POWER SHORTAGE

Hence Only One of the New Furnaces Is in Blast at the Granby

Relief Expected From Bonnington Falls About November 1st

On Friday last one of the two new and larger furnaces recently installed at the Granby smelter was blown in. This was only done, however, by allowing one of the six old blast furnaces to go cold, as there is a shortage of power at present. The difference in size of the furnaces gives somewhat of an increase of the total capacity of the works, which is now nearly 2000 tons daily, as against about 1800 tons with the six furnaces of smaller size. The only reason for not having all eight furnaces in blast now is the lack of power. Recent rains have not materially raised the water in the rivers of the Boundary, and no relief is looked for till Bonnington Falls is able to deliver electrical energy to the smelter, and the earliest date that this can be figured on now is about the 1st of November, which, even then, will be before the high tension power lines are entirely completed, and before the addition to the hydroelectrical works at Bonnington Falls.

Granby Consolidated shares are now quoted at $7.62½ on the Boston stock exchange.

The B. C. Copper company has discontinued work on the Sunset mine in the Similkameen, and will prospect some of the other claims of the group, near Princeton. A diamond drill is being installed at the Sunset.

The boilers at the Granby mines are being concentrated and reinstalled just above the barn of the company, where they will be kept in readiness for an emergency, with a supply of coal handy.

A couple of cars of ore were again shipped by the Skylark last week—one high grade to Nelson and one second grade to the Granby smelter.

At the sitting of the tariff commission in Greenwood last week the three largest mining companies in the Boundary had prepared a memorial for the commissioners, and testimony was taken on the subjects presented. The petitioners are the Granby Consolidated, the British Columbia Copper company and the Dominion Copper company. Briefly the petition asked the following: Removing the duty of 3 cents per pound on explosives; reducing the duty on structural iron from 35 per cent to 20 per cent; removing the duty of 5 per cent on bar steel; reducing the 25 per cent duty on mining candles half; reducing the duty on rubber hose from 35 per cent to 20 per cent; reducing the duty on iron pipe from 35 per cent to 25 per cent; removing the duty of 25 per cent on rough and 30 per cent on finished steel castings; removing the duty of $7 per ton on steel rails when used for mining and smelting purposes; placing on the machinery free list blast furnace slag trucks, to be hauled by mechanical power, and admitting free blast furnaces complete, also to place repair parts for machinery on the free list; opposing duty on rough lumber.

Evidently the Colonial Mining News, of London, England, is not familiar with the power question in the Boundary, The following taken from a recent issue will be read with a great deal of amusement by mining men in this district: Mr. Oliver Wethered one of the managing directors of the West Australia Gold Fields, Ltd., is leaving London shortly for British Columbia. Owing to the growth of the mining industry in the Boundary district, there is a very large demand for electrical power and Mr Wethered is going out to consult with American experts as to the Kettle River Power Company—in which the West Australian Gold Fields is largely interested—putting up additional electrical power and extending their dams and probably erecting supplemental steam power, a course which is strongly recommended by Messrs. J. G. White & Co., the electrical engineers of London and New York. The Kettle River Power company is already making substantial profits with its present plant. but the demand for power is so great that the Bonnington company—150 miles off---are endeavoring to obtain leave to put in a transmission line to supply the additional power needed in the Boundary district, which naturally belongs to the Kettle river company, but this intention will be effectually blocked by the proposed increase of the Kettle River plant.

Alex McDonald is doing development work on his Big Four group, on the Eholt wagon road.

Work has been discontinued on the E. P. U. mine near Greenwood, to admit making of necessary repairs to the machinery.

The Granby company is doing some prospecting on the Monte group, north of Phoenix, being the group acquired from James Marshall and Thos. Roderick.

SUNSET SAUNTERINGS

Some attention is being given to the question of the British Columbia lieutenant-governorship, which will be vacant next month. George Riley, M. P., of Victoria, appears to be the most likely man for the position. but "Big Bill" Galliher is also suggests for the job. An Ottawa paper remarks: "While the government is casting about for a likely man to succeed Sir Henri Joly as lieutenant-governor of British Columbia, it shouldn't overlook one William Alfred Galliher. Of course there is Mr. Riley they speak of so highly; but his claims don't outweigh those of Mr. Galliher, and as a man look the part he isn't in it with the member for Kootenay."

Tuesday, October 10, will be British Columbia day at the Spokane Interstate fair. A big excursion, with a single fare for the round trip, will arrive in Spokane from the north on the previous night.

Geo. A. Fraser, M.P.P., returned to the city from Victoria last Friday.

NEWS OF THE CITY

"Prince Otto" Attracted a Large Audience to the Opera House

Will James J. Hill Call on His Graud Forks Friends This Trip?

The Harold Nelson company presented "Prince Otto" at the opera house last Saturday night to the largest audience that has yet greeted that popular young Canadian actor in this. While "Prince Otto" falls a little short of being a great play, it was nevertheless of sufficient interest to hold the attention of the audience until the curtain fell on the fifth act. It deals with the court intrigues of one of those small continental principalites that appear to have been created solely for the purpose of giving employment to dramatists, novelists and humorists, and whose treasuries are usually as empty as the country editor's safe. The scenic effects were good, and the costumes were correct and magnificent. Mr. Nelson as Prince Otto, who loved hunting and country maids better than cares of state and court ladies, had a role which afforded him ample scope to demonstrate the versatility of his dramatic art, and he succeeded admirably. Clifford Lane Bruce, as the prime ministers, and Helene Scott, as the Princess Seraphina, won new laurels by their artistic interpretation of their lines. Both are old favorites to Grand Forks theatre-goers. Wm. Blake, also an old favorite, gained new friends here by the merriment he extracted from the dual roles of Paffnitz, the chancellor, and Gustave, the country rustic. Of the new members of the company, Miss Elizabeth Patterson created the most favorable impression. As the Countess Von Rosen, her acting was graceful and natural. The other members of Mr. Nelson's support were above mediocrity. On his return visit here, Mr. Nelson will give a magnificent scenic production of the celebrated Italian tragedy, "Francesca de Rimini."

It is thought that James J. Hill, president of the Great Northern railway, will visit the Lewis and Clark exposition on Portland day. While in the west Mr. Hill will probably make a side trip north and visit his Grand Forks friends.

Mr. and Mrs. J. D. Spence and infant son returned to their home in this city yesterday from Toronto, where Mr. and Mrs. Spence have been spending the past year.

Mrs. N. McLellan and son, Norman, are both ill with typhoid fever.

City Solicitor E. Miller returned home today from a week's visit to Victoria.

P. J. Galligher, road master of the Boundary division of the C. P. R., with headquarters at Eholt, has resigned to take a similar position on the Kootenay division. He is succeeded by L. Doolan, who was roadmaster on the Nakusp branch. H. L. Johnson formerly roadmaster at Greenwood, and latterly at Nelson, has resigned to accept a position as divisional engineer with the Canadian Northern at Winnipeg.

The Ladies of the Maccabees will give an informal dance in Eagles' hall on Thursday evening, October 5. Everybody welcome.

Dave Woodhead left yesterday for a months' visit to the Lewis and Clark exposition and the coast cities.

J. F. Wilson last Saturday captured alive a grey eagle on the Ward ranch that measured 6 ft. 6 in. from tip to tip. Mr. Wilson shot at the bird, but failed to draw blood. He has disposed of it to Nelson parties for $6.

The Liberal club rooms, Columbia street, New Westminster, will be open during the Dominion fair to all visiting Liberals.

The town of Ferry, five minutes' walk across the international boundary line from Midway, is reputed by travellers to be a warm place, net. It is now growing rapidly, and is beginning to assume airs. The rails on the Curlew-Midway extension of the Great Northern are expected to reach Midway by the end of this month.

John Jordan of the contracting firm of Burns & Jordan, states that laborers are coming in a little more freely now, and his work is pretty well opened up. It will probably last a year or more, some of it being very heavy.

Midway's new Presbyterian church will be ready for opening Oct. 9.

Plans are afoot for the organization of a lodge of the Knights of Pythias at Midway.

Only one town in the Boundary can now boast of six grocery stores—Midway.

The news is published in Rossland that Anthony J. McMillan is no longer on the board of directors of the Snowshoe Gold & Copper Mines, Ltd., owning the Snowshoe group of claims in Phoenix camp.

The Northport smelter will close down on October 15th.

The Helen mine is a new shipper on the Boundary list

Lord Nelson's Centenary

All Englishmen and sons of Englishmen are requested to join in a "smoker" to be held on Trafalgar Day. Everyone wishing to respond will kindly leave their names with the undersigned immediately in order to facilitate arrangements. A preliminary meeting will be held on October 2, at 8 d.m., at Eagles' hall, to appoint a committee of arrangements, etc.

G. J. HAYWARD.,
Office with T. McIntyre & Co.

Coming Events

Dominion Exposition at New Westminster opens September 27 and closes October 7.

Spokane Interstate Fair opens October 9 and closes October 15.

The Lewis and Clark exposition in Portland closes October 15

RAILROAD WORK

Midway & Vernon Has Four Corps of Engineers in the Field

V., V. & E. Is Short of Steel and Laborers---Latter Increasing

There are now four corps of engineers at work on the Midway & Vernon railway. Construction on the first twenty miles between Midway and Westbridge will be completed by the end of the present year.

Mr. L. E. Shields, one of the contractors on the V., V. & E., speaking to a reporter in spokane said: "Everything is going finely, except that it is a little slow on account of a lack of laborers. We are getting men in though, at the rate of 40 a day, and now have about 2000 men at work. After about the middle of November, however, we shall have all the men we want, as the ground will be frozen up in Minnesota, Wisconsin and in other eastern states, where we have heavy contracts, so that these men can't work. We shall then bring them out here and put the whole force on the work in the north. Steel is laid to a point just half way between Curlew and Midway. This work has been held back because we have been unable to get steel from the east. We also have had to take up a lot of steel from any old abandoned road to put down on the new track. That work is slow. Camps are scattered along the line at intervals of about a mile with an average of about 150 men to the camp. Several quite lively little villiages are springing up along the route. Every morning the passenger train leaving Spokane on the Spokane Falls & Northern since grading commenced has contained a car devoted exclusively to laborers going to work on the road. Each car contains all the way from 30 to 60 men, but this is sometimes increased to two cars.

Miller--McDonald

A quiet wedding was solemnized at the home of the bride's parents, on Winnipeg avenue in this city, at 9 o'clock Monday morning, when Frank J. Miller and Willamina McDonald, daughter of Mr. and Mrs. J. D McDonald, were united in marriage, Rev. Father Pecoul reading the service. Only relatives of the principals and a few intimate friends witnessed the ceremony. Bert Scott acted as best man, and Miss Mabel McDonald, a sister of the bride, was bridesmaid. After the ceremony an elaborate wedding breakfast was served. The young couple left on the morning train for a three weeks' honeymoon trip to the coast. They will visit Vancouver and the Dominion fair in New Westminster. On their return they will take up their residence in Mr. Miller's house on Garden street.

Rev. Henry Steele, vicar of Holy Trinity church, has almost completely recovered from an attack of typhoid fever of three weeks' duration.

The Financial News of Boston has a rather remarkable article on "The Next Great World Development." The Financial News says that Canada will be the scene. Its reasons for the opinion it expresses are stated as follows:

"The prime agent of the coming development will be the new transcontinental railway with termini on the shores of the Atlantic and Pacific oceans. Its route has been definately decided upon, the surveys for its construction have been completed, and the financial arrangements for its building have been provided. In fact one section of the work has been already offered by contract, and it is a certainty that before this time next year the work of construction along the whole line will be in progress. The cost of the undertaking is variously estimated at from one hundred and fifty million to two hundred million dollars, and the railroad is to be completed and equipped within five years.

"When it is considered that the present wheat producing capacity of the country is only two per cent of the equally good grain growing land which will be thrown open to cultivation by the construction of this great national undertaking, the possibilities are simply staggering. It means that within ten years the production of wheat in Canada will be limited only by the ability to find labor to cultivate the land and handle the crops. This development means a coming economic change, which must be taken into consideration as a world's factor. Canada is now producing about one-sixth of the wheat raised in North America. Her new facilities will increase her ability so vastly that it is evident that she will, before many years, control the grain markets of the world."

The Financial News then calls attention to Canada's forests and mineral deposits, which, it says, are only second in importance to her wheat producing possibilities, and which will be opened to the world with the completion of the Grand Trunk Pacific railroad; this is what it says:

"So far, we have referred only to the building of the main line of something less than 4,000 miles, but it is the purpose of the Government of the Dominion of Canada to build innumerable branches, so that the most remote parts of the main line will be brought into touch with the existing railroads not only of Canada, but of this country. One of these lines is already under construction—from Toronto to lake Temiskaming---about 300 miles north in a straight line from the city on lake Ontario. American interests are represented to a degree in the Victoria, Vancouver & Eastern road, an undertaking of J. J. Hill's in British Columbia, with extensive ramifications south of the international line. That others besides Mr. Hill have their eyes wide open to the future is not surmise, for already American roads have secured, through properties which are heading toward the new country. All this means great business for Canada and a share of her prosperity for the United States.

"Everything indicates that Canada is full of mineral—the precious metals, coal, iron, copper, tin, nickle, phosphates, and in fact, everything that the requirements of the world demand abound, to say nothing of oil. These fields are thus far untouched. Granting that there may be exaggeration about the reports, enough has been found to justify scientific search for precious and other metals, and it must be confessed that mining history of Canada warrants the most thorough exploration. How greatly this will be accelerated by the construction of the new road needs no argument to prove. Important finds of coal and oil have already been announced by the surveying parties, and altogether there seems to be good reason for the optimism which prevails in Canada.'

Dead Sick of Asthma?

You couldn't be otherwise with such a distressing malady. Well, for one dollar spent on Catarrhozone you can be thoroughly cured. Foolish to delay, because asthma steadily grows worse. Get Catarrhozone today and cure yourself; it's pleasant to use, very simple, and guaranteed. Prescribed by thousands of doctors and used by the people of nine nations. Certainly Catarrhozone must be good; it hasn't failed yet, no matter how chronic the case. Sold by all druggists.

Spokane's new 150,000 club has taken in charge the celebration for October 9, the opening day for the Spokane Interstate fair. Some of the most active young business men of Spokane are on a committee which proposes to have the most remarkable parade on this first evening ever seen in that city. H. L. Lillienthal is chairman and Alex Green is secretary of the committee. It has held two or three meetings, in which all manner of doings are planned, but the members refuse to divulge their secrets. The chief feature, however, will be a great parade at the fair grounds. The participants will be dieguised in the most grotesque costumes. Every person who appears at the west gate promptly at 7:30 and in some costume, the more outlandish the better, will be admitted free to the grounds for the parade. In past years the fairs at Spokane have had opening day parades which have been gorgeous and amusing, but the one to be given this year will cast all others in the shade.

A Persistent Backache

Can have but one cause—diseased kidneys, which must be strengthened before backache can be cured. Why not use Dr. Hamilton's Pills? They cure the kidneys quick, make them strong and able to filter disease—breeding poisons from the blood. At once you feel better, stronger, brighter. Kidney health is guaranteed to every user of Dr. Hamilton's Pills. Get a 25c box from your druggist, and refuse substitutes.

Prevention is better than cure. Save your eyesight by consulting Dr. Mecklenburg, the celebrated oculist and optician, who will be at White's jewelry store Oct. 18-20.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent, on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, exceptin the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

1st W. W. CORY,

Deputy of the Min, er of the Interior.

Dr. Mecklenburg, eye specialist, of Winnipeg, will be at White's jewelry store, Grand Forks, from 13 o'clock Wednesday to 13 o'clock Friday, October 18-20. Eyes examined, tested and fitted with glasses. Squint, cross eyes, short sight, far sight, irregular sight, etc., scientifically tested. No guess work, no dangerous and costly mistakes. Safe, reliable, and satisfaction guaranteed.

Valuable Advice to Mothers

If your child comes in from play coughing or showing evidences of grippe, sore throat, or sickness of any kind, get out your bottle of Nerviline. Rub the chest and neck with Nerviline, and give internal doses of ten drops of Nerviline in sweetened water every two hours. This will prevent any serious trouble. No liniment or pain reliever equals Polson's Nerviline, which has been the great family remedy in Canada for the past fifty years. Try a 25c bottle of Nerviline. Sold by all druggists.

COPPER The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent, on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO — WRITE PLAINLY
The Secretary, THE CANADIAN PREFERENCE LEAGUE,
Room 20, Home Life Building, Toronto

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.

Radiant Womanhood

The glory and satisfaction of beautsful womanhood can be known only to those possessing the unlimited advantages of health. No weak woman can be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up. What the weak woman needs is Ferrozone; it renews, restores and vitalizes instantly—it's a "woman's remedy"—that's why.

Ferrozone makes women strong, plump and healthful because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength. Fifty cents buys a box of Ferrozone in any drug store.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

You're next at the Palace Barber Shop, Victoria hotel.

For a nice hair cut or shave go to the City Barber Shop on Riverside. Baths 25c.

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

$2 Per Year

Columbian College

FOUNDED 1892
INCORPORATED 1893
NEW WESTMINSTER, B. C.

Provides a Home for Students of both sexes at reasonable rates. Has a Preparatory Class for Junior Students doing Public School work. Is doing High School work, confers all High School privileges, and prepares for Teachers' Examinations. Teaches all branches of a thorough Practical Business Course, and grants Diplomas. Gives a Liberal Education in its own Collegiate Course, and in the Ladies' College Course for the degrees of M.E.L. and M.L.A. In University work, the Arts Course can now be taken in Columbian College, and the B.A. degree obtained from Toronto University, with which the College is in full affiliation. In Theology prepares for the degree of S.T.L. and B.D.

For fuller information, and terms, write,

Rev. W. J. Sipprell, B.A., B.D., or Rev. J. Bowell, Bursar.
