SUB-CONTRACT FIGURES WANTED ON UNIVERSITY

University Sub-bids, Vancouver — The P. Lyall & Sons Construction Co. Ltd., general contractors of Montreal, have written to the Victoria Builders' Exchange stating that they are figuring on the proposed university to be erected in Vancouver, and wish the various sub-contractors in Victoria and Vancouver to forward their sub-bids to the Calgary office of the firm.

Sharp & Thompson, London Building, Vancouver, are archts. for this structure, to be known as the "Science Building", of reinf. conc., and are taking general contract tenders until noon, August 5th.

SEEKING SITE FOR NAIL AND IRON WORKS

Factory, New Westminster—E. R. Morrison, president of the Morrison Nail & Iron Works of Vancouver, has been in conference with Industrial Commissioner Darling of New Westminster, with reference to securing a site to erect a factory. A site was recently acquired on Coal Harbour, but Mr. Morrison is also contemplating erecting one on the Fraser to supply the trade in that vicinity. Several propositions will be put forth this week when something will be definitely announced.

CALLING PROPOSAL FOR "UNIT" OF FRASER JETTY

Jetty, New Westminster—An Ottawa dispatch states that the Dom. Dept. of Public Works is receiving general contract figures for const. Section 2 of the Fraser River Jetty. (Closing date not given.)

This section of the jetty is of much heavier construction than No. 1 section, and extends seaward in a gentle curve for 710 feet from the end of the first section. It will be of brush mattress and rock construction, 190 feet wide at the base with regular courses of brush and rock, the whole to be deeply covered with quarried granite. Its height varies from five feet at the outer end to 18 feet where the jetty crosses Hayseed channel. Plans are all prepared for the job, and there is nothing in the way of letting the contract this summer and proceeding with the work this autumn. It is expected that about one year will be required to complete this section.

The jetty is being built in three sections, the first having been completed this spring. It was 6300 feet in length, stretching outward across the sandheads from the dyke at Steveston. The second section, that now about to be tendered for will be 7100 feet long, and the third section will be still longer, some 9000 feet in all.

The third section will be of most massive construction and will, it is expected, be far the most expensive.

It is expected that as soon as the north jetty is completed, work will begin on the south jetty.

WILL START WORK ON SOOKE LAKE WATER JOB

Waterworks, Sooke Lake—The Burrard Engineering Co. of Vancouver, contractors for the Sooke Lake water works system will commence laying the pipe to-day in the trench which the city has dug. The pipe gang will continue following up the city workmen in laying pipe and riveting them.

Awarded Contract for Steel Pipe.

At the last meeting of the council the contract for supplying the Municipality of South Vancouver with four miles of six, eight and twelve inch pipe was awarded to the B. C. Waterworks Supplies, Ltd., at $35.18; $56.54, and $102.60 per hundred feet.

Coquitlam Permits.

Building permits issued from the engineers office for the six months ending June 30, total $48,000. This includes the new $20,000 municipal hall and the $15,000 Central School building.

VANCOUVER BUILDING PERMITS

Only Permits amounting to less than $500 will be found under this head.

6872—A. Vachon, alter. store, 928 Granville St.; owner; $100.

COMPLETE DETAILS FOR COURT HOUSE ADDITION

Court House Addn., New Westminster—In connection with the proposed court house addn in New Westminster for which Gardiner & Mercer are now preparing plans, and which will cost about $70,000, the following description is given.

The front elevation of the building will be faced with pressed brick with Denman Island stone trimmings.

The interior decorations of the courtrooms will be panelled with high grade oak. All halls will have marble wainscotting and the floors will all be tiled.

The main entrance will be on Clarkson street and the addn will come out to the lot line being the same width as the present bldg. and 46 feet in depth.

All details were completed by the archts. last week in a conference with the Provincial Government and tenders will be invited in about two weeks.

WILL CONSIDER BRIDGE CONTRACT ON MONDAY

Bridge, West Vancouver—The West Vancouver council will meet tonight to consider the awarding of the contract for the new bridge to be built here for which tenders were opened last week. Thirty-two firms tendered on the job the figures ranging from $19,000 to $67,000.

OIL EXCHANGE WILL ERECT NEW BUILDING

Oil Exchange Bldg, Calgary—It is reported from Calgary that the Calgary Oil and Stock Exchange will erect a building especially suited for stock exchange. The building will have a fifty foot frontage on 7th Ave. and will cost in the neighborhood of $75,000.

Editor's Note— No further details are available at present.

WILL NOT AGREE TO NEW SPECIFICATIONS

Paving, Saanich—At a recent meeting of the Saanich Council, the city Clerk reported that Worswick Paving Co., contractors for the Mt. Tolmie and Cedar Hill roads will not accept the new specifications and will either finish the work on the old contract or withdraw on payment of $3,000 for expenses incurred.

COMPANY FORMED TO ERECT VICTORIA BUILDING

Store Bldg., Victoria—A private company has been incorporated under the companies act by three citizens with a capital of $400,000 with the object of building on the site formerly occupied by the Five Sisters block, which was destroyed i nthe fire of October 25, 1910.

The members of the company are Charles Hayward, James Andrew Mara and James Forman, and they are incorporated, according to the announcement contained in the B. C. Gazette, to acquire lands and buildings, etc.

It is understood that the company will acquire the L-shaped lot fronting on Government and Fort streets and surrounding the corner which is held by the Canadian Northern Pacific Railway Company, which was purchased two years ago for the sum of $200,000 by a syndicate consisting of Charles Hayward, J. A. Mara, Percy Raymond, Fred. Landsberg, Fed. Moore, Luke Pither and B. S. Heinsterman

Plans have been prepared by Archt. C. E. Watkins for a one-story building of brick, and the tenders for this closed on Saturday. The building is to have a frontage of sixty feet on each street and to extend back for one hundred feet, and it is estimated to cost $25,000. There will be six stores in all.

What other bldg. projects are considered by the syndicate is not stated.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
