M. & V. DEBTS PAID

The Sum of $63,000 To Be Paid Out Within Next Few Days to Creditors of Defunct M. & V.

The news from Victoria thas the special commission appointed at the beginning of the year to inquire into claims against the defunct Midway & Vernon, will prove very acceptable at the present time. When the first report was given out as to the valuation placed upon the work done in grading between Midway and Rock Creek doubts were entertained as to how creditors would fare, for the amount specified as the valuation of the old grade represented a sum that would fall far short of satisfying the claims against the road. The latest report, however, is to the effect that every claim against the work expended in any way between Midway and Rock Creek would be paid in full.

One point left in doubt was that of payment of claims for survey work done over the summit between the head waters of the West Fork and Kelowna, the Kettle Valley Co. who have taken over the Midway and Vernon charter and become responsible for the debts, being indisposed to pay for outlay that was not going to be of any benefit to them, and as they will not use any portion of the surveyed route between the West Fork and the Okanagan Mission Valley a regretable hitch occurs in the payment for debts contracted on that portion. This decision, if persistently adhered to, will prove a great hardship to those who have suffered loss in equipping and outfitting the pack trains for that particular work, for they did so in quite as good faith as those who furnished the supplies and the labor for building the grade between Midway and Rock Creek and it seems very much of a hardship that they should be left out of it for no fault of their own beyond the misfortune of having been tied up with such a bunch.

It is well known that the representative for the Similkameen has taken strong ground in their behalf and if there is any possibility of him yet being able to secure recognition of their claims it will be done.

THE OROVILLE DELAY

There is a rumor to the effect that the Great Northern have expressed an inclination to change the present running of the trains from this valley to Spokane, not by abolishing the Oroville stop off but of making the layover elsewhere, and the rumor makes it appear that the layover is to be at Keremeos instead of Oroville. That the Oroville sojourn should have been maintained as long as it has is taken as evidence of the railway's supreme indifference to the wishes or convenof the people resident in this valley.

What they expect to accomplish by changing it to Keremeos instead is a mystery, and it seems difficult to believe that there can be anything in the report. So far as Keremeos itself is concerned we don't believe there are any there who would favor such a change, for as far as local convenience is concerned it would be worse for them than it is at present. Now if they want to run up to either Hedley or Princeton on business they can put in a good morning's work at home; take the train at 10.30 and have either two hours at Princeton or four hours at Hedley and be back home again at a little after four o'clock in the afternoon to get a long evening's work at home on their fruit lots, and people at Princeton or Hedley who want to go to Keremeos can get time to do business there in the evening after their arrival as well as the next morning before the train pulls out at 10.30. With a changed schedule which would merely substitute Keremeos for Oroville as the place of layover there would be the one night away from home without opportunity of accomplishing anything in the way of business.

What the people of the Similkameen want from the Great Northern is a straight run through from Princeton or Otter Flat to Spokane wishout a layover at any point, and they want the immediate completion of the road through to the coast. It has now taken them five years and seven months to get their rails from Midway to Princeton. With such a record it is very apparent that Jim Hill is indeed getting old.

CHRISTMAS

The Gazette Wishes Its Patrons and the District generally
A Merry Christmas and
A Happy Prosperous New Year

"We ring the bells, and we raise the strain,
We hang up garlands everywhere
And bid the tapers twiukle fair,
And feast and frolic—and then we go
Back to the same lives again".
—SUSAN COOLIDGE

1910

MINE-OWNER DIES

Speculation as to Effect It May Have on the Rock Creek Gold Mines Co.

The death is announced, in Victoria, of Theodore Lubbe, originator and builder of the Esquimalt waterworks plant. People in the upper country will wonder what effect this will have on the Rock Creek Gold Mines Co. which owns the Victoria claim on the north fork of Rock Creek about three miles east of Camp McKinney. The Victoria claim was staked several years before the famous Cariboo mine was discovered, and in the years 1896-7 it was reopened and considerable development done but closed down awaiting transportation. Why a property of such merit has been kept idle all these years has been a mystery. Mr. Lubbe and his associates had the controlling interest in the property.

SCOTTISH RED DEER TO STOCK PROVINCE

Suggestion Is Made that Island Reserve Should Be Formed for Supply Purposes

Victoria, Dec.14—In a letter to Hon. Dr. Young, the provincial secretary, Mr. Warburton Pike, who is now in the Old Country on a special mission for the government, sends the encouraging news that Scottish red deer for stocking suitable portions of this province can be secured for approximately 10 pounds each. The suggestion receiving consideration is that an island in the gulf shall be placed under reserve and the imported animals placed thereon under proper care until they become acclimatized. this island reserve being later used as a distribution depot in the stocking of suitable localities for red deer in various parts of the province.

AROUND THE WORKS

Bit by bit the various parts of the new plant are being put in commission. Last week the new electric motor to drive the rock crushers was started up and went off without a hitch. It is a 50 h. p. motor, wire wound rotary, with special starting torque of 125 h. p. and capable of continuous overload of 25 per cent. Its power is such that no rock which enters the crusher jaws is able to slow it up in the slightest and with ease it is keeping the ore bins full to overflowing with crushed rock.

The motor for the batteries is also in place and the big 10 foot pulley for the battery camshaft is being put in place and will in all probability turn over to-day by electric power. The motor for the Oliver filter presses have been in operation for some time.

Altogether it has been most exasperating the delays the management has been subjected to from the manufacturers of electric and other machinery for some of the motors and pumps have not yet come to hand and are not likely to be here before about the 9th of January although they were contracted for on April 9th on 60 days delivery. Thus the sixty days will have run into nine months before they reach here.

Up at the mine they are experiencing the advantage of the better electric power supplied by the new generator for now they can handle eight ore trains per day with greater facility than they could formerly run seven.

HOSPITAL IMPROVEMENTS

On Monday night the hospital directors met and inspected the new work on the Hedley hospital before taking it over from the contractors, Messrs. Boeing & Brass. The new work consisted in finishing the upper storey and also the basement. The upper storey has been divided off and plastered with wood fibre, making three good rooms and a large roomy landing which is a room in itself.

Downstairs the whole west side from front to rear is plastered and finished off, making a commodious kitchen and dining room. Some excavation was also done in the east end of the basement to accommodate coal bin and provide storage room while a portion of it is partitioned off to protect the water pipes from freezing. On the floor above, a door was cut between the public ward and the bath room, and a porch was placed over the front door and a platform along the front from the main entrance to the east end of the building with another small platform in rear outside the kitchen door. A new cess-pit was also put in to accommodate water from the kitchen sink entirely separate from the one which had formerly been put in to connect with the bath-room and toilet.

METEOROLOGICAL.

The following are the readings showing temperature, etc., for the week ending Dec. 17, 1910:

U. S. AND THE VETO

The comment of the average paper in the United States on the British elections and particularly on the British House of Lords is amusing for the ignorance on the subject it displays. The Asquith government is for the most part represented as championing the cause of the masses against a hereditary oligarchy. But the truth is that if any government in the United States would ask for such powers from the people to enable them to run amuck with the constitution that the radical administration in Britain has been seeking in the last two British elections they would be laughed at. The people of the United States would no more think of dispensing with the veto power over any administration than they would of crowning big Bill Taft, king. It is ages since any sovereign of Britain has possessed the veto power exercised by the President of the United States and it is decades since the British House of Lords has attempted to exercise the veto power vested in them with one-tenth the degree of arbitrarness that the American Senate does every year with the commonest measures that go to them from Congress. Neither would the people of Canada think of dispensing with the veto power of the Canadian Senate no matter how rotten some senatorial appointments may be, and it is now generally recognized in Canada that the greatest misfortune any Federal Government in Canada can have is to have a Senate that is of the same political stripe as the government in power. When the Canadian Senate was Conservative in its leanings at the beginning of the Laurier regime they performed some service for which the best Liberals are to-day truly thankful and among the good things they did was the vetoing of the Drummond County railway bill.

In all probability it is the hereditary principle of the British upper house which is proving the bete noir, but the basis of reform proposed by the House of Lords itself should remove that objection. The proposal aims to cut down the number of peers entitled to sit in the House of Lords and to dispense with the principle by which heredity gives the right to a seat, that right requiring the indorsement of the House of Lords as to fitness. It even goes further than this and suggests that half the members be appointed by the Commons. And yet that is the proposal that British radicalism allied temporarily with wild eyed socialism and Irish demagoguery has turned down with the assistance and approval of the Irish tail-twisters of New York and Chicago, and that is the result that the ill-informed American press and American people smugly regard with satisfaction although they themselves are protected from the more serious harm that unchecked demagoguery may inflict in that they are hedged about with the double veto possessed by the Senate and the President.

NOTICE

SIMILKAMEEN LAND DISTRICT
DISTRICT OF YALE

TAKE notice that Daniel Burton, of Cranbrook, B. C. occupation train conductor intends to apply for permission to purchase the following described lands:—

Commencing at a post planted at the south-west corner of Lot 3,901, thence east 20 chains, thence south 40 chains, thence west 80 chains, thence north 40 chains, thence east 60 chains to point of commencement, containing 320 acres more or less.

Town and District.

A quantity of good dry wood for sale. Apply Innis' livery barn.

Mrs. Lowe and Mrs. Ewart, of Keremeos, were in town at the end of last week.

Mrs. F. H. Parsons, of Olalla, has been visiting for a few days with Dr. and Mrs. McEwen.

Wallace Knowles left last week for a trip to his home in Denver to spend the Christmas holidays.

Mr. I. M. Smith, of Colville, arrived in Hedley last week on a visit to his sister, Mrs. J. D. Brass.

Geo. Loudon, the hustling merchant of Keremeos Centre, was in town between trains on Thursday.

Hedley Masons and visiting brethern are requested to meet at the hall on Sunday evening not later than 6.30

Don't forget the Children's entertainment in Fraternity hall to-morrow (Friday) evening which is to begin at 7:30.

Billy Lonsdale returned last week from Vernon where he had gone to write on exam. for a higher grade of engineer's certificate.

The Princeton hospital is expected to open about the middle of January with Miss Thomas, a graduate of the London hospital, in charge.

A Boundary hockey league consisting Greenwood, Phoenix and Grand Forks Clubs promises good sport this winter for the people of those towns.

Annual masquerade ball at Princeton, Friday December 30, 1910. A large assortment of character masks, wigs and dominoes at Princeton drug and bookstore.

The Vernon News has issued a fine Christmas number which in matter and execution fully sustains the high reputation which that paper enjoys for the execution of first-class work in every line.

School closed on Friday last for the Christmas Holidays and will re-open on Monday Jan 2. The attendance for the past term has been the largest since a school was opened in Hedley, and during the term good work was done.

We were in error last week in crediting a couple of deer killed up Sterling Creek to Ed. Burr when Burns Bowerman was the lucky hunter who made the kill, and he managed to get still another before the season was out, making three in all for that trip.

O. H. Carle has our thanks for a calendar which is altogether a new departure in the calendar line, being a wall pocket on a panel on which is a handsome fruit design, making it a very appropriate souvenir for his line of business.

Frank Richter and Co. of Keremeos has our thanks for a handsome calendar which makes a very good companion picture to the fine art calendar sent out by them last year. It is a Canadian winter scene and the leafless trees showing in the moonlight are those more familiar to easterners.

And now for the lengthening days. Already they have lengthened out three minutes in the evening and from now on the rate of increase in the evening will exceed that of shortening in the morning, which latter will go on for about ten days more before they will begin to lengthen out at both ends of the day.

A new townsite has been laid out at Princeton which adjoins Hugh Hunter's place on the west. The Star says the lots are 50x120 feet which is much more generous than townsite plotters are generally disposed to be. The new townsite is controlled by the United Empire company and is called East Princeton. Thus each coal company will have a townsite of its own.

Last year's smoker proved so successful as a fun-maker for New Years that the lads from the mine are coming down this year again for another which is to come off on Monday night the 26th. This is a little ahead of schedule time for New Years eve but it was the most convenient night available.

Ottawa has at last managed to get Hedley on the map; the new map issued by the chief geographer of the the Department of the Interior has apparently worked the trick. Of course the Mines Department has known for some time that Hedley was right here, but now that the chief geographer has found us out we can consider ourselves discovered. And now if W. Fleet Robertson could also manage to find it out in some way or other and get us on that antiquated thing called a map which he sends out each year with the Minister of Mines report, our joy would be complete.

The Press throughout the province had warm congratulations for Premier McBride on attaining his fortieth birthday. As a product of B. C. he has become its most important human asset and may he continue to head the inventory forth years more.

The special Masonic service on Christmas night will be held in Fraternity hall when Rev. A. H. Cameron chaplain of the lodge will preach and there will be special music for the occasion, conducted by Mrs. J. A. Brown, of Keremeos. The service will begin at 7:30 and visiting brethern are expected from Keremeos and Princeton.

Messrs. Gosnell and Malone of Nelson, were in Hedley on Friday night and went to Princeton by Saturday's train. It is the intention to organize a new brewing company which is meant to control the brewing trade in the Similkameen and in all probability the Hedley brewery will be taken into the concern along with the Princeton brewery owned by Mr. Gosnell and his associates.

Mr. John George, manager of the British Columbia Portland Cement Co. was taken ill at Armstrong several weeks ago and has gone back east to recuperate. Meanwhile his partner, Mr. Budd of the Blairmore works, and other officers of the company are looking after the new enterprise on One-mile and one thing they are pushing is to have the Great Northern put in the bridge over the Similkameen this winter so as to have everything in shape for rapid installation of the plant when the spring opens.

Max Ewart constable at Keremeos arrived in Hedley on Saturday with Aeneas Nahumshan, charged with horse stealing. Nohumshan has done time across the line and figures as a tricky Indian but Max has a habit of landing his man whenever he has a warrant to apprehend. He is loud in his praises of the assistance and co-operation on the part of the peace officers of Okanagan County, Washington, with whom he has had to do on several chases which he has made across the line.

Local calendars received during the past week are those of the bank of B. N. A., Shatford's Limited and R. J. Edmonds. While all are of sufficient artistic merit to qualify as art calendars the two former are utility calendars as well, the figures being sufficiently large to be serviceable for office use. A fine photographic view of the citadel of old Quebec is a prominent feature of an artistic design on the B. N. A. calendar, the picture on that of Shatford's Limited is entitled "Safely Guarded", and that on Edmond's calendar, the picture is entitled "On Guard".

Young Steves the half breed charged with cattle-stealing was given a hearing on Friday night last and the evidence being particularly strong against him he was committed for trial at the assizes. During the hearing chief Charlie Allison acted as interpreter in obtaining the evidence of the Indian woman, Elizabeth Moeace. On various occasions the local court has benefited by the services of the chief who has co-operated in securing the conviction of offenders who have been trying to lead the Indians astray and while he is always on hand to assist members of the tribe who may be in difficulty he has no use for law-breakers who get them into trouble. There has been too much looseness in the matter of taking liberties with cattle belonging to others and doubtless young Steves in this case was only doing what he had known others to do.

Water Notice

Notice is hereby given that an application will be made under part V. of the "Water Act" 1909, to obtain a licence in the Similkameen Water district of the district of Yale.

a The name, address and occupation of the applicant is Kenneth C. B. Frith, in the city of Greenwood, in the District of Yale. Postmaster

b The name of the stream or source is Hunter creek, a tributary of Susap creek, which easterly and enters into the Similkameen river about 10 miles south-easterly from Keremeos.

c The point of diversion is on Hunter creek about ¾ of a mile west of lot 1991.

d The quantity of water applied for, in cubic feet per second, is one foot

e The character of the proposed works is a ditch with flumes and pipes where necessary, and leading from the point of diversion to the point of user.

f The premises on which the water is to be used is 80 acres, which the applicant has applied to purchase from the Government, and which lands are bounded south by said lot 1991, east by Indian Reserve No. 3, North by Indian Reserve No. 1, and west by lands believed to be vacant crown lands,

g The purposes for which the water is to be used are agricultural purposes.

h If for irrigation, describe the the lands to be irrigated giving acreage: The lands intended to be irrigated are mentioned and described in paragraph F hereof and contain 80 acres.

i The area of crown land intended to be occupied by proposed works: The ditch and pipes [illegible] from the point of diversion to the lands of the applicant will be about two miles in length and will run through Government lands and a sufficient width will be required to construct and maintain a ditch with flumes and pipes if necessary.

j This notice was posted on the 5th day of December 1910 and application will be made to the Commissioner on the 4th day of January, 1911.

k Give names and addresses of any riparian proprietors or licensees whose lands are likely to be affected by the proposed works, either above or below the outlet, none.

Hedley, B. C.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---- Famed for Fruit Growing

Town and Lower Valley.

A merry Christmas and a happy and prosperous New Year to all our readers.

S. N. Richards, inspector for the Manitoba Assurance was in town on Saturday.

Miss Reta Kirby who has been visiting friends at the coast returns home this week:

Miss Florence Spencer has resigned her position at the Keremeos post office and her place is being taken by Miss Mildred Kirby.

Mr. Richter's friends have received word that he has recovered from his illness at Spokane and has been able to proceed on his journey to California.

Mrs. Leadbeater and daughter, of Carberry, Man., who have been expected for some time arrived Tuesday on a visit to their parents Mr. and Mrs. John Mattice.

Remember the Sunday school Christmas Tree and entertainment in the Town Hall, Keremeos, on Friday evening. Admission 50c. Children under 15 years free.

Mrs. E. Lowe and daughter, Mrs. Ewart, visited friends in Hedley the latter part of last week and on their return home were accompanied by Miss Edith Bradshaw, who is spending a week with them at the ranch.

On Wednesday of last week at the Hotel Keremeos, Rev. Mr. Cameron tied the nuptial knot for Paul Loudon and Nellie Windsor, of Loomis, Wash. Mr. Loudon is a brother of Mrs. Richter and George and Charlie Loudon at Keremeos Centre.

Public school closed on Thursday last and on Friday Miss McMullen left by Penticton stage for her home at Vernon. She was accompanied by Miss Bryce teacher at Similkameen. Both trustees and pupils regret the departure of Miss McMullen who has proved a capable and efficient teacher and is now leaving to pursue a further course of study,

In a speech at Portland, Ore., the other day J. J. Hill is credited with saying that all the G. N. branch railways in Washington and British Columbia would be completed at an early date. As this will mean among others the V. V. & E. we trust that Uncle has not been mis-reported this time as he claims was the case in his pessimistic speech of a few months ago.

Mr. V. Dynes, representing the Riverside Nurseries of Grand Forks was in town on Friday and Saturday looking up orders for spring planting. We can heartily recommend the stock furnished by the Riverside nursery. Mr. Dynes, who formerly resided in the Kootenay valley recently moved to Penticton, where he is now making his home.

H. B. Meausette is busy these days installing a water system in the home of D. J. Innis. Air pressure is the principle on which this system is worked. A windmill supplies the power to pump water and air into a large steel tank, which is made sufficiently strong to maintain the pressure required and is protected from freezing. The former attempt to erect the derrick with windmill attached into position resulted in the collapse of the light steel derrick and a long delay was occasioned as new parts had to be ordered. Mr. George B. Clark is installing a similar system in his new house.

There was a good attendance and considerable interest shown at the Fruit Grower's meeting held in the town hall on Saturday afternoon. Several new members were enrolled and a good number of old members paid their dues for the ensuing year. In response to an invitation from the secretary of the provincial association to the local associations to send in resolutions or questions of interest to fruit growers, to be taken up at the annual provincial meeting at Vancouver early in January, the following was passed: "Resolved that in the interests of fruit growing in the interior of British Columbia a fumigation station should be established at Grand Forks". The object of this resolution being to make it possible to bring in trees, plants and shrubs from Ontario and the States to the south which at present is practically prohibited on account of the fact that they must first be sent to Vancouver for fumigation and by the time they reach the purchaser are unfit for planting. The offer of the board of horticulture to give Keremeos a packing school next January or February, if a sufficient number of pupils at $3 each could be secured was next taken up. The scheme met with general approval and there was no difficulty in securing more than the number of students required the following subscribing their names to the list: J. J. Armstrong, J. A. Brown, J. M. Young, R. L. Gibson C. H. Armstrong, John Mattice, G. W. Cooper, Albert Mattice, W. G. Mattice, A. H. Cameron, W. M. Frith W. H. Quant, P. F. Quant and F. C. Sorge. The next meeting of the local association will be held during January for the election of officers and receiving the report of the delegate.

WATER NOTICE

NOTICE is hereby given that an application will be made under part V, of the "Water Act, 1909," to obtain a licence in the Osoyoos Division of Yale District.

(a) The name, address and occupation of the applicant: E. A. Hargreaves, Keremeos, B. C.

(b) The name of the lake, stream or source (if unnamed, the description is) Big Horse Creek, rising on south slope of Crater mountain.

(c) The point of diversion one quarter mile from mouth of creek

(d) The quantity of water applied for (in cubic feet per second) one cubic foot.

(e) The character of the proposed works, Irrigation ditch for domestic and Irrigation purpose.

(f) The premises on which the water is to be used, Pre-emption of E. A. Hargreaves.

(g) The purposes for which the water is to be used Domestic and Irrigation
