Fourth Year---No. 85 | Grand Forks, B. C., Tuesday, August 22, 1905 | Issued Twice a Week

COUNCIL MEETING

The New Liquor By-Law Was the Vital Question Considered Last Night

As Amended in Committee, It Provides for Eight Hotels at $500 Per Year

The regular bi-weekly meeting of the city council was held in the council last night, the mayor and all the aldermen being present.

A communication from Provincial Health Officer Fagan respecting the regulation of slaughter houses was referred to the local health officer.

A communication from McDonald & Whiteside compalained of a sidewalk having been constructed on private property. The mayor stated that steps had been taken to remedy the matter.

The local health officer submitted a report of two inspections of each of the local dairymen's milk, having found the same to be pure.

The usual number of bill were ordered paid.

The account of the Canadian Fairbanks company was laid over till the next meeting, as the new pump is not working satisfactorily.

The acconnt of the firemen for fighting the recent West end fire, which had been laid over from the last meeting, caused a heated argument, Chief Savage, Ald. Henniger and Brown, and N. McLellan being the leading orators. Exception was taken to this bill at the last meeting because one or two of the aldermen thought that some of the firemen had been given more time than they were entitled to. Chief Savage explained that he had handed in the list of names as he got it from the captain of the No. 3 station. Some of the men had worked less than three hours and some longer, but all had been given that amount of time. N. McLellan was present, and objected strenuosly to the imputation made at the last meeting by one of the aldermen to the effect that he had stood as immovable as a statue at the fire, removing neither coat nor hat. Three or four witnesses corroborated his statement that he had worn neither hat nor coat, and that he had worked as hard as any of the other firemen. All the aldermen felt perfectly satisfied with the fire chief's explanation. The mayor said he was glad the controversy had been satisfactorily explained. No slur on the firemen had been intended by the deferred action on the bill. It had merely been laid over to give the council an opportunity to enquire into it. He asked the chief to make this statement clear to the firemen. The bill was then passed unanimously.

The chairman of the water and light committee reported that the city needed a dozen electric light poles to replace old ones, and on motion the committee was authorized to purchase the required number. Mr. Clements also reported that the work of laying the Victoria avenue water pipe was progressing favorably. But the new pump, he added, did not come up to expectations. No one connected with the city staff had yet been able to make it work satisfactorily.

Ald. Crossen, the new chairman of the board of works, reported that the culvert near McCallum's slough had been strengthen, in view of the increased traffic over it since the closing of the First street bridge. He reported progress of laying the new sidewalk on Bridge street, between Third and Fourth, but the committee had reconsidered its decision to build a new walk berween Second and Third streets, as that portion is in fair condition.

Mayor Hammar said he had appointed Mr. Crossen chairman of the board of works because he had had a great deal of experience in woodwork, and also because he had more spare time than Mr. Henniger to attend to the work.

The mayor thought that all extra work put in on the new pump should be charged to the Fairbanks company. In examining the reports from the electrical and city engineer's departments, he noticed that some of these officials were working from 15 to 26 hours per day. If these reports were correct, the city evidently needed more help, as he didn't believe in any man working that long shifts.

Ald. McCallum stated that Mr. W. Bentley had extended an invitation to the members of the council to inspect his water right up the North Fork. The mayor didn't think the water right would be of any value to the city unless it was of sufficient volume to supply water for both domestic and power purposes.

The mayor stated that he, in company with the water and light committee, had interviewed the Granby officials in regard to an extension of the contract for power, which expires on the 1st prox. Mr. Wooster had advised waiting until Mr. Graves arrives in the city, which will probably be some time during the present week. Mr. Hammar did not think the West Kootenay Power & Light company could deliver power in this city. On motion of Ald. McCallum and Brown, the committee was instructed to interview the Granby officials regarding an extension of the contract, and to report at a special meeting of the council.

The matter of constructing a sidewalk on Third street to Mrs. Leamy's residence was referred to the board of works.

The metre system for electric lights was discussed at length, but no action was taken.

The committee having in charge the new liquor by-law was granted leave to introduce that measure, and it passed its first reading.

On motion of Ald. McCallum and Crossen, the rules were suspended and the by-law passed its second reading.

On motion of Ald. Clements, the rules were suspended and the council went into committee of the whole. Ald. McCaltum was called to the chair.

The by-law as drafted provides for six hotel, three saloon and two shop or bottle licenses, with no limit to the wholesale licenses. The fee for a hotel license is $500 per year, and $1000 for saloons. All the clauses passed without a dissenting voice until the one limiting the number of licenses was reached.

Mayor Hammar said if that if property qualificarions were to be

NEWS OF THE CITY

James J. Hill, President of the G. N., Will Visit the City This Week

Six Furnaces Again in Operation at the Granby Smelter

James J. Hill, president of the Great Northern, is expected here this week, and will inspect the Granby smelter in this city and the mines in Phoenix. He will be accompanied by Jay P. Graves, general manager of the Granby Consolldated.

The six old furnaces at the Granby are now all in blast again, four having been blown in last Saturday.

Yohannes Georgius, a converted Mohammedan who is now in America soliciting alms for the Armenian missionary work which is now being carried on in his native land, was in Grand Forks Saturday in behalf of the cause. Yohannes is a typical Turk—dark and swarthy, and a most interesting character to talk to, and much is being learned by the people of this country of the terrible persecution of the little Christian army in that heathen land, as Mr. Georgius is a native of the land of Mohamet and has put in a portion of his life in defence of the American missionaries and is able to give many an interesting account of his thrilling and pitiful experiences.

Milton White returned Saturday evening from a busiuess trip to Midway.

Bert Scott, a smelter employee, returned Saturday evening from a week's visit with his parents in Spokane.

W. H. Itter, the stationer, visited Rossland and Nelson the latter part of last week.

Jos. Bone, the contractor, came down from Midway Saturday evening and spent Sunday at his home in this city.

Chas. Peterson, of the Square hotel, has returned from Hedley, where he is interested in another hotel. He reports prosperous times in the Similkamen country.

It is repoated that Rev. Ralph Trotter, formerly of this city, intends to engage in business in Calgary, Alta.

John B. Fisher, of the Grand Forks brewery, visited Greenwood la t Friday.

Under date of August 5th, Warner Miller, president of the Montreal & Boston Consolidated Mining & Smelting Co., Ltd., notifies the shareholders as follows: The sale of your company's properties to the Dominion Copper Co., Limited., under the agreement dated May 11, 1905, copies of which were mailed some time ago to the registered stockholders, has been completed. The stock of the Dominion Copper Co., Ltd., is now ready to be exchanged, share for share, for the stock of your company, and in view of probable early proceedings for the dissolution of the company, all stockholders should send in their stock for exchange immediately to the National Trust Co., Ltd., Toronto, Canada. By order of the Board of Directors.

A large party of Great Northern surveyors are at work locating on an old survey line the extension of the V. V., & E. railway from Princeton west. A camp is established near the summit of the Hope range and locating is going on both ways.

A child named Pole is reported having been drowned last week while bathing in the Kettle river near Curlew.

J. F. Royer, who started his branch stage line from Curlew to Midway, last week, reports that he is handling considerable business over that 14 mile run.

W. G. Gaunce, of Greenwood, who returned last week from Seattle with his family, has opened a branch of his firm at Midway.

Thos. J. Hardy, Law & Munroe and G. A. Rendell are among the new firms starting business in Midway.

Since last week Duncan Ross, M. P., has taken on himself the onerous duties os an alderman in Greenwood. Christopher Wood was also appointed to a similar position at the same time.

Greenwood is beginning to enjoy the benefits of its new water system, which comes from Lind creek.

Construction of a new Presbyterian church at Midway is just starting, the lumber for the new structure, to replace that recently destroyed by fire, being now on the ground.

G. C. Rose, Canadian customs inspector at Cascade, was a visitor in the city last Saturday.

E. Spraggett, road supervisor for this district, came down yesterday from Pass Creek, where he has a force of men doing repair work.

Mr. and Mrs. A. A. Frechette left yesterday for Midway, where they will reside permanently.

E. E. Alexander of Spokane has been appointed superintendent of the department of mines and mining at the Spokane Interstate Fair, which meets year October 9 to 15. He is conversant with all the mining districts and camps within 300 miles of Spokane. He has the necessary energy and information to make this important department better than ever before. A handsome silver cup will be given as a trophy for the mining camp which sends the best display of minerals. There is only one condition for competitors for this prize—the display must be allowed to remain at the fair as a portion of the permanent mineral exhibit. Besides the silver cup, diplomas will be awarded for the best specimens of mineral or ore. Mr. Alexander will personally visit many of the important camps and secure new exhibits or additions to exhibits now at Spokane. The railroads will carry exhibits for this department free of charge. Those received prior to the opening of the fair will be placed on exhibition at the Chamber of Commerce rooms at Spokane.

THREE ACCIDENTS

Chris Coughlan Has a Leg Crushed by Falling Under His Horse

Female Equestrian Thrown From Her Steed Escapes Serious Injury

Chris Coughlan, of P. Burns & Co.'s meat market, had his right leg badly crushed by his horse falling on him, last Sunday morning. While driving a bunch of cattle from Covert's ranch to the slaughter house, near the greenhouse, one of the animals broke away from the rest. Chris started after it at break-neck speed, but before going far his pony landed with his front feet in a gopher hole, causing it and its rider to turn a complete somersault, the horse and saddle falling on Chris' right leg. Chris was at once brought to this city, and Dr. Kingston was called. An examination showed that his shoulder had also been badly bruised. The doctor dressed the injured limb, and Chris is now recovering as rapidly as could be expected. He takes the acci lent philosophically, by saying he is thankful he was not killed outright.

Miss Ethel McLaren, of Carson, was thrown from her horse last Sunday. She received several bad bruises, otherwise she sustained no serious injuries.

Norman Ross had one of his fingers badly cut at the Granby smelter last Friday by a piece of machinery falling on it. It was thought at first that amputation would be necessary, but it is now believed that that expekient can be avoided.

Lind--Swanson

John Lind and Miss Hilda Swahson were married in Spokane on Thursday last, and returned to this city Friday evening. After receiving the hearty congratulations of their numerous friends here, the happy couple left on Saturday morning for Hedley, where they will make their future home, Mr. Lind being interested in the hotel business in that camp. The groom is an old-timer of Grand Forks, having resided here for seven or eight years, being at present one of the proprietors of the Square hotel. The bride is a recent arrival in the city from Chicago, and is an estimable young lady who gained a large circle of friends during her short stay here.

A mass meeting will be held in Knox Presbyterian church tomorrow evening, Wednesday, Aug. 23, under the auspices of the local Lord's Day Alliance. Rev. T. Albert Moore, of Toronto, secretary of the Lord's Day Alliance of Canada, will be present, and will deliver one of his popular and patriotic addresses. Discussion will be invited. Everybody welcome. No admission fee.

John Temple, of the Granby hotel, and Fred Russell, of the Victoria, are spending a week at Halcyon Hot Springs.

R.H.TRUEMAN

PHOTOGRAPHER

Vancouver, B. C.

Will visit Grand Forks for One Week Only.

Blome's Old Studio, Bridge Street

September 7, 1905

THIS WILL BE YOUR ONLY OPPORTUNITY for some time to obtain first-class photographic work, as the visits to this city of artists of Mr. Trueman's standing are as far apart as hen's teeth. Mr. Trueman's work is too well known to the people of Grand Forks to require any special mention. Remember the dates—September 7—One Week.

SUNSET SAUNTERINGS

A party of ten New York capitalists, including Senator Warner Miller, arrived in the city yesterday in the special car Convoy, and proceeded at once to Boundary Falls to inspect the Dominion Copper company's smelter, in which they are shareholders. They will also visit the company's mines at Phoenix.

Information has just been received here that John Mitchell committed suicide at Eholt Saturday evening by shooting, death being almost instantaneous. He had lived in Eholt several years, coming from Myers Falls and was the local milk dealer. He leaves a widow and a small son, Mrs. Mitchell leaving for a visit to Myers Falls a few days ago. Mitchell had been drinking for a day or two and had grown despondent. Going home Saturday he lay down in the hammock and turned the gun on himself, and ended his life. Friday Mitchell remarked to a friend that that day's milking would be the last he would ever do.

A serious stabbing affray occurred Friday evening at Ferry, wherein Charles Johnson, Antone Anderson and Peter Erickson, three Swedes were slashed by five Italians, whose names are not yet learned. All of them are said to be railway construction hands. Anderson was badly cut across the kidneys, which organs were nearly severed. The weapon used was a large spring back knife. Johnson and Erickson were each cut in several places across the back. Anderson is in a very dangerous condition and may die of his wounds. Sheriff W. J. Hall, at Republic, was telephoned for and went to Ferry on the Spokane & British Columbia train. He returned to Republic Sunday evening with three of the Italians, who are now in the county jail. The other two are still at large. The injured Swedes were taken to Midway, where they could have the attendance of a doctor.

Boarders Wanted—A few more steady boarders can find first-class accommodations at Mrs. J. B. Henderson's, Winnipeg avenue.

COUNCIL MEETING

Concluded from First Page.

taken into consideration, there would be eleven houses in the city entitled to licenses.

Chairman McCallum stated that the commissioners had worked in complete harmony. He thought it would only be a short time until the saloons would be wiped out of British Columbia, as they had been wiped out of other provinces

The mayor favored a reduction from a merchants' standpoint. At present irresponsible men engaged in the liquor business, ran up store bills, and then left town forgetting to pay them, thus compelling the merchants to charge honest people high prices to make up their loss. He thought eight hotels would be the most popular measure with the people. Two in the West end and six in the East ward would be a more equitable division than two in the former place and seven in the latter.

Ald. Clements—If the number is reduced io eight, could not the hotel men combine and charge exorbitant prices ?

Mayor Hammar—In that event the commissioners would have power to cancel their licenses.

Mr. Hammar said that if both hotel and saloon licenses were granted, the saloons could well afford to pay double the fee of the hotels.

Mr. Traunweiser, proprietor of the Yale, was present, and on request address the council. He said there was no profit in the hotel business. He had lost money since he purchased the Yale. He paid a revenue of about $2200 a year to the city. The city would derive more revenue in an indirect way if only hotel licenses were granted. The Yale had been assessed at $50,000 or $60,000 at one time, and the value of hotel property would again increase if the licenses were reduced. The business people of the city had lost $4000 or $5000 from one saloon. When he took charge of the Yale, the people had predicted that the house would break him, but he was not broke yet, although he had been dangerously close to it several times. The largest and best hotel in Greenwood had been forced to close on account of too many licenses. The same thing might happen in this city. There was not another town in Canada the size of Grand Forks that got the same amount of revenne out of hotels and saloons as this city. He would be willing to take what money he came here with and get out. One saloon, during railway construction last summer, had sold its "rolling" privileges. Conditions were changed now, and he didn't think the city wanted any more of that kind of money in the guise of license fees. Mr. Traunweiser added that if he didn't own a ranch he would have been compelled to close the Yale long ago.

Ald. Hutton favored six hotel and two saloon licenses.

Ald. Henniger moved, seconded by Ald. Crossen, that the clause be amended so as to read eight hotel licenses. The motion was carried, Ald. Brown, Crossen, Henniger and Mayor Hammar voting for, and Ald. Clements and Hutton against it.

The committee then rose and reported progress, and asked leave to sit again at the next meeting.

A Bad Bruise

Often causes a good deal of trouble. The best cure is a prompt application of Nerviline, which instantly stops the pain, prevents swelling, removes all blackness and discoloration. Nerviline is antiseptic—prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not using Polson's Nerviline. For nearly fifty years it has been the standard afmily liniment of Canada.

Situation Wanted—General housework; or kitchen work in hotel, restaurant or private family. Address E. S. T., this office.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse schools of telegraphy, in this issue, and learn how easily a young man or lady may learn telegraphy and be assured a position.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

WANTED

Twenty-five steady boarders wanted at the Province hotel. Chicken and ice cream dinner every Sunday.

SEWING

Plain and fancy sewing at reasonable prices. Call at residence of Mrs. J. B. Bone, south of G. N. Railway.

MRS. TOM BRENNAN.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent, on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Min. of the Interior.

WISE AND OTHERWISE

The proof of the pudding is the empty dish after dinner.

When marriage is not a success divorce is its successor.

The man who has nothing so sell generally has a stock of advice to give away.

You must mind your own business, unless you are able to employ a private secretary.

The world owes no man a living, but it owes every man an opportunity to make good.

Our idea of stopping train robberies is the good old fashioned way of hanging the robbers.

Costa Rica is the married man's paradise. There isn't a millinery store in all of that country.

A sensible man never complains. If he breaks his leg he is thankful it was not his neck.

You can flatter every man by telling him that you know him to be a man who is not easily flattered.

Nine out of ten men never think of winding the clock until they have put out the light and gone to bed.

Some men are so attached to their homes that rather than give them up they spike them down with a mortgage.

One reason why some people are not so wicked as others is, because they do not have so good a chance.

Flies follow a red-nosed man because they know he will soon take something with sugar in it.

The correct choice of a word often saves trouble. Prevaricator means the same as liar.

Wearing Away Your Lungs?

Yes, and your strength too. Stop coughing and get rid of that catarrh. The only remedy is Catarrhozone, which goes to the diseased tissues along with air you breathe; it can't fail to reach the source of the trouble; it's bound to kill the germs, and as for healing up sore places, nothing can surpass Catarrhozone. If you don't get instant relief and ultimate cure you will at least yet your money back, for Catarrhozone is guaranteed to cure catarrh in any part of the system. You run no risk—therefore use Catarrhozone—at our expense if not satisfied.

COPPER

The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent, on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

You Melancholy Women!

Can't even sleep—restless day and night—brooding over imagined trouble all the time. The disease isn't in the brain, but in the blood, which is thin and innutritious. Do the right thing now and you'll be cured quickly. Just take Ferrozone; it turns everything you eat into nourishment, consequently blood containing lots of non and ox gen is formed Ferrozone makes flesh, muscle, nerve—strengthens in a week, cures very quickly. You'll live longer, feel brighter, be free from melancholy if you use Ferrozone Fifty cents buys a box of this good tonic (fifty chocolate coated tablets in every box) at all dealers.

CLAIMS AND ACCOMPLISHMENTS—We do more than just promise you *good printing—we do the printing* that's up to our promises. Any office cub can promise—we execute. No disappointment—if we promise work on a date, it's done at that time.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

You're next at the Palace Barber Shop, Victoria hotel.

For a nice hair-cut or shave go to the City Barber Shop on Riverside. Baths 25c.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

$2 Per Year

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO — WRITE PLAINLY
The Secretary, THE CANADIAN PREFERENCE LEAGUE,
Room 20, Home Life Building, Toronto

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.
