ROALROAD NEWS

Canadian Pacific and Great Northern Clash Over Right of Way

Shareholders Annual Meeting Passes Some Important Resolutions

Last Sunday a Canadian Pacific work train pulled into Midway, having on board a gang of workmen. The men proceeded to a point on the Vancouver, Victoria & Eastern grade in the neighborhood of Jackson's ranch, about four miles from the town, and placed fences across the right of way, at the same time posting notices to the effect that trespassers would be prosecuted. The Vancouver, Victoria & Eastern people were not deterred by this, however, but went on with their work, and lively doings are expected shortly. It appears the right of way crosses Canadian Pacific railway lands, and hence the trouble.

Some important resolutions were passed at the annual meeting of the shareholders of the Canadian Pacific railway, which was held in Montreal this week. These authorized the construction of the Wolseley and Creston branch and the issue of 4 per cent consolidated debenture stock in aid thereof; a lease of the Nicola, Kamloops & Similkameen Coal & Railway company; the issue of £800,000 4 per cent consolidated debenture stock to defray the cost of two new Atlantic steamships; approved of the agreement with the British Columbia Electric railway for working of Vancouver and Lulu Island railway; authorized lease of Esquimalt & Nanaimo railway; approved acquisition of property of St. John Bridge & Railway Extension company. Resolutions were also passed authorizing the expenditure on capital account of $7,500,000 additional for locomotives and passenger and freight cars. At a meeting subsequently Sir William Van Horne was re-elected chairman of the board, Sir Thomas Shaughnessy president, and David McNicoll vice-president.

It is reported that as soon as the steel is laid on the Curlew-Midway branch, a daily train service will be inaugurated between Spokane and Midway. This will mean a complete change in the stage business west of that town, making Midway the starting point instead of Phoenix.

It will not be more than six weeks or two months before tracklaying begins on the Nicola & Similkameen branch of the Canadian Pacific railway.

Midway last Wednesday received several gay young sports from Grand Forks, and in the dim hours of the evening the Kettle received at least one of 'em. They were going over to— But no matter.—Midway Star.

The railway situation at Midway is reported to be developing in a very interesting manner. A couple of days ago a Canadian Paeific railway lawyer, a provincial land surveyor and two policemen, armed with tents and other paraphernalia indicative of a long stay, encamped on the Vancouver, Victoria & Eastern right of way where it crosses land belonging to the Canadian Pacific railway.

The pleasant sound of the railway engine whistle from the south is now of daily occurrence in Midway, and a few more days will, if all goes well, see a Great Northern locomotive at the boundary line.

According to a dispatch from Vancouver, the McLean Bros. are authority for the statement that the plans will be out for another ten miles of the Vernon & Midway railway in the course of a few days. Three surveying parties are now in the field actively engaged in locating the right of way. One outfit is at Westbridge, another at Summit and one at Vernon. The railway, it is expected, will be finished within fifteen months. The railway plant is being rushed forward as fast as required. Since the actual construction on the road started, there has been a great deal of mining activity. One mine recently changed hands at $100,000 and another at $60,000, both on the line of railway.

In Vancouver last week James J. Hill, president of the Great Northern railway, made the following statement: "The work of construction of the western section of the Vancouver, Victoria & Eastern railway will be commenced this winter, and will be rushed with all possible despatch. All the preparations are now under way. A start will be made at Cloverdale, where the new road will join the New Westminster Southern railway, now a part of the Great Northern system, and the contractors, dividing the work into large sections, will work east over the Hope mountain and connect with the other section of the Vancouver, Victoria & Eastern, now being built from the Boundary into the Similkameen district. It will be an all-Canadian line, with terminals at Vancouver. Mark my words, we shall do more to upbuild Vancouver than any railway corporation has done yet. Vancouver is growing rapidly, but its future will be limited until it secures railway competition in the fullest sense of the term. Great as are the possibilities of your export trade, Vancouver's progress will be largely commensurate with the development of the balance of British Columbia. We will do our share by extending the Vancouver, Victoria & Eastern to your city. That road will traverse a rich mining, farming and fruit district, and our new railway will be a great factor in attracting population, which is the crying need of this province."

It is reported that Pat Burns' First Thought mine, at Orient, Wash., may ship to the Granby smelter in this city in the near future.

About thirty men are now employed by the Dominion Copper company in Phoenix camp.

Prevention is better than cure. Save your eyesight by consulting Dr. Mecklenburg, the celebrated oculist and optician, who will be at White's jewelry store Oct. 18-20.

NEWS OF THE CITY

Francisco Fera, Charged With Perjury, Acquitted by the Supreme Court

British Columbia Telephone Company Finishes Its Work in the Boundary

At the fall assize of the supreme court in Nelson this week, Francisco Fera, of the Boundary district, was placed upon his trial for perjury, and pleaded not guilty. R. M. Mac donald stated that the crown was not in a position to produce any more evidence against the prisoner than that which had proved insufficient at his former trial, and his lordship, Justice Irving, directed the jury to bring in a verdict of not guilty, which was aceordingly done and the prisoner was discharged.

G. C. Hodge, of Nelson, district manager of the British Columbia Telephone company, is in the city today. He states that the construction of the company's lines in the Boundary, which has been going on most of the season, is uow completed. The force of twenty men has left for Nelson, wheae the system is also to be entirely rebuilt.

Jeff Davis is expected to return to the city today from Walla Walla, Wash., where he has been engaged in business during the past six months. Mrs. Davis and children returned to their home here a few days ago.

W. J. Cook, D.D.G.M., of this city, paid an official visit to Greenwood Lodge, A. F. & A. M. last Thursday evening.

A letter has been received by a smelter employee in this city from Trail stating that the eight-hour day was inaugurated in the Trail smelter on the 3rd inst.

Jay P. Graves, manager of the Granby Consolidated. is in New York attending the annual meeting of the company.

Judge W. H. P. Clement has received his commission as judge of the county courts of Yale and Kootenay. He expects to hold his first regular sitting in this city on November 7th.

J. W. Jones, who has been awarded for covering the road from the Granby smelter to the city with several layers of waste rock from the Phoenix mines, started work on the contract this morning.

J. B. Henderson, the architect of this city, is in Phoenix, where he is In charge of the construction of the West Kootenay Power & Light company's substation. The work is being done by day labor.

William Leonard, who has spent the past year in this neighborhood, left today for the Edmonton district, where he has a homestead.

Owing to the stormy weather that prevailed, only a light audience witnessed the pertormance given by "The Hottest Coon in Dixie" company at the Grand Forns opera house last Wednesday evening. The performance, however, was first-class, the music and specialties being of a high order. The company has been considerably strengthened since its previous visit to the city.

A. H. Lawder has resigned as a member of the board of Boundary creek licensing commissioners.

Geo. Gibson, a resident of Phoenix for the past six years, has gone to the Edmonton district.

P. Welch, the Great Northern railway contractor, was a guest at the Yale last Tuesday.

H. N. Galer, manager of the International Coal & Coke company, of Coleman, Alta., was a visitor in the city on Tuesday.

Mr. and Mrs. Frank J. Miller have returned to the city from their wedding tour.

W. J. Morrison, formerly a lumber merchant in this city, but now of Seattle, is spending a few days in town, renewing old acquaintances.

Granby Consolidated shares are now quoted at $7.75 on the Boston stock exchange.

"The wind she blow an' blow. By an' by she blow some more."

Geo. A. McLeod, manager of the McKinley mine, made a business trip to Revelstoke this week.

The New Westminster Columbian of the 3rd inst. says: "A quiet wedding is on the tapis for 8 o'clock this evening at the residence of Mr. W. A. Gilley, in this city, when Miss Mildred V. Gilley, sister of Mr. W. A. Gilley, will be united in marriage to Mr. Harry A. Sheads, of Grand Forks. The ceremony will be performed by the Rev. Dr. Wright, of Vancouver, in the presence of Immediate friends and relatives of the contracting parties. Miss Gilley was formely a resident of New Westminster, but for the past three years she has been living in the Boundary country city. Mr. Sheads is a well known and prominent citizen of Grand Forks, where he has resided for over ten years. After the ceremony this evening the happy couple will leave for a honeymoon in Victoria, Portland and Seattle, returning in a fortnight to New Westminster, and thence to Grand Forks, where they will take up their residence."

CHURCH SERVICES

Methodist Church — Services on Sunday at 11 a.m. and 7:30 p.m. The pastor will preach in the morning on, "The Modern Grace of God"; in the evening, "The Oddfellows' Religion." Everybody invited.

Knox Presbyterian Church, Rev. J. R. Robertsou, Pastor.—The usual services will be held next Sabbath at 11 a.m. and 7:30 p.m. Sunday school at 3 p.m. At the close of the Sunday school a service of baptism will be held.

Leave orders for Stove Wood at G. J. Hayward's.

NEWS OF MINES

Work at Betts and Hesperus Is Progressing Satisfactorily

Preliminary Survey of Site for Dominion Copper Co.'s New Smelter

At the Betts & Hesperus mine, on Hardy mountain, the long tunnel being driven to crosscut the main large ore body is now in over 700 feet, and work is proceeding steadily. In the tunnel one important ore body has already been reached, and with more drifting the main vein will also be struck. This will give a depth of nearly 250 feet in ore from the surface workings, where the ehaft was sunk, and when the tunnel is in far enough drifting north and south will be done and ore blocked out ready for stoping. The mine is supplied with an air compressor, has been working steadily for nearly a year, and the Great Northern Phoenix branch runs across one end of the property, giving excellent shipping facilities.

L. A. Campbell, general manager of the West Kootenay Power & Light company, which is building its long distance high tension pawer transmission line into the Boundary from Bonnington Falls, to supplement the power from Cascade, visited this district for a few days this week. Good progress, Mr. Campbell says, is being made with construction all along the seventy or eighty miles of right of way. Between Rossland and Cascade, which section it is desired to complete first, to assist the Granby company with electrical power, the poles are largely set, and they are also up between Greenwood and Phoenix, as well as other long stretches. Asked as to whether he would be able to have current at the Granby smelter by Nov. 1st, as expected, Mr. Campbell hoped he would, but thought the present heavy rains would help the Granby out appreciably in the recent shortage of power.

A preliminary survey of the site of the Dominion Copper company's proposed new smelter in this city has been made during the past couple of days. It is said that a 1 per cent grade, which is considered very low, can be obtained from the Granby smelter to the site.

No. 4 furnace at the Granby smelter, which was allowed to go cold for a couple of days this week to permit of repairs being made, was again blown in tomorrow.

The recent rains have raised the water in the North Fork considerably, and the power question at the Granby smelter is not quite as serious as it was a week ago. At present there is sufficient power to operate the entire battery of eight furnace, and it is the intention of the management to place No. 6—one of the new and larger furnaces—in commission in a couple of days.

UNION LABEL

FRIDAY, OCTOBER 6, 1905

Vancouver is still indulging in day dreams of becoming the terminus of the Grand Trunk Pacific railway. It appears to be as difficult to convince Vancouver that she is building air castles as it is to impress the fact upon Greenwood that the Dominion Copper company's smelter will not be built in that city.

On the saloon men's petition to the city council last Tuesday night there appeared a name which surely must have got there by mistake. It is not so very long ago since The Sun was threatened with a boycott if it did not support this man for mayor, on the plea that he would elevate the morals of the city. In a quiet way the threat was carried out; but as the paper has continued to grow stronger even under this millstone, there is every reason to believe that it will survive long enough to put a number of gentlemen, who wear double faces with consummate skill, in their true light before the people.

It is understood that the committee having in charge the arrangements for the celebration, or observance, of Trafalgar day in this city have broadened their views so to include all nationalities, and not limit the participants to Englishmen and the sons of Englishmen. The change is a wise one. Every one who lives and makes his living in Canada should be willing to help make a success of the centenary celebration of the destruction of the combined Spanish and French fleets by the naval hero of the empire.

The Arch-Fiend of the Age

Not war—more deadly than ever this modern butchery—but catarrh, which leads to consumption and annually kills more than famine and war combined. The doctors now successfully fight catarrh with a remedy that never fails—Catarrhozone, it's death to every form of catarrh. It destroys every root and branch of the disease so thoroughly that a relapse need never be feared. If troubled with colds, nasal or throat catarrh, or subject to bronchitis or asthma, use Catarrhozone and you'll be cured forever. Sold by all druggists.

"Hooligan's Troubles"

"Hooligan's Troubles," which Manager Arthur J. Aylesworth brings to the Grand Forks opera house on Tuesday, Oct. 31st, is said to make no pretensions to be other than a farce of the most farcial nature. It has one advantage over other comedies in that it is mirth-compelling from beginning to end, and more diverting than many owing to the almost endless complications in which Hooligan finds himself. The story is based upon the illustrated pictures made familiar by Sunday newspapers in their comic supplements. In a skit of this kind comedians and pretty girls who know how to sing and dance are necessary adjuncts. Specialties both quaint and novel, ballads and popular songs, dances of a refined nature and other features are promised.

Leave orders for Stove Wood at G. J. Hayward's.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

A MAN WITH A MEMORY.

The Way He Saved an Accused Friend From the Gallows.

A man was charged at Sydney with murder and by way of defense called evidence to prove an alibi. At the time the crime was committed he was, he said, in his own home listening to a friend who was reciting a novel to him. The expression caught the ear of the prosecuting counsel, and when a witness went into the box to say that he was the man by whom the prisoner was being entertained he tackled him on this word. The witness repeated that he was "reciting" Horace Walpole's "Old English Baron," not reading it, but reciting from memory, and it had taken him two and a half hours to get through the whole book. Well, if he could remember it while in a hut in the bush he ought to be able to remember it now in court, and counsel demanded a demonstration.

"Give us a page or two," he said, never dreaming that his request would be complied with. The witness cleared his throat and without hesitation commenced, "In the time of King Henry, when the good Duke Humphrey returned from the wars in the Holy Land, where he had been sojourning for a number of years," and so on, without hesitation, for several pages, all letter perfect so far as those in court could tell. Counsel for the prosecution, quite staggered by the display, confessed himself satisfied. But the witness was not, and the prisoner's counsel, piqued that doubt should be cast upon his phenomenal witness, asked that the latter might be given time to recite the whole novel and his time in doing it compared with the two and a half hours alleged to have been occupied on the night of the murder. "Good heavens!" said the judge. "But do you expect me to take it all down?" They compromised, the man with the memory reciting the closing scenes of the novel. And on this the man in the dock was liberated.—St. James Gazette.

Largest Crab In the World.

In the American Museum of Natural History is a wonder of marine life in the shape of a gigantic Japanese crab measuring twelve feet, making it the largest crustacean in the world. The specimen is a type of the spider crab which inhabits the waters of the group of islands forming the empire of Japan. The body portion of this mammoth crustacean is the size of a half bushel measure, while its two great arms, containing sawlike teeth, called pinchers, could easily encircle the figure of a man. Its eight legs resemble huge bamboo poles and are extremely elastic.

Deep Sea Measuring.

Great Britain and America do more deep sea measuring than all the other nations put together. More than one-half of the sea floor lies at a depth of a little less than three miles. Some of the deepest places are holes in the ocean bed. One of these in the south Atlantic covers 7,000,000 square miles, or 7 per cent of the surface of the globe. The Indian ocean is a great place for deep waters, twenty-four out of the known forty-two holes lying at the bottom of that body of water.

Dropped All Others

"I dropped all liniments but Nerviline because I found Nerviline the quickest to relieve pain," writes E S. Benton of St. Johns. "If my children are croupy or sick, Nerviline cures them. If a case of cramps or stomach ache turns up, Nerviline is ever ready. We use Nerviline for neuralgia, rheumatism and all kinds of aches and pains; it's as good as any doctor. The great Canadian remedy for the past fifty years has been Polson's Nerviline—nothing better made. Sold by all druggists.

Heavy teaming of all kinds done by J. W. Jones.

Coming Events

Dominion Exposition at New Westminster opens September 27 and closes October 7.

Spokane Interstate Fair opens October 9 and closes October 15.

The Lewis and Clark exposition in Portland closes October 15

"Happy Hooligan"

If you are suffering from low spirits, a hearty laugh will afford the right panacea, and "Holigan's Troubles" is recommended as the proper mixture. Those who attend at the Grand Forks opera house and witness the undoing of Hooligan on Oct. 31st, as exemplified by Manager Aylesworth's excellent company of players in Mark E. Swan's three-act comedy of fun and merriment will enjoy the medicine. The tribulations of this merry monarch of ragged raiment are said to be extremely ludicrous. Pretty girls, catchy songs and beautiful scenery add to the occasion.

If your watch needs repairing take it to White Bros. All work guaranteed.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, tight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent, on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, exceptin the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.
Ottawa, February 4th 1905.

SUNBEAMS

When you agree with a man he will generally have a good opinion of your judgment.

—

It is far easier for the average man to look prosperous than it is for him to feel that way.

—

Superstition has never kept anyone from accepting thirteen for a dozen.

—

The man who minds his own business will not soon run out of good work.

—

Love laughs at locksmiths, but it never even giggles at the plumber.

—

It is real easy to economize when you have plenty to economize with.

—

It may be all right to give credit to whom credit is due, but spot cash is always preferable.

—

Almost any man would rather win one dollar betting on something, than earn ten dollars working for it.

—

Lots of people would rather sit in a first-class theatre and see a second-rate show than vice versa.

—

Chicago has discovered what to do with its aldermen. It has one making brooms in the penitentiary.

—

A man may be able to love two women at the same time, but he will not—if he knows what's good for him.

—

Dr. Mecklenburg, eye specialist, of Winnipeg, will be at White's jewelry store, Grand Forks, from 13 o'clock Wednesday to 13 o'clock Friday, October 18-20. Eyes examined, tested and fitted with glasses. Squint, cross eyes, short sight, far sight, irregular sight, etc., scientifically tested. No guess work, no dangerous and costly mistakes. Safe. reliable, and satisfaction guaranteed.

—

The Blood Is The Life

Owing to faulty actions of the kidneys and liver, the blood becomes filled with disease germs that imperil health. The first warning is a backache, dizziness, headache and lack of vital energy. Act quickly if you would avoid the terrible ravages of chronic kidney complaint. Get Dr. Hamilton's Pills today; they cure kidney and liver complaint for all time. No medicine relieves so promptly, nothing in the world of medicine cures so thoroughly. For good blood, clear complexion, healthy appetite, the proper treatment is Dr. Hamilton's Pills. 25c per box, at all dealers.

—

"Hooligan's Troubles"

Skilfully arranged confusion is the secret in the writing of a successful farce. It is only necessary that the embroglio shall contain original ideas and that the situations which lead to them have the quality of newness This describes in brief the success of "Hooligan's Troubles," which comes to the Grand Forks opera house on Tuesday, Oct. 31st. It is bright and ingenious, leaving no disagreeable afterthought. It is full of honest merriment and ludicrous complications. Pretty girls add to "Hooligan's Troubles," and the company ranks as one of the best in the profession.

COPPER The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

HORACE J. STEVENS, 36 POSTOFFICE BLOCK, HOUGHTON, MICH., U.S.A.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Indian and Fisheries office Bldg., New Westminster, B.C.," will be received at this office until Saturday, October 21, 1905, inclusively, for the construction of Indian and Fisheries office Bldg., New Westminster.

Plans and specification to be seen and forms of tender obtained at this department, at the office of G. A. Keefer, Esq., Resident Engineer, New Westminster, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline into a contract when called upon to do so, or if fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, Sept. 20th, 1905.

"They Take First Rank Amongst the Best"

"The Accident and Sick Policies of the Canadian Casualty and Boiler Insurance Company are sellers. They are greatly in demand at their agencies in all parts of Canada. The contracts are concise, clean and without ambiguity and practically without a condition. They take first rank amongst the best selling in Canada today."—*Extract from Money and Risks, Toronto.*

P. T. McCALLUM, Local Agent

Physically Exhausted

Lacking in courage—out of joint with everything—scarcely on speaking terms with even fair health. Such low spirits are pitiable. Your brain is fagged, vitality so exhausted that your constitution is well nigh ruined. What you need is Ferrozone, that great vitalizer and nutritive tonic. It's by making flesh and blood, by infusing iron and oxygen into the system that Ferrozone helps; it repairs weak spots, instills new life into worn-out organs—makes you feel like new. Ferrozone lifts age from the old and imparts resilience and buoyancy to the depressed. Be manly, ruddy-colored; cast aside weakness and enter the happy life that comes from using Ferrozone. Fifty cents buys a box in any drug store.

Bicycles and Repair Work—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. Geo. Chapple, opposite Postoffice, First street.

You're next at the Palace Barber Shop, Victoria hotel.

For a nice hair cut or shave go to the City Barber Shop on Riverside. Baths 25c.

Prevention is better than cure. Save your eyesight by consulting Dr. Mecklenburg, the celebrated oculist and optician, who will be at White's jewelry store Oct. 18-20.

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO — WRITE PLAINLY
The Secretary, THE CANADIAN PREFERENCE LEAGUE, Room 20, Home Life Building, Toronto

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

The Sun is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads The Sun twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

$2 Per Year

Columbian College

FOUNDED 1892
INCORPORATED 1893
NEW WESTMINSTER, B. C.

Provides a Home for Students of both sexes at reasonable rates. Has a Preparatory Class for Junior Students doing Public School work. Is doing High School work, confers all High School privileges, and prepares for Teachers' Examinations. Teaches all branches of a thorough Practical Business Course, and grants Diplomas. Gives a Liberal Education in its own Collegiate Course, and in the Ladies' College Course for the degrees of M.E.L. and M.L.A. In University work, the Arts Course can now be taken in Columbian College, and the B.A. degree obtained from Toronto University, with which the College is in full affiliation. In Theology prepares for the degree of S.T.L. and B.D.

For fuller information, and terms, write,

Rev. W. J. Sipprell, B.A., B.D., or Rev. J. Bowell, Bursar.
