LEGISLATIVE ASSEMBLY

THE LADYSMITH DAILY LEDGER

VOL. 2 TUESDAY, July 24, 1906. PRICE FIVE CENTS

FUNERAL IN NANAIMO OF MISS DALTON

Over one hundred people left Ladysmith this morning at nine o'clock on the special train to attend the funeral of Mary Jane Dalton, the young lady who was so brutally murdered in South Wellington on Saturday afternoon last. Upon the train reaching Nanaimo the funeral services, which had been postponed awaiting the arrival of the Ladysmith people, were held in the Roman Catholic Church. It is estimated that there were at the very least five hundred people, nearly every one of whom was personally acquainted with the deceased, in attendance. The church, in fact, was crowded, and many who could not obtain admittance proceeded at once to the cemetery, where the procession followed at the conclusion of the church services. Hundreds of wreaths, crosses, etc., were laid on the coffin of the murdered girl, the many friends and acquaintances of whom offering these tributes of love and respect to the memory of the young lady whom they had so short a time before seen enjoying complete health and spirit, it being but two weeks ago today since she left Ladysmith for her home in South Wellington.

As stated elsewhere in this issue, there are no new developments in the charges against the alleged murderer, Featherstone. The autopsy yesterday resulted in the finding of one bullet, which is thought to have been of .38 calibre. No new evidence will be forthcoming, probably, until after the report of the coroner's jury when the remand of the prisoner expires, and he will be brought up for hearing again.

LIGHTNING EXPOSES GOLD ORE

Hammond, Ind. — From a ribbon clerk at $6 a week to the possessor of $50,000 and a sixth share of a mine in Nevada, is the progress in fortune made by Miss Georgia Savage. The "strike" was made by her brother, L. A. Savage, in the desert. Lost in the storm he wandered for days while prospecting, after his sister had grubstaked him to $100. In his wanderings he found where the lightning had struck a twenty-foot ledge, exposing free gold and laying bare on the desert hundreds of tons of pay ore.

MARINE

Tug Flyer came in last evening for the scows which had brought over lumber for the S.S. Elleric, from New Westminster. The scows were loaded with coal at the Bunker wharves, and towed out by the Flyer.

The hulk Japan is in port, having brought down a load of coke for the Tyee Smelter.

Collier Titania will complete her cargo and leave for San Francisco this evening.

CATCHES RECORD BASS.

New Orleans.—Capt. J. T. McDonald has broken the world's bass fishing record by catching with a rod and line at Pass Christian a black bass eight feet two and one-half inches long, weighing 440 pounds. It took nearly two hours to land the fish. E. B. Llewellyn, of Chicago, who caught a 425-pound bass at Catalina island, Cal., some years ago, holds the former record.

GRANT'S ATTENDANT DIES

Washington.—Harrison Terrell, who became well known throughout the country during the last years of the life of Gen. Grant as his faithful attendant and nurse in New York and Mount McGregor, died in this city on July 5. While on duty in the War Department he fell and fractured his scull. He was carried to the emergency hospital, where he died without regaining consciousness.

HAIL RIDDLES IRON TANKS.

Kirwin, Kan.—Hailstones from two to four inches in diameter fell for more than an hour here recently.

Window panes were broken, holes beaten into the roofs of houses and barns, galvanized iron tanks riddled, cattle cut and bruised, one horse was killed and some cattle drowned. In some places the drifts of hail were six to ten feet deep.

BOLT OF LIGHTNING KILLS FIVE AT BASEBALL GAME

Manitowoc, Wis., July 24. — Just before a ball game between a local team and Plymouth, Wis., nine, a fierce electrical storm swept over the city this evening and a bolt of lightning struck the grandstand where the spectators and players had sought shelter. Five persons were killed outright, and twenty or more injured. At least fifty more were stunned by the shock. The dead are: Albert Skuhra, 28 years; Walter Handl, 18 years; Irvine Woellnt, 20 years; Antone Karbo, 14 years; Wm. Knautzen, 16 years.

Amongst the most seriously injured are: Harvey Kono, 10 years, limbs paralyzed; Frank Bocha, 17 years, splinter of wood forced into his breast; Walter Boehm, 12 years, unconscious from shock; Theodore Burmeister, 11 years, crippled partially, may die.

When the storm came, the players and spectators alike sought shelter in the grandstand. The bolt struck the roof and dispersed among the crowd, knocking scores of people flat. Two were injured in the stand and the other three just outside the field.

LAST SHOOT FOR MEDAL

Tonight will take place the last shoot of the Tyee Gun Club for the medal donated by the Dominion Cartridge Company. Up to the present Mr. George Hepple is in the lead, and has the advantage over the next best shot, of five birds.

Mr. Hepple has long since planned out the disposition of the medal when he receives it, and is now looking forward to winning a locket, which, it is understood, will be shot for by the club shortly. Regarding the medal, George has no doubt but that it is his, but to make things doubly sure, he has filed the sights on his gun a little finer, and tonight intends to get 25 birds in succession. The medal, he will wear on his watch chain, and to make room for the same, he today promised the locket which at present adorns his chain to another member of the club, who has so far been unsuccessful in obtaining a lead for the medal.

SHEERING A PROFESSIONAL

New York, July 23.—Sherring, the Canadian who won the Marathon race at Athens, Greece, during the Olympian games will never run another race as an amateur. Secretary James E. Sullivan of the amateur athletic union is responsible for this statement, and he has good grounds for it. The trouble is that Sherring has professionalized himself by accepting a purse raised for him by his fellow townsmen at Toronto after his return from Greece. As the purse amounted to something like $10,000, besides a house, Sherring is to be pardoned for being willing to sacrifice his amateur standing.

There is a precedent for Sherring's case in that of Barney Wefers. When the latter broke the world's record for 100 yards he was given a purse by friends in New York. Subsequently the matter was brought to the attention of the A. A. U. and that body decided that accepting money was a professional act, the matter being passed upon by the executive committee. Sherring's case has not yet been brought before the A. A. U., but when he attempts to compete in another Marathon, if he ever does, as he has announced his intention to retire, there will undoubtedly be a protest and the outcome will be that Sherring will be declared a professional.

The C. P. R. will demand an investigation into Saturday's accident in Vancouver when the Chehalis was run down by the Princess Victoria. Captain Griffen was arrested in Vancouver yesterday on the arrival of the Princess Victoria, on a charge of manslaughter. He was released on $4,000 bail and remanded in police court yesterday.

CURTAIN FALLS ON FINAL ACT

Viborg, Finland, July 23.— The curtain dropped this afternoon on the final act of the drama of Russia's first Parliament when, under the spur of the threat of the Governor Rechanberg to use military force to end the session and with troops already converging on the Hotel Belvediere where the meet was held, the assembled members of the Lower House 186 in number, hurriedly adopted and signed an address to the people, which is thoroughly revolutionary in its nature, elected a perpetual executive committee headed by Paul Dolgorouikoff, vice-president of the House to carry on the work of liberation, and adjourned amidst characteristic Russian embracing and kissing.

"To the people from their popular representatives. Citizens of all Russia.

"The government promises to convoke a new parliament seven months hence. Russia must remain without popular representation for seven whole months, at a time when the people are standing on the brink of ruin, and industry and commerce are undermined. When the whole country is seeting with unrest and when the ministry has definitely shown its incapacity to do justice to popular needs.

"For seven months the government will act arbitrarily, and will fight against the popular movement in order to obtain a pliable subservient parliament. Should it succeed however, to completely suppress the popular movement, the government will convoke no parliament at all.

"Citizens, stand up for your trampled on rights, for popular representation, and for Imperial parliament. Russia must not remain a day without popular representation. You possess the means of assuring it. The government has without the assent of the popular representatives no right to collect taxes from the people nor to summon the people to military service. Therefore you are now the government.

"The dissolved parliament was justified in giving neither money nor soldiers. Should the government, however, contract loans in order to procure funds such loans will be invalid without the consent of popular representatives.

"Parliament has been dissolved by Ukase of July 21. You elected us as your representatives and instructed us to fight for our country and freedom. In execution of your instruction and our duty we drew up laws in order to insure freedom to the people. We demanded the removal of irresponsible ministers who were infringing the laws with impunity and oppressing freedom. First of all, however, we wanted to bring out a law respecting the distribution of land to working peasants and involving the assigment to this end of crown appendages, monasteries belonging to the clergy, and compulsory expropriation of private estates. The government held such a law to be admissable, and upon putting forward its resolution regarding compulsory expropriation parliament was dissolved.

SCRANTON TRAGEDY

Scranton, Pa., July 23.—A terrible tragedy occurred in the Hillside home yesterday, when an insane patient killed two other inmates and mortally wounded one of the keepers. The murderer is Ignatius Krewsep, a deaf and dumb Pole, who was given work in one of the wards with two women, also insane patients. Mrs. Ann Golden, a widow, aged 50 years, and "Missouri Ann" Van Allen, aged 58 years. During the absence of Keeper Richard Davies, the insane man secured an amputating knife, with which he stabbed Davies and the two women. Floyd Beemer, son of the superintendent knocked the knife out of the madman's hand. Both women died soon afterwards.

SOLDIERS AND POLICE FIGHT BLOODY BATTLE

Lisbon, July 23.—In a battle last night between the men of the Fourth Royal Portugese Infantry Regiment and the municipal police of Lisbon, twelve persons were killed and thirty five wounded. The engagement resulted from the arrest by the police of two infantrymen of the Fourth Regiment, who were taken into custody for having committed slight offences. The arrests were made in the street and the policemen tried to lock them in the Central police station.

When word had been received of what had been done the regiment turned out and double-quicked to the police station, carrying rifles and cartridge belts.

The soldiers, from what shelter they could find in adjacent buildings, commenced firing into the police station, while the police responded with their revelvers. Unable to obtain the surrender of their comrades by this means of attack, the soldiers attempted to rush the police station. While thus exposed many soldiers were killed and wounded.

Finding their efforts futile in forcing an entrance the attacking forces withdrew and dispatched a portion of their number to bring artillery with which to bombard the police station. In the meantime a continuous rifle fire was kept up.

The military authorities were notified of the proposed use of the artillery. Two regiments of infantry and a squadron of cavalry were ordered to the scene. The members of the Fourth Regiment were at first disposed to give battle to this contingent but finding themselves greatly outnumbered, reluctantly retreated to their barracks.

The wounded were cared for in the military hospital and the bodies of the killed placed in the station house. The military authorities will make an investigation.

"LUCKY BALDWIN IS NOW IN MANITOBA

For two months the famous E. J. ("Lucky") Baldwin, of California, has been living in Fort Rouge, says the San Francisco Call. He is suffering from palpitation of the heart and the doctors refuse to allow his friends to see him because they feared the agitation would be harmful.

Elias Jackson Baldwin, for years one of the most noted figures on the race tracks of America, was sent to Canada because it seemed impossible for him to recover while living in his native state of California. The excitement of life on his stock ranch near Los Angeles was too great for him and dragged him down continuously.

"I'm only in this country so that I can get back to New Orleans in the fall to see my horses run," said Mr. Baldwin. "I'm here for a rest, Dr. Pease says, but I'm more inclined to think that he marooned me to a desert island," he continued. "I never see any friends, for although several have called they have been refused admittance. It hurts me badly to see them turned down, but there is no help for it if I want to get back to New Orleans."

DESPERATE LOVERS

Toledo, Ohio, July 24.—The dead body of Mamie Wilson, 19, and the unconscious body of Oscar Bremneman 19, were found lying side by side yesterday in the hay mow of a barn on the Wilson farm in Van Wort county. The girl had taken half the contents of a bottle of chloroform, and the young man had taken the remainder. He will recover. A letter written by the girl to her parents stated that she and her lover had resolved to die, so they could be in paradise together.

DEATH OF AGED FINANCIER.

Russell Sage, the aged financier, died at his home in Lawrence, Long Island, yesterday. The immediate cause of his death was heart failure.

BY-LAW RECEIVES SECOND READING

Special Meeting of the Council Will be Held on Saturday Evening Next

After Paying Bills City Should Have in the Neigborhood of $3,500 Left Over for Use

Ald. Campbell introduced his electric light by-law last evening in accordance with his notice of a week ago, and same received its second reading last evening. The by-law provides for the borrowing of the sum of $35,000 by the municipality for the purpose of installing and maintaining an electric light plant in the city of Ladysmith. It is quite a lengthy affair, and is, of course, subject to changes when taken up in committee, which will occur on Saturday evening next, when a special meeting of the councilmen will be held for this purpose. The clause dealing with the length of time for which the bonds be given, called for some discussion last evening, Mayor Nicholson, explaining that the City Clerk and himself had gone into the matter, and ascertained that the greater length of time for which the bonds were issued the less yearly interest would have to be paid. For instance, if the loan was made for a 30-year term there would be a saving of something over $600 in interest yearly to the ratepayers. The by-law also provides that at the expiration of five years a portion or all of the debentures may be redeemed by the city after having given sufficient notice to the holders thereof, this notice being deemed sufficient if advertised in the Weekly Gazette four issues.

According to the by-law in force regarding the introduction of new by-laws, the same may receive its first and second reading at the meeting at which it is first brought up. In order to rush matters along as fast as possible, the council last evening asked for a second reading of the proposed by-law, and decided to hold a special meeting on Saturday evening at 8 o'clock, when same will be taken up clause by clause, and whatever changes, necessary, made. It can then come before the regular council meeting on Monday night and be confirmed. After that it will have to be advertised for a term of ten days, before being submitted to the ratepayers to vote upon.

There were no communications read last evening. Amongst the bills to be paid by the city, was one from Mr. Marshal Bray, receiver for the town of Wellington, in which Mr. Bray asked that he be paid the sum of $300 for certain hose which the city of Ladysmith had purchased from him, the hose formerly belonging to the City of Wellington.

In connection with this bill Mayor Nicholson explained that he had been promised by the government that the latter would help the city to the extent of $500 in this matter, and upon his recent trip to Victoria, His Worship had again interviewed the officials and they had forwarded a check the same day to Mr. Bray for $500, thus leaving a balance of three hundred dollars for the city to pay, as the original price for the hose agreed upon was $800. The bill, amongst others, was referred to the finance committee to be paid if found correct.

In the road foreman's report was a statement of the amount which the new drain on First Avenue and Kitchener streets had cost, the bill amounting in all to $368.65. Following this was a report that Mr. T. Gould is again complaining about drainage. This time he says that the drain issuing from Hop Lee's store must be covered up, as it is running in front of his place. One of the aldermen was of the opinion that Mr. Gould had cost the city enough already, without making any more complaints.

The street foreman also reported that two of the drains complained of at the previous meeting by the sanitary committee had been repaired by the owners, and the owners of several more have promised to attend to them at once.

At a previous meeting some of the aldermen had asked concerning the finances of the city, and consequently for last evening City Clerk Stewart had prepared a rough estimate of the available funds belonging to the city after all debts, such as school salaries, cost of introducing the by-law for electric lights, proposed street work, etc., had been paid. It is estimated that the city will have in the neighborhood of $3,500. When it was ascertained that this amount would be available for further street work if necessary, the question of employing the stumping machine for work about the city was discussed, and it seemed to be the general opinion that the machine should be employed, provided the owner can complete his present contracts soon enough to commence work here this season.

Those present at last night's meeting were: Mayor Nicholson, Aldermen Uren, Tha, Campbell and Patterson.

HOSMER COAL MINES

The C.P.R. are commencing operations upon their coal property at Hosmer in earnest and it is expected that a large sum of money will be expended at that camp during the next two years in opening up the coal seams and getting in readiness to ship coal and coke, says the Fernie Free Press. There is now a force of fifty men at work under the superintendence of J. Brown. The work so far has been confined to clearing the ground near the depot and clearing for a road leading back to the mine a mile distant, due east.

The contract for the erection of several buildings has been awarded to Broley Bros., of Fernie, and Mr. G. Broley now has a force of fifteen men at work. The contract includes the erection of an office building, a warehouse, five cottages, a boarding house and a stable.

A tunnel 3,000 feet in length will be driven to tap the seam. It is understood that the coal will be handled from the mine's mouth to spur tracks 1,200 feet distant by means of tram lines. An air compressor is expected shortly to be used in opening up the tunnel.

OPERATOR SUICIDES

South Berwick, Maine, July 23. — The unnecessary setting of a danger signal against a freight train at the local station of the Boston & Waine railroad was followed to-day by the discovery that Lawrence Fairfield the night operator was dead at his post. A revolver was clutched in his right hand and there was a bullet wound in his head. It was believed at first that he was the victim of foul play, but an investigation satisfied the coroner that he had committed suicide. The police are of the opinion that the operator set the red light to prevent the possibility of accidents.

EACH SHOT A FATAL ONE

Nanaimo, B.C., July 23.—

Yesterday afternoon the remains of the murdered girl had been seen by such of her friends as could bear the ordeal and other sympathizing citizens at Hilbert's undertaking parlors. The autopsy conducted by Dr. L.J. O'Brian was then made. After a careful examination of the body and by tracing the course of the ball from where it entered the skull at the top of the head it was foundby the surgeonlying under the heavy muscles of the neck, having passtd through the thick part of the skull, the base, which had retarded the speed of the bullet. The other two shots, the one fired into the side and the other one into the forehead were traced in their course, but had in both cases passed through, the one through the skull, from the forehead passing out below the jaw. the other entering one side of the body near the waist and passing clear through. No traces of the ball in either case was found, except its course through, very likely these balls have been found or will be by a further search of the room where the murder occurred. The ball recovered is thought to be a 38 calibre, but has, or will be turned over to the police, as to whether or not it fits the revolver found in the accused's room cannot yet be said. Doctor O'Brian states that either one of the three shots fire were of a fatal character, and death would have been almost nstananeous from either one of the three, so two of them must have been fired in to the body of the dead or dying girl.

As to what occurred after the girl's death no opinion was given by Dr. O'Brian as such information is for the courts. In any case it is a comfort to know that an instant after the one of the shots was fired the victim must have been unconscious, and dead within a few moments

Little to Add.

But little can be added to the story told in The Herald of Sunday morning of the foul murder committed at South Wellington on Saturday afternoon. The prisoner, Robert Stiles Featherstone was arraigned yesterday yesterday morning before police magistrate Yarwood and was remanded until after the holding of the inquest. The inquest will be resumed by the jury that was empannelled at South Wellington last Saturday, on Thursday in Nanaimo, and the verdict of the jury will decide what will be done next. If the man now under arrest is charged by the jury with the crime he will be held for trial before the assizes, to be held here very likely in October.

He is now in the Provincial jail, closely watched by Officers Stephenson and Cassidy. The prisoner will not talk of anything that occurred on Saturday afternoon. He looks wild and haggard, as though he had at last realized his condition. It is now stated that Featherstone had on one occasion seen Miss. Dalton since he had been working at South Wellington, by chance she was at the mill with her father who, is watchman there, and was by him introduced to Featherstone, with whom she exchanged a few words. He had never been at her home. He is stated to have entered the house abruptly of another family in South Wellington and asked where Miss. Dalton lived. He was flourishing a loaded revolver at different times through the day, and one remarkable feature of the case is, why was he allowed, a drunken, raging brute, to roam around the village with a loaded gun? That no more evidence is obtainable of the shots that were fired except such as already published is explained by the fact that the Dalton's nearest neighbors were away from home, and in any case shooting at a target is frequently done in the village so the shots would not if heard, arouse the people to the same extent they would if it were uncommon.

—o—

About 38 persons were killed and more than that number injured as the result of a head on collision between a through easthound passenger train and an extra freight near Rockingham, North Carolina, four miles west of Hamlet at 8:30 o'clock yesterday morning.

BOWEL COMPLAINT IN CHILDREN

During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy as it promptly controls any unnatural looseness of the bowels. For sale by Ladysmith Pharmacy.

NOTICE.

I have taken over the scavenger business lately handled by M. Campbell and am prepared to do work in this line in first-class shape. Leave orders for heavy team work, scavenger work, etc., with Messrs. Blair & Adam. Also any complaint regarding scavenger work will be attended to if laid at this place.

ROBERT CALLANDER.
Ladysmith, B.C.

WIRE WOUNDS.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until after three weeks, the sores have healed, and best of all the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

24. "God Save the King."

The West end Lawn Tennis club are holding a tournament in mixed doubles, a set being decided each evening. H. Johnston and Miss G. Bate last night won from Mr. Middleton and Miss M. Bate by the score of 6-3, 6-5.

A special despatch to The Herald last night from Seattle states that Gans received the decision over Holly after twenty rounds of the fiercest fight ever seen in that city.

NANAIMO B.C.

Mrs. McIntyre, a resident of Northfield was brought into the Hospital yesterday afternoon in a critical condition. She is to undergo an operation today.

J. E. Evans and wife of Vancouver returned home yesterday after a pleasant visit with relatives on Selby street.

BIRTH.

In this city, on Monday, July 23, the wife of Mr. W. Edmunds of a daughter.

Edward Mulholland, who was operated on at the City Hospital last Wednesday is getting along as well as can be expected.

The first mate of the steamer Wyneric, which is in port taking aboard sack coal, was taken to the hospital Sunday suffering from Panama Fever.

A story has been going the rounds in the city that the Nanaimo Saw mill Company were selling, or had sold out. We have Manager Coburn's authority for saying that it is a canard only, and not a shade of truth in the story.

All of the aldermen were in their seats last evening when Mayor Planta called to order the regular meeting of the City Council.

The minutes of the previous meeting were read and on motion adopted.

A communication was received from F. Gordeaur, Deputy Minister of Marine and Fisheries as follows:

Sir.—Applications has been made to this Department for a grant of foreshore of lots four, five, six and seven, and eight, block 51, in the harbor of Nanaimo, B. C..

I have to request you to be good enough to examine into this matter and inform me whether there are any objections, so far as you are aware to the grant as applied for being made.

I enclose herewith a description and plan of the foreshore alluded to, which you will please return to me with your report.

The foreshore referred to, explained Mayor Planta, was opposite the Nanaimo Lumber Company's sawmill.

Ald. Barnes moved that the communication be received and filed and left with the Street committee for their decision.

Ald. Barlow seconded and the motion carried.

From Thos. Dobeson, proprietor of the Nanaimo Foundry, a communication was received as follows:

Gentlemen.—

For the purpose of affording additional protection from fire, I wish to have a hydrant placed in the Foundry yard, recognizing the fact that it is in a measure for my private benefit, I make the following offer. I will furnish and lay the pipe from the position in the yard where the hydrant will be placed to the water main on Comox Road, and will also supply the valve for the connection with the main, the valve to be connected with the main under the direction of your Manager,

I am under the necessity of making this request on account of the sparks from the sawmill floating over my property during the dry season, there is danger from this source. In this connection I wish to say that the manager of the sawmill is doing his best and using every precaution to prevent accident from fire, and I consider it my duty to do all I can to second his endeavors.

I purpose placing the hydrant in such a position in the yard that it may be available in any emergency in either the foundry or sawmill property. Trusting this matter will receive your favorable attention

Yours Respectfully,
THOS. DOBESON.

Ald. Barnes moved that the communication be received and referred to the Fire Wardens committee.

Ald. Hodgson did not know whether the matter was in the jurisdiction of the Fire Wardens or not. He thought the question should be dealt with by the Water Committee.

Ald. Barnes amended his motion to include the Water Committee and the motion carried.

From the Chief of the Calgary Fire Department informing the council that the next annual convention of the Pacific coast Fire Chiefs was to be held in Calgary on August, 28 to 31 and requesting the presence of the Chief of Nanaimo Fire Department.

The matter was left in the hands of the Fire Wardens.

A communication from the Atlas Fire Insurance Company was received informing the council that Mr. F. G. Peto was the Company's representative in Nanaimo and asking for a share of the city's business.

The communication was referred to the Finance Committee for action.

The Pound Keeper reported for the past two weeks three strayed animals impounded.

Manager Mullett reported the expenditure for wages for the week ending July 14th, 1906 was as follows:

Water Works con.	$ 145 00
Water works gen. repairs .	24 50
Wallace Street Sidewalk ...	27 50
Flushing drains, etc., ...	48 75
Total	$ 245 75

He also reported the work of constructing a three inch main on Haliburton street complete. The estimate was $500 and the actual cost was $403.75.

The expenditure for wages for the week ending July 21st were as follows:

Water works con.	$ 112 50
Waterworks gen repairs. ...	10 00
Streets, drains etc., ...	57 12
Total	$179 62

Both reports were received and filed.

Ald. Dick moved that Needham street be graded and culverts be constructed where necessary at an estimate cost of $500.

Ald. Handlen seconded and the motion carried.

Ald. Kirkham moved that a four-inch wooden stave pipe be laid from Winfield Crescent to the Western Fuel Company's shipping wharves for the purpose of supplying vessels with water and improving the service for fire protection at that point in the city.

Ald. Barlow seconded the motion, which was passed.

Ald. Dick moved the following resolution which was passed unanimously, in reference to the noxious weeds growing in the city limits:

Resolved, that the City Clerk be hereby directed to give notice to the owners or occupiers of any land in this city, upon which any noxious weeds (as defined in clause 1 of the Noxious Weeds by-law, 1898) are standing or growing, to cut and destroy the same as provided by the Noxious Weeds, By-law, 1898.

The City Clerk was instructed to ask the government agent to draw the provincial authorities attention to the large number of noxious weeds on the lands adjacent to the city limits.

Ald. Kirkham asked for a three weeks adjournment of the further consideration of the Water Agreement By-law.

The request was granted.

In introducing a by-law to fix the rate of taxation on the Real Estate of the city of Nanaimo for the year 1906, Ald. Barnes remarked that the rate for school purposes had been risen from two to five mills on the dollar. This increase was made absolutely necessary on account of the action of the provincial government in reducing the school grant to the city. Raising the taxes was the only way to meet the expenses of the city schools.

Mr. and Mrs. William Hughes, Nicol Street are called upon to mourn the loss, by death of a second daughter within the space of a few months. They received word yesterday of the death of their daughter, Mrs. G. Clair, the sad event occurring on Sunday in Calgary, Alberta.

The deceased lady was the fourth daughter of Mr. and Mrs. Hughes, and was known by her many Nanaimo friends as Nellie. She left this city about six years ago, and after her marriage removed to Calgary, where she has resided up to the time of her death, which has occurred at the early age of 23 years.

She leaves to mourn her loss a loving husband, one child aged 18 months, her parents, Mr. and Mrs. William Hughes, four sisters and a brother. Her sisters are Mrs. T. Martin of this city., Mrs. Henry O'Connel, Wellington, Mrs. Sid Dawson, Mr. Sicker, and Mis Sarah, who lives with her parents, and her brother William.

Sunshine Furnace

You can shake down a "Sunshine" furnace without getting covered with ashes and dust—has a dust flue through which all the dust and ashes escape when you shake down the fire.

This heater is so easily regulated and operated, and so clean, that it makes the entire household bright and genial.

Sold by all enterprising dealers. Booklet free.

Mr. and Mrs. A. McClellan returned to Ladysmith on the train this morning.

The S.S. Joan was obliged to tie up at the public wharf last evening owing to the fact that the Japan occupied the space usually taken up by her when in port at the Transfer wharf.

Yesterday, Mr. J. Wharnock, as agent for the Western Fuel Co., sold three sections of land situated on Thetis Island to Mr. M. Burchel, of that island. Mr. Burchel owns the land surrounding his recent purchase, and secured the latter as an extension to his estate.

The Annual Sunday School Picnic, of the Presbyterian congregation will take place on Saturday, the 28th inst. Fearing the risk of a railway journey with so many children, they will hold the pic-nic across the bay, leaving the boat-house in launches at 10 o'clock a.m.

None Better-Capital & Nugget Cigars

Fire Chief Smith called the brigade out for practice last evening at 7:30. While good time was made in getting a stream of water playing on buildings on High Street, below First Avenue, still the boys might have been quicker, and would have been had there been a real fire. As it was, some of them saw the chief strolling leisurely up the hill before the bell sounded, and immediately became suspicious, with the result that only two or three were on hand to help the Chief down the hill with the reel. On reaching First Avenue, however, they made up for lost time, and a good practice resulted.

Today's Colonist says: Two pupils of the Victoria High school who passed the matriculation examination in the McGill College have received additional honors. J. LeRoy Laidley has been offered one of the seven exhibitions in McGill as a result of the brilliant showing made at the examination. The exhibition only goes to those making over 75 per cent. and as Mr. Laidley has accomplished this he has been offered the exhibition, which brings from $100 to $200 per annum. The other scholar who has been signalized for special mention is Nelson King, who ranked third in the examination. This pupil has been offered a scholarship in McGill amounting to $150 for two years. The successful scholars have not yet accepted the offers, but it is anticipated that they will do so.

Minard's Liniment cures Cold, etc.

The LeRoy Laidley mentioned in the above is a brother of Miss Laidley, who recently accepted a position on the local teaching staff.

CHAMPS WHO HAVE DROPPED FROM SIGHT

"Champions come and go," said an old sport the other day, and after a moment's reflection, one must agree with him. Take all the fellows who are at the top of the heap today, and ten years ago none of them were even heard of, and if they were they were of that preliminary type that battle so hard for recognition and receive so little for it.

Ten years ago James J. Corbett and Bob Fitzsimmons were squabbling and keeping the daily papers filled with columns of matter regarding the heavyweight championship, and live, but do live, and we have a notable instance of the fact in Chicago today. Six years ago I removed the stomach of Mrs. Hausen, and she is living, well and hearty today. Of course it was necessary to make certain intestinal connections to sustain the internal organism, but the stomach was entirely removed."

MAY MINE UNDER STREETS

Leadville, Col.—The Colorado supreme court held that the soil under the streets of the city does not belong to the municipality. In a suit in which the City of Leadville sought to enforce a claim to the mineral lying under the streets and alleys the court has decided adversely to the city. The defendants, the Bohn Mining Company, the Coronado Mining Company and others, had been mining under the streets and the city objected. The decision is contrary to the rulings of the supreme court of Illinois and other Eastern states.

HORSE DIES OF GRIEF.

Middletown, N.Y.—Orrin Rice, who lives near Rock Hill, Sullivan county, purchased a horse from a man in Monticello. When taken to its new home, eight miles distant, the horse could not content itself with the new surroundings and pined for the old farm where it had been brought up. It lost flesh and finally became ill. The homesick horse finally escaped. Mr. Rice discovered the tracks in the morning, followed them, and when within a half-mile of the former home found the horse dead at the roadside.

MODEST CLAIMS OFTEN CARRY MOST CONVICTION

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not boast of what this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will possibly cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by The Ladysmith Pharmacy.

Ask for Capital and Nugget Cigars

SPORT ITEMS

Chicago.—A man can live without a stomach. So can a woman. This declaration is based upon the authority of Dr. Carl Beck, head of the department of surgery in the North Chicago hospital. Dr. Beck says: "Persons without stomachs not only can Sailor Tom Sharkey was just coming out of the fistic incubator and being carefully groomed by Tom McGrath and "Spider" Kelly. Kid McCoy and Dan Creedon were then, too among the top notchers, and Jim Hall and Peter Mahrer and Joe Choynski furnished food for their deeds in the squared circle. So much for the big fellows, and, mind you, at that time Jim Jeffries had hardly been heard of.

In the middle weight class Tommy Ryan looked the best of the bunch, and Joe Walcott was creating a little havoc himself, although he was several pounds under the scale. Tommy West and Jack Root were some shucks, too.

Among the welters there was so many space forands mentioning all. Mysterious Billy Smith, Matty Matthews, Rube Ferns and that bunch were in their prime, and then came the light weights, headed at that time by the peerless Kid Lavigne, with Earne, Dal Hawkins, McFarland, Joe Gans, Geo. McFadden and others disputing the title.

Just go over that list today, and how many are champions and how many of them would even be able to secure a bout at any of the first-class club? Fitzsimmons, Joe Gans and Tommy Ryan, then you have them all. The rest of them have quit the ring forever, as their sun has set and their money making days are at an end.

And so it will be ten years from now. An entirely new crop of fighting material will be brought forth to amuse the public and furnith arguments as to their ability for the sporting world. The old must make way for the new in the fighting line as well as in every other walk of life. Fighters are but human, even if some people look upon them as brutes.—Denver Republican.

NOTICE.

If you want to sell your chickens for a fair price, bring them to J. X. Smith's restaurant, 1st Avenue.

Try a Province Cigar.

LAUNCHING PARTIES.
