart? Well, really, has it come to this?

THE OAR—

The representatives of the Ottawa Rowing Club who will take part in the Canadian Henley regatta at St. Kitts on August 4 and 5 are putting up the finished article under the careful direction of Coach Rice, says an exchange. Since his arrival those who will take places in the shells have been improving steadily until now the men are in the pink of condition.

The men are finding the early morning workouts a great success, and these, combined with diet and training hours, are putting them in tip-top form for the big events. Mr. Rice is confident that the trip to St. Kitts will not be a fruitless one, but the training will not be relaxed until the time comes to start for the scene of the events.

LADYSMITH IRON & STOVE WORKS CO., LTD.

Amelia Rives, who created a sensation a dozen years ago or more by writing "The Quick and the Dead," and who now is a Russian Princess, has recently published a book of poems, in which she says:

I am sunlight and moonlight,
The fire in the jewel,
The blue in the blossom,
The dew in its petals,
The pearl in the ocean
The pang and the pleasure,
The gift and the giver,
The prayer and its answer,
Immortal and mortal.

Miss Gladys Wescott, who was recently permitted by the courts to resume her maiden name, kindly furnishes us with the following additional particulars concerning the case in question:

I am stralight and headlight,
The fizz and the highball,
The succulent cherry
Immersed in the cocktail,
The question and the answer,
The moon and the music,
The sting and the ointment
That stops it from smarting.—
Before I am married
And made an old story.
