17TH YEAR—No 48 GRAND FORKS B. C., FRIDAY, SEPTEMBER 27, 1918 $1.00 PER YEAR

SHORT SESSION OF CITY COUNCIL

Fifteen Members of Fire Department Will Be Furnished Accident Insurance Policies

Mayor Acres and Ald. Harkness, McCallum, McCabe, McDonald and Schnitter were present at the regular meeting of the city council on Monday evening.

The joint finance and water and light committee recommended that the city pay one-half the cost of a $1000 accident insurance policy for fifteen members of the fire department. Each policy would cost $9, of which the city would pay $4.50 and the firemen $4.50. The recommendation was accepted.

The chairman of the water and light committee recommended that the old screw pipe in the pumping station be replaced by a steel pipe. Accepted.

The chairman of the water and light committee reported that City Engineer Reid had been granted a two weeks' vacation.

The chairman of the board of works reported that the Grand Forks Transfer company's coal shed had been painted red, and that Cecil street and Ida avenue had been graded. Accepted.

Mayor Acres made a lengthy report on the proceedings at the conventions of the Good Roads league and the Union of British Columbia Municipalities in Penticton Both meetings, he said, had been very successful and full of interest.

WHY WE ARE SAVING SUGAR

We are restricted in the use of sugar in order that the people of England may have two pounds per person per month.

The people of France one and one half pounds per person per month

The people of Italy one pound per person per month.

These amounts are not guarauteed by the allied governments, but are the maximum that will be furnished if supplies can be obtained.

French sugar stocks on May 31 were the lowest in the history of that nation.

A great handicap this season in selling peaches, crabapples, plums and prunes has been the unequal distribution of sugar on the prairies. This was noticeable in Saskatchewan in the early part of the season, but recently the cry of shortage comes from many outlying points in Alberta.

Many cars of mixed fruits loaded in Calgary have been cancelled, and others threatened unless sufficient supply of sugar could accompany them to insure the buyer some chance of a sale.

The following strikes us as the right thing. It is a pity that it did not dawn a little ahead of the end of this season, when the damage has been mostly done:

"Charles Hebberd, Washington state food administrator, announced in Spokane that a further loosening of the ruling affecting the sugar control system has been allowed, and that householders may now secure as much sugar as they wish for canning purposes.

"It will have to be taken in twenty-five pounds lots, but the amount previously used will have nothing to do with getting more stock. The making of jams, jellies or preserves is allowable at this time."—Markets Bulletin.

MORE SAMPLES FROM FRANKLIN WILL BE ASSAYED

Wm. Thomtinsod, sampler and collector for the Canadian munition resources commission, returned yesterday from a ten days' visit to Franklin camp. While there he visited and took numerous samples from the "Black Lead" (Pyroxenite dike), which crosses Franklin camp from northeast to southeast. The samples taken will be assayed for platinum by the above commission, and is a result following the sampling and assaying of platinum-bearing ore now proven to exist in the pyroxenite and augite-syenite found at the Maple Leaf mine in the same camp.

CANADA WILL GO BACK TO OLD TIME ON OCTOBER 27

OTTAWA, Sept. 26.—Canada will resume ordinary time at 2 a m. Sunday, October 27. All clocks will at that hour be put back sixty minutes.

Potato Prices

There is little change in the potato market in the Northwestern states Stockton, Cal., quotes f.o.b. shipping point $2 to $2.45, mostly $2.25.

British Columbia quotations are: Vancouver, $26.50; Okanagan, $28 to $30; Ashcroft (reported), $32.

Wholesale prices in Portland, Washington and Spokane are as follows:

Portland: Burbanks, $2.75 to $3 per cwt.; fancy, $3.25 to $3 50; Idaho, $2 85 to $3.10.

Seattle: Home grown, receipts moderate, $2.50 to $2.75.

Spokane Utah: White variety, $2 50 to $2.75 per cwt; red, $2.50 to $2.75, mostly $2.50; Washington white variety, $2.50 per cwt.; California white variety, $2.

The demand and condition appear to be good.

Too Long to Wait

"Nonsense!" exclaimed the author angrily. "There's no need whatever for you to gag. The play's quite funny enough in itself. All you have to do is to speak my lines quietly, and then wait for the 'house' to laugh."

"Oh!" said the comedian in his own initimitable manner. "That's all very well from your point of view. You live in town, and so can afford to wait. But what am I to do? I have to catch the midnight train for my place down in the country."

The last dance of the season will be given at the Christina Lake pavilion next Wednesday evening, October 2. The special attraction for this event will be a big chicken and clam chowder dinner. The pavilion will be enclosed.

PREPARING FOR VICTORY LOAN

Previncial Zones Have Been Created Whereby Greater Efficiency Is Hoped For--Campaign Soon

The British Columbia committee of the new Victoria loan to be floated soon by the Dominion government has named the press committee chairman to have charge of the various zones throughout the provinces during the campaign and in the work of raising whatever sum may be decided upon for the further conduct of the war, the whole press of Canada being called into service to give its fullest support.

W. H. Malkin, of Vancouver, has been selected as the provintial chairman and L. W. Makowski is the secretary of the Victory loan organization, John Nelson, of the Vancouver World, being the provincial chairman of the publishers' organization throughout the province.

The object of these provincial zones is to obtain greater efficiency and the chairmen named have been selected and asked to secure the co operation of others in keeping the loan prominently before the people.

Will A. Elletson, editor of the Rossland Daily Miner, has been appointed for this district, having supervision over Rossland, Trail, Grand Forks and Greenwood, and the chairmen for other districts or zones are as follows:

Nelson—W. F. Payne.
Prince Rupert—W. R. Raymond.
Nanaimo—R. Hindmarsh.
Victoria—B. C. Nicholas.
Vancouver—Roy Brown.
New Westminster and valley—J. W. Cunningham.
Kamloops—F. E Simpson.
Vernon—J. E. McKelvie.
Revelstoke—Walter Jordan.
Canadian Press—V. McKipp.

The papers coming under the jurisdiction of the Rossland zone are the News, Trail; Sun, Grand Forks; Gazette, Grand Forks, and Ledge, Greenwood.

A Western Character

A strange western character, one that The Sun man often used to see on the streets in Deadwood a few years ago, passed over the divide recently.

The death of Martha Canary—better known as "Calamity Jane"—revived many tales of her remarkable adventures in the west during the early troubles. Once, it is related, she was riding in a stage coach driven by Jack McCaull, a notorious character in Deadwood, S.D., when a band of Indians swooped down. McCaull was wounded, and fell back on his seat. The six passengers in the coach were helpless with fright. "Calamity Jane" scrambled to the seat, lashed the horses into a run and escaped. It was this same McCaull who afterward was made the most memorable example of "Calamity Jane's" vengeance. McCaull shot "Wild Bill" Hicock from behind a tree, for a reason never known, after "Wild Bill" had staked him. When "Calamity Jane" heard of it she started at once to find McCaull. "Wild Bill" was her friend, and the fact that she once saved McCaull's life did not deter her from taking it. "I gave it to him once," she declared. "I'll take it back now" She came across him unexpectedly in a meat shop, seized a cleaver, and, threatening to brain him if he moved, waited till her friends bound him. She was one of those who tugged hardest to pull him over a cottonwood limb, and with grim sasisfaction she watched him kick his life away.

ESTIMATED APPLE YIELD IN PACIFIC NORTHWEST

Jonathans, light; Spitz and Delicious, below average; Winesaps are best, quality and size excellent. Oregon, Washington and Idaho will produce 30,666 cars apples in 1918 against 24,900 in 1917. Wenatchee and district is now estimated to produce 8000 cars as against 8350 last year.

The varieties will average as follows; 3000 Winesaps, 850 Delicious, 850 Spitz, 700 Jonathans, 330 Rome Beauty.

Yakima will have a 500 car decrease over last year. Winesaps are the leading variety.

Spokane district is estimated to produce 1000 cars against 400 last year, but this is balanced off by the very light Walla Walla crop.

Oregon, Hood River—This district will produce about 1500 cars, almost exclusively Newtons and Spitzs. This is 10 per cent better than last year. Other Oregon points report the crop light. Four hundred cars will cover western Oregon production and Rogue River is estimated to produce 225 cars. Idaho production for 1918 will not exceed 600 cars against 3500 in 1917. Utah and Colorado and California report a decrease from 1917 shipment.

MINISTER OF MINES ARRIVES IN CITY

Hon. Martin Burrell, minister of mines in the federal government, arrived in the city today from the east. He is making a tour of the west to confer with western mining men. The Sun has not learned how long he intends to remain in the city.

THE WEATHER

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Laws' ranch:

		Max.	Min.
Sept	20—Friday	82	48
	21—Saturday	81	46
	22—Sunday	70	54
	23—Monday	73	46
	24—Tuesday	71	40
	25—Wednesday	74	38
	26—Thursday	78	40

Rainfall ..... 0.07 *Inches*

W. K. C. Manly packed sixteen boxes of pears from one Flemish Beauty pear tree. He ftates that if he had a thousand acre orahard of this kind of tree he would retire from business.

For Sale—The Graham ranch, on south side Kettle river near Billings. Well adapted for stock raising. Price $12 per acre. Apply Donald McCallum, Grand Forks.

VICTORY LOAN COMING SOON

Campaign Will Be Made Throughout Canada on Lines Similar to Last One Floated

OTTAWA, Sept. 26.—The minister of finance states that the plan adopted for the campaign of the coming Victory loan has been discussed exhaustively by representatives of the Victory loan organization from all parts of Canada and settled upon as being the most efficient and economical method of handling the loan. A final analysis of the Victory loan shows that the actual cost of floating it included payment of all organization expenses, advertising, remuneration to bond and stock houses and commissions to canvassers, was not much over one half of 1 per cent, or, to be exact, 1.64 per cent. The other expenses were for services of chartered banks, in receiving subscriptions, keeping accounts, delivering securities at their branches throughout Canada, over a period of many months, and paying interest upon coupons free of exchange during the entire period of the life of the bonds and for the administration in the offices at Ottawa, where a temporary staff numbering more than 600 was engaged for months in connection with the work of the loan.

A BUSY WEEK IN THE POLICE COURT

This has been a busy week in the police court. On Saturday Tony Schummel and T. W. Ferguson, of Republic, were each fined $50 for having liquor strong than 2½ per cent in their motor car.

Early in the week an alien enemy was brought in by Constable Stanfield. He was assessed $100 for not reporting. A military service evader was also orought in from Paulson by the provincial constable. He was turned over to the military authorities.

On Tuesday Dan Morrison appeared before the court for selling wood without license. He was fined $1 and the price of a licence—$5.

Tomerrow the case of Ryan vs. Topp will come up before the police magistrate.

TRAM FROM ROCK CANDY TO K. V. LINE

Superintendent Mulhern end Chief Engineer McCulloch arrived in the city on Tuesday, and on Wednesday they made a trip to Lynch creek.

Their mission to this city was in connection with the proposed extension of the North Fork branch of the Kettle Valley line a mile and a half above Lynch Creek, from which point a tram will be be constructed to the Rock Candy mine, thus greatly facilitating ore shipments from that property. It is stated that this work is to be carried out at once.

FRIDAY, SEPTEMBER 27, 1918

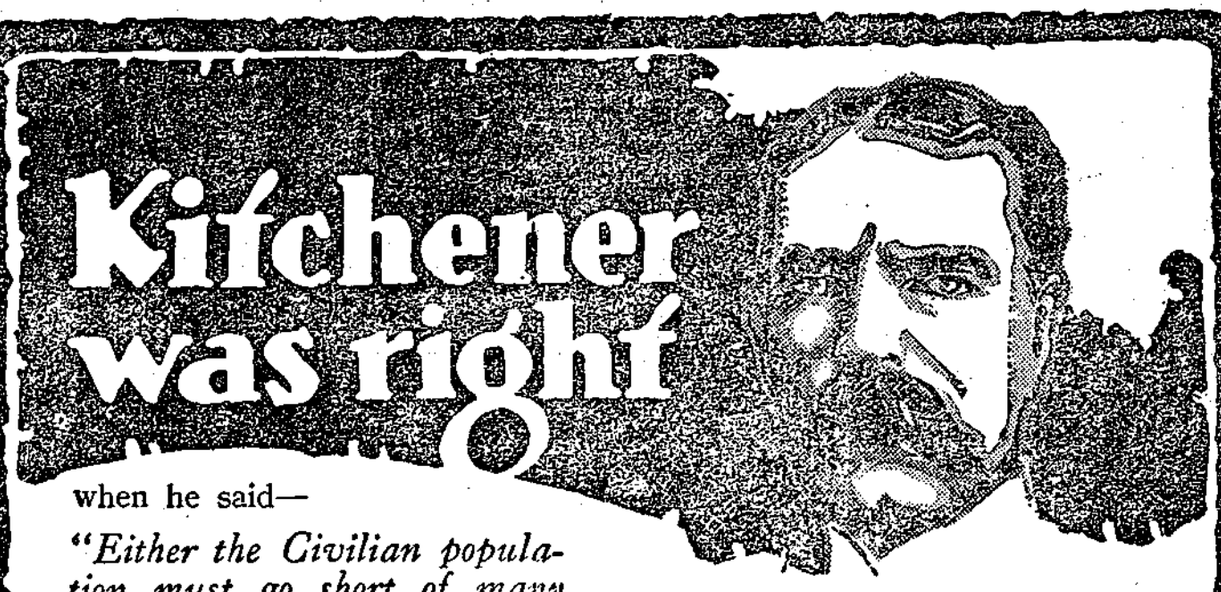
Production must increase. There has been no call for slackening efforts. The impression seems to prevail that Canada has done well enough in growing grains, and the future is assured, so far as food is concerned. Such is not the case, has not been the case, nor will it be for some time to come. The call is for more and yet more production, and the cry for food is still loud in the ears of Canadians. The hard work and self-sacrifice of Canadians has borne fruit. Great Britain can not be starved. There is enough to provide for the armies and the civilians until the next crop, but no more. There are no food reserves, as there should be. Indeed, Canada must double its production in 1919. Let that soak in. The continent of America has promised, and must deliver 15,000,000 tons of foodstuffs this coming year. In 1917-18, 10,000,000 tons were promised and will be delivered. America must produce 50 per cent more for the allies. That's the job before the farmers and citizens of this country. The great crops of grain in the United States in 1918 may not be duplicated next year, and Canada will have to deliver a still greater share. There are but two ways of securing this total—production and conservation. And the greater of these is production. The manifest duty of the hour is to prepare the land for the coming of banner crops in 1919. Plough. This should be hammered into the consciousness of Canadians now. This country, with a year's experience in tractors, with several hundred more of them nvailable this fall than in 1917, should be able to turn over many million more acres than ever in the history of this country. The more ploughed, the greater will be the production. The weather is favorable, the machinery available, the necessity of the times demands it. Then plough. Let the tractors hum for twenty-four hours a day.

Never were extravagance and useless buying regarded as serious an evil as today. A greater evil still is the spending of one's money on silly pleasures. Canadians carry to serious a determination to ride through to victory and to vindicate the stalwartness and endurance of the men at the front to tolerate any such laxity in their expenditures. Our people generally are sizing up the power of the dollar as never before, and are investing their surpluses against a possible landslide after the war. This is real patriotism. It is carrying common sense into national business. It is proving that the strength of a nation lies in her saving citizens.

Germany has found a substitute for almost every necessary of warfare that has become scarce or lacking; but there is one thing for which there is no substitute, and without which Germany can not avoid defeat. That is morale, and the Germans seem to be running out of their reserve supply of that indispensable commodity.

Before you talk about being "overworked," make an honest study of your habits of life. The chances are that you will find that the troubles you lay to work are caused by your pleasures, by irregular and intemperate eating or by worry.

Lemon drops, because they quench thirst so well, are the most popular kind of candy with the soldiers overseas. Every month the quartermaster corps of the American army supplies about 200,000 pounds of the extra-sour kind.



when he said—

"Either the Civilian population must go short of many things to which it is accustomed in times of peace or our armies must go short of munitions and other things indispensable to them."

NOW, the only way we can possibly live up to that obligation is by going without in order that our soldiers may have. For the money we waste is not money at all—it is equipment, clothing, shot and shell that are urgently needed in France.

By denying ourselves, therefore, we enable Canada to procure to the fullest extent the materials and labor which she and our Allies need for the successful prosecution of the war.

What happens when we fail to save?

A pull on labor by the Government in one direction and a pull on labor by the people in the opposite direction. Hundreds of millions of dollars are of no use to the country if goods and services can be secured only to the extent of eighty millions of dollars. So we must do everything in our power to release both goods and labor for the purposes for which Canada needs them.

WHETHER it be food, coal, wool, steel, leather, labor or transportation, the result in all cases is the same. Whoever competes with the nation by freely satisfying his own desires, selfishly appropriates to his own use that which is so urgently required for our fighting men in France.

For the sake of your country and the boys "over there," spend cautiously. Think of what Lord Kitchener has said, and ask yourself first, "Is this something I really need or can I do without it?"

Strange Run of Numbers

"Odd how one particular number will seem to be connected with the fate of some particular person, is it not?" asked the man with the incandescent whiskers of the man with the underdone nose.

"Yes," answered the man with the underdone nose. "Now, there was Finley Marigger, down our way He was born on the sixth day of the month, grew to be six feet tall, had six children and died on the sixth day of the week, worth six million dollars."

"Rather strange," said the man with the incandescent whiskers; "but it isn't a circumstance compared to Tennyson Ten Eyck, a fellow I used to know. He was born on the tenth day of the tenth month, in the tenth year after his parents were married He was always a tender hearted boy, and at ten years he lost ten fingers and ten toes altogether in trying to save ten kittens that had been thrown in front of a train of ten cars on the tenth siding in the railway yards at 10.10 a m Ten years later he was married to Tennie Tendall, whose father owned ten business blocks, each ten stories high. They were divorced in ten weeks, and he married a girl Tenwiek, who lived ten miles from Teneriffe. They got room 10 at an hotel on their bridal tour, which began on the tenth day of the month, and the hotel collapsed at ten o'clock at night, and ten hours later they dug them out, and she was dead. He mourned her for ten days only, and was then married to a widow woman named Tengerrow. She eloped with a man named Tenhally ten minutes after they were married It went along that way until Ten Eycke had married ten wives, and he was perfectly happy with the tenth."

"That certainly was remarkable," observed the man with the underdone nose.

"Yes. And in addition to all that Tennyson Ten Eycke was the most tender hearted man you ever knew, in spite of his misfortunes. Also, he was the champion tennis player; but at golf it always took ten strokes for him to put the ball in the hole, and as a usual thing, he lost ten balls in every game He died ten years ago, having been shot ten times by a man who disputed a debt of ten dollars and ten cents."

When You Telephone Be Sure of Your Number

Trying to remember telephone numbers is one of life's most futile strivings.

Always consult your telephone directory--do not trust to your memory for numbers. It takes only ten or twelve seconds to make sure--ten or twelve seconds spent as an insurance against delay and inconvenience.

The very first requirement of effective telephone service is that the directory is consulted before calling.

BRITISH COLUMBIA TELEPHONE COMPANY, Ltd

The man with the undrdone nose cast a glance of suspicion at the man with the incandescent wiskers.

"And," he mused, "I suppose they buried Ten Eycke in a grave ten feet deep and ten miles from nowhere, and the tender tendrills of ten of the tenderest vines are tentatively twining over his ten-year-old tomb?"

Then the man with the incandescent whiskers ordered some ten-cent cigars, and they smoked for ten minutes.

AMERICA'S BIG WAR DEBT

Will Reach Nineteen Billion Dollars With the Fourth Liberty Loan

WASHINGTON, Sept. 26.—America's war debt will reach the $19,000,000,000 mark the day she reaches her fourth Liberty loan, with daily expenditures ranking close to $59,000,000.

This month's war cost will break all records. The nation's burden for September is placed at $1,775,000,000. According to figures this exceeds the monthly expenditures of any other belligerent.

The United States has spent nearly half as much in eighteen months as Germany has in forty-nine months. Out of this amount, of course, the government has aided her associates in the war to the extent of $6,000,000,000 in actual cash and tendered them credit of $750,000,000 more.

A man wisely makes use of the present when he sells a duplicate wedding gift.

A woman may talk until things get serious and then give the man a chance.

A man who speaks nothing but the truth is never garrulous.

His Revenge

Bilson had lived in many lodgings and had a vast knowledge and experience of landladies, but the hawk-eyed matron who last had charge of his domestic affairs was the limit.

Years ago he had become hardened to the marmalade-eating, tea drinking old women—even women who used his handkerchiefs had ceased to surprise him. But Mrs. Blinker had no care.

No. She would help herself liberally and consistently to his stores quite openly, saying:

"Oh, Mr. Bilson, I'm taking a little of your groceries; but I'm not like the ordinary landlady—I'm telling you, you see!"

Well, one Saturday his stores were shorter but his bill was longer than usual. This was the last straw. Quietly packing his box, he took it down to the street and put it on the roof of a taxi.

Then, while the driver wound his machine up, Bilson went into the house and called down the kitchen stairs:

"By the way, Mrs. Blinker, I'm sloping! But I'm not like other lodgers, so I'm telling you!"

And he drove off, feeling much better, thank you.

The Consolidated company has surveyed the Rock Candy group at Lynch Creek.

IT'S THE STEADY ADVERTISING That Brings the Steady Trade to You

Isn't the news of your store something like the news of the whole city?

There is news every week in Grand Forks --- some weeks more than others--- but every week there is news.

Isn't there news in your store every week? Isn't there something to advertise?

Your customers are shopping every week. Aren't you losing many of them the weeks you do not advertise?

It's the steady trade that counts with a store---it's the steady advertising that brings the steady trade.

News of the City

Wm. Thomlinson, the government ore sampler und collector, expects to leave next Tuesday for the Kamloops district.

Mayor Acres returned on Saturday from Penticton, where he attended the convention of the Union of British Columbia Municipalities.

W. H. Beach, of Christina Lake, was in the city yesterday making the final arrangements for the last dance at the lake this season.

The two Granby smelters produced 2,167,077 pounds of copper in August, making a profit of $300,000 The company is developing a coal mine on Vancouver island and a by-product plant at Graves Point.

A. E. Savage and Leo Mader, of this city, who have a lease on the Cariboo dump, are reported to be shipping concentrates from Camp McKinney to the Granby smelter.

Employment Office—Do you need help of any kind, or do you want a position of any kind, phone or write. Headquarters for ranchers to sell or exchange stock. Let me know what you want or what you don't want, by mail or phone. L. C. Odell, Grand Forks. Box 242. Phone 80.

The Granby company will soon be shipping copper from its Velvet mine near Rossland to the smelter in this city Fifty men are now working at the mine. A tunnel will be driven to connect the old workings at great depth.

Road Superintendent J. A. McCallum has recovered sufficiently to leave the Grand Forks hospital.

The Granby company is expending $1,250,000 on its by-product plant at Graves Point. It will be in operation about January, and in coke alone it will save the company $500,000 a year.

For Sale—Nine head young stock. Also barrel churn and cream separator; incubator, 450 egg; combined hatcher and brooder; three brooders, new. No reasonable offer refused. Apply C. V. Meggitt, near Green houses.

Bruce White and A. D. Nash, prominent mining men of Nelson, who are negotiating a deal for the sale of he Union mine, arrived in the city at noon today. They left for Franklin shortly after lunch.

City Clerk Hutton is spending his vacation with Mr. Anderson, formerly city electrician of Grand Forks, at Kenwick, Wash.

A. Tedesco, of Fife, was brought to the Grand Forks hospital last Friday. He is receiving treatment for an accidental gunshot in his arm.

Mr. and Mrs P. T. McCallum have returned from a pleasant vacation tr p to the coast cities.

Mr. and Mrs. Stephens left on Wednesday for California, having received word that Mrs. Stephens' mother is seriously ill in that state.

The weekly train to Lynch Creek on Wednesday took up five empties and brought down six carloads of lumber from the Lynch Creek mill. The shipment was destined for the prairie market.

R. J. Gardner spent a day at the head of Christina lake this week prospecting for chrome.

Charles Allen left this week for a vacation trip to the east.

About a carload fluorspar ore from the Rock Candy group is piled up at the Humming Bird siding. No shipments have yet been made to the Trail smelter, in spite of reports to the contrary.

The B C. mine near Eholt is shipping good copper ore to the Greenwood smelter.

The payroll of the Trail smelter is about $130,000 a month.

He Thought So

Robinson was a traveler, but how he managed ever to secure such a position it is impossible to say, since he was afflicted with a most distressing stutter.

One hot afternoon he called on a very crusty business man with a view to getting some orders, but, unfortunately, there were none to be had, the business man giving Robinson an emphatic answer in the negative. The traveler therefore locked up his sample case and prepared to take his departure, when the merchant called out to him:

"I say, you must find that impediment in your speech a great handicap?"

"Oh, n-no I don't," stuttered the traveler. "Everyone has his p p peculiarity. St-sta stammering is m m mine Wh-what's yours?"

"So far as I'm aware, I haven't got one," replied the other.

"W-what! D-do don't you st-st-st-stir your coffee with your r-r-r right hand?"

"Yes, of course I do," came the retort.

"Th-thought so," said the traveler 'M-m-most people, you kno-kno know, use a t t teaspoon."

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch ! ? ! ? ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Avenues of Honor

The city of Cleveland has adopted a novel plan for honoring its soldier dead. For each Cleveland soldier who loses his life in this war a Victory oak will be planted along one of the boulevards, and each of the oaks will be named for a soldier. This will constitute a beautiful and enduring memorial, with a practical as well as a sentimental value. Other cities may find it desirable to follow Cleveland's example. — Springfield Union.

It is quite likely that the Tulameen river will soon be dredged for platinum.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of $10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to

G. R. NADEN,
Deputy Minister of Lands,
Victoria, B. C.

Job Printing at The Sun office at practically the same prices as before the big war started.
