COUNCIL MEETING

The regular bi-weekly meeting of the city council was held in the council chamber Tuesday evening, Mayor Hammar, Ald. Hardy, Horner, McCallum, McIntosh and Woodland being present.

The resignation of John Donaldson as alderman from the East ward was read. On motion it was accepted and the office declared vacant.

A communication from M. S. Martin requested the city to give him title to a lot he purchased at the tax sale a year ago, or to rofund the money with interest. The matter was referred to the city solicitor.

The power question was discussed at length, The special committee appointed to draft an agreement with the West Kootenay Power & Light company stated that they had not yet done so, as they had been unable to see Manager Campbell, and did not know what terms the company expected. The mayor stated that Mr. Campbell had informed him that if the city installed the necessary transformers a contract would be unnecessary, as payment could be made from month to month the same as in any other business transaction. Mr. Hammar, however, believed that a contract would protect both parties to the agreement, and in this opinion he was supported by the aldermen. They favored a three or five years' contract. During the debate it developed that the price quoted for power by the Kootenay company was about 30 per cent below the present price paid by the city. The question of installing a metre system was also broached. The clerk stated that it would cost between $3000 and $4000 to install metres. Ald. Woodland, of the special committee, desired a sample contract from the company in order to give the committee something to work on. On motion, the council decided that in the event a contract was not received from the company prior to the mayor's visit to Rossland, he was authorized to arrange one with Mr. Campbell.

The mayor stated that he had been requested by the manager for the Yale-Columbia Lumber company to ascertain what compensation the council expected for the damage done to the First street bridge by the company's log drivers. The council could not form an off-hand estimate as to the amount of the damage done, nor what it would cost to repair the bridge, and the matter was left to the board of works, to report this Friday evening. Some of the aldermen seemed to think that an up-to-date foot bridge would satisfy the city. The city solicitor stated that the fact that the old bridge had been condemned did not release the Yale-Columbia company from liability for damages.

The city solicitor reported that Mrs. Wiseman had accepted the offer made by the council two weeks ago for right of way over her property for the city pole line. On motion, the council ordered the payment of $50 to Mrs. Wiseman, and the city solicitor was instructed to draw up an agreement for the right of way.

On motion of Ald. Woodland, the council decided to hold the nomination for an alderman in the East ward, to fill the vacancy caused by the resignation of Ald. Donaldson. on Tuesday, July 9th. The poll, if required, will be taken on Friday, the 12th inst. The city clerk was ap pointed returning officer.

Ald. McCallum said complaints had been made to him about the obnoxious weeds growing on the edges of some of the streets, and the board of works was authorized to employ a couple of men to cut them down be they went to seed.

Mayor Hammar stated that he had decided to withdraw his resignation for the present at least.

The council then adjourned to a separate session this Friday evening.

STREET CORNER GOSSIP

Postmaster Hull told a good story the other night while the light were out of commission at the postoffice, thus enabling him to take a few minutes' enforced vacation. Last spring he imported, for his Fifth street ranch, about five hundred strawberry plants, of new and choice varieties. The day the plants arrived here Mr. Hull had occasion to leave the city for a few days, and he was compelled to entrust the planting of the plants to his hired Chinaman. Time sped on, but the new plants did not appear to thrive. On investigation Mr. Hull discovered that the Chinaman had set them out upside down. Only fifty of the five hundred decided to turn around and grow on this side of the earth. The balance will probably bear an abundant crop at the Chinaman's old home in Pekin next season.

A strange anatomical phenomenon was brought to light last Monday. Sunday afternoon some young men killed a rattlesnake across the river. They measured it, and found it lacked one inch of being four feet long. Monday morning, after being dead fifteen hours, the snake had grown to six feet, and by Monday noon its length had increased to eight feet. It is still expanding in size in every direction. This is supposed to be first case on record where the death of a reptile did not stop its growth.

The high srhool examinations this week have a tendency to keep the participants out of mischief.

One of the most exciting events of the Dominion day celebration was the mile automobile race between A. B. W. Hodges' and Wake Williams' machines. Mr. Williams' machine won by half a headlight, having been allowed a quarter of a mile h ndicap.

John Houston, the veteran Nelson journalist and politician, who has spent the past two or three years in Goldfield, Nev., has shipped a printing plant from Victoria to Prince Rupert, and will soon commence the publication of a newspaper in the future metropolis of the North Pacific. The chances of John bobbing up serenely once more in provincial politics are good.

W. J. Brown, the orchard land dealer, will leave today for a three or four weeks' business trip to Winnipeg.

The only aldermanic candidate mentioned up to the present is Postmaster Hull.

A large number of citizens followed the Grand Forks band to Republic yesterday to assist the Yankees in celebrating the Fouth. They report having had a good time.

OLD TIMERS PICNIC

The first picnic held under the auspices of the old-timers of Grand Forks proved a brilliant success. It is estimated that fully 800 people were in attendance, and all expressed themselves as perfectly satisfied with the amusement provided. The grove near Ward's lake is an ideal picnic ground, and with a little more improvement, it will make a convenient place for parties desiring to take a day's outing in the country. A substantial covered dancing pavilion has been erected, and on Monday last the young folks indulged in this recreation from 12 o'clock noon until midnight. Mr. and Mrs. Painton and Mr. Topp furnished excellent music for the dancers, which was highly appreciated by those who tripped the light fantastic. The Grand Forks band was also in attendance, the members making their first public appearance in their new uniforms. They rendered some excellent selections, and did much to keep the big crowd in perpetual good humor.

The sporting events resulted as follows:

Race, boys under 12 years of age—H. Sloan first, R. Gilmour second, G. Galloway third.

Boys' race, under 8 years of age—V. Gilmour first, Horace Walker second, R. Gilmour third.

Boys' race, under 16 years of age—J. O'Connor first, H. Sloan second.

Sack race—V. Gilmour first, S. Simmons second.

The prizes in all of the above races were: $2 for first, $1 for second and 50 cents for third.

Men's race—Archie Murray first, $5.00; Mr. Almas second, $2.50.

The greasy pole climbing contest was won by S. Simmons; prize, umbrella, donated by D. D. Munro.

The half-mile boat race was won by Mike Tompkins, who rowed a canvas canoe. Time, 7 min., 28 sec. Prize, $5.00.

Mr. and Mrs. Wm. Madill were awarded the prize—a lady's knife, donated by T. McIntyre—for being the best waltzers on the floor.

The cake resulted in a tie between Mrs. Jas. Sweezy and A. B. McKenzie, the cake being divided between the two.

Mr. R. A. Brown delievered one of his characteristic optimistic speeches, in which he took occasion to say that the very things he had predicted, twenty-five years ago, for this district were now transpiring. The people then called him crazy for making these rash predictions, and now they said he was visionary for predicting greater achievements for the future. He drew attention to the present prosperity in the Boundary, the high wages paid to workmingmen, and the contentment of the people generally. Mr. Brown said the mining industry in this section was still in its infancy, and with the establishment of additional and larger smelters, new mines would be opened up in every direction. Although he was advanced in years, he expected to see Grand Forks a great city before he passed over the great divide.

The size of the crowd at the grounds can easily be realized when it is said that all refreshments were sold out at 5 o'clock in the afternoon.

The promoters of the picnic have requested The Sun to thank the citizens for donation of prizes, and attendance and liberal patronage.

PUBLIC SCHOOL REPORT

Following is the report of the Grand Forks public school for the month of June:

	Enrolled.	Attendance.	Average.	Per Cent Regul'ty
Division 1..	18	343½	17.17	95.39
Division 2..	34	620	31.00	91.00
Division 3..	31	561½	28.07	90.55
Division 4..	35	574	28.70	84.00
Division 5..	38	590½	29.52	77.65
Division 6..	42	677	33.85	80.59
Division 7..	37	545	27.25	73.65
Division 8..	19	256½	12.87	67.73
Totals....	254	4169	208.43	82.06
1906.....	241	3632	201.39	83.56
Difference..	13	537	7.04	1.50

Result of Eastern Townships bank medal competion:

Name.	Marks.	Rank
Carleton Clement	684	1
Athol Ployart	630	2
Maude Wooster.....	623	3
Edna Stuart	598	4
Lloyd Manly	529	5
Floyd Herr.....	477	6
Verna Miller	467	7
George Gilmour	454	8

W. H. M. May, Principal.

CUSTOMS RECEIPTS

R. R. Gilpin, customs officer at this port, makes the following detailed report of the customs receipts at the various sub-customs offices, as reported to the chief office in this city, for the month of June:

Grand Forks.....	$2,726.28
Phoenix.....	2,087.19
Cascade.....	137.38
Carson	92.74
Total.....	$5,022.45

Mining Stock Quotations

New York, July 3.—The following are today's opening quotations for the stock mentioned:

	Asked.	Bid
Granby.....	130.00	122.50
Dominion Copper.....	6.00	5.75
B. C. Copper.....	9.00	8.75

Metal Quotations

New York, July 3.—Silver, 67⅜; lead, $5.25; electrolytic copper, 22@22½; casting copper, 21¾.

London, July 3—Lead, £20 15s; silver, 31.

About $20,000, or all the surplus from the last Spokane Interstate Fair, is being expended for permanent improvements. A large addition to the grandstand has been built, so that there will now be seating capacity for almost 10,000 people. A wide, well-graded boulevard has been put in from the team entrance to the grandstand, and more than 100 trees have been set out in different parts on the grounds. In order to provide space for the vehicle and machinery exhibits, which are planned for this year, about 10 acres more have been fenced in at the west end of the grounds. Another change made necessary by the increased crowds each year is the enlargement of the entrances. It has been found necessary to rebuild all the entrance gates this year and make them about twice as large as heretofore. Another improvement which will prove very popular is a large, convenient rest room for women. This will have all toilet conveniences and be heated, and will no doubt prove very convenient.

The Misses Johnson are spending their vacation at the home of their brother, J. K. Johnson, in this city.

NEWS OF THE CITY

The Granby smelter is hav ng a most successful run at present. Although only seven furnaces are in blast, more ore is being treated than when the entire battary of eight furnaces was in operation.

There was scarcely enough of the entertainment given by the Moore Concert company Monday to furnish material for an extended criticism. The musical numbers rendered were good, and were enthusiastically received by the audience. The moving picture part of the program was the same all other enterments of this nature. This class of amusement is getting rather antiquated, and is only fit for school children and the inhabitants of hamlets. Those who remained for the dance after the per ormance speak in the highest terms of praise of that function.

The No. furnace was blown in at the Boundary Falls smelter last Monday, making the full battery of three furnaces now in blast.

It is expected that the contractors, Wall & Creelman, will complete the Kettle Valley line bridge over the North Forth at Eagle City by the 15th inst., when tracklaying will be resumed to Lynch creek.

The foundation for the Kettle Valley line depot on Third street has been finished, and work on the building has been started.

The Dandy Dixie Minstrel company drew a good audience at the opera house last night. The performance was up to the standard of this class of shows, and pleased the audience.

Mrs. J. C. Taylor will receive on Wednesday, July 10th, from 3 to 6 o'clock, and afterwards on the first and third Thursday of each month.

Mayor H. Bunting, of Greenwood, has turned out the first blocks with new cement block machine. He will erect a cement block building for the Greenwood City Waterworks company at the power station at Boundary Falls.

Mr. Hoadley, of the Grand Forks public school staff of instructors, has severed his connection with the school and intends to engage in business at some point on the coast,

Born—In Grand Forks, on Tuesday, July 2nd, to Mr. and Mrs. J. A. McCallum, a daughter.

Miss Bruce, of the public school staff of teachers, left on Tuesday for her home in Calgary, where she will spend her vacation.

Joseph Taylor, aged 66 years, a pioneer of the Boundary district, died at the Phoenix general hospital last Friday evening. Deceased came to this country in 1889, and the ffrst winter lived in a tent in Wellington camp. He located some of the big properties in Greenwood camp—now Phoenix—among them the Stemwinder, which he allowed to lapse. He was associated with George W. Rumberger in a number of claims in Greenwood and Wellington camps. Although he made considerable money, he was too free hearted to keep it, and died comparatively poor.

The Misses Isabel and Olive Henderson returned to the city today from Chilliwack, and are visiting with their parents. The former has been teaching school at Chilliwack, while the latter is bookkeeper in a store at that place.

The first number of Endicott, Wash., Index, published by Manford Evans, recently connected with The Sun staff, has been received. The paper is all right.

UNION LABEL

FRIDAY, JULY 5, 1907

The business of the country proceeds smoothly, although a number of the federal cabinet ministers are absent from Ottawa. This throws more work upon those who remain, but no complaint is made that the public business is being neglected—nothing is said derogatory to the government, outside of a certain portion of the opposition press. The people of Canada are proceeding with the business of working out their destiny. The government is doing everything to assist the individal, so that he may make the most of the happy circumstance that he lives in Canada. Laws are provided and efficiently enforced, protection is given to life and property, and individual liberty is not curtailed; therefore the people are contented and prospering. The Conservatives in a few instances have endeavored to stir up trouble and embroil the people and create political differences, but since they confine themselves to calumny and personal abuse, and since this campaign is in the hands of George E. Foster, and since Mr. Foster has been adjudged guilty of the very things he charges against others, such differences are purely local in their character and have no effect whatever upon the people as a whole. Good government makes a happy and contented people; wise laws judiciously administered make a prosperous community. Both these advantages are enjoyed by the residents of this dominion to a marked degree, and the result is seen upon every side. The people are happy, the merchants are doing good business, the transportation companies are carrying up to their capacity, manufacturers are increasing their output, the revenues of the country are ever on the increase, the crop outlook is encouraging, and the Conservatives are disgruntled, dismayed, ambitious, and envious of the administration, and anxious to reap the reward of the labors of their opponents. When there is need of a change of government the people will know and act accordingly. At the present they are too busy taking advontage of the good times with which Canada is blessed.

The latest charge against Sir Wilfrid Laurier's government is, that all the conductors on the Intercolonial are Liberals, and that while passes have been abolished, these conduetors can at sight distinguish a Liberal from a Conservative, and the former is allowed to ride free wile the latter is made to pay. It is twaddle such as this that is made to take the place of policy with the men who seek to regain control of the government, so that transactions such as the Curran bridge, and Pacific scandals may be repeated. The people of Canada have more intelligence than they are credited with by the Conservatives. Better reasons than those adduced must be presented before the electors exchange the prosperity they have for the uncertain and unsettled condition of affairs which would obtain if Canada were governed by a cabinet in which Geo. E. Foster, the man who took commissions and take-off would be a prominent member.

The American papers are doing a great deal of loud talking because Mark Twain, the venerable humorist, has been received by King Edward and Queen Alexandra. Here in Grand Forks it is a common sight to see even the laboring men play with kings and queens; in fact this pastime is so generally indulged in that the event seldom provokes a royal flush.

The first number of the Westward Ho! Magazine, published at Vancouver by the Westward Ho! Publishing company, has been received. Percy F. Godenrath, well known in the Boundary, is business manager, and William Blakemore editor in chief. The magazine is of standard size, and contains forty pages of choice reading matter and fine illustrations. It is a credit to the publishers, as well as to the province.

There has been much talk about an early election. It may be stated with confidence that until the return of Sir Wilfrid Laurier nothing of a definite character will be known or can be stated. Many rumors are current, but they are not backed by anything in the nature of authority.

TOPICS OF THE TOWN

Mrs. Thos. Duffy and son Martin on Tuesday, July 2nd, killed a rattlesnake measnring 4 feet 7 inches in length and built in proportion. The serpant was in the garden, among the berry bushes, and it gave her and all the children a fright they will remember for some time.

Geo. Clark and bride, nee Miss Campbell, have returned from their wedding tour, and have taken up housekeeping at their residenoe on Winnipeg avenue.

E. W. Barrett and L. D. Chesman, the New Westminster real estate dealers, are spending a week in the city. Attention is directed to their advertisement on the fourth page.

Mr. Allen, of Grand Rapids, Mich., has been visiting his son, Joe Allen, in this city during the present week.

Norman McLellan left for his home in Vancouver last Sunday morning.

L. A. Manly returned last Sunday from a business trip to Spokane.

A Big Increase

Few people have any idea of the remarkeble increase in the amount of money given away each year in prizes by the Spokane Interstate Fair. In 1901 the total prize list did not amount to more than $5000 outside of the race courses, while this year the prize list, exclusive of race money, amounts to a little more than $15,000. There is no reason why the ranchers in this district should not claim a part of this sum of money, and they can do so easily if they will enter their products. No section of the entire Northwest raises better fruit, grain or live stock.

The increase in the fruit and grain prizes is particularly noticeable, and if the ranchers of this section would pay more attention to exhibiting grain and making a more careful selection of seed grain, we believe it would result in a great increase not only in the quality of the crop, but of the quantity.

Full information in regard to the prizes offered by the Spokane Interstate Fair, and also the race program for 1907, is contained in a 112-page book, which has just been published. This will be mailed entirely free of charge on request to R. H. Cosgrove, Secretary, 310 Lindelle Block, Spokane, Wash.

When That Cold Comes

How is it to be cured? This method is simplicity itself. Rub the chest and throat well with Nerviline, use it as a gargle and take some in hot water before retiring along with one of Dr. Hamilton's Pills. Next morning finds you refreshed, free from cold and bright as a dollar. These household remedies are wonderfully successful, and certainly won't fail in your case. For sale at all dealers

CHURCH SERVICES

KNOX PRESBYTERIAN CHURCH—Sabbath services at 11 a.m. and 7 p.m.; Sabbath school and Bible class at 2:30 p.m.; Young People's Society of Christian Endeavor, Monday, 7:30 p.m. All are cordially invited; seats free.

METHODIST CHURCH, Rev. Schlichter, B.A.—Services next Sunday at 11 a. m. and 7:30 p.m.; Sunday school and Bible class at 2:30 p.m. All are welcome.

BAPTIST CHURCH, Rev. F. W. Auvache, pastor.—Services on Sunday at 11 a. m. and 7:30 p. m.; Sunday school and Bible class at 3 p.m.

BICYCLES AND REPAIR WORK—A complete line of 1907 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

The Lion Bottling Works have cut their price on all case and draught wines and liquors.

If an industrial establishment is not kept up to date it rapidly degenerates into a "junk shop." To guard against this, The Sun job office is constantly being augmented with the latest fashions in type and other material.

FORM NO. 13, LAND ACT

Similkameen Land District, West Kootenay District.

TAKE NOTICE, that W. K. Esling, of Rossland, B. C., by occupation a publisher, intends to apply for a special timber license over the following described lands:

Location No. 1—Commencing at a post planted about three miles south and about 140 chains east of the southwest corner of lot 2706, *Osoyoos Division of Yale District*, being also at the location posts of the Webster timber locations; thence west 80 chains, thence south 80 chains, thence east 80 chains, thence north 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 1st, 1907.

Location No. 2—Commencing at a post planted about 40 chains south of the southeast corner of Location No. 1; thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 1, 1907.

Location No. 3—Commencing at a post planted about a mile south of the northwest corner of Location No. 1; thence south 40 chains, thence east 80 chains, thence south 40 chains, thence west 120 chains, thence north 80 chains, thence east 40 chains to the point of commencement, and containing 640 acres, more or less.
Date May 1, 1907.

Location No. 4—Commencing at a post planted at or a short distance west of the southeast corner of Location No. 2; thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 5—Commencing at a post planted at the same place as the location post of Location No. 4; thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the place of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 6—Commencing at a post planted one mile south or southerly from the southeast corner of Location No. 3; thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 7—Commencing at a post planted at the southwest corner of Location No. 4; thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to place of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 8—Commencing at a post planted at the northwest corner of Location No. 7; thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 9—Commencing at a post planted at the northwest corner of Location No. 8; thence south 80 chains thence west 80 chains, thence north 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

WILLIAM KEMBLE ESLING.
J. D. ANDERSON, Agent.

LAND ACT

Similkameen Division of Yale District, Yale Land District.

TAKE NOTICE that Joseph Wiseman, of the City of Grand Forks, in the Province of British Columbia, farmer, intends to apply for special timber licenses over the following described lands, all situate in the Similkameen Division of Yale District, Province of British Columbia, namely:

No. 1. Commencing at a post marked "Joe Wiseman's southwest corner," planted on the east bank of the West Fork of the North Fork of Kettle River, about forty-one miles north from the junction of the East and West *Forks of the North Fork of Kettle* River; thence north along the said bank 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains to point of commencement, containing 640 acres.
Located the 11th day of May, 1907.
JOE WISEMAN, Locator.

No. 2. Commencing at a post marked "Joe Wiseman's southwest corner," planted on the bank of the said West Fork, about half a mile north from the northeast corner of the afore-described Location No. 1; thence 160 chains east, thence 40 chains south, thence 160 chains west, thence 40 chains north to the point of commencement, containing 640 acres.
Located the 11th day of May, 1907.
JOE WISEMAN, Locator.

No. 3. Commencing at a post marked "Joe Wiseman's southeast corner," planted on the bank of the said West Fork, about three miles north from the afore-described Location No. 2; thence north along the said West Fork 40 chains, thence 160 chains east, thence 40 chains south, thence 160 chains west to the point of commencement, containing 640 acres.
Located the 14th day of May, 1907.
JOE WISEMAN, Locator.

No. 4. Commencing at a post marked "Joe Wiseman's southeast corner," planted on the west bank of the said West Fork, about three miles north from the afore-described Location No. 3; thence 160 chains north, thence 40 chains west, thence 160 chains south, thence 40 chains east to point of commencement, containing 640 acres.
Located the 15th day of May, 1907.
JOE WISEMAN, Locator.
Dated this 1st day of June, 1907.
JOSEPH WISEMAN, Applicant.

NOTICE

"Black Eye No. 1" mineral claim, situate in the Grand Forks Mining Division of Yale District.

Where located: In Brown's camp.

TAKE NOTICE that I, Peter T. McCallum, acting as agent for Neil McCallum, Free Miner's Certificate No. B10584, and Donald Morrison, Free Miner's Certificate No. B10580, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 87, must be commenced before the issuance of such Certificate of Improvements.

Dated this 8th day of June, A.D. 1907.

PETER T. McCALLUM.

NOTICE

NOTICE is hereby given that sixty days after date hereof I intend to apply to the Honourable Chief Commissioner of Lands and Works for the right to purchase the following described lands on the North Fork of Kettle River, that is to say: Commencing at a post planted at southeast corner of R. D. Jones' land pre-emption; thence 80 chains north; thence 40 chains west; thence 80 chains south; thence 40 chains east to place of beginning, containing 320 acres, more or less.

Dated at Grand Forks this 5th day of April, A. D. 1907.

M. D. WHITE.

NOTICE

NOTICE is hereby given that sixty days after date hereof I intend to apply to the Honourable Chief Commissioner of Lands and Works for the right to purchase the following described lands on the North Fork of Kettle River, that is to say: Commencing at a post planted at the North East corner of R. D. Jones' old land pre-emption; thence 40 chains north; thence west 80 chains; thence south 40 chains; thence east 80 chains to point of commencement, containing 320 acres, more or less.

Dated at Grand Forks this 12th day of April, 1907.

H. P. WHITE.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any person who is the head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1.00 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined

W. W. CORY,

Deputy of the Minister of the Interior.

Granby Will Be Enlarged

Jay P. Graves, general manager of the Granby Consolidated, in a recent interview in Spokane, stated that "it is planned to increase the mining and smelting capacity of the Granby 1000 tons daily. The plans are now under way, and some of the work is being done. It will require about a year to complete the improvements and additions. The maximum smelting capacity, when completed, will be about 4500 tons daily."

It has been known for some time, says the Phoenix Pioneer, that another increase at the Granby smelter was in contemplation by the management, but this is the first official announcement of the fact that has been made.

A. B. W. Hodges, local manager of the company, was asked regarding the enlargement by the Pioneer this week. He stated that it wonld not be necessary to enlarge the present smelter buildings materially, as far as the battery of furnaces is concerned, but that each of the present eight furnaces would be given greater capacity by being lengthened, for which there is still room in the immense furnace room.

It may not be generally understood but it is well known in Phoenix that the Granby mines are even now capable of supplying the tonnage required by the intended smelter enlargement. In fact, it has always been a question of making the smelter large enough to take care of the ore that the mines were capable of producing.

Last week closed the most successful year that the Granby has yet had, the year of the company ending with June 30th of each Calendar year. And this is a fact, notwithstanding the further fact there have been more difficulties to overcome in the way of coke and car shortage than ever before, and that the smelter was idle almost entirely during the month of May. With these troubles now entirely overcome and everything moving smoothly at both mines and smelter, the fiscal year just beginning should be even better than the one that has just ended.

When the Granby is able to handle regularly 4500 tons of ore daily at the smelter, it will mean 135,000 tons monthly, or 1,590,000 tons per annum. Figuring on a basis of 25 lbs. of copper recovered per ton of ore, this would give just under 40,000,000 pounds of fine copper per annum.

Proved After Fifty Years

The test of time has proved that Putnam's Corn Extractor cures quicker, with discomfort and more thoroughly than anything else. Contains no acids, is purely vegetable and absolutely guaranteed. Insist on Putnam's only—it's the best.

AUCTION SALE

At the First Street Jewelry Store, Opposite Postoffice

Mr. P. T. McCallum has received instructions from Mr. Hartley to submit to public auction on Saturday, July 13th, the greater part of his jewelry stock, consisting of about 60 Watches—Waltham, Elgin and Seth Thomas movements, in gold filled, silver and nickel cases; 8-day striking clocks, fancy timepieces, silver-plated ware, several dozens ladies' and gent's solid gold and gem-set rings, gold-filled chains, necklets, etc., field glasses, magnifiers, optical goods, brooch pins, cuff buttons and other articles too nnmerous to mention. The goods can be inspected and bid for privately any time prior to the sale. Auction commences at 3 o'clock sharp.

Advertise in The Sun—the paper that most people reads.

Hard Case to Overcome

No longer necessary to suffer from muscular rheumatism. Every case can be cured. Ferrozone is unfailing, as proved by David Johnston of Ormond, Ont. "My wife was a dreadful sufferer," he writes. "For two years she could scarcely do any work. Her knuckles and joints swelled, causing torture. To get up or down stairs was impossible. She took box after box of Ferrozone and rubbed the sore places with Nerviline. Improvement started and she mended fast. Today she is quite cured and we thank Ferrozone for her recovery." No remedy more popular with doctors than Ferrozone; it does cure. 50c per box at all dealers.
