LEGISLATIVE ASSEMBLY

THE LADYSMITH DAILY LEDGER

VOL. 2 SATURDAY AUGUST 11 1906 PRICE FIVE CENTS

Library Legislative Assembly AUG 14 1906

ELECTRIC LIGHT BY-LAW DEFEATED

The proposed by-law for the borrowing of the sum of $35,000 for the purpose of installing an electric light plant in Ladysmith, was defeated this afternoon, the result being as follows:

FOR	61
AGAINST	110
SPOILED	1
Total	172

There were 87 votes cast before the miners' train pulled in from Extension at 3:45, and 85 men climbed the hill and cast their votes before the closing hour of 4 o'clock arrived.

Today's vote was one of the largest polled in the city, and it is clearly seen by the result that the residents of Ladysmith do not want electricity this year, at least, if the city are to own it.

RAILWAY COMMISSION

Today's Colonist contains the following Vancouver despatch: Ex-Chief Justice Killam and Dr. Mills, of the Dominion railway commission are in the city today, en route to Dawson to investigate the complaint of excessive freight rates on the Yukon & White Pass route. On their return they will hold sittings in Vancouver and discuss the question of E. & N. crossings at Ladysmith.

A DEATH COMPACT

A strange story of a death compact was told in a coroner's court, London, recently, when an inquest was held on George Buchanan Scott-Coward, aged 14, a student. The young man threw himself in front of a train at Clapham Junction Station, and was cut to pieces. He was a student at Freilberg University, Switzerland, and was supposed by his parents to be on a walking tour. It appears that he went to London a fortnight previously with a friend named Leigh Farnell. A letter was read from the young man which stated: "Our object in coming to London was to kill ourselves, but we delayed doing so longer than we meant to for the sake of hearing Wagner's 'Flying Dutchman,' but this evening we mean to die. . . . You will wish to know why I am killing myself. To me it seems that Frielberg has already killed me. If one puts a plant in a cellar it will die. It is a weak and worthless plant in my case. I have had to live in an atmosphere of bigoted, horrible, uncharitable Catholicism, among people who not only had different views on all points to mine, but expressed themselves almost daily with the utmost rancour and injustice against things which were all my idealy. The winter killed me. It was not the cold; it was the dark brown hills, the lifeless trees, the hideous fearful mountains. . . . A land without lines and without color—not that Switzerland has no lines and color, it has only too much."

Leigh Farnell, the companion of the dead student, stated that he went to Clapham Junction with Scott-Coward, who persuaded him at the last moment from following his example, saying, "Think of the great grief it will be to your parents."

PLAGUE OF ANTS.

Berlin. The series of thunderstorms which visited Berlin recently, altho causing a considerable amount of damage, came as a welcome relief after the excessive heat. A curious spectacle was witnessed preceding the storms. Almost all of the streets were literally covered by millions of black-winged ants. The lively little creatures were an alternate source of annoyance and amusement to the inhabitants and visitors.—Chicago Record-Herald.

HORSE EATS CAR TICKET.

Pittsburg.—"That horse ate my transfer and I won't pay."

This was the remark made to a conductor of a Craig and Center car this morning by an irate woman as she got on the car. She pointed to a horse which was browsing about hitched to a grocer's cart.

The woman's story was corroborated, too, by some of the other passengers who had mounted the car with her. But the conductor could not hear to that excuse.

"You ought to have brought the nag on with you, ma'am," he said, "and I could have rung him up for fare. Come, pay up."

She paid. The woman had dropped her transfer and the horse was quicker than she was.—Philadelphia North American.

CRICKETERS TO TOUR

Nelson, Aug. 10. — An important meeting of the Cricket club was held last evening when arrangements were completed for the visit of the team to the coast cities this month.

The team will leave for the coast on the 17th and will participate in a big tournament at Victoria which will be in progress from the 20th to the 25th, both dates inclusive, and in which the following teams will participate: Portland, Tacoma, Seattle, Victoria, Burrard, (Vancouver) New Westminster and Nelson. There will be a match every day—in fact two games every day, for while one game is in progress at Oak Bay grounds another will be played at the exhibition grounds. The schedule has been so arranged that each team shall play every other day. M. C.C. rules shall govern but when the second innings cannot be completed in an afternoon, the first innings shall count. A cup is being offered for the team winning the tournament and the Nelson boys have high hopes of winning for they already have a fine team but have promises of being able to secure the services of two very fast bowlers who are in the city and who are said to be superior to any talent on the coast.

Arrangements are now in line for a special car and with this object in view the board of trade and the 20,000 club are co-operating with the cricket club. The trip should prove a good ad. for the City of Nelson.

WANTS TO KNOW ABOUT CONSULS

Brussels. American consuls in Europe have been instructed by the state department to send full lists of the consuls of all nations accredited to the various countries with information as to their salaries, method of grading, system of promotion and increase of salaries and the examinations required for entering the service. Data concerning the Belgian consuls is especially desired because of the good work they have done in the last ten years in promoting Belgian commerce in Persia, China, and South America.

LIEUT J. S. HAMILTON WRITES OF SUICIDE

Washington, Aug. 11.— Army officers stationed in this city are much concerned regarding the whereabouts of Second Lieut. John S. Hamilton, Twelfth infantry. Under date of August 2, Hamilton addressed a letter to the chief of staff notifying him that he intended to commit suicide, but requested that when his body was found it should be buried beside that of his father in Arlington cemetery, across the Potomac from this city. The letter came from Chicago, and since that time no trace of the officer has been found.

The Victoria Colonist of to-day says: Carrying the first cargo of hardwood lumber probably ever imported into British Columbia, the barque Alder Bosse arrived in the Royal Roads last night. She left Otaru, Japan, on June 15th, abd reports an uneventful voyage. The cargo consists of elm and other hardwoods, which had been very carefully selected with a view of creating a market for such in this province. So far as can be learned, the cargo was brought across the Pacific on speculation. The vessel entered at Winnipeg Head last night and soon afterwards passed on to Vancouver. Usually a barque carried nine men before the mast, but on the Alder Bosse there are eighteen. These are all Japanese sent out by the Japanese government.

LUMBER RATES ARE NOW EXCEPTIONALLY HIGH

Seattle, Aug. 11.—Lumber rates between Puget sound and California are higher now than they have been for several years, according to the statements of shipping men. As much as $8 per thousand feet has been paid for charters to California. Formerly the rates have been between $4 and $4.50. The shipping men say that the rates are still going up and that they expect them to reach the $10 mark.

The Globe Navigation Company has chartered the four-masted schooner Alex. T. Brown and the schooner W. L. Smith to carry lumber from Puget sound to California. The rate on these schooners is $7.75. The schooners are on their way here from Australia. They are expected in shortly, and will take on a cargo as soon as possible. The bark Henry Villard has also been chartered for lumber to San Francisco, and will get away shortly.

Shipping men state that there is a shortage in tonnage for the lumber trade between the Sound and California. This is one of the reasons, they say, for the high rates. Custom house brokers also confirm the statements regarding the shortage of ships. This condition is certain to last until after the freeze up in the Behring Sea.

ON THE BOOM

Winnipeg, Aug. 10.—A fair idea of how the country tributary to the Soo line of the C. P. R. in Southwestern Saskatchewan is filling up is furnished by the little town of Milestone, where two hundred cars of settlers effects were unloaded this season. Ten new threshing outfits and 200 new binders have been sold.

CRUSHED BY ORE SLIDE

The Nelson News gives the following account of the death of D. H. Smith, a telegraphic account of which appeared in these columns:

"Pinned down by a fall of crushed ore, D. H. Smith met sudden death at the Hall Mines smelter on Friday afternoon.

"The deceased was missed by his landlady, Mrs. Finnerty, of the Sunnyside hotel, last Friday night, and on Saturday morning she inquired at the smelter for him and was told that he had not been seen since the previous day at noon when the timekeeper checked up the time of the men working. She asked that a search be made but after waiting for a few minutes she was told that the man could not be found on the premises.

"Not hearing anything of him, Finnerty again visited the smelter yesterday morning and superintendent Hedley caused a search to be made. The big ore bin, where crushed ore from the mechanical roaster was stored, was first visited but a brief glance into it led to the belief that there was not enough ore in the bin to cover a man, and search was made elsewhere finally coming back to the bin.

Workmen were put in to dig round and see if Smith was under the ore and in a short time they came across his body. The body was lying on the bottom of the bin with the left eye gouged out and the nose crushed in. The body was black and discolored as though death had resulted from suffocation. Decomposition had already set in.

From the position in which the body was found, it is thought that Smith was working under an overhanging of the crushed ore which is soft like flour, but packs hard. Digging caused this to fall and the unfortunate man was buried alive.

Dr. Arthur, the coroner, stated that he could notice no evidences that death was due to suffocation but could not see any other injuries which would have proved fatal. On the other hand, the undertaker states that the body has every evidence of death by suffocation.

In view of the statement of the coroner it is thought strange that no inquest was held.

UP-TO-DATE METHOD OF HANDLING COAL

The coal and ore handling equipment at ports on the Great Lakes has reached a high degree of development. Two large coal-handling machines, which are also equipped with screening plants have been recently installed on the dock or pier of the Boston Coal Dock & Wharf Co. at Duluth, Minn. The buckets of the machines unload coal from steamers or barges and store it on the stock piles to the screening equipment carried in the tower of each machine, and finally deposit the screened coal in box cars and the stock coal on storage piles. The conveyor has a bridge 300 feet long, of which 130 feet is a cantilever span, the span from the tower to the shear-leg support at the edge of the pier being 176 feet. At the front end of the bridge is a 53-foot hinged cantilever which projects over the vessel or can be swung up to clear the masts and rigging of vessels as they approach or leave the pier. The machines handle 2-ton Hulett patent excavating buckets at speeds of 250 feet per minute in traversing. The machines are self propelling, and can travel along the dock at about 75 feet per minute.

Steam power is used for all operations. One engine operates the bucket and moves the machine along the dock. A second engine operates the trolley running on the bridge, while a third engine operates the coal screen and slack-coal conveyor, which is shown projecting from the rear side of the tower. The screening chutes are provided with gates at the hopper, so that the flow of coal can be accurately controlled, and at the lower ends are telescopic folding chutes for discharging coal into box cars on the railway track in front of the tower. There are two operating cabins; one is over the shear legs and enables the operator to see the operations in the hold of the vessel; the other is on the tower and is used when handling the coal from the storage piles to the screen hoppers. The hinged cantilever is handled by cables on a drum driven from the engine which operates the bucket; this drum is fitted with a clutch and brake.

ARMY SECRET SERVICE

Toward the end of the civil war the value of a well-organized scout service came to be fully appreciated by the leaders of both armies. Perhaps no commanders of modern times were better served in this respect than Gen. Grant, and Gen. Lee. Both were kept informed daily as to nearly everything that went on within the enemy's lines.

Gen. Gordon relates that one morning toward the end of the long conflict, when the Confederates, officers and men alike, were reduced to unpleasant straits for food, a captain from the Union headquarters went, under a flag of truce, with a communication to Gen. Lee concerning the exchange of prisoners.

"Gen. Lee, "said the captain, with a smile, after delivering his message "Gen. Grant sends you his personal compliments, and bids me assure you that he knows exactly what you had for breakfast this morning."

"Gen. Grant must be misinformed as to this," replied Gen. Lee, surveying the message bearer with a sad smile. "Gen. Grant is a generous man, and if he had known with what a breakfast I had to content myself he woul' certainly have sent me half of his. Give him my compliments," he continued, with a sudden twinkle, "and say that altho I do not know what he had for his breakfast, I have full particulars concerning his dinner last night."

WILL START CIVIL ACTIONS.

It is understood that writs will be issued within a few days against the C. P. R. as owner of the Princess Victoria, in civil suit, claiming damages. The estate of the late Mr. Chick, Mr. Bryce and Mr. J. O. Benwell will be plaintiffs in three of the cases.

Mr. Joseph Martin, K. C., is understood to have been watching the police court proceedings in the interests of the Union Steamship Co., owner of the Chehalis.

NO ELECTION SAYS HAWTHORNTHWAITE

There will be no general election this year. There was to have been; in fact, it was arranged between the leaders of both sides of the house that there should be; but Mr. J. H. Hawthornthwaite has brought these well laid schemes to naught, says the Vancouver World, after an interview with Mr. J. H. Hawthornthwaite. At least Mr. Hawthornthwaite himself says so; and after that, there is nothing more to be said.

Among other matters which Mr. J H. Hawthornthwaite settled, once and for all, on his recent trip, were the aspirations of Mr. Ross, the member for Fernie, for the portfolio of attorney general. It was on the Conservative cards that Mr. Ross should take the vacant portfolio, and should be re-elected while certain divisions still prevailed among the labor men. Mr. Hawthornthwaite has attended to that, and healed the divisions; and it is now understood that the government is now looking around for another easy constitutency from which to obtain a member to fill the vacant chair. Mr. Hawthornthwaite's next great work is to be the destruction of party lines in the province. This will be effected by the election of 9 or 10 Socialists in the next house, which will necessarily put everybody else on the other side. Independently of all this, Mr. Hawthornthwaite expects that there will be a great change in the personnel of the coming legislative assembly. Not more than three or four members of the present house, he says, can be considered to be at all sure of re-election. It will be remembered that the present socialist party consists of three members.

Mr. Hawthornthwaite arrived this morning from the upper country. The statistics of the trip shows that he has visited 25 points, and delivered 30 speeches. In between the speeches Mr. Hawthornthwaite took observations of the industrial aspect of things. British Columbia, he told The World, was in the midst of one of the greatest capitalistic booms in the history of the continent — which is the socialistic way of spelling development and prosperity. The western states, he continued, took 25 years to develop, but, owing to modern methods of transportation, he believed that British Columbia would be brought to as high a condition as any part of the Pacific coast during the next six years. The capitalists were making the most of their opportunities of exploiting labor, than which no place in the world at present offered greater.

For a moment just at this stage it appeared as if Mr. Hawthornthwaite might enthuse over the growth of the country which as much abandon as the ordinary business man. The enthusiasm was there. Althought it was perfectly evidently that Mr. Hawthornthwaite was some what out of his role in blessing he continued to bless for several minutes before he remembered himself. Suddenly pulling up, he said: "Of course all this prosperity is of a verly little advantage to the workers, but it is absolutely necessary that the country should go through this stage."

Touching on the immigration of Hindoos, Mr. Hawthornthwaite said it was viewed with considerable alarm in the upper country. Fear was expressed that the demand for labor would cause the repeal of the $500 poll-tax on the Chinese. He hoped that this would not be done. He objected to those people on racial grounds. It was the white race which must solve the economic problems of the day.

There was considerable activity in political circles on both sides. It had been the intention to spring an election this fall, before the socialists were ready, but they had not been caught napaing as his tour had proved, and as this advantage was not now to be gained, there would be no election. One thing was certain however, that whenever the election did take place, those conservatives who had voted against the 8-hour day for the smelters would have no chance whatever of being returned. Feeling was extremely bitter among the smelter men that this measure had been defeated.

TO FIGHT SEPTEMBER 3

Goldfield, Nev., Aug. 11.—Joe Gans and Billy Nolan, manager for Battling Nelson, at 11 o'clock to-night signed articles for a fight on Labor Day. The papers were signed in the presence of "Tex" Rickard, George Wingfield and L. M. Sullivan, whose efforts were mainly responsible for the agreement. Gans accepted ten thousand dollars as his share of the purse under the following agreement: Straight Marquis of Queensberry rules to a finish. At weight agreed upon, 133 pounds, weigh in at three o'clock. Purse to be cut so that Nelson will get $20,000, win or lose; Gans to get $10,000 win or lose. Gans and Nelson each to post with John S. Cook & Co., bankers of Goldfield, $5,000 upon signing articles of agreement at Goldfield, August 10 at 2 p.m.

BASEBALL.

The Cowichan Leader says: The local aggregation of ball tossers have been practicing faithfully during the last week in preparation for their game with Nanaimo, which takes place in the near future.

On Tuesday evening an exciting game took place between the Junior team and a doubtful-looking bunch called the "Hit 'em Hards," in which the latter were victorious by 4 to 3. There were many plays of a phenomenal order and some sensational batting by a new "dark horse" who made his debut in right field. His slide at third was the feature of the game.

For the Juniors, Campbell at short missed nothing, while Parker at first caught everything from a cold gilt-edged FFGG CC DDF CDFDCDF to a fly. The winners all played gilt-edged ball, and no doubt if the immortal "Jimmie" had been there to run a few men off at third, their score would have been doubled—but "Simmie" had gone camping.

MONEY UNDER SIDEWALKS

Seattle, Aug. 10. — An army of small boys digging with their hands in the mud at the corner of Second Avenue and Yesler Way, and every now and then fishing up stray nickels, dimes and occasionally quarters, half dollars and dollars was the unusual sight that followed the tearing up of the old wooden sidewalks on the busy corner a day or so ago.

The sidewalk had been down for yeare. From the cigar stand on the corner and from the people standing about waiting for cars, coins almost daily fall to the sidewalk and tumble through the cracks. Aware of this fact, possibly from previous experience, the small boys began to flock around the moment workmen started ripping up the old planking.

One wild rush, frantic searching in the mud and fights galore marked the bringing up of the planking. It was all over in fifteen minutes and the youngsters with the unusual feeling of having money in their pockets, scattered from the scene of the skirmish in the direction of the nearest candy store.

BROKERS ARRESTED.

New York, Aug. 10—Four stock brokerage establishments were raided by the police today and four men arrested on a charge of failure to register a co-partnership. The men arrested were held for $2,500 bail.

OUT ON STRIKE.

Halifax, Aug. 10.—One hundred men at the Strathcona coal mines River Herbert, Cumberland County, are on strike because the management in order to offset the reduction in price of coal to the Intercolonial railway, cut ten cents a ton off coal cutters today.

NEW YORK IS SECOND.

New York, Aug. 10.—By shutting out Pittsburg today New York got into second place. The score was Pittsburg 0, New York 1.

REFORMERS IN PERSIA.

Washington, Aug. 10—The Persian Minister late today received an official notification that the Persian government has issued a decree granting to the people of that country a national assembly.

LYNCHER GETS 15 YEARS.

Charlotte, N. C., Aug. 10—G. Hall was tonight convicted of conspiracy in connection with the lynching at Salisbury of three negro murderers of the Lyrley family, and was sentenced to 15 years in the state prison.

Winnipeg, Aug. 10—According to a Spaltcholz, a German lumberman of Dresden, who is here with a view to establishing trade connection with B. C. Mills as a source of supply, Germany requires Canadian lumber and timber in practically unlimited quantities, but tariff conditions are unsatisfactory to promote a large trade.

"PE-RU-NA WORKED WONDERS"

Says a Well-Known Canadian.

MR. P. BRIEN.

Mr. P. Brien, Accountant, residing at 23 Third street, Limoilou, Quebec, writes:

"The fatigues entailed by my duties as accountant began to weaken my system about a year ago. I felt that I would not long be able to withstand the severe strain upon my nerves, as, a thing unknown to me before, I would long for office hours to be over in order to rest.

"I gradually grew weaker and a few months later my sight was impaired. I then broke down completely and was obliged to take my bed. I was also suffering from palpitation of the heart."

"After a few weeks' treatment by a local physician, I was in the same critical condition, and as the doctor held out no great prospects for me, I decided to experiment on myself.

"I took several remedies advertised as tonics, but did not derive any benefit.

"Peruna was then given a trial, and before I had taken it a week I felt my condition improving. After a few weeks more had elapsed, during which time I followed the directions carefully, my shattered nervous system became firmer, my sight stronger and I hoped to be out soon again.

"My expectations were realized, for in three weeks I assumed my duties as accountant at the office.

"Peruna certainly worked wonders on my system, and for persons run-down from overwork, I believe it is the most efficacious tonic."

Assistant War Correspondent Recommends Pe-ru-na.

Mr. H. B. Manley, assistant War Correspondent during the War in China, care "Black and White," 688 Craig St., Montreal, Canada, writes:

"When a man travels in extremely hot or cold climates, he realizes how valuable a friend he has if he carries a bottle of Peruna.

"I know of no article in my traveling outfit which I have learned to praise higher.

"If you are suffering with the extreme heat, Peruna restores you, or if you are afflicted with a cold, la grippe or bronchitis, Peruna restores you in a short time.

"Or if you suffer with sleeplessness or if your appetite is poor, again Peruna acts as a good, true friend and is the tonic needed.

"I have tried it for months and am only too glad to acknowledge it as a true, loyal standby in times of trouble. I do not hesitate to recommend it to all."

For free medical advice, address Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

Pe-ru-na Is a Systemic Catarrh Remedy, Especially Adapted to Cases of Nervous Prostration, Caused By Overwork, Mental Strain Or Extreme Summer Heat.

IN latitudes where warm weather is of long continuance, the inhabitants become more or less accustomed to it.

In Temperate Zones, however, where the change from winter to summer is great, the system is sometimes poorly prepared to meet the exigencies of hot weather. This is the cause of much sickness.

Stomach catarrh, indigestion and dyspepsia are not among the least of summer ailments.

INDIGESTION CAUSES WEAKNESS.

When the digestion is disturbed, the assimilation is also affected, and as a result the body does not receive the nourishment it should. Lassitude, weakness, brain fag, loss of flesh and nervous prostration are the natural results.

What is needed is a remedy that will restore the digestive organs to their *normal condition.*

Such a remedy has been found in Peruna. It has proven itself of priceless value in thousands of cases of this kind.

Its action has been seemingly miraculous in restoring some patients who had given up all hope of recovery.

PE-RU-NA'S BENEFICIAL EFFECT.

But there is nothing strange about Peruna's action. It simply tones up the mucous membranes of the organs involved restoring them to their normal conditions and leaving Nature to perform her duties unhindered.

That person who has sound, healthy mucous membranes lining the entire digestive tract is well-guarded against the usual summer ailments.

Peruna is the means whereby to attain this most desirable condition.

If you suffer from any of the above-mentioned symptoms, try a bottle of Peruna.

One bottle of this remedy is sufficient to convince any one of its merit as a safe and reliable remedy for all catarrhal conditions.

We have many letters of gratitude received from persons who have experienced its benefits.

These testimonials are proof to us that Peruna has not failed in the mission for which it was intended, that of relieving suffering and restoring health.

FATAL ATTEMPT TO ARREST

New York, Aug. 10.—When an automobile owned and driven by Stewart Ellion ran into a mounted policeman who was attempting to arrest the driver for speeding in the Bronx early today, Mrs. T. W. Noble, wife of a travelling salesman of Baltimore, [illegible] the occupants of the car, was killed and so severly injured that she died tonight in the hospital. [illegible] Margaret Johnson of this city, who was one of the party is [illegible] in the hospital seriously [illegible] Stewart Ellion and the chauffeur, Harry E. Smith were slightly injured.

SETTLER BURNED OUT.

Fielding, Sask., Aug. 10—The farm house of D. Stewart, a new settler, was burned and its contents destroyed here. Loss is $1,000.

OIL TRUDT INDICTED.

Jamestown, N. Y., Aug. 10—The Federal Grand jury for the Western district of New York this afternoon returned indictments against the Standard Oil Co., of New York, to Panama Railroad Co., and the Vacuum Oil Co., of Rochester for violations of the Interstate Commerce law.

SULTAN IS INDISPOSED.

Vienna, Aug. 10.—According to a message received here from Constantinople the Sultan's indisposition made necessary the cancelling of today's selamlik. The foreign representatives who had assembled to witness the ceremony withdrew when this became known, and the troops stationed at the spot were dispersed. It is reported that the Sultan must undergo an operation and it is declared here already that he has done so. This news of the Sultan's ill health has awakened deep interest here.

MINARD'S LINIMENT CO., LTD.

Gentlemen—In June '98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever. Yours truly,

A. E. ROY,
Carriage Maker.

St. Antoine, P.Q.

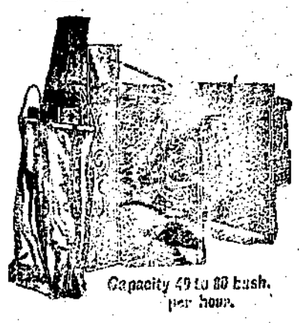
MAKE MORE MONEY

Bigger Crops of Better Grain. Clean, Large Seed Increases the Yield 20%.

It Pays to Know the Exact Weight of Everything you Buy or Sell.

Chicken raising a very easy and simple way of adding to the farm's cash profits.

CHATHAM FANNING MILL



Capacity 40 to 80 bush. per hour.

Cleans Wheat, Rye, Timothy, Clover, Millet, Oats, Barley, Flax, Peas, Beans, Corn and all seeds.

Large Hopper, Screw Feed evenly regulated.

Agitator prevents clogging and distributes grain evenly on screen.

Lower Sieve keeps screens clean—no other mill has this.

End shake and adjustable side shake (three widths).

Sixteen screens and riddles, grading anything from linseed to coarsest grain. Screens japanned—can't rust.

Saves screenings for feed.

Works easily and smoothly, combines simplicity with ingenuity.

The Chatham Fanning Mill will pay for itself over and over in one year. It is the greatest economizer and profit-builder on the farm. It ensures bigger crops of better grain.

If it were not the best it would not now be in use on hundreds of thousands of farms in Canada and United States. Furnished with or without Bagging Attachment, as desired.

PRIZE AWARDS—Highest awards at World's Fair, St. Louis; Pan-American, Buffalo; World's Fair, Paris, France; Toronto, Winnipeg, Halifax, Charleston, Savannah and Jacksonville.

GUARANTEE—Every mill guaranteed for five years. It is a lifetime.

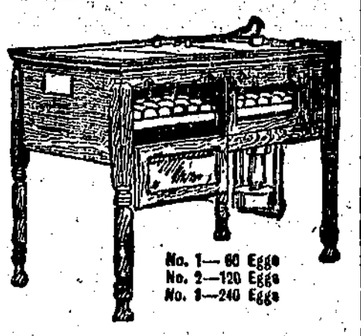
We send the Chatham Fanning Mill to any farmer on receipt of his order, at once, without any cash down, and the most liberal terms of payment.

WRITE FOR PARTICULARS and Free Book, "How to Make Money Raising Grain."

CHATHAM FARM SCALE

You need a Scale on your farm.
You need it right now—to-day.
Every day you put it off you lose money.
Suppose you sell some hogs at 5 cents a pound, and trust to your dealer's scales, which are 1/20 out. That means a loss to you of 50 cents on every 200 pound hog.
Then you sell 1000 bushels of grain at 75 cents. This dealer's scales are only 1/10 out, but your loss is $18.75 on the deal.
The loss on a few transactions of this kind would buy a dozen scales.
When crops are poor you need every cent they are worth. When they are good you can't afford to throw money away.
You need a scale on your farm at all times. The less you think you can afford it, the more you need it.
The important point is to get the right scale.
The Chatham Farm Scale is *built in three* styles, each one strongly and honestly built, ready to stand the roughest kind of usage.
Capacity 2,000 pounds—sufficient for all farm uses. The knife edges are of oil-tempered tool steel—practically indestructible—insuring absolute accuracy no matter how constant the use.
The Chatham Farm Scale is easily convertible into a useful truck. By moving the lever you throw the weight off the knife edges on to the solid frame of the truck. This preserves the knife edges and gives solidity to the truck. When you move the lever to throw the scale into use again it automatically adjusts itself without any trouble to you. It is the only scale made in Canada that will do this.
The Chatham Farm Scale is absolutely accurate. Before we ship a Chatham Farm Scale it is thoroughly gone over by the Government Inspector. If it is absolutely accurate he stamps each poise and balance with his official stamp and gives us a certificate of accuracy which goes with the scale.
We will ship a Chatham Farm Scale anywhere in Canada. *Don't send us any money.* Just send in your order and we'll send the scale as fast as the railroad can get it to you. Our terms of payment are acknowledged to be the most liberal ever offered. Ask your neighbor. Send us your name and address on a post card and we'll mail you our booklet about the Chatham Farm Scale.
Time may mean considerable loss of money to you. Why not send the post card to-day, while you think of it?

CHATHAM INCUBATOR



Poultry raising pays.

People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is—to lay eggs. As a hatcher and brooder she is outclassed. That's the business of the Chatham Incubator and Brooder, and *they do it perfectly and successfully.*

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry-raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the Chatham Incubator and Brooder.

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.

Our proposition is this: We will ship you the Chatham Incubator and Brooder, *freight prepaid,* and

You Pay No Cash Until After 1906 Harvest.

MUNICIPAL BY-LAW

A by-law of the Corporation of the City of Ladysmith, to raise by loan money to construct an electric plant for the said Corporation.

Whereas it is expedient that the Corporation of the City of Ladysmith, should construct a system of electric plant for the purpose of furnishing electric light for the use of the said city and the inhabitants thereof.

Whereas a petition in accordance with Section (69) of the Municipal Clauses Act has been presented to the Municipal Council requesting the said Council to introduce a bylaw for the object aforesaid.

Whereas an expenditure of $35,000 will be necessary to construct the said electric light system which sum must be raised by the issuing of debentures of the Corporation of the City of Ladysmith, for the said amount, payable in 25 years from the date hereafter fixed by this by-law to take effect with interest in the meantime payable yearly at the rate of 5 per cent. per annum.

And whereas it will be necessary to raise in each and every year during the currency of the said debentures by a special rate for the purpose of paying the said debt and interest the sum of $2,483.33 whereof the sum of $1,750.00 is to be raised annually for the payment of interest on the said debentures and the sum of $733.33 is to be raised annually for the purpose of creating a sinking fund for the payment of the debentures which will require an annual rate of 5½ mills in the dollar for paying the said debt and interest.

And whereas the amount of the whole rateable land or improvements or real property of the said City according to the last revised assessment roll is $445,070 and the total amount of the existing debt of the said City, is nil.

This by-law shall not be altered or repealed except with the consent of the Lieutenant Governor in Council.

Be it therefore enacted by the municipal Council of the City of Ladysmith, as follows:

1. It shall be lawful for the Corporation of the City of Ladysmith to raise or cause to be raised by way of loan from any person or persons, body or bodies, or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of $35,000, and upon receipt thereof to cause the same to be paid into the hands of the treasurer of the said City for the purpose and objects above recited.

2. It shall be lawful for the Corporation to cause any number of debentures to be made, executed and issued not exceeding in the whole the sum of $35,000 for such sum of not less than $500 each, as may be required and that all such debentures shall be sealed with the seal of the Corporation of the City of Ladysmith, and be signed by the Mayor of the said City and countersigned by the City Clerk of the said city.

3. The said debentures shall bear date the 1st day of Sept., A. D. 1906, and shall be payable 25 years from the said date at the office of the Corporation of the City of Ladysmith, and shall have attached to them coupons for the payment of interest and the signature or signatures on the said coupons may be either written, stamped, printed or lithographed.

4. The said debentures shall bear interest at the rate of 5 per cent per annum from the date thereof, which interest shall be payable half yearly on the first days of January and July in each and every year during the currency of the said debentures at the office of the Corporation of the said City of Ladysmith.

5. There shall be raised and levied in each year during the currency of the said debentures the sum of $1,750 for the paying of interest, and the sum of $733.33 for the purpose of creating a sinking fund for the payment of a debt coming due under the said debentures making in all the sum of $2,483.33.

6. There shall be levied and raised in each and every year until the said debentures and interest thereon shall be paid, a special rate on all rateable land or improvements or real property of the City, in addition to all other rates sufficient to pay the interest and create a sinking fund for the payment of the said debentures.

7. It shall be lawful for the said City, to redeem all or any of the said debentures at par at any time after the expiration of 5 years from the date thereof upon giving six callendar months' notice, which notice shall be deemed to be sufficiently given by a publication thereof for four times in the British Columbia Gazette, and although the holders of the debentures mentioned in such notice be not specifically named after the expiration of the said period of six months all interest on the said debentures, the numbers of which have been published as aforesaid, shall cease.

8. This by-law before the final passing thereof shall receive the assent of the electors of the City of Ladysmith, in the manner provided in the Municipal Clauses Act, 1906. This by-law shall take effect on the —— day of —— A.D. 1906, and shall be cited for all purposes as the Electric Light By-law.

Read the first time on the 23rd day of July, 1906.

Read the second time on the 23rd day of July, 1906.

Read the third time on the 28th day of July, 1906.

Take notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the City Hall Ladysmith, on Saturday, 11th August, 1906, between the hours of 8 a. m. and 4 p.m.

NANAIMO NEWS NOTES

The local baseball team has been practising hard all week for the big game tomorrow with the strengthened Fernwood team of Victoria.

Committees of the Forresters day Re-union met last night to discuss matters in connection with the days sports.

It was decided to engage the Bellingham baseball team to play the locals in place of the Vancouver nine, and the management of the local club will inform the above teams to that effect.

Everything in connection with the proposed re-union is running along smoothly, and it is expected that on Saturday next Nanaimo will have one of the largest crowds in its history.

On Monday, Aug. 20th the Grand Lodge will open its sessions and will close on Tuesday night, Aug. 21st with a grand banquet in the dining parlors of the Wilson Hotel.

Editor Herald:—

In Thursday's issue of your paper I noticed an article clipped from Monday's Vancouver Province purporting to be a statement made to the Sporting Editor of that paper by Mr. Murdock of Vancouver, who claims the middleweight wrestling championship of the Province.

In the article referred to Murdock makes several statements that are far from the truth, and indeed his whole story seems to be called forth, by a spirit of revenge for the way in which I drove his right-hand man (Wilgress) to the tall timber, when I tried to arrange a go with him a short time ago.

At that time Murdock openly acknowledged to the Sporting Editor of the Herald that Wilgress was afraid to meet me, as he seemed to have the general feeling entertained by all Vancouver wrestlers, that is, a fear of the mat artists from Nanaimo.

In his interview with the Province Murdock says that I have tried to side-step him on every occasion, and am afraid to meet him on the mat. This is not the case for Murdock has never yet tried to arrange a match with me. On the other hand he came over to Nanaimo, made a crack through your paper that he would wrestle me at 158 pounds, and then goes back to Vancouver and unloads a perfect torrent of abuse on me through the columns of the Province.

Of all the hot air men that are travelling around the country, this man Murdock is the King of the bunch. He wants to wrestle, but he wants a match on his own terms, at his own favorite weight, and he wants to pick the scene of the battle. Why is he afraid to meet me here in Nanaimo? Every outsider that has ever wrestled here yet has always received equal treatment with the home boy, and can always be depended upon to get a fair shake.

This man Murdock says that I did not reply to his challenge at 158 pounds. In this statement he does not tell the the truth, for the day after his challenge appeared in the paper, I replied stating that as I always wrestled at 155 pounds I would meet Murdock at the same weight at any time he wished.

He says he cannot make 158 lbs. I have only his word for that, and believe that he can make 155 pounds as easily as he can make 158 pounds.

For the sake of three pounds, this man who professes to be a champion is trying to side-step a match with me, who, he says, does not know much about the wrestling game.

If this is so why does he seek so much cheap notoriety and balk at arranging for a match with me, when according to his statements he can show me that I do not know as much about the game as I think I do.

To show this man Murdock that I am no bluffer, but mean straight business, and that I am not afraid of his bombastic outburst, I will accept his challenge at 158 pounds, but insist that he put up a deposit worthy of the name, and not one of ten or fifteen dollars so that he would sooner drop the deposit than go on the scales on the night of the match.

RALPH JOHNSON.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of Interior

Mrs. G. Brown was a passenger on the morning train for Victoria.

Mr. J. W. Coburn, of the Ladysmith Lumber Company, arrived in the city from Nanaimo today.

Fresh Bananas, Oranges, Lemons, Tomatoes, Peaches, Plums, Watermelons, Pears, Muskmelons, Cucumbers, at Blair & Adam.

Tomorrow afternoon at two o'clock the City Band will give a concert on the Green, across the Bay. Doubtless a large crowd will be attracted by the music.

The Princess May is due here tomorrow, as are also the Albion and scows, for coal. The Flyer and scow were in today for coal.

Ask for Capital and Nugget Cigars

Mayor D. Nicholson arrived in the city today from Wellington, where he has been engaged in the construction of a school house for the past few weeks. He states that his work is nearly completed, and expects to finish in a day or two.

This morning the Ganges, twenty-horse power gasoline freighter, owned by Malcom & Purvis, Salt Spring Island, was in at the Government wharf with a load of farm produce for local merchants.

Big assortment of Fruit at Blair & Adam's.

None Better-Capital & Nugget Cigars

Louisville, Ky. A freakish rain that approached the proportions of a cloudburst broke over the city yesterday. The cloud out of which the water poured seemed to zig-zag about the city at will, distributing the rain fall very unevenly. The rain was confined almost within the city limits of Louisville. Shortly before the storm occurred a meteor was seen for a full minute, illuminating half the heavens, but Weather Forecastor Walz said the meteor did not have any effect on the storm.

Ottawa, Aug. 9.—Canadian Agent Ross reports from Melbourne that the Chicago packing house disclosures have caused an increase in the demand for Australian canned meats. These are prepared under state inspection. The rabbits which have been regarded as a pest are being turned to a profit. Mr. Larke reports that in the first six months of this year, five million frozen rabbits have been exported.

Minard's Liniment Cures Garget in **Cows.**

HERE AND THERE

An Omaha packing house will require each employe to wear a suit of white duck clothing and put on a clean one every day. Those engaged in particularly dirty work must have two clean suits each day. The firm provides the clothing and attend to the washing. If more of this sort of thing had been done before now, the packers would be doing a greater trade, but it is never too late to learn.

A Kansas editor who came out in low-necked shoes and peek-a-boo hose complains that his dog bit him. Even a Kansas dog knows a soft thing when he sees it.

At a Pennsylvania wedding the other day the guests ate two hogs, one cow and thirty chickens, and drank $200 worth of beer, says the Philadelphia Press. That wasn't a wedding, it must have been a barbecue.

In a memorandum to automobile manufacturers the governor of the Zoudan, in describing the kind of a motor car suitable for use in that country, says it should be "as near fool proof as possible." That kind of motor car should be the only one sold.

A red headed hunter in Kentucky is reported as having been killed by his best friend, who mistook him for a squirrel. The next fool in the woods will probably mistake his best friend for a humming bird.

A Buffalo policeman jumped into the water and pulled out a drowning man and then sent him to the station on a charge of intoxication. The policeman must have been a descendent of Solomon.

A woman died in Indiana at the age of 112 years. She attributed her long life to a diet on corn bread and buttermilk. Some persons would prefer to die younger than to live on that diet.
