L. W. HILL'S VIEW

Construction of V., V. & E. Is a Business Proposition

Road Will Be Built to Vancouver as Quickly as Possible

Louis W. Hill, son of James J. Hill, and first vice-president and general manager of the Great Northern system, was in Victoria last Wednesday. In an interview in that city he said:

"To tell you the truth, we are here for a good time, but unfortunate must cut our stay short, leaving tonight. None of us want to go, myself especially, but I am afraid we can't avoid it.

"V., V. & E? Oh, yes, we are going ahead with it as puickly as possible. As you are probably aware, we have two sections under construction, one on the Canadian side and the other on the American side. We are working westward from Midway to Oroville, and from Oroville to the boundary line. Then we have a survey party in Hope mountains, while another party is working from Vancouver easterly."

"How about the dreadful charge that the Great Northern designs to bleed this province through its railway maneuvers?"

Mr. Hill laughed heartily. "What rot," he exclaimed. "We don't do business that way. The construction of the V., V. & E. to the coast is a business proposition, and the Great Northern is a business corporation. We will come to your coast cities because we want Canadian trade. We could not do business in eastern Canada by diverting that trade to Seattle or any other American port?"

TOPICS OF THE TOWN

Forest fires are now raging in all parts of the Boundary. The mountain south of the city, in the state of Washington, at night resembles Vesuvius, and in the daytime the smoke obscures the sun as effectually as a London fog. At Greenwood burning forests can be seen from every point of the compass. The fire that started near the Buckhorn mine, in Deadwood camp, has spread south for nearly half a mile. The fires in the direction of Long lake have also spread considerably, as has that below Midway. A large fire has appeared on the hill south of Lind creek gulch, and is spreading fast. The woods at present are dry as tinder, and the smallest spark starts a blaze.

Rev. Dr. Bryce, of Manitoba college, will give an illustrated limelight lecture on "The History and Work of Manitoba College" in Knox Presbyterian church on Friday night next, August 18th, beginning at 8 o'clock. Dr. Bryce is one of the founders of both the university and the college, and has been a professor since the beginning. He is also one of the leading historians of the Canadian west and of the Hudson's Bay company. He is now special agent for Manitoba college, and the people of Grand Forks are to be congratulated on having a visit from him. No admission will be charged, but a collection will be taken. The public is most cordially invited.

James H. Kennedy, chief engineer of the V., V. & E., with head quarters at Midway, was in the city last Wednesday.

Lost—Last Tuesday evening, on Winnipeg avenue, between Sun office and Sixth street, open-face silver watch; Waltham movement. Return to this office and receive reward.

L. T. Herchimer and bride, nee Miss Tilley, returned last Tuesday from their wedding tour to the Lewis and Clark exposition.

Last Wednesday afternoon Trustee Hanington, of the Grand Forks public schol, received a telegram from the minister of education, Victoria, stating that the midsummer vacation had been extended to Monday, the 21st inst. This order applies to all schools east of the coast range.

A rich find of native copper is reported from P. T. McCallum's Craglee claim, in Gloucester camp. The copper occurs in innumerable narrow quartz veins, which are found to widen with depth.

The annual picnic of the Methodist church Sunday school was held in the grove near the V., V. & E. bridge last Wednesday afternoon. It was largely attended, and everybody had a good time.

Services will be held at the usual hours in Knox church next Sunday. Rev. Mr. Ross will preach both morning and evening. Sunday school at 10 a.m.

Max Schaffer, an old smelter employee, left today for Nelson. He will spend his vacation during the shut-down of the Granby on a photographing tour through the Kootenays.

Bert Scott, a smelterman, left yesterday for Spokane, where he will visit his parents during the close-down of the Granby.

A large water tank is being erected in the centre of the town of Cascade as a protection against fire.

A. F. McDonald returned yesterday from a three weeks' trip through the Okanagan and Similkameen districts.

James Harris has returned from the Similkameen country once more. He says he has become tired of the growing-up-with-the-west business. He offers a prize of $10 to anyone who can name a village between Grand Forks and the coast that he has not visited.

The ten-year-old son of Mr. and Mrs. Thos. Parker, of Columbia avenue, is suffering from an attack of typhoid fever.

Born—In Grand Forks, on Tuesday, August 8, 1905, to Mr. and Mrs. D. H. Curry, a son.

NEWS OF THE CITY

Granby Smelter Closes Down for Ten Days to Connect New Furnaces

East Kootenay Coal License Case Has Been Appealed

Every furnace at the Granby smelter is now closed down, three having been blown out Tuesday evening and the remaining three last night. The shut-down was made for the purpose of making connections with the two new furnaces, and also to allow of needed repairs being made. The new 150-foot smokestack was finished last Sunday morning, and the long flue dust chamber will be completed on or about the 17th inst. When the eight furnaces are blown in, which will be about ten days hence, the Granby smelter will commence reducing 2700 tons of ore daily.

A dispatch from Victoria states that the East Kootenay coal and petroleum license case, known as Baker and others versus Smart, recently decided by Mr. Justice Martin, and in which it was held that the chief commissioner of lands and works had no power to issue the special form of license used, has been appealed and will come up for hearing at the next sitting of the full court.

Mr. McLagan, youngest son of Editor McLaggen, of the Vancouver World, has charge of the commissary and financial departments of the Midway-Vernon railway at Midway.

Spencer is now headquarters for the B. C. Telephone company's gang that is rebuilding the line from Cascade to Greenwood. Phoenix should be reached in another week.

A large number of the smelter employees have organized fishing and camping-out combinations, and will spend the time during the close-down of the Granby in the sylvan glens on the banks of Christina lake.

The Midway & Vernon expects to build about twenty miles of road this year.

O. Johnson, late of the Gem restaurant in this city, is erecting a building in Midway, and expects to be ready to accommodate the hungry public in about a week or ten days.

The weather still continues to be warm enongh to suit the man who doesn't care what becomes of him after he dies.

Entries for the relay race at the Spokane Interstate Fair close August 15. Manager Robert H. Cosgrove reports that entries have already have been received, but there still is time for others to come in. The relay race last year was one of the biggest attractions on the Spokane grounds. This year it will be better than last. The purse up is $1000. The race commences the first day and lasts for six days. The conditions are such as to make it a race for the cowboy, the stockman and the farmer with his horses and not with the race horses in disguise. The saddle must be the one in common use in the west on the range and on the farm. The premium is liberal, which ought to induce at least one entry from this part of the country. There are young men here who are able to win in this race.

The Eastern Townships bank now occupies the entire building formerly used by Customs Officer Gordon in Midway, having had the place suitably fitted up. E. C. Moe, late of this city, is the acting manager of the Midway branch.

A large warehouse is being erected by the construction department of the V., V. & E. on the Canadian side of the boundary line, at Midway, to accommodate railroad supplies. The ground in front of the building has been graded, and on the arrival of the steel gang track will be laid alongside.

A large band of work horses have been shipped to Midway from the east for use on the V., V. & E., and will arrive in that city shortly.

The provincial fruit inspector was in the city today, and put in his spare moments by condemning several crates of pears.

There is a short trestle in the vicinity of Curlew and one or two other gaps between that point and Ferry and the grade will be rerdy to receive the track. The bridge gang commenced work on them about the middle of the week.

D. D. Munro, of this city, will shortly open a grocery store in Midway.

Ole Johnson, of Spokane, has purchased the Lavalley ranch on Christina lake, a favorite summer resort. Mr. Johnson intends to increase the boating accommodations and making other improvements.

M. R. Feeney went over to Midway this week in search of a location for a blacksmith shop.

Geo. Chapple has fully recovered again, after being confined to his home for a week by sickness.

D. C. Beach has resumed development work on his Crackerjack claim, near Christina lake.

Geo. E. Massie, the merchant tailor, left last Saturday for a visit to the Lewis and Clark exposition in Portland.

Thomas Earl, of Lytton, and Thomas Cunningham, of Vancouver, members of the provincial board of agriculture, were in the city today consulting The Sun horticulturalist on the most modern method of irrigating fruit trees.

E. Spraggett's government road builders have discontinued work on the Franklin camp road, and are now at work near Pass creek.

Wm. Grammer, first vice-president of New York Central, and other railway officials, passed through the city last Wednesday in a private Lake Shore & Michigan Southern car for Phoenix.

NICOLA RAILWAY

New Route to Hedley Has Been Discovered via Quilchena Creek

Reduces Grade and Cheapens Transportation Rates From Similkameen

A dispatch from Spence's Bridge says that it is reported that a new route has been discovered which will enable the Nicola railway to enter the Similkameen over a better grade than that afforded by routes previously considered.

The old route of the C.P.R. passes Nicola about 150 feet above the Nicola river, commencing to raise at the forks, but by taking the new pass through Aspen Grove the railway takes almost a level route from Coutlee and passes Nicola on the flat across the river. It would then follow the level of the lake to Quilchena, raising at Quilchena creek and following the valley of that creek to a point due south from The Falls, Aspen Grove, striking the watershed eight miles farther south than it does on the old survey made by the C. P.R. some years ago. It also makes a difference of about 300 feet between Nicola and Aspen Grove, being that much lower.

By going through this new pass the railway company can not only make it possible to work the mines to better advantage, but can enormously increase their tonnage. Besides, they will have easier and cheaper construction work.

By following the lower route it will bring the line down to a point near Quilchena that at some future time when extensions may be made to Kamloops and Okanagan sections the grade will be in such a position that work can be continued on, thus saving a distance of fifteen miles between Quilchena and Coutlee.

Three of the largest fairs in the Pacific Northwest close the week before the Spokane Interstate Fair opens. This means there will be all manner of good attractions at the Spokane Fair this year. It opens October 9—the week following the Montana State Fair at Helena, the Washington State Fair at North Yakima and the big Provincial Fair at New Westminster, B. C. The appropriations for this latter amount to $75,000 this year The Lewis and Clark exposition will also be drawing to a close at this time and many attractions will go from there to Spokane. This means the racing program will be filled with many entries and that the tried and best horses will be on the Spokane track, where final scores for the season will be settled. These other fairs including the Portland Fair, will be a help to Spokane, rather than otherwise. The midway at Spokane should be crowded with more attractions and more novel sights than ever before.

There is a likelihood of Eholt being served with the Bonnington Falls power when the new line now being built is completed.

The Boundary Falls smelter will start up again about the middle of next month.

THE EVENING SUN,

PHONE B74. GRAND FORKS, B. C.

FRIDAY, AUGUST 11, 1905

When the amendment to the V., V. & E. charter had to fight it way through the Dominion parliament, step by step, The Sun ventured the prediction that if the bill legalizing the charter become a law, thus allowing the Great Northern company to extend the V., V. & E. to the coast, the C. P.R., in order to oe in a position to compete for a share of the traffic of Southern British Columbia, would be forced to complete the link from Midway to some point on its main line on the Fraser river. This prediction, if all signs do not fail, is shortly to be verified. The Nelson Tribune, which should know more concerning the intentions of the C.P.R. than any other paper in this province, in a recent issue sums up the railway situation as follows: " * * * Summing up the Great Northern intentions, they may be briefly stated as comprising construction from Midway to Hedley within a year from date, and from Hedley to Cloverdale within two years. Active operations will begin in six weeks' time, when abundance of labor from the Palouse harvest fields will be available. At present labor is scarce. The C.P.R. are now building from Spence's Bridge to Nicola. They will within a month let the contract from Nicola to Allison, and within a year will reach Hedley, which is the objective point. Meanwhile they are reconsidering their route into the Similkameen at the eastern extremity, and may yet decide to build from Grand Forks instead of Midway, and so get an easy competitive grade. By the middle of September they will have 10,000 harvesters at liberty in the Northwest; and this will solve the labor problem for them. So that by October 1st, at least, both companies will have all the men they require, will have settled their right-of-way claims, and will be racing for Hedley and the narrow passes of upper Similkameen."

It is claimed the V., V. & E. will be completed to Hedley within a year, and that the C.P.R. will reach that point from the west in about the same time. This will give us a short cut to the coast in rather less time than we had hitherto figured on.

The people of Midway and Rock creek, where railway construction is now beginning, are enthusiastic over the bright prospects for the future.

A Bad Bruise

Often causes a good deal of trouble. The best cure is a prompt application of Nerviline, which instantly stops the pain, prevents swelling, removes all blackness and discoloration. Nerviline is antiseptic—prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not using Polson's Nerviline. For nearly fifty years it has been the standard afmily liniment of Canada.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

It is reported that William Rutledge has struck a high grade quicksilver ore on his property about one mile from the Lavalley place at Christina lake. This is an important discovery, as it is one of the minerals that has not yet been found in paying quantities on Captain Disbrowe's Togo.

"Fabio Romani"

The powerful and impressive dramatization of Marie Corelli's famous story, "Vendetta," which has been christened "Fabio Romani," will be offered for public approval at the Grand Forks opera house next Saturday, August 12th.

The supporting company is an exceptionally strong and notable one, and the scenic and mechanical adjuncts have been prepared regardless of expense. "Fabio Romani" has been firmly established as one of the most intensely interesting and absorbing of modern dramas. For ingenuity, strength and brilliancy "Fabio Romani" is a marvel of stagecraft done by a master hand in stage adroitness. The magnificent possibilities of the story held an irresistable appeal for the author, and on this play he has expended his entire store of theatric knowledge. The characters are finely drawn, the dialogue, crisp, terse and to the point, the human interest unflagging and the many dramatic possibilities are taken advantage of to their fullest extent. Taken in its eutirety, dramatic art holds no brighter promise than "Fabio Romani." Reserved seats are on sale at Woodland's.

WANTED

Twenty-five steady boarders wanted at the Province hotel. Chicken and ice cream dinner every Sunday.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse schools of telegraphy, in this issue, and learn how easily a young man or lady may learn telegraphy and be assured a position.

Heavy teaming of all kinds done by J. W. Jones.

GRAND CELEBRATION ..OF.. PHOENIX LABOR ORGANIZATIONS

WEDNESDAY

AUG. 16, 1905

CONSISTING of Parade, Athletic Sports (in which Phoenix Athletic Association will take part), Foot Races, Jumping Contests, Pole Vaulting, Tug-of-War, Boxing Matches, etc.

ADDRESSES by Prominent Labor Leaders.

BALL IN EVENING in the Miners' Union Hall.

SPECIAL TRAIN will leave Grand Forks via G.N.R. at 7 a.m. Returning, will leave Phoenix "after she ball."

SINGLE FARE for round trip.

REFRESHMENTS served on picnic grounds all day.

You're Only Half Sick

But nevertheless feel pretty "seedy." Best prescription is Dr. Hamilton's Pills; they tone up the entire system, strengthen the stomach, elevate your spirits and make you feel better in one day. It's by cleaning the body of wastes, by purifying and enriching the blood that Dr. Hamilton's Pills accomplish so much. Very mild, exceedingly prompt, and guaranteed in every case. Your druggist sells Dr. Hamilton's Pills of Mandrake and Butternut in yellow boxes, 25c each, or five for $1.00. Get the genuine.

Dressmaking

Mrs. P. H. Kelliher's dressmaking parlors have been moved from the Sears block to her residence, opposite the English church, where she will be pleased to see all her old customers. Fashionable dressmaking and plain sewing.

Our job department is superior to any other in the Boundary country. We have both the material and the experience to turn out high class work.

5000 TELEGRAPHERS NEEDED

Annually, to fill the new positions created by Railroad and Telegraph Companies. We want YOUNG MEN and LADIES of good habits, to

LEARN TELEGRAPHY AND R. R. ACCOUNTING

We furnish 75 per cent. of the operators and station agents in America. Our six schools are the largest exclusive Telegraph Schools IN THE WORLD. Established 20 years and endorsed by all leading Railway Officials.

We execute a $250 Bond to every student to furnish him or her a position paying from $40 to $60 a month in States east of the Rocky Mountaint, or from $75 to $100 a month in States west of the Rockies, immediately upon graduation.

Students can enter at any time. No vacations. For full particulars regarding any of our schools write direct to our executive office at Cincinnati, O. Catalogue free.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

1st W. W. CORY,
Deputy of the Minister of the Interior.

WISE AND OTHERWISE

The man who lets his wife pick his cigars makes about as good a bargain as the one who lets his mother pick his wife for him.

An Irish philosopher says that the hot weather is due to the fact that the heat of the sun is colder in winter than in summer.

When a man is engaged in beating a carpet, it's up to his wife to be around and see that he doesn't put his thoughts into words.

The average man spends more money in a month on a girl during courtship than he does in ten years after marriage.

The breath of winter may be cold, but it is not half so cold as the glance of the man you strike for the loan of five dollars.

When a man stands at the marriage altar he gets as nervous as he does when watching the bulletins of a baseball game.

When a man tries to stand on his dignity the chances are that some less dignified fellow will come along and sit on him,

Recently a six-foot bride stood before the altar promising to love, honor and obey a little four-foot bridegroom.

The average woman is perfectly happy if she succeeds in getting her neighbor's servant girl away from her.

The ladies look into glass when coloring their faces, while the men look into glasses when coloring their noses.

The business man who is always complaining about hard times is more of a detriment than a benefit to a community.

It is the man who lives on pork chops at home who finds the most fault with the dessert when he is traveling.

Wearing Away Your Lungs?

Yes, and your strength too. Stop coughing and get rid of that catarrh. The only remedy is Catarrhozone, which goes to the diseased tissues along with air you breathe; it can't fail to reach the source of the trouble; it's bound to kill the germs, and as for healing up sore places, nothing can surpass Catarrhozone. If you don't get instant relief and ultimate cure you will at least get your money back, for Catarrhozone is guaranteed to cure catarrh in any part of the system. You run no risk—therefore use Catarrhozone—at our expense if not satisfied.

COPPER The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top or $7.50 in full library morocco, and the book, in either binding, will be sent, on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

You Melancholy Women!

Can't even sleep—restless day and night—brooding over imagined trouble all the time. The disease isn't in the brain, but in the blood, which is thin and innutritious. Do the right thing now and you'll be cured quickly. Just take Ferrozone; it turns everything you eat into nourishment, consequently blood containing lots of nourishment is formed. Ferrozone makes flesh, muscle, nerve—strengthens in a week, cures very quickly. You'll live longer, feel brighter, be free from melancholy if you use Ferrozone. Fifty cents buys a box of this good tonic (fifty chocolate coated tablets in every box) at all dealers.

CLAIMS AND ACCOMPLISHMENTS—We do more than just promise you good printing—we do the printing that's up to our promises. Any office cub can promise—we execute. No disappointment—if we promise work on a date, it's done at that time.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

You're next at the Palace Barber Shop, Victoria hotel.

For a nice hair-cut or shave go to the City Barber Shop on Riverside. Baths 25c.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

$2 Per Year

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO — WRITE PLAINLY
The Secretary, THE CANADIAN PREFERENCE LEAGUE,
Room 20, Home Life Building, Toronto

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.
