HIS FIRST COURT

Judge Clement's Initial Sitting in City Signal for Interesting Ceremony

Bar Association Presents Him With a Congratulatory Address

The opening of his first sitting of the county court in this city Wednesday by his honor Judge Clement, was the signal for quite an interesting ceremony. The members of the city council and a number of prominent citizens were present, and those who did not take part in the proceedings were attentive spectators. Shortly after order in court had been called for, H. C. Hanington read the following address, presented Judge Clement by the Grand Forks Bar association:

To His Honor William H. P. Clement, Judge of the County Court of Yale:

Your Honor:—We, the Grand Forks Bar association, desire to extend to you our heartiest congratulations upon your elevation to the position of judge of the county court of Yale, and in doing so it is our pleasure to assure your honor that we at the same time have great cause for congratulation, that there has been selected for the position one well known in the legal and literary world of Canada as a writer of marked ability, a close and thorough student of constitutional and general Canadian history, and one who stood high among the legal fraternity as a sound lawyer, and a keen, careful and successful counsel.

We are particularly appreciative of the fact that a well-earned reward has fallen to the lot of one of our own citizens, and we desire to assure your honor of our heartiest support and co-operation in carrying out the grave duties and responsibilities of your position.

We would ask you to convey our good wishes to Mrs. Clement, and we trust that you both be long spared to reside among us.

Signed on behalf of the Grand Forks Bar association.

W. B. Cochrane, Pres.
David Whiteside, Sec.

Mr. Hanington supplemented the above address with a brief speech, in which he said he hoped the relations between his honor and the bar association would always be of a pleasant nature. He assured Mr. Clement that the members of the bar association would always give him their hearty co-operation in seeing that justice was done all citizens. Mr. Haniugton also paid a high tribute to the late Judge Leamy, saying that he died in harness, and expressing the belief that had it not been for his high sense of duty Mr. Leamy would be alive today.

Judge Clement was taken entirely by surprise. He thanked the members of the Grand Forks Bar association for their kindly toward him, and would take great pleasure in conveying to Mrs. Clement the good wishes extended them.

Mayor Hammar also made a brief speech, to which Judge Clement replied appropriately. Mr. Hammar assured his honor that his elevation to the judgeship of the county of Yale was viewed with gratification by the citizens generally of Grand Forks.

The docket was an exceedingly short one, there being only one case of any importance, one or two summonses and a few naturalization cases making up the balance of the list.

The case of D. D. Munro against the Wasson astate lasted until ahout 6 o'clock, when the session closed. The controversy in this case is of about three years' standing. Munro advanced Wasson some $600 on potatoes for future delivery. According to the evidence, all the potatoes were never delivered. Judgment was given Munro for $369. David Whiteside for Munro; E. Miller for Wasson estate.

CHURCH SERVICES

Methodist Church—Services at usual hours. Morning subject, "The Greatest Fact of History;" evening subject, "False Charges Refuted." The pastor will preach at both services. Everybody welcome.

There will be no services in Knox Presbyterian church next Sabbath.

COMING EVENTS

The Guild of Holy Trinity church will serve tea at the rectory on Wednesday afternoon, Nov. 15th. Articles suitable for Christmas gifts will be on sale during the afternoon.

The annual fair of the Methodist Sunday school will be held in P. Burns & Co.'s block, next W. K. C. Manly's, corner Bridge and First streets, next Saturday, Nov. 11, from 4 to 10 p.m. A 25c luncheon will be served. There will also be fancy works and candy booths. A museum, to which an admission of 10c will be charged, is to be one of the leading attractions.

An informal dance will be given by the Ladies of the Maccabees, in their lodge room, Eagles' hall, next Thursday evening. A cordial invitation is extended to all. Admission, gentlemen 50c, ladies free.

NOTICE

Applications will be received by the Corporation of the City of Grand Forks, until December 2nd, 1905, for the position of Auditor.

Applicants will state salary.

J. A. McCallum,
City Clerk.

Grand Forks, B.C., Nov. 10, 1905.

An American Disease

Some doctors go so far as to say that indigestion is the national disease of America. There is but one national remedy for indigestion, and that remedy is Dr. Hamilton's Pills, which accelerate the action of the gastric glands and give tone to the digestive organs. They strengthen the kidneys and liver, cleanse and purify the blood, and thus add general tone to every organ of the body. Flesh and strength are fast restored and the patient can eat and digest any food he pteases. Test Dr. Hamilton's Pills yourself—25c per box or five boxes for $1.00 at all dealers.

NEWS OF THE CITY

Negotiations for Eight-Hour Day at Smelter Progressing Satisfacforily

Henry Eyer Met With a Seri-Accident Wednesday Morning

Negotiations between the Granby smelter management and its employees are still being carried on, but as both sides are bound to secrecy, absolutely no information will be given out until either a settlement is effected or the conferences are declared off. The committee from the union, it is understood, is working hard to effect an amicable settlement. Two meetings of the union were held today, and tomorrow afternoon there will be a special meeting, when the union's final instructions to the committee will be given.

It has been suggested by one or two business men that, in the event a successful settlement is arrived at, the merchants of the city tender the union a smoker. The suggestion is meeting with considerable favor, and is certain to be carried out, especially as every citizen is more or less interested in an amicable termination of the pending negotiations.

Henry Eyer, a furnaceman at the Granby smelter, met with what came very near being a serious accident yesterday forenoon. While pouring water on some hot matte, the metal exploded, small pieces striking him in the face and eyes. He was at once taken to the Cottage hospital, where Dr. Kingston is giving him all the medical treatment possible. It was at first feared that his eyes had been ruined, but a thorough examination gives the doctor strong hopes of saving the man's sight.

It has been definitely stated that the Dominion Copper company's smelter at Boundary Falls will be blown in on or about the 1st of December. The second train of ore was shipped to the smelter Tuesday morning. Coke and coal have also begun to arrive at the works.

H. C. Hanington, barrister, made a professiona[trip to Midway this week.

M. S. Martin, the local contractor and builder, went up to Midway Wednesday afternoon.

Rapid progress is now being made on the new addition to the Windsor hotel, and present indications are that it will be completed long before the new liquor by-law becomes operative.

Born—In Grand Forks, on Friday, Nov. 10, 1905, to Mr. and Mrs. D. G. Stafford, a son.

R. T. Lowery, of Nelson, editor and publisher of Lowery's Claim, was in the city yesterday with a view of building up his subscription list. Mr. Lowery intends to visit every city, town and mining camp in the province during the coming winter on the same errand.

J. H. Kennedy, of Midway, chief engineer of the V., V. & E., and a party of Great Northern officials, visited the city last Wednesday. While here they inspected the Granby smelter, and had a long conference with Superintendent Hodges.

Card of Thanks

The members of Observation Loyal Orange Lodge No. 52 worshiped in a body in the Methodist last Sunday morning, and listened to an interesting sermon by Rev. Mr. Manuel. After the service the members of the lodge met in their hall, and unanimously adopted the following resolution:

Resolved, That we, the members of Observation Loyal Orange Lodge No. 52, tender our hearty thanks to the Rev. E. Manuel for his able and patriotic sermon to the Orangemen of Grand Forks on this the anniversary of the discovery of the gun powder plot, and also to the visiting brethren and friends who assisted us in making our first annual church parade a success.

R. Gaw, W.M.
E. Hall, Sec. pro tem.

THE RIVAL GIANTS

Great Northern and C. P. R. Engage in a Lively Scrap West of Midway

Victoria advices last Saturday announced that the Great Northern had won its suit against the C.P.R. in the matter of the obstruction to grading operations west of Midway, and work was resumed at that point by the Great Northern. Hardly had the contractors got fairly to work on the delayed section, however, when the C.P.R. showed undoubted signs of renewing the fight, claiming that as they intended to appeal the Great Northern had no right on the land in dispute, which tney allege has not been sold and no offer made for it. Wednesday morning information was received that more trouble was in the air, and it is reported that offers of $3.50 per day and board were made for men by the C.P.R. The trouble at present is at a point about six miles west of Midway, where it will be necessary to drive a short tunnel. The Great Northern contractors for this section, it is understood, yesterday sent a complant to the police authorities at Nelson, and last night Constable Daaraugh was expecting instructions to proceed to the spot to make arrests.

A "Wheezy" Chest

Means your trouble is deep seated. To delay is dangerous. All the inflammation will be drawn out in one day by applying Nerviline. It penetrates through the pores of the skin, relieves inflammation and thus prevents serious consequences. For sore throat, weak chest and tendency to colds, no prescriptlon is better than Polson's Nerviline. For nearly fifty years it has been Canada's greas household remedy. Twenty-five cents buys a large bottle. Sold by all dealers.

PREMIER ARRIVES

Government Officials Now Being Interviewed by Deletions of Citizens

Mayor Presses an Appropriation for the First Street Bridge

Hon. Richard McBride, premier of British Columbia, Hon. R. F. Green, commissioner of lands and works, and R. G. Child, the premier's private secretary, arrived in the city this afternoon, and are guests at the Yala. Late in the afternoon they made a trip to the the Granby smelter, and this evening they are being visited by delegations of citizens.

Mayor Hammar has put in all his available time with the commissioner of lands and works in endeavoring to convince that gentleman that an appropriation for a new bridge at either First or Fourth street is the paramount issue in Grand Forks. He says the progress in his argument has reached the stage where the government is willing to bear half the cost of the new bridge. Mr. Hammar further states that he intends to show the visitors the old bridge tomorrow morning, even if he has to kidnap them to do so.

The party will leave for Phoenix by private conveyance tomorrow forenoon.

Coughlan-Henderson

Mr. Chris Coughlan, of Greenwood, but lately a resident of this city, and Miss Eva Henderson, of Grand Forks, were married at the home of Mayor and Mrs. Jeffery Hammar, in this city, at 10:30 Wednesday morning, Rev. E. Manuel performing the ceremony. Only a few relatives and intimate friends of the contracting parties were present. John Henderson, a brother of the bride, acted as best man.

The groom is a promising young man, and has been a resident of British Columbia for about ten years, having been employed by P. Burns & Co. nearly all of that time. At present he holds a responsible position with that firm in Greenwood. In this city, where he lived for about three years, his friends are only limited by the number of his acquaintances.

The bride is a daughter of Mr. and Mrs. J. B. Henderson, of this city, and is an estimable young lady, being very gopular with a large circle of friends.

The young couple were the recipients of numerous costly and beautiful presents.

Mr. and Mrs. Coughlan left on the afternoon train for their future home in Greenwood. The popularily of the couple in this city is attested by the fact that the platform at the C. P. R. station was thronged with their friends, who had gathered to congratulate them and to wish them a happy and prosperous married life. They boarded the train amidst a shower of rice.

UNION LABEL

FRIDAY, NOVEMBER 10, 1905

The first election in the new province of Alberta yesterday indicates a sweeping Liberal victory. The only constituencies thought to be safe for the Conservatives are Medicine Hat and High River.

A Minnesota syndicate of capitalists has required the Nelson & Fort Sheppard land grant, comprisfng 433,000 acres, and plans for the settlement of the same are now being matured. The gentlemen chiefly interested in the deal are J. A. Nowell, of St. Paul; H. L. Simmons, of Glencoe, and M. S. Rutherford, of Princeton, Minn.

THE MINING RECORDS

Following are the locations, certificates of work, bills of sale, etc., recorded in the Government office at Grand Forks, B. C., of the Grand Forks mining division, from Nov. 3 to 9, inclusive:

RECORD OF LOCATIONS.

Circle, Wellington camp, David Oxley; Ringland, Wellington camp, James McNulty; Three Bars, Wellington camp, J. J. Bassett; Maud J., Spraggett ranch, relocation of British Ensign, Sam Baker.

CERTIFICATES OF IMPROVEMENT.

Omar, Franklin camp, Cummings et al.; Franklin, Burnt Basin, Edward Almstrom et al.; Yankee Boy, Burnt Basin, John B. Singer et al.; St. Joseph, Central camp, Henry Johnson.

CONVEYANCES, ETC.

Blue Jay, ¾, Franklin camp, Pat Maginnis to Wm. Minion; Hot Air and Lone Pine, ½, Franklin camp, H. Watlin to W. Cook; Hot Air and Lone Pine, ¼, Wm. Waterston to Allen L. Whiteside; Oversight, ¼, Franklin camp, W. R. Hull to Wm. Waterston; Gold King, ¼, Franklin camp, H. Watlin and W. R. Hull to E. R. Whitney; Oversight, ½, Franklin camp, W. R. Hull to H. Watlin; White Bear mineral claim, all, Gloucester camp, John S. Cox to co-owners; White Bear, all, Gloucester camp, Thos. S. Perkinson to co-owners; Yellow Jacket, 1-5, Franklin camp, Jas. H. Reesler to B. Lawder; Gold King No. 2, Franklin camp, H. Watlin to Geo. M. Fripp.

When Seven Men Die

You know at least one of them had consumption. At first it was only catarrh—but it was neglected. When Catarrhozone cures so quickly it's foolish to suffer—it's a shame to keep on sniffelins and hawking. Catarrhozone goes direct to the cause of the disease—that's why it's so dead certain to cure. It stops the cough, prevents that disgusting discharge, clears phlegm out of the throat in five minutes. Very pleasant, and safe too; get Catarrhozone from druggists today.

There are still a few cheery, well furnished rooms, with heating stoves, vacant at the Province hotel.

TOPICS OF THE TOWN

Arrangements are being made by George Taylor, the well known local contractor, for the construction of an open air skating rink. It is also probable that the curling enthusiasts will be provided for.

The Grand Forks Bar association held a meeting this week, when W. B. Cochrane was elected president and David Whiteside secretary.

R. H. Trueman, the well known Vancouver photographer, arrived in the city today, and will be at Blome's old stand, Bridge street, for ten days. Parties desiring artistic work in his ine should not fail to call on him.

The Tonic of Health

Must be more than a stimulant—must be a food as well. There is one medicine that is both a food and a tonic—it aids digestion, promotes assimilation, converts food into nutriment that builds up nerves, blood, brain and bone. That tonic is Ferrozone, which contains exactly what a run-down system needs. Ferrozone supplies oxygen to purify the blood, phosphorous to develop the brain, iron to harden the muscles. No wonder it makes such vigorous men and women. You'll eat, sleep, think and feel better by using Ferrozone; try it—now. Fifty cents buys a box of fifty chocolate coated Ferrozone tablets, at all dealers.

Could Distinguish Tread of a Flea.

The quickness which some persons possess in distinguishing the smaller sounds is very remarkable. A friend of the writer has declared he could readily perceive the motion of a flea, when on his nightcap, by the sound emitted by the machinery of his leaping powers.

However extraordinary this may appear, we find a similar statement is given in the ingenious work upon insects by Kirby and Spence, who say, "I know of no other insect the tread of which is accompanied by sound, except indeed the flea whose steps a woman assured me she always hears when it passes over her nightcap, and that it clacks as if it were walking in pattens!" If we can suppose the ear to be alive to such delicate vibrations, certainly there is nothing in the way of sound too difficult for it to achieve.

Cats and dogs can hear the movements of their prey at incredible distances, and that even in the midst of noise which we would have thought would have overpowered such effects. Rabbits, when alarmed, forcibly strike the earth with their feet, by the vibrations of which they communicate their apprehensions to burrows very remote.—Nature.

Color Sensations.

The three primary color sensations are considered to be red, green and violet. Certain mixtures of violet and green produce a blue. Red and green also give a yellow, but it is important to observe that these are primary color sensations and not primary colors, though the expression "lights of primary colors" is admissible, for it is commonly imagined that the blue and yellow mixed in certain proportions produce various kinds of green. If yellow and blue pigments be mixed together with water, the green color produced is not a mixture of blue and yellow colors. It is the one color which is not freely absorbed either by the yellow or by the blue pigment. The yellow pigment removes the greater part of the blue, indigo and violet rays; the blue pigment removes the greater part of the red, orange and yellow. Thus the light that finally escapes is mainly green.—Longman's Magazine.

Clothes and Heat.

When we speak of warm or cool clothing we use as absolute a metaphor as when we talk of the sun going down or the "rosy fingered dawn." Clothes can communicate neither heat nor cold to the body. Fur is not warm nor linen cool, except as they serve as conductors for the heat generated by the body itself. Fur and wool are excellent nonconductors of heat—that is, they do not allow the heat of the body to escape so easily as some other materials—and the reason why fur is one of the poorest conductors of heat is not, as might be supposed, so much because of its thickness and weight as because of the air which is mingled with or confined between its fibers, confined air being one of the most effectual nonconductors of heat known.

Swedish Women.

Reverence for women is one of the immemorial Scandinavian characteristics. The women themselves are emulous of masculine achievement and are keen for obtaining the same civil rights. The woman of the south dominates by her charm, the woman of the north by her force of mind. Each has a love of physical activity and a thirst for knowledge. Coeducation prevails everywhere in the schools. In no other country is the woman who is obliged to earn her own living better cared for. All positions and all the professions are open to her. She may be doctor, professor, journalist, manufacturer, without losing her woman's position in the world. The first transportation company of Stockholm was founded by a woman and by her directed with success. Many printing shops employ women exclusively. There has, of course, been the unpresentable consequence of this, that Swedish women have grown indifferent toward marriage, and the number of independent woman has increased—Re-

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths exceeding those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, $1\frac{1}{2}$ and $1\frac{3}{4}$ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at *public competition, except* in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from $\frac{1}{2}$ to $1\frac{1}{2}$ cents per lineal foot for building logs; from $12\frac{1}{2}$ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,

Deputy of the Minister of the Interior.

COPPER The new edition of the COPPER BOOK lists and describes 3311 copper mines and *copper mining properties, in all parts of the* world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

HORACE J. STEVENS, 36 POSTOFFICE BLOCK, HOUGHTON, MICH., U.S.A.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

The Imp Hoax.

This brazen imposture on the credulity of the English public was the result of a wager between the Duke of Montague and another nobleman in 1749. In discussing the amazing gullibility of the English people the former declared that if one were to advertise it well that he would jump into a quart bottle all London would go to see him do it. The wager being made, an advertisement was inserted in all of the leading papers promising that the feat would be performed on a certain date at the Haymarket theater. On the appointed day the theater was packed from pit to dome, and many hundreds were turned from the doors. The supposed magician appeared on the stage and had the temerity to state that if the audience would pay double the price he would enter a pint bottle, shown on the stage table, instead of the quart flask, as furnished. He then hurriedly escaped by the stage door. A riot resulted, in which the theater was badly wrecked, and the duke and his companion had to leave town until the excitement was well over.

The Original Cradle.

There is, if one comes to think of it, says the London Queen, more connection than is at first apparent between the "tree top" and the cradle of the old refrain, with which generation after generation of babies has been crooned to sleep. The cradles of the ninth and tenth centuries were formed of a section of the trunk of a tree, scooped out, with small holes bored at the sides through which to pass the cords back and forth to prevent the child from falling out. The natural convexity of the wood on the outside enabled the nurse to rock the infant.

The enormous antiquity of the now obsolete cradle is startling when one remembers the wicker cradle or basket of the time of Moses, and later it is known on excellent authority that the Roman babies slept in cradles. These were the predecessors of the elaborately carved cradles which formed so important a part of the bedroom furniture until within the last fifty years.

Few men or women have their consciences educated up to a point where they will not ride on a scalper's ticket.

A man can do almost everything but think by machine, but he is generally able to find some politician to do his thinking for him.

One thing the man with the hoe has that some people who pity him are my on, and that is good health.

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member also is expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription to the journal is $1.00.

OUT THIS OUT, SIGN AND SEND TO — WRITE PLAINLY

The Secretary, CANADIAN PREFERENCE LEAGUE, Room 20, Home Life Building, Toronto.

Please enrol my name as a member of the Canadian Preference League, and I enclose 50c, my membership fee for one year, and 50c for subscription for one year to the journal of The Canadian Preference League.
