DOMINION COPPER

President Miller Gives the Present Status of the Company

Progress Made Since the New Management Assumed Control

Ex-Senator Warner Miller, of New York, president of the Dominion Copper company, limited, whose chief mines are located in Phoenix camp, has just sent a communication to shareholders, regarding the status of the corporation, the progress made since the present company took hold a year ago, and the favorable outlook, together with a financial statement of the company as at July, 31, 1906. Mr. Miller states that the work of pushing development has been steadily pursued under the supervision of the consulting engineer, M. M. Johnson, and that the Idaho and Rawhide inines are now in a position to furnish the additional tonnage necessary when the new furnace at the smelter of the company goes into commission, thus doubling the output to 1200 or 1400 tons of ore daily. He also tells of the saving that will be made by the substitution of electricity for steam, shortly, the difference being at $30 per h. p. per annum is to $135, and resulting in an estimated saving of $100,000 per annum to the company in this one item alone. The new giant furnace referred to, said to be the largest ever erected in British Columbia, has been shipped from the manufacturers in the east, and will be installed as soon as it arrives. Its capacity is to be about 800 tons per day, and by reason of labor saving saving and other devices, it will make a saving of twenty per cent in fuel, or an estimated saving of $100 per day. A new contract for converting the matte, the president states, will reduce the cost of this work about 25 per cent.

For the eight months that the company's smelter has been in blast—part of the time with one furnace—from December, 31, 1905, to July 31, 1906, which has been largely a period of construction and development, 133,084 tons of ore were smelted, producing 3.220.89 tons of matte, having a total value of $640,128,97. The total operating cost, mining, smelting, marketing, etc., was $500,984.93, leaving a net profit for the eight months of $139,144.04.

President Miller also states that the results of the economics already introduced are beginning to be reflected in the company's earnings, the operations for the month of July producing earnings of $31,431.70. On this basis, the net profits of the present smelter for 12 months would exceed 300,000. As the new furnace will double the capacity of the plant and more, and with more economies yet to be put into effect, it is believed that the cost of producing copper can be reduced to not over eight cents per pound. The company has taken options on a number of claims in the district, and is now engaged in prospecting and exploring these properties, with a view to purchasing such as may prove valuable to the company.

Following in the balance sheet of the company, dated July 31, 1906:

NEWS OF THE CITY

A New Townsite Has Been Platted in Franklin Camp

Work Is to Be Carried on All Winter at the Gloucester Mine

Archie Chisholm, of this city, and James McDonald, of Eholt, have platted a new townsite in the northwestern portion of Franklin camp. The townsite is located about two and one-half miles from the Banner mine, in the vicinity of a group of claims owned by Capt. Rogers and Messrs. McDonald and Chisholm.

A new strike was recently made on the Gloucester mine, in Gloucester camp. The new find is about 500 feet farther up the mountain than the old workings, and greatly enhances the potential value of the mine. Work will be continued all winter at this property.

A. B. W. Hodges, general superintendent of the Granby Consolidated, will leave next Sunday on a business trip to Chicago, New York and other eastern cities. He will be accompanied by Mrs. Hodges, and will be absent from the city for about a month.

A. B. MacKenzie, of Rossland, secretary of the McKinley Mines, Ltd., was in the city yesterday conferring with Superintendent McPhee.

Hill and Minion have completed all their assessment work on their group of claims on Mineral Hill. The tunnel is now in 180 feet, and is in ore. The property is looking better than ever.

Hank Watlin is in charge of the development work now being carried on at the White Bear group on Gloucester mountain, and good reports continues to reach the city in reference to this property.

Next Thursday, October 18th, being Thanksgiving day, the Grand Forks postoffice will be closed all day. The general delivery wicket will be open for one hour, from 9 till 10 a.m.

James McArdle will leave in a day or two for the Okanagan and Similkameen districts, and will thoroughly investigate the prospects in those sections for a real live business man.

John Rogers went up to Franklin camp this week to inspect some properties for the Granby company.

A. Johnson, of this city, has opened a new hotel at Lynch creek.

J. Gorman, a well known mining man of Spokane, was a visitor in the city yesterday.

Joe Gelinas and Alex Oman are making preparations for the kokanee fishing season in Christina lake. They will use seines.

It is now pretty definitely settled that work will shortly be resumed on the Cariboo at Camp McKinney, at one time the great dividend payer of British Columbia. Up to the time of closing down, some five years ago, the Cariboo paid in dividends about half a million dollars.

At an early hour one morning this week, Frank Hartinger, who rises with the early birds, on steppihg outside was somewhat surprised to see a ladder, which had been raised against the side of his barn and placed so as to gain entrance to the loft Frank in dressing, hadn't neglected to put on his think-tank cap and he now set his mental faculties to work. That he hadn't placed the ladder against the barn he was positive. That he had imbibed nothing stronger than his own non-intoxicating beverage he was doubly positive. It was plain, then, that the ladder had been raised by the hands of a stranger, and of this he now felt certain as he thought he had heard on first stepping outside something that sounded like "skiddo." He was just on the point of making an exhaustive iuvestigation when the close-klipped head of an urchin suddenly protruded from the door at the top of the ladder—evidently some one over-anxious as to the clearness of the coast. Evidently the youngster thought, on sight of the husband and general manager, that the coast was anything but clear, and he hastily bobbed back into the loft. The idea of removing the ladder and so cut off a possible escape now occurred to Frank and this he promptly did. He then summoned the police and together they went up into the loft There they discovered a nice bunch of pigeons as well as a nice bunch of boys. The pigeons looked good to the boys, and that's why they had come. The boys looked good to Mr. Hartinger and the police, and thai's why they had come The moral to this is that every ladder does not lead to fame

Last week the first of the three furnaces now being built by the B. C. Copper company at the Greenwood smelter was blown in. A second furnace will be blown in in a few weeks. The capacity of each of these new furnaces is about 600 tons in 24 hours. During the past six months development has been pushed at the Mother Lode mine, preparing for this increased tonnage, and it is said that the mine will be able to supply ore for the three furnaces when running at their full capacity. The converter plant, which has been closed down for the past few weeks, is again in commission. The new smelter is modern in all its equipment, in ore bins, blowers and automatic furnace charging. In the event that the Mother Lode be insufficient in output to supply the new furnaces the company has the Emma and Oro Denoro in Summit camp, both large producers, to draw from.

Slag engine No. 1 at the Granby smelter became derailed Monday afternoon and toppled over the slag dump, a distance of about 80 feet. No one was injured.

Robert Walker, of the smelter force, returned yesterday from a trip to Vancouver and New Westminster.

Mrs. Emma Hyndman has moved her dressmaking parlors from the McGaw block to the white cottage across the bridge from the Yale hotel. She desires to thank all her old customers for their liberal patronage in the past, and would be pleased to meet them, as well as new ones, at her new quarters.

SOLD FOR $125,000

New York Syndicate Secure a Bond on the Maple Leaf Mine

M. M. Johnson Will Make an Examination of the Property Next Week

The biggest mining deal that has been consummated in this section for some time was closed this week, when the Maple Leaf mine, in Gloucester camp, was bonded to a New York syndicate for $125,000. A cash payment of $5000 has been made. The deal, with has been pending for a couple of months, was negotiated by W. C. Thomas, of the Dominion Copper company, during his recent visit to New York. It is understood that M. M. Johnson, of Salt Lake City, consulting engineer for the Dominion Copper company, will arrive in the city within a few days for the purpose of making examination of the property, and will finally determine upon the nature of the bond.

The Maple Leaf is owned by the Fee brothers, of this city. Last spring it was bonded for $60,000 to Geo. A. MacLeod and H. W. Warrington, who have carried on development all summer. By rebonding the property for $125,000, these gentlemen make quite a snug little fortune.

The mine continues to improve with development. The size of the big cut has been largely increased by stripping to the east, augmenting the visible ore body. A tunnel to tap the vein has been started 100 feet west of the open cut, and is now in about 25 feet. Bunches of copper and white iron ore have been encountered in the tunnel. The work is in charge of Al Stuart, of this city.

C. B. Dunster, of Marquette, Mich., mining expert for E. N. Breytong, the multi-millionaire, who controls large iron mines in Michigan and copper properties in Arizona and Mexico, left tor the coast on Wednesday to examine some properties. Mr. Dunster spent two or three weeks in Franklin camp examining the Maple the Maple Leaf mine, on which he reported favorably, and the Michigan people people would undoubtedly have purchased the property had not the New York syndicate got in ahead of them. Mr. Dunster has been with the Michigan millionaire for the past three years, and it is intimated that he may return here shortly to inspect other North Fork properiies.

The Athletic Association ball will be held in the opera house Thanksgiving evening, October 18th. Remember and reserve this date for the event. The opera house is being painted and decorated for the occasion, and every effort will be made to provide a tip-top evenings's pleasure. First-class orchestra music will be in attendance, and supper is to be served at the Windsor cafe at 50 cents per plate. Tickets for ball $1.00 each, to be had from members of the association, at the secretary's office, and also at Robert Petrie's and W. H. Itter's book stores. The object is a praiseworthy one, and there should be a large attendance.

The Sun—twice-a-week—$1 a year.

GENERAIONS OF GOOD TIME IN YOUR WATCH

FRICTION THE ENEMY

Therefore pivots are finely polished, jewels of ruby or sapphire, the oil carefully refined —all to reduce friction on such bearings. The balance revolves 432,000 times daily.

ASTOUNDING, ISN'T IT?

Yet if cleaned and oiled yearly a watch will run for generations: but if neglected it must, with much ceaseless toil, wear itself to ruin in accumulating dirt and corroding oil.

Let us examine it. An honest opinion from us will cost you nothing.

We guarantee prompt delivery of all repairs.

"What I have seen and learned of your fruit industry has inclined me to believe that rich as are the separate streams of wealth that flow from your minerals, your timber, and your fisheries, their joint and mighty volumes will be inferior to the stream of national wealth of domestic contentment, which is one day destined to grow from out of the orchards of British Columbia."

Thus spoke the governor-general at the opening of the New Westminster exhibition recently, and is, we believe, no idle prophecy.

CITY NEWS

The concert Wednesday night at the opera house, by the Philharmonic Concert company, given under the auspices of the local band association, was of a high order and pleased a fair-sized audience. Karl Reidelsberger, violinist, though not attempting the more difficult pieces, as executed by the well known Maximilian Dick and other virtuosos, possesses a rare talent for the tender and more dreamy class of music, more easily understood by the common folk, and his nnmber are therefore generally well appreciated by an audience. As a cornetist, Raymond Lehr is indeed a wonder for one of his age, and his work on the instrument of his choosing surpasses that of many of his seniors. His various numbers were deservedly well received. Also were the soprano solos by Fanny Ferguson higly appreciated. The band asssociation deserve the thanks of the citizens generally for their efforts in securing for them a concert of such merit.

A banquet will be tendered Geo A Fraser, M P P for Grand Forks, at the Yale hotel tomorrow evening by his many friends here. Mr. Fraser and family will leave next week for Victoria, where they will reside in future. Mr. Fraser will engage in the drug business in that city.

George Henderson and Neil Thomas made a trip to Phoenix this afternoon

Geo. B. Paul, purchasing agent for the British Columbia Copper company, has resigned and left last week for Spokane to take a position in the general offices of D. C. Corbin.

Don't forget the Anniversary supper and program on Tuesday evening next in the Methodist church. Supper from 5:30 to 8; program from 8 to 10.

It Does cure Womanly Ills

"I feel it my duty" writes Mrs. S Mead, of Fraserville, Ont., "to let you know that sometimes previous to the change of life I suffered more than I could tell. Neighbors told me Ferrozone was the only remedy and their advise was good. Ferrozone put a stop to my pain ank sickness, had a direct action on my troubles that relieved from the start. I safely passed the turn, and now enjoy perfect health and rest." Instant relief is found in Ferrozone for female weakness of every kind, 50c per box at all dealers

CHURCH SERVICES

METHODIST CHURCH—Anniversary services on Sunday next. Rev. Mr. Auvache will preach in the morning at 11 o'clock; Rev. Mr. McLeod will preach in the evening at 7:30. Special music. Everyhody invited. E. Manuel, pastor.

Good Corn Sheller for 25c

A marvel of efficiency and promptness, a remedy that does cure corns and warts. Its name is Putnam's Corn Extractor. Contains no acids, never pains, gives lasting satisfaction. Insist on Putnam's only. It's the best.

County Court

The October sitting of the county court, which convened in the court house Tuesday morning, his honor Judge Clement presiding, adjourned yesterday afternoon. The most important case that came before the court was that of Rex vs. Jones, for an alleged violation of the customs laws. This was an appeal from the decision of Stipendiary Magistrate Cochrane, who in May last fined defehdant Jones $100 and costs for entering a team of horses into the province at an undervalution. E. Miller appeared for the crown, and Macdonald & Whiteside for appellant.

Counsel for the crown raised the point that the appeal had not been properly lodged, and that therefore the appellant had no case before the court. This question was argued until adjournment Tuesday noon, when Judge Clement reserved his decision on this point and ordered a hearing of the case on its merits. The witnesses for the crown were E. A. McCauley, collector at the sub-port at Carson; R. R. Gilpin, collector of customs at the port of Grand Forks; David S. Tamblyn, veterinary surgeon; Inspector of Customs John S. Clute, of New Westminster, and Wm Wiseman. The evidence adduced was practically the same as that given before Magistrate Cochrane. The last-named witness, on cross-examination, admitted that the horses were wild and vicious. The witnesses for appellant were Irvin Ballew, Wm. Steele, Bernard Lequime, James Seale and J. W. Jones. There was no material difference in the testimony of these witnesses from that given before Magistrate Cochrane. At the conclusion of the case, Wednesday evening, his honor sustained the decision of Judge Cochrane, and dismissed the appeal with costs. The point raised by the counsel for the crown, that the appeal had not been properly lodged, was also sustained.

The following cases completed the docket:

International Harvesting company, of America vs. Gustaf Larsen; stands over till next court. H. C. Hanington for plaintiffs.

Justin C. Sears vs. Fred B. Lane; judgment confessed. W. B. Cochrane for plaintiff

M. M. Kerman and H. B. Cannon vs. Geo. A. MacLeod; stands over till next session to allow summoning of directions to be served on B. C. Copper company as third party. H. C. Hannington for plaintiffs

Royal Bank of Canada vs. Peter. McRae; judgment reserved. H. C. Hanington for plaintiffs.

NOTICE

Notice is hereby given that I have secured a Bill-poster's license in the City of Grand Forks, whereby I will hereafter have exclusive control of the bill-posting, poster-advertising and the distribution of circulars within the limits of said city. I have the only license in the city for this class of work, and warn all parties to refrain from infringing on my legal rights. All work carefully and promptly-attended to.

JOSEPH SCHNAVELY.

H. C. Watson opened his new barber shop in the Windsor building this week, and is now in a position to trim your locks, remove that stubble beard, and in short make you look like a new man. Mr. Watson has a very neat shop, and as he is in every way a practical barber will no doubt meet with success.

Many Children Sick

Get their feet wet, catch cold or cramps, and give mothers an anxious time. With the first shiver or sneeze rub the little one's chest with Nerviline, gargle the throat, and give ten in hot water at bedtime. Next morning all is well. No cold, no time lost at school. If Polson's Nerviline isn't in your home get it there at once. Dealers sell it in large 25c bottles.

WANTED—Tie makers; 12c for 7.6 ties. Apply G. L. Woodard, Grand Forks, or Kettle Valley line grade, 12 miles north of city.

The Lion Bottling Works have cut their price on all case and draught wines and liquors.

Get your wedding invitations printed at The Sun office. We have the closest script type imitation of a steel engraving made.

Three quart bottles of Nelson beer for 50c at the Lion Bottling Works.

LIQUID VENEER

MAKES OLD THINGS NEW

IT ALSO keeps them new. There will be no old, dull looking furniture or dingy woodwork in homes where this wonder-worker is used. No refinishing or revarnishing necessary. Liquid Veneer is not a varnish, but a surface food and cleaner that builds up the original finish and makes it brighter than ever.

It instantly restores the brilliant newness and finish of Pianos, Furniture, Picture Frames, Interior Woodwork, Hardwood Floors and all polished, varnished or enameled surfaces. Removes scratches, stains, dirt and dullness.

A child can apply it. Nothing but a piece of cheese cloth is needed and there is no drying to wait for.

AS YOU LIKE IT

A smile costs nothing, but is worth a whole lot.

You always get full measure when you acquire trouble.

The man who gets around can generally keep square.

Some one has discovered that a real estate agent makes an apt newspaper circulation liar.

"When I grow big," mused the precocious youngster, "I want to be an editor of a country paper, because then I can print my name under everything I write."

An Irishman called at this office a few days ago and after running down Uncle Sam, finally gave the following definition of a Yankee: "Begorra! if he was wrecked on a desolate oiland, he'd be up next mornin' before anybody sellin' maps to the inhabitants!"

The man who soars in the dizzy heights of an undying love and imagines that all he has to do is to marry and live on it will find himself in the same position as the one who thinks he can subsist on the ozone of the summit of Observation moutain—he has to come down after a bit and hustle up some grub.

A promising young man recently presented his better half with a handsome piano lamp on her birthday. He was flattered when she told him that she intended to give it his name, until he asked her reason for so peculiar a proceeding. "Well," she said, "you know, dear, that it has a good deal of brass about it; it is real handsome to look at; it requires a good deal of attention; it is remarkably brilliant; it is sometimes unsteady on its feet, liable to explode when only half full, flares up occasionally, is always out about bedtime, and it is always bound to smoke."

It Actully Destroys the Cause

That's why catarrh is invariably cured by inhaling Catarrhozone. The healing vapor spreads to every part of the breathing organs. Germs infecting the tissues of the nose, throat and lungs are killed. Nothing is left to cause inflamation. Spots that are sore are healed. Discharge is cleared away and catarrh becomes something of the past. Use Catarrhozone and your recovery is guaranteed. Two sizes, 25c and 1.00, at all dealers.

TOPICS OF THE TOWN

BICYCLES AND REPAIR WORK—A complete line of 1906 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

The Lion Bottling Works are selling Gooderham & Wort's Rye Whiskey, the best rye whiskey in Canada, for $3.00 per gallon.

For a nice hair cut or shave go to the City Barber Shop on Bridge street. Baths 50c, three for $1.00.

FOR SALE at a Bargain—Five-acre fruit ranch, 75 5 year old trees; 7-room house; good barn and well; price $2000. For further particulars call at The Sun office.

SNAP—nine room house in the North addition for sale at a bargain; terms. Inquire of Geo. Pound or at The Sun office.

A Cordial Invitation to Disease

This is an apt description of constipation. It's an unnatural condition to begin with, and it's more, because it brings about blood deterioation, interferes with digestion, renders you susceptible to infectious diseases and causes anaemia. Not so much a purgative as a natural stimulant to the bowels is what you need. You get it in Dr. Hamilton's Pills which increase liver activity, restore the bowels to perfect action and positively cure constipation and its attendant evils. Insist on having only Dr. Hamilton's Pills of Mandrake and Butternut, 25c per box at all dealers.
