Locals of Home Events of Interest Near Home and Far Away

Tabasco, May 21st.

Every man must cut his own wisdom teeth.

Miss Phillis Faulkner spent the week end at home from the Okanagan College.

Mrs. Wm. Glen returned from a 3-months' trip in the Eastern provinces, Thursday last.

Dr. Keith and Surveyor Williams are the latest to add autos to their equipment for covering the district.

The regular monthly meeting of the Presbyterian Ladies' Aid Society will be held at the home of Mrs. Reeves this afternoon.

Frank Moffet returned from Hamilton, Ont., this week, where he has put in the past year in the electrical works of the Edison Company.

There is no course of training that will so quickly uncover a boy's capacity for leadership as the training given in the Boy Scout organization.

Another enjoyable 12 o'clock dance will be given at the Opera House tomorrow (Friday) evening. Doors open at 8; music from 8:30 to 12. Admission, 50c each; no supper.

The Indian Lands Commission will be organized at Victoria this week, and will soon inaugurate the important work for which the Commission was appointed.

The little daughter of Mrs. Leslie Main died at the home of Mr. and Mrs. S. Teece on Tuesday after a lingering illness, and was interred Wednesday afternoon at Lansdowne.

Never have the home grounds of Enderby looked better than they do this spring. The early flowers are plentiful and the gardens are being artistically laid out and kept well worked up.

A meeting of the Boy Scouts Local Association will be held at the office of the Northern Okanagan Land Co., on Thursday (to-night) evening, May 8th, to consider the question of summer camp for the troop.

Mara is a very busy villiage this spring. Road Foreman Little is doing splendid work on the roads, employing quite a number of men, and the Government bridge builder has a number employed on the new bridge being built across the river at that point.

Alderman Hartry, as chairman of the health committee, has done great service for the city. Since the purchase of the nuisance ground by the city he has kept a sharp look out on the back yards and alleys and quickly takes action if they are not kept clean. The result is that the city is much improved in appearance.

Dill Bros. the past week enlarged their gent's furnishings and grocery store by tearing out the partition and having what has heretofore been the wareroom, finished up as a salesroom. They have added by so doing 20x25 feet to the store, and are now in position to better display their stock of goods. Norman Grant and staff had the work in hand.

Just received, a large shipment of overalls in black bib, black pant style, and blue with white stripe. Extra good value for one dollar. Dill Bros.

W. R. Barrows returned from the Vernon Hospital Wednesday afternoon, where he has been confined a month or more from a fractured leg.

Mr. Robt. Waddell of Victoria, was an exhibitor in the heavy draught class, showing the splendid Clydesdale stallion known as the Pride of Drumburle. This horse was sired by Baron of Buchlyvie, one of the highest-priced horses in the world. Unfortunately Pride of Drumburle "pulled his shoe" while coming out of the stable, and was in consequence unable to enter the judging ring. The absence of this fine animal was generally regretted.—Victoria Colonist.

Mara has a number of crack shots, and they delight to spend an afternoon now and then shattering the clay pigeons thrown from the traps. The other afternoon a party consisting of Capt. Brown, Mine Host Congreve, Sandy McDonald, Wm. Findlayson and the Winchester Ammunition Demonstrator, Foote, went by launch from Sicamous to Mara, and there, with Chas. Little, Geo. Little, Jack Robertson, Geo. Reynolds, A. Zettergreen, Chas. Davidson, Guy Barber, Mr. Sutton and Mr. Davis, they spend the hours with trap and gun. Geo. Little ran up the highest score, getting 18 birds out of 25.

This ever popular company of little artists presented "The Dream Girl" at the Opera House last Saturday evening to a very large audience, and they fully sustained their enviable reputation as pleasing comediennes, and clever stage children. But the past three years has brought changes to the company. Favorites of three years ago in Bertha's Billions, have grown older. They are now more finished actresses in their parts, but it is doubtful if they give as clean satisfaction to the audience as when they were younger. However, "The Dream Girl" is filled with rich, catchy music and pleasing comedy, and the Bostonians are adepts in this class of entertainment.

RESCUED AN ERRING ONE

By his presence of mind and steady nerve Freight Agent Campbell prevented a serious if not fatal mishap at the station platform Monday evening. A man under the influence of liquor endeavored to step off the train as it slowed up at the long station plarform. In doing so he fell and was thrown off the platform between the speeding car wheels and the platform planking. Instantly Agent Campbell fell upon the platform and by sheer force held the man upon the ground out of the way of the car wheels until the train came to a standstill. At the same time he had to crowd close to the plank platform to avoid himself being hit by the passing car steps. It was a nervy rescue and one requiring a quickness of action that is seldom called for.

We can save you money on summer shirts, collars attached, separate collars to match, or without collars. Dill Bros.

Take a look at the suits in our window. They are twenty-five dollar values for twenty dollars. Dill Bros.

Tabasco Minstrels, May 21st.

FAULTY BUILDING REGULATIONS

Three years ago, when Enderby had general building regulations governing the erection of buildings within the city limits, and had no restricted business section, permits had to be applied for of the City Council and these were granted under certain restrictions. While that municipal law did not work perfectly, it operated infinitely better for the welfare of the city than the law now in operation. There was some consideration shown by the city for the homes and business blocks already up, and if a property owner desired to get a permit for the erection of a building he had to recognize the stipulations under which he was granted a building permit.

Under the present law one may erect any kind of a building any place in the city, outside of the fire limits of four blocks, without restrictions of any kind and without any consideration in the matter of increased fire risk, and official Enderby is powerless to prevent it. At the same time, building restrictions within the narrow fire limit are so stringent as to virtually put a stop to building operations within the restricted section.

It would seem to be the duty of the present City Council to remedy the evil by way of moderation in both particulars, loosening the restrictions in one instance and tightening them in the other.

CAUGHT BY CHECK ARTIST

The Fulton Hardware Company for $25, Bob Peel for $5, and the King Edward hotel for $5. These business people of Enderby last week cashed checks in the sums stated, signed by one H. E. Downing, and in each case the checks were returned from the bank endorsed, "no funds." Downing was in Enderby for several days. He represented himself to be an investor looking for land, with many thousands of dollars to invest. In addition to the checks passed, he ran a board bill which has not been paid.

A. Fulton, who was the severest "stung" of the local merchants, did a little detective work on his own hook in this case. At Salmon Arm he found on enquiry that a man answering Downing's description had been seen there, and Wednesday he autoed over. He learned where the man had started to work, and with the constable drove out to the place. When confronted with the facts, the man admitted having issued the $25 cheque held by Mr. Fulton, but said he was expecting some money and it had not arrived.

Officer Bailey was notified by the Salmon Arm constable, and Wednesday afternoon he was driven to the Arm by Mr. Fulton with a warrant for the man's arrest.

Remember the date of Dr. Taube's visit to Reeve's Drug Store, on Friday, May 23rd, and if there is anything wrong with your sight do not fail to consult him.

In after years a man strikes many a trail that looks familiar.

The Tabasco minstrels will highly season things at the Opera House on Wednesday evening, May 21st.

We are headquarters for base ball, lacrosse and tennis shoes. Dill Bros.

Preparations Nearly Completed for Victoria Day Celebration

If the weather clerk plays fair, the annual celebration of May 24th at Enderby this year promises to be the best we have ever enjoyed. Some difficulty has been experienced in getting replies from the various clubs owing to the lateness of the season. Few have as yet got into trim for the season's play. However, this will be remedied within the next week and the program committee promises to have all arrangements completed by next Thursday, so the program of the day's doings may then be published.

The recreation ground was never in better condition at this time of year than it now is, and Ald. Worthington into whose hands the repair of the celebration field has been placed, is making several improvements looking to the comfort of visitors on that day. Seats have been placed along the railing surrounding the diamond, and additional room is also to be made in the grand stand.

It is understood the feature of a parade to the grounds inaugurated last year will be repeated this year, in which the B. C. Horse, Boy Scout troop and school children, together with the various bands and playing teams will take part.

The services of the Vernon Fire Brigade band, the Revelstoke band and the Enderby City band have been engaged for the day. The probable sports will be: Baseballs, Enderby vs Salmon Arm, and Vernon vs. Revelstoke; lacrosse, Revelstoke vs. Armstrong and football, Armstrong vs. Enderby. There will be fast running races, jumping, vaulting, etc., for $10 and $5 prizes, and races for the boys and girls for cash prizes.

The special features have not yet been decided upon.

Mr. P. H. Murphy has given a $50 cash prize for a log rolling contest. This is one of the most exciting and interesting feats that could be witnessed on the water, and the $50 prize is sure to attract the best log rollers in this and surrounding districts. In years past, when this contest was placed upon the water sport program, the prize offered was not a sufficient inducement to draw men into it, and the event soon degenerated into a small "pick-up" for an indifferent log artist or two. The $50 prize offered by Mr. Murphy will have a tendency to revive interest in this pleasing sport, and we may anticipate a large crowd to witness it.

The City has appropriated $700 for the day's events.

The train arrangements this year are much better than on previous celebrations. The special train from Revelstoke and Okanagan Landing will be equipped with two more coaches than have heretofore been provided on similar occasions, and in addition, the railway company has promised to provide two or three coaches to be attached to the regular train leaving Revelstoke at 7.03 in the morning. Upon this later train it is intended to have the Revelstoke band come, and such of the teams and visitors who are not down for the morning sports. The special will leave Revelstoke very early in the morning—3:30 or 4)—and would therefore be unable to accommodate the crowd expected from this city, hence the willingness of the railway company to provide the additional coaches on the regular train, which should arrive in Enderby at 11:15—a few minutes after the special from the south returns.

The Opera House managers intend to run their moving picture show from 1 o'clock until 9 p. m. on the 24th, and will follow this with a dance.

INTERESTING BASEBALL

The Boys' baseball teams of Vernon and Enderby met on the Enderby diamond last Saturday afternoon. A fair-sized crowd turned out to see the game, and it was a game that made everybody feel pleased. The teams were very evenly matched and each held the other down to ciphers in all but three innings of the nine, and in the three innings only three runs were made, two by Enderby and one by the visitors.

H. Carew made the single run scored by Vernon, and Cliff Greyell and Augy Antilla made Enderby's double. In most of the innings the boys went out in one, two, three order. Both teams lost seven on bases and each had one man hit by the pitcher. Elmer Grant and Clifford Greyell pitched for Enderby, with Antilla behind the bat. Simms and Ellison filled these positions for the visitors. Ed. Wheeler acted as umpire. Everybody rooted.

PEACE IN THE BALKANS

Montenegro has concluded to evacuate Scutari, and has turned over to the European powers this bone of contention. Speaking on what effect this will have on general financial conditions, Mr. Alvo von Alvensleben a well-known Vancouver financier said to the Province:

"The feeling in Germany is divided. Some of the financiers are inclined to the belief that after the Balkan troubles have been finally cleared up the allied forces will make such big drains upon the money market as to offset any relief that would ensue consequent on the settlement. On the other hand the opinion prevails—one that I am strongly inclined to endorse from my own personal observation—that the fact that such a large amount of capital has been kept in hand pending developments, and that the banks have been holding large sums in reserve on account of the sentiment that a general European war was an eventuality, will cause hundreds of millions to be available for investment in commercial enterprises. This would mean also that a general revival would follow as a natural sequence of events."

Eighty-five per cent of headaches are the result of eye-strain, so if you are troubled that way do not fail to consult Dr. S. L. Taube, at Reeves' Drug Store on Friday, May 23rd.

This warm weather makes one feel like a straw or Panama hat. See Dill Bros.

An ostrich can eat tacks, but it can't lay Brussels.

A man's children are nearly always well trained—if his wife does it.

SUCCESSFULLY ORGANIZED

Too much credit cannot be given Mr. W. E. Scott, deputy minister of agriculture, for his tireless efforts in connection with the launching of the Central Selling Agency in connection with the fruit and produce industry of the Province. Mr. Scott has endeavored in many ways, before taking up the central selling agency idea, to advance the interests of these branches of agriculture in the Province. Only partial success has met his efforts in previous years, though it was through no fault of his department, but rather through the indifference of the producers themselves. When he took up the question of a central selling organization, he at first received only half-hearted support, but his persistency and determination to put the question squarely before the producers, has led to a better understanding of the possibilities of such an organization, and he is now getting the unanimous support of all men engaged in these branches of the industry.

There is no question about the success of the proposed organization—if the right man is placed at its head. Every district visited by Mr. Scott and Mr. Robertson a week or two ago, has entered actively into the proposed organization, and there is every assurance given of the project becoming well established this season. At each of the meetings there was the unanimous consensus of opinion that one strong local organization should meet to establish a central selling agency for the produce of the whole Province. Mr. Scott laid down at each meeting very clearly the position of his department and the Government in the matter. In no way must the fruit and produce men look to the Government to initiate this co-operation among them.

The motive power must come from the growers themselves, who must form the strong local organizations without the existence of which any idea of a central selling agency is out of the question. These local bodies, if incorporated under the Agricultural Associations Act, the Government stands ready to assist as far as the law and sound finance allow. But the growers in each locality must be responsible for the formation and maintenance of the local organization. They must overcome any difficulties in the way that might exist and see to it that all rivalry between different bodies is eliminated from their midst, and the individual farmer bound by strict binding contract to sell the whole of his produce through the one local association. That is the first step on which the whole fabric of the central agency must rest.

The next step is to bind all these local organizations to sell all the produce they handle through the one central selling agency. This will be a matter of strict and binding contract, but if carried out faithfully and efficiently will result in the fruit of the whole Province being marketed by this one agency to the best possible advantage and at the best prices obtainable, whether in the Coast cities, in the Northwest or elsewhere.

The Government will have nothing to do with the central exchange whatever, which will be financed and managed by the local organizations through their delegates. Nor should the cost of maintaining the central agency amount to much. The cost of cold storage, collecting and grading stations will be the work for the local organizations and the work of the central exchange will be purely clerical linking up of the local bodies with the agents of different market points and with the consumers. After the first month the money on the first sales will be coming in and after that the central exchange will be self-supporting, made so by a fixed charge on each box of fruit sold.

Commenting on their recent visit to the Valley towns Messrs. Robertson and Scott expressed their unbounded pleasure at the splendid reception given them everywhere. "In all our meetings," said Mr. Robertson, "we have not had a single dissenting voice. The fruit growers everywhere have enthusiastically approved the scheme."

"Everywhere we have been," said Mr. Scott, "the people have, to a man, declared themselves in favor of coming into line with the policy suggested by the government. All the meetings have been well attended and most enthusiastic."

As the result of the meeting held in Enderby, Mr. H. T. Twigg and Mr. Chas. W. Little were elected delegates to the joint meeting held at Vernon last Thursday and Friday. Mr. Little attended the meeting, and his report will be submitted to a meeting to be held in K. of P. Hall Friday (tomorrow) evening. We are privileged to give a summary of the proceedings at the joint meeting and do so to enable all interested to get a clear idea of the business so as to go to the meeting Friday evening prepared to conclude the business.

When a young man sits in the parlor talking nonsense to his best girl—that's capital. But when he has to stay in of evenings after they're married—that's labor.

Result of Meeting of Delegates *Re* Central Selling Agency

At the meeting of delegates to put into effect the decision of the fruit and produce growers of the Okanagan to organize a Central Selling Agency, held last week in Vernon, the following delegates were present:

F. B. Cossitt, Vernon, chairman; F. D. Nicholson, Salmon Arm; C. W. Little, Enderby; W. S. Burnett, Armstrong; J. E. Reekie, Kelowna; G. J. Coulter White, Summerland; J. McLaughlan, Peachland; I. M. Stevens, Penticton, secretary. Mr. R. Robertson also being present to advise the delegates.

It was decided to incorporate under the "Company's Act," for the reason that it was impracticable to incorporate under the "Agricultural Associations' Act." Messrs. Billings & Cochrane were employed to incorporate the Company, and to draw up the Articles of Association.

The name decided on is the "Okanagan United Growers, Limited."

The nominal capital is to be $10,000.00 in shares of $1.00 each.

The head office is to be in Vernon.

It was agreed that sufficient shares be taken by each local association to give them one vote for each fifty cars, or less, shipped, and an additional share for every fifty cars up to three hundred cars. The minimum to be one vote, and the maximum six votes.

The votes and directorate for this year were decided upon the estimated output: Salmon Arm, votes 2, directors 1; Enderby, votes 1, directors, 1; Armstrong, votes 6, directors 2; Vernon, votes 6, directors 2; Kelowna, votes 6, directors 2; Peachland, votes 1, directors 1; Summerland, votes 2; directors 1; Penticton, votes 2, directors 1. Directors must be growers with produce to ship. The executive shall consist of 3 directors who shall be elected by the directorate.

The following resolutions were passed: That the policy of the central selling agency shall be to get the fruit and produce of its affiliated associations, operating on a co-operative basis, as quickly and directly as possible from the grower to the consumer, and to this end such methods and plans as circumstances and experience shall warrant, be adopted, but that for the present we have our own representatives or agencies in selling centres, with a view to pushing the sale of our goods and looking after our own interests.

That this Company operate upon a co-operative system, and secure to all producers who are members of the local association a share in the profits of the Company in proportion to the value of the produce supplied by them, after a dividend upon the capital stock not exceeding 6 per cent has been paid, but it will be allowable for the central company to retain as a reserve fund such amounts as may be decided upon by the directors, not exceeding 5 per cent per annum of the value for such business as may be agreed upon, and such money shall be considered a loan from the growers, and interest at 4 per cent shall be paid to them according to the amount deducted from their shipments, and the principal amount shall be paid within three years.

That the policy be to make a charge per package for selling fruit, and per ton for selling vegetables.

There not being sufficient funds in the central association for operating expenses this year, the local association shall loan money at 4 per cent in proportion to the number of shares they hold in the central company, and this money shall be credited to their accounts.

The delegates are in favor of a close self-continuing contract, and all patrons of the association shall sell all their fruit and vegetables through their association, and the central selling agency, except by special permission of the board of management of the central selling agency.

The delegates recommend that it shall be the policy of the central association to pool all fruits and vegetables of like grades, sizes and varieties in like packages, marketed through the central agency. Pools to extend over such time as may be agreed upon in order that all may share in the distribution of as large a tonnage as possible, thus securing an equitable distribution of the proceeds derived from sales. Some of the arguments in favor or pooling being as follows:

(a) To prevent local jealousies by reason of one district getting a slightly higher price than another because of a special market at a special time, or some special sale, and to do away with the suspicion that the management gives one district any advantage over another when sales are made at specially high prices, thus also relieving the management of the difficulty of deciding who shall get any benefit as to price.

(b) Simplifying bookkeeping and lessening expense to an enormous extent.

(c) Ensuring the average price where there is a loss in any shipment.

(d) The reputation of the local districts will be conserved by having a large proportion of their crop grade the highest grades and by the local brand.

The central selling agency shall appoint one, or more, inspectors to help to bring the pack and grade of all the associations to a high and uniform standard, and these inspectors shall be empowered to approve or reject all fruit and produce sold by the central agency.

The central agency shall seek to place all fruit and vegetables, whether to be marketed in the regular way, or disposed of for the manufacture of by-products, and to this end shall endeavor to make arrangements with such manufacturers.

The policy shall be as far as practicable, to make all sales on an F. O. B. cash basis, and to make payments on account to local associations twice a month.

These plans and resolutions are to be submitted to the local associations in the hope that they may be accepted by them. It is understood that they may need to be modified in practice, as experience dictates. It is hoped that all the Valley will work together for the common good, believing that the best interests of each and all will be sought, and that all will be willing to give and take, in deference to others.

The Corporation of the City of Enderby

Loan By-law No. 13

A By-law for Raising $2,000.00 to Purchase a Site for a Cemetery.

WHEREAS it is deemed expedient to purchase lands for a public cemetery without the limits of the City of Enderby, and in order to do so it is necessary to raise by way of loan upon the credit of the City of Enderby the sum of $2,000.00 repayable upon the 30th day of June, 1933, bearing interest in the meantime payable half-yearly, at the rate of 6 per centum per annum, the principal of such loan, when raised, to be applied for the purpose aforesaid; and

WHEREAS for the payment of the said principal and interest it is necessary to raise the sum of $187.16 by rate in each and every year; and

WHEREAS the value of the whole of the rateable property of the City of Enderby, according to the last revised assessment roll is $776,775.00; and

WHEREAS the total amount of existing debenture debt of the said City is $84,750.00, of which none of the principal or interest is in arrear;

NOW THEREFORE, the Municipal Council of the Corporation of the City of Enderby in open meeting assembled, hereby enact:

1. That it shall be lawful for the Mayor of the City of Enderby to raise by way of loan, from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the said City, by way of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $2,000.00, and to cause such sum so raised and received to be paid into the hands of the Treasurer of the said City for the purposes and with the objects hereinbefore recited;

2. That it shall be lawful for the said Mayor to cause any number of debentures to be made for the sum of not less than $500.00 each, bearing interest at the rate of six per centum per annum, not exceeding in the whole the sum of $2,000.00, and all such debentures shall be sealed with the Seal of the City of Enderby, signed by the Mayor and countersigned by the Treasurer of the said City;

3. That the said debentures shall bear date the 30th day of June, 1913, and shall be made payable in twenty years from the date hereinafter named for this By-law to take effect, at the Bank of Montreal, Enderby;

4. That the said debentures shall have coupons attached for the payment of interest at the rate of six per centum per annum on account of such debentures, and such interest shall be payable half-yearly, on the 30th day of June, and the 31st day of December, in each and every year; and the signatures to such coupons may be either written, stamped, printed or lithographed;

5. That a rate on the dollar shall be levied and shall be raised annually on all the rateable property of the City sufficient to pay interest on the debt hereby created during the currency of the said debentures, and to provide for the payment of the said debt when due;

6. That the sum of $120.00 shall be levied and raised annually by a rate on all the rateable property in the City of Enderby, in addition to all other rates, for the payment of the interest on the said debentures;

7. That the sum of $67.16 shall be levied and raised annually by a rate on all the rateable property in the City of Enderby, in addition to all other rates, for the payment of the debt hereby created, when due;

8. That it shall be lawful for the said City of Enderby, from time to time to repurchase any of the said debentures at such price or prices as may be mutually agreed upon between the said City and the holder or holders of the said debentures, and all debentures so repurchased shall be forthwith cancelled, and no re-issue of any debenture or debentures shall be made in consequence of such repurchase;

9. That this By-law shall, before the final passage thereof, receive the assent of the electors of the said City in the manner provided for by the Municipal Act, and Amending Acts;

10. That this By-law shall come into force and take effect on the 30th day of June, 1913;

11. That this By-law may be cited for all purposes as "The City of Enderby Cemetery Loan By-law, 1913."

TAKE NOTICE that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken, at the City Hall, Enderby, on Monday, the 19th day of May, 1913, between the hours of 9 a. m. and 7 p. m.

GRAHAM ROSOMAN,
Clerk of the Municipal Council.

Dated at the City Hall, Enderby, B. C., May 8th, 1913.

CITY OF ENDERBY

Voting on Proposed By-law

PUBLIC NOTICE is hereby given to the Ratepayers of the Municipality of the City of Enderby that I require the presence of the said Ratepayers at the City Hall, Enderby, on Monday, the 19th of May, 1913, between the hours of 9 a. m. and 7 p. m. for the purpose of voting, by ballot, either to confirm or to negative a certain proposed By-law, to wit:

A By-law for Raising $2,000.00 to Purchase a Site for a Cemetery.

Any person, male or female, being a British subject and the assessed owner of land or real property within the Municipality, is entitled to vote on such proposed By-law.

Given under my hand at the City Hall, Enderby, this 8th day of May, 1913.

GRAHAM ROSOMAN,
Returning Officer

CITY OF ENDERBY

Voting on Money By-laws

NOTICE is hereby given that pursuant to the provisions of the Statutes of British Columbia governing the passage of money by-laws, the persons who will be entitled to vote at the poll to be held on May 19th, 1913, on the proposed Cemetery Site Purchase By-law, are the assessed property owners—i.e., the persons whose names appear on the last revised assessment roll of the City.

In the case of change of ownership of property, either by transfer or by devolution of interest, it is enacted by Statute that the name or names of the new owner or owners shall be substituted for the name or names appearing on the said assessment roll PROVIDED a Statutory Declaration proving the fact of transfer or devolution is made before the City Assessor at least FIVE clear days before the day on which the poll is to be held.

By order.

GRAHAM ROSOMAN,
City Clerk.

City Hall, Enderby, May 8th, 1913.

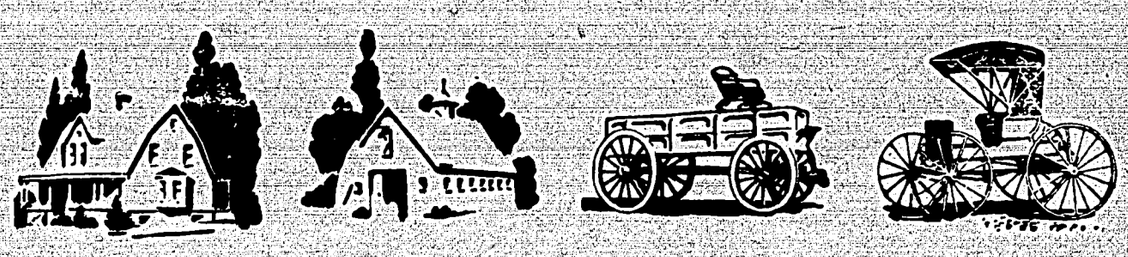
BOB AND NELLIE

Little Bob was on his knees in his night dress saying his prayers, and his little sister couldn't resist the temptation to tickle the sole of his feet. He stood it as long as he could and then he said: "Please, God, excuse me while I knock the stuffing out of Nellie."

These need paint to keep them in good shape



Says the Little Paint Man.

We don't always realize what harm the wear and tear of the weather does to our houses and barns and buggies and wagons that are not protected by good paint. Buildings that have not been painted or on which the paint has worn off, are exposed one day to the wet and the rain, the next day to the hot sun and so on, until the unprotected wood twists and warps and cracks and the rot starts. So a building that should be in good repair at the end of 50 years, if it had been kept properly painted, goes to rack and ruin in 15 or 20. And think how it looks.

Why don't you paint this spring with Sherwin-Williams Paint, Prepared? Made of pure lead, pure zinc, pure linseed oil and the necessary coloring pigments and driers, all mixed and ground by special machinery. Come and see us, we want to talk paint to you.

Land Clearing Legislation by State of Washington

When the Royal Agricultural Commission meets at Enderby, some time in June, there will no doubt be laid before it some suggestion urging legislation which would enable the heavily timbered districts to organize some system looking to the more rapid development of these particular districts by some means of combined assistance in the clearing of land. Certain it is that if we are to see districts such as this rapidly cleared and brought under cultivation, it will have to be by some combined effort of the district, with or without Government assistance. In view of this we are reproducing from "Little Logged Off Lands," a magazine published at Seattle in the interest of land clearing, a summary of recent legislation enacted by the legislature of the state of Washington making provision along similar lines. The bill recently passed provides for the creation of "Agricultural Development Districts," the idea being in all cases to make the limits of these districts co-extensive with the county but still allowing those vitally interested to form a smaller district if found necessary. But, as the financial or bonding ability is based upon the assessed valuation of the district, it is needless to urge that districts be of maximum size, to-wit, the limits of the county. The county commissioners are empowered to call an election for the purpose of creating the district, and shall do so upon an initiative petition of ten per cent of the electors. The powers of the district are vested in three elected commissioners who serve without salary and in addition to the usual powers of a municipality they are given power to carry into effect the purpose of the district, including the development of the land by clearing, the purchase or manufacture of materials for sale to settlers at cost, to aid in the production and marketing of agricultural products, and all officers of the state, county or municipality, including the experts of the state institutions of learning are by legislative fiat commanded to aid and assist in the purposes of the district.

For purpose of finance the district may be bonded on a twenty-year plan under the constitutional limitation of one and one-half per cent of the assessed valuation and up to 5 per cent on a three-fifths vote of the electors. They also have the power if needed, of raising revenues by taxation, subject to constitutional limitations. The bonds are made a preferential investment for the common school fund next to school district bonds, and bonds of other municipalities paying a higher rate of interest. "This undoubtedly destroys the objection to the improvement district plan," says the magazine, "as it practically places the state back of the district bonds."

Primarily the object of the district is to aid bona fide settlers, and seeks to discourage speculation. Many ideas of cheapening the cost of clearing lands were presented to the committee, various mechanical devices utilizing the by-products of the stumps, new and cheaper explosives, etc, and the field offers unusual opportunities to the inventor, but at the present time the committee found that no one could clear land as cheaply or as well as the actual settler and his family. All the settler needs is assistance by way of money and materials so that he can give his whole time to developing his home, and not be compelled to work elsewhere the greater and best part of the year in order to provide a living for his family.

An existing settler is aided in the following manner. He may sell any amount of undeveloped land not exceeding twenty acres to the district at a price not exceeding twenty dollars per acre, subject to an examination of the soil as to fertility, and further subject to an estimated cost of clearing not to exceed one hundred dollars per acre. Then bids are called for subject to the usual regulations, for clearing said tract, and the settler has a preferential right to take the contract at the lowest bid, payment to be made subject to the terms of the contract with restrictions to afford complete protection to the district. The settler may obtain from the district all materials necessary at cost. When the tract is cleared he has a preferential right to repurchase it at the original cost, plus the contract price, plus other expenses such as taxes, and plus five per cent, and may pay for the same on a twenty-year payment plan, or less if desired, with interest at one-half per cent above the interest payable on the bonds. The settler may pre-empt and pay out after three-years' residence, or may sell or assign his contract after two years. A 20-acre tract sold at the maximum price under a clearing contract of sixty dollars per acre would cost the settler as follows: $400 plus $1,200, plus 5 per cent or probably $80, or $1,680, or $84 per year with interest at probably 5 per cent.

Bonds are only to be issued as needed and if the soil has the agricultural possibilities claimed with a sure market, but a small amount is needed to start, for the fund with settlers paying out in from three to six years would become a rotary fund.

Other lands including the school lands may be purchased by the district, cleared and sold to settlers who may become citizens, on the same basis.

HOW TO PRESERVE EGGS

When eggs begin to get plentiful it is well to know how to preserve them for eating when they are scarce. This method is very much used by the French: The fresher the eggs in the first instance the better they answer for keeping purposes. If possible, date the eggs on the day they are layed, as a guide which to use first later on. Boil them in the usual way for about two and a half to three minutes, then store them in a dry but airy place. They can be kept for several months in this condition, and when they are required it is only necessary to put them in cold water and let this water get quite hot over the fire. They are then ready to eat.

Another French method for raw eggs that is very successful: Dip the eggs into a fairly strong solution of gum arabic and put them into a box filled with powdered charcoal. Keep this firmly closed. The charcoal is easily washed off when they are needed for use. The gum arabic closes the pores of the shell.

LIVE STOCK INDUSTRY

Hon. Martin Burrell, with the help of Mr. J. Bright, new live stock commissioner, has worked out a plan for development of the live stock industry. The department will undertake the distribution of well-bred stallions, bulls, rams and boars. This will involve one of the great live stock problems, particularly in the newly settled districts of Canada.

The original cost of the animals will be borne by the department and they will be placed in the hands of such local organizations as agree to certain conditions which will be set forth. All animals distributed will be bought, if possible, from home breeders and will be Canadian bred.

SUBSTITUTE FOR GASOLINE

A substitute for gasoline which will cost from 3 to 4 cents a gallon less, has been discovered, it is reported. It has been named gasene. Henry B. Taylor, of a Warren, Pa., refining company is the man who has discovered the long-sought-for fluid. It is said that the new fluid is 25 to 30 per cent more effective than gasoline.

A LONG TIME TO WAIT

Colonel Lowery may or may not be a prophet. He says: "It will probably be fifty years or more before the Grits again get a chance to sit on the high seats in Ottawa. By that time a new and better generation of Grits will have sprung into existence. The greed for spoils must die out before the so-called Liberals of our day can ever expect to gain and hold the votes, confidence and admirence of the Canadian people."

Retail Merchants of this Valley Organizing Local Associations

There is nothing that will so quickly dispel the petty differences that so often arise in small places between businessmen, as such an organization as the Retail Meechant's Association recently organized in the Valley. It is an organization well worthy the consideration of the retail merchants of Enderby. Speaking of its success the Vernon News says:

The day is not far distant when each of the towns in the Okanagan Valley will have its Retail Merchants Association. Vernon, Kelowna and Armstrong have led the way, and it is confidently anticipated that Enderby, Summerland and Penticton will fall into line. In each town the association will be self contained, but it is proposed that the six associations shall be linked up so as to form one large association for the Valley. This body will be in affiliation with the Retail Merchant's Association of B. C., whose headquarters are in Vancouver, and this organization, in its turn, will be connected with the Dominion association which has Montreal for its centre. Thus it will be seen that the humblest member of the smallest branch in this Valley will have at his command the vast resources of an organization whose ramifications extend throughout not merely the Dominion but the States as well as the Old Country.

"That the Vernon association has fully justified its formation is shown by its steadily increasing membership, which now totals 45, although it was only formed a year ago last March.

"Kelowna has some 25 members enrolled, and Armstrong, although in existence only a few days, has a similar total. This is essentially a businessmen's association; every member is prominently engaged in the retail business. When one considers the objects of the association it will be seen that no business man can afford to remain outside. Thanks to this organization Vernon, Armstrong and Kelowna today has each its Small Debts Court which has invariably been successful in obtaining payment of accounts when less drastic means have failed. As President Martin succinctly put it the other evening at Armstrong, the association has, as one of its objects, 'the better control of the credit system and the listing of 'dead-beats,' 'slow pays' and 'no pays.' "

"Then, in Vernon, business men need be no longer the prey of those outside 'fake' advertising men who in so many towns trade on the ignorance of the unwary. Through the Retail Merchants' Association, a businessman can find out quickly and surely whether any advertising proposition from an outside source is or is not sound. In this way Vernon businessmen have been saved much profitless expenditure. Further, the association watches the interests of its members in such vital matters as legislation and railroad rates, and in this connection has proved of almost inestimable value.

"The three towns which as yet have no branch of the association have, it is confidently anticipated, only to be told of the advantages which accrue from membership to at once take steps to emulate the example of Vernon, Kelowna, and Armstrong, for retailers cannot fail in showing sympathy with an organization, conducted in a businesslike way, solely for the benefit of businessmen."

If arrangements can be made for a meeting of Enderby retailers, both Vernon and Armstrong will send committeemen to attend the meeting to tell about the advantages of the organization.

REDUCTION IN RATES

It is reported that there is to be a material reduction in the express and freight rates on fruit this year; also on vegetables, in which case the fruit and vegetable producers will be assisted greatly in getting their product to market at a profit. The freight rate has not yet been published, but under the new express rate there is this difference: The present express rate per 100 pounds, from, say, Vernon to Vancouver is $1.80, and from Vernon to Kamloops $1.40. The new rate would be to Vancouver, $1.44, and to Kamloops, $1.12.

SICAMOUS REGATTA

At a meeting of the Shuswap Lake Boating Club, held in Sicamous on the 21st, it was decided that the program of events for the regatta on June 3rd, be the same as last year, with the addition of an endurance race from Chase to Sicamous. This race to take place on June 2nd, so as to leave June 3rd clear for the regatta proper.

Many valuable prizes have already been received, and there will be a handsome silver cup at the head of most of the prize lists.

The club miss the valuable services of Mr. Berry, the secretary, who is on a visit to England, and Mr. L.H. Congreve has been appointed secretary pro tem.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or sub-Agent of the district in which rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee for $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

City Council Hears Estimates on Belvedere and George Street Work

The City Council met in regular session Monday evening, Acting Mayor Worthington in the chair and all aldermen present.

After the reading of the minutes, Messrs. Cummings & Agnew, through their engineer, Mr. D. M. Mathieson, reported on the estimated cost of work proposed on Belvedere and George streets.

The cost of a 6 foot cement sidewalk and a 26-foot macadam roadway bounded by a concrete curb and gutter, from Mill to Knight streets, will be $6,159, exclusive of all overhead charges such as engineering expenses, cost of advertising, interest on temporary loans, and any discount allowed in the sale of debentures.

The estimated cost of George street from Cliff to Knight streets, of a 7-foot cement sidewalk and a 26-foot macadam road bounded by a concrete curb and gutter will be $6,121, exclusive of the overhead charges.

If a concrete roadway is desired in place of macadam, the total cost on Belvedere street will be $10,823, or $4,663 more than macadam. If a concrete roadway is desired in place of macadam on George street, the total cost will be $11,410, or $5,289 more than macadam.

The 26-foot roadway is believed to be the best width for these streets.

"We would have liked to put a 7-ft. walk on Belvedere street, but unfortunately the position of your poles would not allow us to do so," says the report.

The engineers urge that all pipe-laying necessary on these streets be done before the work of macadamizing is undertaken.

"Now as to the rock in your present quarry. We have taken some samples of it and find on examination that it is crystalline quartz rock and has not sufficient cementing qualities to make a good road metal. The varieties of rock most suitable for road making are: Trap, syenite, granite, chert, limestone, mica schits and quartz. These are named in the order of their relative values. From a table showing the relative merits of these rocks, it is shown that the rock at the present quarry is considered to be the least suitable of all road-metal rocks.

"We believe that you have more suitable rock in your immediate vicinity," concludes the report, "and would strongly advise you before quarrying any more at your present site to see whether or not you have more suitable rock in your vicinity, and if something which appears more suitable can be found to have it tested."

Mr. Mathieson spoke at considerable length by way of explanation of the requirements suggested in the engineers' report, and showed every inclination to assist the Council in the work it was proposed to carry out.

The appointment of a pound keeper was next taken up, and E. J. Mack was named, and the desire expressed that he should continue in the position he has hitherto filled to aid in the proper handling of the pound business.

Messrs. Cummings & Agnew also submitted an estimate on the proposed improvements to the City Hall which the Council is desirous of carrying out. The specifications submitted by them provide for the installation of a lavatory, two jail cells, the completion of the basement and finishing of the deposit vault in the basement, together with the fencing and laying out of the grounds. It was estimated that the cost of these improvements would be $1,303.

The finance committee reported the following accounts, and they were ordered paid:

Cemetery clearing ..... $	121.25
Board of Works pay sheet.....	232.20
Dominion Glazed Cement Co...	451.00
R. Johnstone, wages	24.40
Fulton Hardware Co	37.62
Robert Bailey, wages	26.10
The Walker Press, adv.& ptg..	33.25
Billings & Cochrane, fees	40.00
G. Rosoman, City Hall	5.45
J. H. Carefoot, draying	9.60
John Polson, wages	.90
Thomas Kneal, wages	2.40
R. Chadwick	2.00
G. Duncan	3.00
A. Reeves, stationery	37.25
W. J. Woods, ...	11.10

It was reported by the Clerk that the Bank of Montreal had replied to the request for a temporary loan in connection with the proposed street work which is to be undertaken this season by the Council, that that bank is not inclined to advance the necessary funds required, until the public improvement bonds are issued and sold, the bank agreeing to advance the money necessary pending settlement after the sale of the debentures.

It was the feeling of the Council that if any headway is to be made this season in the direction of street improvements it was not policy to wait until the season was too far advanced.

It was ordered that the Clerk prepare a statement to be presented to the Union Bank, making application for a temporary loan of $14,000 to carry on the proposed street work until the local improvement debentures are issued.

The cemetery committee reported having had cleared three acres on the new cemetery site, and Mr. Mathieson was instructed to make a plan of the cemetery, laying out the road, walks and plots. It was promised that the work would be done this week.

Road Foreman Baxter communicated to the Council the request received by him from the office of the road superintendent, that the sand piled upon the side of the Mabel Lake road near the Enderby bridge should be removed as early as possible.

It was ordered that tickets of admission to the Recreation Ground be issued to all the school children, for May 24th, and that no charge of admission be made for anyone in uniform taking part in the procession on that day.

Ald. Grant was requested to submit an estimate of the cost of erecting additional grand stand room on the recreation ground, increasing the present stand another 50 feet.

GARBAGE DESTRUCTOR

J. H. Hooper, who was engineer at the Columbia Flouring Mills for some years up to the time of his departure for the coast a year or two ago, and who has since been employed as engineer at the City Scavenging Department, Vancouver, has, in conjunction with Mr. Wylie, superintendent of the street cleaning and scavenging departments of the coast metropolis, designed and patented a type of garbage destructors which are built on the unit basis, of any size or capacity from one ton to a thousand tons per day. This type of destructors is designed to meet the requirements of any place, from an isolated institution to a small town or large city. The capacity is increased by adding a unit when required. By this means the initial cost of installing is reduced to a minimum, which cannot be said of other types as their structure does not permit of any additions to them. Mr. Hooper expects to make a trip into the Okanagan this season, at which time he will be in a position to demonstrate his plant.

SQUADRON ORDERS

The Enderby troop of C. Squadron, will parade mounted at the armory at 3 p.m. Wednesday, 14th May, and at 7 p.m., when the drill will be taken by S. I. Sporks, of Vernon.

All men must make an effort to turn out. Rifles will be carried. Dress service. The O.C. wishes every man to do his best to secure recruits for camp, so as to bring the squadron up to full strength.

G. HENNIKER, Capt.

WANT ADS

ADVERTISEMENTS under this head 3c a word first insertion, 1c a word each subsequent insertion.

FOR SALE—6 cows, 6 yearling heifers, 3 heifer calves, 1 registered Red Pole bull, 15 yews, 84 lambs, 1 registered Hampshire ram, 1 driving team, 1 four-year-old mare and colt, 1 two-year-old gelding, 1 O.K. potato planter, 1 Deering mowing machine, 5 feet; 1 Deering hay rake, 10 feet; 5 geese. Apply—G. Murdock, Grindrod.

COTTAGE on Knight street to rent; $10 per month. Apply, James Mowat, Bell Block.

POTATOES suitable for seed; white varieties; $5 per ton at pit. G. Murdock, Grindrod.

GOOSE EGGS—$2.50 per setting of six. Chas. Murdock, Grindrod.

FOR SALE—Baled timothy and clover hay. Apply, Gelling, Grand Bend Farm, Enderby.

ALL KINDS GARDEN WORK done, by John Gardener, landscape and jobbing gardener.

SPRING PRUNING—Orders will be taken for orchard pruning. APPly, Wm. Elson, King Edward Hotel.

FOR SALE—Team of bay mares, well matched, weighing 3400; 4 & 5 years old; sound and well broken; also wagons and harness. H. F. Flewwelling, Enderby.

FOR SALE—75 acres farm land; 6 acres cleared and ready to crop; nice clay loam suitable for fruit; easily cleared; good pasture; small house; clearing fenced; posts & wire; situated 3 miles from Enderby; about same distance from proposed C. N. R.R. For prices and terms see or write owner, H. F. Flewwelling, Box 34, Enderby.

FOR SALE—Rough and dimension lumber. At mill or delivered. A. Tomkinson, Enderby.

CLEANING, PRESSING & REPAIRing, plain sewing, dressmaking. Miss Airth has opened a sewing room in the building formerly occupied by The Walker Press, Enderby, where she will be pleased to meet all desiring her services.

MRS. C. PARADIS, a dressmaker of wide experience, has removed her dressmaking parlors to the Matthews house, on Cliff St., west of George.

JOE LENTO—Blanchard & English Block, Enderby—Cleaning & Pressing; also repairing. Guitar and Mandoline lessons will be given by Geo. Clarke and Joe Lento, at pupil's home or at our place of business, Cliff St., next City Hall.

Campers and Pleasure Parties

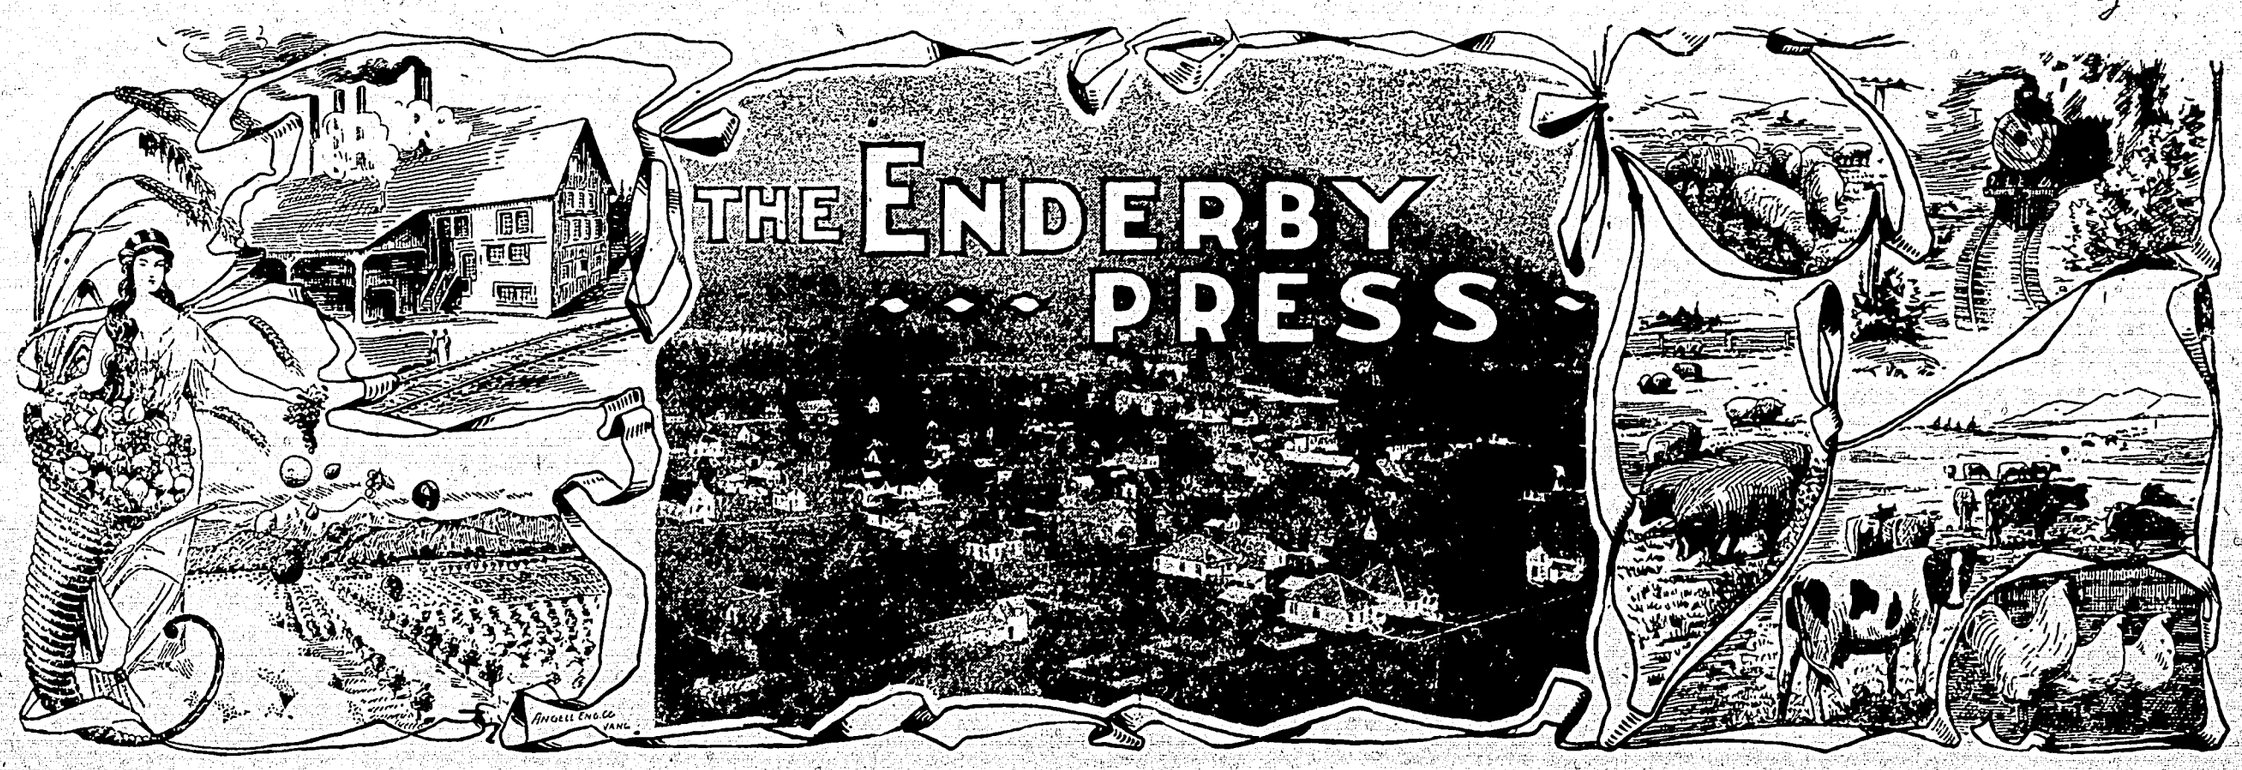
I am inaugurating a regular service for the summer months, on Mabel Lake, making the trip every Sunday morning, or as otherwise required, from Cottonwood Point to the Mill Warehouse, furnishing my gasoline launch or row boats as may be desired, by the trip, hour, day, week or month, to all the fishing places on the lake and the camping grounds. Prices reasonable for good service. Address—

F. D. ABBOTT
Cottonwood Point.

NOTICE OF MEETING

A MEETING will be held in K. of P. Hall, Friday Evening, at 8 o'clock, to receive report of delegate Mr. CHAS. W. LITTLE, to Central Selling Agency Conference.

Mr. ROBERTSON will also be present.



Enderby, B.C., May 8, 1913 AND WALKER'S WEEKLY Vol. 6; No. 10; Whole No. 270

Locals of Home Events of Interest Near Home and Far Away

Tabasco, May 21st.

Every man must cut his own wisdom teeth.

Miss Phillis Faulkner spent the week end at home from the Okanagan College.

Mrs. Wm. Glen returned from a 3-months' trip in the Eastern provinces, Thursday last.

Dr. Keith and Surveyor Williams are the latest to add autos to their equipment for covering the district.

The regular monthly meeting of the Presbyterian Ladies' Aid Society will be held at the home of Mrs. Reeves this afternoon.

Frank Moffet returned from Hamilton, Ont., this week, where he has put in the past year in the electrical works of the Edison Company.

There is no course of training that will so quickly uncover a boy's capacity for leadership as the training given in the Boy Scout organization.

Another enjoyable 12 o'clock dance will be given at the Opera House tomorrow (Friday) evening. Doors open at 8; music from 8:30 to 12. Admission, 50c each; no supper.

The Indian Lands Commission will be organized at Victoria this week, and will soon inaugurate the important work for which the Commission was appointed.

The little daughter of Mrs. Leslie Main died at the home of Mr. and Mrs. S. Teece on Tuesday after a lingering illness, and was interred Wednesday afternoon at Lansdowne.

Never have the home grounds of Enderby looked better than they do this spring. The early flowers are plentiful and the gardens are being artistically laid out and kept well worked up.

A meeting of the Boy Scouts Local Association will be held at the office of the Northern Okanagan Land Co., on Thursday (to-night) evening, May 8th, to consider the question of summer camp for the troop.

Mara is a very busy villiage this spring. Road Foreman Little is doing splendid work on the roads, employing quite a number of men, and the Government bridge-builder has a number employed on the new bridge being built across the river at that point.

Alderman Hartry, as chairman of the health committee, has done great service for the city. Since the purchase of the nuisance ground by the city he has kept a sharp look out on the back yards and alleys and quickly takes action if they are not kept clean. The result is that the city is much improved in appearance.

Dill Bros. the past week enlarged their gent's furnishings and grocery store by tearing out the partition and having what has heretofore been the wareroom, finished up as a salesroom. They have added by so doing 20x25 feet to the store, and are now in position to better display their stock of goods. Norman Grant and staff had the work in hand.

Just received, a large shipment of overalls in black bib, black pant style, and blue with white stripe. Extra good value for one dollar. Dill Bros.

W. R. Barrows returned from the Vernon Hospital Wednesday afternoon, where he has been confined a month or more from a fractured leg.

Mr. Robt. Waddell of Victoria, was an exhibitor in the heavy draught class, showing the splendid Clydesdale stallion known as the Pride of Drumburle. This horse was sired by Baron of Buchlyvie, one of the highest-priced horses in the world. Unfortunately Pride of Drumburle "pulled his shoe" while coming out of the stable, and was in consequence unable to enter the judging ring. The absence of this fine animal was generally regretted.—Victoria Colonist.

Mara has a number of crack shots, and they delight to spend an afternoon now and then shattering the clay pigeons thrown from the traps. The other afternoon a party consisting of Capt. Brown, Mine Host Congreve, Sandy McDonald, Wm. Findlayson and the Winchester Ammunition Demonstrator, Foote, went by launch from Sicamous to Mara, and there, with Chas. Little, Geo. Little, Jack Robertson, Geo. Reynolds, A. Zettergreen, Chas. Davidson, Guy Barber, Mr. Sutton and Mr. Davis, they spend the hours with trap and gun. Geo. Little ran up the highest score, getting 18 birds out of 25.

This ever popular company of little artists presented "The Dream Girl" at the Opera House last Saturday evening to a very large audience, and they fully sustained their enviable reputation as pleasing comediennes, and clever stage children. But the past three years has brought changes to the company. Favorites of three years ago in Bertha's Billions, have grown older. They are now more finished actresses in their parts, but it is doubtful if they give as clean satisfaction to the audience as when they were younger. However, "The Dream Girl" is filled with rich, catchy music and pleasing comedy, and the Bostonians are adepts in this class of entertainment.

RESCUED AN ERRING ONE

By his presence of mind and steady nerve Freight Agent Campbell prevented a serious if not fatal mishap at the station platform Monday evening. A man under the influence of liquor endeavored to step off the train as it slowed up at the long station plarform. In doing so he fell and was thrown off the platform between the speeding car wheels and the platform planking. Instantly Agent Campbell fell upon the platform and by sheer force held the man upon the ground out of the way of the car wheels until the train came to a standstill. At the same time he had to crowd close to the plank platform to avoid himself being hit by the passing car steps. It was a nervy rescue and one requiring a quickness of action that is seldom called for.

We can save you money on summer shirts, collars attached, separate collars to match, or without collars. Dill Bros.

Take a look at the suits in our window. They are twenty-five dollar values for twenty dollars. Dill Bros.

Tabasco Minstrels, May 21st.

FAULTY BUILDING REGULATIONS

Three years ago, when Enderby had general building regulations governing the erection of buildings within the city limits, and had no restricted business section, permits had to be applied for of the City Council and these were granted under certain restrictions. While that municipal law did not work perfectly, it operated infinitely better for the welfare of the city than the law now in operation. There was some consideration shown by the city for the homes and business blocks already up, and if a property owner desired to get a permit for the erection of a building he had to recognize the stipulations under which he was granted a building permit.

Under the present law one may erect any kind of a building any place in the city, outside of the fire limits of four blocks, without restrictions of any kind and without any consideration in the matter of increased fire risk, and official Enderby is powerless to prevent it. At the same time, building restrictions within the narrow fire limit are so stringent as to virtually put a stop to building operations within the restricted section.

It would seem to be the duty of the present City Council to remedy the evil by way of moderation in both particulars, loosening the restrictions in one instance and tightening them in the other.

CAUGHT BY CHECK ARTIST

The Fulton Hardware Company for $25, Bob Peel for $5, and the King Edward hotel for $5. These business people of Enderby last week cashed checks in the sums stated, signed by one H. E. Downing, and in each case the checks were returned from the bank endorsed, "no funds." Downing was in Enderby for several days. He represented himself to be an investor looking for land, with many thousands of dollars to invest. In addition to the checks passed, he ran a board bill which has not been paid.

A. Fulton, who was the severest "stung" of the local merchants, did a little detective work on his own hook in this case. At Salmon Arm he found on enquiry that a man answering Downing's description had been seen there, and Wednesday he autoed over. He learned where the man had started to work, and with the constable drove out to the place. When confronted with the facts, the man admitted having issued the $25 cheque held by Mr. Fulton, but said he was expecting some money and it had not arrived.

Officer Bailey was notified by the Salmon Arm constable, and Wednesday afternoon he was driven to the Arm by Mr. Fulton with a warrant for the man's arrest.

Remember the date of Dr. Taube's visit to Reeve's Drug Store, on Friday, May 23rd, and if there is anything wrong with your sight do not fail to consult him.

In after years a man strikes many a trail that looks familiar.

The Tabasco minstrels will highly season things at the Opera House on Wednesday evening, May 21st.

We are headquarters for base ball, lacrosse and tennis shoes. Dill Bros

SPECIAL

Dominion Lands, Railway Belt
Shuswap Division.

The following applies only to Dominion Lands in the Shuswap Division. This Division includes the Shuswap Lake, Notch Hill, Celesta, Seymour Arm, Glenemma and Enderby districts, etc.

Squatters on Dominion Lands in this Division which are not in timber berths will be given until Monday, 2nd June, 1913, within which to appear and make application for entry.

Squatters whose claims are allowed will be notified by the Dominion Land Agent at their last known address. In the event of squatters failing to appear and make application before the date mentioned, their claims will lapse and the lands will be otherwise disposed of on and after that date. If, however, good reason is shown for failing to appear and the improvements on the land are of substantial value a further period of protection may be allowed by the Agent in cases of special merit. No other applications for entry will be received before the date mentioned. Claims not yet dealt with must be filed immediately.

Applications for entry may be made at the Sub-Agent's Office at Salmon Arm or at the Agent's Office at Kamloops. Applications for entry made at the Salmon Arm Sub-Agent's Office on the 2nd to 4th June, 1913, inclusive, will have precedence.

Vacant available lands in this Division, not valuable for timber may be disposed of under homestead entry in areas not exceeding one hundred and sixty acres. Such squatters as have wrongfully taken possession of valuable timber lands have no claim, but may in certain cases, if improvements merit, be recognized for whatever area can be arranged, in each case having regard to the rights of timber owners and the value of the timber. The area of homesteads on lands which will be hereafter logged off and withdrawn from timber berths in this Division will be not more than forty acres unless otherwise determined after inspection by officers of the Department.

Squatting on Dominion Lands hereafter without authority will not be allowed, and will result in forfeiture of improvements.

S. MABER
Superintendent British Columbia Lands

OTTAWA, 28 April 1913.

NOTE:—All bona fide squatters whose claims are allowed, will receive a personal letter from this Agency notifying them that they are recognized as such, and no one should appear at the office before the 2nd of June for the purpose of making application for entry unless such entry is received.

W. C. COWELL
Agent of Dominion Lands

NOTICE

NOTICE is hereby given that meetings of the Provincial Agricultural Commission will be held at the following places:—

Salmon Arm—May 27th, 10 a. m.
Enderby—May 28th, 11:30 a. m.
Armstrong—May 29th, 10 a. m.
Vernon—May 30th and 31st, 10 a. m.
Kelowna—June 2nd and 3rd, 10 a. m.
Summerland—June 4th, 10 a. m.
Penticton—June 5th, 10 a. m.

The Commission will hear evidence on all matters affecting agricultural conditions in the Province. All persons interested are invited to be present.

W. H. HAYWARD, M.L.A.
Chairman.
C. B. CHRISTENSEN, Secretary.

LIVE STOCK INDUSTRY

Hon. Martin Burrell, with the help of Mr. J. Bright, new live stock commissioner, has worked out a plan for development of the live stock industry. The department will undertake the distribution of well-bred stallions, bulls, rams and boars. This will involve one of the great live stock problems, particularly in the newly settled districts of Canada.

The original cost of the animals will be borne by the department and they will be placed in the hands of such local organizations as agree to certain conditions which will be set forth. All animals distributed will be bought, if possible, from home breeders and will be Canadian bred.

City Council Hears Estimates on Belvedere and George Street Work

The City Council met in regular session Monday evening, Acting Mayor Worthington in the chair and all aldermen present.

After the reading of the minutes, Messrs. Cummings & Agnew, through their engineer, Mr. D. M. Mathieson, reported on the estimated cost of work proposed on Belvedere and George streets.

The cost of a 6 foot cement sidewalk and a 26-foot macadam roadway bounded by a concrete curb and gutter, from Mill to Knight streets, will be $6,159, exclusive of all overhead charges such as engineering expenses, cost of advertising, interest on temporary loans, and any discount allowed in the sale of debentures.

The estimated cost of George street from Cliff to Knight streets, of a 7-foot cement sidewalk and a 26-foot macadam road bounded by a concrete curb and gutter will be $6,121, exclusive of the overhead charges.

If a concrete roadway is desired in place of macadam, the total cost on Belvedere street will be $10,823, or $4,663 more than macadam. If a concrete roadway is desired in place of macadam on George street, the total cost will be $11,410, or $5,289 more than macadam.

The 26-foot roadway is believed to be the best width for these streets.

"We would have liked to put a 7-ft. walk on Belvedere street, but unfortunately the position of your poles would not allow us to do so," says the report.

The engineers urge that all pipe-laying necessary on these streets be done before the work of macadamizing is undertaken.

"Now as to the rock in your present quarry. We have taken some samples of it and find on examination that it is crystalline quartz rock and has not sufficient cementing qualities to make a good road metal. The varieties of rock most suitable for road making are: Trap, syenite, granite, chert, limestone, mica schits and quartz. These are named in the order of their relative values. From a table showing the relative merits of these rocks, it is shown that the rock at the present quarry is considered to be the least suitable of all road-metal rocks.

"We believe that you have more suitable rock in your immediate vicinity," concludes the report, "and would strongly advise you before quarrying any more at your present site to see whether or not you have more suitable rock in your vicinity, and if something which appears more suitable can be found to have it tested."

Mr. Mathieson spoke at considerable length by way of explanation of the requirements suggested in the engineers' report, and showed every inclination to assist the Council in the work it was proposed to carry out.

The appointment of a pound keeper was next taken up, and E. J. Mack was named, and the desire expressed that he should continue in the position he has hitherto filled to aid in the proper handling of the pound business.

Messrs. Cummings & Agnew also submitted an estimate on the proposed improvements to the City Hall which the Council is desirous of carrying out. The specifications submitted by them provide for the installation of a lavatory, two jail cells, the completion of the basement and finishing of the deposit vault in the basement, together with the fencing and laying out of the grounds. It was estimated that the cost of these improvements would be $1,303.

The finance committee reported the following accounts, and they were ordered paid:

Cemetery clearing ..... $	121.25
Board of Works pay sheet.....	232.20
Dominion Glazed Cement Co...	451.00
R. Johnstone, wages	24.40
Fulton Hardware Co	37.62
Robert Bailey, wages	26.10
The Walker Press, adv.& ptg..	33.25
Billings & Cochrane, fees	40.00
G. Rosoman, City Hall	5.45
J. H. Carefoot, draying	9.60
John Polson, wages	.90
Thomas Kneal, wages	2.40
R. Chadwick	2.00
G. Duncan	3.00
A. Reeves, stationery	37.25
W. J. Woods, ...	11.10

It was reported by the Clerk that the Bank of Montreal had replied to the request for a temporary loan in connection with the proposed street work which is to be undertaken this season by the Council, that that bank is not inclined to advance the necessary funds required, until the public improvement bonds are issued and sold, the bank agreeing to advance the money necessary pending settlement after the sale of the debentures.

It was the feeling of the Council that if any headway is to be made this season in the direction of street improvements it was not policy to wait until the season was too far advancedf

It was ordered that the Clerk prepare a statement to be presented to the Union Bank, making application for a temporary loan of $14,000 to carry on the proposed street work until the local improvement debentures are issued.

The cemetery committee reported having had cleared three acres on the new cemetery site, and Mr. Mathieson was instructed to make a plan of the cemetery, laying out the road, walks and plots. It was promised that the work would be done this week.

Road Foreman Baxter communicated to the Council the request received by him from the office of the road superintendent, that the sand piled upon the side of the Mabel Lake road near the Enderby bridge should be removed as early as possible.

It was ordered that tickets of admission to the Recreation Ground be issued to all the school children, for May 24th, and that no charge of admission be made for anyone in uniform taking part in the procession on that day.

Ald. Grant was requested to submit an estimate of the cost of erecting additional grand stand room on the recreation ground, increasing the present stand another 50 feet.

GARBAGE DESTRUCTOR

J. H. Hooper, who was engineer at the Columbia Flouring Mills for some years up to the time of his departure for the coast a year or two ago, and who has since been employed as engineer at the City Scavenging Department, Vancouver, has, in conjunction with Mr. Wylie, superintendent of the street cleaning and scavenging departments of the coast metropolis, designed and patented a type of garbage destructors which are built on the unit basis, of any size or capacity from one ton to a thousand tons per day. This type of destructors is designed to meet the requirements of any place, from an isolated institution to a small town or large city. The capacity is increased by adding a unit when required. By this means the initial cost of installing is reduced to a minimum, which cannot be said of other types as their structure does not permit of any additions to them. Mr. Hooper expects to make a trip into the Okanagan this season, at which time he will be in a position to demonstrate his plant.

SQUADRON ORDERS

The Enderby troop of C. Squadron, will parade mounted at the armory at 3 p.m. Wednesday, 14th May, and at 7 p.m., when the drill will be taken by S. I. Sporks, of Vernon. All men must make an effort to turn out. Rifles will be carried. Dress service. The O.C. wishes every man to do his best to secure recruits for camp, so as to bring the squadron up to full strength.
