LEGISLATIVE ASSEMBLY.

THE LADYSMITH DAILY LEDGER

Legislative Assembly
SEP 27 1906
VICTORIA, B.C.

VOL. 2 TUESDAY, SEPT. 25, 1906. PRICE: FIVE CENTS

COAL COMPANY OF ALBERTA HAS A RECORD

Victoria, Sept. 25.—Mr. N. H. Galer, manager of the International Coal & Coke company, of Coleman, Alberta, who is on the coast, states that the record of all the mines in the Crow's Nest Pass was broken when his company mined and shipped 1,751 tons of coal in one shift. Thid took place three or four weeks ago. It was done without any special effort on the part of the company, and during the shift the box-car loader was out of commission for fully an hour. Mr. A. C. Flumerfelt is one of the principal officers of this company.

It is just four years ago this month since the first coal mined from this property was taken out and tested in the coke ovens at Fernie. The property at that time was known as the Paulson mine and under the charge of Mr. Newport. The coal was first opened up at a point on the veins about three miles back in the hills from the present site of the town of Coleman, where is now situated the present mines and workings of the company. The coal was sacked and brought out to Blairmore by pack horses. A. P. McDonald, now of Coleman, but at that time running a livery stable at Frank having the contract. More depended upon the test made on this coal than anyone at the time dreamed of, for on it rested the fate of what is today the International Coal & Coke company, and the prosperous town of Coleman.

At that time the present site of the mine and workings had not even a prospect hole upon it or the veins uncovered, that portion of the property then belonging to the Hudson Bay company and the land upon which are now situated the up-to-date plant and works was a series of creek bottom, bog and brush. The town of Coleman, was not even thought of, and yet lacks a month of it being three years since it was laid out into town lots and the first building started. Many of Coleman'r foremost citizens were then in the Pass, but took little interest in the tests being made upon the coal.

SAYS U. S. COAL WILL BE EXHAUSTED

Mr. J. J. Hill, the Canadian Morn magnate, the president of the Great Northern railway, has prepared a paper which may be regarded as one of the most notable contributions ever made in America to economic science.

In it he demonstrates clearly the spendthrift tendency of the Republic to squanderer its great natural resources, and points out the grave dangers confronting America, with its rapidly growing population. Its forests and mines will alike be depleted within a comparatively brief span of years. The bulwark against national disaster, he points out, must be in a more intelligent development of our vast agricultural resources.

Regarding the coal of the United States, the paper contains the following:

"A general estimate of competent geologists for the life of the better coal measures of Europe as a whole is less than one hundred years. The output of the United States is now more than 350,000,000 tons annually. It doubled within the decade from 1895. It now amounts to between forty and fifty per cent. of the world's entire supply. The estimated life of the Pennsylvania anthracite fields, whose narrow area has permitted closer approximation, is put at a little more than fifty years The larger supply of soft coal has to answer a demand many times as great. It is certainly a moderate statement to say that by the middle of the present century, when our population shall have reached the two hundred million mark, our best and most convenient coal will have been so far consumed that the remainder can only be applied to present uses at an enhanced cost, which will probably compel the entire rearrangement of industries and revolutionize the common lot and the common life. This is not a mere possibility, but a probability which our country must face."

DISMEMBERED BODY OF A MAN FOUND

New York, Sept. 25—A burlap bag stamped with the name Z. K. Mano, A strip of a woman's skirt and an oilcloth table covering are the only immediate clues to the perpetrator of a revolting murder committed early today.

The dismembered body of a man apparently an Italian, wrapped in a bag, was accidentally found in an excavation at 604 West Thirty-sixth street.

The discovery was made by the day watchman and later a systematic search by the police disclosed parts of a man's legs from the knees down and the arms and hands. These were wrapped together in a newspaper dated September 10, and bound about the bundle was a strip of a woman's skirt. All was neatly and securely tied with a string suggesting deliberate preparation. This latter bundle was found under a covering of hay in an empty freight car at Thirty-sixth street, and Eleventh avenue.

The head and thighs of the man are missing.

It is the theory of the police that the murder was committed near where the body was found and that three packages of the dismembered parts had been made, with the purpose of disposing of them at some distance from the scene of the crime The police believe that the persons carrying the bundles became alarmed and hurriedly disposed of them at the nearest convenient hiding place, They are looking for a third package.

Coroner's Physician Weston, who examined the body, said that the body had been washed after death, liberately and skillfully done. The work of dismemberment had been done which evidently had preceded the discovery of the murder only a few hours. There were three stab wounds on the body, one over the heart. The burlap bag bore the name of Z. K. Mano.

A Syrian importer of that name, whose place of business was 38 Washington street, died three weeks ago. A number of sacks similar to the one in which the body was found were among the effects sold after the man's death, and the police are trying to trace these sacks.

ARE GOOD FRIENDS

New York, Sept. 24.—John Mitchell, president of the United Mine Workers of America and Samuel Gompers, president of the American Federation of Labor, had a conference here today after a meeting of one of the sub-divisions of the Civic Federation. Mr. Gompers afterwards said to a reporter "Solar as published statements of a breach between Mr. Mitchell and myself are concerned, I can say there is no truth in them. He and I have worked in harmony all the time so far as the past is concerned, and I trust the future has no change in our pleasant relations."

Mr. Mitchell who was present said "There is not the slightest basis for such reports."

SURGICAL DISCOVERY

Stuttgart, Sept. 25.—Prof. Garre, of Breslau, gave yesterday to the Congress of Natural Investigation and Medicine, now in session here, the result of his experiment of transplanting blood vessels and organs from one body to another. This is attention at the meeting of the Brilattention at the meeting of the British Medical association held in Toronto last August. Professor Carre described the case of a four-year-old boy suffering from cretinism, who had portions of his mother's thiroid gland transplanted to his spleen. The child after nine months is developing mentally, and can walk and talk. Prof. Garre narrated successful experiments in the transplanting of blood vessels from one living animal to another. He had also transplanted blood vessels from animals that had been dead for an hour and a half to live animals.

FARMERS' WIVES OBJECT TO HINDOOS

New Westminster, Sept. 25.— Women who reside on the Port Moody road and in the district are becoming terrorized qy the Hindoo invasion. The men from India's coral strand are very peremptory in their demands and five or six of them will march up to a farm house, push open the door, and one of the number will say in a peremptory manner, "I want milk." If the lady of the house says she hasn't got any, they look very vexed, and inform the lady to the best of their ability that they doubt her word and still want milk. If the men of the house are around, the Hindoos seem more inclined to be peaceable, and a number of the ladies of the district hav informed their husbands that they simply will not be left alone. The Hindoos seem to have the idea that what they want along the line of eatables and drinkables they are entitled to, and where they happen to have their demands supplied they show no signs of being willing to pay the price.

A fierce battle lasting about half an hour took place last evening on Columbia street between two Punjabees on one side and Officer Burke on the other, and much blood was shed before the man of law and order finally overpowered his opponents and marshalled them off to the lock up. The Sikhs had been drinking freely, and had indulged in a fistic exhibition in Chinatown earlier in the evening. When they were noticed by the officer they were singing and gesticulating on the street, each carrying a bottle of whiskey under his arm. When requested to be quiet, they dropped the whiskey and busy warding off blows for a few attacked the policeman, and kept him minutes. During the course of the struggle Bourke's face was decorated by the addition of two black rings around his eyes, while the Sikhs presented a sorry spectacle by the time the officer got tired.

SLANDERS WERE CAUSE

St. Thomas, Ont, Sept. 24.—W. H. Hepburn, Liberal candidate for East Elgin resigned on Saturday afternoon. At a meeting of the executive of the Liberal association which was held at Aylmer Saturday night Granville Haight a well known farmer of Sparta was unanimously selected to succees him, and a convention will be held at Aylmer on Tuesday to ratify the choice of the executive. The reasons ascribed for Hepburn's resignation are various, but Hepburn himself stated that his resignation was the result of systematic slander, circulated by his opponents within the party, but further than that he would not discuss the question.

The editor who goes into the business of office-seeking and takes his newspaper with him places both in a position of embarrassment. It is too much to expect that he will allow his columns to be used to aid and abet the candidacy of his opponent. ut if he uses the paper to boost himself, by suppressing, coloring, distorting and exaggerating the news, he degrades and debauches it and injures its character. A newspaper that is not fair in its news reports is foul, and cannot long retain the confidence and respects of decent readers. There is no place in modern journalism for the organ. A political organ is bad enough; a personal political organ is worse, and an abomination on the earth. An established newspaper is a quasi public institution. It owes a duty to the public which cannot be ignored, and not even its owner has the right to debase it for selfish purposes. To do so is almost to commit sacrilege. But, as a matter of policy, it is doubtful if an editor in politics can help his own candidacy with his own newspaper. Mr. Watterson thinks not. — Richmond Times-Democrat.

UTE INDIANS ARE ON THE RAMPAGE

Cheyenne, Wyo., Sept. 24.—Trouble is expected as the result of the decision of Governor B. B. Brooks and the state government to get rid of the Ute Indians now camped near Casper, Wyoming, who have made preparations to make their permanent home in the North Platte valley and the army will be used to escort the Indians back to the reservation in Utah if they fail to leave peaceably.

On September 17 Governor Brooks wrote to the Interior department and also to President Roosevelt asking that the Tenth Cavalry, which will be at Douglas attending the state fair on September 25, be detained to round up the Indians, place them on a train at Casper and start them back to their reservation. He informed the federal authorities that the Indians were killing live stock, violating the game laws and robbing sheep camps and ranch houses and that the county authorities were powerless to interfere as they feared an open rupture would occur if they attempted to arrest any of the redskins.

Governor Brooks today received a reply from Thomas Ryan, acting secretary of the interior, in which he states that Inspector McLaughlin has been ordered to Casper to confer with the Indians and try to induce them to return to their reservation and that if they refuse the President will order out the Tenth Cavalry and drive the Indians out of Wyoming.

The 700 Utes arrived in the Platte Valley country a month ago and since then much anxiety has been felt in Central Wyoming over their presence. When the reservation in Utah was thrown open to settlers they did not like the lands allotted to them in several places and hence left their reservations and moved into the rich Platte Valley in this state. All the lands are taken up and for the last month the Indians have been trespassing on private land. All are heavily armed with the finest Winchesters and although repeated reports of the killing of live stock and other depredations have been made the county officials have refused to act, fearing an uprising.

EUROPEANS DO NOT OBJECT

Paris, Sept. 24.—The intimations contained in despatches from London to the continental press to the effect that the powers are about to engage in negotiations with the view of taking united action to induce the United States to recognize the principle of the open door in Cuba in the event of an American protectorate or the annexation of the island, finds no shadow of confirmation here. On the contrary the foreign office declares specifically that nothing of the sort has been suggested from any quarter.

France assumes that the United States is acting in perfect good faith and with the sole object of restoring order and is thus replying to the inquiries of the French merchants who are manifesting anxiety about their status should Cuba fall under the domination of the United States.

WEALTH IN STOLEN TIES.

J. C. Betancue, the Southern Pacific detective, has been tie-hunting for the company for several weeks, and has located some 5,000 Southern Pacific ties on ranches and at mines some of them forty miles from the Southern Pacific right-of-way. He also found many Santa Fe ties west of Deming, where they had been carried by floods. An untreated tie costs the Southern Pacific on its New Mexico division, when put off the car, $1, and a treated tie costs $1.25.—Albuquerque Citizen.

CITY COUNCIL'S WEEKLY SESSION

At the council meeting last evening, it was shown that the total cost of removing stumps since the arrival of the stumping machine in the city amounts to $1,121.77. This includes cost of powder, labor, team work, etc. It was decided that after the machine has finished work on Second Avenue through to Simonds street, it will be taken along First Avenue, removing the few remaining stumps on that avenue, after which the machine will probably be finished in this city. This will leave about $1,000 on hand for grading, etc., and it is evidently the intention of the council to do all in this line possible. According to the road foreman's report last evening, the cost of work on High St., towards which the residents in that vicinity donated $100, has amounted to $161.50.

A letter containing the resignation of Wm. Ingham as poundkeeper, was received last evening. Ald. Malone, in speaking on the matter, thought that the poundkeeper had not been very busy of late and that the resignation should be accepted by all means.

Ald. Tha also thought much of the poundkeeper's work had been overlooked. He complained of the numerous cows which are tied on the streets of the city, particularly on Kitchener street. He stated that residents of this street were complaining, and thought their complaints should be heeded. His Worship was also in favor of having something done to prevent people tying their cows anywhere they pleased, and the new poundkeeper will be instructed accordingly. It was decided to call for applications for the position of poundkeeper and gravedigger.

In speaking of the visit of Earl Grey, the Mayor explained that as nearly as can be ascertained at the present time, His Excellency will arrive Thursday afternoon between 1 and 1:30, and will likely remain here about half an hour. The governor is expected to arrive in Nanaimo at ten o'clock in the forenoon, and remain there until one o'clock.

From there the party will take the train for Ladysmith, and after stopping off here, will proceed to the Extension mines. The mines will be working on that day.

In discussing the matter last evening it was decided that, owing to the fact that no carriages will be available, it would be useless to attempt to show His Excellency anything of the city. A platform will be erected at the station, upon which the address will be presented. If the day is not fine, the platform will be covered.

Mayor Nicholson introduced the subject of a remuneration by-law to provide for the payment of the aldermen and mayor for their services. He explained that this, of course, could not come into effect during the present council's term of office, but it could be introduced and passed for the next council. It was hardly to be expected that aldermen could go on serving on the board if they did not receive sufficient money to defray their actual expenses. For instance, at the present time, if one of the board happened to be working on the afternoon shift, and an important meeting was to be held that night, it would be necessary for the alderman to loose a shift, or miss the meeting. This was often the case at present not only with one alderman, but with several. His Worship suggested that the amount to be received be fixed at about half that received by the councilmen of Nanaimo. The present board has but three months more to serve, and if anything in the matter was to be done it would have to be done soon. The rest of the board coincided with the views extended by His Worship, and something will likely be done shortly in the lway of introducing a by-law.

Those present at last night's meeting were His Worship, Mayor Nicholson, and Aldermen Campbell, Tha, and Malone.

4,000 LYNCHED IN 25 YEARS

New York, Sept. 24.—The World today says: Four thousand persons have been put to death without warrant of law in the United States in the twenty-five years. Ninety five per cent of them were negroes charged with assaults on white women. The methods of execution comprised hanging, shooting, flogging, burning at stake and flaying. In one instance in Arkansas, the victims arms and legs were twisted from their sockets. As a rule the more atrocious the crime the more atrocious the punishment."

PLAY FOR BIG HONORS

Buffalo, N.Y., Sept. 25.— All arrangements for the post-season series of games between the Buffalo team, winners of the Eastern league pennant, and the Columbus team, winners of the American association pennant, have been completed. Six games will be played, three in Buffalo and three in Columbus. An extra one, if needed, will be decided in some city to be agreed upon later. All receipts will go to the players and the winners of the series will receive 60 per cent. of the receipts, while the losers will receive 40 per cent. The games will be for the world's championship of class A leagues. The first three games will be played in Buffalo on Sept. 27, 28, and 29. The next three will be decided in Columbus on Sept. 30, Oct. 1 and 2. Only bona fide members of the teams will be allowed to take part in the games. The Eastern league players will select an umpire and an indicator handler will also be chosen from the American association.

BIG PERCENTAGE UNDERFED IN U. S.

Refering to the Clews bulletin, Collier's Weekly says: "One person in every eight in the United States in underfed, underclothed and underhoused. The average income of the average family is not far from $600 a year. An unskilled laborer earns less than $300 in the south and less than $400 in the north. One per cent of the families of the country possess more wealth than the remaining 99 per cent. Over 1,700,000 children under fifteen years of age are toiling in fields, factories, mines and work shops. In the year 1900 there were 6,468,964 workers in gainful occupations unemployed or from one to three months. Every year 60,000 persons are killed by accidents incident to their work and 6,00,000 are seriously injured. Two-thirds of the population of New York are forced to live in tenements, in which there are 350,000 dark interior rooms. Last week a woman was found starving in Madison square A thousand ladies of New York are devoting themselves to the raising of pet dogs instead of children. What a country! What a people!" To which the Denver News adds: "It is a sad commentary that those who are chiefly concerned with, and who boast of the bigness, might and wealth of the country seldom give any thought to other side of the question herewith presented. Were it otherwise there would be less reason for Mr. Clews and others of his ilk deprecating the agitation which they assert disturbs business.

STIRRED THE UPPER CRUST OF SOCIETY

Some amusing incidents have occurred along the route of the Vice-Regal party on their present trip. At Nelson, for instance where the party stopped four days a report taken from a Greenwood paper says:

"The coming of so many titled personages to Nelson sturred the upper crust of society until it was soft in the upper stope, and caused a' vast amount of friction between the masses, and the so-called classes. The Council decided that the reception would be as informal as possible, with no dance as the Governor General came here to meet all the people and not any particular class or clique. In spite of this fact two ladies came to the Mayor and spoke about giving a dance to the ladies of sub-royalty. The Mayor interviewed Captain Trotter who stated that the ladies were tired and did not wish any dance. However, the society of Nelson is resolute so on Thursday a committee of nine ladies issued invitations to a certain number of people to attend a dance in honor of Ladies Sibyl and Evelyn, and the war began. According to Court etiquette the vice-regal party were guests of the Mayor and all invitations should have come through him, but his wife was not even on the committee. The leaders, or would-be leaders of Nelson society, parvenu and patrician, as this is a free country had a perfect right to get up a ball for the delectation of nobility and themselves, even if many in the community did consider their conduct of the affair contra bonos mores. But in inviting the white-shirted boys of the Rocky Mountain Rangers to appear in full dress,, and forgetting, the blue-shirted chaps, or asking them to appear in regimentals, a bomb was thrown into the camp that is still sizzling. The west is too new for snob rule, and those members of the sub-royal party who pandered to it in Nelson, seemingly stepped aside from the finely drawn lines of exact etiquette, but, perhaps their curiosity to see a western hoe-down was greater than their judgement. The Earl of Grey and his party did not come here to raise envy and strife in the community by favoring any clique or band of tuft-hunters. They were here in their official capacity to meet all on an equal plane. It is stated the Earl regretted the unpleasantness that occurred and issued orders that in future everything on his tour would be strictly official and not swayed in the least by the desire of uppertendom to bask in the sunshine of blueblood to the exclusion of their neighbors.

His Excellency took great interest in Nelson and consulted the Mayor and others upon a variety of matters concerning the district. He entertained the mayor and his wife to dinner, and won the respect of all with whom he came in contact. He was much interested in the subject of labor and at his request F. Phillipps gave his side of the question. He no doubt was familiar with the woes of the poor capitalist. Nelson now awaits the coming of the Prince of Wales, for it is now ready to exclaim, Sic transit gloria mundi.

CUBAN GOVERNMENT YIELDS.

Havana, Sept. 24.—It was rumored late this afternoon that the government and the moderates had tacitly decided to concede practiceally everything to the Liberals and rebels.

SENATOR LOVITT INJURED.

Halifax, N. S., Sept. 24.—At Yarmouth today, senator Lovitt, fell from a tree in front of his residence to the side walk about fifteen feet, and had two ribs broken and his back injured. His physicians say the injuries are not fatal.

CONTINENTAL POLICY HOLDERS

Paris, Sept. 24.—The proposed general meeting of representatives of continental policy holders in American Life Insurance Companies scheduled to take place in Paris tomorrow has been abandoned. Samuel Unitermyeryupon his arrival here from New York finding that such a meeting is impracticable.

JUSTICE DUFF TO THE SUPREME COURT

Victoria, B. C., Sept. 24.—Mr. Justice Duff, who since February 1904 has been a member of the Supreme court bench of British Columbia has accepted the vacancy o the Supreme Court of Canada. He will leave Victoria for Ottawa in order to be sworn in in time to be present at the sitting of the court on October 2

RELIANCE TEAM WINS

Sunday afternoon in the presence of a small crowd the Reliance baseball team defeated the Eagles by the score of 10 to 5 and won the city championship for the season of 1906. The Eagles had the strongest team, they have put on the field this season, their line-up containing Miller, Little, Farmer and D. Aitken. The game at times was good, some snappy plays being made on both sides. While the Eagles made all their runsyin one inning, the victors got theirs in several innings. This is the last game of the season unless the boys can be persuaded to put on an exhibition game or two before the wet weather sets in. Mr. William Ashman acted referee in a very imparzial manner
very impartial manner.

Atlanta, Ga., Sept. 24.—The body of Zebe Long, a negro was found hanging in the woods early today near East Point, a suburb, eight miles south of Atlanta. Long was located in the East Point jail charged with disorderly conduct. The jail was broken into shortly after midnight and Long was taken to his doom. The usual mystery surrounds the affair.

Minard's Liniment for sale everywhere.

PAIN FROM A BURN PROMPTLY RELIEVED BY CHAMBERLAIN'S PAIN BALM.

A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Straus came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says' "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains, and lame back, and have never known it to disappoint." For sale by Ladysmith Pharmacy.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of Interior

Minard's Liniment Co., Limited.

Gentlemen,—I was badly kicked by my horse last May and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured so that I could start on the road.

NANAIMO NEWS NOTES

The Dominion Government Fisheries steamer the Georgia arrived in the harbor last evening.

Mr. Parish and wife of Winnipeg are visitors in the city and are the guests of Dr. and Mrs. Mason, Church Street. Mr. Parish is a member of the Winnipeg Grain Exchange. Mrs. LePenotiere, of Vancouver who at one time resided in Nanaimo, came over with Mr. and Mrs. Parish and is also staying with Mr. and Mrs Mason.

Among the passengers that came down from the north on the Princess May, which arrived in Vancouver on Saturday, were Mr. Ralph Johnson, and Mr. and Mrs. Abraham Hickman and family of this city. Mr. Johnson came over on Saturday night while Mr. Hickman and family spent Sunday in the Terminal city, coming over to Nanaimo on the Joa last night.

Mr. Johnson is looking hale and hearty after his stay in the north, and will probably return there in the early part of next year. He speaks in hopeful terms of the future of the Klondyke, which he thinks is only in its infancy as a gold producing country. For young men especially, says Mr. Johnson, the Yukon presents many golden opportunities, and his advice to young men who are thinking of changing their environment is to try the Yukon.

The wages paid in that country at present are for laboring men from $4 to $5 a day and board, and there is all kinds of work to be had. The Guggenheims alone employed about 3000 men this season, and this number will be largely increased during the next seasons work.

Mr. Johnson was engaged with a Dominion Survey party, which was surveying along the rivers and streams of the Yukon District.

Mr. and Mrs. Hickman and family will spend the winter in this city, and will return to their home on Dominion Creek in April next. It is about three years and a half since they left Nanaimo for the northern gold fields, which Mr. Hickman thinks contain great future possibilities.

Mr. Hickman in partnership with Mr. John Dixon, also a Nanaimoite, are inserested in several claims on Dominion Creek which are turning out fairly well. They are proposition fields, that can only be worked profitably in the summer time, so that Mr Hickman decided to come out this winter, and for a change try the old town once more.

Messrs Hilton, Webster, Charles and Albert Deeming and J. Gillispie, all from this city are working lays on Dominion Creek and are doing fairly well is the news brought out by Mr. Hickman.

Of course, he says, the dredge is now the great proposition for securing gold and will continue to be so for years to come.

WAS A VERY SICK BOY.

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox, of Midland, Mich. This remedy can be depended upon in the most severe cases. Even Cholera infantum is cured by it. Follow the plain printed directions and a cure is certain For sale by Ladysmith Pharmacy.

ing had been adopted as read, a communication was read from the General Manager of the Canadian Service and Colonization Company, stat

The Full board was present at last night's meeting of the city council, which was called to order by Mayor Planta.

After the minutes of the last meeting that clients of his, who were interested in street pavements were going to pay a visit to the coast cities this fall, and wished to know if Nanaimo intended doing any work in that line in the near future.

On motion by Ald. Hodgson, seconded by Ald. Barnes, the communication was received and filed.

A communication was received from J. S. Floyd, City clerk of the municipality of Oak Bay, as follows:

The Council are desirious of bringing in a by-law to regulate the speed of automobiles in this district, and as they understand that the other municipalities and cities are about to do the same and feeling that many By-laws of different natures might work a hardship on the owners of drivers of motor cars, they are anxious to try and arrange a meeting of representative members from all of the councils, and would suggest that if this meets with the approval of your council that a meeting be arranged on the afternoon of Wednesday, the 3rd of October in the City Hall of Victoria, with the object of obtaining uniform By-laws and endeavoring to get the Legislative Assembly to bring in an act govering the same at its next session.

The communication was acknowledged, and in reply thereto the clerk is to state that the Nanaimo Council will be prepared to fall in line with whatever action is taken at the proposed meeting.

The Finance Committee recommended that the sum of $25 be donated to the Children's Aid Society, to aid the furnishing of their new quarters in Vancouver.

On motion of Ald. Dick, seconded by Ald. Handlen, the report was received and the recommendations carried out.

As chairman of the Railway Committee, Ald. Kirkham, reported that the committee was not prepared to recommend any definite plans in reference to the request of the Nanaimo Lumber Company re the branch line. The committee, said Ald. Kirkham had two routes under consideration, and the question was, which one should it be. The only real report that could be made on the question was to bring in the by-law, but as the Committee was not prepared to do this, they had to ask for further time.

On motion the request for further time was granted.

The poundkeeper reported one animal impounded during the past week.

The Manager reported expenditure for wages during the week as follows:

Streets, sidewalks, etc.,	$72 75
Water Works Maintenance	23 75
Total	$96 50

Both reports were received and filed.

On motion of Ald. Dick the further discussion of the Local Improvement By-law was postponed for two weeks

Before adjourning the Mayor stated that the Council as a whole had been invited to act on the Committee for the reception of Earl Grey and party on Thursday next.

BROTHIER ACQUITTED AND RE-ARRESTED

Vancouver, Sept. 24.—Desire Brothier was acquitted on technical evidence on the charge of forgery today, but was immediately re-arrested on the charge of uttering false documents.

AN IRISH NEGRO.

New York, Sept. 24.—Magistrate Breen, who boasts of his Irish parentage, was amused today by the claims of Patrick Jackson, who said he was an Irishman, but who looked like a negro.

Jackson appeared against James Brown, a mulatto. Jackson spoke up and in a brogue that startled the policemen in the court, declared that the prisoner had slashed his left arm with a razor.

"I am an Irishman, your honor, and I was born in Cork," said the prisoner. He was questioned in Gaelic and replied in the same tongue.

"I Am black, said Jackson, "but I am not a negro."

Jackson admitted having a knife, but said he used it for peeling potatoes.

Magistrate Breen, in discharging Brown, said he believed Jackson provoked the quarrel and deserved what he got.

"Real Irishmen," he said, addressing Jackson, "don't use knives."

Minneapolis, Sept. 24.—Six persons are reported dead, and a score or more injured in a rear end collision on the Minneapolis and St. Louis railroad about noon today at New Prague Minnesota.

We are justly proud of this Boot. The greatest praise has been heaped upon it since its introduction.

Local Items

J. Menghenni, of the New Western, is in Nanaimo this afternoon.

Mr. and Mrs. E. Jones were passengers for Victoria this morning.

Mrs. J. Fagan was a passenger on the nine o'clock train today.

Mr. J. Warnock is in the city today on business.

Mrs. E. Leahy was amongst the passengers on the Victoria bound train this morning.

Mrs. F. Baby and daughter are in Victoria on a brief visit, having gone down this morning.

Miss Christie and Miss McKinelley were amongst those who took passage on the morning train today.

Ask for Capital and Nugget Cigars

Dr. R. B. Dier left on this morning's train for Victoria, where he will remain for several days.

Robertson's Orchestra has reorganized, as their advertisement in another column will show.

The sports grounds committee wish to acknowledge, through our columns, the receipts of $6.00 from Mr. J. Callander; $5.00 from Mr. A. S. Christie, and $3.00 from Mr. K. McAskill, to be applied in work on the sports grounds.

The Sadie and scow, Jesse Mack and scow, Bermuda and scow and the Robert Dunsmuir were callers at the local wharves today for coal. Collier Quito is expected to reach port tomorrow.

Business in the painting line in Ladysmith is rushing at present. Mr. H. Kay reports more work in sight than he can attend to as fast as he would like, owing to scarcity of help. In Vancouver and Victoria he states it is almost impossible to obtain painters.

At the meeting of the Dominion Day celebration committee held last evening the final accounts were turned over, and it was found that after all expenses had been paid a balance of $102.00 was left on hand, and this the secretary was instructed to turn over to the sports grounds committee. All the subscriptions with the exception of one have been collected.

Minard's Liniment Cures Dandruff.

Murder is punished with a fine of about $5 in the land of the Mandayas, a Malay tribe living on the island of Mindiano, in the Phillippines. The highest penalty which can be imposed in the tribe is a fine of about $25, computing in American money. This is for publicly insulting an old man. This race has many peculiar customs, according to reports brought by men returning from service in the Phillippines. All of them are carefully observed, and constitute the law of the land. Any violation of them are punished. The old men constitute a legislative, judical and executive body, and all matters in dispute are brought before them for settlement. Theft is punished by the return of the stolen property, and if that is impossible the council appraises the property stolen, and the party who committed the theft must pay in work, this amount to the one from whom the property was taken. The greatest wrong that a Mandaya can do is to show disrespect to the old. To kill a stranger is the greatest ambition of the Mandalayas. They attempt to kill all strangers who come among them, not as enemies, but merely because they are strangers. He who kills a stranger or an enemy is given an important standing in the tribe, and after he has killed thirty he is entitled to the highest honor, that of wearing scarlet clothing. Like the Moros, the Mandayas are a deceitful and treacherous people, always pretending to be friendly, but only awaiting a chance to take advantage of the unwary. They never forget a wrong done them by any other tribe, and, if it be the killing of one of their number, they will, if possible, kill two in return. They will never attack openly or where their adversary has any chance to defend himself. In their raids up on other tribes they kill the men and make slaves of the women and children.

Mannheim, Germany, Sept. 24.—Herr Rooter, a delegate of the Socialist party of Russian Poland, in course of a speech before the national convention of German Societies said: "I come from the land of bloodiest measures against the people. Let me tell you what we have done since the declaration of martial law in August, 1905. The country is organized. We have freedom of the press never before known, and boys sell our papers in the streets. It was a rare thing before the declaration of martial law for a private person to have arms. Today thousands are armed. We have purged the police of their worst elements. We have not risen against the autocracy but we have laid the foundation for a universal arming of the people. We have gone still further. We have made a beginning by organizing the soldiers by whole regiments, to stand by our side. They will not declare themselves by open mutinies, but they belong to us. We do not expect to win over the whole army, some soldiers will be true to the Emperor but we expect to shake their morale to such an extent that they will easily come over. All this followed the declaration of martial law at Warsaw in August last.
