URGE EARLY START ON PROVINCIAL WORK

Public Works, Victoria.—A deputation from the Trades and Labor council recently waited on Sir Richard McBride to urge an early start on the proposed public works. The following projects came under the discussion:

That work be started on filling, grading and levelling the Indian reserve.

That in the event of the railway company refusing to stand their share of the cost of the Johnson street bridge, the government co-operate with the city and complete the project.

That the government furnish its share of $225,000 towards the Jubilee hospital at once to complete the bldg.

That the government carry out certain improvements affecting the Gorge and that dam be erected as soon as possible.

MAY START WORK SOON ON REVELSTOKE BLOCK

Store Bldg., Revelstoke, B. C.—It is announced from Revelstoke that negotiations are in progress for the purchase of certain lots on McKenzie st., on which the old bldgs were recently destroyed by fire, and that the prospective buyers will erect a large business block and that const. will start as soon as the sale is completed. It is proposed to have the bldg. ready for occupancy in about six months.

WILL SUBMIT BY-LAW FOR VERNON SEWERAGE

Sewers, Vernon—At a special meeting of the Vernon council next Thursday, Ald. Costerton will submit a by-law for $95,000 for sewer work and under-drainage. The by-law was to have been submitted at the last meeting but owing to the City Engineer's absence from the city it was decided to introduce it at the coming meeting. If the bylaw is passed the city will undertake const. on the contemplated work as soon as debentures covering the above amount can be sold.

ASK AMENDMENTS MADE TO VICTORIA BUILDING BY-LAW

By-laws, Victoria—Three applications for suspension of clauses of the building by-law have been received by the council and are now under consideration. One was an application to erect a frame shooting gallery which the building inspector claimed would not afford adequate protection to the public. Another was received from the Hudson's Bay Co., in connection with a marquise, which will have a projection of only ten feet from the front of the bldg. Another was received from Loring P. Rixford, to put a concrete fuel tank in the Jubilee hospital instead of a steel one.

Report on Water System.

Waterworks, West Vancouver—At a meeting of the West Vancouver council this afternoon a report from Cleveland & Cameron, consulting engineers will be read, in connection with the propised water system to cost $150,000.

TRADE NOTES

Macdonald, Marpole Co., agents for the Canada Wire & Cable Co. of Toronto, have been awarded the contract to supply a large quantity of telephone wire for the city of Rossland. They also have the contract to supply the West Kootenay Power & Light Co. with 18½ miles of hard-drawn copper wire.

NEW GRAIN ELEVATOR FOR CHILLIWACK VALLEY

Eelevator, Chilliwack, B. C.—Rockwell, Theal & Davison, Ltd., of Chilliwack, grain merchants announce that plans have been completed for their proposed 300 ton capacity elevator to be erected adjoining the site of their present bldg.

The structure will be of heavy mill const., corrugated iron on concr. foundation and will be equipped with latest and improved machinery. Plans were prepared by Archt. Norman J. Hall of Vancouver, and the const. work will be under the supervision of W. H. Davison, of North Vancouver.

VICTORIA PAVING PROJECTS WILL BE STARTED ON SOON

Paving, Victoria—At a meeting of the committee it was decided to start work at once on the paving of Blackwood street, which it was recently decided to postpone until next year. The reason for this action is to provide work for the unemployed. Other paving work will be started in the near future with what funds are available. An early start will be made on the new police headquarters, for which C. W. Carkeek has the general contract.

TENDERS CLOSE FOR ROCK BAY BRIDGE

Bridge, Victoria—Tenders for alterations to Rock Bay bridge closed yesterday and will be opened at the next meeting of the Board of Works. The work consists of piling and placing heavy timbers.

Plans were prepared by the City Engineer and estimated cost is about $6,000.

Award Contract.

Cement Work, Summerland, B. C.—At a recent meeting of the Board of Works, the contract for cement lining in the south main was awarded to T. J. McAlpine at $1.15 per foot. Only three tenders were submitted. The contract involves about 8,000 feet.

Estimates for Year

Municipal Works, Strathmore, Alta.—The Public Works Committee will hold a meeting some time this week to report on how much money will be required for the coming year in public expenditures.

IMPORTANT NOTICE

The Publishers wish to announce that, beginning with the issue of Friday, Oct. 2nd, the Building Record will be published three times per week instead of daily as at present. The days of issue will be Monday, Wednesday and Friday.

Under the prevailing business conditions it is deemed advisable to make this change as it is felt that a paper of much more interest and value to the trade can be issued, if published on alternate days.

This arrangement will allow more time to obtain details on all building and improvement projects, besides making it possible to cover the ground more thoroughly than heretofore.

The name of the paper will be changed from the Daily Building Record to the British Columbia Building Record. Subscription price will remain the same.

ARCHITECTS INVITED TO INTERNATIONAL COMPETITION

Melbourne, June 30. 1914—The Australian government announces an international architectural competition for the purpose of selecting the architect of the Parliament House and possibly incidentally additional architect for other government structures of the new Federal Capital City, Canberra.

Only tentative outline sketch designs for the building are requested, and eight (8) prizes are offered aggregating £6000, the first being £2000, in addition to commission for service at the scale of the Royal Institute of British Architects.

Designs may be submitted in either Melbourne or London before March 31, 1915, and wil be judged by the following jury of architects:

George T. Poole of Australia.
John J. Burnet of London.
Victor Laloux of Paris.
Otto Wagner of Vienna.
Louis E. Sullivan of Chicago.

The decision of the jury will be final.

A program will be issued to any practicing architect on application to the High Commissioner for Australia in London. Works Departments of British Colonies, or British Embassies at Berlin, Madrid, Paris, Rome, St. Petersburg, Stockholm, Vienna, Washington, from whom also copies of text in French or German may be had on request. Copies in Esperanto may be obtained from the High Commissioner or from the Esperanto headquarters at Geneva.

The importance of this event is not to be measured by that of the foremost building of the commonwealth, but by the opportunity to establish an architectural standard not only for the entire future seat of government in Australia, but for a great new democracy of scope, scale and modern advantages as well as the climatic conditions differing radically from any prototype in Europe or elsewhere.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
