VICTORIA, B. C.

THE LADYSMITH DAILY LEDGER

VOL. 2 SATURDAY, SEPT. 15, 1906. PRICE FIVE CENTS

STATE WILL OPPOSE CHARGE OF INSANITY

Seattle, Sept. 15.—Yesterday's session of the commission named by Judge Frater of the superior court to examine into the sanity of Mrs. Maud Crefeld and Esther Mitchell, charged with the murder of George Mitchell, developed the fact that the work of the physicians will still require a number of days more. The state, through Prosecuting Attorney John F. Miller, will make a strong opposition to the women being declared insane and will introduce considerable evidence in rebuttal of that already taken in support of the insanity theory. Mr. Miller made this statement to the commission yesterday and said that when the testimony called in by the commission had been taken he intended to introduce witnesses for this purpose. These, he said, will include physicians who made examinations of the women immediately after their arrest following the murder of Mitchell and of others who have been in a position to see and study the women since their arrest.

It was thought that the commission might end its labors yesterday but only a short session was held and only one witness was examined.

As showing the quick returns to be obtained from advertising, at noon today we had instructions to insert a "Lost" notice, stating that a gold watch and chain had been lost. Hardly had the notice been put in type, and before the paper was on the press, we received word to take out the notice, as the watch had been found. So much for advertising.

There have been many stories of wounded grouse getting safely away from local hunters since the opening of the hunting season, but to-day comes the first story of a dead duck walking off. This morning Mr. Williamson cut, or at least thought he cut, a duck's head off with an axe. Dropping the bird, Mr. Williamson walked into the front part of his shop, where he deposited his books, which he had just brought down from the house, and then returned to the duck. All that remained of the latter, however, was a little blood upon the floor, and a "quack! quack!" floating in from the back yard. Upon investigation it was found that the bird's head had only been partially severed, and another operation was necessary.

S. L. Jones, of Seattle, and Samuel C. Jackson, of Kansas City, Missouri, in company with Hon. Jesse A. Frye, of Seattle, have recently incorporated under the laws of the State of Washington, the Washington Lumber and Timber Company, with a capital of $50,000. The purpose of this organization is the wholesaling of lumber, also to xeal in timber lands and to engage in logging and manufacturing.

As a result of his team running away this forenoon, Mr. Dave Johnson arrived at the blacksmith shop with the tongue of his wagon, and requested Mr. Wright to put some wheels on it. The tongue was about all that was left of the wagon.

SHIPPING NOTES

The Queen City, under charter by Provincial Minerologist Carmichael, was in at the local wharves for coal today. The steamer is on her way north where the party will look into timber lands, etc., in the interest of the government.

The Otter and scow were also in port for coal, while the tug Clayburn is in with the hulk Japan, which is laden with coal for Alaska. The other visitors at the wharves today are the Robert Kerr and tug Hope. S.S. Elleric has completed her cargo of sacked coal, and is now taking on bunker coal.

GRANT BRINGING DOWN BODIES OF VALENCIA WRECK

Neah Bay, Sept. 15.—H. S. Noice, a Georgetown undertaker, and Geo. Everett, sent out by the Building Trades union of Seattle, to bring the remains of victims of the Valencia wreck buried on Vancouver Island in temporary graves, arrived in Neah Bay yesterday with nine bodies on the tug Sea Lion.

The nine caskets containing remains and one empty one were placed on the beach at Neah Bay Indian agency to be put on board the revenue cutter Grant when she should arrive from the scene of the wreck. The Grant arrived to day, having on board one more of the remains which had to be left the day before on account of high seas.

There are now ten bodies on the cutter which will arrive in Seattle tomorrow. The bodies that had to be abandoned on account of the rough water will be shipped to Seattle by way of Victoria by steamer.

The surf at Neah Bay was very high when the Grant arrived today and it was thought for a time that the caskets left on the beach by the sea could not be taken off till tomorrow. But with the use of a canoe and two Indians expert with the paddle the caskets were taken one at a time from the beach and delivered to the cutter's boat beyond the surf.

This task seemed very hazardous to anyone not a Neah Indian. Frank Smith, a Makah, and Harry California, a Quillayute, performed the difficult task with the canoe, for which they should be given credit.

Mr. Noice and Mr. Everett stopped with H. G. Hart, the operator for the local weather bureau office while waiting the arrival of the Grant.

NEWS NOTES OF DUNCAN.

John Stewart, of Ladysmith was in town for a day this week.

R. E. Brett, of Victoria, visited Duncan on Wednesday.

Mr. W. H. Hayward left on Monday for a trip east of the mountains.

Mr. C. H. Dickie left on Monday last for Portland Canal to look after his interests in some mining property he has there.

Light frosts the fore part of the week killed cucumbers, squash and pumpkin vines, but were not severe enough to injure other vegetables and fruit.

Mr. H. F. Carter, of Crofton, and Mr. Breakspeas, of Somenos, are camping up at the scuts this week. Mr. H. Keast paid them a visit on Wednesday and Thursday.

Mr. John Bryden, Sr., Mr. R. Bryden and Miss Bryden went to Cowichan Lake on Thursday last.

Mr. Wm. Gidley visited the company's logging camp during the week and reports good work being done. He says Mr. Vipond is putting lots of timber in the water.

Somenos Church was the scene on Wednesday afternoon last of an interesting wedding, when a number of friends gathered to witness the marriage of Mr. F. H. Stanton and Miss E. E. Palmer. The ceremony was performed by the Ven. Archdeacon Scriven and Rev. J. Leakey. The bride and bridegroom were the recipients of many useful and valuable presents. They left by the evening train for Victoria where the first part of the honeymoon will be spent at the Oak Bay Hotel.

AFRICAN PIGMY CAGED WITH APES

New York, Sept. 15.—The Times says a committee of the colored Baptist ministers' conference will call on the Mayor today on behalf of Ota Benga, the African pygmy, who is being exhibited with the monkeys at the Bronx Zoological park. The ministers will ask the mayor to save the little African from what they term "the degrading exhibition" of a human being in a cage disporting himself with apes. The decision was arrived at yesterday after a conference at the Mount Olivet Baptist church. The committee was headed by J. H. Gordon, superintendent of the Howard orphan asylum in Brooklyn.

PLAN FOR A NEW STEAMSHIP LINE TO NEW MEXICO

The Winnipeg Free Press just to hand, says: Captain Worsnop, of London, Eng., was in the city this morning returning from a trip to Mexico where he has been in connection with the proposed steamship route from Vancouver. In conversation with a Free Press reporter he said: We have decided to open the service during the month of March and it will be monthly from Vancouver to ports of Mazatlan, Manzanillo, Accapulco, Santa Cruz, and some of the smaller ports. It is not yet decided what the line will be called, but probably something including the words Canadian, Mexico and Pacific, in order to distinguish it from the C.P.R.'s other lines. The number of steamers will be regulated by the traffic but there will be at least three to start with and as many as are needed to maintain a monthly service.

"There is a splendid market in Mexico for all lines of Canadian produce and manufactures. The Mexicans want boots, dressed leather, cheap lines of clothing and blankets, agricultural implements, flour and tinned goods. The outlook for the flour trade is very large and though at first it will no doubt be in lower grades, the Spanish people of the upper classes are fond of white bread and a more or less extended trade can be worked up in high class flours.

"There is practically no railway service to the west coast in Mexico. Everything must go by water, and it is just as cheap to send it from Canada as from the United States and there is no 'favored nation' clause in the Mexican tariff, so that the outlook for new markets is very good. Coming back the steamers will bring cargoes of sugar, raw and refined, oranges and bananas, coffee, high-grade hardwoods, green hides, and barks for tanning.

"I am just on my way to England to discuss the details of the line with my associates there none of whom have been in this country.

"It is ten years since I visited Winnipeg though not that long since I passed through it. I made a stay of a week ten years ago, and though Winnipeg was a straggling place then to what it is today, I was so impressed then with the possibilities of the whole Canadian west that I have never ceased to urge the development of the west coast. Winnipeg is a wonderful city and must have a great future before it.

"To my thinking, Canada is the greatest colony of the British crown She is an empire in herself, and not even the United States has within her borders the possibilities for becoming a self-sustaining nation that Canada has."

HELD AS WITNESS

San Francisco, Sept. 14.—Steve Adams, who has been held at Boise, Idaho, since Saturday, charged with the murder of Lyte Gregory, in Denver, was discharged in the justice court yesterday afternoon on motion of the county attorney. Adams was immediately re-arrested by Sheriff Sutherland, of Shoshone County, Idaho, charged with the killing of "John Doe," Tyler, in St. Joe county, Idaho, in August, 1904. Tyler was found murdered on his timber claim. Adams was taken back to the penitentiary, Detective McPharland accompanying the officers who had him in custody. If Adams can be held under this charge of murder he will be kept within the jurisdiction of the Idaho courts, and will be available as witness against Moyer, Haywood and Pettibone, charged with the murder of former Governor Frank Steunenberg.

THE LIMIT.

Dora—Never tell Flora any secrets.

Cora—Can't she keep them.

Dora—Keep them? Why, that girl tells people her right age.— Cleveland Leader.

GAVIN SPENCE-NANNIE STRACHAN ENTERTAINMENT

Miss Nannie Strachan and Mr. Gavin Spence passed through on the morning train from Nanaimo, where they entertained last evening. On Monday night they appear in Seattle, boarding the midnight train after their engagement on the return trip to Ladysmith, where they are booked for Tuesday evening. In speaking of the concert in Nanaimo last evening, this morning's Herald says:

The Gavin Spence-Nannie Strachan Scottish concert in the Presbyterian Church was attended by an audience which filled the gallery and almost the whole body of the church last evening.

Mr. Spence visited Nanaimo four years ago, but last evening was the first time that Miss. Strachan ever sang before a local audience. It was a programme of song and story that was furnished, and the two artists captivated all listeners. Miss. Strachan sang among other numbers the "Scottish Blue Bell, "Caller Herrin" "Coming Thro the Rye. All these time-honored selections were given in splendid voice and the large audience were so entranced with the sweet voice of the singer that they demanded encores after every selection.

Mr. Spence told a number of droll Scottish jokes, and in his recitation of the story "Jessie's Dream of the Relief of Lucknow," was encored repeatedly.

The ducts rendered were also heartily appreciated, the "Crooked Bawbee" being ably rendered by the talented artists in a manner that called forth round after round of applause.

The entertainment was brought to a close by singing of Auld Lang Syne, and God Save the King.

It is safe to state that the entertainment given last night by Mr. Spence and Miss. Strachan has never been excelled in this city. It was a rare treat indeed and should the clever entertainers ever give Nanaimo another call they can rest assured of a bumper house.

CANADIAN APPLE GROWERS ARE SLOW

Vancouver, Sept. 14.—Apples from the States of Washington, Oregon and California, three thousand cases, or a hundred and fifty tons of them are today being loaded on the Canadian-Australian liner Miowera, that is scheduled to sail tomorrow afternoon for Sydney. The entire consignment is billed to Sydney.

American apples, by reason of the vim with which they are pushed in the Australian market have a large sale there every year and not a British Columbia apple is shipped for competition. Despite the fact that Canada maintains a trade agent in Australia Canadian applegrowers appear to be to apathetic to take advantage of their opportunities in this trade, and have allowed the Americans to cut the ground from under them.

The Miowera will take out a cargo of approximately eighteen hundred tons of miscellaneous freight. She will have about three hundred tons of California potatoes and onions, several carloads of automobiles from Lansing, Mich., paper from Quebec pulp mills, plows and other agricultural machinery from Ontario, drugs and some two thousand cases of British Columbia salmon consigned to Sydney.

OPTIMISTICAL.

For the third consecutive time the neck of the fowl had been served to the new boarder.

"Anyway," he remarked to his neighbor, "I'm glad it's chicken instead of an ostrich."—Chicago News.

AMERICAN FLEET WILL SURROUND CUBA

Washington, Sept. 14.—It appears that within a short time an effective fleet of eight naval vessels will surround Cuba and they will be manned by marine contingents making good a deficiency in the equipment of the Denver. In addition to the Denver the New Haven and Des Moines already are cruising the Florida straits from Key West for that port. The Marietta probably is at Cienfuegos though interrupted telegraph lines makes it difficult for her to report. The Dixie with 300 marines aboard is making all haste from Guantanamo for the Cuban Capital while in home ports the Tacoma is about to sail for Cuba from Norfolk to be followed tomorrow by the Cleveland and the Newark at the same port, and the Minneapolis at League Island are taking on stores with all speed under preparatory orders.

DRUGGIST MADE FATAL MISTAKE

London, Ont., Sept. 15.—Mrs. Jno. Labatt, wife of John Labatt, the brewer, died this evening from strychnine poisoning. The poison was contained in medicine, placed there in mistake by a clerk in a local drug store.

Mrs. Labatt was a daughter of the late Henry Sackville Browne, retired officer of the East Indies company, and was born at Kingston, Jamaica. Her children are: John S., Dora, Hugh F., Mary, Ismond, and Jean, at home. The following are step-daughters: Mrs. A. D. Scratcherd, Mrs. Hume Cronyn and Miss Lena Labatt.

VICTORIA'S WATER SUPPLY.

Among the visitors in the city yesterday, says the Winnipeg Free Press were Andrew Sheret and Ald. Davey, of Victoria, B.C., who are on their way to attend the sovereign grand lodge of the I.O.O.F. They expect to be away about two months. Mr. Davey inquired about the water question in Winnipeg, stating that that was the all-engrossing subject in Victoria at present. A private corporation has secured control of the present source and all the important available supplies, and the city is facing a serious situation. The price asked by this company is considered as high, and the present supply is inadequate for a city any larger than Victoria is at present.

VICTORIA GIVES ROYAL WELCOME TO LORD GREY

Victoria, B. C., Sept. 14.—(Special.)—His Excellency the Governor General and Countess Grey and party arrived by the D.G.S. Quadra at 4 o'clock today from Vancouver and landed at the C. P. R. dock. A guard of honor from the Fifth regiment received His Excellency with the customary royal salute.

After inspecting the guard, the vice-regal party entered carriages and drove to the entrance of the parliament buildings where the civic address of welcome was read by Mayor Morley.

The Governor-General in his reply thanked the citizens for their enthusiastic welcome, and made special reference to the glorious sunshine and beautiful skies which had added so much to the enjoyment of both himself and Lady Grey and suite. The party re-entered their carriages amid the cheers of the throng that filled government square and were driven to the Government house, the entire route being gaily decorated with flags and bunting and several handsome arches. The city is brilliantly illuminated tonight in honor of the guests.

A BOUY FROM H. M. S. CONDOR

Like a voice from an ocean grave blown landward on the driving spindrift, comes word of the ill-fated Condor, which was swept from mortal ken in the gale that wrought such havoc along these coasts early in December of 1901.

PurserAlex. Ferguson of the Amur, that arrived in Vancouver from the North, brings the message down from Heriot Bay which calls to mind one of those stories of the sea which are so often a nine day's wonder while they last and are then swallowed up in that forgetfulness which is a characteristic of a busy world. This message is in the shape of a life-buoy picked up by some miners on the shore of Heriot Bay and which upon inspection proved to be one of the life-saving belts from the ill-starred cruiser.

It will be remembered that the Condor sailed from Esquimault in company with the Warspite on the morning of December 2nd, 1901 en route to Honolulu and has never been seen or heard of since. On the following night a teriffic gale blew off the coast and the two ships parted company. It was not until January 12th, 1902, that fears began to be entertained as to the warship's safety, and although the authorities were optimistic and thought every thing would turn out alright and that she would report at Honolulu in time, there were those who were sure that she had gone down in the terrible storm which caused many wrecks and which had been general all over the coast.

The Condor was a brand new ship and this was her initial commission so that no definite idea could be formed as to her ability to weather a big storm. She was of the type of well decked sloops, very high forward and aft, and very low amidships, thus making it impossible to throw off seas breaking over her as readily as if she was of the flush decked style. She carried a completment of about 140.

On January 23 word was brought by the United States cruiser Grant, that Barkley Sound Indians had found a boat which was thought to be one of the ship's life-boats, but this was afterwards found to belong to a sailing vessel that was wrecked on the beach two miles east of Cape Beale. On Juanary 21 the schooner Mahilla reported having seen wreckage about 200 miles out of Honolulu. Upon several occasions during the following three months, wreckage supposed to be from the missing ship was found but no definite surety that any of it really was, and this relic picked up at Heriot Bay is the first direct message from the disaster.

Strange to say another buoy was found at the same place and almost at the same time which comes as another call from the dead. This one is from the Bristol, one of the Dunsmuir colliers, which was wrecked on a reef, off Port Simpson during the same storm.

And thus the sea gives up the dead that are in it.

PRESIDENT OF CUBA MAY RESIGN OFFICE

Havana, Sept. 14.—Rumors to the effect that President Palma purposes to resign, continue to be circulated. They are given some color by the fact that General Rafael Montalvo, secretary of public works does not approve of the landing of the American officers as told the messengers from Alfred Sayas. General Montalvo declines to speak of the situation, and the rumor of the President's resignation cannot be confirmed in government quarters.

ARTILLERY IN READINESS

New Orleans, Sept. 14.—It is reported that the artillerymen at forts Philip and Jackson on the Mississippi river below New Orleans have been ordered to hold themselves in readiness for movement. There are two companies of artillery in these forts.

RESCUED WITH DIFFICULTY.

Albany, N.Y., Sept. 14.—In the ruins of the fire which destroyed a two story brick building early today, Chief Higgins of the fire department found the charred remains of a man which was identified as that of John J. Hayden. The fire is believed to have been caused by an explosion on the ground floor and it was with great difficulty that the two families living on the upper floors were rescued.

DEVOTES LIFE TIME TO STUDY OF LEPROSY

Washington, D. C., Sept. 13—After displaying rare heroism by the devotion of a life time to the study of leprosy, Eugene H. Plumacher, American consul at Maracaibo, Venezuela has decided that the dread malady is not contagious, but is hereditary to a degree not reached in other diseases.

He has made an exhaustive report to the state department telling of his personal attendance upon lepers afflicted in the most revolting form. His report indicates that leprosy is curable, but that there is little hope in Venezuela or other Latin American leper colonies where nutritious foods and expensive foods are rarely provided.

Dr. Plumacher was appointed to Maracaibo in 1878, where in jointure with his duties as consul he has constantly observed leper cases and their treatment and where he experimented in no small way. In this he has the benefit of correspondence with the most advanced scientists of the United States and Europe, and it was through his efforts that the "Tua Tua" plant used in treating the disease is now planted in all countries which have leper stations. At the request of these scientists the doctor took a large number of photographs of lepers, personally removing the bandages of the afflicted in order that the results might be obtained. It was prophesied then that he would contract the disease, but this did not happen.

Havana, Sept. 14.—Gen. Raefael Montalvo, secretary of public works authorizes a denial of the report that President Palmas' resignation is embodied in his message to Congress.

WAS A VERY SICK BOY.

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox, of Midland, Mich. This remedy can be depended upon in the most severe cases. Even Cholera infantum is cured by it. Follow the plain printed directions and a cure is certain For sale by Ladysmith Pharmacy.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of Interior

PAIN FROM A BURN PROMPTLY RELIEVED BY CHAMBERLAIN'S PAIN BALM.

A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Straus came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says' "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains, and lame back, and have never known it to disappoint." For sale by Ladysmith Pharmacy.

HIGH ST. LADYSMITH

A BOILER EXPLOSION

Mount Sterling, Ky., Sept. 14—The boiler in Reilly Water's saw mill at Mariba Menistee County exploded today, killing John Hale and Ross Bird. Three others were burned so badly that they will die.

St. Isidore, P.Q. Aug. 18, 1904.
Minard's Liniment Co., Limited'

Gentlemen.—I have frequently used MINARD'S LINIMENT and also prescribe it for my patients always with the most gratifying results and I consider it the best all-round Liniment extant. Yours truly,

DR. JOS. AUG. SIRIOS.

MURDER AND SUICIDE.

New York, Sept. 14.—Mrs. Victor Anthony, 35 years old cut the throat of her three year old daughter Annie today in her home in Jersey city, then going to the roof she jumped to the street three stories below. The child is dead and the mother is dying. Mrs. Anthony has recently exhibited signs of mental derangement and there is no doubt that she suddenly became violent

DAMAGED BY HURRICANE.

Boston, Mass., Sept. 14.—The United Fruit Company's steamer Brewster, seven days overdue at this port from the West Indies arrived at Port Antonio, Jamaica today according to cable advices received by the company officials here. The cable said that the Brewster suffered great damage in the hurricane last week. She carried a crew of 35 men but no passengers.

A SURPRISE SPRUNG.

Winnipeg, Sept. 14.—A surprise was sprung on the public today by the announcement of the organization of a life underwriters association, which practically includes representatives of all straight life Companys doing business in the West. Thirty-three companies were represented at the organization meeting. The object as the association is to promote mutual interests even to the extent of watching legislation.

CHAMBERLAIN'S COUGH REMEDY ACTS ON NATURE'S PLAN

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price 25 cents. Large size 50 cents. Forge size 50 Large size 50 cents. For sale by the Ladysmith Pharmacy.

HOT and COLD WATERBATHS

J. GILMAN

The Cowichan Leader of today contains the following:

"Mining is to the front again. The announcement in last Saturday's paper caused new interest to be taken in this important industry and especially in the Mt. Sicker camp. We stated that we believed the Richard III. mine would resume operations again soon. There is a meeting of the directors of that company today, and while we do not pretend to say what action they will take, there is but little doubt but work will begin at once, and it is confidently expected in a very short time regular shipments of ore will follow. Little will have to be done in the way of preparations. The rich ore bodies that extend into the ground, as is now proven, should soon be reached when shipments would begin at once. Good reports are coming from the Koksilah camp, where development work is steadily being carried on. Work is also being done on the new strike on the south side of the lake andparties interested up there seem well satisfied that they have some valuable properties. So that all in all mining on that part of the island is looking up."

NOTICE.

Miss Dobeson will resume her classes in vocal culture in Ladysmith the first week in October. Terms on application. Box 12, Nanaimo. B.C. 'Phone 1-4-6.

EARN CASH
In Your Leisure Time

If you could start at once in a business which would add a good round sum to your present earnings—WITHOUT INVESTING A DOLLAR—wouldn't you do it?

Well, we are willing to start you in a profitable business and we don't ask you to put up any kind of a dollar.

Our proposition is this: We will ship you the Chatham Incubator and Brooder, freight prepaid, and

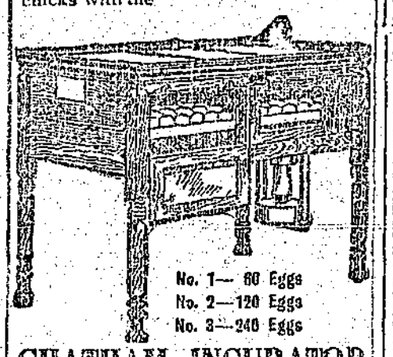
You Pay No Cash Until After 1906 Harvest.

Poultry raising pays.

People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is—to lay eggs. As a hatcher and brooder she is outclassed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry-raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the



CHATHAM INCUBATOR AND BROODER.

"Yours is the first Incubator I have used, and I wish to state I had 52 chicks out of 52 eggs. This was my first lot; truly a 100 per cent. hatch. I am well pleased with my incubator and brooder. THOS. McNAUGHTON, Chilliwack, B.C."

"My first hatch came off. I got 170 fine chicks from 190 eggs. Who can beat that for the first trial, and so early in the spring. I am well pleased with incubator, and if I could not get another money could not buy it from me. Every farmer should have a No. 3 Chatham Incubator.—F. W. RAMSAY, Dunnville, Ont."

"The incubator you furnished me works exceedingly well. It is easily operated, and only needs about 10 minutes attention every day. R. McGUFFIN, Moose Jaw, Assa."

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.

You pay us no cash until after 1906 harvest.

Send us your name and address on a post card to-day.

We can supply you quickly from our distributing warehouses at Calgary, Brandon, Regina, Winnipeg, New Westminster, B.C., Montreal, Halifax, Chatham. Address all correspondence to Chatham. 314

STANFIELD'S UNSHRINKABLE UNDERWEAR

MR. OZIAL ROUNDS.

A Resident of Welland Finds Relief in Pe-ru-na.

SUFFERED 15 YEARS.

Mr. Ozial Rounds, Welland, Ont., a retired lumberman and a resident of Welland for half a century, writes:

"For fifteen years prior to 1900 I was a sufferer from hay asthma and chronic diarrhea. I grew weak and emaciated and was tortured with insomnia.

"I was treated by eminent physicians but, if anything, was worse than ever. In fact, I was in as miserable a condition as a man could be.

"However, I chanced to try Peruna and noticed an improvement. Thus encouraged, I continued, and after taking several bottles of your precious Peruna, I was entirely well and a wonder to myself and friends.

"If, at my advanced age, 83 years, I have obtained such good results from Peruna, after so many years of needless suffering, there can be no doubt of its efficacy in the treatment of younger persons."
