The Evening Sun

Vol. 1 MINER {GRAND FORKS COLUMBIA.} FEBRUARY 4, 1902. No. 77

TODAY'S NEWS OF THE WORLD.

San Antonio, Tex., Feb. 3.—The latest information from the Hondo-Mexico mine explosion show it to have been fully as serious as at first reported. There were a total of 106 miners at work at the time the explosion occurred, and all of them are dead. The majority of the victims are Mexicans and Chinamen, very few Americans having been at work in the mine. Every mule in the mine was killed, three dead ones being taken out yesterday. The work of clearing out the wreck in order to get to the buried miners is being rushed, but there is no hope that any of them will be rescued alive. The explosion occurred in mine No. 6, and was occasioned by striking a gas pocket.

Vancouver, Jan 3.—The Vancouver, Westminster, Northern & Yukon railway, backed by the Great Northern, is meeting with opposition in its request to the city to be given 100 acres of of False creek flats for terminal facilities. This line has a scheme to connect Cariboo, Omineca and Dawson with Vancouver. It is directing its attention just now to completing plans to run a railway from Vancouver to Westminster, where connection will be made with the Great Northern branch to Seattle, thus giving the Hill line direct entry into this city, a course which was denied it years ago

Greenwood, Feb. 3.—The fall of snow has made it possible, after three months' delay, to haul ore from the No. 7 mine to the Greenwood smelter. R. Meyerhoff, of Midway, has taken the contract for hauling. Blue & Fisher, formerly saw millers in the Boundary, have settled their partnership matters, mutually agreeing upon a division of partnership property. Impending litigation is therefore stopped.

Toronto, Feb. 3.—Colin McLeod used the union label of the journeymen tailors without authorization and was sued by the tailors' union. This morning Judge Briton gave judgment declaring McLeod had not used or issued any fraudulent trademark in contravention of any right of plaintiff, or other member of the union. The decision is a declaration that the right to use a union label is not restricted to those so authorized by the union.

Vancouver, Feb. 3.—The Marble Bay copper-gold mine and the lime quarries on Texada island, British Columbia, owned by J. J. Palmer of Toronto and the Christie estate, were sold today to a syndicate of American capitalists. The sale price was $200,000. The first payment, amounting to $40,000, wac made today when the new owners took possession. Prominent among the buying syndicate are Henry Hewitt, Jr, of Tacoma, and Col. C. W. Thompson and A. J. Hayward of Seattle. The new company has also secured control of large coal and coking properties on the coast. Shipments of lime from the Marble Bay quarries are made at present at the rate of 4000 tons per month, principally to the Pacific Coast states and Honolulu.

Toronto, Feb. 3.—Ten thousand dollars has been paid for a seat on the stock exchange by Messrs Osborne and Francis.

London, Feb. 3.—The Canadian government will personally conduct immigrant parties to Canada. Strathcona is now making arrangements for the first party which will leave in the beginning of March.

Montreal, Feb. 3.—A. C. Henry, general purchasing agent of the C. P. R., died last evening.

REPUBLIC MINING NOTES.

At a meeting of the directors of the Tom Thumb Mining company at Spokane Saturday it was decided to start work with a full force Monday, Feb. 3.

Supt. Maurice Downey is making the necessary arrangements to resume sinking the double compartment shaft. An electric equipment has been shipped to the mine, and will be installed at once. The mine can stope ore at the rate of 200 tons daily, with present development, and has 20,000 tons on the dump.

J. W. Sneed will take charge of the Republic & Grand Forks telegraph office Feb. 1. A new operator will be sent from Spokane to handle the Spokane & Northern wires here. The R. & G. F. lines have direct connections with the Canadian Pacific and Postal telegraph companies' wires.

Work on the Maud S., formerly the Mabel, near the Morning Glory, shows continued improvement. The tunnel now being driven will soon reach a point below the bottom of the shaft, when an upraise will be driven to ventilate the mine.—News.

From ocean to ocean in three days is the time the Canadian Pacific expects to make early in the spring. Equipment for the new service will cost the system nearly $1,000,000 and will be supplied by builders in the United States. This service will be in addition to that formerly operated, and the new train will be tri-weekly. The Canadian Pacific will cut 24 hours from the running time, making a 72 hour schedule between Montreal and Vancouver. The average running time will be 40.3 miles an hour. The train will make no local stops whatever.

Two tramps were taken from a Central Pacific freight train at Auburn, California, in the Sierra mountains a day or two since, frozen to death. They had tied themselves together to a brakebeam for the trip over the mountains.

.. THE EVENING SUN ..

H. S. TURNER.

TUESDAY, FEBRUARY 4, 1902

The business office of The Evening Sun is located at present in Columbia, where all correspondence with it, and exchanges should be addressed.

Sir Tom Shaughnessy, Premier Dunsmuir, Judge Walkem, Mayor Holland, vs. Progress and Development of the Boundary and Similkameen regions. This is the title of the case on trial in British Columbia today with the people on one side and the great C. P. R. dog in the manger on the other. The others are mere instruments in the hands of Sir Thomas.

On approach of the legislative session, Mr. Dunsmuir nervously fumbles his C. P, Bailway obstruction policy.

The Nelson delegates to the coast Liberal conventio to be held at Vancouver on the 6th instant are W. G. Gillett, E. Ferguson and W. Rutherford. The convention will no doubt be a slim affair, as the prime movers in the matter muddled it in their original efforts to secure an attendance of delegates safely gaged and muzzled.

The result of the opposition to the V. V. & E. is liable to rob the Granby Smelter of Republic ores. Not being able to get to that smelter owing to local opposition, these ores will be hauled to Northport.

LOCAL NEWS.

The city council of Grand Forks last night appointed H. C. Kerman assistant to City Clerk Bower. At a former meeting of the council a resolution was passed authorizing such appointment, and the resolution declared that the assistant should be a fireman, single, and sleep in the fire hall. The action last night was not in accord with the resolution referred to. Mr. Kerman is a married man, and not a fireman. One of the main objects in calling for an assistant to Mr. Bower was to secure some one who would be under pay from the city and obliged to sleep in the fire hall to attend to fire alarms at night. There were six applicants for the position; P. H. Donaldson, D. McCallum, R. A. McMordie, H. C. Kerman, F. H. McKenzie and L. Crossen. Mr. Donaldson and Mr. McKenzie are experienced firemen, the latter being Chief of the Greenwood fire department. The effect of the appointment is to leave the city as before, so far as fire protection at niget is concerned at the fire hall, dependent still on volunteer service. However, Alderman Sheads informs the Sun that Chief of the fire department Savage has moved into the fire hall and will sleep there hereafter, and that other rooms will be fitted up for other firemen, who will also sleep there.

F. Hartinger, proprietor of the Columbia brewery, would not stand to be gouged by the C. P. R. government cinch. Recently he ordered two beer vats from London, Ont., the construction cost of which is stated to be $50 each. When the vats arrived here he found the freight charge against them to be $203. Mr. Hartinger refused to pay that amount, offering the company $100, which was refused. The breweryman then told the company to keep the vats. After retaining possession of them for a week or more Mr. Hartinger was informed he could have the vats at his figures $100. No wonder the C. P. R. is moving heaven and earth and premiers and judges and mayors to retain its cinch by keeping other railroads out of southern British Columbia, when it can cut its demands in two in the middle.

The offices of the V. & N. telephone company and the C P. R. commercial telegraph are to be separated. The room adjoining, formerly occupied by the Spraggett lumber company is being fitted up for occupancy by the latter.

Another case of small pox is reported fro Quinlivan's camp.

Constable McMillan is up from Cascade. James Kelly and D. C. Beach came in from the same point yesterday.

A. C. Flumerfelt of the Granby company came in today from the east.

Next Friday the Chinese New Year festivities will begin.

The great Steel trust realized a snug little profit of $10,000,000 per month the first nine months of its existence.

The first indemnity instalment of $1,840,000, was promptly paid by the Chinese government.

The fall of snow Sunday and last night has made excellent sleighing.

A bill has been introduced in the house of representatives to authorize the coinage of two and one-half cent pieces.

Rossland's annual winter carnival will be held February 20, 21 and 22. The program includes hockey matches, ski and snowshoe contests and horse races.

The remains of J. Roderick Robertson were cremated in New York, in accordance with instructions found in his will. The Ymir and Enterprise mines were shut down and the main offices closed for the day out of respect to the memory of the departed.

Peter B. Holcomb was killed last Saturday afternoon in the main shaft of the War Eagle mine, where he was employed as a ropeman. The body was discovered by the foreman. It is believed Holcomb lost his footing while working about the guide rollers. He was badly crushed about the head and shoulders. Deceased was 35 years of age, unmarried, a native of Lambertville, N. J., and a member of Lone Pine (Neb) Masonic lodge.

COLUMBIA, B. C.

Situation, Environments and General Resources.

The City of Columbia 's situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

The natural situation of the city for beauty is not excelled in Ameriea. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling waier, fringed with forest trees and surrounded by mountains, forffing a charming combination of picturesquesness and grandeur

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victor a & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacifie railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canadn—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered through the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby smelter and converter —the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city,

Owing to the fine climate, the central situation, the beautible environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes. as well as a wholesale distributing point; and when finally allied and wedded to her sister sister, will be the best and largest city in the interior.

Your Local Paper

is a necessity to you, financially and socially. A NEWSPAPER of GENERAL CIRCULATION, containing the latest news of the world, is equally necessary to you. The "up to date man" will provide himself with these two necessaries.

In THE TWICE-A-WEEK SPOKESMAN-REVIEW will be found the very latest news of the world, its matter including information on politics, commerce, agriculture, mining, literature, as well as the local happenings in the states of Montana, Oregon, Idaho, Washington, and the province of British Columbia. In addition, its columns for women, its popular science articles, its short and continued stories, its "Answers to Correspondents," and "Puzzle Problems" combine to form a home newspaper that at $1.00 per year can nowhere be excelled.

Perhaps you have something to sell—a farm, a team, farm machinery. You may wish to buy something. The best possible way to communicate with people who wish to buy or sell is by inserting a small advertisement in the Spokesman-Review. The price is the same in the daily and the Twice-a-Week.

IT DOESN'T COST MUCH—

18 WORDS	1 time	30c
	2 times	45c
	3 times	60c
24 WORDS	1 time	40c
	2 times	60c
	3 times	80c

If you wish to reach business men and newcomers, use the DAILY. Farmers, stockmen, lumbermen and miners take the TWICE-A-WEEK.

PRIVATE BILL NOTICE

NOTICE IS HEREBY GIVEN THAT AT the nex tsession of the Legislative Assembly of British Columbia application will be made on behalf of the Corporation of the City of Grand Forks and the Corporation of the City of Columbia, British Columbia, pursuant to resolutions passed by the municipal councils of the said cities on the fifteenth and thirteenth days of August last. respectively, and approved by the electors at a poll taken the 28th day of August last, for an act to amalgamate and incorporate the said cities as one city municipality uuder the name of "The Corporation of the City of Minor." with all the rights and powers held by either aud with all the rights and powers conferred by any statute on city municipalities within British Columbia; and to vest in the new city all the assets of both the said cities; and to validate certain bylaws of the said cities; to validate all general debentures of both the said cities (whether already issued or hereafter to be issued in pursuance of the said resolutions) and charge same on an equal footing as vaiid and subsisting debentures of the new city: and authorize and legalize certain expenditures; and to contain other special provisions in accordanee with the said resolutions.

Dated the 14th day of October, 1901.
