Failure is sure to find the loop-hole we leave for our laziness to crawl out of.

FROM ONE MAN'S POINT OF VIEW

HERE is a preachment on economy. The men who profess to know, tell us that good times will come again, not as the whirl wind or a prize package out of a grab bag, but by a year or two of strict economy on the part of the people. We have been spending too much money.

This is not a new prescription for the cure of financial meningitis. Solomon in own way said the same thing: "The soul of the sluggard desireth, and hath nothing, but the soul of the diligent shall wax fat."

"How much does it cost to live in New York?" asks Inquisitive.

"About 10 per cent more than your income," answers the comic paper.

But whether it is in New York or the pastoral town by the tortuous, sleepy, soft-flowing Spallumcheen, this bit of synicism is applicable, as it is built upon the very groundwork of human nature. We do not have to go into argument to prove this. Just take your own case and I'll take mine. We'll venture to say without knowing anything about you or your condition that you have been saving less money than you had expected to; and, further, that you have spent some money that you wished you hadn't. And we do not doubt that you sit down every now and then and think over your losses,—"the loss of the money you ought to have saved, and the loss of the money you did save but spent after you saved it."

One and all of us have decided time and again "to be more economical," but seldom do we find a workman who has done or is doing much more than repeat this vague determination. We forget that saving is governed by science. The science must be learned, and the one who has self-control enough to learn this science, will need less self control to practice it.

Let us take a lesson from the French. France has been daubed "a nation of investors." The thrift of the French middle class is proverbal. It is not necessarily because French people have more will-power than we. It is rather because the French Government has, in effect, made a business of advertising the two great principles of personal investment. Here they are. What do you think of them:

"(1) The best way to save money is to invest it before you have it. Then you get interest on your savings; and you are practically compelled to economize.

"(2) The best way to keep money is to invest it in proper securities, or in land. Then your money breeds more money; it will not "burn a hole in your pocket."

The French clerk or seamstress or laborer with as little as 20 francs ($4.00) goes to the postoffice, or Town Hall, and buys a Government bond. When enough bonds have accumulated, the owner changes them into one of the many Government loans, which come in *titres* as small as 500 francs ($100). As soon as a few more francs roll up, another *titre* is bought—*on the installment plan.* The workman puts up his first bond as security, and pays for the second at the rate of so many francs each week or month. Here are powerful incentives to save.

The Canadian government offers no such inducements. The Postal Savings Bank pays 3 per cent; the incorporated banks pay 3 per cent. No way is offered for the Canadian workman to make more than this. At the same time municipalities like Enderby are paying 6 per cent on municipal bonds issued in larger denomination than the laboring man can handle. At the same time, capitalists who can handle them will not do so because just now they can get 8 and 10 per cent on their money elsewhere. Would it not be a splendid thing if our municipality could formulate some plan similar to that of the French government?

NEWS IN AND ABOUT THE TOWN AND DISTRICT

A school holiday was declared Friday to enable those who wished to take in the Vernon Fair.

The excursion rate to Westminster and return is $11.70, going dates, Sept. 26th to Oct. 2nd; return Oct. 7th.

No morning service will be held at St. George's Church on Sunday next, but there will be Choral Evensong at 7.30 p.m., as usual.

Wm. Hayhurst brought in a load of splendid three-tier apples from his Deep Creek orchard on Friday, shipping them through the Exchange.

The dance given by the Enderby City Band last week proved highly enjoyable to all and netted the band boys enough to make it worth while.

Mr. Rogers, a B.A. from near Edmonton, Alta., has accepted the position as teacher in the Enderby high school, and the class will start on or about Oct. 1.

Grand Organizer Whitely, of the Loyal Orange Order, addressed a public meeting in L.O.L. hall, Bell block, Tuesday evening. His address was highly instructive and enjoyable and made many friends for the order.

W. Gracie manager of Riverside Farm, returned last week from a two month's visit to Scotland. Mr. Gracie reports a very stormy voyage both going and coming, but quick time was made, especially on the return trip, he arriving in Enderby in 11½ days from Liverpool. Mr. Gracie was called home by the illness of his father, arriving there three days before the father's death.

Armstrong's two-day fair opens to-day. Enderby's crowd will go to the hustling burg to-morrow. While no effort has been made by Enderby to put up an exhibit to help make the fair a success, yet we know one good citizen—and she a woman—who will have thirty-two articles on exhibition. God bless the women!

Friday was moving day on Cliff street. While the men were loading one of the mill wagons with F. L. Buckley's furniture at the mill manager's home, Harry Robinson missed his footing and fell from the wagon upon the horses, frightening them into running away. They ran madly down the street, scattering furniture and household effects by the way. Mr. Robinson was thrown to the ground and sustained several bruises but no fracture. At the Bradley Block, Mr. Bradley's horse and rig were tied, and the runaways struck the animal in the side, causing a dangerous rupture, from which the horse cannot recover. Jas. Evans stopped the runaway in front of the livery stable.

In Appreciation.

To the business people of Enderby and vicinity: I wish to express my appreciation of the cordial business relations that have existed between us since my incumbency as manager of A. R. Rogers Lumber Co. Ltd., and trust that the same cordial feeling will continue to exist toward my successor, Mr. F. S. Stevens, who will extend to all the same liberal treatment I have endeavored to give on behalf of the company. F. L. BUCKLEY.

To our friends and neighbors of Enderby and surrounding country: We take this opportunity to thank you all for your kindness and courtesy during our two years' stay with you, and of conveying to all our appreciation of the many lasting friendships we have made. After Oct. 1st we will be at home at 1181 Davie street, Vancouver, and extend a cordial welcome to all.

MR. & MRS. F. L. BUCKLEY.

Shooting at the Range

The final government shoot, concluded last week, ended one of the best seasons the Rifle Association has had. The highest scores ever made at the range were made in the final shoot. Geo. Bell won the grand aggregate prize; Dr. Keith the 600; E. Evans the 500; Geo. Sharpe the 300; J. McMorland the 200. R. E. Wheeler won the gold button for the highest score made oftenest during season. Following concludes the season's shooting:

PRO BONO PUBLICO

Editor Walker's Weekly. My Dear Sir: I am not a writer, nor am I a kicker, and I am only addressing you to know if you know what I do not know. Can you or any of your readers tell me what is the matter with Enderby? If your paper has reported things correctly, some weeks ago the Enderby Agricultural Society was formed, and the first thing the Society decided upon was to solicit funds and produce for an exhibit to be made at New Westminster. Can you tell me if the exhibit has been prepared?

I also understood from your paper that a booklet describing Enderby District had been prepared for distribution at the Calgary Fair. I was at the fair but did not see any of the booklets there. Were they sent by the city?

You also stated some time ago that a board of trade was going to be organized in Enderby, and that the matter had been placed in Mayor Bell's hands to be carried out. Has the board been established?

Two weeks ago you stated that the Enderby Curling Club had decided to wait until the matter of a skating rink could be taken up by the council before deciding to go ahead with it, and last week you stated that the council did not consider the matter "officially" and no action had been taken. Does this mean that Enderby is to be without a rink of any kind this winter?

In your reports of the council meetings of late, I have noticed quite frequently that the council asked the C. P. R. to make the tracks passable for vehicles at the Mill street crossing. I find that after all these weeks of waiting, the crossing is still impassable.

Now, sir, I am not calling your attention to these things to complain, but I think these are important questions, and that we should learn the cause of the failures to accomplish what we set out upon. Can you give me any light?

Very truly, RATEPAYER.

[If we were to answer Ratepayer broadly, we would say, we do not know. But taking his questions in the order they are asked we may be able to give some information, though not much. The proposed exhibit at New Westminster was abandoned because sufficient funds were not available to make a creditable showing. One thousand booklets were sent to the Bureau of Provincial Information at Calgary by the city, and they were returned unopened. We believe the booklets are to be used at New Westminster. The matter of board of trade has gone where most things go when treated indifferently—gone glimmering. The same may be said of the city's recreation grounds building proposition. The Mill-street crossing is keeping the board of trade company.—ED.]

Dem Cows

(Dedicated to Old Spot and the Bell.)

Who vas it broke mine gate avay
Und in my garden eat all day
Und on my flower-beds vant to shtay—
Der cows.

Who vas it comes mine house around
Und rips around und shpoils my ground
Und never once gets into pound—
Dem cows.

Who vas it comes into mine lot
Und on my doorshtep leaves a shpot,
Und when I shlips in it und shquat
I shvears out loud und says "mine gott!"
Dose cows.

Who vas it ven de year goes by
Comes round to see me on der shly
Und asks mine vote—not much says I,
Den at my droubles vinks his eye—
Der councillor.

Who is it allows dose tings to be
To drouble honest mens like me
Und leave me not a flower or tree---
You bet dey get no vote from me,
Dem councillors.

Houston Not a Good Guesser.

John Houston being asked about the rainfall of Prince Rupert, thus ingeniously lets the cat out of the bag. He says: "No record of the rainfall at Prince Rupert was kept until about August 1st of this year; so any estimate of the rainfall would be mere guessing, and the editor of The Empire is not a good guesser, for had he been he would not be in Prince Rupert."

Depart for Vancouver.

Mr. and Mrs. F. L. Buckley departed for Vancouver, Monday afternoon, where they will make their future home. A host of friends gathered at the station to bid them farewell. It is with no small amount of regret that we lose Mr. and Mrs. Buckley from our midst. During their two years residence here they have made their influence felt in a measure that will not soon be forgotten. In whatever they entered, they aimed to elevate it and make conditions better for the town and district, and the people living therein.

As manager of the A. R. Rogers Lumber Co, Ltd., Mr. Buckley set a pace that few men would have attempted.

Enderby owes much to Mr. Buckley. As manager of the lumber company he has stood for the best that was to be had in all things. Under his direction the company has erected splendid residence buildings for the manager and employees. When he took hold of the property here, Mr. Buckley at once entered into the interests of the town. What he did was done well and with a view of contributing to the upbuilding of the town and assisting all within its borders. He entered into the work in a spirit of magnanimity. Foreseeing the greater possibilities of Enderby, yet undeveloped, he builded for the future more than the present. Under his pressure Enderby was given a splendid electric lighting system. New streets were opened and a general revival all along the line was experienced. The company's mill property was greatly improved, until today the A. R. Rogers mill is one of the best-equipped in the province. Its yard room is twice the size it was two years ago, and the output of the mill has grown from 50 thousand to 100 thousand per day.

Mr. Stevens, under whose management the mill has been operated this season, is making a splendid record for the company. Mr. Lemke who has been associated in the work with Mr. Buckley, will continue in charge of the clerical force under Mr. Stevens.

In transfering his interests to the coast, Mr. Buckley will continue to be identified with the saw mill business, though not from the lumberman's end. He becomes manager of the A. J. Burton Saw Co., Ltd., of Vancouver, having purchased an interest in the company.

Dominion Elections Early

The die is cast. The edict has gone forth. The general elections will be held on October 26th with nominations on October 19th.

Harvey AND Dobson

Now is the time to come and inspect our

Winter Underwear

A large and splendid assortment in Children's, Ladies' and Mens' at popular prices

are a Marvel at the price—from $1.25 up.

Our splendid assortment of

Eider Down Blankets and Flannelette Sheets

are sure to please. Our Grocery Department is well-stocked. Mail-orders promptly attended to.

HARVEY & DOBSON, General Merchants, Enderby

Reasons Why

In adding a Special Order Department to our Fit Reform Clothing business, and meeting the certain demand for clothing-to-measure, we urge the following reasons why our system of custom tailoring is in advance of anything previously attempted:

First---

We affiliate with the largest and finest tailoring organization in Canada, and send all orders to where they have every facility for doing things right.

Second---

This establishment controls the very best tailoring skill, the best designers and cutters naturally preferring regular employment at high wages to the uncertain income of a small town.

Third---

The range of fabrics is much larger and more exclusive than we could possibly afford in the ordinary way, and allows the best possible selection at no greater expense.

Fourth---

Each particular garment is tailored by a specialist, insuring absolute perfection in fit and finish, and such concentration of effect as is only possible where they have experts for each line.

Fifth---

We give an absolute guarantee with every Tailor-made FIT-REFORM Suit or Overcoat, and such measure of satisfaction as will bring you again, and encourage you to send us your friends.

Sixth---

We give you Montreal-Made Clothing, made to order, and deliver it to you at Enderby at the same price you would pay for it in Montreal.

Enderby Trading Co. Ltd.

THE CORPORATION OF THE CITY OF ENDERBY

BY-LAW NO. 49.

A by-law to authorize the Okanagan Telephone Company to construct and operate a telephone system in the City of Enderby.

WHEREAS an agreement, in writing and under seal, bearing date the twelfth day of September, 1908, was made between the Corporation of the City of Enderby, in the Province of British Columbia, of the first part, and the Okanagan Telephone Company, of the second part, and the said Company did thereby agree to install and operate a public telephone system in the City of Enderby, upon the terms and subject to the conditions contained in such agreement, of such agreement the following is a copy:—

"THIS AGREEMENT, made in duplicate this twelfth day of September in the Year of Our Lord One Thousand Nine Hundred and Eight, between the Corporation of the City of Enderby in the Province of British Columbia, hereinafter called "the Municipality", of the first part, and the Okanagan Telephone Company, a body corporate duly incorporated by an Act of the Legislature of the Province of British Columbia, Chapter 55, for the year 1907, hereinafter called 'the Company', of the second part:

"WHEREAS the Company has agreed with the Municipality to install, operate and maintain a public telephone system in the City of Enderby, for the benefit of its inhabitants, and the Municipality has agreed to permit the Company to break up and open streets for the erection of poles for such purposes, subject to the terms and conditions hereinafter contained:

"NOW THIS AGREEMENT WITNESSETH that in consideration of the mutual covenants and agreements hereinafter contained, the parties hereto covenant, promise and agree to and with the other of them as follows:—

"1. The Company shall forthwith at its own charges construct, equip and install within the corporate limits of the Municipality a complete and efficient telephone system, for the benefit of, and sufficient for the requirements of, the inhabitants of the municipality, and operate same for a period of twenty-five years, from the first day of October, One Thousand Nine Hundred and Eight, and the Company shall at all times maintain, operate, keep up and repair the said system and every part thereof in a thorough manner; the workmanship and the material used in the construction of the said system shall be first class throughout; the placing of the poles shall be at all times subject to the approval of the Municipality;

"2. The trunk system shall be installed and placed in operation forthwith, and the local exchange just as soon thereafter as possible; the said system as soon as completed shall be maintained and operated so as to afford at all times efficient means of communication with all other municipalities, towns and places reached by said trunk line and all branches and feeders thereof;

"3. The company shall have the right during the said period of twenty-five years to erect in the streets and other public places within the corporate limits of the said city such poles, and to suspend therefrom such wires, as may be necessary to install and extend such system; the poles to be of standard height and size, and such poles to be erected and wires suspended in such places and in such manner as shall be approved by the Municipality or the Chairman of its Board of Works;

"4. The Company in entering into contracts with the owners and occupiers of dwellings, business premises, hotels, halls, factories, shops and other places, to supply telephone accommodation in connection with said system, shall charge therefor a sum not more than Two Dollars for private dwellings and not more than Three Dollars for business premises per month;

"5. The Company shall supply telephone accommodation in connection with said system when the local exchange is established to all persons within the city limits who may desire the same, and who will agree to take same subject to the rules of the Company; but the company shall not be bound to extend the system to isolated houses or buildings the rates receivable from which would amount to less than ten per cent. per annum on the cost of such extension; provided that the Company shall not be bound to make any such extension unless the subscriber shall agree to lease such telephone for at least one year;

"6. On each and every day, excepting Sundays and holidays, of each year the Company shall operate a local exchange when established, between the hours of eight in the forenoon and half-past six in the afternoon, and shall at all times during the said period between the said hours keep ready for operation the trunk system;

"7. If the Company shall fail to operate and maintain its said local exchange when established, or the trunk line when constructed, at any one time for a period of one month, unless the failure to so operate and maintain shall be caused by conditions over which the Company has no control; or if it shall wilfully make default in substantially complying with the terms hereof, then the right and privileges hereby granted shall at the option of the Municipality forthwith cease and determine;

"8. The Company agrees to indemnify and save harmless the Municipality from any suit or action at law for compensation or consequential damages arising out of any accident or injury to life or property, caused by or attributable to the negligence of the Company, its agents, servants or workmen, in connection with the said telephone system, or any part or appurtenance thereof;

"9. The Municipality shall forthwith submit a by-law to the ratepayers of the City of Enderby under the Municipal Clauses Act, 1896, and Amending Acts, for ratification of this agreement;

"10. This agreement shall have no force or effect and shall not be enforceable until the same is ratified and confirmed as aforesaid by the ratepayers; but nothing in this agreement or in the said by-law shall in any way prejudice the right of the Company to break up and open streets in the said City for the purposes mentioned in its Act of Incorporation;

"11. This agreement shall be binding upon and enure to the benefit of as well the parties hereto as their respective successors and assigns.

IN WITNESS WHEREOF the Municipality has caused these presents to be signed by its Mayor and Clerk, and its corporate seal to be affixed hereto, and the Company has caused these presents to be signed by the hands of its President and Secretary and its corporate seal to be affixed hereto.

OKANAGAN TELEPHONE CO.
per FRED. BILLINGS, President,
[Seal] S. A. MUIR, Secretary.
Signed, sealed and delivered in the presence of G. F. REINHARD.

THE CORPORATION OF THE CITY OF ENDERBY,
GEO. BELL, Mayor,
[Seal] GRAHAM ROSOMAN, Clerk.
Signed, sealed and delivered in the presence of J. W. EVANS.

AND WHEREAS, in pursuance of such agreement the Corporation of the City of Enderby agreed to submit a by-law to the ratepayers of the said City to ratify and confirm the said agreement and to grant the Okanagan Telephone Company the rights and privileges herein contained,

NOW THEREFORE, the Corporation of the City of Enderby, in open council assembled, enact as follows:—

1. That the said agreement so entered into by

the said Municipality and the Okanagan Telephone Company, as above set out, be, and it is hereby, ratified and confirmed;

2. That there is hereby granted the Okanagan Telephone Company for a period of twenty-five years from the first day of October, 1908, the right to construct and operate a local public telephone system in connection with the trunk line of the said Company, in accordance with the provisions of the agreement hereinbefore set forth, within the corporate limits of the City of Enderby for the benefit of its inhabitants; unless the said agreement shall be sooner determined, as provided in the said agreement;

3. That this by-law shall before the final passage thereof receive the assent of the ratepayers of the City of Enderby, in the manner provided in the Municipal Clauses Act, 1896, and Amending Acts;

4. This by-law may be cited for all purposes as the "City of Enderby Telephone By-law, 1908."

TAKE NOTICE that the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken, at the City Office, Enderby, on Monday, the 28th day of September, 1908, between the hours of 9 a. m. and 7 p. m.

GRAHAM ROSOMAN,
Clerk to the Municipal Council.

CITY OF ENDERBY

Voting on Proposed By-Law

PUBLIC NOTICE is hereby given to the Ratepayers of the Municipality of the City of Enderby that I require the presence of the said Ratepayers at the City Office, Enderby, on MONDAY, the Twenty-Eighth day of September, 1908, between the hours of 9 a. m. and 7 p. m., for the purpose of recording their votes, either to confirm or negative a certain proposed by-law, to-wit:

A By-law to authorize the Okanagan Telephone Company to construct and operate a Telephone System in the City of Enderby.

Any person, male or female, being a British subject, and the assessed owner of land or real property within the Municipality, is entitled to vote on such proposed By-law.

Given under my hand this 17th day of September, 1908.

GRAHAM ROSOMAN,
Returning Officer.

G. R. Lawes' Prizes at Revelstoke

The Revelstoke Herald, commenting on the fruit exhibit made by G. R. Lawes of Enderby says:

"Mr. Lawes, of Enderby, displayed a magnificent co - lection of pears. Quite a showing of the different varieties of crabs and plums, well colored, attracted attention. Mr. Lawes is another competitor, winning a cup offered by the Fruit Exchange for the best exhibit of ten varieties of apples. Such fruit as is exhibited by this well known orchardist can only be possible as the result of years of care and attention.

Mr. Lawes won the following prizes: Second on his Baldwin and Wolf River apples, and first on his 10-variety apple special.

He also won first on the following pears: C. Favorite, Duchess, B. Clairgean, Louis B. de J., Sheldon, Bartlett.

He also won first on the following plums: P. Seedling, Lombard, Yellow Egg, Damson, German Prune, Other Variety.

In all, Mr. Lawes carried off sixteen prizes, fourteen firsts and two seconds.

Trainmen Support Strikers.

Ottawa, Sept. 18.—The striking machinists yesterday were addressed by Bell Hardy, who optimistically reviewed the past and present phases of the strike, predicting a benefit whether lost or won, from the movement for the betterment of the working classes. Chairman Rigby, of the Superior divison strike committee, was also optimistic. He said over $14,000 had been voluntarily subscribed by the trainmen west of Winnipeg.

Prize Fancy Work.

Mrs. Geo. Sharpe made an individual exhibit of ten entries of fancy work at the Vernon Fair and on these won six first prizes and two second. The prizes were awarded as follows: first on her Wallachian work; first on bedroom slippers; first on tea cosy; first on sofa pillow; first on child's dress, and first on shadow work; second on embroidered hat and second on crochet work. This is the customary award given to Mrs. Sharpe's work. Her entries are solicited by the committees in charge because of the artistic taste shown, and she invariably brings home red and blue tickets on all of her exhibits.

A. R. Rogers Lumber Co. Ltd., Enderby

Butter-making

If any butter maker makes butter that she's proud of, it's good business for her to let the world know where it came from. Nicely printed vegetable parchment butter paper, and printed with an alkali ink that won't run, will do it. The Walker Press can furnish the finest vegetable parchment, the finest ink that won't run, and the finest quality of printing. If you can furnish the finest butter, you'll have a winning combination.

"Under the Pines"

Number Two of this little magazine will be issued from The Walker Press early in October. All readers of this notice who received a copy of the first number (September) are requested to let us know as early as possible if you desire the magazine to be sent to you regularly. So many requests for it are coming from friends in other fields—the field it was intended to cover—that not more than one copy will be sent to anyone not a subscriber. The subscription price [now] is 50c a year. What it will be later does not concern us now. In his advance sheet the editor says:

TURN where you will, the cry of the human heart is, "Back to the hills." To realize what man is; to know him at his best; to comprehend the meaning of the words, *made in the image of God,* we need perspective. Man's dual nature forbids that he should harness himself to the machine of commerce, and become enslaved to the greed of gold. In the crowded cities the great mass of humanity is without soul. In the scramble to live, men sacrifice—are compelled to sacrifice—the best Nature has bestowed upon them. They exist but do not live. The time-check is their Jagannath—gold their god. And they cannot help it. They have not time to serve two gods and perforce choose the one nearest their hearts, and which society and custom proclaims supreme. To them life has but one object, one aim. Priest and layman, saint and sinner, whatever these designations mean, struggle for a position close to Money Bags. Little wonder that in the scramble men and women have the soul crushed out of them!

Here and there in the eddy of the current, men stand, sick at heart and soul sore. To them life means more than a mellow rot on a fallen apple. They want to grow. The Man within seeks expression. All Nature cries to them of their mission. Artifice and the artificial does not appeal to them; behind it all they see the starving soul. Fain would they get away—back to Nature's heart where summer's suns and winter's snows, and the sighing of the pines speak true. But Duty holds. The mountains will not come to them, neither can they go to the mountains.

To carry to these earnest souls some of the soothing atmosphere of the pines will be the mission of this magazine. "Life is a narrow vale between the cold and barren peaks of two eternities," spoke one of the world's big men. "We strive in vain to look beyond the heights. We cry aloud, and the only answer is the echo of our wailing cry. From the voiceless lips of the unreplying dead there comes no word; but in the night of death hope sees a star and listening love can hear the rustling of a wing." To give the helping word that cheers one on; to open the avenues that Nature provides for the expression of the soul within; to waft soft pine-scented zephyrs from the grand, eternal hills into the hearts and homes of growing men and women; to provide some stimulus to better things, will be our aim.

If you have not received a sample copy and desire one call upon, write or wire The Walker Press.

When will the City of Enderby take pride enough in the public school grounds to plant trees?

"Under the Pines"

a Little Magazine published once a month by H. M. WALKER, from the Walker Press, Enderby. Price of admission, 50c a year and a pile of earnest thinking yourself. If you don't want to think don't subscribe. But we want you in our circle of good play-fellows, if you feel inclined

Where Merit Wins

I hear that Mr. Alexander Gracie, managing director of the Fairfield Company, was presented to the King to-day during the Indomitable's cruise round the Isle of Wight. His Majesty spoke highly of the good work the vessel had done. Somebody suggested that her Atlantic speed was certainly a record for a warship, but the king insisted in his courtly way, that it was a record for any ocean vessel. Of course His Majesty was, strictly speaking, right, because the Indomitable is the only vessel which has exceeded 25 knots speed on a voyage across the Atlantic. The King was greatly interested in all the details of the ship, and made no secret of his admiration of her. The Prince of Wales, to whom Mr. Gracie was presented on the departure of the ship for Quebec, also had many pleasant things to say about the vessel. Subsequently His Majesty sent for the Commodore, the Commander, the Navigating Commander, the Chief Engineer, and Mr. Gracie. On Commander King Hall he conferred the C.V.O., and on the others M.V.O. The honour to Mr. Gracie is obviously not merely in recognition of the Indomitable's record. Mr. Gracie was one of the only two Clyde men on the committee which designed the Indomitable and her sister ships; the other was Professor Biles. The king leaves Cowes on Saturday forenoon. Some time later the Indomitable will proceed either to Portsmouth or to Chatham to complete. The builders have still some work to do on her, the doing of which had to be deferred when she was ordered to proceed to Quebec.

Mr. Gracie, who is a native of Morven, Dunvegan Skye, Argyllshire, his father being a farmer in that district, owes his success in life wholly to his own energy and ability. He was an engineer by trade, and has been all along connected with the engineering and shipbuilding industry. Two of his brothers are physicians in Partick, whilst his sister is the wife of a Partick clergyman.—Glasgow Herald.

[Mr. Gracie mentioned in the above extract from the Glasgow Herald, is a brother of Wm. Gracie, of Enderby.]

Big Around the Middle.

A great many people will sympathize with the opinion of Little Willie. He had hard work keeping awake one Sunday at church, and later, on being asked how he liked the sermon he replied: "Well, the beginning was good, and so was the end, but there was too much middle."

When will the City of Enderby take pride enough in the public school grounds to plant trees?

Revival Services.

Rev. Walter Russell, B.A., a a minister in full standing, of the Presbyterian Church in Canada, and an evangelist of over 20 years experience, is expected to arrive in Enderby Oct. 2 or 3, to conduct a series of evangelistic services in the Okanagan Valley. He will begin the campaign in Enderby, with a great mass-meeting in the Methodist Church on Sunday afternoon, Oct. 4, at 3 o'clock. On Sunday evening a second service will be held at 7.30, and every evening during the following week, except Saturday, commencing at 7.45: the first 15 minutes being occupied with a song service. These meetings are under the auspices of the Presbyterian and Methodist churches, the members of which are looking for gracious visitations of divine grace. All are most cordially invited. Do not forget the date of commencement, Oct. 4. A. N. Miller.

Lord's Day Alliance.

Rev. T. Albert Moore, General Secretary of the Dominion Lord's Day Alliance will be in Enderby this week and will hold a meeting in the Methodist Church on Friday evening, at 8 o'clock in the interest of his special work. The work of the Alliance ought to have the hearty support of all right minded people, one great aim of the Alliance being to secure to all the privilege of resting one day in seven and in so far as possible making that rest day the Lord's day. Everybody welcome. Come and hear what Mr. Moore has to say. A collection will be taken. A. N. Miller.

At Vernon Last Week.

Paddy Murphy and Wm. Mack furnished Armstrong the battery that won the ball game from Kelowna at Vernon last Thursday. In the game with Summerland. which came off in the afternoon of the same day, the battery was played out, and the game was sacrificed to the Lake boys. Of the morning game, "Wolf" in the Armstrong Advertiser says:

"Thursday morning's game of baseball between Armstrong and Kelowna was the best game of the season, and the spectators had value received over and over again. Mack, who pitched for Armstrong was the hero; he was as steady as a clock and at critical times was there with the goods. Paddy Murphy was as usual the heady player and some of his performances were of the star variety, he took advantage of every possible opportunity."

Vernon carried off the football medals, Armstrong the lacrosse and Summerland the baseball. In the racing, the running was especially good, but the trotting poor. All who attended the fair from Enderby were well pleased with the manner in which it was handled and with what they saw on exhibition.

Enderby experienced an awkward situation this week. The town was out of Moffet's Best, and not a sack could be had at the mill. It all came about as a result of the wheat tie-up owing to the C. P. R. strike. Armstrong flour had to be procured.

The recent winds damaged several heavily-loaded trees in Crane Bros. Deer Park orchard. The apple crop is a record one this season for size, quality and color.

A Place for Everything.

A Brooklyn man tells a good one on himself. He was entertaining a friend from Philadelphia when the conversation turned upon domestic economy.

The Brooklynite had just explained how careful his wife was in everything. She had a place for every object in the house, and in that place the object was invariably to be found.

"Just to show you," said the proud hubby, "I may say that after I had dressed this morning and turned out the gas, I found that I had forgotten a handkerchief. I opened the chiffonier drawer, and there in the corner as usual, was a pile. I took the top one, and did not have to strike a match. Here is the handkerchief. I have not even unfolded it.

Whereupon the Brooklynite triumphantly shook out the folds of the object, which he proceeded to flaunt in his friend's face. Then both burst into laughter. The Brooklynite was waving a baby's shirt!

Pays to Advertise.

When the teacher was absent from the schoolroom Willie Jones wrote on the blackboard:

"Willie Jones can hug the girls better than any boy in school."

"William, did you write that?" asked the teacher upon her return.

"Yes, ma'am."

"Well, you may stay after school as punishment."

"Got a licking, didn't you?" asked one boy when Willie came out.

"Nope."

"Got jawed?" asked another.

"Nope."

"What did she do?"

"Shan't tell, but it pays to advertise."

And Zacchaeus Came Down.

The Bible class teacher in a certain Sunday school was extremely annoyed at the noise made by the pupils in the next room. At last, unable to stand it any longer, he looked over the partition and, seeing one boy talking louder than the others, he leaned over and hoisted him over the partition, and banging him into a chair, said, "Now be quiet."

Some minutes later a small head appeared over the partition and a meek voice said:

"Please sir, you've got our teacher."

Snaps at Your Own Price.

In the purchase of the Bradley stock of hardware, I find I have some things which I do not want. Here is a list of the articles which will be sold at below cost:

1 Show Case.
1 set Tinner's and Plumber's Tools.

Finest in the Country

"Enderby is a charming villiage with city airs. When Paddy Murphy shook the snow of Sandon off his feet he came here, and now owns one of finest brick hotels in the country. Although Paddy is an Irishman from Michigan, he calls his hotel the King Edward. In addition to the excellence of the meals, breakfast is served up to 10 o'clock, which is an added attraction for tourists."
(Extract from Lowery's Ledge.)

King Edward Hotel, BELL & MURPHY Proprietors Enderby
