KEEPING IT UP

Nickel Plate Mine Maintains Its Dividend Paying Gait

ANOTHER 5 PER CENTER

Regular Quarterly Dividend of Three per Cent for Quarter Ending Sept 30 and *Additional Distribution of 2 per cent.*

The directors of the Hedley Gold Mining Co have declared the usual quarterly dividend of three per cent for the quarter ending September 30 on the outstanding capital stock of the company, payable September 30, 1911, and an additional dividend of two per cent.

As before remarked, British Columbia's best mining asset is the quarterly dividend of five per cent which camp Hedley has to its credit. To keep this up, quarter after quarter, is to present an argument for the resources of the camp and the province which needs no further explanation, for it is its own interpretor. Nevertheless this dividend does not tell all that is to be told, and neither the treasury nor the mine are being robbed to make this fine showing which has now gone on with such regularity for so long a time. On the contrary, a double reserve is all the time being built up. This consists of cash reserve in the treasury and also an ore reserve in the mine, which at the present time is looking better than ever.

The following notice to stockholders is but another chapter in this pleasant serial story.

HEDLEY GOLD MINING COMPANY
42 Broadway
New York, Sept. 13, 1911

A quarterly dividend of three per cent (3%) and an additional dividend of two per cent (2%) has this day been declared on the outstanding capital stock of this Company, payable September 30, 1911, to stockholders of record at 3:00 o'clock P. M., Monday, September 18, 1911.

Transfer books will be closed on Monday, September 18, 1911, at 3:00 o'clock P. M. and re-opened on Monday, October 2, 1911, at 10 o'clock A. M.

JOHN D. CLARKE,
Secretary

Vancouver's gang of hired help won the last lacrosse game of the deciding series for the Minto cup, getting it on a score of 6 goals to 2 and are thus possessors of the mug. "Thou hast it now king, Cawdor, Glamis, all; though thou playdst most foully for it." If an eastern team should swoop down on them now and carry the cup back with them, Con Jones and his aiders and abbettors would merit some tar and feathers at the hands of the people of B. C.

TWO CAMPAIGN FIBS

Hedley has been treated to two home-made campaign fibs during the past week. One was that a certain gentleman engaged in fruit culture whose name we will not mention, went to Wenatchee to see for himself what effect reciprocity would have on fruit-growing in this valley and had found that land at Wenatchee which was not as good as the land at Keremeos was selling at four times the price and that he had come back satisfied that reciprocity would be a good thing and was going to support it and his neighbor fruit-growers were going to do likewise. Now the facts are that when he went to Wenatchee it was in the fall of 1910 when no mention had then been made of reciprocity and what he saw there would make him take the very opposite view from that indicated. For instance, he saw one man digging up fine peach trees to use the ground for winter apples and when asked if the peaches would not bear good crops he said the crop was all right but he could not find a market and his peaches rotted on his hands, but that he would rather grow peaches if he could be sure of getting even 35c per box. With that condition of affairs near Wenatchee, there was certainly no reason why a Keremeos fruit-grower who had passed the age of childhood should support reciprocity.

The other campaign lie was that the Kipling letter in the Star was a forgery and that the Montreal Star had been made the victim of a hoax. When pressed for authority the first known narrator said he had seen it in an English paper, and when this ground was untenable because no English paper had time to reach here, he said he had seen it as a despatch from some London paper. But when pressed still farther he could not say what London paper had despatched it, or what paper that had ever reached Hedley had contained the despatch. Now wasn't the invention most characteristically Lloyd-Georgian?

AN AGILE FEAT

To ride bareback, two fast horses galloping in opposite directions, is some class as an equestrian feat, but Dr. McDonald pretends to be able to do it when he tells you that his trick, reciprocity, will both increase the price of farm and orchard products for the farmers and fruit-growers by giving them a bigger (?) market, and lower the cost of living to the workingman by giving cheaper fruit and vegetables from Washington state.

But is the Dr. altogether to blame when he is just repeating what Sir Wilfrid Laurier and the Globe have time and again told him to say?

THE RIGHT WAY TO MARK 'EM

If you want to keep Canada prosperous and maintain a living wage for workmen mark your ballot thus:

SPOKE IN VANCOUVER

Similkameen's Representative Sound on the Trade Question

Mr. L. W. Shatford reviewed the history of commerce in the Dominion since it was a crown colony, pointed out the "slump" that resulted in Canada from the adoption of free trade in England and threw light upon many phases of the reciprocity question that had been left in complete darkness by Liberal speakers.

"We cannot afford to have our progress checked by unwise legislation," said Mr. Shatford "and therefore all patriotic Canadians look upon the proposed pact negotiated by the Government at Ottawa with little less than consternation. What we are asked to give to the United States is nothing short of our commercial independence. (Applause).

"In the early days trade was greater between Canada and Great Britain than between Canada and any other country. Then came Cobden and the repeal of the corn laws, and the advent of free trade in the Old Country. Canada experienced a tremendous reaction. There was talk of annexation to the United States as the only hope for this young country. But, nevertheless, we remained loyal, and in that darkest hour the first line in the majestic system of railways and canals which is now the pride of the country was completed.

"In 1854 reciprocity in natural products with the United States was arranged and Canada prospered along certain lines, but reciprocity then spelt the ruin of our mining, fishing and timber industries, and Americans amassed large fortunes from the sale of our raw materials, while our own manufacturies languished and our young men were forced to seek employment across the line.

"In 1854, the year the first reciprocity treaty was arranged, the carrying trade of the St. Lawrence was nearly $50,000,000. One year later when the treaty was in operation, the carrying trade of that great commercial waterways was only $15,000,000, while the tonnage at both Quebec and Montreal was reduced by the coming into effect of the treaty. In 1854 the amount of imports and exports through the ports of Quebec and Montreal was $42,000,000. One year later it was reduced to $28,000,000. This treaty also caused the bankruptcy of the Grand Trunk.

Mr. Shatford then dealt with the annexation uttrances of prominent American statesmen and writers.

"In 1866 there was not the slightest hesitation on the part of the Yankees in declaring that they wanted Canada to come into the Union," said the speaker. "It may be argued that public opinion has changed since that time and that annexation is not the object for which the American politicians, who are anxious for the accomplishment of the treaty, are striving. But the facts do not bear out any such hypothesis," and Mr. Shatford quoted the utterances of several prominent Americans who had clearly declared that annexation would surely follow in the wake of the treaty.

"They want our coal, pulpwood, and fisheries," declared the speaker, "but are we going to surrender them to them". (cries of No!)

"We are told that the signing of this treaty will be a step in the way of universal peace. But how can that be so when there are so many clauses in the treaty that must be opposed to the views of every patriotic Canadian. It is a notorious fact that Laurier and Fielding are stampeded by Presiden Taft, who threatened he would impos the maximum tariff upon Canada if they did not come through with the agreement he desired. Instead of calling his bluff they granted him all the concessions that he demanded.

"Liberals may talk about Canada having the power to cancel the treaty but once it is an accomplished fact Canada will be powerless to act, except under terms fixed in Washington.

"Sir Wilfrid," said the speaker, "was the first to seek the right to make treaties for Canada independent of Downing Street, and now he's ready to barter those same independent treaty rights to a nation which has already shown a readiness to wrest away as much of our commerce as it

EDITORIAL COMMENTS

Burrell for Yale-Cariboo and continued prosperity.

When the farmer is prosperous everybody is prosperous. Protect the farmer and you protect yourself.

The Grand Forks Sun changes its trade views regularly twice a week or alternately with every page the editor works off on his Gordon.

You workmen and manufacturers, lookout. If you let the Canadian farmer lose his protection, or help to make him lose it, he will take a hand in the game himself after a bit, and will see that you lose yours. He is not going to take the raw end of it all the time, as this reciprocity measure hands out to him. And remember; when he starts in he has the votes behind him to see it through.

The number of Grit lawyers leading "forlorn hopes" in this election to qualify for budding judgeships is a feature of the campaign which is pathetic in its way and particularly so when there is the possibility that after to-day the dispensing power dominating these little incidentals may be changed. In inverse ratio to the abundance of that crop is the leanness of the crop of Grit judges already appointed who are resigning to become candidates to lead any of these forlorn hopes.

Over-production is at the present time causing marked depression in the United States in many lines of manufacture and has seriously effected the business of the railways. So much so that many of their railways are laying off men. If Canadians are fools enough to go in for reciprocity because an old man who has made a gross blunder shakes his gray hairs at them and tries to appeal to their sympathies instead of their common sense, they will at once become partners with the United States in that depression.

Heavy draft horses bought in Buffalo at $245 per head formed part of a shipment along with a similar grade of horses bought at Lucan in Middlesex county, Ontario, which an Ontario horse dealer was sending to the Canadian west. On the Buffalo horses he had to pay $50 per head duty making those U. S. horses stand him $295 per head while the Lucan horses stood him $312 per head. The U. S. horses were more showy than the others and for that reason were better sellers. And yet Laurier didn't know any better than to tell farmers at Stratford, Ont., what a fine market for their horses they would have south of the line, through reciprocity.

If the people of Canada should be foolish enough to fasten the reciprocity noose around their necks to-day it will be the farmer who will feel it first, but the workingman who is asked to vote for it, will get his in the neck later on, and he will not have long to wait for it. Then, when he is working for half his present wages he will wonder why so insignificant a bait as a few cents on a basket of peaches or plums, or a bag of potatoes, was able to catch him.

What Canada wants is factories—lots of them. And she will get them too if she will have the good sense to turn down reciprocity hard enough to-day. The organ of the United States Manufacturers' Association, in bewailing the drain of American capital from the United States to Canada, admitted that in the last ten years no less than 750 United States manufacturing concerns had been forced to build branches in Canada, and pleads for reciprocity as a means to stop the leak. What better pointer than that does a Canadian want to tell him what he should do to-day.

Dr. MacDonald is only making matters worse for himself by prevaricating in an effort to escape from the predicament into which he placed himself by the part which he played in connection with the Vernon Board of Trade resolutions. J. A. MacKelvie who originally accused him of the inconsistency has dealt with the quibbling denials both on the platform before a Vernon audience where the facts are known, and in the columns of the Vernon News.

It was on the platform in Kamloops where the Dr. launched his main denial and his statements as reported in the Kamloops Inland Sentinel, the Liberal paper, formed the text of Mr. MacKelvie's after-treatment of the subject in the News and on a Vernon platform. Apart from the general loss of respect which the Dr's. squirming must do for him, it is likely also to make itself felt in the vote.

NOTICE

Certificate of Improvements.

SACRAMENTO Mineral Claim situate in the Osoyoos Mining Division of Yale District. Where located—Camp Hedley.

Take notice that I, Adam Creelman, Free Miners certificate No. 405746 intend sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action under section 37 must be commenced before the issue of such Certificate of improvements.

ADAM CREELMAN

Dated this 21st day of September, 1911

"PUBLIC INQUIRIES ACT"

HIS HONOUR the Lieutenant-Governor in Council has been pleased to appoint the Honourable Albert Edward McPhillips, K. C. President of the Executive Council; the Honourable Price Ellison, Minister of Finance; Charles Henry Lugrin, of the City of Victoria, Esquire; and William Harold Malkin, of the City of Vancouver, Esquire, to be Commissioners under the "Public Inquiries Act" for the purpose of enquiring into and reporting upon the operation of the "Assessment Act 1903, with respect to its practical bearing on the financial requirements of the Province.

The said Commissioners will hold their meetings on the dates and at the places mentioned hereunder, namely

Victoria at the Executive Council Chamber, Parliament buildings, Monday and Tuesday, 25th and 26th September at 10 a. m. At the Court house or the Government office at the following places:—

Nanaimo, Wednesday and Thursday, 27th and 28th September.

Vancouver, Friday and Saturday, 29th and 30th September.

New Westminster, Monday, 2nd October.
Revelstoke, Wednesday, 4th October.

can."

Mr. Shatford then pointed out how the Liberals are misstating facts in declaring that Sir John MacDonald and other eminent conservatives had stood for such a reciprocity agreement as that now before the people. Reciprocity was simply a secondary issue with the joint high commission that was formed by Sir John MacDonald to enter into an agreement with the United States. Sir John had, indeed, been willing to concede to the desires of a certain class of people for reciprocity along a certain line to avert greater evils; but he had consistently and relentlessly fought the reciprocity agreement as it was, and is presented by Sir Wilfrid Laurier.

"It is not the Conservative party that has deserted its principles," declared Mr. Shatford amid applause. "The Liberals deserted their principles and stole the Conservative platform of protection, and of this reciprocity treaty of theirs I may say in all justice that never in the history of civilization was there a bargain more uncalled for. Protection is the life blood of the nation. It has made the United States the great country it is today, and now we are asked to destroy that very thing which has made our Dominion the most prosperous country in the world.

July 12th, 1911. 0-10

Town and District.

Poll opens to-day at 9 a. m. and closes at 5 p. m.

Kettle River Pioneers met at Midway on the 14th.

Charlie Reveley went to the coast last week on a business trip.

There was a four inch coating of the beautiful up at the mine the other morning.

Yale-Cariboo is the largest constituency in Canada, containing 107,000 square miles.

M. K. Rodgers is expected in shortly when he will take his family back with him to Seattle.

Mr. and Mrs. H. S. Joyner returned last week from a two months' visit with friends in Eastern Ontario.

Miss McKinnon arrived last week from the east on a visit to her uncle and aunt, Mr. and Mrs. McKinnon.

G. H. Broughton, surveyor, of Penticton, was in town last week doing some work in this vicinity for Jack McLean.

Harry Rose's road gang were engaged during the past week widening the grade on the Princeton road going up to Pinto Flat.

Political prognosticators in Ottawa are figuring it out that Borden will have a comfortable majority over Liberals and Nationalists combined.

The first frost of the season in Hedley occurred on Sunday night, the roofs and board walks on Monday morning showing a coat of white.

Jack Raitor, G. N. R. agent at Hedley, went out last week on a very important mission. He is expected back shortly with a better fifty per cent.

The thermometers up at the mine are out of commission and hence the weather report from the upper station will be shy for a few weeks until new ones come along.

In view of the tremendous import of the present election campaign which makes it the most vital for twenty years, there should be no need for apology for the extent to which it has monopolized space. But the agony is now over and things will settle back into the old order.

Rev. A. H. Cameron doesn't claim to be a broncho buster but he performed a service in that line on Saturday last that might give him some qualification in that direction.

H. A. Hincks, local manager of the Bank of B. N. A., is taking his holidays at the coast, being relieved on Friday last by Mr. D. M. McPherson, of the Rossland staff, and will be absent three weeks.

There isn't any Kellett yarns about railway building in the Similkameen this time. Why? Because it is not a deferred election in Yale-Cariboo this time and the Jim Hill push can't tell which way the cat's going to jump.

The Rev. J. Williams will hold his monthly services at Hedley, Sunday 24th, in Fraternity hall as follows: — 11 a. m., morning prayer, holy communion; sermon, subject: "The Glories of the Cross." 8 p. m., evensong and sermon, subject: "Why should we Worship God." All cordially invited.

The tracklayers are slowly but surely getting down the rails beyond Princeton and it will not be very long now until it will be "all aboard for Coalmont." The pile-driver went east the other day which is evidence all the bridges on the way have been attended to so far as their under-pinning is concerned.

All perishable goods should be advertised specifically, and immediately on their receipt. Dealers in Hedley handling fruit and vegetables have had stock left on their hands to spoil just because people didn't know they had them. The general statement "Fruit in Season" doesn't carry with it the necessary purchasing conviction.

The recent rains have brought up the water supply in Twenty-mile lake and there is at present more water available than there has been at this time for many years past. From all appearance there is a possibility that pumping may not be necessary during the coming winter and if at all, the period is likely to be short.

It is reported that Tommy Daly has signed up with the Spokane team of the Northwest League for next season, as a member of the pitching staff. A season or two in professional company will make Daly one of the strongest pitchers in that league, for he has the curves, the speed and command, and is no slouch of a sticker himself. —Oroville Gazette.

The Oroville Gazette says that salmon have commenced running in the Similkameen river, and men and boys are shooting at them as they cross the shallows. The proper kind of reciprocity which should engage the chaps at Ottawa would be to let this part of British Columbia have some of those salmon free of duty by having a fish ladder put in at those falls down in Washington.

The actions of sundry itinerant Dominion government officials who have been through here lately, have been unwise to say the least. If they have legitimate business to attend to it would be well for them to go after it and leave politics alone They shouldn't forget that their friends at Ottawa set a precedent for dealing with far lighter offences and the chopping block was called into use in some cases for trumped up charges.

At Ed. Burr's blacksmith shop may be seen samples of clover, alsike and alfalfa grown on the ranch of George Cahill at "Camp Rest", on the mountain side above Hedley, the altitude being 3,500 feet above sea level. Some of the alfalfa stalks were over six feet in length and all the grasses were over three feet. This shows that these altitudes are all right for farming purposes and there are snug farms yet to be had for the staking in this immediate vicinity.

Mr. Raymond E. Ward, of Vancouver, agent for the East Princeton townsite is in town this week accompanied by D. G. McCurdy, local agent. Mr. Ward is one of the Vancouver real estate men who can see something outside of Vancouver, and in East Princeton he has a proposition which will commend itself to the investing public, especially in the Similkameen valley where buyers will have an opportunity to know what they are getting. With trade conditions undisturbed, as we believe they will be after today, there is every encouragement for investment.

SAME BEELZEBUB

(Ledge)

Hedley has a new church organ and one more are light, but the printing office has the same old devil.

GET BUSY, YOU CHAPS

If ever there was a time when manufacturers and men ought to get together it is now.

THE REAL OBJECT OF THE GRAIN GROWERS OF THE WEST, as they have declared over and over again, is not open markets to sell in, BUT OPEN MARKETS TO BUY IN, and they'll make short work of Sir Wilfrid Laurier, if he does not give it to them. They've got him going now and he'll have to go the whole hog. And he will, if the manufacturers and their men do not get together and vote against reciprocity to a finish.

Don't let a few bell-wethers among you who happen to be Grits, sacrifice you on the altar of Grittism.

EAST PRINCETON

The New City with the Payroll

gives you the opportunity for one of the

SOUNDEST INVESTMENTS

in British Columbia.

City Lots are being offered for Sale for the first time. It is inevitable that the value of these lots will Greatly Increase. Here are some of the reasons.

East Princeton is surrounded by huge deposits of coal, cement, copper, gold, and other important minerals.

The British Columbia Portland Cement Co. is erecting a half a million dollar plant which will employ between 300 and 400 men.

The United Empire Co. is shipping a lignite coal of the best quality and is developing immense copper deposits, requiring large reduction works and several hundred employees.

The Princeton Coal and Land Co. is increasing its daily shipments to 300 tons of coal, providing employment to about 150 men. Other coal companies are spending over $2,000,000 in development, and will give work to at least 1000 men.

For transportation, East Princeton will have, in the near future, the Great Northern and the Kettle Valley lines, both of which, will pass through the townsite.

East Princeton is beautifully situated on the Similkameen river, with an abundance of water power available. The new city has every factor for growth into a big industrial centre. It presents a rare opportunity for investment.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen----Famed for Fruit Growing

Town and Lower Valley.

Mrs. Sam Manary, of Similkameen, is visiting friends in town.

Mrs. Daly and family and George Allison left on Friday for a hunting trip up the Ashnola.

How little some people appreciate the franchise which is the privilege of every citizen to exercise.

Mrs. Lowe has completed the sale of her property and will move into town to reside for the winter.

Don't forget to call around to Crooker's bargain hardware sale. He has some first-class wood and coal heaters.

Though the hunting season is just in Joe Marcel has already secured two fine mowitch dressing 217 and 170 lbs.

D. Levans and W. F. Dods, of Armstrong, were in town a few days during the past week looking over the district.

F. B. Gibson has commenced the erection of a temporary house on his lot just south of town and adjoining the park.

The provincial hydrographic survey party under chief Grey Donald, of Victoria, have lately been working the district.

Mrs. Dr. McEwen and Miss Ethel Bromley left for the north to take in the Vernon fair. We hope they don't come home broke.

The K. K. K. will meet at the home of Mrs. Keeler on September to consider the opening and organizing for the winter season.

The W. C. T. U. gave a very successful social at the home of Mrs. Keeler. Everyone came away pleased. We wish them success in the work.

E. D. Boeing, of Hedley, came to town this week and, assisted by Ed. Lee, is doing some necessary repairs on the traffic bridge west of town.

Mr. Fred Prosser and family, of Princeton, were in town Friday on their way out of the valley. Fred found things too quiet in the valley and is going back to Calgary.

C. V. Prosser who has been at the coast for the past year, has returned to Princeton and in partnership with Mr. Thompson, of Princeton, has taken over the business there.

Mrs. Kirby is making extensive alterations on the hotel Keremeos which will greatly improve the convenience and accommodation of this popular hostelry. F. McLean has the work in hand.

An elderly gentleman sent out by the Fisheries Department to investigate complaints from Keremeos against the pollution of the Similkameen river by the Daly Reduction works at Hedley, passed up the valley the latter part of last week.

W. R. Hope, who has been assisting the Customs in Greenwood for the past two months, returned last Friday. From a political standpoint Will says Greenwood is a lively burg, but otherwise it has not much over Keremeos.

The Juvenile Bostonians will be in Keremeos on the evening of Wednesday 27th inst. The company is reported to be better than before. We hope there will be a good turnout to hear those talented little folks. Reserved seats on sale with J. J. Armstrong.

There was a number of dissappointed men at the depot on Friday, for when the train pulled in from the upper valley it was found that the number of passengers for Penticton was more than the auto stages could accommodate. Among them was H. A. Hincks, manager of the bank at Hedley, who was on his way out to the coast for a holiday. They made the drive by Welby's stage route, the old reliable.

THEY KEEP COMING

The number of Liberals who cannot stomach reciprocity is increasing all the time, and the increase has been most rapid during the past week.

The Vernon News thus speaks of another;

"Dad" Simpson, formerly editor of the Cranbrook Herald, and at one time Liberal organizer for the party in the Interior, is now stumping the Kamloops riding in the interests of Martin Burrell, and is making strong anti-reciprocity speeches.
