COUNCIL MEETING

Extension of Electric Light System to the Ruckle Addition

Salary and Ward Division By-Laws Pass Their Third Reading

The regular bi-weekly meeting of the city council was held in the council chamber last night, the mayor and all the aldermen being in attendance.

A communication from Dave Woodhead asked for eight hours for the men employed on the city street, at the old rate of wages. It was pointed out that the city paid 30 cents an hour—higher than the going rate of wages for common labor. If the workmen on the streets wished to reduce their day's pay by only working eight hours, no serious objection would be offered. On motion, the clerk was instructed to answer the letter, telling Mr. Woodhead that the city paid more than the going rate of wages.

A letter from the Kettle River Lumber company informed the council that a gust of wind had carried one of the city's cheques into the river, and asked for a duplicate of the same. The matter was referred to the finance committee, with power to act.

The fire chief's monthly report was read, received and ordered filed.

A communication from the Phoenix Pioneer, offering $50 worth of space in its holiday edition, was read. On motion, the clerk was instructed to inform Mr. Willcox that the council did not feel justified in spending any more money for advertising purposes.

The following accounts were ordered paid:

Wm. Dinsmore	$ 1.50
Kettle River Lumber Co.	57.33
Boundary Iron Works	20.75
Granby Consolidated	675.00
B. C. Telephone	10.00
Geo. Chapple	8.20
Land Registry Office	30.00
Evening Sun	4.00
H. B. Cannon	7.70
Wm. Emard	10.80
J. Anderson	1.80
J. Lagimodiere	2.00

Ald. Clements, chairman of the water and light committee, reported that the committee had entered into an agreement with the Boundary Iron Works and the Kettle River Lumber company for the extension of the electric light system to their plants in the Ruckle addition. The Boundary Iron Works desires to install a 10-horsepower electric motor, but as it is to be used only occasionally the firm is only to pay for six horsepower, at $5 per horsepower per month. In addition to this, the firm is also to take a number of lights during the winter months. The company agrees to make a deposit of $150, which is to be refunded by the city in light and power. The Kettle River Lumber company only wishes lights at present, but later on may also install a motor. The company offers to furnish the poles for the new line, the cost of the same to be deducted from its light bills. The contract, which was read by the clerk, is to remain in force until 1907. Mr. Clements stated that there was a prospective revenue of $60 per month from the new line, and that $150 would cover the expense of putting it in, with the exception of the cost of the transformers: Ald. Brown said the Boundary Iron Works needed lights at present in the worse way. The contract had been drafted by the city solicitor, and should prove satisfactory to the council. The mayor didn't wish to be understood as opposed to the contract, but he wanted to see the city protected. The contract was binding on the part of the city, but not on the part of the company. It would cost the city about $500 for transformers for the new line. If the residents of the Ruckle addition wanted light on the same basis as it is furnished the ratepayers of the city, it would be the most unjust proposition ever brought before the council. On motion of Ald. McCallum and Henniger, the recommendation of the water and light committee in reference to extending the city's electric light system to the Boundary Iron Works and the Kettle River Lumber company's planing mill was accepted, and the committee was instructed to complete the line, the mayor being authorized to sign the contract.

On motion of Ald. Crossen and Brown, the water and light committee was instructed to extend the electric light line to Mr. Duffy's residence.

Ald. Brown, of the health and relief, reported a case at the Cottage hospital that would require some city assistance.

The chairman of the cemetery committee, Ald. Brown, thought that four-grave plots at the city cemetery should bring $15, and two-grave plots $8. The mayor thought that a cemetery by-law should be brought in.

The mayor reported the result of his interview with the chief commissioner of lands and works respecting the new bridge across the Kettle river at this point. The result of this interview was printed in The Sun last week.

Ald. Crossen was granted leave to introduce the mayor's remuneration by-law, which was advanced to its third reading with very little discussion. The by-law provides for the remuneration of the mayor for the year 1905 to the amount of $400 out of the annual revenue of the city.

Ald. Crossen was granted leave to introduce the aldermen's indemnity by-law. This measure provides for an indemnity of $200 to each alderman, with $5 deducted for each absence without leave from meeting. A little more opposition was developed to this by-law, but it was finally advanced to the same stage as its predecessor. Ald. Brown thought it would have lookrd better if some other alderman had brought in the by-law. Ald. Crossen replied that he brought it in because he believed the principle was right, and, as he had not gone before the people, he was violating no election pledges. He explained that the salary was not exclusively for attendance of meetings, but to indemnify the chairmen of the verious committtees for their loss of time. Ald. Henniger said he thought $120 would be sufficient salary, and parenthetically remarked that if he were sure the by-law would carry he would vote against it. Ald. McCallum wanted the by-law laid over till the next meeting, when he might vote against it. Both he and Ald. Clements had told the electors that they would vote with the majority on this question. Ald. Hutton said the salaries were too high, and thought $250 to the mayor and $100 to the aldermen would be about right. He didn't see any sense in being as economical as possible for a whole year, and then vote away $1700 in salaries at one time. The mayor explained that last year, after the fines had been deducted, some of the aldermen received as low as $75.

The ward division by-law was advanced to its third reading. Sixth street is to be the dividing line between the East and West wards, each ward being entitled to three aldermen.

The council then adjourned.

NEWS OF THE CITY

Eagles Will Give the Smelter Boys a Smoker on Dec. 4

A Local Horseman Will Perform a Dangerous Feat

Grand Forks Aerie No. 237, Fraternal Order of Eagles, has extended a cordial invitation to the Grand Forks Federal Labor Union to attend a smoker, to be given in Eagles hall on Monday, December 4th. The smoker is tendered the union as a compliment on the recent amicable settlement of the eight-hour question. The Eagles intend to give the smelter boys a good social evening's entertainment.

Mr. Lawson, of the Hunter-Kendrick company, and Mr. Wm. Hunter, Jr., of the same firm, have made a wager to decide a dispute as to whether Mr. Lawson can ride his own horse, without saddle or bridle, from Second street to Fracke's greenhouses and return without dismounting. The feat is to be pulled off one day early next week. There will be at least four judges, two of whom will accompany him, in case of any mishap during his dangerous undertaking. The event is looked forward to with much interest by many, knowing as they do the science Mr. Lawson possesses as a bareback rider. It may be added that Mr. Lawson will be allowed to ride with a halter.

Mr. H. H. Spinks, who was seriously injured at the Granby smelter last Friday morning, did not regain consciousness until yesterday morning. He is now improving very rapidly, however, having been able to sit up in bed today, and the chances of his complete recovery are quite bright.

Judge Clement held a chambers sitting Thursday afternoon, and an extension sitting of the county court from November 7. Alexander Joseph, a young half-breed, also came before the judge for speedy trial on the charge of horse stealing. Joseph stole the horses at Penticton. With the help of the deputy sheriff of Ferry county, Constable Dinsmore arrested him last week. Joseph elected for a speedy trial, and pleaded guilty. He was sentenced to twenty-three months with hard labar in the county court jail at Kamloops. Constable Nesbitt, of Penticton, left for Kamloops with the convicted man last Saturday.

A meeting of the Grand Forks Hockey club will be held in the city hall on Wednesday evening at 8 o'clock. Many important questions are to come up for consideration, and everybody interested in the game and the erection of a rink are requested to attend.

The eight-hour day was put in force at the Granby smelter yesterday without a hitch. Everybody appears to be satisfied.

MORE MACHINERY

Granby Company Incrdases Its Plant at the Phoenix Mines

Boundary Falls Smelter to Blow In a Week Hence

The Granby Consolidated company has placed an order for a double conical drum electric hoist of 250 horsepower for its mines at Phoenix. According to the contract, the hoist is to be shipped in three months, and will be the largest in this section of the province. This order is in addition to that placed a couple of weeks ago, which included a Blake-Farwell 32x42 ore crusher, a duplicate of the two crushers now in commission at the company's mines, and a 250 horsepower variable speed Westinghouse electric motor to drive the hoist.

M. M. Johnson, consulting engineer of the Dominion Copper company, arrived in Greenwood last Thursday, and in company with Mr. Drummond, the company's resident manager, went to Phoenix Friday morning. To a Greenwood Times representative Mr. Johnson stated that they hoped to blow in the smelter at Boundary Falls in about ten days. Ore and coke are being shipped there, and he saw no reason why the smelter should not be running in that time. He also stated that his company had not fully decided where the new smelter would be located.

Activity at the company's mines in Phoenix is gradually increasing. Between fifty and sixty men are now employed there.

Secretary Fowler, of the Granby Consolidated, has given notice that a special meeting of the company will be held at the New York office, 52 Broadwoy on Friday, December 1, for the purpose of increasing the par value of the shares from $10 to $100, increasing the number of directors from ten to twelve, and transacting such other business as may come before the meeting.

Read The Sun—$1.00 per year.

BIG REALTY DEAL

Chas. Peterson Purchases the Pacific Hotel in the West End

Consideration $5000---Will Take Possession on Dec. 1

An important realty deal was consummated the latter part of last week, when Chas. Peterson, of the Square hotel, purchased the Pacific hotel from John McIntosh, the consideration being $5000. The deal was put through by Neil McCallum. Mr. Peterson will take possession of the property on the 1st of next month, when Gus Eastman, of the Columbia hotel, will be installed as manager. The latter place will then be closed up, but Mr. Peterson will continue his down town business until the 15th of January, when all the saloon licenses expire.

Mr. Peterson is one of the most successful hotelmen in the city, and with only one hotel in the upper end of town, he should do a good business there.

Mr. P. D. McDonald, who has successfully conducted the Pacific during the past six months, intends to remove to Westbridge, where he recently purchased an hotel.

TOPICS OF THE TOWN

The infant child of Mr. and Mrs. J. M. Ardel, which died yesterday, was buried this morning in the city cemetery. The family are recent arrivals in the city, Mr. Ardel being employed in the Granby smelter.

Stanley Hull, of the Grand Forks postoffice staff, returned Friday evening from a two weeks' trip through the Similkameen country.

Ald. Neil McCallum went up to Midway this afternoon to inspect the growth of that railway town.

The railway committee at Ottawa struggled an entire day last week with a dispute between the Columbia & Western and Red Mountain railways as to rates. The Columbia & Western, otherwise the Canadian Pacific, had an arrangement with the Red Mountain road to carry ore at $2.50 a car. This charge has been increased to $5. The Canadian Pacific want the old rate enforced. The Red Mountain showed that it cost the company $4 to do the work. This was disputed.

Don't Squander Your Money

On wortnless cures for catarrh. There's only one remedy that's successful—Catarrhozone—it cures when the doctor says your case is hopeless. No drugs to take, no atomizer to bother with, you simply inhale the fragrant vapor of this unfailing cure and get well quickly. Relief is instant, cure is guaranteed, so you run no risk with Catarrhozone. Don't experiment, don't put off, get Catarrhozone from your druggist today.

The Lion Bottling Works have cut their price on all case and draught wines and liquors.

UNION LABEL

TUESDAY. NOVEMBER 21, 1905

As the Grand Forks correspondent has named every eligible man in the city as a probable mayoralty candidate, there is no apparent reason why he should not pick the winner. There is nothing like having a cinch.

Collier's Weekly has unearthed a conspiracy among the patent medicine firms to dictate the editorial utterances of the American press. Collier's article on this subject may border on the sensational, but that does not alter our previously established conviction: that the patent medicine business is the most stupendous fraud ever perpetrated on a civilized people.

The business committee of the inter-church conference on confederation announced the draft of a plan for church federation at the conference in Carnegie hall, New York, last Saturday. The following are the chief points: A federal council of Protestant churches to meet every four years, the first meeting to be held on December 1, 1906. Each denomination to have four members in the council and one extra member for each 50,000 communicants. The council is to act in the capacity of an advisory board, and to interfere in no way with the autonomy of individual denominations. The object is to be united action of social and moral questions and to give spiritual counsel and promote fellowship. An active committee to deal with the business of the council in the intervals between meetings. Thirty denominations are to be in the confederation at the outset, and provision is made for the admission of others.

Cold Settles in the Back

It hits people in a tender spot and makes it mighty hard to brace up. Nerviline takes that kink out of your spinal column in short order; it soothes, that's why relief comes so soon. Nerviline penetrates, that's why it cures. Five times stronger than ordinary remedies, Nerviline can't fail to cure lame back, lumbago, sciatica and neuralgia. Nerviline is instant death to all *muscular pain*. For nearly fifty years it has been the largest selling liniment in Canada. Better try it. Sold by all dealers.

Women With Weakness

For all weakness from which girls and women suffer, no surer remedy exists than Dr. Hamilton's Pills. They maintain that bracing health every woman so earnestly desires; they uproot disease, and bring health that lasts till old age.

"No medicine could be more beneficial than Dr. Hamilton's Pills," writes Mrs. Mary E. Ayrton of Victoria. "I have been strengthened, my digestion is better, I have improved in color and feel considerably better since using Dr. Hamilton's Pills." Sold everywhere, 25c per box or five boxes for $1.00.

The Canada Gazette has given notice of the disallowance by the Dominion government of "an act further to amend the supreme court act" of British Columbia. This act, chapter 18, was passed by the British Columbia legislature on April 8, 1905. It was introduced by the attorney general and provides as follows: "Persons to be appointed judges shall be barristers-at-law of not less than ten years' standing, of which ten years they shall have been for five years actively engaged in practice at the bar of British Columbia."

Why That Weariness?

You're uneasy, restless, without appetite. Still worse, you are thin and fagged out. Work must be done, but where is the strength to come from?

Make your blood nutritious and you will have lots of strength. Your only hope is Ferrozone, an instant blood-maker, blood-purifier, blood-enricher. It brings keen appetite, digests food, and supplies nutrition for building up all the bodily tissues. Ferrozone makes muscle and nerve-fibre, increases your weight, instills a reserve of energy into the body that defies weariness or exhaustion from any cause. To have virility and healthy vigor use Ferrozone, which all dealers sell in 50c boxes.

For a nice hair cut or shave go to the City Barber Shop on Bridge street. Baths 25c.

"Jerry from Kerry"

Patten and Perry's funny musical farce comedy and vaudeville attraction, "Jerry from Kerry," in which that cheerful, comic, cachinnatory character is the central figure, is to be presented shortly in this city. This will be welcome news to all classes of theater-goers. The interest in the laughable, diverting and humorous incidents, events and happenings of this comedy never ceases or flags, and its success has been little short of amazing. Undoubtedly the profuse comedy it contains has had much to do with securing popular favor, and the scenes and adventitious incidents, bustling in animated actions, bristling in effervescent humor, bubbling with unadulterated mirth and permeated with startling novelties, quaint originality in catchy music, and elaborate costuming and presented by a cast of the very best and highest salaried artists possible to secure, have all contributed to its phenomenal success. This company also carry their own superior uniformed concert band and orchestra, which is a special feature. Don't miss the free band concert at noon and 7:30. Remember the date. Plan of seats now open. At opera house Wednesday, Nov. 29.

R. H. Trueman, the Vancouver photographer, will remain at Blome's old studio, Bridge street, until Monday, November 27. Parties desiring to take advantage of this opportunity to secure first class work, should make their appointments as early as possible.

COPPER The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

First Street Grand Forks, B. C.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent, on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.
Ottawa, February 4th, 1905

HEADQUARTRES FOR

He Picked Up the Ball.

One afternoon when voyaging to India K. of K. was dozing in his deck chair, when a little lady of three or four summers let her ball fly into his face, whence it rolled to his feet. Lord Kitchener woke up, says M. A. P., and turned upon the child that basilisk gaze before which the hearts of strong men have often turned to water. But the child was in nowise abashed. "Pick up my ball," she said imperatively. Lord Kitchener frowned and answered not. "Pick up my ball," reiterated the small damsel insistently. "Have not you got a nurse?" said Lord Kitchener in an awful voice. The interrogative mood was answered by the imperative. "Pick up my ball." Lord Kitchener looked round despairingly, but re-enforcements were not in sight. "Where is your mother?" he said weakly. "Pick up my ball," repeated the girl. The ultimatum was delivered in crescendo tones, which suggested the imminence of something worse to follow, and Lord Kitchener meekly complied. Then he fled incontinently to the smoke room.

Early Christian Cursings.

Cursing, it may be observed, continued in full vigor in Christian times, often harmonizing ill with our modern notions of Christianity. Some are almost horrible in their ferocity, as when the violator of the tomb is told that "he will be accursed of God forever" or that "he will give account to God, who will judge the quick and the dead." There is one which perhaps will rather provoke a smile. The offender is threatened with the curse of all the fathers of the Nicene council. "He that throws rubbish in this inclosure," the inscription runs, "has the anathema from the 318 fathers as an enemy of God."

Sidney Smith once alluded to a forty parson power—of preaching, if we remember aright—but the anathematizing ability of 318 Nicene fathers is a much more appalling idea, and there is a ludicrous contrast between this terrible but vague penalty and the very prosaic and familiar offense.—Macmillan's Magazine.

Regardless to the tyranny of the letter "r," oysters are only eaten during the months in which the man has the price in his pocket.

Often the candidate gets a run for his money, and that is all.

If water were poured out of a bottle some men would sample it cautiously and say it was a new one on them.
