Empire Day Celebration Very Interesting to Large Number

Delightful weather, a good crowd, and a day of clean sport made the celebration of Empire Day at Enderby a complete success. Nothing better could have been asked for in the line of sunshine and shadow; there was an abundance of eats for everybody; the sports were up to the average and well handled, and the music by the Armstrong band enlivened the day and reduced the warmth of the sunshine.

The gate receipts amounted to $566 as compared with $540 last year. The number of autos parked on the ground numbered 90, and the number of children was greater than at any celebration of the past two years.

Owing to the weak underpinning of the grandstand discovered at the last moment the city council would not allow an admission fee to be taken for seats in the grand stand, and notices were posted warning of the danger. In spite of the warning many took advantage of the grand stand seats when the league baseball game was on.

Decorated Autos

The decoration committee made a slight alteration in the time for the parade, which worked out much to the advantage of the public and those in the parade. Changing the hour from 11 to 1 enabled hundreds to see the parade, who would have missed it had it been put on at 11; it also made it possible for some to enter the parade who would have been shut out otherwise. This feature was an improvement on that of any previous year, at least in numbers, and much credit is due Mr. McPherson, upon whose shoulders this part of the day's program rested. The float of the Girl's Guild of the Presbyterian Church was artistic and most attractive, and was the quick, unanimous choice as winner of the first prize. The general scheme of this float was of the May-pole type, with streamers of ribbon leading from a blue canopy top lettered with gold, to little children in white and gold and decked with flowers, seated and standing on the steps. The Guild colors were most effectively massed and interwoven. The second prize went to Mrs. Speers, whose auto was covered with bunting, streamers, and a call to the lunch counter. Another attractive float was that of E. Sparrow, which took third prize, and another representing the merits of the Overland prize contest.

Couples on bikes decorated—1st, C. Burnham and V. Grant; 2nd, E. Dunn and B. Measure.

Best decorated bike and rider—1st, Ken Burnham; 2nd, Ray Gold.

Best decorated Indian rider and horse—1st, Johnny; 2nd, Thomas; 3rd, Patrick.

Most comic feature on wheels or horseback—1st, H. Walker; 2nd, Ralph Gold, mule; 3rd, Glen Gold, pony.

Most comic feature on foot—1st, Jazz band; 2nd, Jap Girls; 3rd, Clown and Maggie Jiggs.

Junior Baseball

Considerable interest was shown in the baseball game between the Olympics and Armstrong, played in the morning. It was seen in the first inning that the Olympics had the best of it in team work, though in the early part of the game when Jacky Jones was playing 3rd it looked as if he was going to spill the beans when he left his base uncovered and ran almost to 1st instead of throwing the ball, with the result that when he got back into position he found the runner had reached third ahead of him. Shortly after Jacky went behind the bat and from then on to the end of the game the team worked in their positions well, and in the end the score stood, 16-6 in favor of the Olympics. The line up of the home team was the same after the first inning or two as when they playedlast week at Armstrong.

Lacrosse

Following the lunch hour the lacosse game between Salmon Arm and Armstrong was called. This was won by Armstrong, the score standing 3-4 in their favor, after a slow game, in which most of the time and patience of the players was spent in digging the ball out of the tall grass with their lacrosse sticks and rolling around in the hay-to-be.

Between quarters in this game the decorated autos, bikes, etc., entered the field and marched before the large and enthusiastic crowd. This feature innovation seemed to be greatly appreciated.

League Game Baseball

In the league game between Enderby and Vernon the visitors had the best of it from the start. There was never a doubt as to way the game was going provided the Vernon players held tight. Possibly four out of the eleven players on the team are Vernon boys while the others are ball players of the semi-professional class imported and given a job for the season. They had the game well in hand from the beginning, and made the score stand pretty much what they chose to make it. It was easily seen that while they were seasoned players, all of them, Enderby's team was made up entirely of home-town boys, of limited seasoning and some none at all. Barring accidents, there could be but one outcome to such a line-up, to be seen from the start. Black pitched his usual steady game, but in having to throw a swifter ball than usual to match the striking skill of the visitors there was the added weakness in Geo. Graham not being able to hold him. This precluded the possibility of any "tightening up," and made the game rather loose and full of holes. In the first inning Vernon scored 3, in the 3rd inning 4, and in the 6th inning 1. In the 2nd inning Enderby scored 2, and in the 4th inning 1. Eight to 3, that is the way it ended.

Armstrong-Salmon Arm

The game of baseball between Armstrong and Salmon Arm was really a better game to watch for the most part than the league game, for the reason that the teams were more nearly a match, and the playing was tighter. Salmon Arm showed the makings of a fast ball team. They were weak at bat, and not so sure at holding the ball in a pinch, but they were fast on the bases and at infield work, and made short work of the game. With the ball team as with lacrosse, Salmon Arm had a fine bunch of rooters and they made merry work of it for the Armstrong fans. The score in this game ended in Armstrong's favor: 3-2.

Men's Races

In the 100-yard dash Theo. Adams, after getting a poor start, pushed up to and passed five competitors and was first to the tape, with Andy Johnston, Deep Creek, 2nd. The 220-yard was won by Andy Johnston with Theo. Adams 2nd.

Children's Races

Girls, 8 to 10—1st, May Wilson; 2nd, Edith Jones; 3rd, Winnie Scott.

Boys, 8 to 10—George Hassard, Nelson Stevenson, James Mack.

Girls, 12 and under—WinnieWatson, Enid Harrop, Evelyn Patrick.

Boys, 12 and under—Harold Hutchison, Harry Farmer, William Lucas.

Girls, 16 and under—Evelyn Dunn, Rena Dill, Evelyn Hassard.

Boys, 16 and under—Everett Dunn, Ernest Close, Harold Hey.

Notes on the Day

In the evening the open-air concert given by the Armstrong band from the stand at the station was enjoyed by a large crowd, the younger folk indulging in confetta frolic and fun-making. From 8 to 10 the last picture play was shown in the Opera House, followed by dancing, and in Farmers' Hall another dance was held, both of which had their merry participants.

The celebration committee desires especially to thank the ladies who so generously gave their time and labor in preparing and serving at the lunch counter on the grounds.

It will be impossible for a statement of receipts and expenditures in connection with the celebration to be prepared this week, but it is promised for the next issue of the Commoner.

Mr. Jas. Mowat was happy to be in attendance at the celebration, where he met many old-time friends who have missed him from public circles for so long a time.

Some of the baseball and lacrosse players didn't know when they got into the field whether the sports committee wanted them to play the game or mow the hay, so they shifted to neutral and didn't do much of either.

Wouldn't it be a wise policy for the city to pursue to build a new grandstand and use the gatemoney next year to pay for it?

Football fans are asking why the good old British game should be shut out entirely and an overdose of baseball be given.

Wouldn't it be just as wise for the athletic association to hold an ear to the ground to catch the rumblings? If other sports are to be crowded out it won't be long until something happens.

The Methodist ladies served hot meals throughout the afternoon at the grounds with the result that the people were well fed and the church fund swelled by some $130.

ENDERBY BRIEFS

Mr. A. H. Skaling, of Vancouver, is visiting his son, A. C., and family.

Born—At their home, Sunday, May 22nd, to Mr. and Mrs. W. J. Woods, a daughter.

Mr. and Mrs. F. Davis, of Kamloops, spent the holidays with Mr. and Mrs. Jas. Martin.

Mr. and Mrs. Ira C. Jones returned to the Coast this week after several days with Enderby and district friends.

Ald. James and Mrs. Nichol left on Monday for the Prairie to spend the summer with their son at North Battleford, Sask.

Wm. H. Ahire, after a brief visit nwith Enderby and Mara friends, returned this week to the C.P.R. ss. Minto, on Arrow Lake.

J. B. Gaylord left for Nicola Lake last Wednesday to install and put into operation additional machinery in the flour mill established last season.

Now for the big picnic at Mara, June 3rd. Ideal picnic grounds, fast and well-handled sports, lots to eat and a delightful spirit of comradship, open to everybody.

Arvid Antilla has been appointed a deputy enumerator for the city of Vancouver. When he finishes his duties there, Arvid expects to visit Enderby for a short time.

Rev. John W. Stott left on Monday for Toronto to attend the general assembly of the Presbyterian Church. Mr. Stott is one of the commissioners from the Kamloops Presbytery. He will spend a month in the East.

Jimmy McCulloch, a well-known character of the lumber camps, was washed off a log while attempting to break a jam on the Shuswap, and was immediately carried away by the swift stream to his death. on the 20th May.

Clifford Greyell was in Enderby the past week unravelling "trouble" on the Okanagan Telephone Company's line to Mara. Mr. Greyell found the trouble easily enough but the "fixing" was not so easy. Fishermen who are poor at casting should not fish from the bridge, for thereby hangs the tale. Also many dollars' worth of fishing line, woven so tightly along the telephone wire that it was next to impossible to get it off the line. A razor blade on the end of a long pole finally cleaned it off and the service is now up to the standard of the system.

GRANDVIEW BENCH

A few Bench people took in the social and dance at Mara on Saturday night and report having a very enjoyable time.

J. Tomkinson was a business visitor to Vernon on Thursday.

F. Dysart was in Enderby on business on Friday.

Enderby Wins from Kelowna by Very Narrow Margine

By sheer good luck, coupled with the determination to win, Enderby's baseball team added another victory in the game with Kelowna on the Enderby diamond last Thursday.

It was a good game too, and proved Enderby's raw town team capable of holding down the old-time experienced players recently added to the Kelowna team from the coast. Black pitched a fine game, striking out seven men, walking one and hitting. Only three or four effective hits were scored against him, one for two bags by clark. The support given Black by the infield and outfield was the best. Only once—in the 6th inning—did they start the ragged stuff, and this was soon snuffed out. An overthrow by Klausman to 1st and another by Geo. Graham to 3rd made things look doubtful a little while.

It was Enderby's good fortune in the 1st inning that won the game. Three runs wered scored in this inning and for the balance of the game the boys lined up seven goose eggs. In the 1st, Worley and Klausman walked to 1st on balls. Dehart was pitching poor ball, and the home team took advantage of it. With Worley on 3rd and Klausman on 1st, Reid hit between 1st and 2nd. It was a poor stop and Reid was safe while Worley scored. Geo. Jones made a base hit to centre; Klausman was stopped at the plate. Reid scored on an overthrow to 2nd. Black hit to centre and scored Jones but was stopped at 2nd. Geo. Sparrow hit to DeHart, who fumbled the ball and allowed Sparrow to reach 1st. He was caught at 2nd with Mason at the plate. Three runs.

In the 1st, 2nd and 3rd Kelowna went out in one-two-three order. McLeod and Dehart hit to Black and were stopped at 1st, and Freshfield fanned. In the 2nd Clark hit a two-bagger to left centre; Harris fanned and Wilson made a drive to 2nd. G. Sparrow made a pretty one-hand catch and by a quick throw put out Clark at 2nd. In Enderby's second Mason singled to centre; E. Sparrow and Graham fanned, and with Mason on 3rd Worley hit to Dehart and was stopped at 1st.

Kelowna's 3rd was unsensational. McDonald and Calwell fanned; McClaymont hit to Klausman on 3rd who made a nice stop and caught him at 1st.

In the 3rd Dehart made a record. He fanned Klausman, gave Reid a clean single to right; hit Jones with a pitched ball, walked Black and with the bags full struck out G. Sparrow and stopped Mason at 1st with Reid on the plate.

McLeod was hit by Black in the 4th and walked to 1st; Freshfield fanned; Dehart stopped at 1st, and Clark hit to centre and was caught out by Reid.

E. Sparrow went to 1st in the 4th, on being hit by the pitcher; Graham fanned; Sparrow was caught stealing 2nd; Worley walked to 1st, stole 2nd and went to 3rd on an overthrow. Klausman struck out with Worley on 3rd.

In Kelowna's 5th Harris fanned; Wilson hit to Jones at 1st and went out; McClaymont hit to Klausman and went out with McDonald on 2nd.

Enderby's 5th was as quickly ended. Crowder came into the box for the visitors. Reid hit to 1st and went out; Geo. Jones hit what was called a foul but which afterwards rolled straight over 1st base, and he was declared out by the base umpire; Black singled to centre; Geo. Sparrow struck out with Black on 2nd.

Crowder was first up for Kelowna in the 6th. He hit to Klausman who overthrew 1st, stole 2nd and 3rd and scored on an overthrow to 3rd by Graham. McLeod was stopped at 1st; Freshfield struck out and DeHart hit to Geo. Sparrow and went out.

Enderby's 6th was uneventful. Mason and Sparrow failed to connect; Graham walked and Worley hit to pitcher and stopped at 1st.

Clark hit a fly to Mason in the 7th and was caught out; Harris hit to 2nd safe but was caught on the come-back after overrunning 2nd. This was the star play of the game. A quick throw by Worley to Sparrow on 2nd caused Harris to dive for the bag. Sparrow sat on his neck and held him with the bag scarcely six inches out of reach until the base ump could see the play and called the runner out. Wilson singled to centre, stole 2nd and 3rd, where he stopped on McDonald's hit to 1st which was stopped by Jones who beat the runner to the bag.

In the 7th and 8th Enderby succeeded in advancing one man as far as 3rd, but could not score.

In the 8th it looked as though the visitors were going to win out. A fumble by Worley and one by Black put Crowder and McLeod on 1st on dinkey infield hits. They had advanced as far as 2nd and 3rd when DeHart hit a foul way to the right of 1st which Jones made a long run for and retired the side.

In the 9th Enderby made quick work of it. On an error by Mason, who dropped a fly that came in his mit, Clark reached 1st; he was caught at 2nd, however; Harris hit to Jones and stopped at 1st, and Wilson went out on a fly to Worley.

CAPTAIN RACKET

Enderby turned out well to hear the musical comedy "Captain Racket," in the Opera House last Wednesday evening, given by local talent of Salmon Arm, in aid of the Enderby and Salmon Arm hospitals. After paying the costs of hall and advertising the sum of $82 was divided equally between them.

"Captain Racket" is a comedy with a plot involving a lawyer when he has nothing else to do and a liar all the time, and his friend who married for money and is sorry for it; Clarice, the Captain's pretty wife, out for a lark and up to "anything awful", and Mrs. Talman, a lady with a temper, who finds her Timothy a vexation of spirit.

Miss Eva Ireland, Miss Vera Hafpenny, Lee Barber and Albert Laitinen took the part of the principal characters, and all acquitted themselves excellently, Mr. Barber and Miss Hafpenny and Miss Ireland particularly so. The performance was filled with catchy songs and choruses, and humorous situations aplenty. Throughout the performance the solos were well renderd and the choruses most pleasing, and each number received hearty applause, and some of them two and three encores.

The ladies of the Enderby Hospital Auxiliary provided afternoon tea and a light supper after the performance, and all went home pleased with the entertainment and the way it was handled.

HOSPITAL BOARD

A special meeting of the Hospital Board was held on Saturday evening last to receive the tenders submitted for the alteration of entrance hall and the building of an operating room. The members present were Mr. Hawkins, in the chair, Mrs. Gray, Mrs. Folkard, Ald. Nichol and the Rev. John W.Stott.

After the tenders were opened and the treasurer had submitted a financial statement, it was agreed to proceed with the work. At this point Mr. Hawkins asked leave to retire and Mrs. Gray took the chair.

Three tenders were submitted and considered, and it was agreed to take that submitted by Mr. Hawkins at the figure of $770. Mayor Barnes was appointed inspector over the work to be done.

Gasoline sells at 30 cents a gallon at the garages in the state of Washington, exactly one-half the price charged for the same oil on this side of the border.

THURSDAC, MAY 26, 1921

ENCOURAGING TOURIST TRAVEL

One cannot drive over the Sunset highway, through the State of Washington and then on to the road leading from the state-line into British Columbia without being brought to the full realization that, if British Columbia is to enjoy even a fair share of tourist travel, we must standardize the trunk road leading from the state-line into the interior. There is as much difference between the state highway south of the line and the provincial highway north of the line as there is between Cliff Street and the wagon road to Mabel Lake.

South of the line the highway is built on a standardized grade. One can climb the hills at a speed of from 25 to 35 miles an hour. The roadbed is hard and smooth and wide enough for cars to pass at any point, and standard grade is not more than 5 per cent. when hill-climbing. The highways are gravelled for hundreds of miles and are kept practically without ruts or wheel-tracking by men who go over them every week or two and rake the loosened road material back into the wheel tracks.

Someday British Columbia will have a similar system of road maintenance. In the meantime—well, it has been said by many that British Columbia has the best roads in America for the amount of money spent on them and one will have to be content in that belief.

CONDEMN SALARY GRAB

The people of Cowichan do not believe in silence when they are indignant. At a recent meeting of the electors the following resolution was passeed:

"Resolved, that the electors of Cowichan Electorial District, in mass meeting assembled, record their indignation and repugnance at the present raising of sessional indemnities and ministrial salaries, and hereby pledge themselves not to vote at any forthcoming election for any candidate who signed the round robin, unless the act be immediately repealed."

The salary increases were: Premier, $7,500 to $9,000; cabinet ministers $5,000 to $7,500 and members, $1,600 to $2,000 per session, or, with two sessions in a year as is now proposed, $4,000 per year. Several speakers at this Cowichan meeting condemned the government in the bitterest language, alluding to the cutting of road-workeers' salaries and the reduction in road appropriations while at the same time the salary grab was carried out.

GOVERNMENT OWNERSHIP IN CANADA

For many years the Canadian Government has owned and operated the Intercolonial Railroad, showing heavy annual deficits. During the past two years it has owned and operated no less than 17,000 miles of roads, and it is now engaged in controversial negotiations with the owners of the Grand Trunk Railway over the physical valuation of that property which is to govern the amount to be paid these private investors when the Government takes over that road also. When this is concluded, the Canadian Government will own no less than 24,000 miles of railroad, and there will be but one privately owned system in the Dominion—the Canadian Pacific. The reason for this extensive experiment in government ownership of the railroads just over our border has not atl been a conviction by the people of Canada that public ownership is a good thing. They were forced into it, just as we in the United States will be forced into it if our present railway muddle is not soon straightened out.—Review of Reviews.

SAVE THE SURFACE

Next to poor roads and lack of implement sheods, rain and wind do more damage to farm equipment than any other agency, not excepting use. Paint everything! In so doing you close the pores of wood which otherwise absorbs moisture and at first slowly and then rapidly, rots. Paint all iron and steel implements and you prevent rusting. Above all keep your building painted. A well painted house and barn reflect your own personality at its brightest. Speak for your farm but see that it speaks for you, too.—Farm and Home.

GIVE THE CHILDREN A CHANCE

An essential part of any national health policy is the instruction in the principles and practice of hygiene of the great mass of the people. In this as in other spheres of human affairs ignorance is the chief curse. We are only now, as knowledge grows, becoming aware of the immeasurable part played by ignorance in the realms of disease. It is hardly too much to say that in proportion as knowledge spreads in a population, disease and incapacity decline, and this becomes more evident as the gross forms of world-wide disease are overcome. As in the individual, so in the community, knowledge is the sheet anchor of preventive medicine—knowledge of the way of health; knowledge of the causes and channels of disease; knowledge of remedy.

Every child born in Canada should have an opportunity of starting life in sound physical health, of growing to maturity in and through the healthful exercse of its powers and then of continuing to live in good health under wholesome conditions until the full course of life is run. Towards the end the Red Cross calls upon all intelligent men and women to join the Crusade for good health and to join the Red Cross whch can do more for the country in peace than it was able to accomplish in war.

ROAD TO SICAMOUS

Following the visit of Road Engineer Gwyer to Vernon last week the announcement has been made that the Mara-Sicamous road will be rushed to completion, and already preparations have been made to carry on the work.

When this road is finished it will be another stretch long waited for by the people of the Okanagan as an outlet to Sicamous. Workmen are at present engaged in completing the Sicamous-Revelstoke highway, which will then give the valley direct communication with that town.

In addition to the work that is being carried on in the northern end of the valley, it was learned that a new section of the Vernon-Kelowna road will be constructed, doing away with the detour through Ellison district. At present the main road to Kelowna, at a point south of Woods Lake, turns east and then south, through Ellison. By the construction of the new section this part of the highway will be a subsidiary and not a main road to the town to the south.—Vernon News.

A resolution urging the Federal Government to extend the Yukon trunk road and telegraph system to Fort Norman oil fields in the Mackenzie Valley was unanimously adopted by the Yukon Legislature. The present system, the resolution states, now reaches within 360 miles of Fort Norman, thus necessitating building only the last remainng link to give through connections to the coast at Skagway, where large liners ply, connecting with Prince Rupert and Vancouver, the year round.

The date of "Made-in-B.C. Week" has been set to commence Monday, June 20th. During the six days, if the plans of the Campaign Committee mature successfully, every retail merchant in British Columbia will feature the products of the Province. Boards of Trade will be asked to assist in the campaign, and all good citizens of the Province will be asked to give preference to the goods that they themselves produce.

Forest fires benefit no one and they rob the workingman, the merchant, the farmer, and indirectly every citizen. Forest fires are not only in the bush, but in towns and cities. When Canadians of town and farm and forest are all determined to stop forest fires, then our forests will be freed from the ravages of this fiend.

British Columbia must become an export province. It has the natural resources to make it a great producing and exporting province; but how can its manufacturers and farmers attain that strength and solidarity to enable them to compete abroad, if the consuming public at their doors do not buy their products?

William A. Esmonson, an Australian, who has been investigating conditions in British Columbia and the Prairie Provinces, has concluded the purchase of a two-section farm here. It is understood that his action will probably influence an Australian influx of some magnitude..

Fruit pulp from British Columbia to the United Kingdom is a new feature in shipments outbound from this port. On the S. S, "Moerdijk," which left the coast recently, there were two tons of fruit pulp as a sample shipment.

The Kelowna Board of Trade has reported the fact that there are thousands of tons of onions in that district going to waste because the people of the coast have shown a preference for the imported product.

The United States may place a duty on Canadian lumber entering that country, according to a dispatch from Victoria, just as Canada exacts a duty of 25 per cent. on American lumber coming here.

Out of the Present into the Past

IT is interesting to note the excellent preservation of some old family residences. So well do they "fit into the picture" that except for their architecture one might almost imagine them the product of the present age, yet in reality they stand as silent tributes to the wise precaution against decay and deterioration on the part of a former generation.

Any house that is worth building should also be worthy of preservation by means of paint. The maximum of protection is found in

B-H "ENGLISH" PAINT 70% Pure White Lead (Brandram's Genuine B.B.) 30% Pure White Zinc 100% Pure Paint

The formula (70% Brandram's Genuine B.B. White Lead and 30% Pure White Zinc) produces a paint with a fine, smooth surface that does not crack, chip or peel and a surface protecting film that will defy the elements.

Investigate B-H "English" paint—you'll find most Canadians use it because of its economy and lasting qualities. A trial will make you a convinced adherent to this brand that goes so far and lasts so long.

RED CROSS ACTIVITIES

In December, 1918, with the approval and indorsement of the governments of the five great powers—Great Britain, France, Italy, Japan and the United States, a committee of their Red Cross Societies was constituted "to formulate and propose to the Red Cross Societies of the world, an extended program of Red Cross activities in the interests of humanity."

As a result, a League of Red Cross Societies as today organized, and in addition to the five powers already mentioned, it now includes in its membership, 26 of the other civilized powers of the world.

This League of Red Cross Societies was created to:—organize and stimulate throughout the world Red Cross peace activities; establish close cooperation between all Red Cross Societies; fight disease and spread health, develop existing Red Cross Societies and build up new ones; serve as universal clearing house for Red Cross work in peace time.

It has developed and directed anti-typhus campaigns in Eastern Europe; organized membership campaigns for Red Cross Societies; instituted nursing services; created public health scholarship; sent out missions to study means of relief.

It is organizing a world campaign against communicable diseases; promoting child welfare; training public health nurses for service where most needed; building up in both nemispheres the Junior Red Cross; spreading public health propaganda through publications, films, lectures, etc.

It will enlarge the field of Red Cross work; mobilize relief workers in case of national calamities; keep Red Cross Societies in close touch with one another; ensure the universality of the Red Cross; create a new sense of human fellowship.

For the first time in its history, therefore, civilized humanity as a whole, is declaring relentless warfare against disease, famine and the other devastating forces which are working for its downfall. In this fight, the League of Red Cross Societies serves as general headquarters to direct the campaign.

SHARK FISHING IN B. C.

British Columbia can claim a new industry from a hitherto unknown or waste product. At Parker Island, near Active Pass, between Mayne and Galicano Islands, in the Gulf of Georgia, are to be found large numbers of mud sharks, grubbing at the bottom of the water. They are to be allowed peace no longer.

The Anglo-British Canadian Fisheries Company Limited is today developing the industry of catching these sharks. The bodies of the fish are to be converted into fertilizer and chicken feed and oil extracted from their livers. Nor is this all; the shark skins make into a fine grade of leather of various shades, useful for ladies' purses, bookbinding and novelties. The skins are not suitable for shoes.

To catch the shark, the method employed is as follows: A long steel line is thrown out, with small chains attached every twelve feet, fastened to them are large hooks baited with seal meat. Lying at the bottom of the gulf the mud sharks, grovelling in their native element, rise to the unusual delicacy and are easy prey. From twenty to thirty is the usual single catch; the sharks range from ten to fifteen feet in length and weigh from one to two and a quarter tons each.

ODDFELLOW'S ANNIVERSARY

Oddfellowship having increased so rapidly and spread its organization within a comparatively short time, far and wide over the civilized world has naturally attracted the attention of all classes of the community. Nearly a century has passed by since American Oddfellowship was founded and today it has over a million and a half members. It cannot be said that its rapid growth was the result of accident, or in consequence of its novelty. It was solely because of its adaption to the wants of mankind. Oddfellowship teaches, in the most beautiful and force ful manner, the all important lesson of fraternaty, that all men are of one family, and therefore brethren.

Anniversary Service was preached by Capt. Rev. J. G. Gibson, taking for his text Luke chapter 10, 28th verse. "Do This and Thou Shalt Live." The preacher dealt with the true foundation of national life, each man having his place as taught in Pato s Republic. Especially dealing with two types of men, the dreamers and the practical men. These were truly necessary to the nation for while the dreamers dreamt dreams the practical men put these dreams into actual life. Hand in hand they went together. In Jesus was the combination of the two, forming a wonderful life. He dreamed of the Home he had left and had visions of the Home to which he was going, but, while on this earth, he lived a most practical life, as was shown by his answer to the lawyer who asked the question "What Shall I Do to Inherit Eternal Life?" and also "Who is My Neighbor?" Jesus in that wonderful parable of the good Samaritan showed that eternal life was to be found in practical and true relationship to fellow men.

The founders of Oddfellowship did a wise act when they built their Order upon such foundations as the teaching of Jesus Christ.

This teaching not only gives the member the opportunity of elevating his own character, enlightening his mind and enlarging the sphere of his affections, but gives him the chance of living the practical life by visiting the sick, relieving the distressed, burying the dead, educating the orphan and aiding the widow. Jesus said "Do This and Thou Shalt Live.

AN OLD FAVORITE

If you want to live in the kind of a town
Like the kind of a town you like,
You needn't slip your clothes in a grip
And start on a long, long hike.

You'll only find what you left behind,
For there's nothing that's really new,
It's a knock at yourself when you knock your town,
It isn't your town—it's YOU-

Real towns are not made by men afraid
Lest somebody else gets ahead.
When every one works and nobody shirks,
You can raise a town from the dead.

And if, while you make your personal stake
Your neighbor can make one, too.
Your town will be what you want to see.
It isn't your town—It's YOU!

The farmers of the Big Bend country, up and down the Columbia river, receive 15 cents a dozen for eggs and 30 cents a pound for butter.

CONFUSING

As he was leaving home for the office the morning before Christmas his wife said she wished him to bring back a banner for her Sunday School class, but as she did not yet know the wording for it and the size needed she would send him in these two items. Consequently before going home he went to the nearby telegraph office and found great excitement there over the message, which had just been received. It read: "Unto us a child is born. Three feet wide and six feet long.

An Amazingly Easy Way to Earn $10,000 a Year

Quick Success Can Be Yours Too

Read These Amazing Stories of Success

Earned $324 in Two Weeks.
I had never earned more than $60 a month. Last week I cleared $108 and this week $216. You have done wonders for me.—Geo. W. Kearns.

I Now Earn as Much as $100 a Day.
I took your course two years ago. Was earning $15 a week clerking. Am now selling many of the largest firms in the U. S. I have earned more than $100 in a day. You secured me my position. Our Sales Manager is a graduate of yours.—J. L. DeBlois.

Earned $1,562 in Thirty Days.
My earnings for the past thirty days are $1,562.60 and I won Second Prize in March, although I only worked two weeks during that month.—C. W. Campbell.

Earned $1,000 in Six Weeks.
My earnings for March were over $1,000 and over $1,000 for the last six weeks, while last year my earnings were $356.00. I travel eleven months out of the year, working days each week.

The N.S.T.A. Got me out of a rut where I was earning less than $1,000 a year, and showed me how to make a success.—J. P. Cherrington.

What these men have done, you can do! In your spare time at home you can easily master the secrets of selling that make Star Salesmen. Whatever your experience has been—whatever you may be doing now—whether or not you think you can sell—just answer this question: Are you ambitious to earn $10,000 a year? Then get in touch with me at once! I will prove to you without cost or obligation that you can easily become a Star Salesman. I will show you how the Salesmanship Training and Free Employment Service of the N. S. T. A. will help you to quick success in Selling.

$10,000 A Year Selling Secrets

The Secrets of Star Salesmanship as taught by the N. S. T. A. has enabled thousands, almost overnight, to leave behind for ever the drudgery and small pay of blind-alley jobs that lead nowhere. No matter what you are now doing, the field of selling offers you a big future. Get the facts. Call or write

THE
RED CROSS
Its Peace Time Work

"Peace hath her victories,
No less renowned than War."
—MILTON

The peace time problems and work of the Red Cross are greater by far than all that confronted its organization, all that it accomplished during the war. In British Columbia today the necessity of this work, which the Society is pledged to carry on, is obvious.

Red Cross Public Health Nurses

The training and maintenance of an adequate number of Red Cross public health nurses for service in the rural districts and far-flung pioneer sections of this Province is a work which is now actively occupying the attention of the Society. Towards this end, arrangements were concluded with the authorities of the University of British Columbia whereby a Red Cross Chair of Public Health is now established and being maintained. The course is a Post Graduate one, and the Society has appropriated a sum of Fifteen Thousand Dollars towards defraying the expense. Already ten of these nurses are placed and being maintained. In time it is hoped that each centre will be able to support its own nurse, and thus extend the service without added expenditure.

Emergency Service and Outfits

In sudden disaster by fire, flood, wreck, on land or sea, who will help—who will pay? Here the Red Cross does not temporize, but proceeds at once to the scene with doctors, nurses, workers, food, clothing, tents, blankets, and whatever else will tend to mitigate and relieve suffering and distress. Disaster may not overtake your town, village or district for years, yet it may happen tomorrow, and THE RED CROSS WILL BE THERE.

WANTED - $1.00
from every man and woman in British Columbia as enrollment fee in the B. C. Division of the Canadian Red Cross Society.

The OKANAGAN TELEPHONE COMPANY hereby GIVES NOTICE that it has filed with the Provincial Secretary at the City of Victoria in the Province of British Columbia for the approval of the Lieutenant-Governor-in-Council a revised Tariff of Rates and Charges, and NOTICE IS HEREBY GIVEN that a hearing of the application will be held at the Court House, Vernon, on the 8th day of June, A. D. 1921 at 10:30 A. M. at which any person affected by the said application may appea and be heard.

DATED this 12th day of May, A. D. 1921.

EDW. A. RIDDELL,
Secretary-Treas.
85-2

MARA ITEMS

Mr. and Mrs. Davy and Mr. and Mrs. Charlesworth motored to Vernon on Saturday.

Col. Landon went to Enderby on Saturday to accompany Mrs. Landon and infant son home.

Cyril Rosoman, who acted so long as deputy postmaster under his late mother, received the official appointment of postmaster last week.

Another social was held on Saturday night. Songs were contributed by Mr. Hawkesworth and Mr. Robertson, also by Mrs. McCready and Mr. Robertson. Dancing and cards were also included. Many from the surrounding district attended.

Mara Local, U. F., held an open meeting on the 18th inst to meet Mr. Chapple, the Central secretary. A great deal of disappointment was expressed by members that President Copeland did not accompany him. A general discussion took place, and it is felt that good results will be seen shortly.

The 24th was observed as a general holiday, many taking in the Enderby sports and others participating in the picnic at Mara under the Mara Local U. F. A fleet of motor boats made trips about the lake with grown-ups and children. Lunch was served in the shady nooks and ice cream provided, all thoroughly enjoying themselves. The children particularly delighted in bathing in the shallow water. During the afternoon Miss Allen gave a novel exhibition of riding a surf board, towed by a fast motor boat. She presented a fine sight out in the lake as the board swayed to and fro in the waves.

NORTH DEEP CREEK

The school inspector, Mr. Lord, visited the school here last week and gave a very good report of the progress made by thechildren.

Mr. Holtum has erected a new house on his homestead.

Mr. Shepherd, who has been visiting Mr. Bennett for several weeks, has rented the D. Coristine farm for the summer, and he was joined this week by his wife and family.

Mrs. L. A. Gorle is visiting her parents, Mr. ad Mrs. Smiley.

Mr. Routley, of Somerset, Eng., has purchased the farm of Mr. W. Fortune, and the latter is moving to Salmon Arm to reside. The purchase price is said to be $30,000.

Mr. R. Fortune, of Kamloops, is visiting his brother, William.

Hullcar Literary Society

The monthly meeting of the Hullcar Literary Society, held last Friday evening, was one to be remembered with pleasure. All present were indeed privileged in hearing Mr. Kennedy's lecture on "The Poet." It was—as one of the members declared when thanking him—truly a mental as well as a spiritual treat. Other items of the program were, two cornet solos by Mr. Harold Murray, a recitation by Miss Anderson, song by Mrs. Kenny, also gramaphone selections by Mr. Hoover, after which refreshments.

Aug. 11—Kelowna at Vernon.

CITY COUNCIL SESSION

Proposed to Bring in an Amending By-law to Building By-law.

At a meeting of the City Council at 2.30 p. m. of the 23rd, to settle all matters relating to the handling of the recreation grounds on May 24th, the clerk was instructed to have the grand stand placarded "Dangerous, Keep Out."

The clerk was instructed to issue a building permit to W. H. Hutchison in accordance with his application received by the Council on the 9th; and at the next regular meeting to bring up an amending by-law to repeal such restrictions contained in the Building by-law of the city as would otherwise prevent his erecting the proposed blacksmith shop. It was also decided to include in said amending by-law a clause forbidding burning of trade waste in rear of stores.

Mayor Barnes reported that, owing to complaints received of scarcity of water in the higher parts of town, he had written the Okanagan Saw Mills asking that they would kindly discontinue the use of city water for their boilers; and that the company had replied that it would govern itself accordingly.

A letter was received from the Public Works Department advising that the Vernon-Salmon Arm road had been classified as a Primary Highway, and requesting that the approval of the city to this classification be signified; and stating that an agreement would be submitted for ratification by by-law covering the Secondary Highway. Such approval was given.

Mayor Barnes reported that on behalf of the Board of Works, in the absence of the chairman, he had arranged with Mr. McKay, Government Road Foreman, to take charge of the grading of the proposed secondary highway from the school house to the city limits; also to supervise the work of gravelling which was to be done gratuitously by property owners of the neighborhood.

Mayor Barnes reported that he had arranged with Reeve Hassen of Spallumcheen for the loan of a wheel scraper; also that he had loaned to that municipality a toggle from the city's rock crusher pending the arrival of that casting from the East.

On motion of Ald. Coltart and Ald. Nichol, it was decided that Enderby should bear its share of the cost of united action if the other municipalities of the Valley consider that the application of the Okanagan Telephone Company for approval of the Government to the proposed revision of rates and charges should be opposed and if, on receipt of further information it should appear that the interests of Enderby demand it.

A letter was received from Mrs. M. Sherlow complaining that her daughter had been hurt by falling over a bad place in the sidewalk on Vernon road. The Mayor reported that he had had the sidewalk repaired.

Accounts for wages from A. Green and W. L. Mackay for labor, $20 each, were referred to Ald. Mackay for authentication.

The principal of a certain school for girls had occasion to speak sharply to one of the pupils recently.

"Mabel," he said sternly, "you've neglected your work shamefully, and you must remain with me an hour after school."

Mabel shrugged her thin little shoulders.

"Well, Mr. Stoneley," she said, "if your wife doesn't mind, I'm sure I don't."
