Liberal Leader Pays Short Visit to City

T. D. Pattullo. Liberal leadtr of British Columbia, and Major S. F. Moddie, proviccial organizer, arrived in Grand Forks about noon on Tuesday from Trail and Rossland.

The gentltmen were met by the president and eyecutive of the local Liberal association and escorted to the Hotel Province, where a splendid luncheon was servtd. Mr. Pattullo desired the president of the association to convey to the management of the house his appreciation for the excellence of the food and the manner in which it was served.

After the luncheon the party adjourned to the business place of the president of the association, where short speeches were made by Messrs Pattullo and Moodie. The speeches were necessarily brief. as the visiting gentlemen only had about an hour to spend before resuming their journey by motor car to Penticton.

Mr. Pattullo declared he had found a much healthier public sentiment through the province generally than when he made his last tour, and he believed the country was on its way to greater prosyerity.

In addressing the gathering, Mr. Pattullo referred to the Kidd report, stating that he was not in a position to discuss it owing to the fact that he had not yet been furnished with an official copy, although he had applied to the govtrnment for one. He said he had been told by the attorney general that he "had his nerve" when he asked for a copy.

Mr. Pattullo charged the government of the day with failure to give to tht legislature true figures on the province's financial situation. In permitting the Kidd committee to examine the books of the province the government had placed itself in the position of giving a "self-constituted" body of men access to the books while refusing the same access to the elected represntatives of the people.

Suggestions of a coalition government were decried by Mr. Pattullo, and he charged the Vancouver Province with enndeag to place him in an awkward position. He was opposed to coalition with the Conservative government, and in any case he had no mandate from his party for a coalition. "Do you suppostd that Ramsay MacDonald would have formed the National party in England if he had had a three to one majority in the British parliament?" htasked. "The fact is. the Victoria government is afraid to do business."

He said the unemploymtnt committee which investigattd charges made during the last session in respect to relief administration had, with a government majority of two to one, voted down questions and enquiries. He charged "shameless evasion of truth." Deilaring that business men frequently knew little of government, Mr. Pattullo said it was not always possible to operate government as business. Government was a tensely humanitarian proposition. In this respect a numper of the steps recommended by the Kidd committee were not feasible at all.

r. Pattullo was opposed to a reduction of the membership of the provincial house, declaring any reduction would be unfair to the outlying districts and would be detrimental to their interests.

He urged Liberals to give though to the institution of shorter hours and a shorter work week. Redistribution of purchasing power was necessary.

Mr. Pattullo believed that tariff walls were inimical to the people as a whole. Man must look to the welfare of his neighbor. he asserted.

Major S. F.Moodit, provincial organizer, tppealed to the local association to place evtry eligible person on the voters' list. He explained that a court of revision, at which namts could be placed on the list, was now held once a month. Namts for the list must be in the hands of the registrar of voters at least 30 days before the court.

30-Seat Assembly Now Being Planned

VICTORIA, Sept. 7.—The Tolmie Government is busy drafting a new Redistribution Bill. The recommendation of the Kidd Committee that the number of members be reduced to 28 provides the motive force of the effort, but the Government is not accepting the Committees findings in to.

The Committee recommends a House of 28. The Government is working on a basis of 30.

The Committee recommends that the Federal constituencies be accepted in the matter of metes and bounds. The Government has other ideas.

The last redistribution was the handiwork of Hon. Joshua Hinchlice. This one is being worked out by Hon. N. S. Lougheed.

Members of the Government insist that there will be no politics in the scheme; everything is to be "on the up and up."

But the arrangement of federal seats is deemed to give the Lower Mainland a top heavy representation and this "error" is to be corrected. The Federal scheme would give the Lower Mainland 12 of the 28 members. The Lougheed scheme is said to allot the same area not more than 10 out of 30.

Mr. Lougheed has a corps of draughtsmen working strenuosly on the new plan in order to have it ready for a possible fall session.

Stampede Was Exciting

Monday and Tuesday were the big days in Grand Forks, with fierce looking broncs and still fiercer looking riders, coming from all corners of the country to join in the stampede here. Eferybody thought that golden days had come back again. Annyway, it was good, for it was the best seen in many years in this part of the country. Even the young boys in town are getting ready for next year.

At 1 o'clock Monday the show started off with a grand parade around town and over to the old race track, which was in use many years ago. And when once over at the grounds. things were soon put in order, and the show started off with wild bronc riding and steer riding. Lots of excitement was put up for the large crowd which attended.

The following are the first day's winners:

Bronc Riding—First, Mose Kruger, on Little Wonder; second, Bill Graham, on Big Chief; third, Eddie Kruger, on Pelly Ragon.

Bob Leclusre. exhibition bareback.

Nelson Robinson, ejhibition bareback.

Steer riding—Many entries, but the most exciting of the day was when Pete Lewis and Jack Woods rode, face to face. The greatest difficulty was to keep their heads from crashing. Also B. Anderson and Pat Ryan.

Wild Cow Milking—First, Bill Graham, R. Dverton. second, Eddie Kruger. Joe Tonasket.

Turnstake Cowboy Riding—First, Eddie Allercott; second, E Enias; third, Mose Kruger.

Horse Racing—First, T. Allercott, Beer; second, Eddie Enias. Sonny Boy; third, B. Hacking, Maude.

Pony Race—First, G. San Pier; second, Buck Lewis; third, Eddie Enias.

Tuesday's winnings for bronc riding were.

First, Bert Evans, Sun Dance; second. Eddie Kruger, Surprise; third, Mose Kruger, Baby Brown

Steer Riding—D. Anderson, J. Woods, R. Everton, A. McKenziel, Buck Lewis.

Doubles—Jack Woods, Pat Ryan.

Saddle Ride—Eddie Allercott.

Pony RaceKFirst, Buck Lewis, second. B. Hacking.

After the day's fun was over dances were held in town in the evening. They were well attended .

In finishing up the stampede doings a bet of $50 was put on Stewart Carruthers' bull that nobody could ride him. Rolley Hayes of Vernon challenged the bet, and the ride was made on Tuesday at 2:30. The bull was ridden to a standstill, even though he tried hard to buck his rider off.

Another Old-timer of City Crosses Divide

John B. Morrell, aved 74 years, passed away in the Grand Forks hospital on Wednesday after a short illness. The funeral will take place at 4 o'clock tomorrow afternoon, interment to be made in Evergreen cemetery.

The late Ms. Morrell was an old-timer of Grand Forks. and was highly respected by his fellow townspeople as a good citizen. He is survived by three daughters—Mrs. Joe Santano, Mrs. Mike Borrelli, and Mrs. Joe Morrell. They have the sympathy of the community in their bereavement.

The funeral will take place from the Gospel Mission on Winnipeg avenue.

WORLD'S GRAIN EXHIBITION

The World's Grain Exhibition and Conference will positively be held at Regina on July 24 to August 5, 1933. Prospective eyhibitors are reminded that entries close on January 31, 1933, and that entry forms, information, etc., can be secured from the office of the district agriculturist.

"N. S. F."

"Did you get my check?"

"Yes. twice. Once from you and once from the bank."

Police to Stop Rail Hoboes September 30

CALGARY, Sept.8.—Free travelling by unemployed transients on Canadian railways is to be stopped.

Prime Minister R. B. Bennett announced today railway and police officials would be instructed that by September 30 all riding "on the rods" was to be stopped and that the law covering this act was to be rigidly enforced.

It would be a difficult task, he thought, but it would be done.

This movement of unemployed from one part of the country to another by riding on freight trains was one of the greatest evils the country has ever seen, the Prime Minister declared. The railways had not been able to cope with the situation, but with reinforced police and all riding in this way would be eliminated entirely.

The Prime Minister asked representatives from the four western provinces and cities if September 30 would be too late to benefit their unemployed situation. Should they require the law enforced any earlier, he would immediately telegraph his colleagues for further discussion on the matter.

Mayor Andy Davison, Calgary, asked Mr. Bennett if all the unemployed who had arrived in the cities in this way were to be left stranded and dependent on the city.

The Prime Minister replied that he was not discussing that question.

Tory Party Has Troubles Of Its Own

VICTORIA. Sept. 8.—Importuned by Vancouver supporters of the party to announce immediate reorganization of his cabinet and go to the country with a Union Government, Premier Tolmie kept his own counsel at the week-end and declined to be drawn as to future plans. It was clear, however, that issues of major importance to the Government were fully under consideration and that a decision may be looked for at a fairly early date.

The Premier intimated that he had invited representations from supporters of the Government in the House and from other highly-placed quarters and would require time to go over replies received in this connection.

He received without comment a visit from Colonel W. W. Foster, D. S. O., vice president of the B. C. Conservative Association, in which Col. Foster is understood to have urged the creation of a Union ministry and declined to comment on a press statement attributed to W. J. Bowser, K.C., at Vancouver as to his possible re-entry into politics.

In a poll of Conservative members in the Legislature, Premier Tolmie asked for definite views of the recipients on the question of Cabinet reorganization, the size of the House, and other issues.

He is believed to have already discussed these matters with his Cabinet and to have reached a definite understanding of the views of his colleagues on each point.

VANCOUVER. Sept 8.—Conservatives in Vancouver are waiting eagerly for word from two interviews that were expected to take place over the week-end.

One was between Premier Tolmie and W. J. Bowser at Victoria. The other between two or three of the B. C. ministers and Premier Bennett.

Mr. Bowser has been advised that Dr. Tolmie intended to communicate with him, but Mr. Bowsers friends say the "old chief" had no intention of taking office in any Tolmie cabinet, Conservative, coalition or otherwise.

The ministers went to Calgary to report on the situation to Mr. Bennett. There is a story that Hon. R. L. Maitland conferred with Mr. Bennett at Ottawa on his way back from the Old Country and obtained the Dominion party leaders endorsement for a scheme to bring Mr. Bowser back as leader of the party.

The Dominion leader is said to have been willing to throw his weight behind a convention to oust Dr. Tolmie. But the choice of messenger was unfortunate as Mr. Maitland is in the black books of the insurgent wing of the party and like other ministers who have flirted with Mr. Bowser in in recent weeks, he was able to obtain no assurances.

Now the report is that Mr. Maitland has gone back to see Mr. Bennett and that Hon. J. W. Jones and Hon. W. A. McKenzie are also in or around Calgary.

The expectation among Vancouver Conservatives is that Dr. Tolmie will find himself reduced by elimination of alternatives to appealing to some of the ministers that have been in unsuccessful communication with Mr. Bowser.

They expect to see him announce the resignation of four or five ministers and to try to get along with a cabinet consisting probably of Hon S. L. Howe, Hon. R. W. Bruhn, Hon. J. W. Jones, Hon. R. H. Pooley and Hon. W. A. McKenzie. This would be a sort of 50-50 cabinet of loyalists and the other kind.

Egg Prices Jump 3 Cents in Victoria

VICTORIA. Sept. 8.—The price of eggs took a sudden three-cent jump this morning in Victoria, it was learned from wholesalers. Extras jumped to 31 cents a dozen, wholesale and similarly increased prices were seen in the other grades.

This sudden increase in prices came as a climax to steadily increasing prices during the past two weeks. At present there is a very firm market in the egg trade.

Decide Golf Prize On Roof of World

THE Prince of Wales Trophy, one of golfdom's most envied possessions, has just been decided on the spectacular links of the Banff Springs Golf Course, a mile above sea level, in the heart of the Canadian Rockies. This year the trophy went overseas to an Englishman, down from Oxford University, a newcomer to the ranks of champions who made the long trip a week ahead of play. He is W. A. Sime, Bedfordshire Golf Club, Bedford, England, who is seen shaking hands, with the runner-up, Gordon MacWilliams, Bowness Golf Club, Calgary, one time Alberta champion. Mr. Sime won the final, four up and three to play, and the game was refereed by "Bill" Thompson, genial pro of the Banff course, who is seen standing between the pair. A large gallery followed the play.

The Brewster Cup championship was decided at the same time over the Banff Springs course. It was a woman's championship and was taken by Mrs G. F. Dewolf (right in photograph) of Vernon, B.C., who defeated Miss Jean McMillan, of Calgary, Alta, in a close fight that was only decided on the 18th hole by one up.

Lay-out shows the two champions being congratulated by their opponents; and the Prince of Wales Cup with the Banff Springs Hotel in the background.

Regulations Re Migratory Birds

The national park service of the department of the interior, Ottawa, has just issued the regulations regarding migratory birds for the current year.

OPEN SEASONS

Ducks. Geese, Brant, Coots

Both dates inclusive.

In the Eastern district, except the provincial electoral districts of Creston. Nelson, Kaslo-Slocan, Skeena, Atlin, Omineca and Fort George, September 15 to December 31.

In the provincial electoral districts of Creston, Nelson, Kaslo-Slocan, September 15 to November 30.

In the provincial electoral districts of Omineca, Fort George. that portion of the Skeena provincial district situate and lying in the Eastern district, and that portion of the Atlin provincial electoral district situate and lying north of the 56th parallel of north latitude, September 1 to December 15.

Ducks, Geese, Coots

In the Eastern district. October 15 to January 31.

Prtvided that these dates are to apply to that part of the provincial electoral district of Atlin situate and lying south of the 56th parallel of north latitude.

Black Brant

In the Western district, November 1g to February 28.

Prtvided that these dates are to apply to that part of the provincial electral district of Atlin situate and lying south of the 56th parallel of north latitude.

Band-Tailed Pigeons

September 10 to October 15.

Wilson's, or Jack-Snipe

In the Western district, October 15 to January 31.

Provided that these dates are to apply to tthat part of the provincial electoral district of Atlin situate and lying south of the 56th parallel of north latitude.

In the Eastern district, except the provincial electoral districts of Creston, Nelson, Kaslo-Slocan, Skeena, Atlin, Omineca and Fort George, September 15 to December 31.

In the provincial electoral districts of Creston. Nelson, Kaslo-Slocan, September 15 to November 30.

In the provincial electoral districts of Omineca, Fort George and that ptrtion of the Atlin provincial electoral district situate and lying north of the 56th parallel of north latitude, and that portion of the Skeena provincial electoral district situate and lying in the Eastern district, Stptember 1 to December 15.

CLOSED STASONS

There is a closed season throughtut the year on eider ducks, swans, cranes. curlew, willets, godwits, upland plovr, black-bellied and golden ploper, greater and lesser yellowlegs. avocets, dowitchers, knots, oyster-catchers, phalaropes, stilts. surf-birds, turnstones and all the shore birds not psovided with an open season in above schedule.

There is a closed season throughout the year on the following non-game birds: Auks, auklets, bitterns, fulmars, gonnets. grebes, guillemots, gulls. herons, jaegars, loons, murres, petrels, puffins, shearwaters and terns; and there is a closed season throughout the year on the following insectivorous birds: Bobolinks, catbirds, chickadees. cuckoos, flickers, flycatchers, grosbeaks, hummingbirds, kinglets. martins, meadowlarks, nighthawks, of bullbats, nuthatches, orioles. robins, shrikes, swallows, swifts, tanagers. titmice, thrushes, vireos, warblers, waxwings, whip-poor wills, woodpeckers and wrens. and all other perching birds which feed entirely or chiefly on insects.

No person shall kill, hunt. capture, injure, take or molest any migratory game birds during the closed season; and no person shall sell, expose for sale, offer for sale, buy, trade or traffic in any migratory game bird at any time.

The taking of the nests or eggs of migratory game. migratory insectivorous and migratory non-game birds is prohibited.

The killing, hunting, capturing, taking or molesting of migratory insectivorous and migratory non-game birds, their nests or eggs, is prohibited.

Thti possession of migratory game birds killed during the open season is allowed in British Columbia for 14 days after the close of the open season.

BAG LIMITS

Ducks, 20 in any day, 150 in one season; geese, 10 in any day, 50 in one season; brant, 10 in any day, 50 in one seaso; coots, 25 in any day, 150 in one eason; wilson's or jack-snipe, 25 in any day, 150 in one season; band-tailed pigeons, 10 in any day. 50 in one season.

GUNS AND APPLIANCES

The use of automatic (auto-loading), pump or repeating shotgun with magazine capacity of more than one shell, tracer shot shells, ribe, swivel or machine gun, or battery, or any gun larger than No. 10 gauge is prohibited, and the use of any aeroplane, power-boat, sailboat. wounded live birds as decoys, live decoys in the hunting f band-tailed pigeons, night light, and shooting from any horse-drawn or motor vehicle is forbidden.

The shooting of migratry game birds earlier than one hour before sunrise or later than one hour after sunset is prohibited.

The penalty for violation f the migratory bird laws is a fine of not more than $300 and not less than $10, or imprisonment for a term not exceeding six months, r both fine and imprisonment.

Chilsren of Port Alberni Must Go Barefoot to School

VICTORIA.—With schools opening this week, many children in Port Alberni are without shoes and must go barefoottd it was stated by Mayor D. W. Warnock of that city.

Mayor Marnock conferred with the ministtr of finance, Hon. J. W. Jones, bringing to his attention the seriousness of the unemployment situation.

With unemployment registration stopped on June 1, Mayor Warnock said that 200 were on the list, including 134 single men. However, on June 24, the large mill closed down, throwing 600 men out of work, making a total jobless population of 800. With fish at 1 cent a pound, fishermen are barely able to make expenses and the sole industrial activity of the city is a small mill which is still operating with a few men.

A good remedy for freckles is to bathe the face in fresh buttermilk. Or, mix two ounces of sour milk, or buttermilk, with two drams of grated horseradish and six drams of cornmeal. Spread this mixture between thin muslin and apply to the affected parts at night, leaving on as long as possible; but be careful not to get it in the eyes.

Wife (packing for a vacation trip) —Have we forgotten anything, dear?

Husband—There's the piano, my love.

Use a good white soap for dishwashing. It will benefit the hands and also the fine china and glassware.

In order to save space when the laundry must be dried in the cellar. try hanging the dresses. night clothes and underwear on coat hangers. Thty will also dry more quickly.

To relieve a painful burn, cover with dry flour; or make a paste of common baking soda and water and apply. Butter, or scraped raw potato, applied to the burn, are also effectivt.

Deportation Of Verigin Probable

OTTAWA, Sept. 8.—A board of inquiry from the department of immigration has been examining the case of Peter Verigin at the jail. Whether it ordered his deportation will not be known to the department here uutil the boards report has been received. If his deportation has been ordered he has the right of appealing to the minister of immigration.

YORKTON, Sask, Sept. 8.—It was learned here on high authority that Peter Verigin has been served with deportation papers on behalf of the department of immigration.

Serving of the papers, it is understood, followed an investigation reported to have been made by the immigration department through the Saskatchewan attorney general's department.

Formal proceedings may require considerable time as there is the right of defense as well as the right of appeal.

Mr. Verigin did not come to Canada direct from Russia, having lived in Germany for a time before sailing from Hamburg.

A man prominent in Doukhorbor affairs stated here today that Verigin would like nothing better than to return to Germany, as he is a great admirer of the German people.

Under the Immigration act a person who is not a Canadian citizen may be deported if he has been convicted of a criminal offense in Canada.

Consolidated to Ship Fertilizer To Hawaii

Carrying a New Westminster date line, a news item in the Vancouver Sun shows that another shipment of 6000 tons of fertilizer from the plant of The Consolidated Mining and Smelting company. Ltd., Trail, is booked for shipment from New Westminster in September.

The fertilizer is destined for pineapple plantations in Hawaii.

Interesting To Farmers

STANDING FIELD CROP COMPETITION

The potato pitts in the field crop competition organized by the Grand Forks Farmers' Institute in cooperation with the British Columbia department of agriculture were judged by E. R. Bewell, points being allower ftr the following factors:

(a(General appearance method of planting, stand of crop and vigor of growth.

(b) Freedom from disease and insects.

(c) Methil and thoroughness of cultivatitn.

(d) Purity of variety.

(e) Apparent yield, considering weight of marketablepotatoes per square yard; quality, smoothness. and unifformity of shape, state and uniformity of maturity and freedom from sunburn.

The scires tf the five prize winners are as follows:

First, C. C. Heaven, 92 points; second T. C. Woodward, 91.5 points; third, P. Tjebbes, 90.1 points; fourth Sunnyside Farm, 80 points; fifth. J. B. Markell, 86.5 points.

JUDGING OF ROCK CREEK CALF CLUB

The calves in the Rock Creek calf club will be judged on Saturday, September 24, by William Forres of the C. M. S. farm at Trail. Members are requeested to have their calves fitted and ttained for showing on that date.

BOYS' AND GIRLS' CLUB LIBRARY

A library has been opened in the office of the district agriculturist for the use of boys and girls who are members of the various junior clubs in the district. Acollection of popular bulletins and booklets. etc. on weeds, feeding and management of livestock, insect pests of animals, etc., will be kept on file and loaned out to members as desired. It is the intention of the department through the district agriculturists to build up junior club organizations in every district.

The cake will be ready to be taken from tht oven if the top of it feels firm, and if the sides have shrunken from the pan, and if a toothpick will come out dry and clean when thrust through it.

FRIDAY, SEPTEMBER 9, 1932

The last days of August mark the approach of autumn, that season of glorious color in the Canadian woods. On the sportsman's desk appear game laws, time tables, road maps and other unfailing signs that the hunting season s not for away. Hurried telephne calls indicate the making and changing of plans; guns, rifles and ammunition are the order and at last everything is settled and the open seasoi finds the hunters ready and eager to be away. Soon from the sink boxes along the spits of Prince Edward Island, in the coverts of Nova Scotia and New Brunswick. along the forest trails of Quebec and Ontario, across the prairies and from the valleys and peaks irn British Columbia will come the echo of reports from shotgun and rifle as the sportsmen enjoy their long looked for holiday in Canada's game retreats.

During midsummer the organization of hunting parties is carried on at many points in the Rockies, and by the first of September the trek of sportsmen to the best game haunts takes place. Splendid trophies may be secured of mountain sheep, caribou, moose. bear and deer, but the modern hunter is becoming more and more an addict to the camera, either still or movie. Instead of returning with a load of heads, he contents himself with far more convincing records of his hunting prowess in the form of films. The camera hunter has the double satisfaction in knowing that the subject might have fallen an easy victim to his modern high powered rifle, but still lives, free to enjoy life in its chosen haunts.

A "new force for producing disease-killing" rays within the human body was announced in a report to the American Chemical society in Denver. The rays are ultra-violet light. They are planted in the body like bombs. by injecting certain chemicals into the area to be rayed. The chemicals are perfectly "dark" y themselves, but transform into ultra-violet flares when X-rays are turned upon them, "These studies," says the report, "have great hopt in the treatment of obscure and deep bacterial infections, as well as great possibilities in the future study of cancer." The report was made by Dr. Ellice McDonald, director, and Dr. A. J. Allen, physicist. of the cancer research laboratories of the University of Pennsylvania. It was made public y the society on the eve of its annual fall meeting in Denver. Col.

Color is often a fairly reliable guide in choosing fruits and vegetables which are complementary to each other. Dietitians alsi claim that a dish which is pleasing to look at is more easily digested and more useful to the body than one which lacks "eye appeal." That is why the popular summer combination of tomatoes and lettuce is ideal. The very appearance of the dish is enough to tempt the most backward appetite, and as a source of minerals and vitamins its importance ca nhardly be exaggerated. Yet in spite of their health promoting properties and attractive flavor. the popularity of tomat and lettuce is of fairly recent origin. Today, however, tomatoes are considered by physicians one of the most economical and rich sources of vitamins known, containing greater quantities of these essential elements than even oranges. Lettuce also, in addition to being one of the most palatable and refrtshing of all summer greens, also contains many food elements which are imprtant in maintaining normal health.

Caring for pestiferous insects as if they were ailing babies the public health service is succeeding at Columbia, S.C., in raising mosquitoes needed in treatment if dread paresis. Reversing traditional rough methods of umosquito handling, government scietists, cooperating with authorities of the state hospital for the insane at Columbia, have made Anophiles Quaddrimaenlatus and Anopholes Punctipennis two of the species which transmit malaria. respond to kind treatment. Coolers, fans. humidifiers and ice boxes have been set up in the Columbia mosquito laboratory and the mortality among the young is so small that the majority of the insects used in experiments are hand-reared. Health service officials regard the "farm" as an important stride forward in the treatment of paresis, otherwise known as fsoftenin of the brain. Malaria is the most widely used method of treating the disease, although service oficials, in fighting disease with disease, have had success through the transmission of rat bite fever. There are too many malarial mosquitoes and much effort is spent in eradicating them, but in many instances one isn't buzzing around when needed to bite a paresis patient. The growing swarm at Columbia is depended upon to overcome that difficulty by having one of the pests readp when the call comes.

The aimless wandering of Canadian unemployed youth, "hoboing" from east to west and back again, was deplored by Rt. Hon. J. G. Coates of New Zealand as one of the real problems of Canada, before he left Vancouver. "We have managed to avoid it pretty well in New Zealand and we have made up our minds we will not stand for itin, is too dangerous—too uncettling. The youth wha takes to the hobo life in aspirit of adventure and bravado is very lia le to get the habit," Mr. Coates said. At the first signs of this restless movement of young New Zealanders authorities everywhere toik a stand against it. Hitch-hiking was discouraged and riding on trains meant jail. Churches cooperated with other organizations to look after the young men in their own districts. Special district organizations are now being tormed with governmtnt assistance. "If necessary we will round them up and keep them in interment camps. But we will not have them wandering." he declared.

The story is told of a young rector who, ofter a sermon on the divine character of the church. was approachtd by an elderly lady who said wrathfully: "How dare a boy like you talk to us in that monner?" The young man, who still wore his surplice, drew himself up and replied with crushing dignity. "Madam, when I have this on I am 1000 years oil.

If Canada's national festiva lis the Maple Sugar Camp. the big event of the lae summer season is the "Corn Roast." And corn roasts should be the vogue, now that Canada's own sweet corn, sun-ripened in the field, is available and just begging to be eaten. The chiaf ingredients of a successful corn roast are a group of congenial people; a suitable location. preferably a beach; a roaring bonfire; plenty of corn, butter, sault and a good appetite. There are two ways of cooking the corn. The simplest, and the method preferred by most people is to peel off the husks, transfix the ear with pointed sticks and hang them in the flame of tht fire until cooked. Another is to take along a boiling bottle or cauldron, or even an empty gasoline tin with a wire handle, and boil the ears all together. Strictly speaking, this is not a corn "roast," but it has the advantage that all the ears are ready for eating at the same time, so trat those in charge of operations may sit down and enjoy the feed with the other members of the pary.

A method by which parents may control the sex of their children before birth, described as successful in 77 out of 78 trials. was reported at the International Congess of Genetics at Ithaca, N.Y. It involvelves the us of lactic acid to insur that the expected baby will be a girl. and bicarbonate of soda, an alkaline, to produce a boy. The method was worked out by Prof. F. Unterberger f Koenigsberg, East Prussia, and was described at Ithaca by Dr. Jacob Sanders of Rotterdam, Holland. Boy babies were bor to 77 out of 78 German women who used bicarbonate of soda according to Dr. Unterberger's directions, Dr. Sanders said. Many of them already had had one or more babies, and had txpressed a desire for a male child. The woman who used the method unsuccessfully was belied to follow directions. Testing the same method on rabbits. the use of lactic acid produced litters with twice as many females as males, and bicarbonate of soda reversed the proportion. Supersaturated solutions of lactic acid and soda produces respectively three females ti one male and three males to one female.

A special cable from Pretoria to the New York Timts says: "South Africa's trade treaty with Germany is likely to be revised in the light of the agreements at Ottawa. Under clause 8. the treaty provides for theautomatic extension to Germany of preferences on scheduled goods subsequently extended to Britain or the dominions. The alternative is cancellation, requiring six months' notice, either of the treaty as a whole or of clause 8 alone. Officials are doubtful as to whether the Germans would agree to cancel clause 8, since Germany showed a desire to retain the treaty recently when the South African protest was upheld against the proposed German preferences to Roumani. No special session of parliament has been summoned to ratify the Ottawa agreemtnts. But the cabinet is expected to enforce them by proclamation when N. C. Havenga, minister of financt, returns, and at the same time settle the German treaty question."

Snakes seek fissures among the rocks in which to hibernate during the winter months. Although during this period of inactivity they can stand considerable cold, ftemperatures at or below the freezing point are quite likely to kill them. They seem to have an uncanny instinct of selecting their winter shelters at points that will not fall below the dangtr line in temperature.

You can't keep the Smiths down. In the Tu lock Knights of Pythias lodge at Turlock, Cal.. the chancellor, prelate, mast r-at-arms, inner guard and outer guard are all named Smith.

The Bibile was the world's best selling book last year, Wallace Wachob, Be ktley, Cal.. representative of a national publishing concern, announces. Last year's sale of Bibles totaled 14,000,000 volumes, he says.

It will be possible one day to see speech in the form of light. predicts a scientist. We understand that, when that day comes, all caddies wi llbe supplied with smoked glasses.

Seattle police asked Mrs. Bessie Ingram why she didn't investigate when she heard shots next door. Her rtply was: "I had a roast in the oven to think about."

Earmaked gold in a bank vault cannot be count d as part of the bank's reserve, nor can any use be made of it. Earmark d gold is merely in storage.

Your levellers wish to level down as far as themselves, but they cannot bear levelling up to themselves.—Johnson.

No man flatters the woman he truly loves.—Tuckerman.

ANCIENT HISTORY

LIFE IN GRAND FORKS TWENTY YEARS AGO

A report has been in circulation this wtek that H. C. Kerman, who owns 60-foot frontoge on Bridge street, nexf to the new Manly block, intends to erect an opera house and two small stores on this property.

W. P. Tierney has secured a contract from the C.P.R. for five miles of sidetracks in the West end.

The weather still continues to play erratic pranks when the sun should be shining.

A lorge number of real estate agents and prospective settlers have visittd the city and valley during the past week.

It snowed in Phoenix last Friday and Saturday.

Hon. Martin Burrell, federal minister of agriculture, will visit thr west next week. He may possibly make o side trip to the Sunbeam ranch.

Steel on the Ketile Valley line will reach Carmi tomow row night.

The basement of the Doukhobor canning factory, near the C.P.R. feight station. has been completed. At the rate construction is procteding, the foctory will probably be ready to be opened at the same time as the Panama canal.

Copious rains during the past two weeks have seriously interfered with building operations. We hove now all the moisture ewe need this year.

One car of potatoes and a numbtr of cars of fruit were shipped from the city this week.

If all the deer had been killed in the North Fork country this week that hunters claim to have slain, the game worden would now be compelled to import a fresh supply.

POEMS FROM THE FAR EAST

HINDU

Betel-nut is bitter, hot, sweet, spicy, binding, alkaline—
A demulcent—an astringent—foe to evils intestine;
Giving to the breath a fragrance—to the lips a crimson red;
A detergent, and a kindler of Love's flame that lieth dead.
Praise the gods for the good Betel!—these be thirteen virtues given.
Hard to meet in one thing blended, even in their happy heaven.

—From the Book of Good Counsels.

Health Service

OF THE

Canadian Medical Association

Edited by

GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

SLEEP

No one can do without sleep. The amount of sleep required varies greatly, according to the needs of the individual. Rest in bed, apart from sleep, allows for recuperation, poovidied the person is relaxed and calm, and is not disturbed mentally or physically.

Sleep is a mystery, in that its several cause is not known. Thefact that several explanations have been offered is evidence that no one theory is fully satisfactory. What we do appreciate is the fact that during sleep the mental and physical wear resulting from the day's work is repaired with the result that the morning finds the sleeper refreshed.

During sleep the body is relaxed, the rate of breathing is increased, the hea t beats are fewer, blood pressure falls, and there is a general slowing down of body functions. The body is at rest, with the essential functions operating at a rate sufficient for the maintenance of life.

Attention used to be directed to the position in which it was thought that one should sleep. It is now known that the o dinary healthy sleeper changes his position quite frequently during the night. It does not matter what position is assumed upon going to sleep, for it will be chanbed many times during the night.

It is a mistake to work hard trying to go to sleep. Many persons suffer from insomnia because they go to bed with the firm conviction that they will not sleep. Thei worry about not sleeping is the one thing which. more than any other, keeps them awake. If such people would go to bed in a quiet room, allow the body to relax, and realizee that it does not matter whether or not they sleep as long as they eat, they would not need to worry about not sleeping; they would sleep.

At this time, attention is directed to the sleeping requirements of school children. During the summer season the regular hour for goning to bed is apt to be forgotten; later bed-time is the rule, with extra sleep in the morning. If such is the case, it is important—with the opening of school—to get the child back into the old routine. Children re uire a great deal of sleep, and that means a regular. early bed-tnme.

Sleep cannot be bought. It is just as much the property of the poor as of the rich. Like fresh air and sunshine, sleep and rest are requihites of good health, and may be had for the taging. Health is larg ly the product of our habits of life. On good, healthful habit is to secur sufficient rest.

Questions concerning health, addressed to the Canadian Medical Association. 184 College Street, Toronto. will be answered personally by letter.

FACTS THAT YOU MAY NOT KNOW

A Dry Skin

To remedy dry a skin, cleanse the face night and morning with a good cold cream instead of using soap and water. This will keep the skin soft and no trouble will be experienced in making the powder adhere to the face.

—o—

Potatoes and Peaches

Before peeling new potatoes, or peaches, plunge them in boiling water for about half a minute. then drop them in cold water. The peelings will slip off easily.

—o—

A Bed Table

A small bed table is useful for the sick child who must remain in bed. An attractive table can be made from a strong wooden box, about a yard long, by removing the sides, leaving the ends attached, and painting it the child's favorite color.

—o—

Saving Gas

To save gas when cooking soups and vegetables, turn the gas burner down until just sufficient to keep the water bubbling. The food will cook just as quickly, and even better, than if the burner is high and the vegetables boiling hard.

—o—

Insects

After washing woodwork thoroughly, if a little dry borax is sprinkled in the corners and cracks of all the cupboards. closets and shelves, one will seldom be bothered with insects.

—o—

Mustard Stains

When mustard stains are on linen, boil in water, in which washing soda, 1 teaspoonful to 1 quart of water, has been dissolved. After boiling rub until the stains disappear.

—o—

Galoshes

Print the child's name in his rubbers and galoshes so that they will be exchanged at school for others much the worse for wear. Or print tht name on an adhesive tapeand paste on the inside.

—o—

Acid Fruits

When sweetened acid fruits, such as gooseberries, use one-half teaspoonful of soda to a quart of fruit, and stir before sweetening. Less sugar will be required.

—o—

Soap Flakes

Fewer flakes will be required, and the result will be better suds. if one will beat the soap flakes into a foam with the egg beater.

—o—

Preventing Rust

Before putting away a stove, or pipes for the summer, give them a good application of linseed oil, and it will prevent rust. When fall comes polish them without trying to remove the oil.

—o—

Cut Flowers

Cut flowers will keep for a long time if a small quantity of camphor, or charcoal, is dissolved in the vase or receptacle.

—o—

Water Tumbler

When the bathroom tumbler becomes cloudp, rub it with a little vinegar and it will be restored to its shining state.

SUNSHINE

Just a Pale Pun

Ida Clare—Fashions may come and fashions may go. but there is always a demand for cosmetics.

June Bug—Yes. women can't go wan forever.

* * *

Heard in the Lobby

He (annoyed)—You kept me waiting for over an hour.

She—Yes, but just think. I might not have come at all.

* * *

Limited Choice

Hubby—We must go to some quiet, inexpensive place for our vacation.

Wifey—Great heavens. Don't talk so gruesomely. You know that there no longer any quiet or inexpensive places except cemeteries.

* * *

Modern Honeymoon

"Did you have fun on your honeymoon, darling?"

"Yes! I met the sweetest man—"

* * *

Exchange of Courtesies

The Creditor—I trust that you will honor me with your check today.

The Delinquent—Sure thing! But who will honor the check?

* * *

Unreasonable, as Usual

"I hear your wife is sick," said Buster.

"Yes," grumbled Kuster. "I told her we just couldn't afford to be sick with times so bad. and next day she went down with the flu."

* * *

Kathryn—Very Plain says that last season she was a mere society bud.

Kittye—And this season she's a full-blown wallbower.

* * *

Her All!

"You certainly have a very enthusiastic cook.

"Why, what makes you say that?"

"She seems to have put everything she has into this hash."

* * *

A Long Wait

The foreman gardener was inspecting the work of his newly engaged assistant.

"Did you water the century plants," he asked.

"Yes," said the assistant, "I did that."

"Very good," said the foreman. "In future it will be your job to look after them. And don't forget this, if those plants don't rbloom in 1967 it will be your fault."

* * *

Taking No Chances

Mr. Swiggs—Er-ah, that is, can-er I—will you—

"Why, yes, my boy; you can have her."

"How's that? Have whom?"

"My daughter, of course. You want to marry her, don't you?"

"No, sir; I just wanted you to endorse my note for $1000."

"Certainly not. Why, I hardly know you."

* * *

"There are men in India who hold their hands over their heads all the time."

"That's nothing—men do that in our coase cities all the time. too"

* * *

Missionary—Are the natives becoming civilized

Chief—Gradually. Eighteen of the chiefs played a game of bastball last week and only four umpires were killed.

Show Them A Mountain And They'll Do The Rest

Edward Feuz (left) holds that "the climbing urge" is a heritage of all white races, be the objective high furniture for an infant; a tree-top for a schoolboy; or the pinnacle of success or the summit of a mountain for an adult. He ought to know, for he makes his living as a mountain guide in the heart of the famous Canadian Rocky Mountains, with headquarters at the Canadian Pacific Railway's hotels at Banff and Lake Louise. and has more "first ascents" to his credit than any other man in the country. His brother Ernst (right) is also an experienced guide and mountaineer. Both are natives of Interlaken, Switzerland, and have winter-homes in the little Swiss guide village of Edelweiss, in the Columbia Valley. They are shown scanning the peaks adjoining the Banff Springs Hotel.

CITY REAL ESTATE FOR SALE

Applications for immediate purchase of Lots and Acreage owned by the City, within the Municipality, are invited.

Prices:—From $25.00 per lot upwards.

Terms:—Cash and approved payments.

List of Lots and prices may be seen at the City Office.

What the Rural Weekly Press of B. C. Can Offer

THERE are fifty-five regular weekly newspapers in British Columbia. They are published in a widely scattered field in communities with populations of from 300 to 400 to one of 10,000. Sixteen are published in communities of less than 1000 population; fifteen in communities of 1000 to 2000 population; seven in communities of 4000 to 5000; four in communities over 5000 to 10,000. These weeklies appeal to 145,000 of British Columbia's population. The news in these newspapers is mostly all local, because that is what interests the readers, and the advertisements for the most part tell what local merchants are doing. The country editor knows the people he serves; they are farmers, lumbermen, miners, fishermen, prospectors, laborers, all. It is estimated that the average farm family spends $2000 every year for things which are not necessary to raise crops. The total sum that is spent by farmers in the United States for those things with which to live well is the appaling sum of thirteen billion dollars. Seventy-two per cent. of all automobiles sold go to people living in towns and comunities of less than 5000 population. Using the same proportionate figures to estimate the buying power of the rural population of British Columbia served by the weekly papers of the province, and we have something like 70,000 automobiles purchased by residents of the province in towns and communities of less than 5000 population, and $6,000,000 spent every year by these rural families for things which are not necessary to raise crops. If one is inclined to think that only a few people, and an insignificant few at that, live in country communities served by the weekly newspapers let him study these figures or consult the last census statistics.

Closer Cooperation Between Rural and Industrial British Coumbia

Vegetables Make Good Marmalade

Vegetables made into nicaly molded jellies and jams are a rar treat. Storing away in winter foods, th luscious fruits and vegetables of this fine season is wisdom indeed. Mother Nature must have known about the recent depression, for Canadian housewives have sfidom seen such an abundance of perfect fruit and at such low prices.

To keep down winter food costs and yet have more treats than ever before, clever homemakers are preparing hundreds of jars of fine conserves and jellies. To avoid the monotony of just vlum and apple jam, fine recipes have been carefully worked out and tested to give a jam of unusual flavor as marrow and ginger.

MARROW MARMALADE

Simply made and at low cost. binber and marrow jam requires: 3 cups (1½ lbs.) prepared marrow, ¼ cup (2 oz. water, 1 cup bottled fruit pectin, 7½ cups (3¼ lbs.) suyar, 3 teaspoons powdered yinger. Juice of 1 lemon.

Peel a large marrow, discarding skin, seeds and rpithy portion round seeds. Cut 2 lbs. into small pieces, cover with water and let stand over night. Pour off water and chop marrow very fine. Add ¼ cup (2 oz.) wattr and simmer, covered for 20 minutes. Measure sugar, 3 cups (1½ lbs) prepared marrow. lemon juict and powdered ginger into largt kettle. Mix well and bring to a full rolling boil over hottest fire. Stir constantly bttfore and while boiling. Boil hard 2 minutes. Remove from fire and stir in one cup bottled fruit pectin Let stnd 5 miuntes to cool slightly. Pour quickly, Seal jam at once with hot paraffin wax. This recipe makes about 10 eight ounce jars.

CARROT MARMALADE

High in food value and of attractive color is carrot marmalade which requires: 4 cups (2 lbs.) prepared carrot and ltmons and oranges, 6½ cups (2¾ lbs.) sugar, ½ cup bottled fruit pectin.

Cook about 2 pounds carrots until tender, then grind or chop fine. Add grated rind of 2 oranges and 2 lemons. Peel oranges and dict, discarding hard centers and setds. Add orange pulp and lemon juice to carrots. If desired, add 2 or 3 teaspoons of ginger or cinnamon.

Measure sugar and prepared ingredients tightly packed into a large kettle. Mix well and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil 15 minutes .Remove from fire and stir in bottled fruit pectin. Pour quickly. Seal hot marmalade at once with paraffin wax. Makes about 9 eight onuce jars.

No telephone

..... no job

"Report for work Monday!"

This was great news for Bill Jones. He had just about given up hope of getting a job, when the telephone brought him the above message.'

"Mighty glad I kept my telephone in," said Bill. "Otherwise they wouldn't have been able to reach me."

A person really can't afford to be without a telephone these days. No telephone, may mean no job.

Opportunity used to knock; now it uses the telephone.

B. C. TELEPHONE CO

AUTO INSURANCE LAW

VICTORIA. — British Columbia's new automobile insurance law. designed to prevent driving of cars hereafter by personds found guilty of offences or against whom civil judgments may be given for damages from motoring accidents, came into effect on the first of the month.

Automobile drivers will not be compelled to carry public liability insurance under ordinary circumstances, but court proceedings may cause suspension of both driving license and car licfnse.

Car drivers convicted o foffences such as driving to the common danger, injury of persons, or where damages amounting to more than $25 has resulted, will lose their licenses unless the commissioner of provincial police has on file a certificate or bond showing the accused person is financially responsible.

The certificates are now being printed for distribution to insurance companies. They will not apply to the present form of policy, because of changes, a new standard form having been prepared to conform with the terms of the new law.

The act is not retroactive and existing insurance against public liability will be accepted as evidence of financial responsibility, in the opinion of leading insurance agencies.

MACS TO MOVE SEPT. 20

VERNON.—McIntosh Reds will move to market on September 20 This is the decision of the cartel committee, but ifshippers outside force it the movement will be speeded up to match them. In 1931 the Macs moved on September 18 and in 1930 on September 16.

Cool nights are bringing on the color and the Okanagan has never had a betttr crop.

It is estimated that the cartel will function with at least 95 per cent of the tonnage inside. Those remaining out will not be permitted to profit at the others' expense.

More apples will be packed than last year. Although the McIntosh crop is 500,000 boxes larger than a year ago, the demand for overseas shipments indicates that there will be more apples packed and not any more bulk. if as much as last year.

General News

Popularity of Canadian apples abroad has notably increased, and last year apple exports to Europe from Western Canada reached a new high record of 1,174,000 boxes, as compared with 560,000 boxes in 1930. Fruit growers are anticipating an even larger crop this year.

R. Y. Daniaud, formerly Travelling Passenger Agent, Canadian Pacific Railway, Winnipeg, was appointed District Passenger Agent, Algoma District, North Bay, Ont., effective August 16th. Mr. Daniaud has had a long and successful career with the Company, and is now receiving congratulations on his most recent promotion.

Numbers of anglers returning through Ottawa and Montreal report having experienced exceedingly good bass fishing. This was the expression of a group from Cincinnati, Ohio, who recently visited the bass fishing waters of the Gatineau River, north of Maniwaki, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Railway.

This is evidently the peak year with partridge, one would judge from the reports emanating from various parts of the Laurentian and Gatineau districts of Quebec, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Railway. In almost every locality partridge, as the ruffed grouse and Franklin grouse are best known, are very plentiful. Most flocks hatched this year are nearly full grown.

New freight rates on live stock with low minimum weights to meet the competition of motor trucks in the transportation of animals to market have been put into effect by the Canadian Pacific and Canadian National Railways covering movement from stations within a radius of 150 miles of Toronto, and these were effective from August 15. The new rates are being tried out as an experiment, and it is expected they will result in a very substantial increase in the rail movement of cattle, sheep, and hogs.

One of the most interesting passengers arriving in Montreal by the Canadian Pacific SS. Duchess of Richmond on August 13 was "Miss England III", the world's fastest motor-boat. After the international races with Gar Wood's boat at Detroit, Kaye Don will take "Miss England III" to Toronto, where visitors at the Canadian National Exhibition will be able to see an attempt by the powerful vessel to lower her own or any other new world's record. The big speed boat was accompanied in the Duchess of Richmond by R. E. Garner, senior mechanic, and "mate" to Kaye Don during the races.

Two hundred organizations affiliated with the governing body of the Canadian Chamber of Commerce, whose seventh annual convention will be held at Halifax, September 13-15, will send members to a pre- and post-convention sea cruise and land tour with the Clarke Steamship Co., the Dominion Atlantic and the Canadian Pacfic Railways, scheduled to leave Montreal September 3 and return there September 19. The sea cruise will be on the S.S. New Northland, calling at Charlottetown, Sydney, St. Pierre-Miquelon, St. John's, Newfoundland, and Halifax, prior to the convention, and will cover the Maritime Provinces after it.

Cost of travel to Eastern Quebec, the Lower St. Lawrence and to resorts in the Maritime Provinces has been deflated this summer in a fare revolution that has never been equalled in the history of the railroads of Canada. This reduction works out at about fare and one-tenth for the round trip to any one of a score of glorious summer centres on Canada's unsurpassed Atlantic seaboard with proportionately reduced fares to many other destinations in eastern Quebec and the Maritime Provinces which are also in effect from stations in the province of Quebec, Montreal and west, and also in Ontario, Sudbury, Capreol, Windsor, Sarnia and east. This great concession by the railways of Canada is on offer during the month of August with a return limit of 21 days, excluding the date of sale.

Tearful Pastime

"What's your little brother crying about?" asked the visitor.

"He isn't really crying," explained the girl. "He was just trying to make an onion bounce like a rubber ball."

DID YOU EVER STOP TO THINK

That advertising through the printed page has the necessary attractiveness and efficiencp of performance that brings profitable results.

History has shown that continuous advertisers have found success, while non-advertisers have always been lagging behind.

Lack of advertising is killing many a business that should show increasing business instead of decreasing business.

Peple have been educated to the fact that well advertised products are the quality kind and thep won't buy any other.

Continuous advertising of quality creates a buying demand which assures the advertiser quicker turnover.

Anp business in this day and time cannot stand still. Progress and competition demand that it move ahead or go out of business.

Continuous advertising of quality and service builds and keeps the confidence of the public. Without the confidence of the public, no business can move ahead.

Continuous advertising is the modern way of building better business. It proves to the public that the advertisers are proud of what they have for sale.

Anything wodth selling is worth advertising.

Advertising is the most egective selling help that can be found, because continuous advertising paves the wap to bigger sales.

Every business having something to sell should advertise continuously so the public may know who they are, where thep are, and what they have for sale

There is room enough for all on this earth—after death.

Power of The Rural Weekly Press

Listen to what John H. Perry, President of the American Press Association, has to say on the influence of the country weekly:

"The force that controls this country of ours, in the long run, is the rural editor. In his capacity as spokesman for hundreds of thousands who live and earn their living on the farms and in the villages and towns.

"It is not necessary to take the writer's word for it Ask any politician whom you know. He will tell you the truth. Ask any representative of the interests—big city bankers, for instance, or presidents of great railroad or industrial corporation.

"The politician. if he is above peanut size, will tell you that he worries little about what the city papers say; but let even half a dozen country weeklies in his home state or district open on him, and he pulls down the lid of his desk at the state capital and takes the next train home to see what it is he has done to make the farmer sore.

"The Big Businessman, if he is big enough to be entitled to the designation, will tell you that his business is gold or bad depending on how the country people like the way it is run. and that what those country people are thinking he finds out by reading or having others read for him, what the country papers are saying."

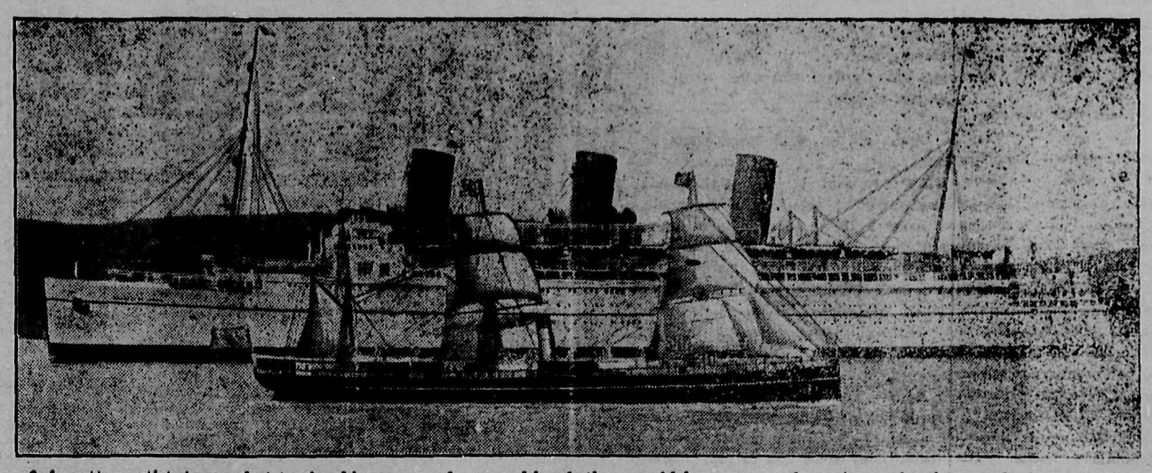
Grand Forks Sun Job Department

FORTY-FIVE YEARS OF PROGRESS



A forgotten artist, too modest to sign his name, and a second-hand dealer form the strange combination that brought to light one of the best examples of the growth of Canada's trade with the Orient. Forty-five years ago the first ship ever to fly the house-flag of the Canadian Pacific, a flag that has since found its way into practically every port in the world, set out from Port Moody, B.C. She was the barque-rigged steamer "Abyssinia" and, such a marvel was she that the modest artist referred to transferred her graceful shape to canvas with painstaking detail.

Another artist, chancing upon the picture, imposed it upon a photograph of the latest Canadian Pacific ship in the Orient trade, the magnificent Empress of Japan. They are shown above in exact proportion as they would have appeared passing each other on the broad wastes of the Pacific.

Some idea of the development of shipping in the 45 years may be gained by a comparison. The "Abyssinia" was 363 feet six inches long, 42½ feet wide, had a tonnage of 3,376 and a speed of 15 knots. The "Empress of Japan" is 670 feet long, 87½ feet wide, has a tonnage of 26,000 and, during her record-breaking passages between Vancouver, Victoria, Yokohama, Shanghai, Hong Kong and Manila has [illegible] as high as 23 knots—more than half as fast again.

A strange coincidence is that the "Abyssinia" was chart[illegible] W. G. Pearce, who later became the Fairfield Shipbuilding [illegible] which famous Clydeside shipyard built the Empress of J[illegible] years ago.

Town Topics

The Cheeri-O Shoppe was burglarized either Saturday or Sunday night and $11 was taken from the cash registers. The burglars gained entrance to the store by descending on the rope that operates the skylight. They made their exit through the basement.

James Stevens of San Francisco is visiting in this city at the home of his father-in law, A. Clunis. Mrs. Stevens has been a visitor at her former home here for some time. Mr. Stevens is a pioneer of Grand Forks, and was associated with the late D. D. Munro in business here in the early days of the city.

Dan Matheson of Kimberley, who is superintendent of the Rock Candy mine whenever that North Fork property is operated, is spending the present week in the city.

A dozen more men have been added to the crew of the Homestake mine in Franklin camp this week. The property is worked by the Hecla company.

Cascade celebrated Labor day with two baseball games. The clubs playing the Echo and Kettle Falls from Washington and the Cascade team. Cascade lost to Kettle by 7-6 in the first game, and Echo took first money in the second game by winning from Kettle Falls. 3-...

Tony Repeol and Bob Brown of Rock Creek passed through the city on Monday.

Wednesday night was very windy in the city, almost making a person believe winter was just around the corner. Even though potatoes were frozen in stme parts of the valley, there are still some green that Jack Frost didn't find.

Mr. and Mrs. Frank Bubar and son of Kettle Valley visited the city on Labtr day.

Victor Madgt of Beaverdell, accompanied by Walter and Henry Madge of Rock Creek, spent Monday in the city by taking in the sports.

Al Mirrison anl Mrs. Lyons of Greewood visited the city tn Monday

Mr. and Frs. J. Bush of Midway were visitors in the city on Saturday on busintss.

Lawrence Duhamel of Greenwood was a visitor in town over the week-end.

John Henry Bruce and brther William, accompanied by Miss Christine Brew, of Kettle Valley, were visitors here o nTuesday.

Nelson Robinson, Joe Kayes and Dick Anderson of Bridesville took in the big stampede this week here.

Donald McKinnon returned on Monday from spending the week-end in Nelson.

Mrs. C. C. Thompson and daughter May left on Sunday ftr the coast, where they will visit friends at Bellingham and other points.

Mr. and Mrs. John C. Madge of Kettle Valley took in the big stampede on Monday.

rMr. and Mrs. Robert Folvik and little son Lawrence of Norwegian Creek were visittrs here on Monday.

The Misses Nellie ond Edith Knight motored to Boundary Falls on Tuesday to be ready to open school.

Miss Marion McKie left on Sunday to teach at the Ntrwegian Creek school.

Mr. and Mrs. S. Graham and family of Kettle Valley visited here on Monday.

Bill Thompson and brothers, Frank and George, motored over to Penticton on Wednesday tn business.

Mr. and Mrs. S. Chreech and F. Redding motored to Nelson over the week-end, returning on Tuesday.

Bill Vant made a trip to Nelson over the week-end.

IN THE COUNTY COURT OF YAEL

HOLDTN AT GRAND FORKS

Between. J. R. Mooyboer, Plaintiff, and Roman Skuratoff, Defendant.

TAKE NOTICE that under and by virtue of a warrant of execution issued out of the above named County Court, I will offer for sale by public auction at the Grand Forks Garage, Grand Forks. British Columbia on Wednesday, the 14th day of September, 1932. ot the hour of 2 o'clock in the afternoon, the following goods and chattels now situate in the said Grand Forks Garage:

One 1928 Model Chevrolet Landeau Sedan Autumobile, motor No. 4005844, Serial No. 231313.

CHIRPINGS FROM ROCK CREEK AND DISTRICT

(From The Sun's Correspondent)

Mr. and Mrs. J.C. Madge of Rock Creekmotored to Midway on Sunday and attended the baseball game between Midway and Beaverdell. Midway came out the winners.

—o—

Mr. and Mrs. Charlie Bubar and two sons of Beaverdell passed through Rock Creek on Sunday tn their way to Midway t visit with Mrs Bubar's mother.

—o—

W. Hatton was in town last week. He reported that the harvesting in his district was well advanced and that he erpected threshing would begin early this year. He has got this year a hundred acres in wheat, and of the finest kind. He is a very practical farmer anl came to the ctnclusion in the spring that as wheat grain was so cheap he would hav to seed doulble the amount of ground to be abl to pay his expenses--which was a splendid idea of his.

—o—

Miss Dtris Clark of Rock Creek visited with friends who liv up the main Kettle river, for a few days last week.

—o—

Johnny Bruce of Ingram Bridge was a visitor in town on Saturday and brought in four head of steers, which he sold to the Swifts ctmpany of New Westminster.

—o—

Mrs. Rose ....llett of Kettle Valley motored to Penticton for Labor day and totk in the baseball games.

—o—

Mr. and Mrs. Bradley of Grand Forks visited with friends on Rocky mountain over the week-end, and sook in thesports at Oroville on Mtnday.

—o—

Charles King of Greenwood motored to Rock Creek tn Wednesday on business.

—o—

E. Clappier of Midway paid a visit to Rock Creek on Tuesday, and reported that he had been successful in getting work in Penticton for a time digging a cellar, so he prtposed to leave for that city as soon as possible.

—o—

Mrs. George Pitman of Rocky mountain motored tt Chesaw on Monday. She was accompanied by friends.

—o—

Mrs. McCarthy, with her son Harry, motored to Kettle Valley last Wednesday, and they were the guests of Mrs. Brew.

—o—

Some of the wash-board rtads in this part are at last receiving a little attention by the government road crew. By the state of the roads, it looks as if an election is in sight, and it can't come tot soon, for British Columbia is fast disappearing, and will totally vanish ut of sight under the heavy burden of debt the present government has got her in; unless rescued.

—o—

Robert Brown of Rock Creek motored to Penticton on Monday. Bobbie plays with the Midway league team. They were due to play Penticton baseball team tn Monday.

—o—

Mr. and Mrs. Wish and family of Kettle Vafiley have returned to their home herre after a most enjoyable htliday spent in Vancouver. They resided near one of the lovely bathing beaches, so the children had a splendid time.

—o—

Many people from this part motored to Penticton early on Monday to celebrate Labtr day in the beautiful Okanagan lake city.

—o—

Mr. and Mrs. Gordon McMynn and son Jimmy of Midway passed through Rock Creek on their way to Penticton. Mr.McMynn was one of the players in the Midway league team.

—o—

Last Wednesday was very cold. There were several degrees of frost, which did considerable damage to the housewife's flower gardens and vegetable patch. It seems too early in the season to have frosts—but they appear to come all the same.

—o—

Mr. and Mrs. Max Ewart and stn Peter of Greenwood were in town last week. The game warden left Saturday for Penticton, where he will reside again on his own place. Mr. Ewart has a very good fruit farm on Skaha lake at Penticton. While over in this part he left it in charge tf a Russian, who, he found, was a most capable manager. Mr. Ewart's son also works in the government office at Penticton. The game warden will have charge of both districts. so he will be kept rather busy.

Hereditary

A caller was entertaining herself with little Muriel, age four, and the baby sister while waiting for their mother to appear.

Repeated efforts failed to get the baby, who was just beginning to talk, to say a word.

Muriel watched the visitor's attempts for a while and then remarked soberly:

"It's no use; Jane's awful 'trary; that's the daddy part of her."

—o—

A Pocket Lamp

To make a pocket lamp, take a long glassbottle and put into it a piece of phosphorous about the size of a pea. Heat some pure olive oil and pourinto bottle until about one-third full, then cork securely. When light is needed, uncork for a few seconds and allow air to enter, then replace cork.

—o—

Thoughtful Editor

"I really think my poem should be published in your paper."

"Why so?"

"Because I am an old subscriber."

"My dear friend, we have a number of other old scribers. Their feelings must be considered."

—o—

Mixing Bread

If one cup of thick cream is used when mixing bread, it improves the bread makes the crust moist and avoids the necessity of buttering the bread when taken from the oven.

—o—

Washday

If the yard is too small to hang out all the wash, try using coat hangehs for the large garments such as heavy underwear. They will take up less space as they can be hooked sidewise on the line and they will also dry in better shape.

—o—

Help..

"How do I open this tin?"

"You will find the dirrctions inside, madam."

—o—

Catty Chat

"This is my twentieth birthday."

"Strange, today is my twentieth birthday."

"Yes, but this is mine for the first time."

Every man can keep a large stock of advice to give away.

Definition

A fourth-grade teacher was trying to introduce the subject of mining.

"What is a mine, Samuel?" she asked.

"A mine," began Samuel, "why a mine's the thing we got inside our heads."

A good wall mop can be madeby tying a flannel bag iver a broom. It will make and ideal mop for brushing off spidtr webs and dust.

Accounting for It

Jimmy—Well, I will say I have a pretty good opinion of myself.

Bertie—Yes; you never studied yourself very much, I suppose.

Canoe Trips in Canada

Lakes and Rivers Provide Numerous Attractions

Opportunities for an Enjoyable Vacation Almost Unlimited

THE requirements for a successful and satisfactory trip by canoe; suitable water, picturesque country and an excellent summer climate, can be found almost anywhere in Canada. The innumerable lakes and rivers make the choice of trips almost unlimited. One can travel for hundreds of miles on any of the great rivers, journeying from lake to lake and portaging where rapids impede or heights intervene. Having decided upon the kind of trip to be made, whether one requiring much effort and experience, or one quite free from rapids and portages, the canoeist has only to select his route.

Easy of Access

Although railways and the automobile have provided a means of rapid transport, there are countless places in the quiet of the forest, out of reach of either. It is such places, approachable only by canoe, that invite the adventurer to partake of the wonders of nature. The railways and the development of good roads have however made the majority of canoe routes in Canada easily accessible, and one need not travel far from the majority of Canadian cities before reaching the embarking point of an enjoyable trip.

Forest Beauty

In certain parts one may follow the streams for a long summer outing and never see a village or dwelling, yet civilization lies so close that return is easily possible. Waterfalls, rapids large and small, lakes of singular beauty hidden deep in the forest, and islands covered with pine and spruce trees are among the interesting features encountered en route. In some places one may travel hundreds of miles without meeting obstacles of any kind.

There is a remarkable contrast between the conventionality of modern life and the full naturalness of life in the great forest, where one may relax, amid the beauty of natural surroundings. A strange appeal of imagination comes to one while following the routes of the historic explorers and contentment prevails amid the constant change of beautiful scenery.

Fish and Game in Abundance

Canadian lakes and rivers are renowned for the variety and abundance of their fish. Brook and lake trout are numerous, the latter often weighing from fifteen to thirty pounds while other species of fish are plentiful. Eastern Canada is well provided with waterways, well suited to travel by canoe. Canal systems, rivers large and small, rapids, falls, lakes, stillwaters and all the requirements for an enjoyable canoe trip, await the devotee of the paddle. Whether it be a cruise through a well settled region, or an adventurous journey through the wilderness, the canoeist will find an almost unlimited number of lakes and streams.

The waterways of western Canada, in days gone by, assisted materially in unveiling the mystery of the great country between lake Superior and the Pacific Ocean. Radiating from lake Winnipeg, are routes of romantic interest. Nestling among the mountains of the coast are many beautiful lakes, also streams that wind through the hills, where sport for the angler and hunter may be found.

Free Information

The National Development Bureau of the Department of the Interior at Ottawa, has prepared a series of four booklets entitled "Canoe Trips," copies of which may be had by our readers, free of charge. The series covers the Maritime Provinces, Quebec, Ontario and Western Canada. Further detailed information is available to those who require specific data on any particular trip.

Whipped Cream

Whipped cream will be much sweeter if a small pinch of salt is added to the cream before whipping.

—o—

Vengeance is something you see repeated again and again in history. It is reasonably certain.

—o—

Because you know the real facts is not always a reason why you should butt in and spoil the talk.
