ROOSEVELT MAKING DESPERATE EFFORT

Has Slipped Into Breach and Will Endeavor to Save Conference From Shipwreck

Representative of Russian Envoys Goes to Oyster Bay to Confer With President

A bulletin from Portsmouth dated this afternoon says: President Roosevelt has stepped into the breach and is making a last desperate effort to save the peace conference from shipwreck. That, in a sentence, is believed to be the situation today. Just what the President has been doing has not transpired.

Oyster Bay, Aug. 19.—A representative of the Russian peace envoys at Portsmouth, will arrive here late today or tomorrow to confer with President Roosevelt. The identity of the representative is not disclosed here. His mission will be to consult with the President with a view to bringing an agreement between the two sets of plenipotentiaries. The representative will come to Oyster Bay by direct invitation of the President.

The invitation was transmitted to Mr. Witte last night after the President had had a conference with Baron Kaneke, who came here late yesterday as a representative of the Japanese government. Neither the President nor Baron Kaneko would disclose any of the details of their conference, but after the Baron left at eight o'clock an important despatch was sent to Secretary of State Pierce at Portsmouth, which Mr. Pierce communicated to the Russian envoys. Later an exchange of messages took place between Oyster Bay and Portsmouth, Secretary Pierce acting as intermediary between the President and the Russian plenipotentiaries.

Portsmouth, N. H., Aug. 19.—Black pessimism reigns here tonight. The prevailing view is that the conference is already sealed, that it had ended in failure and all that now remained is for the ministers to meet on Tuesday, to which day it is adjourned, sign the protocol, go through the conventions and bid each other farewell.

EIGHT-YEAROLD GIRL TRAVELS 7,000 MILES

The Overseas Daily Mail says:

Having resided for some time with her grandfather at Whitham, Essex, little Violet Bradshaw, aged eight, desired to go to her father at Victoria, British Columbia, 7,000 miles away. Her grandfather took her to Liverpool, tied a label round her neck stating her name and destination, and endeavored to book her a passage to New York on the liner Teutonic. Th company's regulations would not allow such a tiny passenger to go alone, but an American ladycame to the rescue, and promised to take care of the child on the voyage. From New York to Victoria Violettrl aveled traveled alone, and reached her destination on Tuesday.

POSTMASTER-GENERAL ARRIVES FROM LIVERPOOL

New York, N. Y. Aug. 19.—Sir William Mulock, Postmaster General of Canada, was a passenger on the Campania, which arrived today from Liverpool and Queenstown.

NICHOLAS ISSUES THE MANIFESTO

St. Petersburg, Aug. 19.—Emperor Nicholas has today announced the grant to the people of Russia of a National Consultative Assembly, to be formed by elected representatives of the whole of Russia. The Imperial manifesto is published simultaneously here and at Moscow and will be read in all the churches of the Empire tomorrow.

DUKE OF ARGYLE TREASURE HUNTING

The present Duke of Argyll was formerly the Marquis of Lorne, and just now the Duke is treasure hunting. Scotch reports say:

The treasure for which the Duke of Argyll is prosecuting the search is believed to lie in the submerged hulk of an ancient Spanish vessel in Tobermory Bay, at the Island of Mull, off the Scotch coast. The ship, which is variously referred to as the Florida, the Admiral Florence, and the Florentia, was one of the richest ships in the ill-fated Armada, and at the time she went down in 1588 she was reputed to have on board $150,000,000, fifty-six guns, and large quantities of munitions of war. Diving operations have now been carried on for several weeks, and the hull of the vessel is outlined on the surface by buoys. The divers will work diagonally across the ship in order to get at the strong-room where the chests of gold are expected to be found. Shells, pieces of timber, lead, silver, pistols and bones are being brought up, and the latest relic of interest is a blunderbus about a yard long. It was encrusted with lime.

It is stated in the Statistical Account of Scotland that "in the sixteenth century, during the northern retreat of some of the ships forming part of the Spanish Armada, the Florida was blown up and destroyed off the harbor of Tobermory, a plot for the purpose having been planned and executed under the direction of Maclean of Dowart, for which he obtained a remission under the Privy Seal, as the records themselves, dated March 20, 1589, bear witness. The timbers of the Florida are still occasionally brought up. Part of the wood of the vessel was presented by Sir Walter Scott to George IV., on his visit to Edinburgh. Several attempts have been made to recover the lost treasure, one in 1688 by Scheveral, Governor of Man, who fitted up diving bells, and tried them with success at the depth of ten fathoms. The report of the country goes to show that he got up and recovered much treasure. Another attempt was made in 1740 by Sir Archibald Grant and Captain Rose, to weigh her by means of divers and machinery. This attempt, however, was unsuccessful.

The incidents of the plot as related in the records of the clan Maclean unfold a story that might be the basis of a very successful historical novel were a Scott living to handle it. According to these records the chief of the House of Duard was Sir Lauchlan Macleach who had at the time of the Florida's appearance, seriously embroiled himself with his neighbors of the Clan Ronald and the Clan Ian. To answer for his misdeeds he was summoned before King James, but, failing to make his appearance, he was denounced as a rebel. In return for provisions Maclean got a hundred men from the Florida, and with their help made war on his enemies. While he was investing Maclan's castle of Mingarry, a peremptory message came from the captain of the Florida to send back the Spaniards to the ship. Maclean retained three of the officers as hostages, pending the payment of a debt for provisions At the same time he sent a Maclean or Morvern on board the Florida to adjust matters. The Spaniards, wroth at Sir Lauchlan's action, disarmed Donald Glas Maclean, and cautioned him at the peril of his life to hold no communication with his friends. The magazine of the ship was very close to young Maclean's cabin, and the same night he found opportunity to force his way into it and lay a train in a concealed position. He fired the train on the following day, and of the three or four hundred Spaniards on board only three escaped destruction.

LARGE DEMAND FOR AMERICAN GRAIN

Vessels are Now Taking Full Cargoes from U. S. Ports

The Harvests Have Been Exceptionally Fine This Year

New York, Aug. 19.—The Journal of Commerce says: Steamship interests at this port are quite elated over the decided improvement that has taken place in business prospects during the last few weeks. Instead of going out with half cargoes or at times virtually in ballast, as has recently been the case, vessels are now taking full cargoes and the situation is a firm one generally.

The improvement is due to the active foreign demand for American grain for spot and forward loading. Yesterday, for instance, steamship accommodation was engaged for 500,000 bushels of grain. The following expory sales of grain were reported yesterday: 6,000 bushels of wheat and 344,000 bushels corn for September shipment from New York, 24,000 bushels corn and 295,000 bushels of oats for shipment from atlantic ports, and 300,000 bushels of corn from Chicago to the United Kingdom, which will probably go by way of Montreal. So far as current shipments of merchandise are concerned the improvement in the market is an improvement in volume only, that is to say rates on prompt shipment are still quite low, but for forward shipment there has been an advance of anywhere from 25 to a hundred. The reason for the absence in spot rates is the fact that there were no engagements for accommodation ahead and the steamship people would be compelled to send their ships out only partly filled if they attempted too high figures. Improved conditions are the direct result of the exceptional grain harvests this year, which are co-in- with unsatisfactory conditions in in many sections abroad.

MILTON BROWN DIES OF TYPHOID.

Portland, Ore., Aug. 19.—Milton Brown, of Buffalo, N.Y., chief special agent of the United States treasury exhibit at the Lewis and Clarke Exposition, died last night from typhoid fever in this city.

THE EDITH STRANDED IN SEYMOUR NARROWS

The steamer Edith, of the International Fisheries Company, went ashore in Seymour Narrows on Wednesday when en route to Tacoma from the Halibut fishing grounds in Dixon entrance with a load of fresh halibut. News of the accident was received from Comox, the tug Sea Lion having reached the coaling station with news of the stranding of the Edith.

The Edith, with Caps. Sinclair in charge, was steaming through the Narrows at low tide and struck a reef known to exist in the middle of the narrows. A portion of the stern was torn away and some damage done amidships which caused the vessel to leek badly. The pumps were immediately brought into requisition and were at work when the tug Sea Lion, Capt. French, came alongside a few hours after the stranding.

The Sea Lion towed the stranded was leeking too badly, to allow of steamer from the reef, but the Edith was leeking too badly to allow of her being towed south or of making her way unaided. The inrush of water made it impossible for the pumps to keep the vessel sufficiently free to allow her to make the nearest port, and it was decided to beach her.

The tug towed her to Plumper's Bay, where she was beached to prevent her sinking in deep water. Temporary repairs will be effected on the beach at Plumper's bay, and the Sea Lion, which was bound from Northern logging camps to Vancouver, will return to tow the vessel to Tacoma after temporary repairs are effected. It is expected that the Edith will be in condition to be brought south on Saturday. The weather was clear when the accident happened. It is believed the strong tide running in the narrows at low water swung her stern on to the reef. Steamers engaged in northern trade usually arrange to pass through the narrows only at certain stages of the tide.

MR. HAWTHORNTHWAITE GIVES HIS VIEWS

With a Lengthy Letter to a Nanaimo Newspaper

Discusses Nanaimo Situation and Possibilities of Settlement

The following letter appeared in the Nanaimo Free Press last evening:

To the Editor.—I have made a suggestion through the press that a conference be held for the purpose of settling the present deadlock in town and for my temerity am treated by the editor of the Herald to a two-and-a-half column tirade of abuse. This is nothing new, as, since I failed, a few years ago, to worship at Smith's shrine, I have received nothing else but abuse from his ardent and faithful admirer of the Herald staff. However, it does not harm me and doubtless, is a comfort to that worthy gentleman and his friends.

I bring into the local house a badly needed eight-hour law endorsed by Conservatives and alleged socialist unions, and get abuse for my pains by the Herald. I refuse to be dictated to by the Nanaimo board of trade or accept their advice, more abuse. I attack the government for not strictly enforcing the eight-hour law more abuse. I advise a conference in the matter of the local deadlock, and as usual, more abuse.

Let me assure you, Mr. Editor, and Mr. Aitken, that I have nothing to withdraw in these matters, and in my political life little to regret and nothing to fear. I do not withdraw a single term I have applied to Ralph Smith, Stockett, the Nanaimo Board of Trade, nor those local miners who would be fools enough to rest content with an eight-hour law when they have a world to gain, nor do I propose, Mr. Editor, to modify that eight-hour law one particle unless instructed by the men.

A word with regard to the breaking of this law since I am forced to speak by the Herald. It is unfortunate that the Liberal Executive at Ladysmith had to a certain extent the handling of that business. I am informed that it was a member of that Executive who drew up the information against Dunsmuir Co., a member of that Executive who sat on the bench and adjudicated. I do not charge these people with any ulterior motives whatsoever, but simply state what I believe to be the facts. If the Company continued to disobey the law I would suggest to Mr. Aitken that he roast the Liberal Executive a little and give me a rest.

Further, let me inform him that the company at Ladysmith is not now breaking the law. I am informed that the men go in on the Company's time and come out on their own, breaking the law from one to fifteen minutes a day, or on an average of seven or eight minutes. I attached a penalty clause to that same eight-hour law, providing that a miner who broke it should be fined or imprisoned, and the riot the Liberal party and the Herald raised over it is historical—Mr. Oliver waxing historical about the iniquity of it in the House. This clause was not put in so much to punish the men as to protect them from the Company coercion, as every miner knows. I modified that penalty clause to a ten dollar fine, and if Mr. Aitken is disturbed about the men breaking the law he can go down to Ladysmith himself, swear out another information and invoke the aid of the all-powerful Liberal Executive to help him have the law enforced and the men punished.

In the meantime, let me say that I have an assurance from the government that the law will be enforced against both operator and men. We must remember that we waited many years before we got the law, and it is just a little too soon, except for political exigencies, to get excited about its non-observance. The English factory laws were only established after numerous and persistent prosecutions. One prosecutor, let me say that I look hope- management; let us hope the government will make the next test case stick, be it against the company or against the men.

Mr. Aitken (he goes once more into my political history) accuses me at Vancouver of having said, let me quote his own words, "openly stated that the miners were fools for being satisfied with a petty advance

(Continued on Page Four)

BITTER FEELING BETWEEN FRANCE AND MOROCCO

The Sultan Annoys French Govt. by Arresting Algerian Merchant

Public is Angry and Satisfaction Will be Demanded

Paris, Aug. 19.—The arrest of an Algerian merchant by the Morrocan authorities occasions sharp newspaper comments, accompanied by reports that France is about to organize a naval demonstration at Tangier. The foreign office totally denies any such determination, but it is the firm intention of the government to demand satisfaction from Morocco. This firm attitude meets with the unanimous approval of the public.

It is pointed out that unless the Sultan recognizes Algerians as French citizens, French commerce with Morocco will be completely paralized and commercial transactions there will be almost entirely carried on through the intermediary of Algerian Mussimans who the Sultan claims become subject to his authority when they are in his dominions.

The junior baseballers are booked to play the Nanaimo Reliance team tomorrow on the Bunker grounds at three o'clock.

DETECTIVE SHOT WHILE PERFORMING DUTY

New York, Aug. 19.—Joseph Hindsinski, a detective, was shot and probably mortally wounded by a negro boy on a moving New York and Hartford freight train last night, while attempting to arrest him.

THE VICTIM OF AN AUTOMOBILE ACCIDENT.

Buffalo, N. Y., Aug. 19.—Webb Jay, of Cleveland, the automobile racing man, injured at Kenilworth Park, remained in an unconscious condition all night at the German hospital. Two surgeons have been in constant attendance, but up to a late hour Jay had shown no signs of returning to consciousness.

ANOTHER WORLD'S RECORD SMASHED.

Salt Lake, Utah, Aug. 19.—C. L. Hollister, of Springfield, Mass., broke the world's three-quarter mile bicycle record last night at the Salt Palace track. His time was 1.22 4-5, beating the former record held by W. A. Bardegts of Buffalo, N.Y., by 3 3-5 seconds.

DEVOURED BY DOGS

Halifax, N. S., Aug. 18.—A special from St. Johns, Newfoundland, says that the steamer Kite, which has arrived there from Labrador, brings word of a woman and child eaten by the land of so much attention these dogs near a place called Okkak.

This latest horror from Labrador, days, is attended by piteous facts. The woman, it seems, set out from her little shanty in the northern wilderness to call upon a neighbor. People who live a mile apart call themselves neighbors in Labrador. She knew beforehand that a pack of hungry dogs had been roving about the settlement, seeking what they might devour. But these dogs are usually afraid of human beings and she had little fear of them, though their mournful howls were enough to make the stongest woman feel uncomfortable. Bravely though the woman started on what was to be her last journey, she had not reckoned on the ills of the flesh, ills which resulted in the frightful fate of herself and little one. They had not gone far upon their way with the dogs trotting behind them at a respectable distance, when the woman fell to the ground in an epileptic fit At least this is the supposition by those who found the remains of herself and child after the dogs had eaten every piece of flesh off them and left only the bones. It is easily gathered that after the woman fell in the fit the hungry animals, seeing her lying there motionless on the snow, pressed forward. Finding her unable to repulse their leaders, the whole pack must have set upon the woman and eaten her and then tore the child to pieces and devoured her too.

THE EMPEROR WILL STILL RULE RUSSIA

And the Doumai Will Not Give Her the Liberty Which She Seeks

Provides for Five Hundred Dollars Pay Per Day to Members

St. Petersburg, Aug. 19.— The text of the document constituting a Russian parliament discloses many points of special interest to foreigners enjoying constitutional government. Safeguards for the maintenance of the autocratic power of the Emperor crop out continually in the course of the lengthy document. Although the members are to be elected for a five years' term, paragraph three provides that the doumai can be disolved by the Emperor before the expiration of the term of five years and new elections ordered by Imperial Ukase."

Paragraph four sets forth that the length of the sessions of the Doumai and its adjournments during the year shall be determined by the Emperor. Paragraph ten provides that the president of the Doumai shall report to the Emperor. Other paragraphs provide that in case of dispute between the cabinet ministers and the Doumai in regard to bills, the Emperor shall have final word as to the disposition thereof. The oath to be taken by the members is as follows:

"We promise to perform our duty to the best of our knowledge and ability in all loyalty to his Majesty and mindful of the welfare of Russia."

Members of the Doumai can only be deprived of their liberty or omitted therein by order of the judicial power, and they may not be arrested for debt. Their payment is provided for at the rate of ten roubles (about $500) per day during the session and members will receive for travelling expenses five kopecks per verst, twice yearly to and from St. Petersburg. The usual provisions are made for the removal or suspension of disorderly members and for holding executive sessions.

Paragraph 41 debars the public from admission to either the general or sectional sessions, but gives the president of the Doumai the right to admit members of the press to open sessions.

EIRE AT PORTLAND KILLS TWO PEOPLE

Portland, Ore., Aug. 19.—Fire today destroyed the Stateroom Inn, situated one block from the main entrance of the Lewis & Clarke Exposition, and resulted in the death of two men whose charred bodies have not been identified.

A number of the occupants of the place, including two men and four women were injured and removed to the hospital. Thirty persons were in the building when the fire broke out.

RAILWAY AND COLLIERY MEN ARE IN TOWN.

Messrs. Joseph Hunter and Surveyor King, of the Colliery Company, and Superintendent Goodfellow and Engineer Bainbridge, of the C.P.R., are in the city today in reference to the permanent trackage where the short-line crosses the C. P. R.

Private Maurice, of the Prince of Wales Fusiliers, of Montreal, thinks that if he had not turned around to look at the King when he was at the 1,000-yard range he would have won the first prize. He says when he turned to look at his Majesty the wind changed and he made five misses.

Special advices this afternoon from Victoria say that a decision was rendered this afternoon by Judge Lampham in the Collins case, ordering his extradition

STRIKE IN THE FERNIE COAL MINES.

A special from Fernie today says a notice has been posted at the pithheads calling on all employees to cease work, and calling a meeting for today. The result of the meeting is awaited with anxiety by all parties.

MARINE.

S.S. Le Roi was in port for coal this morning.

S.S. Singola is due in for coal today.

INDIANS TROUBLESOME IN NEW MEXICO

Santa Fe, N.M., Aug. 19.—Word was received at the headquarters of the New Mexico Rangers yesterday that Apache Indians from Arizona are committing depredations in Southwestern Socorro county, on the Mogullon reserve.

Much stock has been taken from settlers who have organized and are now pursuing the Indians. A courier from the pursuers reported that the settlers surprised the Indians in their camp in Elk Mountains and scattered them, recovering some of the stolen animals. While the pursuers were in camp that night, the Indians returned and stole several of their horses.

Arrangements are being made to send out rangers.

MANIFESTO GIVES SATISFACTION TO ENVOYS

Portsmouth, N. H., Aug. 19.—All members of the Russian delegation read with the keenest interest and the greatest satisfaction the text of the Emperor's manifesto communicated to them last night by the Associated Press. Mr. Witte read it attentively but would only express his pleasure by saying it was identical with the original draft shown to him for his opinion and suggestion before he left St. Petersburg. He declined last night to express any opinion on the manifesto itself or the effect which it will have in Russia and abroad, its effect upon the internal situation in Russia or its influence on the war with Japan.

Some of the members of the Russian mission, however, were not so reticent. They frankly said that the redemption of the Emperor's promise by the manner of the manifesto cannot but produce the best impression at home and that it will unite the nation and strengthen the position of the Emperor.

EDITH GRANT WILL NOT RETURN TO THE INDIANS

Edith Grant, the little girl in connection with whom there has been such a lengthy legal battle, is not to be handed over to her mother and the Indian Chief at Cape Mudge, but will continue to remain in the charge of the Children's Aid Society. Such was the decision of Mr. Justice Duff. His Lordship said he was very glad indeed he could come to such a decision, for it was very clear that if the girl could be removed from her present custody and handed over to the influences prevailing at Cape Mudge, such a course would lead her to moral destruction. Whilst His Lordship decided that Edith Grant comes within the meaning of the definition "a nontreaty Indian," as mentioned by the Indian Act, and that those clauses of the Indian Act dealing with nontreaty Indians apply to her, he further holds that he cannot take the view that the exclusive right to legislate upon Indians was conferred upon the Federal Parliament and that the Indians were withdrawn from the general operation of provincial laws. If a provincial statute had the effect of conflicting with a federal provision, the latter would prevail. There was nothing to show, though, tat it was the intention to give an exclusive jurisdiction over nontreaty Indians to the Dominion. Under such circumstances he had decided to refuse to make an order removing the Aid Society on the habeas corpus proceedings which had been instituted by the mother of the girl and the Indian chief at Cape Mudge.

Leader of School of Little Fishes—Come on, fellers, let's go and jolly the old octupus.

NewLittle Fish.—That'll be fun. How do you do it?

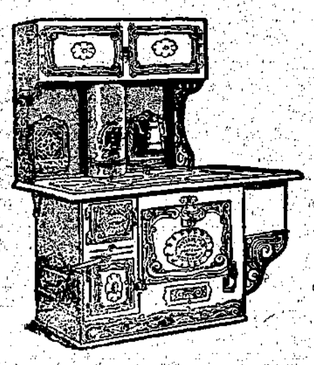
"Oh, we all get around him and point our fins at him, and yell "Trust!" It makes him crazy.

Kootenay Steel Range

A GOOD BAKER

The oven in the Kootenay Range is scientifically proportioned to the size of the fire-box, so that no more fuel can be burned than is absolutely necessary to heat the oven.

The oven is lined with heavy sheet steel, which is a great radiator of heat and insures a uniform heat throughout the oven—no danger of a loaf of bread being half done on one side and burned on the other.



The Kootenay Range is built on scientific principles throughout, and should be carefully examined before buying any other.

Sold by all enterprising dealers.

Booklet free.

Its Great Resources

No part of British Columbia today offers so many advantages to the investor as does VANCOUVER ISLAND.

Its vast and varied natural wealth has never been as yet thoroughly appreciated by reason of the fact that it has never been promiently laid before the public.

COAL	GOLD
TIMBER	SILVER
FISH	IRON
GAME	COPPER

Its Vast Agricultural Resources

Its land, when properly cleared, will grow almost any product of the soil known to man,

WHEAT	VEGETABLES	APPLES.
OATS	OF	PRUNES
RYE	ALL KINDS	PEARS

A WONDERFUL SOIL FOR SMALL FRUITS AND BERRIES.

The Canadian Pacific Company will adopt a literal land policy, and the 1,500,000 acres controlled by them will be disposed of on reasonble terms to actual settlers.

Government lands can be secured and money can be made by those who desire a new home in a country possessing the

BEST CLIMATE In the World

THE DAILY LEDGER, Ladysmith, will supply any information obtainable to those who contemplate a visit with a view of investment if conditions are found as advised.

Is the centre of the great coal mining district; a beautiful Harbor, where hundreds of great colliers come in each year.

LADYSMITH

IT IS THE JUNCTION OF THE LINE FROM VICTORIA TO VANCOUVER, and will continue to grow in importance as the Island is developed.

VICTORIA, —: —: —: —: —B.C.

FOR DISPOSAL OF MINERALS ON DOMINION LANDS IN MANITOBA THE NORTHWEST TERRITORIES AND THE YUKON TERRITORY.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five years, upon payment in advance $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2½ per cent. of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T., excepting the Yukon Territory—Placer mining claims generally are 100 ft. square, entry fee$5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive, entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee may dregde to high water mark each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100 per mile for first year and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten miles of mining Recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hald a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the out put of which no royalty shall be chargen, the rest of the party ordinary claims, only.

Entry fee, $10. Royalty at the rate of two and one-half per cent. on the alue of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant f more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying a fee of $2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon official Gazette.

Petroleum—All unappropriated Dominion lands in Manitoba, the Northwest Territories, and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide. the length of width shall not exceed three times the breadth.

Should the prospector discover oil n paying quantities, and satisfactorly establish such discovery, an area not exceeding 640 acres, including the oil well will be sold to the prospector at the rate of $1.00 per acre and the remainder of the tract reserved namely, 1,280 acres will be sold at the rate of three dollars an acre, subject to royalty at such rate as may be specified by order-in-council.

JAS. A. SMART.
Deputy Minister of the Interior.
Department of the Interior,

GIANT TAKEN CARE OF BY MIDGET KASKI.

"I'm very glad to meet you," said the Barnum & Bailey giant to a reporter in Seattle yesterday. "I'd like to have you meet my friend," and he reached around into the pocket of his long-tailed coat and pulled out Paul Kaski, the smallest of all the midgets.

Mr. Kaski bowed with dignity, despite his scant eighteen inches of altitude, and said that he was just as glad to meet the reporter as the giant said he was. "In fact," vouchsafed Mr. Kaski, "you gentlemen of the press look like a meal ticket to us. You know, we like to see our names in print, somewhere else besides on the big bills.

The friendship between George Auger, the giant, who is something like seven feet eleven inches in his specially constructed stockings, and the tiny midget, is just as real as is the statement that the show is big—it's not the dream of the show's very clever press agent.

They are almost inseparable during their hours off duty, and the midget's favorite hiding place is in the giant's coat tail pocket.

"George is inclined to be a little bit fast," explains the little fellow, "and I have to stick pretty close to him to hold him down."

"Wonderful foliage down here," said the man as he looked off across the barren Arizona desert.

"I could see nothing in sight but snad and eight little pickaninnies crawling in at play. I asked him what he meant.

"I was referring to those Virginia creepers," he replied as he pointed to the pickaninnies.

FIRST LADY BARRISTER IN MELBOURNE.

Miss Grata F. Matilda Greig, the first woman to be called to the Bar at Melbourne, has made her first appearance in court. Sir John Madden, the Chief Justice, in a few graceful remarks congratulated Miss Greig on her unique position, and expressed his gratification at the revolution which her success heralded.

A sister of Miss Greig—Dr. Janet Greig—is at present in Scotland going through a special hospital course.

THE HARD CASE OF THE DOCTOR'S WIFE

The wife of a London practitioner counts for very little in the sum of his professional success (according to an outspoken article in "The World and His Wife.") But the wife of a country of provincial town doctor often proves his chief helpmeet—or his main hindrance. Somuch depends on the type of woman he chooses.

When the new, unmarried doctor settles down in a country town, everybody sets to work to choose him a wife. The eldest daughter of his senior partner is the obvious bride for the young assistant.

He marries a girl from a distance—a girl who has been waiting for him to establish himself in a nice little practice before they two become one. She settles down, therefore, as a stranger within the village or provincial town gates, and she has to begin with the A.B.C. of the business of wifehood as this applies to a doctor's bride.

She has a vague idea that she must help her husband on, but time and experience alone will teach her the right way to accomplish her ambition. In the first enthusiasm she is almost sure to throw herself heart and soul into local affairs, and from a mistaken policy of trying to make herself popular will play too leading a part in the social drama.

The small town rises in judgment against her. She is accused of trying to "work up her husband's practice." If she happens to form areal friendship for a family which is attended by a rival practitioner, local gossip has it that she is trying to wheedle patients away from another physician for the benefit of her husband.

The doctor's wife must call upon all newcomers. But if she present her card too soon, the fresh arrivals are apt to suspect that the pasteboard recording her name, address and At Home day is left with an afterthought of touting for the privilege of professional attendance on the family. If she delay her first call, there is, of course, the chance that the wife of some other doctor may establish the first family relations.

A child is taken suddenly ill. "Oh" says the new comers, "we will send for Dr. B——. His wife seemed such a nice little woman when she called the other day." So that delay from the point of view both of the doctor and his wife is dangerous. On the other hand, calling in haste, the doctor's wife may repent at leisure when she learns that current gossip accredits her with a suspicious precipitancy in making first calls on new settlers.

SYNOPSIS OF CANADIAN NORTH WEST MINING REGULATIONS.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—A free miner's certificate is granted upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet. The fee for recording a claim is $5.00

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the descretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

LOCAL ITEMS

Forcimmer is out for business.

The Kiddies want to know, "Have you seen Maggie Riley?"

Wm. Telford returned on the morning's train from Nanaimo.

Judge Harrison passed through on the morning train to Victoria.

Miss K. Michael was visiting this city this morning.

Look in Forcimmer's window and something will surprise you.

Tickets for the St. Ledger stakes are on sale at J. Stewart's.

The young baseballer has changed his position. Instead of sitting behind a team of horses he is to be found standing behind a chair garbed in a spotless white jacket.

Forcimmer's window is very attractive.

The S. S. Comeric, which was expected to call in at this port on her return from north has gone instead to Comox.

Today being payday in connection with the mines, no doubt alarge number of people will go on the moonlight excursion tonight. The excursion being under the auspices of the City Band; there will be plenty of music aboard the boat, which should greatly help to make the trip enjoyable.

Forcimmer's window is a money saver.

From this date on five cents will buy a nice, cool glass of beer at Jones' Hotel.

Things are doing now in Nanaimo in the way of letters and talk.

Come and hear the old Bo'sun sing "For He is an Englishman."

The Ladies' Guild of the Presbyterian Church will hold their ice-cream social on the Pavilion ground on Tuesday, 22nd Aug., from four o'clock. The band will give selections and a good time is anticipated The ladies of the congregation are requested to kindly send in their usual donations of cake, etc.

Inspect the bargains offered in drygoods at Simon Leiser & Co.'s, Ltd.

AT THE ABBOTSFORD.
J. Hunter, Victoria.
W. K. Houston, Victoria.
R. A. Bainbridge, Vancouver.
J. Goodfellow, Victoria.
J. T. Fahay, Victoria.
H. Fry and wife, Chemainus.

Does anybody know how to spell "Possum Pie?" The kiddies will tell you.

The Extension mine employees are being paid at the Bank of Commerce. Mr. A. Vernon, of the Nanaimo branch, is down, assisting the staff.

A meeting of the Church of England Tennis Club was called for last evening to arrange for a tournament As only four members turned up, no plans were made, but no doubt in the course of a few weeks a tourney will come off.

You do not have to go out of the city to secure bargains. Call in at Morrison's and see his stock of shirts, ties and gent's furnishings of good grade and at fair prices.

MR. HAWTHORNTHWAITE'S VIEWS

Continued From Page 1

on former conditions, when they might just as well appropriate the whole of the capitalists' property, and said plainly they would never receive any actual benefit until this was done."

I admit this is true. I said every word of it and believe every word of it to be true, and further, Mr. Editor, let me say that I look hopefully and confidently forward to the fast approaching day when the world's workers will put these methods, by legal enactment, into effect Until then but little can be done, as the present difficulty shows.

But, Mr. Editor, this is not the deadlock business, and we must not be drawn away from the point.

The local company has not closed down its mines, through Stockett, because Dunsmuir or his men are breaking the law a few minutes per day. The mines, I believe, are closed down for the reason outlined in my first letter, and in spite of the efforts of Mr. Aitken to protect the company or any individuals, I propose, with the permission and assistance of the men, to bring this matter to an issue.

I have not suggested either a conciliation or an arbitration board—the men have nothing to arbitrate, nor have I suggested a Royal Commission—or royal farce—like the Rev Rowe-Hunter beauty, to settle the dispute. I have suggested a conference to ascertain the true cause of the deadlock, and a possible solution If the company refuses to participate and the government and the miners consent, then I would insist so far as my power goes that the government appoint a commission to enquire into the Company's business and see how far they really are affected by this very injurious eight-hour law.

Mr. Smith-Curtis and myself established just such a commission a few years ago, and I venture to say that James Dunsmuir (who is now the principal beneficiary by our local troubles) has a very lively recollection of it yet. After spending several agonizing hours in the witness-box and being forced to expose his business methods and admit that his profits as skinner (a pure slip, Mr. Editor) of coal miners for the previous years were enormous, he shoved his fist in Mr. Curtis' face and vowed to get even if it cost him a leg.

Now, Mr. Editor, I refuse to allow Aitken, Smith, or anyone else to side-track this movement for a settlement with the approval of the men, I proposed to carry it through peacefully if I can, but carry it through anyway. Yours truly,

J. H. HAWTHORNTHWAITE.

WALTERS & AKENHEAD

From the News of Aug. 16th.

CUMBERLAND

The steam yacht Thistle arrived at Union Wharf yesterday morning with the Hon. Jas. Dunsmuir, Bryan Drake Mr. Little and Misses Murdock and Little and Mrs. Freeman on board. The ladies were transferred to Mrs. Collis' camp at Camp Bonita, where they will visit for a time. Mr. Dunsmuir and party went on to Campbell river on a fishing excursion.

Fridaynight Mr. Hornal had occasion to open a can of chlorie of lime and the lid being tight some force was necessary to effect his object, and when the lid finally came off, it seemed as though a little gas had formed inside the can, as part of the contents flew violently out, entering Hornal's eyes and nearly blinding him. He is in serious condition as the result.

Mr. J. Bland, with a force of men, is busy preparing for the new machine shops and car sheds at the Wharf. The main building will be L shaped, 80 feet each way, besides other auxiliary buildings and will be fitted up in up to date style so that all needed work and repairs may be done without the delay and expense of shipping below as heretofore.
