LEGISLATIVE ASSEMBLY.

THE LADYSMITH DAILY LEDGER

VOL. 2 THURSDAY June 28, 1906 PRICE FIVE CENTS

LADYSMITH COUPLE ARE MARRIED IN VICTORIA TODAY

The marriage took place this morning at 7 o'clock, in Victoria, of Miss Julia A. Teague, of this city, to Mr. Harry Ward, manager of the local telephone company, and the happy couple are now enjoying their honeymoon on a tour of the Sound cities, from which they expect to return in about two weeks' time when they will take up their residence in the Ward Block.

The ceremony was performed by the Rev. C. E. Cooper, at St. Saviour's Church. Miss E. Teague, sister of the bride, acted as bridesmaid, while Mr. F. Teague, brother of the bride supported the groom.

Both Mr. and Mrs. Ward are well and favorably known in this city and their many friends will join in wishing them every success and happiness in their wedded life.

NEW COAL BUNKERS

The Vancouver World says: The contract for large coal bunkers for Macdonald, Marpole & Co., to be erected on Coal Harbor, at the foot of Jervis street, as announced some time ago, has been awarded to Ironside, Rannie & Campbell. The bunkers, which will occupy a water frontage of 295 feet, will have a storage capacity of 600 tons and five railway cars can be loaded at one time. Along the eastern side of the building, some 190 feet, the C. P. R. will run a sidetrack and switching facilities will be provided nearby. The bunkers will be up-to-date in loading and discharging their contents and will be ready for operations about July 20.

ITALIANS ON STRIKE

Tacoma, June 28.—The strike of the Tacoma Railway & Power Company's laborers assumed a rather serious phase this morning when 200 striking Italians appeared at Nineteenth street and Jefferson avenue, and compelled a gang of workmen there to stop work. Some of the men refused the demand of the Italian leaders, and the shovels and tools were taken from these and thrown aside, and in a few minutes all work had ceased. Half a dozen policemen were at the spot ready to interfere in case any fighting began.

Manley Ettor, an Austrian teamster, refused to quit work when requested by Italians Saturday evening and was seriously stabbed in the abdomen by an Italian who has not yet been identified.

Today the street car company tried to pay off its Italian workmen, but they refused to accept their checks, fearing it was a ruse on the part of the company to serve them with injunction papers preventing them from interfering with strike breakers. The company has sent to Riverton for a force of 250 Irish laborers who will be put to work in the morning.

The Italians are on strike for an increase of wages from $2.25 to $2.50 a day.

RAINMAKER A FAILURE

Dawson, June 28.—Chas. M. Hatfield, the rainmaker, has been at work in the Klondike for two weeks and has done nothing to materially aid hydraulic mining, and the camp is greatly in need of water. It rained several times in the Klondike last week, but the fall was not continuous enough.

The steamer Monarch, from Fairbanks brings reports that the drought at that camp is greatly curtailing the washing of gold, and may seriously affect the output of the summer.

Governor McInnes' campaign to cleanse the city of loose women has resulted in thirty being ordered from the town.

TRIAL OF MITCHELL ADVANCES SLOWLY IN SEATTLE

Seattle, June 28.—It became more and more apparent yesterday that the cue of the defense in the trial of George Mitchell, charged with the murder of Edwin Crefield, "Holy Roller," May 7, is partly to influence the minds of the jurors by disclosure of the awful charges laid against the deceased, and partly to take advantage of every possible chance that may be allowed to secure a rehearing in case a conviction should be secured. Even at the preliminary stage of the selection of jurors, the battle that is being waged between the state's attorney, Kenneth Mackintosh and Cohn F. Miller, on the one hand, and Will H. Morris and Silas M. Shipley on the other, is one involving a technique, which at times is beyond the ordinary spectator's comprehension, although well appreciated by practical lawyers.

One of the comments commonly heard among those who have often seen trials for murder is the strange reversal of positions in the present case. Ordinarily counsel for the state is willing to leave the case in the hands of jurors who may have formed some slight conviction as to the guilt or innocence of the man accused. In the Mitchell case, it is the counsel for the defense that is so willing, while counsel for the state seeks to secure men who have not heard or read much, if any, about the case.

The second day of the proceedings ended with the jury box after the examination "for cause" had been completed, and with the exercise of but one preemptory challenge by the prosecution. Today the defense will have the right to exercise preemptory challenge twice, then the prosecution again once, and so on until the six challenges by the prosecution and the twelve by the defense are exhausted.

ROBBERIES IN PORTLAND

Portland, June 28.—What appears to have been an unsuccessful attempt to break into the United States National Bank occurred last night. Burglars succeeded in gaining entrance to the cellar underneath the bank, but were frightened off by a Pinkerton detective and a watchman, who were attracted to the spot by the noise of closing steel trap doors which lead from the street into the cellar. The burglars were frightened off at the approach of the watchman.

At one o'clock this morning, it was discovered by the night watchman that Jarger Bros.' jewelry store on Morrison street between Fourth and Fifth streets had been robbed of between $2,000 and $3,000 worth of jewelry. The robbers effected an entrance through the rear door with a jimmy and broke through a glass door at the rear of the salesroom, and abstracted a tray of precious stones locked in a secret drawer under the show case.

The police believe that a gang of crooks infest the city. Several weeks ago an attempt was made to rob another large bank here.

JONES IS EXONERATED

Seattle, June 28.—Frank Jones was yesterday exonerated by the coroner's jury for the killing of Thomas Cullen. The verdict stated that Cullen had come to his death by a blow delivered by Jones while defending himself from bodily injury and against heavy odds. The jury exonerated him from all blame in the matter.

Prosecuting Attorney Mackintosh stated that since the coroner's jury had exonerated the young man he would take no action against him. Jones was released from custody.

The evidence taken at the inquest was to the effect that the fight in which Cullen met his death was started by Jack and William Belner, two timber cruisers, with whom Cullen had been drinking. It was proven by the testimony that Jones had fought the three men and merely acted in self-defence.

MERRY-GO-ROUND AND DONKEYS WILL BE HERE

The Ledger is in receipt of a telegram from Mr. C. W. Kirk, who left here for Vancouver yesterday, in which he states he will be here on Dominion Day, and will be in shape to entertain the youngsters to their heart's content.

Besides his Merry-go-round, Mr. Kirk will bring some donkeys which he has recently imported from California, and which form an important feature of his attractions. He intends giving substantial prizes for both ladies and children in riding contests on these donkeys. He is advertising in both Nanaimo and Victoria to the effect that he will be here, and his machine will prove an attraction to many grown-ups as well as all of the children.

HANNAY IS SMILING

Jeff Hannay is today wearing a happy smile. He has everything in readiness for his boxing contest here on Dominion Day with Joe Morton, the preliminaries are arranged, hall rented, etc. Besides all this, if Jeff wins he has a fight in sight with Bob Williams which promises to be a good one.

For Monday night Hannay promises the local lovers of the manly art an exhibition which has never been equalled in Ladysmith before, as a great deal depends on the result. If Hannay loses, he will likely lose his match with Williams, and this is an engagement that he does not care to miss. On the other hand, Morton is reputed to be a good man and will be here to get the lion's share of the purse. A side bet has been put up of $100, and the winner is to take sixty per cent. of the gate receipts besides the bet, while the loser will have to content himself with the forty per cent. and the hammering which he will receive before losing.

Two good preliminaries have been arranged for which in themselves promise to be worth going far to see. These will be pulled off in time to start the big match at 8 o'clock sharp in order that the excursionists from Nanaimo may attend, watch the fight, and catch their return train, which will leave at 10:30. The go will be a ten-round affair, at catch weights, and the best man will win.

The Nanaimo Herald of this morning contains the following:

Editor Herald—

Provided I win in my contest with Sailor Kelly on Saturday night accept the challenge of Jeff Hannay, published in last night's issue of the Free Press. I will box him for the entire gate receipts and a side bet of from $200 up to any amount that he will stipulate.

I remain, yours truly,

BOB. WILLIAMS.

The above acceptance of Hannay's challenge was handed in to this office last night by Mr. Petrie, Manager for Williams and by the appearance of things at present it seems that Nanaimo is going to witness some first class boxing contests in the near future. In meeting such a man as Hannay, Williams is going out of his class quite a few pounds, but he feels quite confident in his ability to defeat the Ladysmith crack and if this match is arranged for, the bout will no doubt be pulled off in Nanaimo, where none others than clean, first class boxing contests are allowed.

In preparation for his contest with Kelley on Saturday night, Williams last evening boxed eight rounds with his sparring partner, Ritchie who is also in good fettle for his bout with Frank Hughes.

Tonight the men will box another eight rounds, and that will be their last appearance before the public until they step into the ring at the sound of the gong on Saturday night.

The referee for both contests is to be picked by the club officials.

PLENTY OF WATER FOR ELECTRIC LIGHTS

Col. Tracy Reports that by Turning in McLeod Creek Sufficient Water Will be Obtainable

Col. J. W. Tracey and party returned from Bush and McLeod creeks last evening, and at noon today the Colonel left for Vancouver on the Transfer.

In an interview this morning with a Ledger representative Col. Tracey stated that while he had not yet made out his report, he could say that everything looked favorable for the installation of a water power electric plant for lighting the city of Ladysmith, as far as the supply of water is concerned.

"In my report last year," said Col. Tracy, "I only reported on McLeod creek, not having at that time visited Bush creek. I reported at the time that I did not think it a safe proposition to install a water power plant to be run with the one creek, as at some seasons of the year the water is too low. However, now that I have seen the two creeks I do not think there would be an difficulty whatever in operating a plant."

Asked as to the cost of turning McLeod into Bush Creek, the Colonel replied that it would be a very easy matter to accomplish.

"It would only be a distance of about a quarter of a mile," said the Colonel, "with a fall of 25 feet. In my report I will make an estimate of the cost, and while, of course, I cannot say definitely until I have figured it out, I do not think that the cost of work will amount to very much."

On the whole, Col. Tracy's report is very favorable, and will be a surprise to a great many people who have been of the opinion that it would be impossible to run a water power plant even if both creeks were utilized. The report, together with estimates of cost, etc., will be here in time for the council meeting next week, and if considered advisable the probabilities are that within a short time a by-law will be submitted to the ratepayers to say whether or not money shall be borrowed by the city to install an electric plant. The ratepayers have already voted in favor of a city-owned plant, and have also voted to the effect that they want a plant installed. There has never been any question but that a water plant would be far cheaper and more satisfactory if a sufficient supply of water is available, and now that an expert's opinion has been received, and is favorable, there should be no trouble in passing a money by-law to install a plant in the near future.

OPERATION WAS SEVERE

The friends and relatives of Mr. M. Ingham, who underwent a severe operation in the Nanaimo hospital yesterday, returned this morning on the nine o'clock train, and report the patient as progressing as well as could be hoped for. It was found, they state, that the spinal cord has not been injured as had been feared by the surgeons previous to the operation, and although it may perhaps be a couple of months before any appreciable change for the better takes place, good hopes for an improvement are held out. In speaking of the operation this morning's issue of the Nanaimo Herald says:

Menelus Ingham, a resident of Ladysmith, who has been lying on a cot in Nanaimo hospital for nearly a year, and who was injured by a fall of coal in Extension mines some months before being brought to the hospital, was operated on yesterday by Dr. Hogle assisted by Dr. O'Brian. The injury was of the spinal cord and the patient has been totally paralyzed, since the injury, save only that he could move his head, speak, and was entirely in possession of his senses. The operation was a most dangerous one and is rare in the annals of surgery. The patient and his relatives all urged that the operation be undertaken, although the grave nature of the same was well understood by them. It was an operation with a chance of improvement or a living death.

Fortunately at this writing, midnight, the patient's condition is considered by his medical attendants as good as could be hoped for. On cutting down to the injured vertebrae it was found necessary to remove a great part of the fourth fifth and sixth cervical vertebrae, the greatest damage being done to the sixth, three splinters of bone were removed from the spinal cord itself and the sixth and seventh vertebrae were found dislocated, and a thick gelatenous mass of surrounding tissue was found pressing on the cord, all this was removed the cord being put in the best possible condition and a surgical jacket put on the patient that will hold him absolutely unmoveable. No marked improvement at the best can be hoped for for three months or more, although if the operation gives the hoped for relief some slight symptoms might be noted sooner, that the spinal cord is still capable of performing to a greater or less degree its functions the operating surgeon is convinced for a needle prick of the cord after the pressure was removed caused spasmatic movements of the muscles of the body.

Dr. Hogle, who very kindly when called on last night, gave the above particulars to The Herald did so knowing the intense interest the community feels in the unfortunate man. Should the patient rally well from the operation, and improve somewhat it may be possible later to further improve his condition by surgical treatment.

BOOTBLACK ARRESTED

Seattle, June 28. — Robert Edmunds, a negro bootblack, fired two shots from a revolver at W. E. Jong a negro porter, at the corner of First avenue and Union street yesterday at noon. Neither of the bullets took effect, and Edmunds was at once arrested. The shooting was a result of an old quarrel between the two men. Edmonds was formerly sentenced to the Oregon penitentiary from Pendleton for assault on a negro with a deadly weapon. He hit a negro with an iron shoe rest, and came near killing him. No charge has yet been placed against him.

NO TRACE OF LOST CHILD

Vancouver, June 28.—Despite the frantic efforts of foster parents and friends and the systematic search instituted by the police, nothing has yet been heard of the whereabouts of the little girl whose mysterious disappearance a week ago last Sunday has cast a pall of gloom and racking anxiety over her home in the west end of the city. The child was well known to dozens of playmates and fellow scholars at the Sunday school to which she was going when she disappeared, as well as to many neighbors, and it is felt that if she had been on the streets at all she would be recognized. It seems hard to believe that any evil could have overtaken a thirteen-year-old girl on a Vancouver street on a Sunday afternoon when there are more people abroad than on any other day of the week. Wrung to desperation by the terrible anxiety and suspense, the foster parents are at their wits' end to know what next to do, but are hoping every moment for news of the lost one.

EXCHANGED ATTITUDES.

Tacoma has taken Seattle's former unenviable position as an extremely wide open city. Seattle up to recently had the reputation far and wide of being the wickedest town in the country, but recently has begun to be comparatively decent, owing largely to its Mayor; but Mayor Wright, of Tacoma, that has hitherto been considered far Seattle's superior in moral cleanliness and decency, has declared for a wide-open city in every respect, vetoing the council's ordinances to close the combination dance and drink establishments and the gambling resorts, and to raise saloon licenses to $1,000 a year. In this he has taken a stride backward and toward darkness and stench, and Tacoma will suffer severely in consequence, unless the council override his vetoes and devise means for enforcing the laws. The tendency in all well-regulated cities, is toward higher licenses for saloons, and the suppression so far as practicable of gambling and other odious vices, and in this respect the Mayor of Seattle is a progressivist, while the Mayor of Tacoma is a reactionist. The exchange of positions is wholly in favor of the "Queen City" and against the "City of Destiny."—Portland (Or.) Journal.

GIRL WAS HIS HOODOO

New York, June 28. — Because he lost all his money on the races and had to pawn his sweetheart's diamond ring for $3 in order to meet his immediate wants, Eugene Master was held in $300 bail in the Harlem Court, charged with stealing the ring.

Master described himself as a Parisian, a physicial culturist, and living at 217 West Thirty-Eighth street. The complainant was Violet Conklind, a pretty girl of nineteen, who lives at 13 East Hundred and Thirty-first street, and Master told the court the unlucky number was responsible for his losing his money and his arrest.

Miss Conklind says she met Master by chance in Central Park three months ago, and an intimate friendship was the result. Although they met nearly every day thereafter Master wrote her many letters, in which he called her his "dearest sweetheart. A week ago, she declared, Master said to her, "Tomorrow, sweetheart, I am going to the races, and I want you to wish me good luck." In reply she took off her $190 diamond ring and wished it on Master's finger. That was the last time, she said, she saw either Master or the ring, until he was in court today.

"This girl is a hoodoo," said Master. She lives in a house No. 13. I went to the races and lost everything I had, and had to pawn the ring for $3 to meet my immediate wants. There's the pawn ticket. She can have it, and I will have a friend redeem the ring."

After Master handed the pawn ticket to the girl, Magistrate Steinert denounced him as a low and mean thief, and held him for examination tomorrow, when, if the ring has been returned, he will be allowed to go.

TERRA NOVA RAISED.

New Westminster, June 28. — The British Columbia Packers' steam tug Terra Nova, which sank a few days ago in one of the inside passages between Ladysmith and the Sooke trap has been successfully raised and is now undergoing repairs. The boat ran on a rock which punched a hole in the hull and caused the vessel to sink. The crew reached the shore in safety in one of the boats.

SAFETY OF BRITISH COAL MINERS

The King, on the recommendation of the Home Secretary, has been pleased to appoint a royal commission to inquire into and report on certain questions relating to the health and safety of miners and the administration of the mines act, says the Glasgow News of a recent date. The commission is constituted as follows:

Lord Monkswell, chairman, Mr. William Abraham, M. P., Rhondda; Mr. Henry Hardinge Cunynghame, C. B., of the Home Office; Mr. Frederick L. Davis, chairman of South Wales Conciliation Board; Mr. Enoch Edwards, M. P.; Mr. T. Ratcliffe Ellis, secretary to the Mining Association of Great Britain; Mr. John Scott Haldane, F. R. S.; Mr. Robert Smillie, President of the Lanarkshire Miners' Union, and Sir Henry Lindsay Wood, Bart.

The following are the questions referred to the commission:

Whether it is desirable to make compulsory the watering of roads in dry and dusty mines?

Whether it is desirable to prescribe the forms of safety lamp which may be used in mines, or to prohibit any of those now in use?

What steps could be taken for the better prevention of accidents, particularly those from the use and firing of explosives, from falls of roof and side, from underground haulage, and from winding?

Whether any special provision should be made to faciliate the work of rescue in the event of accident; and whether any improvement can be made in the present system of investigating inquiring into accidents?

Whether any steps should be taken to lay down a standard of ventilation of mines?

What steps should be taken to guard against the disease known as ankylostomaisis?

Whether the present system of special rules is adequate, and whether the method of establishing such rules could not be made simpler and more effective?

Whether any, and, if so, what steps should be taken to improve the administration of the mines act and the discipline in mines?

Whether any change is desirable in the present system of examination of managers' and under-managers' certificates of competency; whether the managers of metalliferous mines should be compelled to hold such certificates, and whether certificates granted by the colonial governments should not be accepted in this country?

Correspondence may be addressed to the secretary, Mr. S. W. Harris, at the Home Office, Whitehall.

THE VERY BEST REMEDY
FOR BOWEL TROUBLE

Mr. M. F. Burroughs, an old and well-known resident of Bluffton Ind., says: "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel trouble. I make this statement after having used the remedy in my family for several years. I am never without it." This remedy is almost sure to be needed before the summer is over! Why not buy it now and be prepared for such an emergency? For sale by Ladysmith Pharmacy.

We are justly proud of this Boot. The greatest praise has been heaped upon it since its introduction.

Try Capital and Nugget Cigars

Cardiff, Wales, June 27.—Violent earthquake shocks were experienced throughout South Wales at 9:15 this morning. Houses rocked, and many of the cheaper ones were damaged. Hundreds of chimneys fell, pictures were shaken from walls, occupants of dwellings were thrown to the ground and people fled from the houses shrieking in panic with visions of the San Francisco disaster before them. Though there were a number of narrow escapes from falling chimneys and houses there were no casualities.

Shocks were also felt in Bristol, Ilfracombe and elsewhere. They were accompanied by loud rumblings.

Sunlight Soap is better than other soaps, but sbest when used in the Sunlight way. Buy Sunlight Soap and follow Directions

HOW TO BREAK UP A COLD

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold is a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold, and restores the system to a healthy condition within a day or two. For sale by Ladysmith Pharmacy.

NOTICE TO CONTRACTORS.

Ladysmith Wharf.

SEALED TENDERS, properly endorsed "Tender for Ladysmith Wharf and Approach," will be received by the undersigned up to noon of the 30th inst., for the erection and completion of a wharf and approach at Oyster Harbour, Ladysmith, B.C.

Drawings, specifications and conditions of tendering and contract may be seen at the office of the Public Works Engineer, Victoria, B.C., at the office of the Government Agent, Nanaimo, B.C., and at Ladysmith, B.C., on and after June the 18th.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the undersigned, in the sum of two hundred ($200) dollars, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so.

The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer will be required to furnish bonds himself and two sureties, satisfactory to the Chief Commissioner, in the sum of eight hundred ($800) dollars each.

Upon the execution of the bond the cheque above mentioned will be returned to the contractor.

Tenders will not be considered unless made out on the forms supplied and signed with the actual signature of the tenderer.

F. C. GAMBLE,
Public Works Engineer.

SMITH AND SLOAN IN DEBATE

The following debate on the Sunday Observance Bill, containing a speech of Mr. Ralph Smith is continued from yesterday's issue.

Mr. RALPH SMITH. As the members of the committee are giving their views as to the interpretation of subsection (g), I desire as a member of that committee to say what my views was. It seems to me that the meaning is very plain on the face of the subsection. The destination of a freight train is determined by the freight it carries, and the restriction I understand simply means that a freight train cannot be made up on a Sunday. But if a freight train leaves Vancouver for Montreal, the freight can be carried through to Montreal without being stopped at any point on the route. The destination of that train must be Montreal.

Mr. PRINGLE. Will the Minister of Justice assent to what you say?

Mr. RALPH SMITH. I am simply giving my view. The restriction simply is that no freight train can be completely made up on a Sunday; but once it is made up and is started, it can go straight through to its destination, or the freight can be sent straight through having to stop over on any Sunday at any point.

Mr. M. S. McCARTHY. Does not every train coming through the mountains from east and west have to divide up at certain points, for instance, Laggen and Revelstoke? And if a train arrives at one of these points on a Sunday where it has to be divided, can the divided train be started on that day?

Mr. RALPH SMITH. That does not make any difference in the mountain section.

Mr. M. S. McCARTHY. According to the Minister of Justice it does.

Mr. R. SMITH. I am simply giving the sense of the committee as I understood it. If a freight train starts for Montreal or elsewhere, its destination must be determined by the nature of the freight it carries and the particular point to which it is intended to go.

Mr. CONMEE. I think so. The purpose of a freight train is to convey freight, and the destination of that freight and that train must be the point to which that freight is billed.

Mr. RALPH SMITH. I am answering the Minister of Finance who says they are likely to make Sunday a day of repairs, and I say that in every operating industry certain repairs must be done on Sunday. I refer in particular to operations in coal mines where repairs must be done on a Sunday.

An. hon. MEMBER. What kind?

Mr. RALPH SMITH. All kinds of mechanical operations where the output of those mines is carried on continuously during the six days of the week. For instance, in machinery that cannot be stopped during the six days, repairs can only be made when the operations are going on. I say that if these improvements or repairs are not done when the operations are continuously carried on, then they must be done on the seventh day. I see clearly that there must be some provision made for repairs to be made even on Sunday when the industries are operating continuously all the six days of the week. I am strongly in favor of a reasonable Sunday bill, but reasonable provision must be provided for securing machinery necessary to the security of life and limb and also against the interference with the absolute liberty of the individual so long as the exercise of such liberty he does not interfere with the liberty of others.

Mr. RALPH SMITH. And that section is the section which the hon. member for Cornwall took very serious objection to. He has expressed himself as very warmly in favour of this class of labor, but I want to remind him that when the section regarding twenty-four hours' cessation from work came up, he was the member of the committee who considered that the most criminal section of the whole Bill. Now he wants the House to consider the advisability of making that provision. I want the hon. gentleman to understand that in that committee I took full responsibility for my action. Since my Hon. friend has begun the personal aspect of this matter, I desire to say in answer to the question he asks, that I favored very strongly the twenty-four hours clause for the person who had to work on Sunday, and my hon. friend was the one who opposed it.

Mr. PRINGLE. When we come to the twenty-four hours' clause I think I shall be able to point out the ridiculousness of that clause. I will not take up time now to discuss it.

On subsection (n),

The hiring of horse and carriages for the personal use of the hirer or his family for any purpose not prohibited by this Act.

Mr. CONMEE. I would suggest to add the words 'using of horses.'

Mr. PRINGLE. That would prevent us from using other animals. I think it would be rather hard on the young gentlemen who might want to take his lady love for a drive on Sunday, that he should be prohibited from doing so.

Mr. SLOAN. Before this subsection carries I would like to call the attention of the committee to the fact that it has a very narrow application. I live on the sea coast where we do not hire livery rigs, but where we do hire boats, and I cannot see upon what principle you allow livery stables to hire out livery rigs while you do not allow boat house owners to hire out boats.

Mr. GUTHRIE. That would allow of the hiring out of pleasure boats.

Mr. SLOAN. No, it would not allow the hiring out of pleasure boats. There are lots of people who own their own private boats and this legislation would not affect them but there are others who are not in a position to own their own boats and it would be a hardship if they were not able to hire a boat on Sunday. I would like to have some explanation from the Minister of Justice in regard to the point I have raised. I do not think it is fair to discriminate between the livery stable keeper and the boat house owner.

Sir. WILFRED LAURIER. Let it stands.

Subsection (n) allowed to stand.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of Interior.

UNKNOWN FRIENDS.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of the remedy. They have done much to make it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by Ladysmith Pharmacy.

Local Items

The Georgian came up from Crofton today for coal.

The weekly half-holiday for clerks of the local stores is being somewhat marred today by the downfall of rain.

Provincial Officer Cassidy arrested an Indian today for being drunk. He will be tried tonight at 8 o'clock.

Mr. F. Teague and Miss Teague passed through to Nanaimo at noon today from Victoria, where they had been attending the wedding of their sister, Miss J. Teague.

Miss A. McKinnon is in the city, and will spend the school vacation with her sister, Mrs. Jas. Adam.

Ask for Capital and Nugget Cigars

CITY BAND CONCERT.

The band will give their eleventh open-air concert tonight on the Market Square, starting at 7 o'clock, sharp, weather permitting. They will not give one on Saturday, as usual, on account of their Moonlight Excursion.

Says the Colonist of this morning: For the Dominion Day Holiday on Monday next, the E. & N. railway have arranged a double train service between all points, the afternoon trains operating on the same schedule as the usual Saturday, Sunday and Wednesday afternoon trains. This additional service together with the excursion rates in effect, will no doubt attract a large number of people to the different popular resorts along the line. The celebration at Ladysmith gives promise of being an exceptionally good one this year, the programme as arranged reflecting great credit on the energetic committee in charge.

None Better-Capital & Nugget Cigars

NANAIMO NEWS NOTES

Last evening a telegram was received in the city from Sine Swanson in Cle Elum, Wash., stating that he had arranged for a match. The message does not say whether the match has been arranged between himself and Pete Morrison, or one between Sandy and Bruce Ashman.

In the death of Mrs. Jessie Sage, which occurred yesterday, Nanaimo loses one of its oldest pioneers, she having arrived here in company with her husband and a band of noble pioneers over fifty years ago. Mrs. Sage had just celebrated her eightieth birthday, and was born in Marksberry, Somersetshire, England.

Besides a husband the deceased lady leaves to mourn her loss, two sons, Messrs George and Enoch of this city, and two daughters, Mrs. Dan Dailey of Nanaimo and Mrs. E. Walker, who resides at Union.

Mrs. Sage had been ill for a considerable time, and it was only her magnificent constitution that enabled her to withstand the grim reaper for so long, but the four score years of an active life had so weakened the constitution that she was unable to successfully combat the serious heart trouble that attacked her.

The funeral will take place on Friday afternoon at 3:30 o'clock from the family residence.

HACK AND GOTCH
OUT FOR BLOOD

A more remarkable match never took place in the history of sport than that which Hackenschmidt, the untamed Russian bear, has arranged with Frank Gotch, the American champion catch-as-catch-can wrestler. Hackenschmidt has started to America with the out and out intention of pounding Gotch into insensibility in a prize ring and then trouncing him to a finish on the padded mat.

Both men claim to have something in the boxing line as well as wrestling and both have acquired considerable notoriety by sundry challenges thrown at Jim Jeffries. Hack thinks he's better than Gotch at both styles of fight, and Gotch is willing to back his end with the coin. There they are.

The mauling fight to a finish will be fought at Carson City, Nev., or at Los Angeles, and the wrestling match will occur at Madison Square Garden or Mechanics' pavilion. Dates have not been settled yet.

WHIMS OF IBSEN.

Like many another man great in his writings, Henrik Ibsen was not without his foibles. Scorning company as he professed to do, and declaring always for solitude, he evertheless delighted to be dined, and to invite him to a banquet in his own especial honor was to give the great man unalloyed pleasure.

In his latter days, too, he developed a passion for decorations, of which he received a large number from his own and foreign monarchs; and on public occasions he would wear all his insignia as probably the most decorated author in the world.

It was on public occasions that Ibsen would carry a small mirror and comb in the crown of his hat, and "coram populp" would proceed to arrange his bushy hair and whiskers.
