THE EVENING SUN

VOL. 1 GRAND FORKS AND COLUMBIA, B. C. THURSDAY, FEB. 13, 1902. NO. 85

TELEGRAPHIC NEWS

BRITON-JAP ALLIANCE.

London, Feb 12.—An important parliamentary paper was issued last night giving the terms of a practical alliance between great Britain and Japan for the preservation of China and Corea. The paper covers a dispatch sent by Lord Lansdowne, the secretary of state for foreign affairs, on January 30th, to the British minister at Tokio, Sir Claude MacDonald, and comprises a signed copy of the agreement. In explanation the paper says the agreement may be regarded as an outcome of the events of the past two years.

AN EX-MILLIONAIRE.

Detroit, Feb. 12.—In connection with the arrest of Frank C. Andrews, for the theft of $1,000,000 from the City Savings Bank, it is said that in addition to a total indebtedness to the City Savings Bank of $1.158,000, to secure which Mr. Andrews has signed over to that institution all his real estate holdings and stocks, bonds and other securities, which it is estimated will total about $1,000,000, four local banks and a trust company hold his checks, certified to by Cashier Andrews, to the amount of $662,000. A considerable number of these checks are protected by securities deposited with them by Mr. Andrews.

A BAD WRECK.

Pittsburg, Pa., Feb. 12.—One man, name unknown, killed, one seriously injured, several cars consumed by fire and a lot of live stock slaughtered, is the result of a colision of two Fort Wayne railroad freight trains near Haysville, Pa., today. After the collision the wreck took fire and a number of cars were consumed.

ABJURE SECRECY.

London, Feb. 12.—A special dispatch received here from Rome today says that at a meeting of the representatives of the Italian lodges of Free Masons, it was decided that Italian Freemasonry should cease to be a secret society.

NEW COPPER SYNDICATE.

Toronto, Feb. 12.—The Consolidated Copper Company of Parry Sound, has been authorized to issue shares to the amount of $5.000,000 The promoters are Duluth, Minnesota, capitalists.

HEAVY FINE—STRIKE.

Vancouver, Feb. 12.—J. Ward, proprietor of a hotel at Shoal Bay, was brought here today and paid $300 fine for selling liquor to Indians. This is probably the largest fine ever collected in the province for a like offence.

The carpenters and caulkers who were working on the construction of a government fisher cruiser in the Wallace yards, went on strike today on account of two non-union and objectionable men having been employed at the work. A meeting was held this morning, but no settlement made.

COMBINE BROKEN.

Ottawa, Feb. 12.—Judge Taschereau who was appointed some time ago to investigate the charges made by the Canadian newspaper publishers to the effect that the Canadian manufacturers of newsprint had organized a combine, has made a report which bears out the assertions made In consequence the government has, under a provision of the tariff act giving it power to reduce duties when a combine is known to exist, reduced the duty on newspaper from 25 per cent ad valorem to 15 per cent.

SPEAKER BOOTH ILL.

Vancouver, Feb. 12.— A special from Nanaimo says: "The condition of Speaker Booth has become such as to cause great uneasiness, and friends resident at a distance from his home, Vesuvius bay, have been summoned to Salt Spring island. It is impossible for him to think of further public service at present, and it is stated that his resignation has been tendered."

BIG C. P. R. SCHEME.

Toronto, Feb. 12.—The Canadian Pacific Railway Company today renewed its offer to the Ontario government to build a branch line from Dinorwick to Mininetakie and Lac Seal, provided the government builds dams to raise the level of the lakes. The government will probably accept as the new road will open up a large pulp and mining territory.

A TOTAL WRECK.

Halifax, Feb. 12.—Little hope remains of saving the Allen line steamship Grecian. The heavy swell last night evidently pounded the bottom out of her, as today the engine room was flooded and the fires extinguished. Pilot Flemming, who was in charge at the time, has been suspended.

BOILER EXPLOSION.

Pembroke, Feb. 12.—The boiler in Thackeray & Rawlin's sawmill blew up today. George Rawlins and Martin Greber were dangerously wounded.

TOLSTOI DYING.

St. Petersburg, Feb.12.—Count Leo Tolstoi has suffered a relapse and is dying.

CALLED TO DAWSON.

Windsor, Feb.12.—Rev. James Livingston, pastor of the Methodist church here, and president of the London conference, has received a call to Dawson. He says he will likely accept. The salary offered is $3000 and free parsonage.

FROZEN TO DEATH.

Peterboro, Feb. 12.—David Valentine, 62 years old, a native of St. Thomas, Ontario, lost his way in a snow storm on Saturday, and after wandering around in drifting snow, he fell exhausted and was frozen to death.

BOXERS AGAIN.

Hongkong, Feb. 12.—A dispatch from Canton announces that the Berlin Missionary society's buildings at Fayen, near Canton, have been burned by an anti-Christian riot. The missionaries escaped.

THE EVENING SUN

TURNER & EVANS.

UNION LABEL — TYPOGRAPHICAL — GREENWOOD

THURSDAY, FEBRUARY 13, 1902

The business office of The Evening Sun is located at present in Columbia, where all correspondence with it, and exchanges should be addressed.

The inhabitanta of the Americas have been so persistently told that they are the most progressive and enlightened beings on this planet, that they have long regarded the matter as an established fact. A few, however, have had the temerity to question the assertion, and their researches would seem to indicate that in many branches of industry we are left far in the rear by some of the countries of the old world which we have been taught to regard as decayed and effete. But in the matter of government ownership of public utilities we are half a century behind some of them. Italy, a country which has long been pointed out as being in a model state of decayedness, owns nearly all of her railroads, and leases them to private companies. Germany owns at least nine-tenths of hers; Austria-Hungary nearly one-half, and Russia two thirds of her immense system. France is stated to come into possession of hers about the middle of this century, but has been considering the propriety of getting them sooner. The various Australasian communities control nearly all of their railroads, and the same is true of India. The United States and the other countries of North and South America, which represent now half the mileage of the world, are almost the only governments of prominence that do not have some direct interest in their railroads, except Great Britain. Canada's position in this connection is extremely deplorable. Here the railroads own the government.

The Hon. James Sutherland has been elected to the position of Minister of Marine and Fisheries of the Dominion government, without opposition.

Lord Sholto Douglas, son of the Marquis of Queensbury, has purchased a saloon in Spokane and intends running it.

The city of Los Angeles, Cal., has just paid private owners $2,000,000 for a water works system, of which the city is now the owner, and thus does the principle of public ownership of public utilities progress.

The Marquis of Dufferin, at one time Governor General of Canada, has been very ill and is slowly sinking.

The Evening Sun is the only daily printed in the Boundary country, the richest gold-copper region in British Columbia.

CITY SUNBEAMS

Mr. C. Doberer of Grand Forks, and Miss Edith Cameron of Vancouver, were married last evening at 8 o'clock, in Knox Presbyterian church, Rev. J. R. Robertson officiating. Mr. Doberer is the well-known genial and courteous clerk in charge of the dry goods department at W. R. Megaws, and the bride, though a resident of Vancouver, formerly resided in this city, and is held in high esteem by all having the pleasure of her acquaintance. She arrived here on yesterday afternoon's train. At the wedding Mr. M. C. Davidson supported the groom and Miss Gretta Kennedy, the bride. The Evening Sun joins with the many friends of the happy couple in wishing them a full measuse of happiness and prosperity in the matrimonial state

At its Monday night meeting the Grand Fork's council passed for payment the following bills: N. D. McIntosh, $1.00, Spokane Northern telegraph, $4.50; R. Petrie, $1.70; Doerr, Mitchell & Co., $6.70; Granby Co., $562.20; Granby Co, $11.60; W. R. Megaw, 35c. It also granted P. T. McCallum a rebate of $25 on his auctioneer's license. At the adjourned meeting yesterday, the council passed the annual loan bylaw, and extended the release of the Smelter company till Monday next.

The contract for excavating the cesspool at the new school house has been awarded to George Chapple for $54.

The executive of the Grand Forks board of health, held a consultation with E. L. Charles and J. S Snapp of the V., V. & E. yesterday evening. later a committee was appointed to assist the railway company in procuring right of way over disputed points.

School Trustee Meeting.

The trustees of the Columbia school held a meeting last evening, and spent three hours in the careful consideration of local school matters. The session was held in the city clerk's office.

Several communications were received, considered and filed. Relative to transfer of school property from the government to the city, the superintendent of education writes that the matter is in the hands of the attorney-general.

The resignation of G. A. MacLeod late teacher of the Columbia school, was received and accepted, Chairman Dinsmore remarking that the relations of the board with Mr. MacLeod were most agreeable and satisfactory during the year and a half of his service in the school.

A warrant was ordered drawn for the teacher's salary for January.

Intructions were given to have the outhouses cleansed, locks put on the doors and a partition fence erected between them.

The secretary was instructed to advertise for a supply of wood.

No action was taken in the matter of janitorship.

There were two applications for the position vacated by Mr. MacLeod, that of Miss Agnes Miller and Mr. R. A. McMordie. It being understood by the board that a large majority of the parents were desirous of having a male teacher, and being personally known to the board to be an efficient and successful teacher, and being highly recommended by many prominent school officers in eastern provinces, and by officials from the educational department at Victoria, the board decided to engage the services of R. A. McMordie for the balance of the school year.

The board fixed the first Wednesday in each month for regular meetings.

The board adopted a set of rules and order of business for self-government.

MOONSHINERS CAUGHT.

Halifax, Feb. 12.—An illicit whisky still was found running in full blast in Abner Brennan's fruit store, in the heart of Halifax tonight. Brennan and a man named Kennedy were arrested.

G. C. McGregor came in from camp No. 3. V., V. & E., today.

COLUMBIA, B. C.

Situation, Environments and General Resources.

The City of Columbia is situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

The natural situation of the city for beauty is not excelled in Ameriea. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling waier, fringed with forest trees and surrounded by mountains, forffling a charming combination of picturesquesness and grandeur

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victora & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacific railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canadn--part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered through the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby smelter and converter —the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city,

Owing to the fine climate, the central situation, the beautible environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes, as well as a wholesale distributing point; and when finally allied and wedded to her sister sister, will be the best and largest city in the interior.
