PASS FINAL PLANS FOR NEW HOSPITAL

Director Conclude Arrangements for Constructing Royal Jubilee Bldgs.

Hospital, Victoria—The plans for the new Jubilee Hospital, which had been amended in several particulars by the architect, Mr. Loring P. Rixford, have been finally passed by the directors.

The estimated cost, on a basis of 28c per cubic foot of building, and including architect's fees, is $399,840.

The new structure will include the following buildings: Administration building, two public ward buildings, the top story of each to be used for semi-private ward buildings, laundry and power house and service building.

These buildings will accommodate 70 private, 50 semi-private and 100 public patients, making in all, 200 patients. This, added to the present male medical, male surgical, female medical, and Strathcona wards, which will not be disturbed at present, will bring the total capacity to 435 patients. The estimate of cost includes a complete heating plant, but does not include a power plant.

It is proposed to build the three wards immediately, and upon the completion of one of the public wards, the patients are to be removed from the present children's ward. This building will then be converted into a service building, containing kitchen, storerooms, dining-room and diet kitchens. The old administration building will then be pulled down and the new administration building containing the executive offices and operating suite, will be built.

The directors intend, thereafter, if sufficient money can be obtained, to add to the hospital the new service building, at a cost of $90,000, and to construct additional ward buildings until the full capacity of the hospital, 435 beds, is reached.

In the general scheme space has been allotted for a new nurses' home, and a receiving building, which will front on Richmond Road.

The government representatives on the Board of directors were nominated, with the architect, to submit the plans to the government for approval.

The architect is engaged on the detail work of drawing up the specifications, and he intimated that it would probably be near Christmas before tenders could be called for.

The advantages of stone, terra cotta and brick both from the standpoint of cost and of architectural beauty has been discussed, and Mr. Rixford agreed to figure the cost of the different materials for trimming and to submit his estimate to the building committee at an early date.

PLANS FOR CREAMERY AND COLD STORAGE PLANT

Creamery, Armstrong, B. C.—M. Hassen, the Armstrong representative of W. H. Keary of New Westminster, received the plans early last week for the new creamery proposed to be erected here shortly by Mr. Keary.

Plans for a cold storage plant also accompanied those for the creamery, and it is more than likely that these two new industries will be run under the same management.

At present nothing is known locally as to when the creamery construction will begin, but specifications are being prepared and tenders will be called for in due course.
