THE LADYSMITH DAILY LEDGER

VOL. 2 THURSDAY June 7, 1906. PRICE FIVE CENTS

EATEN BY DOGS OFF THE COAST OF LABRADOR

St. John's, Nfld., June 7.—Reports from Labrador state that five persons were killed and eaten by savage dogs off that coast during the past winter. These dogs, which have been largely interbred with wolves, have frequently killed people heretofore. One of the victims this winter was a man aged 35, and others were an elderly man and his wife, daughter and grandchild.

OUT IN A FRACAS.

Fort William, June 6.—A party of Hungarian laborers engaged in a drunken fight in a shack here last night all three of combatants were slashed with knives in the fracas. One was stabbed in the groin and will not likely recover. The other two are painfully but not dangerously cut. No arrests are made as yet.

Later particulars of the melee indicate that the stabbing was done by two Italians who had been ejected from the dance and who had lain in wait for victims and attacked them on the street. Two of the Finlanders will die.

ASPHYXIATED BY GAS WHILE IN A WELL.

Winnipeg, June 6.—While working in the bottom of a deep well on a farm northwest of Battleford, three men were overcome by natural gas, and in an attempt to rescue another man fell out of the bucket in the well. The four were dead when brought to the top.

The men were C. Ralph, J. W. Robertson, C. Shoulds and J. McDonald. Considerable earth fell from the top of the well, but there is every indication that the men struck natural gas at the bottom of the well unexpectedly, and were overcome before they could escape.

INSPECTION INVITED

Washington, June 6.—The House Committee on agriculture heard the Chicago Packers today on the Neil Reynolds report regarding conditions in the Chicago Packing houses.

The statement of the packers was made by Thos. Wilson, Manager for the Nelson Morris Co., who said that he was an employee of the Nelson Morris Co., but in this instance he was authorized to speak for all the Chicago Packers.

Commissioner Neil and Dr. A. D. Melvin of the Department of Agriculture were present. Mr. Wilson made a general denial of conducts as set forth. He asked the committee to come to Chicago and spend a week of investigation of conditions. Some of the suggestions made in the report he said, had already been complied with by the packers such as additional sanitary facilities.

There was nothing in the charge that canned meats were boiled in water to "freshen them up."

Mr. Wilson said canned meats is as good after five years, as when at first put up, providing no air got to it.

If air reached the meat it would be spoiled. What the cans were put into hot water for was to soak off the old label, which, he said was an injury to the appearance of looks on sale. He denied absolutely that any diseased cattle or hogs were prepared for food. In every carload of cattle or hogs, he said some were likely to be dead and some diseased. The dead or diseased cattle were sent to the Standard rendering works, which was a very different institution than the Standard Slaughtering Company.

The Rendering Company turned the dead and deseased meat nto grease, which was a product in the manufacture of soap.

HEAVY DAMAGES.

New York, June 5.— A jury rewarded John Delahanty a verdict for the full amount of his claim in his suit for $45,000 counsel fees against Richard Canfield for legal services after district gttorney Jerome's raid on Canfield's gambling house in this city.

LADYSMITH WILL CELEBRATE DOMINION DAY ON JULY 2nd.

At Meeting Held Last Evening Reports From Collecting Committee are Encouraging, and Meeting Decide to go Ahead With Plans For Celebrating

Regatta Will be One of the Drawing Cards, and Already Committee Have Rough Programme Drafted Including Log-Rolling Contest and Other Novelties

Much business was transacted at the public meeting last evening which was held at the City Hall for the purpose of making arrangements for a Dominion Day Celebration in Ladysmith on July 2nd. Committees were appointed, covering the various branches of sports to be held, and everybody was impressed with the necessity of hurrying the matters along as fast as possible, owing to the shortness of time in which to have everything in readiness for July 2.

The collecting committee, through Mr. R. Simpson, reported that while they had by no means canvassed the town they had received the promise of over three hundred dollars. Mr. Simpson stated that besides the mine to be heard from, there were several others who usually subscribe substantial amounts, who had not as yet been approached. On the whole, the committee thought there would be no difficulty whatever in raising a substantial sum for a first class celebration, and expected to raise at least as much as was spent last year.

Following the committee's report, the election of a treasurer was proceeded with, and the name of Mr. H. Macklin proposed, and he was elected unanimously.

In response, Mr. Macklin expressed his pleasure in accepting the office, and stated that he was only too willing to do all in his power to help matters along. Ladysmith had always had a good celebration in the past, and he saw no reason why she should not do so this season.

The election of committees followed Mr. Macklin's address, and resulted as follows:

GENERAL COMMITTEE.

R. Simpson, J. Adam, J. Deeming, J. Ryan, R. Harrup, F. Baby, F. Reynolds, John Cartwright, J. Smith, J. Michek, R. Hindmarsh, J. Davidson, H. Macklin, H. Thornley, W. Haworth, J. Vere, W. Sanderson, E. Jones, E. Barclay, M. Celle, A. Bryden, A. Ellis.

SPORTS COMMITTEE.

R. Hindmarsh, Chairman, Messrs. Ryan, Adam, Deeming, Thornley, Cowan, Vere and Cele.

REGATTA AND FIREWORKS COMMITTEE.

R. Harrup, Chairman, Messrs. Sanderson, Joseph Cartwright, Macklin, Reynold, Bryden, Deeming.

PRINTING COMMITTEE.

R. Hindmarsh, Chairman, Messrs. Sanderson, Weaving, Baby, Thornley.

GROUNDS COMMITTEE.

H. Thornley, Chairman, Messrs. R. Hindmarsh, Ryan, Smith, Waskett, Michek.

MUSIC AND DANCE COMMITTEE.

H. Thornley, Chairman, Messrs. Cele, Tilke, Hindmarsh and Steele.

TRANSPORTATION COMMITTEE.

R. Simpson, Chairman, Messrs. F. Reynolds and Rowlands.

Mr. T. White will be asked to collect subscriptions at the smelter; Mr. F. Hawes will be requested to collect at the wharf, and Messrs. P. Griffin and D. Thomas will be asked to collect at the logging camps; Mr. Griffin to take Camp 5, and Mr. D. Thomas Camp 6.

The printing committee were requested to hurry matters in their line as rapidly as possible, it being pointed out that the printing of envelopes etc., could be proceeded with immediately, as the sooner the celebration is advertised, the better. Envelopes are accordingly being printed today.

Several letters were read by Secretary Adam from various clubs asking what kinds of sports were to be held here, and expressing their willingness to enter. The letters were referred to the sports committee for consideration.

After considerable discussion of plans for the celebration, it was moved and seconded that the meeting adjourn until Tuesday evening next, when all the sub-committees are to hand in a report of their programs outlined and give an estimate of the appropriation which they will require. This programme will be subject to revision by the general committee. It was also understood that the chairman of the different committees hold meetings before Tuesday evening in order to have all the business accomplished possible, and directly after the general meeting last evening, the sports and regatta committees stayed and held meetings.

While but a preliminary programme was drafted by the regatta committee, some of the principal events promise to be excellent drawing cards, and furnish the best of sport. One item, which is always an attraction, will be the 11-paddle canoe race, best two in three heats. Another event will be the 100-yards, championship swimming race. This event will, of course, be open only to amateurs, and will be for the championship of the Island, the prize to be a gold medal.

Upset races, tub races, greasy pole exhibition, a log rolling contest for loggers, swimming races for boys, proposed programme, and it was suggested that an illuminated procession in the evening wind up the afternoon's entertainment on the water.

Before Tuesday evening a programme will be in readiness, and submitted to the general committee for consideration.

INSURANCE COMPANIES SUFFER HEAVY LOSS

Winnipeg, June 6.—An eminent English financier, Mr. A. G. Dent, is here today from San Francisco, where he has been looking into conditions which are so serious from the standpoint of the Liverpool, London and Globe Insurance Co., the affairs of which are in Mr. Dent's hands. When asked as to the company's losses at San Francisco, he said that they were far more serious than at first anticipated and have been generally underestimated. The net loss to the Insurance companies, he estimated at $300,000,000.

The celebrated Englishman has previously visited Eastern Canada and the States, but this is the first time he has ever been to Western Canada. He was very much impressed with the great progress shown, and did not expect to see a city with buildings and streets wearing so metropolitan an aspect. While in the United States, Mr. Dent called at New Orleans, San Francisco, Chicago and New York, at all of which points the company of which he is the head, has branch offices reporting direct to the head office in England. When asked as to the suffering in San Francisco Mr. Dent said it was severe, and that all contributions made were needed. His own Company contributed $10,000. As to the Company's own losses, Mr Dent stated that they had not yet been finally determined, but he would not discuss the effect on the market of the disposal of fire companies assets to meet these heavy losses.

ARBITRATORS CHOSEN

Mr. Davis today informed the Athletic Committee that he had chosen a gentleman to act as one of the arbitrators in the sports grounds question, and the gentleman he names is Mr. J. McClellen. The committee have chosen Mr. F. Shepherd, of Nanaimo, the gentleman who recently reported on the grounds for the committee, and as soon as it can be arranged for these two to meet, they are to choose a third, when the papers, contract, etc., will be looked into, the grounds viewed, and a decision given.

A LONG RIDE.

St Petersburg, June 6.—Capt. Byleff, who left the front in Manchuria shortly after the peace treaty was signed, arrived in St. Petersburg today. He rode the entire distance (about 8,700 miles) in eight months and four days. His horse, an English bred animal, was in good condition when the journey was finished.

The Captain's orderly, who was his sole companion, had a Mongolian mount.

MISS MAY SUTTON WINS

Liverpool, June 6.—There was a fine attendance today when play in the English Counties tennis championship games was resumed. The most interest focussed in the singles match in which Miss. May Sutton, of Pasadena, Cal., met Miss. Sturton of Lincoln. It was a tie in the second round, but Miss. Sutton experienced little difficulty in qualifying in the third round. The crowd thought it was a question as to the margin by which Miss. May Sutton would win. She gave no quarter, and driving and serving with great power triumphed 6-1, 6-1. It is the general impression that the American will retain the national championship. Despite the recent fine form of Miss. O. D. Douglas, who is considered her most dangerous rival In the ladies double Miss. Sutton and Mrs. Hillyard, had a walk over the Misses Sturton and Carter. M. S. Rhodes, of Boston, had for a partner T. J. Sampson of Manchester in the preliminary round of the gentlemens' doubles, and these two won comfortably over the brothers, Hugh and Harry Peace of Liverpool 6-2, 6-0.

LABORERS NEEDED BY THE RAILROADS

One hundred thousand men are needed for railroad construction work, and the lines building new roads are unable to find them. Every road in the Northwest is short of laborers, but the same condition prevails throughout the country, and it is impossible to draw upon any section to secure men for work here.

The Northern Pacific is employing 10,000 men in construction work west of Billings and could use several thousand more if they could be secured. When the Great Northern begins active construction work on its line east of New Westminster to meet the road building west from Midway the same number of men could be employed in Southern British Columbia.

Chicago, Milwaukee and St. Paul officials are practically ready for the commencement of construction work. When the work is under way in this state, at least 10,000 men will be wanted. They will be distributed at points from Seattle to the Idaho state line.

Union Pacific contractors will need at least 7,000 men for the extension to Seattle and the construction of terminals in Seattle and Tacoma. There is a shortage of laborers for smaller railroad enterprises, and the Harriman programme in Oregon will call for extra help.

Roughly computed, railroad men figure that at least 30,000 laborers are needed in this state and British Columbia on lines either now under construction or about to be commenced. This means that the labor shortage in construction work elsewhere in the United States is approximately 70,000.

None of the contractors has suggested a way out of the labor shortage. In other branches of industry employing common labor there is already a shortage that shows men cannot be drafted from that direction.

Hill contractors, first in the field, have collected most of the men they need and are in a better position than the lines which are yet to assemble their forces. Moreover, the Hill lines will not need a force as long as the other roads, and will not feel the labor shortage as keenly as the others.

LOGS SHRUNK CONSIDERABLY

"At least a hundred thousand feet" is the estimate that Mr. J. S. Emerson puts on the shrinkage or loss of logs from the booms while in the custody of Timber Inspector Skinner, pending recent litigation, which resulted all in Mr. Emerson's favor, says Tuesday's World. When queried as to whether he anticipated any difficulty in getting restitution for the lost logs, Mr. Emerson this morning said: "Oh, I don't think there will be any trouble about that. As the government has lost and knows it would lose again I fully expect that the shortage will be made good without any difficulty whatever.

Mr. Emerson also states that he has been using the logs as he required them, until there is now in the hands of the inspector only a small fraction of the logs seized.

COMMITS SUICIDE

Dominion City, June 7.— Robert Wortley Emery, an old resident here was discovered in his house here tonight by his neighbors with the top of his head blown off. Everything points to deliberate suicide, both barrels of a double barrelled gun, having been fired off by a string. He settled in Stuartburn district over twenty years ago, and was well known. He was born near Leicester England.

NO RISK NOW.

New York, June 6.—The announcement that messages were accepted at owner's risk owing to the earthquake and fire in San Francisco is now withdrawn, and the Commercial Pacific Cable Company accepts messages without restraint.

TWO CONVICTS MAKE A DARING ESCAPE

Winnipeg, June 7.—Two prisoners on the way down from Port Arthur to Central prison, Toronto, made a daring escape. There was a large bunch of bad men being taken down by a Provincial bailiff and Joseph Graham and the latter stated to the Port Arthur interviewer, that the escape was well planned. He said The Italian from Port Arthur, who was in charge of the provincial bailiff had been sick on the trip down the lakes, being subject to fits. In some manner his handcuffs were not locked and when the train pulled into Orangeville he jumped out of the window and made his escape. The bailiff at once started out to recapture the man, leaving the rest of the prisoners, thirteen in number in charge of Mr. Graham.

While the bailiff was getting police assistance, a prisoner, who had been taken in charge at the Sault, slipped his handcuffs over his hands and also escaped. The latter prisoner had complained on the trip down the lakes that the handcuffs were hurting his wrists, and upon request the bailiff loosened them a little. On the trip the man managed by some manner to procure a cake of soap, and while the excitement of the escape of the other prisoner was at its height the latter greased his hand and the cuff and had little difficulty in slipping the iron band over his hand. With only one man in charge his escape was easy. No trace of the men could be found.

HORSE-WHIPPED IN HOTEL

Winnipeg, June 7.—A woman created a great commotion in the Queens hotel shortly after dinner last night by calling one of the guests from his room, and then lashing him severely with a horse-whip, while standing in the rotunda, within sight of a large number of people. The story given by the woman is that she had suffered a grievance at the hands of the man, for which the courts of law gave no redress. She had, therefore, taken the advice of her lawyer, who was a witness to the whipping, and taken the law in her own hands. The lawyer not only gave the advice, but, when the man turned on his tormentor, he interfered to save his client.

No information was laid today in the police court.

TRANSPORTATION COM. INTERVIEW MR. G. COURTNEY OF C.P.R.

Mr. Geo. L. Courtney, District Freight and Passenger Agent, for the C.P.R., was a visitor in Ladysmith today, having come up on the S.S. Henrietta from Crofton, at which place he spent yesterday. While here Mr. Courtney was interviewed by members of the transportation committee regarding the celebration of Dominion Day in Ladysmith, and he assurred them that he would do what he could to help the celebration along. Regarding the running of a steamer from Vancouver, with an excursion party aboard, Mr. Courtney thought it might be a hard matter to fix up, as celebration day comes on Monday, and on that date the Joan would be compelled to make her regular trip to Nanaimo. "However," said Mr. Courtney "she might go over to Vancouver from Nanaimo on Sunday night, have there early in the morning with the excursionists and return in time for her regular afternoon trip to Nanaimo from Vancouver. She could then all here and take the visitors back to the Terminal City.

SHOT WOMAN, THEN HIMSELF.

Findlay, Ohio, June 6.—Herbert Ostrander of St. Louis, who has been in this city for some time shot Mrs. Anna McKee this afternoon, killing her instantly. He then turned the revolver on himself with fatal effect. Mrs. McKee leaves three children.

WORK ON WHARF ROAD

Four men are employed on the new wharf road today and it is the intention to increase the force by Monday next, so that work will proceed much faster. Probably about ten men will be engaged by Monday by Foreman Trudell. Some of the larger stumps are being attacked on the Esplanade below the Franklin hotel today, and one or two men are engaged in brushing out a road from near the beach.

MEN LOSE STRIKE.

Montreal, June 5.—The strike of the employees of the Dominion transportation Company ended today in a complete victory for the company, the men accepting the terms, which they refused on Saturday. They struck for $1.75, but go back at the old rate of $1.60.

ATTEMPTED MURDER AT VICTORIA

J. Butler Eires Twice from Ambush at Miss Halewood. Jealously Thought to be Motive

Victoria, B.C., June 7.—(Special).—Fired at twice by a former lover, by the name of J. Butler, while on the way to deliver a message from the Pooley household, Esquimalt road, was the experience of a young lady named Mary Halewood this morning.

Butler was concealed in a thicket, and as the girl passed, he raised his gun and fired twice, none of the shots, fortunately, taking effect.

The frightened girl rushed back to the Work Point Barracks, where she notified the soldiers of the murderous attack, who in turn notified the police.

A patrol of soldiers arrived on the scene of the attempted murder, first, and took the would-be assin in charge. Butler was later taken over by the police, and is now being held on a charge of attempted murder. The trial will take place tomorrow.

In the meantime an investigation will be held and expert opinion obtained as to the man's sanity.

Butler is a deserter of the R.G.A., and it is thought that Miss Halewood's cool reception of his affections rendered him desperate.

Toronto, June 6.—At 10 o'clock thos morning Amos Switzer was discovered in the Niagara river, five hundred feet above the falls. Ropes and poles were thrown to him, but he refused aid.

He was carried rapidly down till he caught on a rock thirty-five feet from the shore and fifteen feet from the brink of the falls.

From there he was rescued at 2:06 a.m. by Patrolman Batts and Fireman Conroy, who went out to him on the fire department extension ladders.

Switzer was brought to Toronto from Sutton, Ont., suffering with nervous trouble, and was placed in the nervous ward of the general hospital here on May 10. He was improving, when he suddenly disappeared on June 1st and the authorities had no clew of his whereabouts. He will be brought back to the hospital.

A CHARMING WOMAN.

It is difficult to guess why it should be so generally regarded as uncomplimentary to speak of a girl as "amiable;" why, any woman should resent the epithet as applied to herself, or reduce from it as descriptive of another, that that other is remarkable neither for beauty nor for brains and is probably without strength of character. The definition of the word as given by standard dictionaries, is "worthy to be loved," and surely nothing can be more desirable in a person with whom one is to live than sweetness of temper.

There are few qualities which go so far to insure the happiness of their possessor, certainly none which makes more for that of other people. King Solomon declared it "better to dwell in a corner of the housetop than with a brawling woman in a wide house." Good humor and tact are the two virtues which do most to smooth the pathway of life, and the latter is rarely perfect unless accompanied by the former.

It is also a singular thing that few people hesitate to confess to a quick temper. "But it is over in a flash," they say complacently. So is a quick knife-thrust or a stinging word, but the harm which lasts a lifetime may be done in an instant, and the consequence of an outburst of temper are often irremediable. There are few harder to get along with, few who do more to upset the peace and comfort of daily life, than those who speak hastily, in the sudden squalls passing ill-temper and who, when they are again in good humor, expect everything to be just as it was before.

HOUSEHOLD HINTS.

Cheap Floor Polish.

Save all the ends of candles, put them in a jar, and melt on a stove, mix with enough turpentine to make a soft paste, and you will have an excellent polishing material for oilcloth, linoleum, etc., which will cost you hardly anything.

To Remove Ironmould. — To one pint of boiling water add half a lemon sliced (no peel) and a good handful of coarse salt. Throw in the article, and boil in a large enamelled saucepan for half an hour, when all traces of ironmould disappear. Rinse in warm water after.

Table Linen.—Table linen should always be washed by itself, and all the stains should be removed before washing. Tea, coffee or fruit stains can be removed by holding the stained part over a basin, then sprinkle it with powdered borax, and pour through boiling water.

Ink Stains.—Ink can be removed from linen by soaking the part in milk, or by sprinkling on salt or lemon juice, and pouring through boiling water while the linen is held over a basin.

Paint Stains. — Paint stains on clothes may be removed by applying a little spirits of turpentine to the stains. Rub the parts very carefully, and afterwards hang the garment out in the air to rid it of the smell of the spirit.

To Clean Bottles.—Finely cut potato parings and ammonia will clean bottles. Another way is to partly fill the bottle with shot and water and shake well.

For Cut Glass.—To preserve glassware and to keep it looking its best, care must be taken in handling, cleaning and polishing.

Wash fine glass as quickly as possible. Standing in water for any length of time tends to take the lustre from its cutting. Put one piece at a time into the water, wash, rinse, and set to dry. If a dish is sticky inside, fill it with luke-warm soda and shake until the surface begins to clear.

PECULIAR AND PERTINENT.

Australia possesses a larger number of churches in proportion to the number of its inhabitants than any other country in the world. There are 210 churches to every 100,000 people in that country. England has only 141 and Russia about 55.

Items in the first great athletic meeting held in China, which took place at Canton, were arithmetic races. Pupils from schools carried slates and pencils, and in the course of the race they encountered a blackboard containing a sum to be solved. The boys were lined up as they reached the goal, and those whose calculations were wrong were then eliminated. The first three left in the line were counted winners.

The first place of worship in western Australia was unique in two respects—the materials of which it was built and also the several purposes to which it was devoted. This remarkable building was made at Perth by soldiers, shortly after their arrival in 1829, and was composed almost entirely of bulrushes. In addition to its uses on Sunday for divine worship, it occasionally served as an amateur theater during the week and during the whole time as a barracks.

FAME'S PATHWAY.

The Sultan of Turkey is far from being an indolent sovereign. He has been described as the "imperial dervict," a designation which is not inappropriate, for he works on an average of 15 hours a day.

Sir Charles Metcalfe, the consulting engineer to the Rhodesian railways, claims the world's record for rapid construction on the railroad above Victoria Falls. Five and three quarters miles of track were laid in 12 hours.

M. Etienne, the French Minister of War, pinned upon the tunic of Lieutenant Latour, who was killed at Lens, the Cross of the Legion of Honor. He gives Latour's three daughters the right of admission to one of the schools of the Legion of Honor, and it is considered a great honor to have been educated in one of them.

HOW TO BREAK UP A COLD.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold is a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by Ladysmith Pharmacy.

Minard's Liniment Co., Ltd.

Gents:—I have used your MINARD'S LINIMENT in my family and also in my stables for years, and consider it the best medicine obtainable. Yours truly,

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of Interior

NEWS NOTES FROM NANAIMO

A. B. Williams, Provincial Game Warden from Vancouver, is in the city.

Mr. Thomas Taylor, an old time Nanaimoite, arrived in town yesterday from Cumberland. Mr. Taylor has disposed of his share in the Cumberland business to Mr. Dwyer.

Mr. Harry Farmer, of Cumberland was a passenger yesterday to this city on the R. P. Rithet. Harry intends residing here in the future, and on Sunday will be found playing third base for the locals in the game against the Victoria Fernwoods.

Mr. and Mrs. Harry Wilkinson are spending a few days in Vancouver. They will return home on Friday.

The Inland Revenue returns for the past month were Malt, $1197.39; spirits, $393.16; tobacco, $62.40; Cigars, $138.00; total $1760.95.

Mrs. E. Shakespeare, Haliburton Street, has been visiting for a week with Mrs. Noah Shakespeare, Victoria. She will return home by the Iroquois this evening.

Miss. Devlin, Strickland street, will leave this morning on a short visit to her sisters who reside in Victoria.

June 15th, should be a red letter day with the music loving public of Nanaimo, for on that date Miss. Olivia Dahl assisted by Miss. Gaia Smith will again appear before a local audience.

Mr. P. B. Freeland, of Vancouver leaves this morning for Crofton. Mr. Freeland is a mining man looking up the mineral resources of the Island.

W. A. Brodwin and wife of Vancouver are in Nanaimo for a day.

Mr. J. J. Bell, Inspector of the Ottawa Fire Insurance Company is registered at the Hotel Wilson in this city. Mr. Bell has about completed a tour which has embraced the whole of Canada, during which he made an inspection of all the risks held by this company.

Rev. Flora Heckman of Seattle will lecture in the Spiritualist Hall on Sunday evening, June 10th and Mrs. Goodkind of Tacoma will give spirit messages on the same evening. A collection will be taken up at the door.

With a new road along the Esplanade and a new wharf in a convenient place the probable draining up of a large acreage of land surrounding the city, the erection of Dominion Government post office and Customs house, which is assured and perhaps a new $8,000 Oper aHouse, Ladysmith should look up and be cheerful.

The Sentinel Lacrosse team of this city have accepted the challenge of the Vancouver Junior team to a game of lacrosse and have written to that effect. The local boys are requested to turn out every night to practise so that they may be able to give a good account of themselves when they meet the famous terminal City twelve.

Six years faithful service as assistant to Mr. Woods in the E. & N. Railway station in this city has earned for Joe Martin a well earned promotion, having been appointed Station Agent at Wellington.

Joe's place here will be taken by Fernie Wilcox, who for the past six months has been stationed at Ladysmith.

INSTALLATION OF OFFICERS.

At the regular meeting of Oliver Lodge No. 2, Daughters of St. George three new members were initiated in to the order, after which the District Deputy Mrs. B. Pollard, assisted by Mrs. M. A. Hodgson as Grand Conductor installed officers for the ensuing term.

W. P. P.—Sister M. A. Hedgson.
W.P.—Ellen Clark.
W.V.P.—Sister Jane Bailes.
W. F. Sec.—Sister B. Pollard.
W. R. Sec.—Sister B. Wagstaff.
W. Treas.—Sister E. A. Freeman.
W. 1st Con.—Sister E. Crutchley.
W. 2nd. Con.—Sister W. Hope.
W. I. G.—Sister M. Jolley.
W.O.G.—Sister L. Stonehouse.
Trustees—Sisters Hodgson, Snowden, Hope.

After the installation coffee and cake was served and a very pleasant evening was spent.

VIEWS OF 'FRISCO.

At the Opera House last evening a large and well satisfied audience saw San Francisco asit looks now. Splendidly taken photographs of the city of ruins thrown on a large screen and so natural that those in the audience familiar with San Francisco as it was before the great earthquake and fire, readily followed the scenes, shown from point to point as the illuminated screen caused the scenes of destruction to pass along. The pictures cannot be described, they must be seen to be appreciated. At the close of the regular entertainment pictures of the C.P.R. robbers were thrown on the scene, the captors also and the bloodhounds brought from Nelson to run the fugitives down but found on their arrival that the Indians could track a little themselves. The entertainment will be repeated tonight and those who did not see the pictures last night will do well to spend a couple of hours at the Opera House tonight. As showing the satisfied feeling of the audience last evening there was a liberal round of applause at the conclusion of the entertainment.

DEATH OF MRS PRINGLE.

Mrs. Pringle, wife of Mr. William Pringle, died on Tuesday night at Wellington after a illness of only a week's duration.

The deceased lady, who was a native of Hawick, Scotland, had been a resident of this district for the past 32 years.

She leaves a husband, three daughters, Mrs. Craig, of Vancouver, Miss Pringle, residing at Fernie and Miss Bella, living at home, and a son, Mr. Robert Pringle, who resides in this city.

The funeral will take place on Saturday at 2 o'clock from the family residence at Wellington to the Nanaimo Cemetery.

FORMER NANAIMOITE KILLED

Word was received in the city yesterday from Ravensdale, Washington, to the effect that Heywood Milley, a former resident of this city was killed in the Lawson mine at Black Diamond on Monday, May 28th.

The unfortunate man, who was only 21 years of age met his death by being struck by a timber car, while in the act of lowering timber down a chute, his injuries being so serious, that he succumbed to them the same night.

Mr. Milley, while in this city lived at Snowden's boarding house, and at times worked in the Protection and Brechin mines. He was an exemplary young man and much respected by all who had the pleasure of his acquaintance.

His parents live in Springfield, Illinois, and he has a brother residing in Alberta.

WORK IN NANAIMO COLLIERY

Superintendent Stockett of the Western Fuel Company, in answer to an enquiry from The Herald Office last evening, regarding work in the mines stated that there would be work all of the week unless it might be Saturady, which being payday, it is not yet decided whether the mines will work that day or not. The Titania is expected back the last of the week. Other ships will be along next week, but as yet it is not known just when. Mr. Stockett states that the outlook for the summer seems favorable and referring to the steady work in May said he hoped the Company would be able to have work as continuous during the season, but this he qualified by stating that he could not speak positively on this point as unforseen delays in shipments might occur. He, however, expects a fairly good season, and of course, with the coming of the fall trade, there should be no question about the demand for Island coal. The local demand has largely increased of late and that there will be a continued increase in this demand is certain, for with a half a dozen railways heading this way and the coast shipping so largely on the increase it will not be many seasons until the local demand will be very large.

STEAMER COMOX CHARTERED.

The officials of the English Bay Athletic Club have chartered the steamer Comox to run an excursion to this city on Saturday June 16, in connection with the Swanson-Matsuda wrestling match. In referring to the match Tuesday's Vancouver Province says:

Several times since last February, when Sinclair Swanson of Nanaimo won on a duke by a rolling fall from M. Matsuda, the well known local Japanese wrestler, these two exponents of the grappler's game had been matched for another contest. But something has always happened to cause a postponement of the meeting of the occidental and oriental experts, who are undoubtedly very evenly matched.

Now they are matched again. This time the arrangements have been made by the English Bay Club, and the contest promises to go through without any hitch this time. It will take place in Nanaimo, on Saturday, June 16th. The men will wrestle catch-as-catch-can style, pin falls to count. An effort is to be made to get Dr. R. F. Roller, the physical instructor of the University of Washington to come to the Coal City to act as referee for the bout. He consented to act in that capacity for a previously arranged date for this city which had to be postponed owing to an accident which Matsuda sustained during training just a few days before the contest.

J. R. Glasscock, a university student of California is registered at the Windsor. Mr. Glasscock was a guard at SanFrancisco, being a cadet at the university. He usually spends his vacation in the woods with survey or timber cruisers and thought this season he would visit Vancouver Island for a change. He will leave for Cumberland to join the Alexander McEachern timber cruising party.

LITTLE TOTS LAID AT REST.

Side by side in the beautiful white casket, the mortal remains of little Mary Jane Jones and Gwennie Rogers were laid to rest in the Nanaimo cemetery yesterday afternoon in the presence of many sympathizing friends.

The sad and lonely death which overtook the little ones on that January night over a year ago, caused many of the residents of the city to journey out to the cemetery and lay a wreath or boquet of flowers on the grave of the little children as a token of their respect and sorrow for the tragic death which overtook them.

The funeral took place from St. Lukes church, Northfield, which was crowded with sympathizing friends. The funeral services, which were very impressive, were conducted by the Rev. Silva White and Mr. Willet, of East Wellington.

The following Sunday school scholars acted as pall bearers. Annie Fern, Olive Miller, Emma Cottle, Gertrude Duggan, Bessie Clarkson, and Maggie McBroom.

The following is a list of the floral tributes, which were many and beautiful:

Globes—The family, Mrs. Fearn and family, Mr. and Mrs. Adam Stewart, Mr. and Mrs. J. Clarkson, Mr. and Mrs. John Dand, Mr. and Mrs. D. McIntyre, Mr. and Mrs. J. Parrot, Mr. and Mrs. J. Mathews, Mr. and Mrs. S. Swanson, Mr. and Mrs. Fritsch, Miss Jennie Andrew.

Wreaths—St. Lukes Sunday school, Mr. S. Jones, Mr. and Mrs. A. C. Wilson, Mr. and Mrs. C. Stevens, Miss V. Miller, Mr. and Mrs. W. Wilgress, Mr. and Mrs. Austin Vatter, Mrs. Stewart, the Misses Annie, Gertie and Bella Duggan, Mr. and Mrs. C. Wilgress, Mr. and Mrs. W. Hughes, Mr. and Mrs. H. Hugh, Mr. and Mrs. J. Perry, Mr. and Mrs. E. J. Bird.

Crosses—Mrs. T. Wobley, Mr. and Mrs. D. Rogers, Mr. and Mrs. M. Cottle, Mr. and Mrs. C. Miller, Mr. and Mrs. P. Fox, Mr. and Mrs. C. Reinhart, Mrs. R. Drew, Mrs. and Miss Duggan, Mr. and Mrs. John Wilson, Miss Nellie Drew.

Boquets—Mrs. T. Davis, Miss. E. Cottle, Master R. Stewart, Miss. O. Miller, Miss. M. Ross, Mr. and Mrs. J. Crutchley, Miss. A. Meredith, Mr. and Mrs. M. Whalen, Mr. C. W. Jones and Miss. Rosina Jones, Mr. and Mrs. A. Wilton, Master Geo. Drew, Miss. Pascrue, Mr. and Mrs. W. Rivers, Mr. and Mrs. E. Doward, Mr. and Mrs. T. Field, Miss. Bessie Clarkson, Mr. and Mrs. H. Brand, Miss. D. Parrot, Miss. M. McBroom, Mr. and Mrs. J. McDavitt, Mr. and Mrs. T. Davis, Mr. and Mrs. E. Davis, Mr. and Mrs. F. Goss, Mr. and Mrs. Johnson.

Heart—Master Walker, Eddie and Clarence Wilgress.

Anchor—Miss. L. Wilgress.

Crescent—Mr. and Mrs. Lot. Lake.

Spray—Mrs. Jas. Sloan.

MINNESOTA TORNADO.

St. Paul, Minn., June 6.—A special from North Branch, Minn, says a Tornado passed about one half a mile east of here tonight tearing up trees and doing heavy damage to farm buildings. It is feared that several lives have been lost. It is so the storm has destroyed many farm houses near the town.

Mrs. Myram and Benjamin Lagoo were injured. Physicians are following the tornado. The village of Wyoming was in the path of the storm. The house of Mr. Funk at that place was destroyed and some members of his family were hurt.

AFTER POINTERS.

Newcastle on Tyne, June 6.—The public ownership commission of the National Civic Federation of the United States today inspected the plants of the Gas and Electric light and Supply Co., of this city, and will inspect other places and establishments in Newcastle and vicinity tomorrow.

GLASS GLOBES
When you want a Glass globe see that you get the globe with the rubber ring on it, as it is the only kind that can keep the water out — the globes without the rubber ring cannot keep out water, you can see that by examining them. The artificial flower that is put into the globes with the rubber rings, is guaranteed to be the best, and if you want a globe with a Rubber Ring, call at Mrs. T. X. Jones, agent for

Ogilvie Flour Mills Company Limited are the only millers in Canada whose Flour is purified by the Electric Process

THE VERY BEST REMEDY FOR BOWEL TROUBLE
Mr. M. F. Burroughs, an old and well-known resident of Bluffton, Ind., says: "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel trouble. I make this statement after having used the remedy in my family for several years. I am never without it." This remedy is almost sure to be needed before the summer is over. Why not buy it now and be prepared for such an emergency? For sale by Ladysmith Pharmacy.

Smith, Fotos,

That's All!

WANTED—Girl for general housework, foreigner preferred, wages, $18.00. Address, 1203 Nicola St., Vancouver, B.C. tf.

Smoke Big B. Cigars

Local Items

The bar-room of the Pretoria Hotel has been much improved during the past two days under the skillful hand of Mr. H. Roedding.

The Henrietta was in port to-day, having unloaded ore at the Crofton smelter yesterday.

Ticket No. 102 won the picture recently raffled at the New Western Bar. The holder of this ticket is requested to call for the picture.

On June 18th, Miss Olivia Dahl, Norway's famous singer, will appear at the local Opera House. This will be a chance which lovers of good singing in Ladysmith will not miss, for it is not often that we have the pleasure of hearing a singer of the repute of Miss Dahl. Recently she appeared in Victoria to crowded houses, and will play a return engagement there on the 19th. She also sang in Nanaimo, and was so enthusiastically received as to warrant a return engagement, which she will undertake on the 15th of this month. K

For the first time the half-holiday system came into vogue today in Ladysmith, and this afternoon the clerks and proprietors are enjoying themselves. Some are walking the streets and looking lost, while others are across the bay dodging rainstorms. All are united, however, in voting the plan a tremendous success and expect to get used to the sensation of liberty before many weeks pass. Housekeepers in various parts of the city are rather confused today as to what they will have for supper, in many cases they having overlooked the fact that the usual supply of meat, etc., for the evening meal was procurable only in the forenoon on Thursday. With one or two such experiences, however, they will remember, and in the mean time nobody is regretting the fact that the clerks will have an opportunity of enjoying themselves occasionally.

NEW INDUSTRY FOR VICTORIA.

Within a short time Victoria will be the home of an industry for the manufacture of mining machinery, says Thursday's Times, which is likely to develop into an incalculable extent as the immense mining resources of British Columbia are laid bare by the ever inquisitive pick and shovel of the enterprising prospector. The Canadian Mine & Smelter Supply Co., intend opening up a branch here, installing a comparitively modest plant at the outset and gradually increasing its capacity in accordance with the demands of the market. The Earle building, Yates Street, has been secured and the machinery and other necessary accessories to an establishment of the kind will be put in place almost immediately. No time will be lost as there are already many orders which cannot be satisfactorily filled under the present conditions.

The output will consist principally of the Smith-Willey concentrator, although other specialties will be manufactured. To mining men it is unnecessary to enter into any explanation of the former machine. It embodies all the well known improvements of the Willey along with certain undeniable improvements on the same by a mining engineer of acknowledged ability. Already it has become popular in British Columbia, and may be found in operation at the Monito and Ajax Reduction Works at Roseberry B. C., at the Eva Mines Co., Camborne, and the Canadian Metal Co., Pilot Bay.

Keep Minard's Liniment in the house.

ONE MORE SHANGHAIED.

The provincial police have been informed that there is a man on the way to Vancouver from South America who was shanghaied on board a sailing ship not many months ago. It is understood that he was a passenger on one of the Empress steamers and was crimped on his arrival. A South American port was the first point where he could leave the ship, and from information given he intends to "make it hot" for somebody when he arrives in Vancouver.

THREE YEARS IN THE PENITENTIWRY

Winnipeg, June 7.—"If you were free in Winnipeg three more years, you would have the whole town in your possession," said his worship Magistrate Daly to August Ross who this morning pleaded guilty to stealing $150 in value in fancy crockeryware from H. J. Boyd.

His Worship's observation was brought forth by the vast accumulation of goods in the court room, and which had been collected by the prisoner in the space of a year. To relieve the display of chinaware, the culprit had also added to his collection two or three dozen pairs of cricketing flannels, the property of Cheyrier & Sons. The magistrate, after inquiring if Mr. Boyd had anything at all left in his shop, sentenced the prisoner to three years in the penitentiary on each charge, sentences to run concurrently.

ALASKA TOWN FELT EARTHQUAKE SHOCK

Seattle, June 7.—Archie W. Shields who is largely interested in oil properties in the Kayak ditstrict, arrived from the North yesterday and is registered at the Rainier-Grand.

Mr. Shields stated that the work in the oil district of Kayak is still yet in the stages of development, and that his company, the Pacific Coal and Oil Company, will not operate this year. The Lippy-Davis people are at present working on several wells, having gone down a depth of over 400 feet, but without much result so far.

On his way out Mr. Shields learned that on the morning of April 18 the date of the San Francisco disaster, the town of Yakatage, seventy-five miles from Kayak, felt an earthquake shock of sufficient intensity to rock the buildings. So far as could be ascertained no other part of the region was visited by the shock.

TON OF MAIL GOES NORTH FREE OF CHARGE

Seattle, June 7.—A ton of mail for the Northern mining camps was carried from this port on the steamer Oregon, which sailed last night. This is the assumulation of a week, the last consignment being carried on the steamer Buckman from San Francisco.

The mail taken north last night went without cost to the government, the Northwestern Steamship Company offering to carry it free. The offer was made to Postmaster Stewart, and the Washington authorities instructed the postmaster to accept it. Local shippers want 8 cents a pound for carrying the Alaskan mails, and the government has let no contracts. Meanwhile the mail was accumulating, and something had to be done. The Chamber of Commerce wired to the congressional delegation at Washington in regard to the matter, notification being made to the steamship company's offer. Senator Piles telegraphed to the chamber that the mail would be sent on the first steamer leaving for the North and that the delay was being investigated.

Dr. Fridtjof Nansen, the Arctic explorer, who has been appointed Norwegian ambassador to Great Britain, is a firm believer in woman's rights He and his wife were almost equally proficient in all that relates to athletics and the strenuous life. Apart from his fame as an explorer Dr. Nansen is well known as a writer on scientific topics.

Sir William Macgregor, governor of Newfoundland, is one of the most remarkable men of the British colonial service, both physically and intellectually; and, indeed, his herculean strength has contributed in no small degree to imhress the savages over whom he has been called upon to rule in the past with a sense of power of the British empire.

Princess Elizabeth, of Belgium, wife of Prince Albert, heir apparent to the throne, is probably the most accomplished and versatile of continental princesses. She is the daughter of Duke Charles Theodore of Bavaria, the famous oculist. The princess, who has inherited her father's scientific tastes, has taken her degree of M.D., and could, if necessary act as physician.

One of the wealthiest peers in England is Earl Fitzwilliam, who is the possessor of 145,000 acres of land in England and Ireland. Under the recent land purchase measure, however, he has disposed of some of his Wicklow property. Twenty years ago the Fitzwilliam estates were put at about 92,000 acres in Ireland, worth $250,000 per annum; and about 24,000 acres in England, worth about $110,000 a year.

ARCHBISHOP AND HIS COACHMAN

The late Archbishop Thampson of York had a coachman who possessed many redeeming qualities to offset his over-fondness for liquor. Returning in his carriage from a country church festival one night, the Archbishop found the man was so intoxicated as to have no control of the horses. He put the man inside the carriage and got on the box himself.

The entrance to the yard of the Archepiscopal palace in York is very narrow, and the Archbishop bumped the carriage first against one wass and then against the other. A groom came running out of the stable, and taking in the situation, said in a shrill whisper'

"Hello, Bill! Drunk again — and blamed if you haven't got the old coc's hat on."

CATHOLIC PRIEST LEAVES HIS CHURCH

Montreal, June 7. Rev. C. A. Fournier, who, for upwards of ten years, was a Roman Catholic priest in Sas. Katchewan and North Dakota, has left the church of Rome, and was baptized and received into the fellowship of the Baptist Church at Grande Linge on Sunday. He is the son of the late Chas. Fournier, M.L.A., who upwards of fifteen years represented L'Islet in the Quebec legislature, and a nephew of the late Bishop Panet, of Quebec. He has been appointed as a missimary by the Grande Linge mission and will labor for the present at Rexton Pond, Quebec.

Picnicers Attention!!

Commencing Sunday next, I will conduct a refreshment stand for the convenience of picnicers and camping parties on the Green Spot opposite the boathouse, and near Shell Beach. Refreshments, Ice Cream, Lunches, etc., served at reasonable prices.

Campers wishing to secure plots for the summer season, should apply here.

UNKNOWN FRIENDS.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of the remedy. They have done much to make it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by Ladysmith Pharmacy.

NOTICE.

I, the undersigned Jane McMillan, administratrix of John Hugh McMillan, deceased, hereby give notice that I intend at the next sitting of the Board of License Commissioners for the district of South Nanaimo, to be holden at Ladysmith on the 15th day of June, 1906, to make application to that honorable body for a transfer of the hotel licenses to sell intoxicating liquors under the provisions of the Statutes on that behalf, in the premises known and described as the Tunnel Hotel at Extension, British Columbia, from the said John Hugh McMillan to Alexander J. McMillan.

JANE McMILLAN,
Administratrix of John Hugh McMillan.

STOCKS STOCKS

You can double your money by the end of the year if you act immediately. This is no dead-sure thing but is practically safe. See E. C. Brooks Victoria Crescent, Nanaimo, at once.

Keep Minard's Liniment in the house.
