KETTLE VALLEY LINE

Work on Section West from Midway Was Started This Week.

Phoenix, October, 7.—Construction work on the Kettle Valley Railway west from Midway started Tuesday. The big outfit of J. G. McLean & Co., railroad contractors, with a large number of stock has arrived, and it is the intention of the contractors to hurry the work as much as possible before the snow flies. A. Schulli left Phoenix with a crew of 100 men for Midway, having the contract for laying ten miles of steel on the old grade of the Midway and Vernon, which has been taken over by the Kettle Valley line.

The headquarters of the contractors will be at Midway for the present and the laying of steel on the grade to Rock Creek will be proceeded with. This should take a comparatively short time, as with the exception of a few washouts the old grade is now ready for the track. When this section is laid the camp will be moved to Rock Creek and dirt will then fly on the new work further west. A number of subcontracts have already been let and constructions will proceed all winter. Thirty miles of the road are under contract at this end which will in the course of a couple of years link up with the thirty-mile section now under construction out of Merritt. The route is by way of Penticton, at which point the Kettle Valley company is making arrangements for a divisional point.

PORTLAND CEMENT

Apparently one of the most promising industries of the valley is the Portland Cement works on One-mile creek near Princeton recently granted a dominion charter to operate. Mr. John George an experienced cement man who has made abundant success elsewhere in that line with much less advantageous circumstances is the general manager and the board of directors, among whom are L. W. Shatford M. P. P. and R. P. McLennen of Vancouver, are men in whom every confidence may be placed. "Never before" says Mr. George, "have I seen all the raw material and other requirements for the making of first-class cement assembled by nature as we have them in our location at Princeton, for we have the limestone rock, the clay and the coal with gypsum in the clay and a beautiful stream of water for our engines all within a few yards of our works and no question as to a abundant demand for the manufactured article." It is their intention to put up a three unit mill which will have a capacity of 1500 bbls. per day but they will start with machinery for one unit which they think will be ample to meet the demand until the road is completed through to the coast. People of the valley are being given an opportunity for a few days to get in on the first allotment of $100,000 bonds by which the concern is being financed, and in the spring the work of installing the plant will begin but this winter the spur from the G. N. R. will be put in.

COMBATING COAL RATE

Oroville Objects to this Tnjust Discrimination

Oroville. Wash., Oct. 3.—the boundary freight rate case is attracting considerable attention locally, as the decision in this case will materially effect the status of business in this section. Local shippers have long complained of the rates.

It costs the Oroville consumer $2 a ton to bring coal here from Princeton, B. C., a distance of 80 miles, while the Spokane consumer 225 miles farther away, pays only 40 cents a ton more to have the same article laid down in that city. At the request of the state railway commission a statement of these facts was laid before it by the local commercial club.

BOOZE IS RESPONSIBLE

Gunner Allen Will Pay the Death Penalty in Consequence

Victoria, Oct. 7.—Convicted of the murder of Captain Peter Elliston of the Royal Canadian Garrison Artillery on the morning of August 1, in the barracks square at Esquimalt, Gunner Thomas Allen will be hanged on December 2nd.

The prisoner bore up stoically when sentence was pronounced by Chief Justice Hunter yesterday afternoon. The jury was out for an hour and three-quarters.

Addressing the jury for the defence Mr. C. F. Davie, counsel for the accused, pleaded that the accused was mentally deranged at the time of the crime. His nerves were unhinged by long and continued drinking. He admitted his client should be incarcerated, but did not consider the circumstances warranteed the capital sentence.

The crown prosecutor, Mr. J. A. Aidman, denounced the plea of insanity as ill-founded. Accused, although intemperate, had never shown any signs of delirium tremens.

In summing up, the chief justice pointed out that the sole defence was that of insanity, and he elaborated on the evidence against the soundness of that claim.

When asked if he had anything to say why sentence should not be pronounced, the prisoner remarked: "All I can say is that I must have been mad all the time."

BACKING UP THE INDIANS

Moral Reform Association Takes a Hand

Ottawa, Oct. 7.—Rev. A. G. O'Mara, Hamilton Cassels, K. C., and Canon Tucker of Toronto and Rev. Mr. Deeprose of Montreal, representing the Moral Reform Association of Canada, saw Sir Wilfrid Laurier and Hon. Frank Oliver yesterday, and asked that some definite steps be taken by the Dominion Government to settle the question of the title of Indian lands in British Columbia by a submission of the case to the Privy Council or by some other means.

The deputation pointed out that the Indians claim their lands, but that they are being disposed of in various ways to white men, particularly to railways, and serious consequences may result. The deputation also spoke of the possibility of an uprising of Indians if something were not done.

Sir Wilfrid said he was willing to have the matter settled, but intimated that he did not desire to take the initiative without the consent of the British Columbia government, which does not recognize the character of the claims put forward by the Indians.

The deputation also asked that some fixed law or custom be established in respect to Indian marriages, the present conditions being unsatisfactory. Consideration of this was promised by the ministers.

LOCAL NEWS

Some Italians who are working on a property on Sixteen mile creek for Tony Scarpelli are following a good looking quartz vein well mineralized with arsenopyrite and said to contain very good values. The vein has all the ear-marks of a true fissure and is persistent although it varies in width as most true fissures do. On Shoemaker Creek a short distance below, Mike Costello and Jack Way also have fine showings and are getting $20 values.

J. McCreath, of Greenwood has our thanks for a couple of neat golf score books, sent out by him on behalf of the Greenwood Liquor Co. and advertising "Spey Royal" whiskies. The books are neat and handy and the motto worked in gold on the inside of the red leather cover which says "It's a wee ball and it's mighty hard to hit" but not if you drink "Spey Royal" is perhaps open to question. At all events that was the experience of one Scotch golfer who of course may have been drinking some other brand than "Spey Royal" for when he came to drive from the tee he could see one ball more than the regulation number tee'd up before him and his astonishment thereat he expressed by exclaiming "Mon, mon! did iver ye see the likes o' you; stymied on the teein' ground".

OROVILLE-PENTICTON RY.

Company Meets for Routine Business—The Matter of Censtruction Still in Abeyance

Vancouver, Oct. 4th—The first meeting of the shareholders in the Penticton Railway Company, a subsidiary corporation of the Great Northern, was held last Wednesday afternoon in the offices of MacNeill, Bird, Macdonald and Bayfield, and officers elected. The officials of the company are the regular officials of the Great Northern and the president is Mr. Louis Hill, head of the transcontinental system. The Penticton system is part of the Great Northern, but as it is operating under a provincial charter, is a separate corporation registered in Canada.

It has not been decided as yet when the work of commencing the construction of the road, which will extend from Penticton, on the main line of the Great Northern to Oroville, will be commenced. Surveys have been completed, and the plots and plans of the road will be filed soon. The limits of the Penticton road will extend to the international boundary, where another subsidiary corporation will carry on the line to the terminal.

THE GOLF TOURNAMENT

Last week saw the finish up of the first tournament of mixed foursomes of the Hedley Golf Club. The remaining round between E. H. Williams and Miss McLean and L. C. Rolls and Mrs. Rotherham in which the latter were down three holes as the result of the first round was played off and was won by the former couple.

The drawing for the semi-finals pitted Williams and Miss Mclean against Hetrick and Miss Williams and the former couple won by four holes up. In the semi-finals also F. H. French and Mrs. Hamilton were opposed by A. Megraw and Mrs Jones the latter winning out by three holes up. This left the finals to be played out by Williams and Miss McLean and Megraw and Mrs. Jones and was won by the former three holes up and two to play.

The consolation for the picked winners suggested in last issue has materialized. In it Mattinson and Miss Jackson defeated James and Miss Bond and Rolls and Mrs. Rotherham defeated Hincks and Miss Fraser. The play off between the winners was the most closely contested event of the tournament and was only decided on the last hole of the second round when Rolls and Mrs. Rotherham won out by only one stroke.

As we go to to press a tournament of men's singles is in progress.

At last! Pons Asinorum has been made in one, S. E. Hamilton made the lucky shot which turned the trick.

INDIAN LANDS

A press despatch from Ottawa indicates that the question of Indian lands in this province is again attracting public notice and this time it is an organization known as the Canadian Moral Reform Association which is forcing the issue. The wording of the despatch as appearing in some of the dailies indicates that the attitude of the movers is disposed to be academic rather than practical or fair, and broad statements are made without due attention being given as to their correctness, although it may be possible that the Moral Reform Association is not altogether responsible for the twist that has been given the news despatch purporting to represent their views or contentions. It is rather a slander upon the people of this province to represent them in the east as being unwilling to allow the Indians all that justly belongs to them. The Moral Reform Association may mean well but they should be sure of their facts and try to post themselves on conditions as they exist before allowing sentiment to carry them away to the extent of encouraging the Indians in a course that is not calculated to improve their condition or advance their welfare; and in view of the treatment being meted out to the Indians in this province by the Federal government, whose wards they are, in keeping them in ignorance instead of giving them an opportunity to educate their children the attitude of the Federal premier as made to appear in some of the news despatches takes on the form of a rather rank species of insincerity.

The Indians in eastern provinces have benefitted immensely by the wise course pursued by the government sixty years ago in treaty with the Indians, taking over from them the lands they were unable to use and administering them in their interests. Take for instance the lands of the Chippewa tribe in the northwest peninsula of Ontario at Saugeen, Cape Croker and portions of north Grey. Monies derived from the sale of these lands in 1854 created a fund from which has since been paid to the Indians of those two bands in interest alone the enormous sum of about $900,000.00 in round numbers besides adding all the while to capital account and to-day there stands to the credit of 756 men, women and children of that tribe on the two reservations of Saugeen and Cape Croker the tidy sum of over $708,000.00 giving them an annual distribution of $17,000 in interest besides having good schools maintained for them by the government.

It was stated in debate on the Indian question in the B. C. legislature a short time ago that the amount of land per capita ceded by the province of B. C. to the Federal government for the use and benefit of the Indians was 20 acres in which the province retained its reversionary interest, and yet we have in the Similkameen between Chopaca and Princeton 25,675 acres of good land held by probably less than 150 men, women and children, for an enumeration made three years ago showed about 140. These figures should be examined by the so called Canadian Moral Reform Association and when viewed in the light of what was accomplished for the Chippewas by a sane and business-like disposition of the lands these goody-goody, sentimental, academic altruists should see the injury they are doing to these Indians whom they pretend to be so so anxious to protect by encouraging them to hold on to lands which they are unable to utilize and their title to which there may be good reason to entertain doubts, if the 20 acre per capita contention should prove well-founded.

WHEN ANSWERING ADS. PLEASE MENTION THIS PAPER.

Town and District.

Penticton has been debating the matter of organizing a social club.

Mr. and Mrs. O. H. Carle and children of Keremeos were in town on Sunday on their way home from Princeton.

Mr. and Mrs. Cornish, of Alberta, came in last week to spend a few days visiting their daughter, Mrs. G. McEachern.

J. A. Brown, of Keremeos, was in Hedley on Thursday last between trains This is his first trip up to Hedley since early spring.

Judge Brown is in town holding court today. The docket is not large but there are several cases of local interest coming up for hearing.

Mrs. Gartrell left on Saturday last for her home in Summerland after a pleasant visit of a few weeks with her brother F. H. French and Mrs French.

J. R. Shaw's little girl was brought up from Keremeos last Thursday for attendance at the Hedley hospital. Typhoid fever is the malady, but it is said to be a mild eype of it.

Dr. McEwen has been having a holiday outing during the past few days with a hunting party over in the vicinity of the Apex. No report has yet come in as to the amount of mowitch with which the larder has been stocked as the result. Other members of the party are Manny Barcello, Charlie Richter and Nick Pickard.

Monday October 31st has been proclaimed Thanksgiving Day. This brings Thanksgiving and Hallowe'en on the same date. Formerly it was customary to have Thanksgiving on Thursday but now-a-days the commercial travellers have so much influence with the government that they have had it switched to Monday.

Boundary papers indicate that track laying is now in progress between Midway and Rock Creek on the Kettle valley line and a large number of horses have arrived to push on the grading up the Kettle river. The laying of track will dispense with a large amount of freighting, and effect a considerable saving to contractors in consequence.

The Oroville Gazette says that Mr. J. H. Kennedy's illness was a combination of rheumatism and typhoid fever A man who has had the amount of "roughing it" to do which has fallen to his lot could scarcely expect to escape the consequences of over-strenuousness. It is hoped, however, that his present ailment may not be as serious as his friends have feared.

More machinery has been arriving for the Hedley Gold Mining Co. during the past ten days. The big Doble water-wheel to drive the new generator came in on Saturday together with appurtenances for same and the new generator is expected along any day as it has been on the way for some time. There is a great deal of work to be done in getting the balance of the machinery installed and all of it housed before winter sets in.

Messrs. Boeing and Brass last week completed a chimney for J. K. Fraser on his house on Kingston avenue and this week they put one on the Golden Zone office building adjoining the bank and on Butler's barber shop. One or two more are all that are required now on Kingston avenue to have the whole street protected and earn for it the additional title of chimney row to the various appellations by which it is already known. No householder or owner of a building can make a better investment than the expenditure necessary to replace the ever-present menace of a stove-pipe with a good safe chimney. It pays in solid cash in the saving effected in insurance and pays over again in the peace of mind and feeling of security it gives.

The following donations of fruit from friends at Keremeos are thankfully received by the Hedley General Hospital:— Mrs. Frank Richter, box of apples; Mrs. Kelly, box of apples; Mr. Manary, one box apples; Rev. Mr. Cameron, peaches; Mr. Carle tomatoes.

The cargo of Norway pebbles brought in by the Hedley Gold Mining Co for use in their tube mill are ordinary looking specimens of coarse gravel but tests of their hardness will show why they have been transported all the way from Norway and reached here by way of the Tehauntepec railway. In all probability, however, their place later on will be taken by the mine rock, for the andesite of the Nickel Plate mine is good and hard and after it has turned about in the tube mill for a while the sharp corners will become worn off and it will doubtless prove quite as effective for grinding up the sands as the imported pebbles.

The editor was delighted with a visit received last week from an old friend, Mr. John George, manager of the British Columbia Portland Cement Co., Limited, recently organized to operate deposits at Princeton B. C. It is about 28 years since we first became more or less intimately acquained with Mr. George who was then a man in his prime and a leader of public opinion in the district of old Ontario in which he resided with a reputation as a debater on the public questions of the day that reached well over many parts of the province where he was called to take a hand. In his home town of Port Elgin on old Lake Huron he was an active progressive citizen whose influence was always exerted for the material and moral improvement of the community. Today although nearing the allotted span of three score and ten there appears to be little or no diminution of the old-time vigor and his voice has the same vibrant ring that years ago carried audiences with him in his best fighting days. Neither has his interest in public questions waned. The tariff and matters of trade and finance were his specialty and to-day he is spared to see the logical working out of the views he advocated so staunchly. It was indeed kind of him to come down for old-times' sake to see us and dismatters past and present and the exchange of mutual recollections together with the information he was able to give concerning mutual friends of whom we had lost track, made a most delightful evening.

Sumatra.

Sumatra is the westernmost of the Dutch Indian possessions and one of the largest islands in the world. It is separated from Java in the south by the strait of Sunda, memorable for its volcanic disturbance. The northern portion embraces the sultanate of Ache, and in the days of Queen Elizabeth and James I., when England sent ambassadors to its court, Ache was a great kingdom, occupying more than half the island. The Achenese have never acknowledged the supremacy of the Dutch, and over £20,000,000 has been spent in endeavors to subdue this race of warriors. South of Ache is a large district occupied by the Battaks, a tribe that has practiced cannibalism for centuries.

Ready Reasoning.

They stood before a reproduction of the Venus of Melos.

"Her hands must have been beautiful," said one.

"Very," assented the other. "I wonder what position they were in?"

"I have a theory that she was represented as busied at her toilet. One hand probably held a small mirror."

"And the other a powder puff, eh? But that theory won't work."

"And why not?"

"Had she been at her toilet her mouth would have been full of hairpins."

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen----Famed for Fruit Growing

Town and Lower Valley.

George Kirby returned on Saturday via Penticton for a business trip to the coast.

Born—At Keremeos, on Wednesday 5th inst, to Mr. and Mrs. Wm. Mattice, a son.

Mrs. J. R. Shaw visited her daughter, Margaret in the Hedley Hospital between trains on Monday.

Mr. Marchant, inspector of customs arrived in town on Saturday on his annual official visit to this outport.

Monday's west-bound train ran into two cows near Ashnola injuring them so badly that they had to be killed.

There was no service in Keremeos on Sunday owing to Mr. Cameron having gone to Princeton to conduct service.

Keremeos has a windmill; D.J. Innis having installed one to supply the power required for his new system of water works.

Billy Hope has been appointed assistant to Mr. Frith, collector of customs, at Keremeos, and entered upon his duties on Monday.

F. Richter had a small exhibit of apples at the provincial fair at Westminster and as usual made a big clean-up of prizes for the amount exhibited.

A Penticton party were in Keremeos on Saturday having motored over by way of Fairview. In the party was Mr. Campbell, who is placing the new subdivision at Okanagan Falls on the market.

Considerable difficulty has been experienced in securing a capable packer to put up the apples here for the national apple show. One has arrived at last from Vernon and it is expected that the carload which will go from here will be ready in good time.

Mr. and Mrs. Mrs. Hunter, of Armstrong are visiting at the home of the latter's brother Mr. E. M. Crooker. Mr. Hunter is an orchardist and gardner by choice and it is possible that he may be induced to move to this valley on account of the superior inducements it offers in the field of horticulture.

An arrangement will take place on the 15th whereby the E. T. Bank in Keremeos will be operated as a branch of the Princeton office and will only be open two days in the week. For the present both Mr. Lawson and Mr. Stevens will go to Princeton. The arrangement is intended to be only temporary and regular service is expected to be resumed here next spring.

Miss Margaret Shaw, eldest daughter of Mr. and Mrs. J. R. Shaw was conveyed to the Hedley hospital last Thursday, suffering from typhoid fever. This is the first case in Keremeos since the mild epidemic over two years ago. From reports received the patient is progressing most favorably. She is attended by her grandmother Mrs. Nakken.

Dr. and Mrs. Cumming and Miss Eleanor, of Spokane, who have been spending the past three months with Mrs. Daly on the ranch left on Saturday for Vancouver via Penticton. The Doctor intends applying to the licence board for licence to practice in Canada and if successful may return to this section of the country some time in the future to practice though his immediate plans are to locate at the coast.

Mrs. C. E. Shaw returned to Keremeos last Wednesday from her visit to Vancouver. She was accompanied by her daughter Miss Ida, who has been training for nurse in St. Luke's hospital, Spokane. After a day's visit with her sister, Mrs. W. M. Frith, Mrs. Shaw and children left for their home in Greenwood. Mr. Shaw, who is doing survey work for Mr. Kennedy on the V. V. & E. is not expected home for some time yet.

J. P. McConnel, better known as "Bruce" of the "Saturday Sunset" and his wife paid Keremeos a visit from Friday till Monday. Mac has always been a booster for the Similkameen but he has grown tired of Jim Hill's desultory method of railroad building and is making his investments elsewhere though he prefers this valley to any other in the province. They made the trip in by way of Nicola and went out by Penticton intending to visit the Okanagan and Kootenay valleys before returning home.

It is a matter of regret that the Similkameen is not represented in the exhibit of fruit which the provincial government is sending to the old country this week in charge of E. Bullock Webster. Mr. Webster from his long residence in the valley, knows well the superior quality of the fruit we produce and it would have been a labor of love for him to have exhibited the products and extolled the virtues of the valley in which he elected to live when he came to Canada and in which he has still large interests, to his friends in the old country. He urgently requested that he be supplied with as good an exhibit as possible accompanied by advertising matter for the valley, but rightly or wrongly those who had it in their power to provide or withhold the exhibit decided that it would be better to concentrate all efforts on the approaching national apple show at Vancouver, and as far as this valley is concerned Mr. Webster will have to conduct his campaign in the old country without any ammunition. He may safely be counted upon to do what boosting he can for us but the results will fall far short of what they would if he had been provided with the material asked for.
