NOTICE

SIMILKAMEEN LAND DISTRICT.
DISTRICT OF YALE.

Take notice that I, Henry Allan Barcelo, of Keremeos, occupation, farmer, intends to apply for permission to purchase the following described lands:

Commencing at a post planted about 1½ miles east of the S. E. corner of W. Cohen's P. R. No. 412, Lot 2093; thence 20 chains north, thence 20 chains east, thence 20 chains south, thence 20 chains west and containing 40 acres, more or less.

H. A. BARCELLO

January, 7th, 1911.

NOTICE

SIMILKAMEEN LAND DISTRICT
DISTRICT OF YALE

TAKE NOTICE that I, Lorne Stanley Coleman, of Keremeos, occupation engineer intend to apply for permission to purchase the following described lands:—

Commencing at a post planted about 10 chains east of the south east corner of Lot No. 298, thence 60 chains south to a point 60 feet north of the International boundary line, thence west 20 chains, thence north 60 chains, thence east 20 chains to point of commencement.

LORNE STANLEY COLEMAN

Dec. 5th, 1910 — 1-10

E. E. Burr
General Blacksmith
Hedley, B. C.
Horse-shoeing and all Blacksmith Work Promptly attended to.
Pipe-fitting done.

NOTICE

Certificate of Improvements.

DOLPHIN and SPAR FRACTIONAL Mineral Claims, in the Osoyoos Mining Division of Yale District. Where located: on the east side of Lereneos Creek on Manuel Barcel's ranch.

Take Notice that I, C. A. Stoess of Selowna, B. C. acting as agent for Chas. W. Jordan, of Olalla, B.C. free miner's certificate No B10931, intend, sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action under section 37 must be commenced before the issue of such Certificates of Improvement.

C. A. STOESS

December 29th, 1910 — 50-10

ROBBERY IN HEDLEY

T. H. Rotherham's Pool Room Entered and Contents of Till Taken.

On Monday evening about 6 o'clock a robbery that was a mixture of daring burglary and petty sneak thieving was pulled off. The proprietor had gone to supper between five and six o clock as usual, but the barber who occupies part of the premises was detained with a customer and remained longer. He too left for supper about 5.45 p. m. and the place was locked up but the lights were left full on. Shortly afterwards some parties noticed the lights (which are gasoline lamps) going out in the pool room and wondered at it as being something unusual at that time of the evening. Nothing was known of anything being wrong until Rotherham returned about six when he was surprised to see the lights out (although the lamps were still hot) and the back door open. Examination of the back door showed that the lock had been broken apparently with an axe, and the till opened and contents extracted. He next examined the till in the barber shop and found that it also had been visited and rifled of its contents. The total amount taken from both tills is said to have been about $60.

The thief had thoroughly understood the layout of the premises and he also knew the manipulation of those gasoline lamps and cash registers, for the air pressure and gasoline supply had been turned off.

A stranger who struck town on Friday and put up at the Great Northern was suspected and constable Sproule searched him but found nothing on him that would warrant taking him in custody. Several very suspicious circumstances neverthe less gave good grounds for the suspicion and it is by no means a very sure thing that he was not the guilty party or one of them, for there may have been an accomplice.

HOSPITAL BALL

The charity ball in aid of the Hedley hospital given on Friday evening last was in all respects a pronounced success even although the attendance was not quite as large as on some former occasions. The principal falling off in attendance was in the case of guests from the outside. Both Princeton and Keremeos were represented but not in as great numbers as on former occasions.

The dance was held in the hall over Shatfords store and the room was tastefully decorated with evergreens and bunting while the floor was in very good condition. About 120 guests all told were present and of these, possibly over forty couples were among the dancers, and this number was about all the room could accommodate comfortably without undue crowding.

Music was supplied by the Coulthard orchestra, of Princeton, consisting of Mr. and Mrs. Coulthard and daughter on cornet, violin and mandolin and Mrs. Lyall accompanying on the piano. In the last part of the evening the cornet which was too loud for the stringed instruments was cut out and most of the guests approved of the change. On the whole the guests were well pleased with the music supplied. Mr. H. D. Barnes officiated as floor manager. Some thought that the encoring of dances was carried to extreme. An encore occasionally is encouraging and complimentary to the orchestra but when carried to extreme it becomes an imposition upon them.

Supper was served in Fraternity hall where tables were laid to accommodate 110 guests, and the manner in which the tables were dressed and the excellence of the menu supplied was evidence of the zeal in the cause shown by the ladies' Auxiliary who got it up.

A full statement of the financial end of the event is not yet to hand but a fairly close estimate places the net proceeds at about $250.

ANOTHER ESCAPE

Hedley nearly came in for a rather serious blaze on Thursday night of last week. Fire started in Critcley's shoeshop, a small building attached to the Commercial hotel. It is thought that a spark from the stove caught in a gunny sack curtain near by and it was beginning to go in lively shape when noticed by F. M. Gillespie and G. McEachern who happened to be in the drugstore opposite and were looking in that direction. They rushed over, kicked in the door when they found the gunny sack blazing and the woodwork alongside had commenced to burn. The curtain was pulled down first thing and the fire stamped out and the partially burnt sacking used to smother out the burning woodwork There appeared to be no water on the premises except a basinful which was used to help complete the work begun with the sacking. The Commercial hotel building is a huge mass of dry lumber and would have made a very hot fire, and in the absence of proper fire-fighting appliances it would have been a foregone conclusion that the drugstore post-office and other buildings in the near vicinity would have gone too. Meanwhile what has be come of the adjourned meeting for fire protection which was to have been held to act on information that sundry committees were to obtain for them? It certainly does seem an almost hopeless task to awaken the people of Hedley to a sense of their utter helplessness in the case of any serious visitation from fire. The Commercial hotel seems to bear a charmed life. During the time it was running it was on fire several times but the fire was always noticed in time to be put out. On one occasion a drunk who thought he wasn't getting warmed fast enough at the stove kindled a fire of wood on the floor alongside.

WEST FORK KETTLE RIVER

Mr. L. Reinecke spent the past season on the West Fork of the Kettle river, B. C. He has been engaged in topographically and geologically surveying this district for the Geological Survey and reports as follows regarding the mining development.

MINING DEVELOPMENTS ALONG KETTLE RIVER, B. C.

The small silver-lead workings near Beaverdell, on the West Fork of the Kettle River has shipped nearly $100,000 worth of ore at the end of 1910. The ore was hauled for nearly 50 miles by wagon to the railway, and only such as averaged $100 per ton or over could be shipped with profit. The largest mine was shut down in February of this year, and mining is now practically at a standstill. A railway is being constructed from Midway, on the United States Boundary, through Beaverdell. Renewed activity is expected in the mines upon its completion.

A promising seam of soft coal has been recently opened in the Tertiary shales near Midway.

Placer gold, gold-silver, and copper prospects were formerly worked along Kettle river and its tributaries, Rock creek and West fork.

WAS IN TRAIN WRECK

E. Bullock-Webster Survives Wreck of Scotch Express

(Penticton Herald)

It will probably be a surprise to Penticton people to know that Mr. E. Bullock Webster was in the Scotch express on the Midland railway which met with such a fearful accident on Christmas eve near Hawes Junction, Glasgow.

Letters were received by Mr. Bullock-Webster's intimate friends in town this week acquainting them of the above mentioned fact and stating that although badly shaken up he was uninjured.

Mr. Bullock-Webster was travelling to Glasgow where he has since been demonstrating the superiority of British Columbia fruit.

Mr. Webster was also in the ill-fated hotel fire in Fairview about nine years ago when the "big tepee" was burned down and several lives were lost. On that occasion he had to jump from an upper storey window.

COMMUNICATION

To the Editor Hedley Gazette

Dear Sir

I have read your paper since its first issue and have seldom seen Tulameen mentioned. The Gazette has a larger circulation in this section than any other paper published in the province and Tulameen should be considered in the field of its labors.

Tulameen is situated three miles west of the uncompleted end of the V. V. & E. Railway on the north side of the Tulameen river and adjoining Otter lake and is the natural commercial centre for all the mineral and coal resources of this promising district.

The Columbia Coal and Coke Co. a wide awake and progressive concern are opening up their coal holdings two miles below Tulameen and are the are the heaviest investors in the district; their saw mill situate at Tulameen has been taxed to its utmost capacity this season furnishing timbers and lumber for mining and residential purposes.

Under the able management of the Columbia Co. a record in our lumber manufacturing has been broken and all our lumber wants have been supplied up-to-date.

Among other companies organized in this section and about to open mineral properties in the early spring are the Kelly Creek Mining and Smelting Co. of Spokane, property on Kelly Creek and the Tulameen Platinum Co. Vancouver, property on Tulameen river.

The Blair Coal interests lying West of and adjoining the town which bids fair to be a strong competitor of the Columbia Co.

The Similkameen Mining Co. are preparing to push their enterprise with renewed vigor.

Report says a strong English Co. are negotiating for the purchase of the Swede group of mines on head of Bear Creek.

Wm. Flager's property on Boulder Creek upon which considerable work has been done will employ a still larger force this season.

The irrepressible Connelly and Speck are determined to place the Rabbit Mountain properties on a shipping basis during 1911.

The town of Tulameen grows slowly but surely. One of the best inland hotel buildings has just been completed at an estimated cost of twenty thousand dollars and the public are clamoring for its opening. This hotel will very materially assist in making Tulameen a summer resort, directly the Hill family make it possible to reach the natural baths at Tulameen and it is to be hoped some of them will live to feel the exhilarating effects of a motor ride on and a dip in Otter lake.

Plans have been drawn and arrangements are being made for the construction of a public hall 26x56 and the ambition of its owner is to introduce Jim Hill to the residents of Tulameen and assist in dissipating his mind of the necessity of comparing our methods with those of the state of Washington.

J. H. Jackson left for the coast last week intending to purchase boats for Otter lake the future goal for all pleasure seekers in summer time and hopes to have sufficient boat accommodation for the whole Hill family enabling that illustrous group to see Tulameen as he sees it.

In the matter of wagon roads, bridges, etc., our wants are many and if told would number many a score but we are content to leave this with our representative Mr. L.W. Shatford who has been equal to the occasion with the prospector and we cannot but expect he will assist the incoming mining Companies to that consideration the conditions demand.

Yours Chloride.

THE MIDWAY COAL

A Spokane Company Will Equip on Extensive Scale.

Times

Late reports from the Midway coal properties state that a very influential syndicate has been formed at Spokane to outfit the mine with the most approved machinery to the value of $25,000 to $30,000 and the working gang increased to twenty men or over.

EDITORIAL COMMENTS

Premier McBride's critics will now pounce on the proof that he has been grafting. If not, how in the World did he get hold of the $45 necessary to buy that land from the Dominion government?

Joe Martin has a very indifferent opinion of the leadership capabilities of the present government and opposition leaders in Great Britain. Political astuteness doesn't seem to be there in Joe's estimation. There was not the finesse of the Manitoba School Bill, for instance, which sent one government in Canada to Davy Jones' locker and put in power another which forced the Autonomy Bill on the new provinces of Alberta and Saskatchewan.

Sir Wilfrid Laurier may find it necessary to supervise the action of leader Brewster in the Provincial House at Victoria. His criticisms of the government policy were rather unfortunate for his friends at Ottawa and Premier McBride was not slow to take advantage of it in his reply. To Sir Wilfrid it must have been trying to have his own acts and those of his Government and followers so specifically condemned by leader Brewster as they were. Henceforth it would be well for Sir Wilfrid to institute a censorship upon the public utterances of the member for Alberni or disavow his leadership status. The desertion of the member for Esquimalt and the assumption of the role of parliamentary opposition on the part of the two socialists who are now the only organization in a position to assume that role, would indicate that Mr. Brewster was indiscreet, to say the least, in allowing his speech on the address to take the form and tone which it did.

29-37 Richmond Street West - - Toronto, Canada.

Town and District.

For No. 1 dry wood or any kind of job work see—W. W. Simons.

A new bridge is almost completed over the Similkameen at Nighthawk.

Rev. G. R. B. Kinney will preach in Hedley on Sunday evening next at 7.30 p.m.

The Kettle Valley steel is expected to reach Rock Creek from Midway this month.

The Misses Freeman, of Princeton, spent Sunday with Mr. and Mrs. Sproule.

Mate Irwin, a former Hedley barber is having a bad time with a dislocated knee at Oroville.

County division has again become a burning question for the people just across the boundary line.

Hockey is in full swing in the upper valley and Princetonians are privileged in witnessing periodical contests.

Dr. Jackson, dentist, is in Hedley this week and for a few days more may be seen at the Hotel Similkameen.

Exchanged by Mistake at Shatford's Hall the night of the Hospital dance, a lady's size 3½ rubber for a 5½. The 3½ rubber is now at this office.

Mr. McAlpine, paymaster and head of the commissariat on V. V. & E. construction, is receiving congratulations these days on the arrival of twin girls at his home.

Four comedies will be presented by the Lyceum Players on Feb. 7th. They are "An Anonymous Letter," "Villian and Victim", "A New Year's Dream" and "A Bit of Conversation".

L. H. Patten left on Tuesday for Kamloops to identify a horse which was stolen from him last summer. He received word that one man had been arrested and the horse held for identification.

C. P. Walker's Lyceum Players will be in Fraternity Hall, Hedley, on Tuesday, Feb. 7th. Romanilla the great harpist is one of the drawing cards, and that there will be abundance of fun with the entertainment is assured by the fact that Walter McRaye is with the troupe.

The Nelson Daily News has inaugurated a so-called popularity voting contest in which a $2500 prize is offered. The News is a good paper which effectively covers the inland field, and it is a pity it finds it either necessary or advisable to engage in these voting contest methods of raising the wind.

A clue to the Zimmerman murder of four years ago at Penticton is believed to have been discovered in the finding of some jewellery at Sidley. The jewellery was in possession of a woman and it is claimed that it was part of what disappeared from the old man's shop when the murder and robbery was committed.

Mrs. F. M. Gillespie, wife of our postmaster, left on Monday's train for California where she will spend the next three months. An attack of congestion of the lungs following her recent confinement has left her lungs in rather weak condition and caused some anxiety to her husband and friends. Her father, Mr. W. A. McLean accompanied her on the journey south.

It has been noticed that there is generally less drunkenness attending a plain dress ball than a masquerade. The improvement in this respect was particularly noticeable in the case of the hospital ball on Friday evening where there was no evidence whatever of the existence of booze anywhere, but next day a few isolated drunks were seen around the streets.

Word was received in Hedley on Monday evening of the sudden death of Harry Jones, proprietor of the Golden Gate hotel at Fairview, B. C. which occurred Monday morning after an illness of two days. There are no particulars as to the nature of the ailment. Deceased was a popular hotel man who for many years gave Fairview a well-kept hotel. There will be wide spread regret at his sudden death and the Gazette extends sympathy to the bereaved widow and family.

Rev. A. H. Cameron began on Sunday evening a series of sermons on church union and preached on that occasion the opening discourse of the series. That he believes in church union at the present time as being in the best interests of the cause of Christianity is evident from the tenor of the opening sermon in which he pointed out that in the earliest years of the Christian church there was no dogmatic system of theology, and furthermore that the system of church government may be expected to change with the advancing years to keep in line with the governmental systems of the nations themselves.

The Canadian Almanac for 1911 which is in its 64th year of publication maintains its usual standard of excellence and continues to increase in size and general usefulness, or rather we might say indespensability, for it has become such a compendium of useful knowledge that no office man can well afford to be without it. It is published by the Copp Clark Co., of Toronto and this year contains 504 pages, every one of which will doubtless be consulted various times during the year by busy men in search of information they may require. Among the new features this year is data concerning the Canadian Navy and the new law of copyright. It would undoubtedly be a hardship to have to put in the year without the assistance of the Canadian Almanac. Ask your bookseller for it and if not obtainable locally, send to the publishers, Copp Clark Co., Toronto.

Miss Ellen R. Monaghan, daughter of James Monaghan well known to old-timers in Camp McKinney, has been asked to christen the new United States torpedo destroyer, Managhan, which has been named in honor of John Robert Monaghan, who was killed in Samoa in the spring of 1899 in an action against the natives when he was one of the officers commanding a party operating in conjunction with a party from the British Navy to preserve order in the island. The offer of the Secretary of the Navy has been accepted and Miss Monaghan will perform the ceremony. The loss of his only son was a heavy blow to Mr. Monaghan at that time. The deed commemorated was one of striking heroism as the young man gave his life in the hope of saving a wounded comrade, Lieut. Lansdale, U. S. N. and it was a gracious act on the part of the naval authorities to seek to commemorate it in this way.

Mr. Ernest Waterman, local manager at Princeton for the Vermillion Forks Mining Co. was among Princeton visitors to the Hospital ball although Mr. Waterman contrived to mix some business with the trip in looking after interests of the coal company which is now supplying a lot of coal for Hedley consumers. The Vermillion Forks Co. have for years been the mainstay of Princeton and had the misfortune of being identified so closely with its interests years before there was any hope of any immediate return for their enterprise; and that their period of waiting and loss because of the necessity for waiting has not proved more costly than it did has been due to careful local management. Lately the company under a subsidiary charter has given the town an ambitious system of waterworks which has just been opened and an analysis of the water supply by the provincial health department has shown that it is pure and in every way fit for domestic use.

FORBES VERNON DEAD

Former B. C. Cabinet Minister Dies in London.

Victoria, B. C., Jan 20—Word has been received here of the death in London of Forbes Vernon, former member of four provincial cabinets. He was the original owner of the Coldstream estate now owned by Lord Aberdeen and it was after him the town of Vernon was called. Since his defeat by Donald Graham in the general election of 1894 he quit B. C. politics.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen----Famed for Fruit Growing

Town and Lower Valley.

Hugh Dynes, representative of the Riverside Nurseries, Grand Forks, is in town this week.

The Misses Kirby attended the ball at Penticton on Friday evening last and report a most enjoyable time.

George Kirby has been nursing a sore hand for the past week, the result of a splinter embedded in the ball of the thumb.

The annual meeting of the local conservative association will be held in town hall on Thursday afternoon, Feb. 9th.

Mrs. Richter returned home on Saturday from Victoria, whither she accompanied her daughter Bessie on her return to school.

Mrs. Armstrong, of the lower Similkameen, who has been visiting her home in Indiana, returned a few days ago accompanied by her father.

Mark Spencer is disposing of his household effects preparatory to leaving for the western peninsula of Ontario where he and his family will take up residence.

Walter McRaye and the Lyceum Players who are the fourth contingent of C. P. Walker's of high-class entertainers are booked for Richter's Hall for the 6th of February.

Rev. Mr. Cleland, of Penticton, will hold Church of England service here on Sunday next, morning and evening. After the evening service the annual meeting of the congregation will be held.

As usual there was a good representation from Keremeos at the hospital ball held at Hedley on Friday evening last, the following being in attendance Mrs. Daly, Miss Daly, Mrs. J.A. Brown Miss Catlin, Mrs. Parsons, Miss Corrigan, Mrs. Carle, F. H. Parsons, Wm. Thos. and Maurice Daly.

Elsewhere on this page will be found the program of a two days' course in fruit growing to be held in the town hall here on Monday and Tuesday, February 6th and 7th under the auspices of the provincial department of Horticulture. It is unnecessary to suggest to the fruit growers of the valley the great benefit that can be made to accrue from attending each and every one of these sessions; the names of the various subjects on the program will do that. What we might suggest, however, is that each come provided with pencil and note book.

J. J. Armstrong returned last week from his annual trip to the coast. He states that a number of Vancouverites are laying plans for building on their fruit lots in this district next summer and othetwise developing their holdings. While in Vancouver he met Mr. J. H. Kennedy, who, in reply to a question as to the intention of the Great Northern, stated that work on both ends of V. V. & E. would be prosecuted vigorously as soon as spring opened. The latter intelligence is somewhat reassuring after rumors of the closing out of the commissariat at Princeton and the pulling of the contractor's outfit from the front back to the end of the railway; actions which are not calculated to inspire one with the idea of vigorous pushing ahead.

We frequently hear complaints from our readers of the news service on this page, nor can we blame them. In self defence we might explain, however, that items for the current week's issue of the Gazette have to be forwarded by Tuesday morning's mail. As the paper does not reach its Keremeos readers until Thursday evening (Friday in most instances) it is a case of having to pass up three days news or else include it in the following week's issue when it is mildewed with age and beyond all possible interest. Further, by the simple law of perversity, there is always more doing on the particular days than the rest of the week.

[What is the matter with the Keremeos post office that the Gazette is not always given out to subscribers on Thursdays on arrival of the afternoon train? The editor is not aware of a single instance since a daily train service was put on that the Keremeos bundles of Gazettes were not in the post office in time to go out on Thursday's mail and we have sufficient confidence in postmaster Gillespie to believe that they always went—ED]

When writing Adversers Please Mention the Gazette.

TWO DAY FRUIT GROWER'S COURSE.

FIRST DAY-AFTERNOON

2.00 p.m.—Types of soil in relation to practical fruit-growing, Ben Hoy.

3.30—Pruning, summer and winter. Open air demonstration in orchard of J. J. Armstrong, M. S. Middleton.
