Fourth Year.—No. 38 | Grand Forks, B. C., Friday, March 10, 1905 | ISSUED TWICE A WEEK

RAILROAD POLICY

Government Announces Its Bonuses for Provincial Transportation.

Provides for Coast-Kootenay, But Not for the Kettle Valley Line.

A dispatch from Victoria states that at the government caucus on Wednesday night the long-promised railway policy was laid before the members attending; that is, the first instalment of the railway policy.

It provides for the building of the Kootenay Central, and the extension of the Columbia and Western from Midway to Spence's Bridge, in all about 450 miles of road, and all to be built by the C. P. R., and all to be finished within five years.

The subsidy is to be $5,000 cash for each mile built, to be paid on completion of ten-mile sections. There are to be no tax exemptions, other than the road is to be assessed at $3,000 per mile for the first five years, and after that at $10,000.

The premier promised the caucus to lay another instalment before them on Monday night. It is believed the second instalment will include a land grant of not less than 15,000 acres per mile to the Grand Trunk Pacific, and that it will be carried through the house by Liberal votes.

In both The Times and The Colonist every day are letters advocating the giving of aid to the Grand Trunk Pacific, in order that work be commenced at the Pacific coast end at once. Many of these letters are signed by Liberals and merchants.

SUNSET SAUNTERINGS

A certain doctor in this city has gained an enviable reputation for officiating at the birth of the majority of the future generation in this neighborhood. This fact caused a school boy, also a resident of this city, to probe into the matter; but after a number of fruitless enquiries, he was forced to adduce his own reasons sor this state of affairs. He became quite certain that the doctor got his babies from Timothy Eaton, of Toronto, at a big discount, by taking them in carload lots.

Considerable dissati sfaction ha been expressed by people who have to cross the C. P. R. track near the G. N. depot at night, on account of the arc light at this dangerous point being out of commission about three out of five nights, the supposition being that there is something defective about the mechanism of this particular lamp, as the others are always in working order. An accident occurred there some time ago, and those having occasion to cross the tracks there think that every means should be taken to keep this danger spot always illuminated.

Julius Ehrlict., manager for P. Burns & Co. at Greenwood, is a guest at the Yale today.

In the series of games being played at Ottawa for the hockey championship of the world between the Ottawa and Rat Portage, Ont., teams, the latter won the first gome by 9 goals to 3 on Tuesday night, Ottawa won by 4-2 last night, and the final game will be played tomorrow night.

H. A. Jackson, general pessenger agent of the Great Northern at Spokane, was in the city on Wednesday making arrangements for the excursion to Spokane on Thursday next.

Methodist church. Services next Sabbath day at the usual hours. Sunday school and Bible class at 3 p.m. In the morning the pastor will speak on "Easy Roads and Where They Lead." The evening subject will be, "Our Young Men." You are invited.

"Life in Relation to the State," will be the subject on which Rev. J. R. Robertson will preach next Sunday at the evening service in Knox church.

A high-class concert will be given at the Grand Forks opera house on Easter Monday, April 24th, under the auspices of Knox church Ladies' Aid. The best local talent will be heard.

Frank Sherwood, of Laurier, was in the city this morning.

The Floto circus and menagerie, whose winter quarters are at Denver, will start out on its season's travels on March 17th in Texas, and will show in Grand Forks and other British Columbia cities during July.

Colville Reveille: R. B. Thomas, who has been visiting relatives here for some time past, has determined to locate permanently in Colville. He will form a partnership with his brother, ex-County Surveyor J. B. Thomas, and engage in a general land surveying and civil and mining engineering business. Mr. Thomas is well known to all the earlier residents, having arrived in the county with the advent of the railway in 1889, and remaining until 1894, serving one term as county surveyor. Since then he has resided in Ferry county and Grand Forks, B. C., and was engineer for the Granby Smelter company during the construction of their smelter at Grand Forks, and also had charge of the construction work in several of the company's mines in the surrounding camps. More recently he has had charge of the construction work for the International Coal and Coke company at their mines in Coleman, Alta. Mr. Thomas is a United States deputy mineral surveyor for Washington, and both he and his brother being competent and experienced engineers, the new firm will surely prosper.

THE RECORDS

Following are the locations, certificates of work, bills of sale, etc., recorded in the Government office at Grand Forks, B. C., of the Grand Forks mining division, from March 3 to March 10, inclusive:

CERTIFICATES OF WORK.

Moontide, Hardy mountain, Peter Santure.

Jack Pot, Wellington camp, A. F. Sanderson and F. Moriarity.

Margaret fraction, Central camp, Henry Johnson.

RECORD OF LOCATIONS.

Willis fraction, a relocation of the Montana, Summit camp, Alexander Rogers.

TRANSFERS.

Alpine, ¼, Fracklin camp, Harry McLaren to J. H. Hodson.

DOINGS OF THE CITY

Grand Forks Gets First Automobile in the Interior of British Columbia.

Will Ship a Car of Ore From Coro-Canadian Mine by 1st of May.

Mr. A. B. W. Hodges, general superintendent of the Granby company, is a hustler in any role he essays to play. Last Saturday he went down to Spokane, purchased an electric automobile, learned to operate it, and returned to Grand Forks the following day. Tomorrow, it is said, the machine will arrive in this city—and then the fun of giving it a proper introduction to the horses of the Boundary will commence. It is not difficult to picture in one's mind the antics the animals will cut up on their first meeting with the auto; and it is also a reasonable surmise to suppose that when they meet on the Phoenix road, the former will make a break for liberty and take to the hills. However, it is to be hoped that the cayuses of the Boundary will soon become civilized and learn the ways of their brothers in the effete east. Mr. Hodges will use his machine in making his frequent trips between the smelter in this city and the mines at Phoenix. Mr. Hodges will arrange it so that the auto can be recharged at both ends of the line.

Good reports continue to reach this city from the Coro-Canadian mine, located in the Greenwood high-grade belt, and the Grand Forks shareholders are consequently jubilant. The latest news is to the effect that Manager Jeffrey, who is in charge of the development work now being done, has guaranteed to have a carload of ore ready for shipment by the first of May. It is expected that this ore will average about $100 per ton. The shaft on the property is now down over sixty feet.

The third annual ball given by the Federal Labor Union in Eagles' hall last Tuesday evening was a very successful affair, over a hundred people being present, and all had a most enjoyable time. The music, which was furnished by Miss Margaret Eyre, and Miss Florence Manly, of Republic, was the best that has been heard at a dance in this city for some time, and complimentary remarks regarding its excellence were heard on all sides. At about midnight an appetizing collation, consisting of cold roast chicken and turkey, all kinds of cakes, etc., was served by a lady from Danville, and it was well patronized by those present.

It is stated that a new industrial syndicate is being organized in this city for acquiring and operating the sawmill at Danville belonging to the Gardiner estate. The company, it is said, is composed of J. K. Johnson, of newspaper fame, a local firm of contractors, Wm. McNee and R. Gaw. Mr. Johnson will be the financier of the concern; the contractors will furnish the timber; Mr. McNee will run the mill, and Mr. Gaw will endeavor to dispose of the lumber.

Geo. A. Fraser, M.L.A. for Grand Forks riding, voted for the second reading of the school bill, notwithstanding the fact that both the city council and the school trustees have sent protests to Victoria against this measure.

Geo. E. Massie, the merchant tailor, has a new advertisement in this issue of The Sun.

D. D. Munro, who has been manager of the grocery department in Jeff Davis & Co.'s store in this city for a number of years, has secured a position as traveling salesman with Kelly, Douglass & Co., wholesale groeers, of Vancouver, and left for that city last Wednesday evening. Mr. Munro will make periodical trips through the Boundary. Mrs Munro will reside in this city for the present.

The police commissioners held a meeting in the city last Wednesday afternoon, and discussed at length the legal phase of the transfer of the Province and the Grand Forks hotel licenses. As the notices of the transfer had not been published the required thirty days, the commissioners adjourned for one week without taking action in either case. Mr. W. H. P. Clement was present, with the object of opposing the transfer of the Province hotel license from Hank Henderson to Dr. Averill.

The C.P.R. land agent in this city is distributing a haffdsomely illustrated pamphlet, recently issued by the Canadian Pacific Railway company, of the resources and climate of the Kootenay, Boundary and Okanagan districts.

The great demand for the Tuesday issue of The Sun demonstrates that the people of Grand Forks have not got time to wait until the end of the week to read about events that occurred during the first part. Last Tuesday our edition was insuffient to supply the demand.

Announcements are out for the $5 excursion to Spokane on Thursday next, in celebration of the opening of the Grand Forks-Phoenix branch, good to return on the following Sunday, and quite a number of people from this city expect to take in the trip.

W. G. Perkins, formerly chief assayer at the Granby smelter, but now superintendent of a smelter at Basin, Mont., has been visiting in the city this week.

The planking on the Winnepeg avenue bridge is in rather poor condition just now, part of the roadway being a good imitation of a corduroy bridge.

The water in the North Fork has raised a great deal during the past few days, and more than a foot of the needful is now slipping over the dam at Smelter lake.

The Great Northern passenger train reached this city about an hour late last Tuesday morning on account of a rock slide near Phoenix.

DRAMATIC TREAT

Harold Nelson's Company Pleases Big Audience on Wednesday

With a Portrayal of Stirring Events During French Revolution.

Harold Nelson and his company gave an excellent rendition of Steele Mackaye's masterpiece, "Paul Paul," a stirring drama of the French revolution, to a capacity house in this city last Wednesday night. The play is the best ever sent to this city by Mr. Nelson's manager, C. P. Walker, of the Winnipeg theatre. Dealing as it does with the "reign of terror" in the French capital, it abounds in tableaux and dramatic situations from the time the curtain rises on the first act until it is rung down at the end of the fifth. A very pretty love story is interwoven in the plot, and this adds materially to hold the audience spell-bound until the final denouement in the fifth act, when the lovers are reunited, and the villain "plays the Roman fool and falls on his own sword"—or ends his life in an equally dramatic manner. The play deals with the plots and counterplots of the royalists and republicans during the great struggle of the French to overthrow tyranny, the republic triumphing in the end.

The play was elaborately staged, the dream scene being the best that has ever been seen in Grand Forks. The costuming of the piece was also carried out on a lavish scale, being exceedingly pretty, and having, besides, the merit of being historically accurate.

The cast was very strong. Mr. Nelson, as Paul Kauvar, the painter and patriot, played his part with his usual painstaking skill, and needs no word of commendation, as his work as an artist is too well known to the theatre-goers of the city. Clifford Lane Bruce, as the Marquis DeVaux, and his sister, Helene Scott, as Diane Beaumont, did excellent work in their respective parts. These two are rising young artists, and it is safe to predict that they will shine in the theatrical firmament as stars before long. Mr. Wm. Yule, as Dodolphe, the henpecked husband, gave the audience a hearty laugh whenever he appeared before the footlights. The other members of the company are capable artists.

Mr. Nelson will play a return engagement at the Grand Forks opera house on the 31st inst., when Lord Lytton's immortal drama, "Richelieu," will be presented.

Dr. E. R. Northrop and W. K. C. Mrnly returned from a short business trip to Spokane last Tuesday evening.

Duncan Ross and Mr. Sloan were guests of the parliamentary press gallery annual dinner in Ottawa last Saturday evening.

A rock slide at Shields last Wednesday, delayed delayed the westbound C.P.R. passenger train about six hours. The east-bound train was also two hours late when it reached Nelson.

UNION LABEL

FRIDAY, MARCH 10, 1905.

British Columbia mining and smelting men as well as politicians recently proclaimed that the Granby smelter was running on a 1 per cent profit basis, and the other Provincial smelters on an even smaller margin than that. But those who have watched the progress of that important industry of the Province during the past five or six years knew that British Columbia was no 1 per cent country, and were hardly convinced that such a hand-to-mouth condition existed, else there would not have been such a recent scramble by Eastern capitalists to get control of the Boundary properties. And now comes the statement by the British Columbia Copper company that its surplus earnings for the last two years up to November 30, 1904, were $80,922, which would amount to about 15 cents a share annually on the outstanding 315,150 shares of stock. This would be 3 per cent on the shares at their par value of $5.00, but would amount to a much larger percentage on the low price at which the stock was bought. If the British Columbia Copper company, running shorthanded at times as it has during the past two years, has made those profits, the earnings of the Granby company's big works in Grand Forks can be imagined, as it has run its six furnaces and converter almost steadily on a system which is claimed to be the most economical on the continent. That the profits were satisfactory is assured; for these works, like any other business institution, are not run for the simple pleasure to be found in labor, but because there is a first-class return for every dollar invested in these undertakings.

The Toronto Star recently published a couple of articles by its traveling correspondent, who, after spend- a few hours in British Columbia, eulogised the Chinese, and stated what a hard time we would have out here without the help of the wily Mongolian. The natural outbreak has already occurred in the shape of some pretty hard knocks handed out to the Toronto paper by people who have spent years in British Columbia, and who know what a blight the little heathens are to this country. They work for starvation wages, and save all their earnings to take back to the Orient with them, spending nothing in this country, even for their few living necessities, except with their countrymen here; they displace white labor, both male and female, and are a general nuisance. The Chinamen of Eastern Canada work under different conditions from those existing out here; and those who have resided here among them for years and know them as they live are best able to judge that the day that sees every Chink and Jap chased out of British Columbia will be one of rejoicing for at least 99 per cent of the people of this otherwise pleasant Province.

New York city is certainly progressing in civilization. Last week an excited mob had just about succeeded in lynching a Syrian in the very centre of the city for attempted kidnaping of a little girl, when a policeman appeared and cut the victim down from the lamp-post where he had been suspended till life was almost extinct, the rescue being accomplished only after a lively fight between the police and a mob of the foreign riff-raff which hives there.

Of the 1,483,390 horsepower developed by water for electric energy throughout the world, the United States heads the list with 527,467 horsepower, while Canada is second with 228,225 horsepower, and Great Britain only developes 11,900 horsepower. The Canadian and United States figures promise to be almost doubled in the next couple of years, on account of the many new plants in course of construction and also contemplated.

Grand Forks has all the other towns in this district outclassed as regards climate, as well as in most other desired adjuncts. This week we gathered a quantity of wild spring flowers on the commons and benches, and some of the ranchers on the outskirts of the city have already commenced their seeding operations. Will The Phoenix Pioneer man please wake up and take notice?

Nelson has a curfew bell, but its only effect so far seems to be in giving the youth of that city some idea of musical notes; the youngsters do not hurry off the street. It is supposed the only thing that prevents the introduction of such an institution here is the fear that the boys would swipe the bell, for they're precocious kids in Grand Forks.

It doesn't frequently happen that United States interests admit that they can receive assistance of any sort from the Dominion of Canada; but just now Spokane is longing for the entrance of the Canadian Pacific into that city to break up the combine of railways in holding up the rates charged business houses there.

There were 130,330 immigrants entering Canada during 1904, and of this number 36,700 were from England and Wales, 10,500 from Scotland, 3,130 from Ireland, and 45,000 from the United States, which makes a combination that will keep the manhood of this coming nation at a high standard.

A Colorado minister is giving a free lunch on Sundays to all those attending the morning services at his church. There would have to be a full-course banquet in sight to induce some men we know in Grand Forks to attend church and sit out a sermon.

A Grand Forks young lady narrowly missed being the heroine in a runaway accident on Wednesday, which has stirred up in our inquiring mind the problem, Does a horse show good sense in trying to run away with a pretty girl?

The Sun has received a 20-page special descriptive supplement on the Tonapah, Nev., goldfields, issued by The Denver Post last Sunday, and it is now at the disposal of any of our readers who are interested in that district.

Beef bones in the back yard do not necessarily indicate that there is any fresh meat in the pantry; neither does an imposing array of boxes in the show windows prove there is anything in them.

This is the season when you can with good grace refuse to oblige impecunious friends who want a loan—because it's already Lent.

Special Cut Prices in Cigars at Donaldson's. Call and investigate.

A QUESTION ANSWERED.

To the Editor of The Sun.

Dear Sir,—To decide a money bet, will you please state through your columns if John L. Sullivan was ever champion pugilist of the world, and the reasons for your decision?

—J. M.

[Strictly speaking, John L. Sullivan was never champion of the world, though he might have been designated as champion white pugilist of the world. The highest general title he could really claim, we think, was champion of America and Great Britain and Ireland, for during Sullivan's supremacy in this country Peter Jackson, colored, was champion of Australia, and Sullivan refused to fight the latter on account of the "color line." Jackson, therefore, had as good a claim to the title of champion of the world as Sullivan had. Later on Corbett defeated Sullivan, but had only drawn with Jackson; Fitzsimmons and Jeffries both defeated Corbett, and Jeffries defeated both Fitzsimmons and Jackson. The latter died in Australia four or five years ago. In view of these facts, therefore, Jeffries is really the only fighter of late years who had an unquestioned claim to the title of champion pugilist of the world.—Sporting Editor.]

WHY DO WOMEN SUFFER

Such pain and endure the torture of nervous headache when a quarter buys a bottle of Nerviline, which never fails to relieve. Just a few drops of Nerviline in sweetened water cures nervousness or sick headache, relieves heart palpitation and makes you feel better immediately. Nerviline can't be beaten for quickly curing stomach and bowel troubles and should be kept in every home. It's good to rub on for external pain and excellent for inward use. Sold in large 25c bottles. H. E. Woodland, druggist.

Judge Spinks, of Vernon, who has been holding sittings of the county court at a number of places in the Bouudary, left last Wednesday for Nelson.

Special Sale of some one line of Candy every Saturday at Donaldson's. Better Call. Your kind may be on today.

J. S. Carter, C.P.R. district passenger agent, of Nelson, was a visitor in the city on Wednesday.

Pipes and Smokers' Sundries cheap at Donaldson's. A call will convince you.

Judge Leamy is still suffering from indisposition.

Self Evident.

The girl who paints to make a show
Has surely little sense or wit.
Her beauty is—the girl should know—
A lie upon the face of it.

Up to Date Ones.

"Have you anything new in the way of fairy stories?"

"Here are the campaign books of both political parties."

Quite Inclusive.

"Are you interested in rare coins?"

"Yes indeed; all coins are rare to me."

PERT PARAGRAPHS.

Sometimes an ostensibly idle person is quite busy with his ears.

Thwarted by a Witness.

"A little flash of humor on the part of a witness will often destroy the best of legal examinations," said a well known lawyer. "Not long ago I had a criminal case in which one of the best witnesses for the prosecution was a negro. Before the coroner he had made two different statements as to the number of times he had seen one of the principals in the case, and I intended to trip him up on it in the cross examination. If he said the first number I should confront him with the other statement from the testimony before the coroner, and vice versa. I thought I had him cornered, no matter how he answered. I was reserving the question for the climax, and finally I asked him in my most confident manner, 'How many times did you say that you saw this child?' He hesitated a moment and then replied in a surly tone: 'I didn't say I saw it at all. I said I seen it.' Even the judge had to smile, and, though I hammered away at him, all the effect that I had sought was lost beyond repair."—Philadelphia Record

YOU MAY HAVE KIDNEY TROUBLE

If your back aches and you suffer from dragging pains it is an evidence of diseased kidneys. Get Ferrozone at once and take it regularly. Ferrozone makes kidney sufferers feel better at once. "I was bothered a great deal with my kidneys last year," writes S. G. Denton of Everett, "but got quick relief from Ferrozone. My trouble manifested itself by pain in the back, dull heavy feeling and constant headache. I quite recovered after using a few boxes of Ferrozone, which has given me more strength and better health than I ever had before. I can recommend Ferrozone as a positive cure." Price 50c. H. E. Woodland druggist.

ONE OF THE VILEST DISEASES

Is catarrh, which attacks the nose and throat and finally spreads all through the system. The one sure cure is fragrant, healing Catarrhozone which is sent by the air you breathe direct to the root of the trouble. Mr. T. Y. MacVicar, of Yarmouth, suffered for years from catarrh, and says; "In my long experience with the loathsome disease I never used any remedy that relieved and cured as promptly as Catarrhozone. When my nostrils were so stuffed up that I couldn't breathe I found a few inhalations of Catarrhozone was sufficient to clear away the mucous. I am perfectly cured by Catarrhozone and free from the disease entirely. Use only Catarrhozone. Complete outfit $1.00; trial size 25c. H. E. Woodland, druggist.

WHY GO EAST

Over the sun-burned, sage brush and alkali plains, when you may just as well take a delightful, cool and comfortable ride through the heart of the Rocky Mountains in view of the grandest scenery on the American continent?

This you can do by traveling on, the Rio Grande system, the farfamed "Scenic Line of the World," the only transcontinental line passing through Salt Lake City, Glenwood Springs, Leadville, Colorado Springs and Denver enroute to eastern points.

Three daily express trains make close connections with all trains east and west, and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests. No more pleasant and inexpensive means of crossing the continent can be found than is provided by these excursions.

For additional details address J. D. Mansfield, Gen. Agt., Rio Grande Lines, No. 124 Third Street, Portland, Ore.

CLAIMS AND ACCOMPLISHMENTS—We do more than just promise you good printing—we do the printing that's up to our promises. Any office cub can promise—we execute. No disappointment—if we promise work on a date, it's done at that time.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, ight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent, on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) *At least six months' residence upon and* cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of *the Act, resides upon a farm in the vicinity* of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent; *sub-agent or a homestead inspector.*

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

Humor and Philosophy

By DUNCAN M. SMITH

Copyright, 1904, by Duncan M. Smith.

A Modest Fee.

"He sued the company for $10,000 and got a cent damages."

"That was hardly worth while. I suppose the lawyer took all of it for his pay."

Her Ideal.

"Is Gertrude going to marry Arthur?"

"Yes, she expects to be wedded to her Art."

Should Fill the Bill.

"His artistic ideals are high."

"Can't he get a job painting church steeples?"

PERT PARAGRAPHS.

It is all of the difference in the world whether a merchant or a cattle thief takes stock.

Few men or women have their consciences educated up to a point where they will not ride on a scalper's ticket.

A man can do almost everything but think by machine, but he is generally able to find some politician to do his thinking for him.

One thing the man with the hoe has that some people who pity him are shy on, and that is good health.

It takes a lot of culture in savagery to make one really enjoy a football game.

Many a woman has found after marriage that a man is better at paying compliments than he is at paying coal bills.

A pretty girl is one who looks pretty in a rainstorm. All others are base imitations.

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO — WRITE PLAINLY

The Secretary, THE CANADIAN PREFERENCE LEAGUE,
Room 20, Home Life Building, Toronto

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.
