K. V. PROGRESS ON WEST FORK

Ballasting Completed to Near Carmi—Labor is Scarce

Construction work on the Kettle Valley railway up the west fork of the Kettle River is being pushed along Although construction is under way as far as the summit the contractors are still considerably handicapped through lack of labor. Carmi is still the steel head, though the road bed is being put in shape further on, but the steel cannot be laid further until a bridge is built. Ballasting of the new line west from Midway has been completed to within a few miles from from Carmi, but it is not expected that a regular service over the line will be inaugurated until spring.

East of Okanagan lake a great deal of material has been taken in recently and many camps are established while grading is actively in progress.

A DIRTY TRICK

The J. I. Case Threshing Machine Company of Racine, Wis., Caught in a Sneaky Trick

In the recent bye-election in Macdonald as well as in the provincial election in Saskatchewan where reciprocity was made an issue, the advocates of reciprocity made the most use they possibly could of a letter written to the Grain Growers' Guide by a man named Coleman who was sales agent for the J. I. Case Threshing Machine Co., of Racine, Wis., in which he said that the reason his firm had raised the price of agriculture implements to the farmers was that the Government had increased the duty.

Now it happens that no change whatever was made in the tariff rate but that the greed of the company itself had made them increase the price of their implements and when the Company were demanded to give an explanation of the lie published by their sales agent Coleman, the treasurer, F. Lee Norton, came out with another letter repudiating the statement of Coleman and saying that the increase was made because they had altered the rate of discount given to the trade. He said that the tariff was the same now as it had been for several years past and the statement made by Coleman was not true and had never been authorized by the company. In spite of the denial, however, the advocates of reciprocity continued to reiterate the Coleman charge until the last vote was cast in the Macdonald election.

Is it any wonder the farmers of Macdonald turned them down cold?

The C. P. R. have been mulcted by the courts in $48,000 damages for injuries received by various claimants in the Pontiac wreck.

METEOROLOGICAL.

The following are the readings showing temperature, etc., for the week ending Oct. 26, 1912:

Average do do 58.14
Lowest minimum do 29.
Average do do 33.28
Mean do 45.71

CONSIDERING THE DYAKS

Interesting Comparison in Head Hunting in 1896 and Now

The Liberal press has been complaining of some dismissals from the outside civil service by the government. In view of their complaints, and the virtuous attitude they have assumed, it is interesting to present the record of the Laurier administration when it came into power in 1896. Nine months after the Laurier government assumed office a return was called for in the Senate of the dismissals up to that time. The return is a remarkable document and contains 35 pages, while it contains only a partial list of the dismissals.

In the Indian department the dismissals ran up to 20. The axe fell particularly freely in the customs department where in the nine months 81 employees were dismissed to make way for good liberals. In no case was there an investigation.

MANY HEADS FELL

The then Minister of Public Works dismissed in the first nine months 64. In the department of Inland Revenue 46 employees were removed, and in the majority of cases it was frankly stated that it was at the request of a member of parliament. This was apparently the main reason for dismissals at that time.

BIG SWEEP THERE

In the Fisheries service the Liberal government worked overtime in getting rid of Conservatives and no less than 129 members of the civil service were removed from office to give hungry Liberals jobs. The explanation given for the majority of the dismissals was "active and offensive partisanship," which was a favorite excuse to cover up a bald dismissal. The axe was not employed quite so freely in the Marine service, and only 32 were removed by the Minister. The department of Justice has not as many employees and its list is smaller, running to eleven. In every case except two there was no notice given, and this is true of a large percentage of the Liberal dismissals. The decency of a regular notice to give the dismissed man an opportunity to find new employment was not followed. It was simply a case of "off with his head".

ALSO IN OTHERS

In the Agriculture department thirty-three employees were dismissed to make room for the clamoring Liberals, and in the department of Interior, outside of the Indian Branch, the "bloody assizes" resulted in these first nine months in the dismissal of 23.

MAJOR CURRIE'S CHARGE

These are but a few of the civil servants dismissed immediately after the elections of 1896. Major Currie, M. P. for North Simcoe, commenting on the wholesale slaughter of the Liberals in the House last session, said: "The proscription lists of Marius and Sulla, the tyrants of ancient Rome, were not to be compared with the lists prepared after the elections of 1896. Hundreds of men were thrown out of office without any reason being given for their dismissal. The members of the late government never for a moment ceased to make the open boast that they believed in and always practised the spoils system and that they were going to practise it."

GENERAL NEWS

Mayor Geary of Toronto has resigned to accept a position as counsel for a large corporation.

The Duke of Connaught has expressed his belief that Canadians are the most loyal people in the empire.

Simpson Rennie, a prominent farmer of Ontario, died at his home near Scarboro last week.

Ontario is taking a leaf from British Columbia's book and going in for good roads.

Canadian fruit growers are asking for increased duty on fruit owing to the large quantity of American fruit which has come into the country this year and the large amount of Canadian fruit which rotted in the orchards for want of opportunity to market them in time.

PROMISE TO KEEP BUSY

Half Dozen Steam Shovels to Work on the V. V. & E.

(Grand Forks Gazette.)

J. H. Kennedy, assistant engineer of the V. V. & E. railway, which is the Great Northern line enroute from the Boundary to Vancouver, was in Grand Forks on Monday on his way to Tulameen and Coalmont, the steel head, from where he will go over the line now being built between Coalmont and Coquihalla summit.

"There will be five or six big steam shovels put to work there in a short time" said Mr. Kennedy.

"One of these will probably be taken from Vancouver where the work which it had to do is completed. The others will be brought in from other points on the line. It is our intention to push the work as rapidly as possible."

Too Soon, But Not Much

The Princeton Star was premature in its statement that on Saturday, October, 19th the full consideration of $150,000 which was called for in the bond for the Windfall group had been paid. No one here doubts that the deal is going through and that in a short time the properties will be formally taken over from the former owners by the Hedley Gold Mining Co., but the event did not take place on the 19th and in fact has not taken place yet. The Star's informant was apparently not in possession of the inside information of which he claimed to be possessed, but the Star itself we are quite sure published the item in good faith. LATER—As we go to press we learn that the deal was consummated Oct. 30th and full consideration paid over.

GENERAL NEWS

Sir William MacKenzie is to make Winnipeg his headquarters for some time to come.

Alaska Progressives have elected their candidates and Roosevelt's supporters are jubilant thereat.

Hon. Mackenzie Bowell fell down the steps at the Albany Club, Toronto, and was rather severely injured.

Bank clearings for the week show a large increase over that of the same week last year.

Mr. Marechal, a prominet Montreal lawyer, is likely to succeed Hon. F. D. Monk. Mr. Casgrain was too ill to accept so arduous a portfolio as that of Public Works.

Five thousand freight handlers on the C. P. R. are asking for an increase of pay and threaten to strike if the demand is not granted.

Haultain is to be made the new Chief Justice of Saskatchewan.

H. B. McKenzie is to succeed Mr. Strikeman as general manager of the Bank of B. N. A. Mr. Strikeman retires at the end of November after forty-three years in the service of the Bank.

The Czar's son is dangerously ill of peritonitis.

Over eight million bushels of prairie wheat are stored in terminal elevators as against a little less than six millions for a corresponding date of last year.

Police Lieutenant Becker of New York was found guilty of murder in the Rosenthal case but has not yet received sentence. It remains to be seen what influence can do to save him from the electric chair.

United States Steel manufacturers are making Canada a dumping ground for their products and Canadian steel industries are asking more protection.

Feliz Diaz the leader of the latest Mexican revolt has been caught, courtmartialed and sentenced to be shot.

The United Shoe Machinery Company have been declared a combine by a special board appointed to inquire into the matter. As such they are liable to prosecution under the Combines Act for refusing to sell machinery to whoever will buy from them and pay the money. The matter has been brought to a head by the present Minister of Labor, Hon. T. W. Crothers.

A BEAUTIFUL ESTATE

The Similkameen Fruit Lands Co. Have Wonderful Holding in the R Ranch

Some years ago the Gazette in giving a rather extensive write-up of the lands of the lower Similkameen and particularly those about Keremeos had a description of the R ranch then owned by Mrs. Lowe, and that write-up went into the historical side of it as well as giving a description of the holding itself.

Since then the estate has been acquired by the Similkameen Fruit Lands Co., a wealthy, strong concern made up of Winnipeg capitalists whom R. L. Cawston managed to interest in the property and secured the transfer to them. In addition to the estate of 5029 acres then held by Mrs. Lowe in which Mr. Cawston also held an interest there has since been added by purchase 400 acres of the Barcello estate consisting of lots 2755 and 113, and we think we are safe in saying that ideal as the land about the old homestead of the R ranch is known to be this portion of the Barcello lands which has been added is the very cream of the valley.

Already the land has all been plotted off into five acre fruit lots and an irrigation ditch or canal has been constructed to supply water for it. While the land has been put on the market no effort has been made to push the sale of it and the attention of the company is being directed to the improvement of the property. A large traction engine is being brought in and with it are gang plows, a portable sawmill and a brush cutter to be driven by the traction engine. This latter will cut off saplings 4 inches through as easily as the ordinary reaper will take a blade of grass.

It is most pleasing to meet Mr. and Mrs. R. L. Cawston installed again in the old homestead where in years gone by they were famed for their kind hospitality, which has in nowise abated with the years. It was twenty-eight years ago when Mrs. Cawston first took up her abode in the Similkameen valley, although for the past eight years she has resided in Ontario. Mr. Cawston is the local superintendent for the Similkameen Fruit Lands Co. and a busy man he is. There is something so eternally fitting in seeing him again at the helm directing operations on the estate which his own efforts in earlier days got together and built up, and the company are fortunate indeed in having at the present time the benefit of his experience and knowledge of the district and of the business. If in the future he should wish to retire and take it easier than he is now able to do, no one could well blame him, for he and Mrs. Cawston have already done their share.

What the coming decade has in store for this beautiful spot only the brightest optimist should hazard a guess and then he is apt to fall far short.

THE RICHELIEU ELECTION

Constituency Remains Liberal But by Greatly Reduced Majority

The bye-election for the House of Commons to fill the vacancy for the County of Richelieu, caused by the unseating of the sitting member for corrupt acts by agents, took place on Oct. 24 and resulted in the return of Mr. P. J. Cardin, Liberal, by a majority of 301, the complexion of the division remaining unchanged. No member of the Government visited the constituency during the campaign, the leading speaker on the Conservative side being Sir Rodolphe Forget. The Liberals, on the other hand, had the advantage of a meeting addressed by Sir Wilfrid Laurier.

The Liberal majority in 1908 was 1029; in 1911 it was 734 and the majority this time is only 301. Sir Wilfrid Laurier in the campaign boasted that the majority would be so large as to offset the Conservative victory of September 21, 1911.

By-elections for the Ontario Legislature are being held in both East Middlesex and North Waterloo and in neither constituency have Liberals any candidate in the field. The government candidates are being opposed by Independents.

THE FORGOTTEN LESSON

Thomas Lawson of "Frenzied Finance" fame has resumed his attacks on the Wall St. bunch in Everybody's magazine. It is funny how soon the public forget a lesson taught them, and while it has become common and even fashionable to decry Lawson as a fakir it is nevertheless undeniable that he accomplished a great amount of good by his exposures in "Frenzied Finance." As a result of those exposures in which he showed that the enormous sums of money amassed by the large stock companies in life insurance which properly belonged to the policy-holders because they were the ones who had contributed almost every dollar of those reserves which were being used by the more influential of these stockholders in manipulating the stock markets and raking in swag for their own personal gain, the state was compelled to institute an inquiry into the correctness or otherwise of his allegations and the Hughes commission went to work. Then it was seen that leading companies like the New York Life and the Equitable whose general managers enjoyed reputations bordering on the immaculate were among the worst. They not only allowed the available funds at their control to be used in this way but for their own personal gain absorbed profits which should have gone to the policy-holders. The exposures really killed some of these men and they died shortly afterwards. Canadian agents of these concerns in some cases had to give up their agencies and take to Canadian companies or they could write no new business.

Then the next stage in the movement so far as we in Canada are concerned was the agitation in the Canadian House of Commons which compelled the government to appoint a board of inquiry to examine into the working of the Canadian life insurance companies, and the huge blue books containing the evidence obtained are still extant and show some rather peculiar things that might shock some of those who think that all our companies are like Cæsar's wife. Even some stock-holding directors of Canadian companies could get money on short loans of $40,000 at a time at whatever rate of interest they might care to pay and without the nature of security which the banks would demand for like accommodation. A noted feature which came up in the Canadian inquiry was the relative merits of stock and mutual companies. Of the latter Canada has only one and that was the one which came in for the only encomiums the board of inquiry had to offer (See remarks of Mr. Kemp, pages 2934 and 3040 of the report)

Lord Macaulay spoke of British justice awaking to wreak its vengeance upon some luckless wight and then falling to sleep again, and so it is at the present time. If Lawson can shed as much light in his present series of articles attacking what he calls "The System" as he did in the former he will be well worth reading. Even if he should be all the scallawag his detractors have painted him, hear him not for what he may be but for the message he may bring.

The verdict in the Richelieu bye-election bears out the statement so frequently made of late that the people of Quebec are not opposed to Canada doing her share towards the maintenance of the British navy. This was the first contest in Canada where aid to the navy was made an issue and the result is a sufficient warrant to Premier Borden to assume that Quebec is not opposed to effective aid being given by Canada. The reduction of the majority from 734 to 301 is quite as emphatic as it would have been if the former majority had been only 400 and Cardin's opponent had now been elected by the smaller majority of 33. No matter how substantial may be the aid which Canada may now give nor what shape it may take, we must not forget that Canada must bear the stigma of having held back until the Australasians set the example for us. Let that circumstance tend to keep us humble.

Town and District.

Miss Easton and Mac Clarke spent Sunday and Thanksgiving with their parents in Keremeos.

Mr. J. E. Brown of Sapperton B. C., is spending a few weeks with his brother-in-law and sister, Mr. and Mrs. F. H. French.

Mrs. W. Baxter and two children came in on Monday from Moosejaw to rejoin her husband who is spending the winter in Hedley for his health.

Mr. and Mrs. C. H. Brookes left for Victoria on Friday last being summoned thither by a telegram from the president of the Gold Plate Mines Co., which is operating the Golden Zone.

Mr. W. Beach came in on Saturday last from Hope on a visit to Mr. G. P. Jones. They had not seen each other since they worked together on the Broken Hill waterworks plant in Australia.

Mr. E. Bullock-Webster was in town on Tuesday on his way back from the coast via the Hope trail. He found snow on the summit and just got over in time or he would have come in for the heavy snow fall which caught us here on Tuesday morning. The Hope trail is an old experience with him as in earlier years it was the usual means of ingress and egress.

The News-Advertiser is giving a handsome premium of Premier Borden and his cabinet which old and new subscribers will appreciate. Besides, the News-Advertiser is the one provincial paper that the man who wants reliable news cannot afford to do without. Its news service is very complete and its editorials are both the fairest and most up-to-date of any of the provincial dailies.

The Hedley Skating Club was organized at the meeting on Thursday last. The officers were M. C. Hill, president; H. E. Townsend, secretary; H. H. Hobbs, treasurer; grounds committee. Jack Lyall, H. E. Townsend, W. C. Martin, B. W. Knowles, and Leonard Bradshaw. A spot east of the school is being cleared off and flooded to form an open rink which will be quite serviceable here as the snowfall never amounts to anything and the location is sheltered from the winds that blow out on the flat.

Danny McEachern's road gang are making repairs to a bridge on the Penticton-Keremeos road at Joe Maisel's and as a result the autos plying on the route have had to ford the creek. Last week Tweddle's auto outbound with Mr. and Mrs. G. D. Taylor on board sustained a broken bevel wheel and had to get Joe Maisel's team to take them back to the Central Hotel where Welby's auto took them through next day making the two round trips in the day. The repairs on that particular bridge cannot be completed any too soon to suit the auto men.

The many friends of Jack Raitor were pleased to see him back at his post as station agent for the Great Northern at Hedley. He returned on Thursday last and appears to have fully recovered from the recent illness which compelled him to give up work early in the summer. Obliging, even tempered and correct in his work he is one of the few employees of that company representing them on this side of the line who for civility and capability measure up to what Canadians who are used to Canadian lines expect of men in a similar position.

The Education Department have sent a new flag for use on the Hedley school. The trustees are making arrangements to have the flag pole taken down and a new rope put on. The Gazette has heard a hint that certain boys around town know what became of the rope. The thing at all events is worth investigating and if the parents of these boys are made to pay the whack for getting a new rope in position (as they ought to be for there is no reason why the public should be taxed for repairing the damage done by boys whose parents do not try to control them) it will have a salutary effect in preventing a repetition of the offence.

Mr. J. F. Mosby, secretary of the Gold Plate Mine Co., is expected back from Victoria in a few days when it will be known more definitely what the future policy in connection with Golden Zone operations is likely to be. During the past week something resembling a crisis in its affairs has been shaping. Whether it is due to misunderstanding or too much under standing remains to be seen. Mr. Brookes and Mr. Mosby are both believed to be in Victoria now, and that is the head office of the company. Rumor has been busy for the past few days—in fact working overtime, and when something more tangible than rumor develops it will be time enough to attempt to deal with details.

The Canadian Association for the prevention of tuberculosis has the thanks of the Gazette for a copy of the twelfth annual report with transactions of the annual meeting held in Toronto in May last. All of the addresses and papers contained therein will repay careful perusal and study on the part of all who received the report; and while the press is often worked for the advancement of movements that concern the few and often minister only to the self-interest or vain-glory of some, the work of this particular association is something that no publisher will be disposed to ignore and they will find in the report much that they can pass on to their readers in the form of timely paragraphs dealing with the truths set forth. The printing and circulation of reports cost money, but it is money well spent for the advancement of this cause to have all the information dealing with combating of tuberculosis circulated as widely as possible.

Only a few days more to get a fifteen dollar "Brite Lite" for nine seventy-five at Rolls' store. Also look over his canaries he will give you a bargain this week as he ships to Vancouver Monday.

WATER NOTICE

For a Licence to Take and Use Water

NOTICE is here given that Frederick Howell, of Keremeos, B. C., Rancher, will apply for a licence to take and use 100 inches of water out of Sheep Creek, which flows in an easterly direction through Lot 3396 and empties into Okanagan Lake Penticton. The water will be diverted at about 20 chains west of S. W. corner of Lot 3396 and will be used for irrigation purposes on the land described as Fred Howell's pre-emption.

This notice was posted on the ground on the 4th day of October, 1912. The application will be filed in the office of the Water Recorder at Fairview.

Objections may be filed with the said Water Recorder or with the Comp-roller of Water Rights, Parliament Buildings, Victoria, B. C.

FRED HOWELL

NOTICE

SIMILKAMEEN LAND DISTRICT
DISTRICT OF YALE

Commencing at a post planted at the North-west corner of Lot 337; thence northerly along the East shore of Dog Lake eighty chains more or less to the South-western corner post of Lot 461; thence East 743 links more or less to the west boundary of the Columbia and Western Railway right of way, being the East boundary of Lot 2710, Group 1; thence Southerly eighty chains, more or less, along the West boundary of Lot 2710 to the north boundary of Lot 337; thence west three chains more or less to the point of commencement and containing 25 acres more or less.

J. R. EDMOND

Hedley, October 7th, 1912.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Wharf at Seymour Arm, B. C.," will be received at this office until 4.00 p. m. on Tuesday, October 29th, 1912, for the construction of a Pile Bent Wharf at Seymour Arm, District of Cariboo, B. C.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq. District Engineer, New Westminster B. C.; F. W. Aylmer, Esq., District Engineer, Chase, B. C., and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender.

By Order

R. C. DESROCHERS,
Secretary.

FREE Fine Engraving in Sepia of the

Borden Cabinet for Readers of the "News-Advertiser."

EVERYONE wants a picture of the members of the Government of Canada. The "News-Advertiser" has had prepared for the exclusive use of its readers in this province a large engraved plate of Rt. Hon. R. L. Borden and his Minsters.

The group is redrawn from the latest photographs of the eighteen Ministers, who compose the advisers of His Royal Higness the Governor-General. It is printed in sepia on heavy board ready for framing, and will be of the greatest educational value in the home, the school and the library.

The Prime Minister, HON. R. L. BORDEN, occupies a central position, and is shown standing at the head of the Council Table. Seated about him are his colleagues.

Dimly in the background the features of Sir John Macdonald look down on his successors.

How to Obtain the Picture

This fine engraving, of which a limited number have been prepared, will be sent

FREE OF CHARGE

to new subscribers, or to old subscribers, who renew their subscriptions for one year ($3.00).

For out of town subscribers the picture will be tubed and postage prepaid.

Non-subscribers may obtain copies on payment of 50 cents. If mailed, ten cents extra for tubing and postage.

Applications and remittances (cash must accompany order), must be made to

The Circulation Manager

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen----Famed for Fruit Growing

Town and Lower Valley.

Mrs. J. A. Brown was a guest at "The Willows" last week end.

Mrs. Tweddle returned Tuesday from a business trip to Lethbridge and other prairie points.

Everybody will be doing it! What? Dancing in the town hall on Friday, November 1st.

James Callaghan, owner of Lot 15, occupied by G. S. Tickell, was in town the end of last week for a short while.

Miss Florence Daly while up the *Ashnola on their last trip* had the great satisfaction of putting the first notch in her rifle as she killed her first deer with a fine shot.

The colder weather around Coalmont and Princeton makes it hard for the "Molasses Limited" to thin down enough so as to reach Keremeos not less than three or four hours late.

William R. Hope, better known as Billy, went up to Coalmont Saturday last to put in a few days hunting, but really we think it is to get into training for the big dance on November 1st.

If hay is eighteen dollars a ton in October how much will it be in March? also spuds which are pretty low at twelve dollars a ton will without a doubt go higher until they reach a good price long before next spring.

Dr. H. H. George, V. S., wife and two children came in from Kamloops and are now staying at the Keremeos hotel. Dr. George for the past two months has been taking Dominion Veterinary Surgeon, W. Thomson's, place during the latter's severe illness.

Maurice Daly left on Monday's train for Spokane where he will go to the Gonzaga College to take up studies. Maurice will be very much missed especially by those at home to whom he was as they said the life and soul. Well we wish you luck in everything you go in for and hope to see you home for the Christmas vacation.

The Rev. MacKenzie met with a painful accident last Monday. While chopping a little wood the axe came in contact with the clothes line thereby deviating from its course smote our worthy pastor a terrible crack on the cranium which would put the story of David in the background. Nevertheless, everyone was pleased to see him in the disguise of "Whirling Dervish" at the glorious repast Monday last.

A gentlemen, whose name we were asked not to mention, was in town Monday looking into the feasibility of putting in a small drying and evaporating plant and was inquiring very carefully into the amount of various fruits that could be got at a reasonable rate. Wish someone had got the notion last fall for by this time they could have made a good turnover for themselves and a decided profit for the fruit growers as carloads of fruit have gone to waste this summer.

T. C. Eades is in the vicinity soliciting signatures of enough to co-operate in bying what is supposed to be the finest and most accurate map of the three western provinces. If only one thousand names can be got the price of these maps will be $7.50 each over the thousand signatures the price will fall in proportion. These are the conditions to which people signed their names These conditions therefore appear satisfactory but it seems to us that one thousand names will be easy enough to get. Keep youreye open, buy or sign, but don't get stung. Watch the thousand.

The Thanksgiving supper which was given out by the Ladies Aid on Monday last was a decided success. Twice the tables were filled before any of the Ladies had a chance to get a look in. Chicken, well it was a case of now you see it and now you don't. The chicken played out but the other good stuff was much in evidence. It was a busy hour for the ladies to see that the Keremeos bachelors got their annual fill. The proceeds amounted to about fifty dollars. After supper the young people had great fun at various games and altogether each and all spent a most enjoyable evening.

Jack Pritchard is back amongst us once again. Thirty-seven years ago Jack left old England, and the early part of the summer decided to make the trip across the herring pond. He got to the old spot once more but the times had changed but not the place. The same old church, the same old town, but not a face that he remembered, as he said, he would not have known his own brother. He reports that it rained practically all summer long but the end of August and part of September was splendid weather, so was able to get a good deal of pleasure in the end out of his trip.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
