Weekly Meeting of City Council

Finance Commitee Urge Care in Civic Expenditures

To insure proper fire protection for the city it is absolutely necessary that a continuous and uninterrupted telephone service day and night and Sundays and holidays alike be maintaine This was the burden of a communication from the Kelowna Fire Brigade read at last Friday morning's meeting of the council. Under the present arrangements, the letter pointed out, it would be more than awkward to get an alarm of fire to the power house or even to the fire hall should it occur during the hours the telephone system is suspended. Thus unless the alarm were personally taken to the power house there would be no syren blown to call the brigade together. Before such a message could be taken enormous loss might occur.

Mayor Jones said the need of a continuous service had been realized by others besides the fire brigade, and it was generally felt that some steps should be taken to have conditions altered. He thought the time had come when the city should have a complete service. They ought to get at once into negotiation with the Okanagan Telephone Co.

Alderman Sutherland suggested that if the company were not willing to do anything in the matter Kelowna might follow the example of Summerland and establish its own system.

It was decided to ask the manager of the company to meet the council at an early date to discuss the question.

In their letter the Fire Brigade also pointed out the danger to firemen from live wires, and suggested that some steps be taken during a fire to shut off the current.

Alderman Sutherland said that during the recent fire at the livery barn, which had no doubt prompted the letter, the lineman had been at hand most of the time in readiness to cut off the current if it had been necessary.

Mayor Jones suggested that a rule be made that the lineman should be present in case of a fire in order to cut wires if necessary, and it was decided that this course be adopted.

As an example of the unreasonableness of some people Alderman Taylor stated that several persons in speaking to him of the Max Jenkins fire had claimed that there was not sufficient

(Continued on Page Nine)

Opening of Enquiry Into "Empress" Disaster

Lord Mersey Presides Over Impressive Scene

The enquiry into the Empress of Ireland disaster opened at Quebec Tuesday last. The scene in the courtroom was impressive in its gravity. The three members of the commission, Lord Mersey, Judge Routhier and Judge McLeod, with the assessors seven in all filled the judicial bench. Behind them, leaning over the back of one of the chairs, stood Hon. J. D. Hazen, minister of marine and fisheries. Below, the well of the court was almost filled with attorneys and counsel. The federal government, the C. P. R., the officers and engineers of the Empress, the owners and officers of the Storstad, the Dominion Coal company, the Sailors and Firemen's union of Great Britain and Ireland. Not an interest affected but had its representatives.

It is anticipated that the enquiry will be one of the longest on record.

The Bishop of the diocese will be in Kelowna next Tuesday, June 23rd and will conduct Confirmation services at St. Michael's church at 7.30 p.m.

The local lodge of Free-Masons will pay a visit next Sunday morning to Knox Presbyterian Church. The members will assemble in the Masonic Hall at 10.15 a.m., and will parade to the church. The Rev. Bro. Alex Dunn will conduct the service which will be of a special Masonic character. Visiting brethren will be cordially welcomed.

Will Organize Excursion of Business Men

Board Trade Will Co-operate With Agricultural Assoc.

At the monthly meeting of the Board of Trade, Tuesday evening, considerable discussion arose in connection with the Board's finances. This was caused by a letter that had been received from the city council in which they intimated that although a grant of $500 had been included in the financial estimates for the current year it would not be advisable for the Board to incur any liability upon the the strength o this as the grant would only be available in the event of the taxes being paid.

The president remarked that the question of finance had now become a serious matter, and something would have to be done. Many of the subscriptions were outstanding and most difficult to collect. Several tradesmen's accounts had been outstanding for a considerable time, and there were three months salary owing to the secretary.

After considerable discussion, during which many plans were suggested for tiding over the present difficulty a committee was appointed to act with the secretary in a further effort to collect subscriptions owing by members.

NEW POST OFFICE

The correspondence in connection with the new post office, which was laid on the table from last meeting was again briefly discussed, as was also the correspondence relating to the equalization of the water level of the lake. As the Hon. Martin Burrell was expected in the district very shortly it was decided to take up these matters with the Hon. Minister personally.

FIRE INSURANCE

The secretary reported having received a reply from the secretary of the Fire Underwriters Association of Vancouver intimating that a representative would be leaving for the Okanagan shortly and would discuss the question of reduction in fire insurance rates upon his arrival. A special committee, consisting of the president and Messrs. McTavish, Fisher and Benson were appointed to deal with this matter.

LEAVES FOR IRELAND

The president mentioned that Deputy Game Warden Sullivan had left that morning for Ireland. He was returning home owing to the death of his mother. The speaker stated that Mr. Sullivan was anxious to hold his position. He thought they would all agree with him that he was a very enthusiastic officer and did excellent work. The president thought it would be a good idea if they passed a resolution asking Mr. Bryan Williams to give him two months' leave of absence.

Mr. R. B. Kerr, thereupon moved a resolution to this effect which was seconded by Mr. F. R. E. DeHart and unanimously carried.

BEAR CREEK ROAD

The secretary stated that Road Superintendent Hamilton Land had informed him that he had been over the Bear Creek district, as well as Road Foreman Munford, and that Mr. Lang was making arrangements to spend $1000 on the road at once. Any further amount would have to come out of the Kelowna contingency fund. The money was principally being expended on Mr. Porter's end of the road so as to give him an outlet.

The meeting expressed their satisfaction that the work would be proceeded with.

VISITORS TO FALL FAIR

Mr. F. R. E. DeHart drew attention to the fall fair in September, and mentioned that this year he would like the Board of Trade to co-operate with with the Association in endeavoring to arrange excursions of business men from the coast and Calgary.

Special rates had been arranged with the C.P.R., and he suggested that the secretary write the various Boards of Trade in connection with the matter. If they could get a good bunch of business men here from these points it would doubtless be of great benefit to the district.

Mr. Wm. Haug, and others thought the suggestion a very good one, and the secretary stated he would write the necessary letters.

Big Gold Discovery in Neighborhood Of Kelowna

Secret of Immense Mine of Precious Metal Has Been Well Kept—Mr. Rembler Paul tells of Huge Possibilities of Rich Strike

There have been rumors for some time past that gold in large quantities had been discovered in the neighborhood of Kelowna, and if the story told to the "Record" yesterday be true there will undoubtedly be a big rush of prospectors and others to this district.

The secret was well kept until it had been proved beyond all reasonable doubt that gold does actually exist.

It is not a company promoting scheme, and the outfit that have been at work quietly now for the past ten months or so have no shares to offer to the public. It has been financed by a local capitalist, Mr. Rembler Paul, who as everyone in Kelowna knows, has no ulterior object to serve in making public what promises to be one of the richest strikes ever known in British Columbia.

To a young man the story of untold wealth laying at one's very door might cause the blood to flow a trifle faster but to an octogenarian it only appeals as an idle bauble— a mere new toy. When he was asked, for instance what he was going to do with it he simply laughed and said "Oh, I don't know, I suppose I shall give it away."

"You want to know the whole story," said Mr. Paul in reply to a perhaps hasty remark of his interviewer. "That reminds me of my early days on the "British Wig" when I myself used to hunt up good 'copy" for my newspaper" at the thought of which the old man laughed good naturedly to himself. "Well, I will tell you as there is now no reason why the people should not know."

VAST QUANTITIES OF ORE

"It was about the latter end of August last year that I was approached by some prospectors who brought me various samples of gold ore. They assured me that they knew where vast quantities of the ore existed, that all they needed was capital to erect stamping machinery.

"I had the samples analyzed by a number of experts and finally decided to accede to their request. Work was commenced and we have now 150 tons of ore waiting for the erection of a stamping mill which is being erected, and which it is hoped will be working within a couple of months.

"In this respect we have been fortunate in having an excellent flow of water which will generate power not merely for present operations but for a largely increased plant.

"Assays have been taken from different depths. The vein is four feet wide and runs, as far as is at present known, for a little over a mile. The average so far has shown $73.90 to the ton. There are at the present time thousands of tons of the same class of ore in sight. Based on a conservative calculation the extent of the ore would run into more than 53,000 tons which at even $50 to the ton would yield $2,650,000.

"Oh no, I am not forming a company" said Mr. Paul in reply to a remark. "I have now the controlling interest in the affair—there are only two others and myself in the whole thing—and we will work the mine ourselves."

CALGARY ANALYSIS

In connection with the above it is interesting to state that when Mr. Paul happened to hear that the secretary of the Board of Trade was visiting Calgary last August he asked Mr. Beaver-Jones to take with him a few samples of the ore to be analysed. The specimens were certainly not the best that could have been submitted— in fact special care was taken to submit the most inferior grades. The samples were handed to the Kelso Testing Laboratories, the leading assayers in Calgary and the following is their report:

Kelso Testing Laboratories Ltd.
Office and Laboratories 226 Eighth Avenue West, Calgary Alta.

Report of assay on sample of ore submitted by Mr. Beaver Jones, Kelowna, B. C.

	Oz. per ton	Value per ton
Gold	8.86	$177.20
Silver	0.82	.49

Total value in dollars and cents $177.69.

NOTE.—Gold at $20.00 per oz., and silver at 60 cents.

Remarks.—In one corner of the sample submitted the gold was easily perceptible with the aid of a magnifying glass.

Signed—Kelso Testing Laboratories, Limited.
Jas. A. Kelso, Manager.

Specimens submitted to other assayers in the United States and elsewhere corroborate that of the Calgary firm.

We understand that the two prospectors associated with Mr. Rembler Paul are Mr. Angus Woods and Mr. E. D. McDaniels. Mr. J. H. Harrigan, of Hedley has been engaged as working manager at the mine.

Urge Continuous Telephone Service

Officials of Okanagan Telephone Co. Confer With Council - Offer Made by company

The vexed question of a continuous telephone service was again discussed at the meeting of the Board of Trade Tuesday evening.

Mayor Jones, in bringing up the matter stated that for some time now a number of business men and other residents of the city had approached the council wanting to know why it was that the Okanagan Telephone Company did not give them a continuous service.

The matter, said his worship, was brought to their attention again after the Max Jenkins' fire and it was pointed out how serious it would have been had the fire occurred on a Sunday or holiday between the hours when there was no service.

Mr. J. J. Jones, president of the company, and Mr. George H. Dobie had met the council, and after considerable discussion the president stated they would be willing to give a continuous service for the whole seven days provided they were agreeable to pay 50 cents per month extra for business telephones. There were 129 of these instruments in the city which would mean $64.50 per month although the greater part of that would go for the payment of additional help.

Some objection was taken to further increasing the rates on the business telephones, said the speaker, but Mr. Dobie contended that it was the business men who were more likely to use the 'phone at night or on Sunday than other residents.

The representative of the company requested the council to bring their suggestion before the Board of Trade. The company claimed they would not make anything on the deal whatever, in fact the extra service would probably more than absorb the $64.50 per month.

Mr. H. G. Pangman thought it was some little concession on the company's previous offer of $1.00 extra all round.

Mr. F. R. E. DeHart characterized the suggestion as a hold-up. At Summerland, he said, about 200 residents there used the municipal system which had recently been installed. They had a continuous service and the rate was only about half that of the Okanagan Telephone Company.

The matter was referred for further discussion to the next Board of Trade meeting.

Magnificent New Boat For Lake Service

Trial Run to Penticton Accomplished With Success

There was considerable commotion in Kelowna Friday morning when word was passed around by the C. P. R. agent that the new steamer "Sicamous" would, that afternoon make a trial spin down the lake, and that anyone who cared was invited to be the guest of the great transportation company.

The very short notice prevented a great many from accepting the invitation, nevertheless about three hundred residents availed themselves of the opportunity.

Shortly before one o'clock the new vessel made her appearance at the wharf and was the object of much favorable comment. Those who were fortunate enough in making hasty arrangements for the trip, carrying improvised lunches in their hands, gleefully boarded the steamer, much to the chagrin of the others remaining behind.

ABSENCE OF VIBRATION

The vessel, which is the last word in lake steamship construction, behaved splendidly on the trip, and quite came up to Capt. Gore's anticipations.

One of the most noticeable features of the run was the practical absence of vibration. Even when a squall came on before reaching Summerland the vessel proved her qualities in this respect by riding through it with perfect steadiness. Owing however to the heavy sea it was not considered advisable, as that was the first test of the steamer to put in at Summerland and Naramata, and the course was kept for Penticton, which was reached a few minutes past 3 p.m. and which gave a mean speed from the Landing of about 16 miles an hour. A better speed than this will be maintained when the steamer is actually in commission as the engines were not opened out on the trial run.

With the exception of the "Bonnington" on the Arrow Lakes—which has more sleeping accommodation— the Sicamous is the largest and most luxurious of the C. P. R.'s inland lake steamers. She is 200 feet in length 40 feet wide, and 8 feet deep and her average draft will be about 5 feet.

STEEL CONSTRUCTED HULL

Several improvements have been effected in the new boat compared to the "Bonnington" and "Nasookin" not the least being that of steel rudders. The hull is of steel construction throughout, and is divided into 20 water-tight compartments. The engines are of the tandem compound jet condensing type, and generate from 1200 to 1300 horse power which will give the boat a speed of about 19 miles an hour. Her gross capacity is 1500 tons, and she will be able to accommodate 400 passengers.

A spacious dining room will seat 70 persons, and there are 40 staterooms, all magnificently fitted up. The general scheme of decoration has been carried out in Australian mahogany.

STORIES OF OTHER DAYS

Interesting reminiscences were related by two or three old-timers who were gathered in the wheel-house on the return trip. Thoughts went back to the time when the only means of traveling was by a sail boat and what days they were: What merry escapades must have been enjoyed! One told the story how all those on board, including the skipper, were so entranced with a game of dice on one occasion that no one had noticed that the boat had turned round and was reentering Kelowna instead of pulling in to the Landing! And then there were recollections of old Capt. Short and of Jack Williams: of the early days of steam navigation on the lake: and comparisons between the crafts of that time and the magnificent new steamer, which had been built at a cost of close upon $200,000. All these stories were exceedingly interesting and it was pleasing to note the unmistakable pride of the old-timers in the new boat.

INTERESTING SPEECHES

Just after the steamer left Peachland there was an informal gathering

(Continued on Page 2.)

Well Pleased With Kelowna Development

Deputy Minister Scott Pays a Brief Visit to City

Hon. W. E. Scott, deputy minister of agriculture paid a brief visit to Kelowna Saturday last.

Accompanied by Mr. R. Robertson, manager of the Okanagan United Growers, Ltd., and Mr. J. E. Reevie, president of the Kelowna Growers' Exchange, a tour of inspection was made, at the termination of which he expressed himself very well pleased with the appearance of things in general, and the development of the district.

"There will undoubtedly be a big crop" he remarked to the "Record", "although not so large as the exaggerated reports made some little time ago would lead one to believe.

EULOGIZES CO-OPERATIVE SPIRIT

"It is a hopeful sign of the times," he remarked, "that the co operative spirit is daily finding more favor with the farmers of the district, and indeed throughout the province. It was only by such methods that the highest success in agriculture is to be obtained.

"All co-operative bodies" he said, "farmers' institutes, poultry associations, and farmers' co-operative associations have found that a material saving is effected by purchasing wholesale in the cheapest market all their requirements of their ranches.

"An outstanding example of the success attained in marketing their produce was afforded by the Okanagan United Growers. The value of this movement," said the minister "is clearly apparent. Sixty-five per cent of the total produce of the Okanagan was handled by the eight incorporated associations of the United Growers and the produce was on the whole last year satisfactorily disposed of. This year there would be a considerable increase in the quantity of produce handled and with the more perfected arrangements good prices should be maintained.

"I hope to see the time," he remarked, "when the whole province will be covered by such co-operative associations which will eliminate internal competition."

The minister left by Sunday afternoon's boat for points down the lake.

Plan Erection of New Theatre in Kelowna

Eastern Amusement Promoter Behind Enterprise

As will be noticed from our advertising columns a scheme is on foot to erect another theatre in Kelowna.

Mr. S. E. Jarvis, an eastern amusement promoter is behind this new project and will be in the city shortly when it is his intention to proceed at once with the erection and equipment of the "Bijou" as the new theatre will be called.

It is to be modern in every respect and will have a seating capacity of from 350 to 400 people.

Although the exact location has not yet been made public it is stated that plans are being prepared, and as soon as passed by the authorities will be placed in the contractor's hands with orders to have it ready for the coming season.

STORK HAS BEEN BUSY IN KELOWNA RECENTLY

Kelowna has well sustained her enviable record during the past week. No better criterion of a rising community can be instanced than its birth rate, and in this respect we think the Orchard City holds the record for the whole of the Okanagan. Hearty good wishes to the followings:

Hitchener.—June 14, to Mr. and Mrs. Louis Hitchener, a son.

Day.—June 15, to Mr. and Mrs E. B. Day, a daughter.

GOOD.—June 15, to Mr. and Mrs. A. Good, a daughter.

JOHNSON.—June 15, to Mr. and Mrs. A. H. Johnson, a daughter.

ROYLE.—June 16 to Mr. and Mrs. P. V. Royle, a daughter.

This special privilege is granted for the purpose of advertising the city and district.

Is the time ripe for a public market in Kelowna? This question has, of late been brought up at the Board of Trade and in this issue we report at considerable length a discussion on the subject at Tuesday evening's meeting.

The point is certainly a debatable one, and the Record gladly opens its columns for a full and free discussion as was suggested at the meeting.

In many parts of Canada public markets have been made an unqualified success, the last city to adopt the idea being Kamloops, but it must be borne in mind that success in one town, owing to altered conditions, might spell failure in another.

In thickly populated centres there is practically very little risk as the cry has always been for fresh produce. Where the supply does not equal the demand the promoters of such a scheme have very little to worry about; but could these premises be quite correctly applied locally? As was pointed out by one of the speakers on Tuesday evening, many residents have their own little garden and grow all the green stuff they require. Again on the other hand those requiring fresh produce have oftentimes a difficulty in obtaining it, and are compelled to patronize the Chinks. A large number of small growers have a surplus which they would only be too glad to dispose of; the difficulty is to find a common meeting ground so that the requirements of both grower and consumer might be satisfied. It is contended by some, and perhaps quite rightly, that local growers would benefit financially if the market were established and that it would be a very easy matter to work up a regular connection.

As it is claimed that local storekeepers would not be effected by the innovation—and this is an important point—perhaps the experiment might be made. If it is there must be hearty co-operation by all concerned. A mediocre effort would be worse than useless, and unless a spirit of enthusiasm were displayed it would be far better to drop the subject.

In this connection the recently established market at Kamloops has demonstrated two things, that the public were ready for a market and that the produce raised by the farmers can be disposed of without any difficulty for cash. At the opening market there were more buyers than sellers; and although Kamloops is a larger town, yet it is quite feasible that in perhaps a lesser degree a market here would be quite successful. At any rate the example instanced is decidedly encouraging. A feature of the Kamloops market, according to the "Kamloops Standard" was the demand for poultry, which fact, that journal stated, should encourage the farmers to go in largely for chickens and which would always find a ready sale.

It must be remembered, however, that a public market would be no solution of the dairying problem. There is a tendency just now to develop this industry in the district. A public market would be entirely inadequate; the establishment of a creamery would seem to be the only way of placing the dairying business on a sound footing. This would afford the means of producing a uniformly reliable quality of butter, but would enable farmers by such co-operation, to reach out for broader markets than could possibly be touched by individuals.

The fact that the senate has passed the Canadian Northern Railway Bill—apart altogether from any question of party expediency or wire-pulling—should cause a feeling of satisfaction in many parts af the province and especially in Kelowna.

It was contingent upon the Bill passing that there was any liklihood of the Kamloops-Kelowna branch line being constructed. There is little doubt but that Mackenzie and Mann have from the start been quite honest in their intentions in carrying out this part of their development scheme. Circumstances, however, arose which militated against it. Railway corporations can no longer abuse their charters by leaving unaccomplished for an indefinite period work which they have undertaken. It cannot be argued that any such inference as this had any bearing upon the delay of the Kelowna branch. Sir Richard McBride has on several occasions stated that the work would be commenced at an early date. There is no question but that under ordinary circumstances this would have been done long ago. It is therefore a matter of congratulation that the vote which was largely on non-party lines, has been carried to a successful issue.

No little amount of controversy has has been caused over the position the government were placed in connection with this deal. It was admitted by both sides that it was an extremely delicate one, and the Senate have shown much discretion in acting in the way they did and rising above mere party conflict. It was confidently asserted by some section of the Liberal press that owing to that party's majority in the Senate the Bill would be ignominously turned down, but refused even an adroit amendment and passed the Bill as it was sent up from the lower House.

It cannot be pretended, but that Mackenzie and Mann have once more scored; they have come out of the fray with easy honors. But it must not be overlooked that if they had been compelled to throw down their hand they could have retaliated by destroying the whole credit of the country by going into liquidation. Such an event, at the present juncture would have had a dire effect throughout the Dominion and the government have handled an extremely awkward problem in a way which will perhaps commend itself even to an extreme partisan.

Miss Riddell, of the hospital staff, who it will be remembered lost her sister in the Empress of Ireland disaster, left this morning for Winnipeg on a visit to friends.

CORRESPONDENCE

Editor Kelowna Record.

Sir.—In your account of the foundering of the "Empress of Ireland" you say "the horror was added to by an explosion of the boilers." Will you allow me to point out that there is no authenticated case of steamship boilers exploding under these circumstances. In no case where sunken ships have been raised has it been shown that the boilers had exploded. I suggest that the so-called boiler explosions are caused by the sudden rush of water into the many glowing furnaces, this instantly generates a vast quantity of steam. It must also be remembered that there is a huge volume of air to be displaced when a ship goes down.

Yours truly,
P. A. LEWIS.

Glenmore, June 13, 1914.

MAGNIFICENT NEW STEAMER FOR LAKE SERVICE

(Continued from Page One.)

in the saloon over which Mayor Jones presided.

It was only fitting said His Worship that before they separated at the wharf at Kelowna that they should voice their appreciation of the efforts of the C.P.R. to improve the lake service.

The Sicamous was a steamer second to none on the inland waters of British Columbia. The cost of the vessel amounted to close to $200,000. That gave them some idea of what the C.P.R. were doing to perfect their service in the Okanagan valley. It was gratifying that in their world-wide system the company were not overlooking the Okanagan. One of the vice-presidents of the company had stated a few days ago that they intended to gridiron the valley with railway lines. They hoped that that would soon be the case, a remark which was greeted with loud applause.

He moved a hearty vote of thanks to the company for the opportunity which had afforded them of inspecting the new steamer and participating in such an enjoyable run, specially mentioning the name of Captain Gore, the superintendent of the company's lake services.

This was carried with much enthusiasm.

Rev. J. C. Switzer said he heartily supported the Mayor in his remarks. The C. P. R., were proving that they had some proper conception of the needs of the Okanagan valley in equiping such an excellent boat for the lake service.

Loud cries were here raised for Capt. Gore, who received quite an ovation upon entering the saloon. On behalf of the company he briefly returned thanks for the expressions of appreciation that had been made.

Rev. D. J. Welsh in speaking of the progressive policy of the C.P.R. said that such a steamer would tend to increase tourist travel.

Other speakers, including Mr. H. H. Millie spoke in eulogistic terms of the new boat.

Mr. H. W. Swerdfager, the local agent of the C.P.R. expressed his satisfaction that those on board had enjoyed the trip so well. He regretted that the notice had been so short, but was glad so many had availed themselves of the outing.

The speeches were agreeably interspersed with vocal selections by Mr. G. S. McKenzie.

Kelowna was reached shortly before 7 p.m., a thoroughly enjoyable afternoon having been spent. It is expected that the new steamer will be put on the service in about a fortnight's time.

HAPPY IS the woman who is never unprepared; who can always lay a nice appetising meal or light luncheon before any guest—unexpected or not. Her friends praise her for her housewifely qualities and she feels that delightful satisfaction which can only come from hospitality perfectly done.

The secret lies in having a well chosen selection of canned goods and table dainties always at hand. Look over our stock (the best of the kind in the town) and make a selection to-day. Then put your fear in the cupboard for you will be prepared for any company—come when it may.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion lands.

W. W. CORY.
Deputy Minister of the Interior.

N.B.— Unauthorized publication of this advertisement will not be paid

Auction Sale

In the matter of GEO. A. BOWSER, Insolvent, the following will be sold by Auction at

J. C. Stockwell's Auction Rooms
Kelowna, B.C., on

Saturday, June 20th,
at 10 a.m.

News From Far and Near

The officials of the Vancouver exhibition Association will have a remarkable feature on the fair grounds this year in the Better Babies contest, which will not only prove how much babies are worth to their parents, the community and the nation, but how a better race of babies can be insured.

* * *

The suffragettes' bomb which was recently exploded under the coronation chair in Westminster Abbey smashed that historic piece of furn ture much more badly than was at first admitted. It is believed that the stone of Scone on which twenty-seven British rulers have been crowned has been cracked much worse than the Abbey authorities admitted to the public.

* * *

Large equipment orders from tne various railways in preparation for the enormous western crop will probably be made within the next month or so, and Toronto financial men interpret this as a sign of renewed prosperity.

* * *

Arrangements have been made with the Bank of British North America whereby the city of Victoria will secure a short-term loan of $250,000, wherewith to meet the cost of completing the local improvement programme to be carried through this year.

* * *

Sir George Paish, editor of the Statist, bewails the stand Canada has taken over the Hindu question. It is all very well for an editor six thousand miles away to write a learned treatise on Imperial spirit. If Sir George lived in British Columbia he might, perhaps change his views.

* * *

Roald Amudnsen, the explorer, had a narrow escape from death during the course of tests in an aeroplane by which he secured an aviator pilot's certificate, which will enable h'm to use an aeroplane in his coming polar expedition. While the machine was in flight, the elevating plane broke. The machine was dashed to the ground and wrecked, but Amundsen escaped uninjured.

* * *

Unostentatiously and without any ceremony whatsoever, the world's traffic through the Panama Canal is very shortly to be inaugurated by the passage of a mail steamer of about 5,000 tons from the Pacific to the Atlantic. The clearing of the Cururcha slide has proceeded sufficiently to allow of the passage of a ship of this size. The opening was hastened forward by the congestion of freight due to the closing of the Tehuantepec Railway.

* * *

A new altitude record for balloons is announced in a book by Dr. A. de Quervain, describing his recent crossing of Greenland. Two members of his party, Drs. Jost and Stolberg, remained on the west coast and during the winter of 1912-13 sent up pilot-ballons 120 times from the Danish scientific station at Godhaven, Disco Island. One of these was followed with theodolites from the ground to an altitude of about 39,000 metres (24.2 miles) which exceeds by about 4,000 metres the greatest height ever before attained by any form of aerological apparatus.

* * *

Parliament was formally prorogued Friday last by the Duke of Connaught. After His Royal Highness had read the speech from the throne formally proroguing parliament, he received the farewell address of parliament as passed by the Senate a few days ago. The address was read by the Speaker of the Senate. His Royal Highness replied, briefly acknowledging his gratitude to parliament and to the Canadian people for the constant kindness and consideration which had marked his tenure of the Governor-Generalship.

* * *

What is probably the largest sudden increase in the size of locomotives has taken place in a new freight locomotive built by the Baldwin Works to serve as a pusher over hearty grades on the Erie Railway. The engine is of the Mallet articulated type; but its weight and power have been greatly increased by adding a third pair of cylinders and a set of six-coupled driving wheels, which are carried by the frame of the tender. The boiler has 6,886 square feet of heating surface, and the steam is utilized in one pair of high pressure cylinders and two pairs of low pressure cylinders, all of which are of 36 inches diameter by 32 inch stroke. The working pressure is 210 pounds to the square inch, and the drawbar pull is 80 tons. The total weight is 477½ tons, of which 3[illegible]½ are upon the drivers.

The great speed maintained by the new Shamrock seems to have confused Sir Thomas Lipton's idea of pace on land. Recently the owner of the challenger was summoned at Southampton for driving his automobile at excessive speed. His secretary, who appeared in Lipton's behalf, explained that the Shamrock's fine performance was responsible for Lipton's being summoned.

: : :

Queen Mary has decided in case of further suffragette demonstrations in the vicintiy of royalty to quit London abruptly and leave King George to finish the season alone. The Queen is represented as being in a state of nervous tension as to when and where the suffrag?tes will appear next. She it is said, has no intention of allowing her existence to be made unhappy by those she habitually calls the "furies."

* * *

While the guards of the prison at Figueras, Catalonia, just across the Spanish frontier were watching a Corpus Christi procession the other day the convicts revolted, killed the governor of the prison, armed themselves and tried to escape. Troops were called and after fierce fighting in the prison enclosure, in which many convicts were killed or wounded, the prisoners were subdued.

* * *

The London Times, in a recent editorial extends a hearty welcome to Colonel Theodore Roosevelt "because England knows and loves a man when she sees him."

The Times proceeds to say that the welcome of the former president of the United States will be all the warmer "because he reaches our shores after the American senate has given proof of its justice and self-respect by voting for the repeal of the clause in the Panama Canal Tolls Act exempting coastwise shipping from the payment of dues."

* * *

Officials of the provincial government are investigating oil companies in various parts of Alberta, determined to prosecute those who may be issuing and selling stock illegally. E. Trowbridge, provincial secretary and registrar, and A.E.P. Popple, of the Attorney-General's department, are conducting the investigation. Mr. Trowbridge states that every company must file a prospectus, also that it cannot sell shares in the enterprise until after the prospectus is approved and the company is incorporated. He is urging the appointment of a commissioner of public utilities for the province to protect the public against questionable projects.

* * *

Mr. Charles Deering, of the International Harvester Company, in an article in "Tariffs, Reciprocity and Foreign Trade," published by the American Academy of Political and Social Science, says: "Canada imposes a 17½ per cent ad valorem duty on mowing machines, harvesters and reapers, and a 20 per cent duty on cultivators, plows, harrows, hay rakes, drills, weeders and wind mills. This is prohibitive, and has resulted in a wonderful growth of the Canadian implement industry. American capital and American brains have come across the border, and, with Canadian labor, have established these plants. But for the tariff this capital would have stayed at home."

* * *

In the Toronto police court the other day a number of lads were brought up before Colonel Denison for stealing ice cream. It seems that these boys had followed the trail of one of the larger ice cream makers and picked up the packages in the residential districts whenever opportunity offered, the result being that not only did householders lose their desert, but incidentally some of the youths ate so much of the cream that they became very ill indeed. However, those who were well enough appeared before the Colonel ney Corley good naturedly pleading to answer the charge. There was nothing to it, in spite of Crown Attorney for them, but guilty, and they were fined a dollar each, with a warning that they would not get off so easy a second time. After the court adjourned, Mr. Corley said to Col. Denison: "Are you aware Colonel, that one of those boys stole your desert the other night?" "The little beggar!" remarked the Colonel. "No, I did not know it, and I am glad that you didn't tell me." And the Colonel, with an amused smile on his face, said in a reflective voice: "He got fined a dollar, anyhow."

According to the Bureau of Universal statistics, the population of the world in 1912 was slightly over 1,900,000,000, of which there were in Asia 933,000,000; in Europe 484,000,000; in Africa 188,000,000; in America 187,000,000 and in Oceanica 57,000,000.

* * *

The potential agricultural resources of Canada are indicated by the fact that not more than 2.6 per cent of the total land area of the nine provinces is now under cultivation. This is one of the interesting statements in a bulletin just issued by the census and statistics branch of the department of trade and commerce.

The area under cultivation is given as 36,000,000 acres. Only about 31 per cent of the area now occupied as farm land is at present under cultivation. In B. C., only 1.12 per cent is occupied with 20 per cent cultivatable.

* * *

The opening of the first electric street car line in Constantinople recently was marked by a curious ceremony, in which two lambs were sacrificed upon the tracks, the rails being smeared with the artificial blood while prayers were offered by Mohammedan priests for the success of the undertaking. The officials of the new line took part in the ceremony and are shown in an illustration in the May Popular Mechanics Magazine with their hands extended in the attitude of invocation.

* * *

Eleven miles southeast of London, in Kent, not many years ago were discovered the catacombs of the ancient druids, which are now much visited by sightseers and are lighted, for a part at least, by electric lights. Over fifty miles of chambers, cut in the chalk cliffs, have already been explored. The druids lived in these catacombs when attacked by their northern enemies, and here they buried many of their dead. The stone in which the human sacrifices were made is still to be seen, and also the well, from which water is drawn to this day.

* * *

Speaking the other day on the passing of the C.N.R., Aid Bill by the senate, Sir Richard McBride said: "I was gratified gratified at the action of the senate, and was glad that a number of Liberals of the Upper Chamber had thrown partizanship to the winds and endorsed a measure so essentially in the interests of the country."

The premier agreed with the prevailing opinion as to the benefits which would immediately flow to this province from the fact that the Canadian Northern would be enabled to proceed at once with their construction program.

Encouragement of Pure Bred Stock

Dr. S. F. Tolmie, the representative of the Dominion Livestock Commission in this province has announced, states the Colonist, that a shipment of purebred sires has left Vancouver for points in the interior and that another carload would shortly be dispatched to the Okanagan, the Kootenay and the Ootsa Lake districts. This is part of the work being done by the Dominion department of agriculture in encouraging the keeping of better bred stock in new and often unorganized districts. All sires distributed, whether, bulls, stallions, rams or boars are bought from breeders and are Canadign bred. The original cost is borne by the Dominion government and the animals remain the property of the government. Local associations are responsible for their proper maintenance and management under the general supervision of officers of the Dominion Livestock branch. In the case of stallions the members of the associations will also be required to pay a fee covering the annual insurance premium. By this system not only will this plan encourage Canadian breeders and increase their market, but will indirectly, through the emphasis placed throughout the country on purebred sires, add to the value of thoroughbred stock.

Districts will be picked where there is an absence of good sires owned by individuals. Animals after being used for some time in a district, may be changed to another and fresh blood brought in as deemed advisable. The local board of management will make all regulations relating to the use of these sires and they will only be available to members of the local association.

Ford

Put the difference in the bank. The saving between Ford cost and heavy car cost is "velvet" for the prudent buyer. He knows the Ford not only saves him dollars but serves him best. Its a better car sold at a lower price and backed with Ford service and guarantee

Six hundred dollars is the price of the Ford runabout; the touring car is six fifty; the town car nine hundred—f. o. b. Ford, Ont., complete with equipment. Get catalog and particulars from BURBANK MOTOR CO. - KELOWNA, B.C.

TOWN AND COUNTRY NOTES

Mrs. Butler was a visitor to Vernon Tuesday.

* * *

Mrs. Firth and her two children left Kelowna this week for Calgary.

* * *

Mr. R. Robertson was a passenger up the lake Tuesday.

* * *

Mrs. Cassidy of Vancouver is this week the guest of Mrs. Colquette.

* * *

Mr. G. R. S. Blackerby, of the Bank of Montreal left Kelowna Tuesday morning for a fortnight's holiday.

* * *

Mr. and Mrs. Conlin and daughter have gone to Vancouver where they purpose remaining for a couple of months.

* * *

Mrs. G. A. Chick returned last week after a three and a half months' trip in Australia. She returned by the S.S. Marama.

* * *

Hon. W. E. Scott, deputy minister of agriculture paid a brief visit to Kelowna Saturday last. He was accompanied by Mr. R. Robertson, of the Okanagan United Growers.

* * *

The Women's Auxiliary and Chancel Guild of St. Michael's church will hold a strawberry social at the home of Mrs. D. Lloyd-Jones on Wednesday afternoon, June 24th from 4 to 9 p.m.

* * *

The Kelowna Hospital Society wish to express their gratitude to the Country Girls Hospital Aid Society for their generosity in completely equipping two wards in the new maternity addition to the general hospital with the most up-to-date furnishings and appliances.

* * *

It is gratifying to state that as the result of the Talent Tea held on Monday at the aquatic building by the Ladies Hospital Aid, that the proceeds realized $44. In addition to the satisfaction of making the affair a financial success a most enjoyable afternoon was spent by all who took part in the gathering.

* * *

Mr. Alister Cameron, the son of Mrs. W. C. Cameron of the Guisichan Ranch who is making rapid progress in his profession as government surveyor arrived at Kelowna yesterday from the coast. Mr. Cameron has been stationed at Victoria since March last. He is engaged in a further survey of this district.

* * *

A pleasing little function took place the other evening at the residence of Mr. and Mrs. McGregor of DeHart avenue. The occasion was a "shower" given by the ladies of the Baptist church and other lady friends to Miss May Duggan in honor of her approaching marriage to Mr Percy Harding A most enjoyable evening was spent by all the young people present.

* * *

The contract for the construction of cement sidewalks has been let to Messrs. J. A. Bigger and Mr. McGregor, who are undertaking the work in conjunction. Walks are to be put down on Sutherland avenue, Wolseley avenue, Lawson avenue, and the north side of Main street, between Pendozi street and Ellis street.

* * *

The death occurred on Monday of Mr. Vivian Stephens. The deceased only arrived in Kelowna last March, coming here with the Harker party, from London, England. and accompanied by his brother Mr. Bryan Stephens. For a considerable time he was a sufferer from Brighss' disease and it was thought that the change in climate would be beneficial to his health. He was only 24 years of age. Upon his arrival here, he and his brother bought the Binger ranch. Mr. Bryan Stephens, and Mr. W. H. Warner wish to thank all those who have tendered their expressions of sympathy in their bereavement, especially to Dr. Campbell, Mr. A. N. Harker, and Mr. E. W. Wilkinson.

* * *

Mr. L. V. Rogers returned Saturday last from Victoria where he had been attending the 50th annual meeting of the B. C. Grand Lodge of Oddfellows. Mr. Rogers was honored by appointment as Deputy Grand Master for the district which includes Penticton, Summerland and Kelowna. Mr. W. Harvey was also a delegate from Kelowna. Mr. J. H. Glass represented the Penticton lodge and was made Grand Treasurer. The lodge gathering was one of the most successful ever held in the province. A great mass meeting was addressed by the premier, Sir Richard McBride, the mayor of Victoria, and leaders of the various departments of Oddfellowship. Mr. Rogers was also amongst those who addressed the gathering.

Mr. G. G. Woods left for Calgary on Tuesday morning's boat.

* * *

Miss Ethel Hall left for the coast on Monday for a visit to friends.

* * *

Mrs. J. B. Knowles will not receive tomorrow (Friday) nor again this season.

* * *

Mr. Clarence Jones returned home on Monday afternoon from the coast where he is attending college.

* * *

Mr. Lionel E. Taylor, and Mr. Wilson Henri were passengers to Vernon by Tuesday morning's boat.

* * *

At the Benvoulin Presbyterian church on Sunday evening, Rev. W. T. Beattil will take as his subject, "A sample of apostolic preaching." All are cordially invited to attend.

* * *

Mr. W. Harvey left this week on a visit to Saskatchewan on business connected with a farm which he owns there. He will be away some three or four weeks.

* * *

A special meeting of the W.C.T.U., will be held on Tuesday, June 23rd, at 3 p.m., at the home of Mrs. Switzer, to receive the report of a delegate to the provincial convention now in session in Victoria.

* * *

Alderman D. W. Sutherland and Mr. J. F. Burne left last Sunday morning for the coast en route for Prince Rupert, where the Grand Lodge of British Columbia Masons is assembling.

* * *

The Sabbath services in the Methodist church on Sunday will be conducted by the pastor. The morning theme will be "Justice—the fourth cardinal virtue" and the evening "Early Christianity and the Social Life."

* * *

A children's play is to be given on Thursday afternoon and evening July 2nd, in aid of the Hospital in the grounds of Mr. Challoner's house, on Burne, avenue, Woodlawn, commencing at 3 and 7.30 p.m. Tea is to be served.

* * *

The Hon. Mrs. Norman Grosvenor, accompanied by Miss Stuart Whortley were visitors to Kelowna the other day and were the guests of Mrs. Cameron. While here they inspected the Joyce Hostel and expressed much satisfaction with this establishment.

* * *

Mr. Horace Oliver, who recently sold out his ranch at Glenrosa, Westbank, has gone to Vancouver where he is opening up business as a fruit and produce merchant. For the benefit of local growers who might be disposed to arrange for small fruit shipments his address is 1455 Fourteenth avenue West, Vancouver.

* * *

Agent Swerdfager says he intends to capture one of the prizes given by the C.P.R., for the best depot gardens. At any rate his efforts towards beautifying the wharf approach is deserving of a mead of praise. In this connection it is interesting to note that the company each year send out thousands of packages of flower seeds to their various agents, road masters, section men and other employees who interest themselves in making more attractive their own and the company's property.

* * *

The members of the Kelowna Cricket Club, and all interested in the game are to meet tomorrow afternoon in the Board of Trade rooms. The object of the gathering is to discuss the affairs of the club and the endeavor to put it upon a solid and more permanent basis. Given a properly organized and well-equipped eleven a very successful season is in prospect and a good list of matches could be arranged with neighboring towns. On Saturday a team will go to Vernon to play a return match there.

Alfalfa a Money Maker

Success does not always come with first attempts with alfalfa, but that should not be discouraging. The per cent of failures in securing a stand of alfalfa is not so great as with many other crops commonly grown. Very simple measures turn failure to success. For instance, in a number of cases where the seeding of alfalfa failed without inoculation, the mere addition of 300 pounds per acre of soil from an alfalfa field or from a sweet clover patch brought success. After inoculation the soil produced a fine growth of alfalfa. In other sections of the state, particularly in the south-central, the application of from 1,500 pounds to 3,000 pounds of lime per acre brought success when various other trials without lime failed.

Perhaps the most important thing in securing a stand of alfalfa is the liberal use of manure even on soils above the average in fertility. Its application before plowing has increased the yield of alfalfa notably. On all soils below the average the use of manure has been absolutely essential to securing a satisfactory stand and yield.

In buying alfalfa seed, as in buying seed for other crops, the highest priced seed is usually the cheapest. In order that the seed may all be sowed under proper conditions for germination, it should preferably b? put in with an ordinary grain drill, and in average soil covered to a depth of about one inch. To distribute the seed uniformly it is a good plan to get the drill so as to sow only about ten pounds per acre and then to go over the land twice—for example, crossing the field north and south first and then east and west.

There has been much discussion regarding the variety of alfalfa best suited to low conditions. Since the per cent of winter killing has been comparatively low and seed of the hardier varieties is very high priced and also uncertain as to purity the only variety which can be well recommended for general use is that known as the common American This is grown almost altogether in such states as Kansas and Nebraska. Seed grown on nonirrigated land, under conditions as nearly as possible the same as are found in Iowa, is usually preferable.

No hay should be removed the year that the alfalfa is seeded. Spring seeding may be clipped once or twice when necessary to keep down the weeds, but a good growth should cover the ground when freezing weather comes in the fall.

Usually the alfalfa should be cut when about one-tenth of the heads are in bloom, which generally is early in June, as this is about the time that the new shoots begin to appear at the bottom of the stalk.

Much has been said regarding the difficulty of handling and curing the first cutting, but reports from those men in Iowa who have the largest acreages state that alfalfa is not more difficult to cure than red clover. A number have said that it is easier to cure.

Various methods of curing have been used successfully.

In dry, sunny weather alfalfa cut one afternoon may be raked the following day, put in bunches and much of it stacked the same day.

It is important that as few of the leaves as possible be lost. In order to save the leaves many growers rake the alfalfa into windrows as soon as it has wilted and before the leaves are dry, bunch the hay with a rake as soon as dry enough to stack and haul it at once. This method also eliminates the labor of cooking the hay, a ates the labor of cooking the hay, a feature which has been found desirable by a number of men who handle large acreages.

Where one has much alfalfa hay to cure a side delivery rake will be found to be of the greatest value.

Where the hay is to be cooked it is cut late in the afternoon or the morning, raked before dinner and put in cocks in the afternoon. Here it should be left for two or three days. The use of hay covers assures ane of little difficulty in curing even the first cutting and produces a hay of very excellent quality.

HOSPITAL DONATIONS

The following donations were received at the hospital during the month of May for which Mr. G. A. Fisher, secretary wishes to express his thanks: Mrs. Hewetson, two quarts marmalade; Mrs. Barlee one quart cream; Mr. F. R. E. DeHart, sack of rhubarb; Mr. Jas. Fisher, five quarts cream; Mr. W. A. Scott, 20 bunches asparagus; Mrs. Willits, lettuce and milk; Mrsf Kincaid, bread; Chas. Marty, tomato plants; Mr. Stevens, asparagus.

To Have Vegetables at Their Best

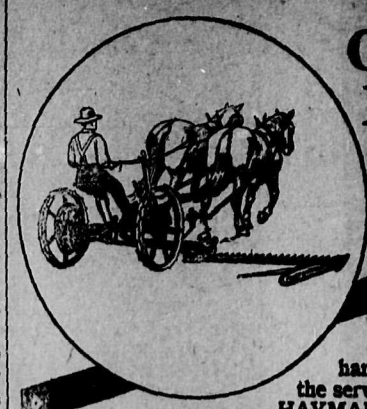
With many vegetables, the shorter the time which elapses between the moment they are picked and the moment they go into the kettle, the better the quality when they appear on the table. This is especially true of peas and corn. Peas should be gathered immediately after the pods have been filled and early in the morning, before they have been exposed to the sun's hot rays. To retain all their flavor, the peas should be cooked in water which is boiling at the start and which has been salted. The addition of a little sugar will prevent the peas losing their attractiv? color. It is best not to cover the kettle or stir the contents.

Corn is to be picked when it is in the milk, with the milk just turning brown. Many people cook the ears without removing the thin inner husks so that none of the flavor may be lost, and if the ears are young, it is best that the water should not boil at all. The water should be salted and simply allowed to come to the boiling point. In any case, long continued boiling spoils the corn. Ten minutes should be the limit.

Snap beans should always be picked before they have attained full size and maturity, both to increase the yield and to have them at their best. They are best cooked in an uncovered dish and in salted water which is not permitted to cease boiling. Lima beans should be picked as soon as sign of yellow appears. Then they will be just mature enough for the table, and the vines will yield a long time. It is important not to disturb the vines of any beans while they are wet; to do so is to invite rust.

Tomatoes should come to the table cold and without their skins. The latter may be removed by rubbing them over with the back of a knife or by plunging them quickly into boiling water, of course, but care should be taken that they are not left in the water long enough to acquire a cooked flavor.

Summer squashes must be gathered before the shell hardens. The outer leaves only should be removed from Swiss chard, and that when they are about three-quarters grown. Then th plant will go on making new leaves for many weeks.



Own These Haying Helpers This Year

Decide that you'll no longer labor under a handicap at haying time. Secure the services of these FROST & WOOD HAYMAKERS, "GIANT NO. 8 MOWER and TIGER SELF DUMP RAKE." For twenty years and more these machines have saved time, money, labor and horse flesh for thousands of progressive farmers. They are worthy representatives of our line of

COCKSHUTT IMPLEMENTS

Frost & Wood Mowers are not merely fair weather machines. They're right there with the power and cutting ability when other mowers are apt to fall down. Put a Frost & Wood mower to work in a heavy or tangled crop and watch how easily it handles the job. You can start it anywhere in the field and the knives will begin cutting the instant the horses move forward. "Flying Starts" are not necessary. The Giant No. 8 has great driving power because of the simple and compact arrangement of the gears. Smooth running and light draft are assured by a plentiful supply of large Roller Bearings. It will give you the kind of satisfaction you are looking for.

The Tiger Self Dump Rake is the best Self Dump Rake made. It has given satisfaction for many haying seasons. The teeth are made of a special grade of steel, that has proven by test, the best adaped to withstand heavy work and hard usage. They are carefully shaped to do the most efficient work.

The "TIGER" is strongly constructed throughout, frame, wheels and braces are all made of high quality steel, so there is nothing about it to get out of order An investment in a Frost & Wood Rake is profitable. With ordinary care it will last a great many years and will pay you large dividends of satisfaction each year at Haying Time. We will be glad to let you have further information about this or any other line of Farm Implements and Equipment.

Constable Shot Dead at Kamloops

SUPPOSED VICTIM OF TRAMPS

John Nellis Allan, a Kamloops constable, was shot dead, Saturday morning last at 2.30 o'clock. He had apparently been attacked by tramps in a condemned shack in Chinatown, much frequented by tramps, and shot on entering. The police are now scouring the country for the thugs.

Constable McCrury, who was with Constable Allan, was searching another shack, and on returning to where he left Allan found the man dying. A freight train was passing up the street slowly at the time. Twenty-three tramps aboard were arrested at Walhachin, and have been brought to Kamloops.

JUNIOR LACROSSE CLUB DEFEATED BY VERNON

The Junior lacrosse club of Vernon crossed sticks with the local club on Thursday afternoon last and were successful in winning, after a hard struggle, lasting 10 minutes overtime.

Throughout the game the play was very close and three times the score was tied and when the whistle blew at the end of one hour the score was 6 all. It was then agreed to play 10 minutes and the tie broken if possible.

Immediately after resuming play the local boys secured the first tally and looked to be sure winners, but during the last five minutes the Vernon club scored three times in rapid succession, winning the game by 9 goals to 7.

Water Users Will Combine

PETITION GOVERNMENT TO FORM PUBLIC IRRIGATION CORPORATION UNDER NEW ACT

On Saturday last a public meeting of the Ellison Fruit Growers' Association was held in the school house to consider the advisability of signing a petition to the provincial government asking that the district of Glenmore, Rutland and Ellison be formed into a Public Irrigation Corporation under the new act. After a thorough consideration of the question all present signed the petition, there being a general desire that every owner using or interested in irrigation water will make it their business to get their signatures on the petition, so the members of the government may be impressed with the earnestness of the district in having this much vexed question solved, if possible, to the satisfaction of the people. The petition is in the hands of Mr. Thomas Bulman, president of the association.

Another public meeting will be held in the Rutland new school on Saturday evening, June 20th, at 7.30 p.m., and it is hoped that every one interested in water and the welfare of the district will make it their business to attend and inspire their neighbors to attend, which will assist and encourage the committee, who has the matter in hand.

LONDON FINANCIAL CONCERN FORCED TO CLOSE ITS DOORS

Because of the manipulation of one of the members of the firm, Arthur M. Grenfell, the well-known financial house of Chaplin, Milne, Grenfell & Co., London, England, has been forced to suspend. The failure is believed to be the result of large operations in Grand Trunk by Grenfell, whose dealings gave rise to a great deal of gossip in financial circles during the past few months. The firm was an old-established one with high reputation and excellent family connections. It conducted general and private banking and a company promoting business. The company was registered in 1899 with an authorized capital of $1,750,000. The wreck of the above mentioned company also involved Canadian Agency, Ltd., of which Arthur Grenfell was chairman. This company, although it was said that it had no connection with Chaplin, Milne and Grenfell, also suspended. Canadian Agency Ltd., was responsible for several Canadian enterprises.

Feeding Your Chicks

Do not feed too soon.—When the chich is hatched, it has a sufficient supply of nourishment in the yolk of the egg to last it for several days. What the chick requires for the first few days is not feed, but warmth and rest.

A little sand or grit first.—When the chicks are removed to their brooding quarters there should be some coarse sand or fine chick grit scattered where they can have free access to it. They should then be left until they show positive signs of hunger, which would be between the second and third day after hatching. They may then be given some bread crumbs that have been very slightly moistened with milk; this may be scattered on clean sand or chick grit. If being brooded by a hen, she will see that no food is allowed to lie around; but if in a brooder, that part of the food that the chicks do not pick up in a few minutes should be removed, as nothing in feeding causes so much trouble as leaving food of that nature around until it is sour.

Feed for the first 10 or 12 days.—The following daily ration of five feeds given about two and a half hours apart and continued from the time the chicks are two or three days out of the shell until 10 or 12 days of age, may be altered or adopted to suit conditions: First feed, dry break crumbs slightly moistened with milk; second feed, finely cracked mixed grains or commercial chick feed; third feed rolled oats; fourth feed dry bread crumbs moistened with milk; fifth feed, finely cracked mixed grains.

In addition to the above give the chicks daily a little green food, such as grass, lettuce, sprouted oats, etc. Do not have the moistened bread sloppy state; and during this period let the chicks on to fresh soil or grass every day if possible.

Feed after 10 or 12 days.—After the chicks are ten days to two weeks old, coarser foods may be allowed. The infertile eggs may be boiled and mixed with the mash food, and the bread and milk discontinued. Hoppers, in which is put cracked grains and dry mash or rolled oats, may be placed where the chicks can have free access to them. As soon as they become accustomed to the hopper all hand feeding except the mash may be discontinued. If the chicks are on range it will be found that after a time they will get careless about coming when called, at which time the mash may be dropped and dependance placed entirely on the hopper feeding.

Place grit and water, also a dish of sour milk, if possible, where the chicks will have free access to them. Nothing provides animal food in better form than does milk; the chicks like it and thrive on it.

TO THE SKYLARK

High up in the heav'ns thou'rt soaring
Pretty little brown-winged bird:
From thy lissome throat outpouring
Chanting sweet, thy parting word.
To thy mate who, all so lonely
In the midst of fields unseen.
Listens to thy gladsome singing
To the worship of thy queen.
And we listen to the trilling
Of thy blithesome summer song
Caught by zephyrs, which in breathing
In the air thy notes prolong,
And we wonder at thy gladness
When the heart of man is sad
In the struggle for his living,
And we think "What makes thee glad?"
And the answer comes within us,—
"All our modest needs supplied
"By the bounteous hand of nature
"Leaves its children satisfied;
"But in man the greed for living
"Beyond normal wealth brings care.
"Nature is forever giving
"Every man on earth his share
"But no more, and he who covets
"Greater wealth of earthly things
"Robs it from a kindred brother
"And to him a sorrow brings."
This the burthen of thy song is
Always to contented be
'Tis an altruistic lesson
Taught in sweetest melody.

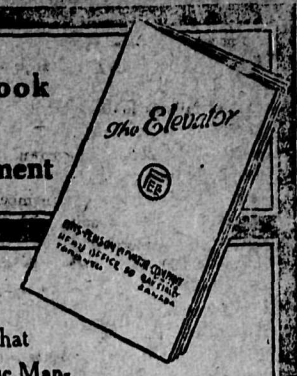
Here's a New Book on Scientific Management



OR, to be more specific, a book dealing with that important phase of Scientific Management which has to do with the economy of floor space in the factory, store, warehouse, garage, hotel or printing plant.

This Book tells a story of vital interest to every progressive business man. It points the way to increased profits through greater efficiency. It lays bare the causes of many business failures and shows how these failures might have been turned into successes.

If it is the means of helping you solve some knotty problem in your own business, we will feel that it has accomplished its object.

City Market at Kelowna

MATTER AGAIN DISCUSSED AT BOARD OF TRADE MEETING

One of the principal subjects under discussion at the Board of Trade meeting Tuesday evening was the question as to whether the time was opportune for establishing a public market in Kelowna.

At the previous meeting the matter was referred to a sperial committee who now reported favorably on the suggestion and recommended that it be discussed fully by the Board, also that the city council be requested to co-operate.

Mr. F. R. E. DeHart remarked that owing to the small attendance the matter should be laid on the table until the next meeting. The question of starting a public market in any town was a most important proposition and required careful consideration.

Mr. M. Hereron thought the question should be dealt with without delay. They had a population af about 3000 in Kelowna and there was plenty of room for a market. He contended that when the farmers brought their produce in, the stores may or may not take what they had to offer. There were about 75,000 to 80,000 pounds of New Zealand butter imported into the valley annually which seemed to always get the preference over the local article. If a farmer brought in 100 pounds of butter he could not dispose of it, except in the way of trade. He thought it was up to the city to open a market and give the farmers a show.

GOOD LOCAL BUTTER IN DEMAND

If good butter were produced locally, proceeded the speaker, there would be plenty of demand for it, but poor stuff would be turned down and the makers would have to produce better quality or get out of the business. As matters now stood the stores took both the good and the bad for the simple reason of not offending a customer.

Mr. L. Casorso claimed that a public market would be a failure on the ground that the population of the country was considered to be pretty near as large as that of the city, and they would never be able to market the supply, even if the city's papulation were increased threefold. He thought that Kelowna should wait, and note what success other towns, who were going in for public markets, made of the proposition.

VIEWS OF MAYOR JONES

Mayor Jones considered it advisable to hold the question over for a month and notices sent to the members that this matter would be fully discussed at the next meeting. It would be no use to start the project and then fail. Such an institution had recently been established at Kamloops, and had apparently met with great success. But they must not forget that Kamloops was a city of about 5000 population and was furthermore a railway town and employed a large number of people at the present time.

It was quite an experiment. If the farmers were enthusiastic, and the town people met them in the matter, it might be all right, but as it had been pointed out by Mr. Casorso, if many farmers brought in such things as radishes, lettuce and other such vegetables, much would probably have to be carted back home again, as many residents had their own gardens

"My suggestion is," continued His Worship, "that our local papers open their columns for discussion during the next month. We might be able to obtain a fair gauge of public opinion by this method. As members of the Board of Trade we might possibly be in favor, or opposed to it. Many might prefer to come down to the stores, and after all our wives are our buyers. If the market is going to be a success then we want it, especially if a creamery is the outcome of the proposition.

"There is another point to be considered" he said. "Supposing after bringing in a lot of green stuff and the growers were unable to sell all of it, they would carry it in a more or less damaged condition to the local stores, and the store keepers should be considered."

Mr. Hereron stated that in view of the opinions expressed he was agreeable to let the matter stand over for a month. If they could save some of the money that was being paid for New Zealand butter it would mean a fine thing for the valley.

Mr. K. F. Oxley: "At the present time I do not think it would be possible to make a lasting success of a market as so many of the town's people have their own gardens and the majority of the produce that would be offered would be light garden truck. Mr. Hereron has mentioned butter. I might say, personally I would only be too willing to pay cash to any farmer who brings me good quality butter if he is willing to sell at a reasonable price, but no grocer can afford to sell at the same price as he pays cash for this article, and also give a discount for cash to his customers. If good butter could be bought at a reasonable price, I, for one would always favor the local product. (Applause.)

Mr. J. H. Thompson, Okanagan Mission, said that local butter could not be depended upon. He thought that the idea of a creamery would do more good than a city market. The reason why New Zealand butter was so popular was on account of its consistency; and the only butter that was consistent was the creamery product—a small farmer's butter was not, it varied all the time.

Mr. Oxley supported this view. "Only the other morning" he said, "a party brought me in 15 to 20 pounds in a zinc pail all of it stuck together in a sloppy mass. She wanted 35 cents a pound for it."

R. B. Kerr thought it was greatly a matter of enterprise on the part of the local makers. If all the producers turned out the same quality of butter that he had recently obtained from a local ranch, New Zealand would not have the ghost of a chance. If a first class commodity were put on the market—New Zealand would soon be put out of the local business.

Mr. M. Hereron: The trouble at the present time was that the same price was paid for both good and bad butter. At 32 cents a farmer in view of what he had to pay for help could not make it pay; 35 cents to 40 cents per pound should be obtained for good butter.

His Worship asked how many cattle there were in the district.

Mr. Hereron replied that approximately there were between 1000, and 1200, but they were not all first class cows.

Mr. L. Casorso saw no reason to hinder the proposition of a creamery, he thought this would be an excellent thing for the district. Even at Nenton, Alberta, a little town of 500 population they had a creamery which was doing well.

Mr. Hereron asked how it was that New Zealand seemed to be so far ahead of Canadian creamery butter.

Mr. Oxley: "It seems to suit the taste better."

Mr. Thompson:—"Some of our local stuff is not fit for axle grease."

Mr. Oxley: "Even in Ontario which province is supposed to produce the best Canadian butter it did not take on the market so well as that of New Zealand.

This ended the discussion on the subject and on the motion of Messrs. DeHart and Thompson this meeting agreed to bring up the matter again at the next meeting when it was hoped there would be a thoroughly representative gathering.

Wilson Landing and Westside Notes

(From our own Correspondent.)

Haying is general in this district.

• •

We regret to learn af Mrs. J. C. Clarence's illness.

• •

We have just sampled some of Mr. H. Chaplin's strawberries. They are of fine color, size and flavor. He has been kept busy with them for some time past, and has this year set out out another large plantation, so he will be able to maintain his reputation in the future. He has in the past been growing the finest and earliest strawberries on the market.

• •

Quite a number of social events have have transpired lately. On June 3rd Mrs. H. Somerset honored the King, by being "At Home" to her large circle of friends who spent a most pleasant evening with music and dancing. On Saturday last the Westside Tennis players held a tournament and invited a number of their friends to picnic with them. In the evening of the same day, Mrs. P. H. L. Sealey received a large party at her pretty bungalow, its spreading veranda being tastefully decorated for the occacion. Cards and dancing occupying the visitors, who spent a very pleasant time.

• •

On Sunday last the Rev. J. T. Smith held service at Reid's Landing, Mr. C. E. Burbridge taking charge of the music. On the last occasion the service was not held owing to the fact that gasoline for the launch was not to be had. As subscriptions are beginning to come in now, we hope to have our services regularly in the future. None of us can forget that the injunction not to neglect "to assemble ourselves together" to give praise and thanks to our Common Creator was intended for us, and that the teaching given to us in the greatest of all books is for our guidance. We ought profitably to be able to spend one hour a month in the study of the Christian graces.

News of Local Sport

Bad Luck Still Dogs Local Team

Once more we are forced to report that the efforts of our baseball club have proved fruitless and the defeat they received at Revelstoke on Thursday last was decisive enough to show that the local club in their present condition are working under great difficulties, as there is no club in baseball of any class who can win games without the assistance of a regular battery, trying to make pitchers and catchers of infielders, and infielders of outfielders.

However the defeat at Revelstoke is not wholly due to not having a pitcher as Sheppard reported to the club at Revelstoke and pitched the game, after an eighteen hour trip on the train, and those who travel know that after such a trip a person needs rest instead of strenuous exercise, such as pitching. However Sheppard pitched a splendid game of ball and kept the Revelstoke men guessing until near the end of the contest when the strain began to tell and with rather loose fielding the home club piled up a total of 10 runs while the locals had to content themselves with a lone tally.

Sheppard is a left hander and has good control and with a few days rest after his trip he will no doubt prove a valuable man to the local club.

Pierce was again behind the bat and did nice work, although he received an injury in the early part of the game that caused him much trouble.

The journey to Salmon Arm was made by automobile and the club wish to express their sincere thanks for the valuable services rendered then by Mr. A. W. Dalgleish and Mr. Clarence Duncan, who drove their own cars, and to Mr. D. Lloyd-Jones for the use of his car, which was driven by Pete Smith.

Barnstead, who for several years was one of the leading pitchers of the Calgary Bronchos umpired the game and gave the best of satisfaction, no a kick was registered against his decisions. Barnstead has signed a contract with the Revelstoke and will be eligible to play this week.

Following is the official box score:

City School Teams Win from Country

The first game last Saturday at the park grounds was called at 3 o'clock between Rutland and the High school, the latter winning by a score of 14 to 2 in a loosely played game.

Next Saturday is the close of the season in the Schools League and by winning this game the High school retain the lead in the league race, although only one game to the good over the Public school, who will meet them at the park on Saturday afternoon and there is little doubt the game will be worth seeing as it means much to both clubs. Should the High school win they will have a clear title to the pennant, but on the other hand should the Public school gain a victory the two clubs will be tied, and another game will be necessary to decide the real champions.

So far the Public school have been unsuccessful in their attempts to defeat the High school and perhaps this time the tables will be reversed as the Public school boys are determined to defeat them at least once this season.

The game between Ellison and the Public school proved another easy win for the latter team by a score of 11 to 4.

Carney pitched a good game for the visitors but was given poor support and his team mates failed to hit when hits meant runs. Sutherland pitched well for the home club and was given good support.

Summary.—Base on balls, of Eddy 3, off Sheppard 1; hit by pitcher by Eddy 1, by Sheppard 2; struck out by Eddy 13, by Sheppard 7; passed balls, Pulley 1, Pierce 3, three base hits, Parent Dudley, Oldfield 2, Webb, Pulley. A. Patten, sacrifice hits, Dudley, Pulley, Spranger, Eddy, Byrns.

SOME NEW MATERIAL

The followers of the game in Kelowna will be pleased to learn that some new material has arrived and will be in the line-up today, among them being our old friend "Casad". Another man of very promising ability if another outfielder and pitcher, Fleager, who arrived here on Friday last from the Medicine Hat club of the Western Canada League, Fleager is also a left hand pitcher and will probably be used in the box occasionally. Sheppard, the left-hand pitcher, who joined the club at Revelstoke last week comes well recommended, he hails from Nanaimo, Vancouver Island, and after a good rest he appears to be in fine condition.

These men will be in the game this afternoon and some new stunts may be looked for and those know "Cas" will be glad to see him walk to the plate with his trusty war club as the team needs good hitters.

KAMLOOPS BEATS VERNON

The game last week between Vernon and Kamloops at the latter town was won by the home team 2 to 0. McIvor who left Kelowna a short time ago, supposedly with a sore arm held the Kamloops club to four hits. Pretty good for a sore arm!

CAPT. CHEAPE'S INJURIES CAUSE POSTPONEMENT OF 1ST MATCH

The above is a characteristic photo of Captain Cheape, the plucky English polo player who was injured in a practice game. Despite his evident determination to play in the first match, which was scheduled to be played Tuesday, June 9th, it was thought best to postpone the game for a few days. The game took place on Saturday last and resulted in a win for the English team by a score of 8½ goals to 3.

Notice of Sale by Sheriff

Pursuant to the "Execution Act", in the Supreme Court of British Columbia, between:

F. M. McLEOD, Plaintiff, (Judgment Creditor)

and

OKANAGAN CANNERS, LIMITED, Defendant (Judgment Debtors)

ENO'S FRUIT SALT

Nature's Purifier

EVERYONE is at times subjected to the necessity of breathing bad air, either in stores, on the street cars or elsewhere. And, when one considers that it takes but two and a half minutes for every drop of blood in the body to become affected by this bad air, the importance of a safe and effective purifying agent is apparent.

Eno's "Fruit Salt" may be safely taken at any time by young or old, for the prevention of disease and the preservation of health by one of Nature's own laws.

Order a bottle TO-DAY from your dealer.

Prepared only by
J. C. ENO, Ltd., "Fruit Salt" Works, London, England

WEEKLY [illegible] OF CITY COUNCIL

(Continued from Page 1.)

water pressure. It was a well recognised fact that there had been an excellent supply of water on that occasion. Five streams had been played upon the fire at one time, and the city engineer had told him that fully 1300 gallons per minute had been pumped onto the fire.

FACING MONEY SHORTAGE

A warning regarding the liklihood of further money shortage was contained in a brief note bearing the signatures of the Finance Committee.

"The Finance Committee beg to advise the council" said the letter, "that except in cases of extreme urgency, no money will be available before Sept. 1st, for other purpases than interest coupons, salaries and work done under debenture by-laws."

This said the mayor meant practically shutting down of all work for the present.

This created some consternation, especially on the part of the Board of Works, which was in the midst of extensive street work.

There was no help for it however, and after some discussion the Mayor advised committees which drew their funds from current revenue to cease all expenditure for the present. The work on sidewalks and on water and light extensions would of course be proceeded with as these were paid for out of money specially raised on debentures, but all street work would have to be suspended. The only work said the mayor, which should be allowed to go on was sidewalk repairing and street cleaning.

Alderman Sutherland said the Finance Committee had no desire to unnecessarily interfere with the progress of city work. They wanted to see everything go ahead. They wanted however, to show the council that if care was not exercised they would soon be all tied up, and people would come back on the Finance Committee for not preventing it. He referred to the long list of accounts laid on the table that morning for payment, and said that the committee had written their letter before they knew this list would be placed before them. This made it all the more necessary that all possible expenditure should cease.

The Kelowna Growers' Exchange wrote asking for permission to put a railway crossing in on Haynes avenue. Alderman Copeland said the committee had been over the ground and saw no reason why the request should not be granted, and a resolution was passed to that effect, on condition that the applicants make all necessary approaches to the crossing.

Mr. Fuller submitted a sub-division plan of his property, showing the land given to the city for the extension of Water street.

This was passed by the council, but it was stated that nothing could be done towards opening up the street until the plan was registered. It was also arranged that Mr. Fuller and Mr. Quinn should each pay $100 towards the cost of filling in a portion of the street.

A further letter was read from the Fire Brigade, reaffirming their decision to have the automobile fire truck offered by the Kelowna Garage Co.

A new Milk Regulation by-law was submitted and given a first reading.

Alderman Copeland submitted a report from the Board of Works fixing the remuneration for men on ordinary street work at 30 cents per hour, and and for teams at $6.00 per day of nine hours.

Alderman Adams reported that the new intake pipe was being laid and also that the sewer connection to the cannery was almost completed.

It was decided to hand over the tenders for cement sidewalks to the Board of Works with authority to award the contract.

The following accounts were passed for payment:

Visit of Railway Commission to Okanagan

CONDUCT ENQUIRIES INTO KETTLE VALLEY MATTERS

Mr. H. O. Drayton, accompanied by Mr. A. S. Goodeve, held an enquiry at Penticton last Tuesday in connection with claims against the Kettle Valley railway in respect to that company's street crossings and other matters. We understand that all points under discussion were settled amicably.

Seen on board the Sicamous Wednesday morning, Mr. Drayton could not be drawn into imparting any secrets concerning the C.N.R. He asked where it was proposed to have the terminus, and evinced much interest when the site was pointed out to him. "You will have a big increase in your traffic" was his significant remark "and I have been delighted with my brief visit to your lovely valley."

In connection with the C. N. R. we were informed today by a visitor who had recently discussed this matter with Sir Richard McBride that there is every liklihood of an early start being made on the work. Sir Richard was very definite in stating that as soon as the bill had passed that operations would be commenced on the Kamloops-Kelowna branch. As the bill has now gone through an early official announcement is momentarily expected.

LOCAL LACROSSE TEAM MEETS DEFEAT AT ARMSTRONG

The lacrosse team journeyed to Armstrong yesterday for the first game in the lacrosse league and were unsuccessful in their attempt to wrest victory from the home club, the game going to Armstrong by a score of 9 to 1.

The game was a far better game that the one-sided score would indicate, and it was owing to the splendid combination play of the home team that the score was so large. The local boys put up a hard fight but their scoring machine was not working as smoothly as was expected, and it is only owing to the fine work of the Kelowna defence that the score was not larger.

The game was one of the cleanest contests ever played between Kelowna and Armstrong, as only a couple penalties were handed out and these for only trifling offences.

The trip was made by auto, Messrs. Alsgard, Elliott and McQuarrie taking driving their cars and carrying the players.

KAMLOOPS SHUT OUT VERNON

The baseball game at Vernon yesterday was an easy victory for the visiting club, the score being 8 to 0.

McIvor started in to pitch for Vernon, but was driven to the shelter of the tall timber after a few rounds and Williams, who succeeded him was hit nearly as hard.

East Kelowna News

(From our own Correspondent.)

Mr. D. M. Armstrong had a narrow escape from having his house burned down this week when his woodshed caught fire and was destroyed.

• •

We are glad to hear that Mrs. W.D. Fitzgerald who has been ill in the hospital for some time is now on the road to recovery.

• •

Mr. E. B. Powell had the misfortune to lose a horse the other day, the animal suddenly being taken ill and dying in a short time.

• •

The Kelowna Land & Orchard Company are busy picking a fine crop of cherries this week.

• •

The hot weather of the past few days, following the refreshing rains has advanced crops of all kinds to a wonderful degree, and things are looking very promising just now.

Glenmore Notes

(From our own Correspondent.)

Miss Edith Rankin entertained a few of her friends at her home on Friday evening last.

• •

Mr. Prowse entertained a number of young people at his home recently, when dancing formed the main feature of the evening.

• •

Mr. and Mrs. Hunt who have bought a young archard in Glenmore are spending a few weeks at the Lakeview.

• •

Mr. and Mrs. J. Cameron of Sherbrooke, Que., are the guests of Mr. and Mrs. Andrews for the summer.

INSPECTION OF BOY SCOUTS

An inspection of the Boy Scouts took place Saturday last at their quarters in the Old Anglican church, the inspecting officer being the Rev. and Hon. T. R. Heneage, assistant commissioner of the province.

The troop paraded in full strength, of thirty boys, and carried out, among other things some remarkably good ambulance work.

A newly acquired trek-cart was brought out for examination and proved a good acquisition to the troop property.

Mr. Heneage, afterwards expressed himself well satisfied with the progress that had been made in smartness and efficiency, and stated he hoped to be able to arrange a combined camp for all the troops in the valley at an early date.

PAT CONNOLLY NOW UNDISPUTED CHAMPION

The wrestling match at the Vancouver Horse Show Building, Vancouver, last Friday evening in which Pat. Connolly was to defend his recently won title of world's champion against Gus. Schoenlein (Americus) resulted in a victory for the former in two straight falls, gaining both inside one hour.

The match was in the hands of Bob. Sutherland, former resident of Kelowna, whose decisions met with the approval of the spectators.

Annual Meeting at Methodist Church

The large and representative attendance at the Annual Congregational meeting of the Methodist church on Wednesday evening the 10th inst., shows the interest of both the members and the adherents in the work of the church. The reports from all the different departments show the church to be in a very flourishing condition, satisfactory progress having been made during the year.

Mayor Jones, the recording steward drew attention to the number of prominent members who had removed during the year and yet for local church purposes and ministerial support they had raised over twice as much as last year.

Miss Pearson and Messrs. Seeley and Massey rendered excellent solos during the evening. Light refreshments were served and a social time enjoyed at the close.

Deputy Game Warden Sullivan received recently the sad news of the death of his mother, and he left by Tuesday morning's boat for Ireland. He expects to be away about two months.

* * *

A strawberry and ice cream social will be held at the home of Mr. and Mrs. W. A. Scott on Thursday evening, June 25th, under the auspices of the Benvoulin Ladies' Aid. Ice cream, strawberries and tea and cake will be served from 7 to 9 p.m. Everybody welcome. ...

PIANO TUNING

Mr. R. McGeorge, only authorized tuner and regulator for Mason & Risch Ltd., throughout the Okanagan Valley will be in Kelowna and district during the next two weeks. Orders left with Mr. Crawford, stationer, will receive prompt and careful attention.

Special attention given to all kinds of player pianos. 30-32

BARRON STRAIN

I have imported a pen of Buff Orpingtons from Tom Barron, Lancashire England, and also one of White Wyandottes from Will Barron, Lancashire, England. They are from their best winter laying strain. Eggs from these two pens $2.50 per setting of 15. Terms cash with order.

A. W. COOKE
Benvoulin
P.O. Box 663, Kelowna. 24-31

As the Cannery contemplates a very heavy run this season, we are desirous of employing all the women and girls we can obtain locally.

A kindergarten will be maintained where small children of women desiring employment will receive good care during the day free of charge. Kindly send in your names for registration.

BACKER OF ENGLISH POLO TEAM

Lord Ashby S. Ledger, also known as Lord Wimborne, who is backing the English polo team which is to play the American team in the International contests starting last week, photographed on his favorite mount at Piping Rock, Lond Island, where, the English men are rounding into shape for the coming fray. Lord Wimborne is himself a polo player of no mean ability and although he will not take part on the field for the British team unless an accident should disable one of his men, he is aiding them greatly by his coaching.

FRUIT CANNING

The whole question for some time will be

FRUIT FRUIT FRUIT

Everyone will be Canning, Preserving, Jellying or Jaming, and all of this means that everyone will want Fruit Jars

The Gem Fruit Jars

are the same price as last year—Gem Pints, $1.25, Quarts, $1.50, Half-Gals, $1.75 per dozen. Extra Rings are worth 25c per dozen, and we have two grades of rubber rings—2 dozen for 25c for the best, and 3 dozen for 25c for the other grade

The Economy Jars

owing to increased sales and consequently larger output are considerably reduced, our prices being—Economy Pints, $1.40, Quarts, $1.65, Half-Gals, $2.15 per dozen. Extra Caps are 25c per dozen, and extra Clamps 10c per dozen

SUNSHADES that do more than shade their carriers and shed a soft glow over the summer day costumes

Every woman knows this is the greatest season for intensely feminine clothes that we have had for years. And so it comes as no surprise that parasols are very fashionable and quite as stunning as the new gowns. We have had a splendid sale of these already but still have a great many beauties left.

The newest novelty is the Pagoda Roof, shape which is meeting with great approval, in almost every color and combination: Flowered crepes, Pink Flower, Blue Flower, and assorted stripes to match all the new dress fabrics at $2.00, $2.25 and $2.75.

Children's Shades with Ruffle edges, in all the Kiddy patterns 35c. to $1.50

HOSIERY

Midsummer Wear for Women & Children

The ladies department is now complete with every thing in hosiery.

Special mention should be made of our Stainless Black Embroidered Lisle at 65c.

Our Black Silk Boot at $1.00 is surely a good buy, and should be a quick seller. Sizes 8½ to 10.

We also feature that fine rib hose specially suitable for school girls. Hercules at 35c., 3 for $1.00

Buster Brown, for Boys, a good heavy rib line. 35c., 3 for $1.00. Guaranteed fast color.

Buster Browns' Sister, highly mercerized for Tots, Girls and Misses. Sizes 4½ to 8½ in Tan, Pale Blue, Pink Black and White, 3 pair for $1.00

Womens' pure silk hose. Radium Brand. Navy, Black, Maize, Purple, Cream, White and Tan. Special $1.50

Women's Lisle Thread, nice and fine all colors and qualities, 35c., 50c., 65l. and 75c. Every pair guaranteed or money back.
