THOSE OUTPUT TABLES

Some Revision Required in the Stereotyped Mineral Production Report

B. C. Mining and Engineering Record

The people of the Similkameen who are demanding from the Bureau of Mines that their district shall have full credit for its output will have public support in their cause. Similkameen is entirely a different district from Boundary. It has developed one of the most successful gold mines on the continent. It is a section where there are probably opportunities of making other mines of a similar character. Nothing would help it more than that the actual facts as to its gold output and the big dividends paid thereon should be credited to the district to which it belongs. The demand is just and right.

NOW WATCH TURNER BLUSH

(Oroville Gazette)

Mr. and Mrs. T. R. Hanson drove over from Rock Creek Sunday in their motor car to pay a visit to Mrs. Hanson's father, Capt. N. B. Kelsey, returning home Monday. They made the run over in a little better than two hours, which means the hitting of the high places here and there in the flight. Mr. Hanson is used to motoring over the kind of roads they keep up in British Columbia, and it jarred him some when he struck the corrugated highways on this side of the line. He says he will cheerfully take a day off any time and drive the commissioners of this county over the Canadian highways and byways and let them accumulate some ideas as to how roads ought to be built to endure and give gratification to those who are compelled to use them. It might be money saved and improvement assured if the commissioners would take Mr. Hanson at his word. At least they would be able to see how they don't do it right when road supervisors try to build roads on this side of the international boundary.

NOTICE

SIMILKAMEEN LAND DISTRICT
DISTRICT OF YALE

TAKE notice that Mrs. F.E. Richter, of Keremeos, occupation rancher, intends to apply for permission to lease the following described land;

Commencing at a post planted at the N. W. corner of lot 232s thence south 80 chains; thence west 40 chains; thence north 80 chains; thence east 40 chains to the point of commencement, and containing 320 acres, more or less.

MRS. F. E. RICHTER
July 15th, 1911. 30-10

County Court of Yale

A SITTING of the County Court of Yale will be holden at the Court House, Keremeos Centre, on Tuesday the 10th day of October, 1911, at eleven o'clock in the forenoon.

JAS. R. BROWN
Registrar County Court of Yale.

CANADA DELIVERED FROM LAURIERISM

Reciprocity is Given a Body Blow and People Have Spoken

NEW GOVERNMENT WILL BE STRONG

Canada Will Continue to Hold Her Position as Most Important Link in Chain of Empire—For Both Economic and National Reasons the Verdict Was Given—Not Merely a Party Triumph

At no time in her history did Canada attract the world-wide attention which the recent election caused. It is true, the same issue was before the people in 1891 but it came up in a different way and Canada had not then attained the standing which she now holds.

In a measure the result was a surprise to both but not altogether so, for while the conservatives were confident of a majority of at least 20 they were also prepared to see a land slide in their direction and if the liberals expected to be returned at all it showed plainly how completely Laurier seems to have lost the pulse of the Canadian people and his old time political sagacity had forsaken him.

In every province except Alberta Borden made important gains and his loss in Alberta was only one seat.

To Ontario belongs the credit of making the victory so sweeping and that province will dominate the new parliament but in Ontario the domination will be in safe hands.

British Columbia's contribution was no mean one and showed that when Premier McBride promised a solid seven from this province he knew what he was talking about.

Conservative majority over Liberals 52.

Giving the Liberals the Labor member and the Conservatives the two Nationalists, Conservative majority 53.

There are two to hear from, one in Nova Scotia and one in Ontario; and three are deferred, two in Quebec and one in Ontario, although it is reported that the Ontario man Conmee has thrown up the sponge and given his Conservative opponent the seat.

There are three independents, who are Nationalists from Quebec.

Seven ministers went down and the eighth, Pugsley, has only 2 majority and may be counted out. The slain are Templeman in B.C., Patterson, King and Graham in Ontario, Fielding and Sir Fred Borden in Nova Scotia and Fisher in Quebec.

THE BRITISH LIKE IT.

All Except Radicals Admire Canada's Action, and Disapproval of These Is Only Pretence.

London, Sept. 52.—The overwhelming defeat of Premier Laurier and the liberal government's policy of reciprocity with the United States at the polls in Canada yesterday came as a surprise to England.

The result generally is welcomed here, as Englishmen had felt that the trade arrangement presaged closer political relations between the neighbors and a consequent loosening of the imperial ties.

The unionist and tariff reform papers receive the news with undisguised elation, while the liberal and radical press remind them that the victory was obtained with the assistance of Henri Bourassa.

The unionist Globe says that while there were some side issues in the contest, "the issue was reciprocity and the Canadian people will have none of it. They heard the voice of President Taft declaring that reciprocity meant annexation. They heard the voice of Sir Wilfrid Lawyer in indignant denial, but on the whole they decided to believe the president rather than the premier. They were right in doing so.

The struggle is on between imperialism and continentalism, as the German papers pointed out months ago, and imperialism has won."

IMPERIAL PREFERENCE NEAR

Regarded as Natural Result of Canada's Verdict on Reciprocity.

London, Sept. 22.—The result of the Canadian election has put great heart in the tariff reform movement here, and has been received by the Unionists with great enthusiasm.

Frederick E. Smith, unionist M.P. for Liverpool, says Canada's example will be of immense encouragement to the tariff reformers here and a corresponding rebuff to the free traders.

Andrew Bonar Law, unionist M P. for Dulwich division of Camberwell, believes the result of the election will hasten the triumph of imperial preference.

William R. Peel, leader of the municipal reform party, says Canadians defeated an American conspiracy to absorb their country and that imperial reciprocity now is certain.

Among the more moderate of the tariff reform morning newspapers are expressions of regret at the disappearance from political life of Sir Wilfrid Laurier.

The Standard and most of the other unionist papers predict it will not be long before the policy of imperial reciprocity is triumphant.

COLONEL MUST CLIMB DOWN

Phoenix Pioneer

The Pioneer has found it at last, in spite of Col. Lowry's denials of its existence. A picture postcard arrived here the other day from Hell. It was somewhat of a shock to us as we always considered we had no friends residing there. It seems a nice looking place and is situated on the coast of Norway. Martin Sortomme, a former resident of Phoenix is spending his vacation there.

DEAL ON FLORENCE GROUP

Option Given by Thos. Bradshaw on Important Group of Claims—Consideration is $75'000

It was reported on the street last week that an option had been given by Thos. Bradshaw on the Florence group of mineral claims in Twenty-mile canyon and the correctness has been admitted by Mr. Bradshaw.

The option has been taken in the name of A. Creelman for Mr. C. H. Brooks who is now in the east and whose acceptance of the option is daily expected. The consideration is $75,000 and the group comprises five claims outright and a half interest in three others. The claims are Little Pittsburg, Whale, Bullenbeck, Florence fraction, and Eagles Nest No. 2 in which Mr. Bradshaw holds a full interest and the Florence, Zerust fraction and Kitty fraction in which he has half interest. These claims are favorably mentioned by Mr. Camsell in his report of the camp for the Canadian Geological Survey.

The option if approved of will be be followed by a bond which will call for a considerable expenditure for development as well as the deposit of a per centage in cash.

WHAT IS IT WORTH?

Jim Hill After Imformation — Would Know Value of Votes in Hedley

An amusing situation arose in Hedley in connection with the despatch of the ballot box to the returning officer at Kamloops. The deputy returning officer at Hedley, acting on instructions, sent the ballot box duly sealed and inclosed in a sack up to the G.N. station to go out by express; but in the absence of J. Raitor, the regular agent at Hedley who is off on his holidays, his substitute was determined to play safe by a rigid adherence to rules and as there is a rule requiring valuation of goods sent by express, the ballot box lay at the station for several days before being sent forward, awaiting valuation at the hands of some one competent to put a price on 84 genuine Hedley votes and two spoiled ones. No matter how good a rule may be there will always be some spot where it will break down, and fortunate is the man who has enough humor in his make-up to recognize when a situation becomes ridiculous.

SLANGWHANGING KIPLING

The abusive criticism heaped on Kipling by certain papers of the United States for his letter to the Montreal Star, and the readiness with which Canadian grit papers like Templeman's Victoria Times reproduced the attacks, is good evidence of the genuineness of the letter.

THE GLOBE'S LATEST OFFENCE

For a paper that one time exerted a wide influence and commanded respect the old Toronto Globe under its present ministerial head has indeed sunk low. Its attitude to the manufacturing interests of Canada as shown up by the Montreal Star, which produced proofs from the editorial paragraphs of the Globe, must have given pain to many who remembered the paper in the days of the Browns.

During the late campaign prevarication and distortion had become so much a habit that it apparently became impossible for that paper to deal fairly by an opponent, and now when the election is over it cannot even state the result in a manly, honest way without trying, in sheer spite, to do further harm. In its comments on the result the Globe said:—

"The people in Ontario don't like their neighbors to the south. That is emphatically the decision of yesterday's election. Liberals in tens of thousands must have joined the Conservatives in city and country to show their objections to having any truck or trade with the Yankees."

A more dishonest and mischievous paragraph than this it would be difficult to find. Because mistaken leaders of the Liberal party in their folly, tried to force Canada into an arrangement where she had everything to lose and little or nothing to gain and the people of Canada used the ballot to protect themselves, that is no reason why they should be accused of ill-will or unfriendliness towards their neighbors to the south. The Rev. gentleman who is responsible for the editorial opinions of the Globe should be ashamed of himself.

AUSTRALIA FIRST.

It was reported during the recent election campaign that Australia would seek a reciprocity agreement with Canada. If the reciprocity she would seek should be on natural products alone, she evidently did not understand the real import of the bargain which the late government proposed, for, by it, Australia would have free access to Canadian markets under the favored-nations arrangement without giving Canada any concessions in return. Should Australia now offer Canada reciprocity it is to be hoped that the Borden government will meet them halfway, even if the same objection exists in their case that did in the matter of reciprocity with the United States, in that their export products are much the same as our own. The main thing in such an arrangement would be to show to the rest of the world that Canada wants closer trade relations with all parts of the British empire, and her transportation system is now ready to accommodate it. The arrangement might hurt the Canadian farmer a little bit in some quarters, but it would be a gain to him in the long run if it should have the effect of proving an object lesson to Great Britain. Canada is not in a position just yet to enter into an imperial zollverein with all the rest of the British Empire, but Britain is in a position to give a trade preference to all her colonies if John Bull could only get that through his head. But as long as the Lord permits the modern-day British Radical to run at large and continue his present useless pernicious influence to endanger not only Britain herself but every overseas Dominion, it seems hopeless to expect that Britain ever will learn.

PRESENT AND FUTURE.

It is pleasing to note the absence of undue exultation on the part of the Conservative press over the result of the Canadian election. This is as it should be, for the result is no party triumph, and there are tens of thousands of Liberals through Canada who deserve more credit for the part they took in contributing to that end than did many Conservatives who in many cases merely voted with their party, but it is also true that there were tens of thousands of Conservatives who entirely lost sight of party in the common danger which menaced the land.

Let us all be thankful that the danger is past for the moment, but also let us be vigilant and not think that the serpent has been killed when it may be only "scotched."

For the Conservative party it is not a time for boasting but for stock-taking. They must not forget that while they went down in 1896 for a principle, trying to obey and carry out a duty laid upon them by the highest court in the realm, there was also a record for some graft that had crept in during their long tenure of office; but while that is so they have the satisfaction of knowing that when the plague spots appeared they had a man like Sir John Thompson at the helm who did not condone wrong-doing nor try to cover up fraud but had the guilty parties punished, and that humiliation should be a lesson to guard against like pitfalls. In Premier Borden they will have another John Thompson.

For British Columbia the change should mean much, as there are many outstanding difficulties to be adjusted between the federal and provincial governments. We do not ask more than our rights, but we do ask that outstanding claims have a fair and honest consideration, and that justice and no more than justice be done.

EDITORIAL COMMENTS

How long will Britain nurse her present jug-handled trade delusion and imagine that she has free trade?

It seems as if Canada still believes in protection to Canadian industries, whether they be of the field or the workshop. At all events, Ontario, British Columbia and Manitoba do.

When the German papers said that the solidarity of the British Empire was involved in Canada's decision on Thursday last, and the English radicals and radical papers professed inability to see any danger, they gave the people of Canada an opportunity of seeing how much better Germany is posted on conditions obtaining in Canada than are the English radicals. Kipling has a lot of work to do over there yet before he can get those people in Downing street to understand where the British Empire is or what it consists of. Truly "they think the empire still is the Strand and Holborn Hill," and they'll keep on thinking it until another generation of them die off.

Were it not for his doubtful imperialism and his liability to get into mischief over in England along with those radical chaps it might be a gracious act to offer Laurier the High Commissionership in succession to Lord Strathcona. There is every probability that it will be offered to Hon. Clifford Sifton, who deserves much at the hands of Canadians for the part he played in helping to tide the country through one of the worst crises through which it ever passed.

"PUBLIC INQUIRIES ACT"

HIS HONOUR the Lieutenant-Governor in Council has been pleased to appoint the Honourable Albert Edward McPhillips, K. C. President of the Executive Council; the Honourable Price Ellison, Minister of Finance; Charles Henry Lugrin, of the City of Victoria, Esquire; and William Harold Malkin, of the City of Vancouver, Esquire, to be Commissioners under the "Public Inquiries Act" for the purpose of enquiring into and reporting upon the operation of the "Assessment Act 1903, with respect to its practical bearing on the financial requirements of the Province.

The said Commissioners will hold their meetings on the dates and at the places mentioned hereunder, namely

Victoria at the Executive Council Chamber, Parliament buildings, Monday and Tuesday, 25th and 26th September at 10 a. m. At the Court house or the Government office at the following places:—

Nanaimo, Wednesday and Thursday, 27th and 28th September.

Vancouver, Friday and Saturday, 29th and 30th September.

New Westminster, Monday, 2nd October.
Revelstoke, Wednesday, 4th October.
Golden, Thursday, 5th October.
Cranbrooke, Saturday, 7th October
Fernie Monday, 9th October
Nelson, Wednesday 11th October
Rossland, Thursday, 12th October
Grand Forks, Friday 13th October
Princeton, Saturday 14th October
Merritt, Monday, 16th October
Kamloops, Tuesday 17th October
Summerland, Thursday, 19th October
Penticton, Friday 20 October
Kelowna, Saturday, 21st October.
Vernon, Monday, 23rd October.

It is requested that all persons who are interested in the matter aforesaid, and who desire to be heard, will not fail to be present at the meetings of the Commissioners.

PRICE ELLISON,
Chairman.

Treasury Department, 13th September, 1911.

FOUND—A pair of spectacles without any case and one glass broken. Call at this office.

Postmaster, F. M. Gillespie went over to Penticton on Saturday and intended taking a trip up the lake as far as Kelowna.

A gang of telephone linemen have been engaged here for the past week straightening up a number of the "weary Willies" among the posts, and toning up some of the service lines in town.

The stiff frosts of the end of the week have had a beautifying effect on the foliage of the surrounding hillsides and already sumach and cottonwood are showing most gorgeous coloring.

The year 1911 has been a very frosty one. It started in early and continued work late in the spring. It has started in strong again for the last lap and has been rather cold for some of the politicians as well.

Frank Bailey has returned to Merritt after a six months' trip to England. He says a great deal of British capital is coming to Canada and is being invested in trust companies and that class of investment.

J. Wirth has been taking a holiday off. Part of it was spent among the Keremeos fruit ranches and part of it in fishing and hunting up the Ashnola. He is expected back at his old job in the mill about the end of this week.

Mrs. L. A. Clark, of Green Mountain, and other members of the family have gone to Spokane for the hundredth anniversary of the birthday of Mrs. Clarke's father who is still in remarkable health for one so old.

M. K. Rodgers arrived in town on Saturday last on a visit to his family and to take a look over the recent development in the Nickel Plate mine and note the results obtained. He was accompanied by Mr. Galey, of Pittsburg, who thoroughly savvies the manufacture of iron as done in Andy Carnegie's town, but he made his first acquaintance with a gold mine and the processes of getting out the gold in the Nickel Plate mine and mill at Hedley.

The British Columbia Mining and Engineering Record says that the Great Northern charges $2.00 per ton freight on coal from Princeton to Oroville a distance of 80 miles and only 40c per ton from Princeton to Spokane a distance of 225 miles. This is rather odd, if true, and would indicate that the Railway commissions on both sides of the line have some work to do.

Development work on the Sacramento is going forward with two shifts at work. The place where they are working is on the upper end of the claim near the Metropolitan line and a new trail has been built to the workings down from the Metropolitan.

Mrs. G. B. Lyon is in Spokane, accompanied by her son Wesley, both of them going there to improve their knowledge of music. Mrs. Lyon has always displayed a fine talent for, as well as a passionate love of music, and her desire to improve herself is a very natural one.

Word has been received from Mr. C. H. Brooks. He is now in New York but is going over to Quebec in a few days where the matter of the Kingston is to come up. The last report in that connection is to the effect that there was a great probability of a settlement being arrived at which will mean the early resumption of operations on a more extensive scale than was ever prosecuted on the property heretofore. If settlement is not made, the case between Mr. Brooks and the former owners will be brought on at once and the difficulty settled by the court.

L. W. Shatford, M. P. P., put in a busy week of it last week, covering every part of the Similkameen within five days before the election except the extreme east. He used an automobile which enabled him to cover a lot of ground and do it more effectively than travelling by train. He was full of confidence as to the outcome of the election and sure that the Similkameen would do its part. His last attack of hay fever proved rather a hard one to shake off, but he did not anticipate any further trouble this fall and will be more careful next summer to avoid the dry belt in the danger period.

A bridge contractor who has been building bridges for the Cement Co. at East Princeton, told the Oroville Gazette that the Company, as soon as their plant is ready, will start in manufacturing on a two year contract which they have on hand requiring them to manufacture 1000 barrels per day for two years. This would be a very nice contract providing the price is satisfactory, but as the initial capacity of the works is to be only 500 barrels per day it is difficult to see how they are going to fill the contract. Stockholders in the company have every confidence in the enterprise and they have reason to believe that when the product of the Princeton concern is placed on the market its superiority will ensure it ready sale at the best prices going, but they are not unreasonable enough to expect the management to turn out 1000 barrels per day with a 500 barrel plant. Neither should the expect they full capacity of 500 barrels to be obtained from the very first. It is better for all purposes to stick to facts, and then there is less danger of dissatisfaction afterwards when the impossible has not been attained.

RICH RESOURCES

surrounding

EAST PRINCETON

The New City with the Payroll

gives you the opportunity for one of the

SOUNDEST INVESTMENTS

in British Columbia.

City Lots are being offered for Sale for the first time. It is inevitable that the value of these lots will Greatly Increase. Here are some of the reasons.

East Princeton is surrounded by huge deposits of coal, cement, copper, gold, and other important minerals.

The British Columbia Portland Cement Co. is erecting a half a million dollar plant which will employ between 300 and 400 men.

The United Empire Co. is shipping a lignite coal of the best quality and is developing immense copper deposits, requiring large reduction works and several hundred employees.

The Princeton Coal and Land Co. is increasing its daily shipments to 300 tons of coal, providing employment to about 150 men. Other coal companies are spending over $2,000,000 in development, and will give work to at least 1000 men.

For transportation, East Princeton will have, in the near future, the Great Northern and the Kettle Valley lines, both of which, will pass through the townsite.

East Princeton is beautifully situated on the Similkameen river, with an abundance of water power available. The new city has every factor for growth into a big industrial centre. It presents a rare opportunity for investment.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

Charley Loudon is suffering from a fragment of steel in the eye.

Who says that a constable has no sense of humor or cannot keep a secret?

Mr. E. D. Boeing and gang of workmen have completed some very necessary repairs on the traffic bridge west of town.

Cattlemen from the lower valley returned home last week from branding operations on the ranges above Princeton.

John Simmonson, foreman on the railroad section east of here, was taken to Hedley Hospital on Saturday suffering from a severe cold and fever.

Two young men, well known in Keremeos, are to be married this week, but at the time of writing particulars are not available for publication.

Dr. Thomson, Dominion Veterinary Surgeon, is relieving Mr. Coristine, who fills the double position of Customs Collector and Veterinary Inspector at Osoyoos.

Fruitgrowers of the Similkameen may now proceed, secure in the knowledge that their interests will be protected and that they will have a market for their produce.

The K.K.K. is a literary and debating society. Shall we let it die or shall we resume the weekly meetings again for the coming winter? All interested will meet at Mrs. Keeler's home Thursday evening, 28th inst. Everybody welcome.--Con.

On Wednesday of last week Rev. Mr. Cameron was called to Princeton to perform the wedding ceremony for Merral Osborne and Ada Marston. The newly-married couple took the train to Keremeos and the auto stage to Penticton and spent a brief honeymoon on the Okanagan, returning to Princeton on Saturday.

"Champ Clark did it," is how the Spokesman-Review accounts for the defeat of reciprocity. Perhaps the Hearst newspapers, which were circulated so freely through eastern Canada, and the Yankee politicians who crowded the liberal platforms, helped some.

M. K. Rodgers was in town on Saturday and, we understand, left on Monday on a trip up the Ashnola to explore the proposed wagon route from the Forks to the tungsten claims situate on the south side of the international boundary line. He is acting for the promoters of the tungsten claims.

On several mornings lately there has been evidence of slight frost and the more tender garden vines have been touched. High up on the hillsides the deciduous trees are beginning to don their autumn colors and still higher up there has been a light covering of snow.

Owing to the temporary absence of many qualified voters and the fact that through negligence many names were not on the list which should have been, the vote recorded here on Thursday last was the smallest for many elections. Though the vote was small it proved more than two to one for Burrell.

L. W. Shatford and road supervisor H. A. Turner covered a considerable portion of this riding on election day and the day preceding. They had a powerful "Case" auto and on Tuesday evening passed up the valley. Wednesday they covered the country between Hedley and Tulameen, returning to Hedley for the evening. Thursday made Keremeos, Penticton and Fairview, returning to Penticton in the evening.

Last week, owing to a temporary fit of aberration on the part of our usually very careful post-office clerk, brought on no doubt by too much politics, our weekly budget of news was mis-sent to Princeton. The telephone was made to save the situation somewhat, but many articles did not appear in print just as your correspondent had written them.

W. H. Armstrong left for his home in Vancouver on Friday evening after a longer visit in the valley than his business interests at the coast usually permit him to make. Mrs. Armstrong and party, including Mrs. Graham, the Misses Woodrow and the Misses Vincent, will remain here until the first of next week. They all appreciate very much their annual holiday in the Similkameen.
