## Steamship Strike Has Been Called Off

### Owners Agree to Recognize Merchant Service Guild

News that the steamship strike, which was on the eve of tying up Kelowna's only means of communication with the outside world, was really off and that the dispute between owners and men was practically settled, was received by fruit growers and shippers—especially the latter—with a huge sigh of relief.

A week or two ago the possibility of a strike was raised by the refusal of the owners of vessels to recognize the Merchant Service Guild, but when a royal commission was appointed people thought the thing as good as settled and ceased to worry about it. A few days ago, however, the trouble came up again worse than ever, precipitated by the sudden withdrawal in disgust, of the representative of the men from the commission, he having been convinced that the owners did not intend to recognize the Association no matter what the finding of the commission might be.

The Guild decided for quick action and arranged for an immediate tie-up of service by all captains and mates sending in forty-eight hours notice of resignation. This was done and since Saturday paralysis of shipping which started at the coast and cut off freight and passenger transport between Vancouver, Seattle, Victoria and other points, has gradually been extending to the interior lake services. According to official advice service of all kinds on the Okanagan Lake was to cease yesterday.

Once it was realized that the strike was really going to take place, a meeting was called in the Board of Trade room Saturday of canners, shippers and others concerned, and the situation discussed. Mr. J. W. Jones, M.L.A., presided, and he was charged with the duty of wiring the following urgent message to the Hon. Martin Burrell:

"Representatives of all local fruit shipping interests met this afternoon re masters and mates strike. Necessary for government to act quickly and decisively adjusting dispute, otherwise thousands of dollars perishable fruits will be lost. Growers and shippers much alarmed. A million dollar crop at stake. Peaches, plums, pears and tomatoes being marketed in large quantities. Urge quick action. J. W. JONES."

The reply received Monday was as follows:—

J. W. Jones, M.L.A.,
Kelowna

"Your wire and wires from Kelowna Packers, Ltd., Mr. Sutherland and others received. You may rest assured government doing everything possible. Prime Minister had only been in Ottawa an hour on his return from England when the strike question was considered thoroughly by cabinet. Understand statement is to be issued by companies this morning and it is hoped that traffic will be resumed at early moment. Quite realize seriousness of this to Okanagan fruit district and most anxious to do anything to assist. Please advise others of this. MARTIN BURRELL.

In order to minimize the loss by perishable fruit and vegetables remaining on their hands, the packing firms began to work feverishly to get shipments off before the boat and barges ceased running, and in consequence, the exports at once showed a sharp upward curve, and the faces of the express officials and deck hands a decidedly downward one.

However, the strike is off, and this whirlwind business is no longer necessary. Premier Borden, who had been in Canada on his return from the old country only a few hours, was able to wire the president of the Merchant Service Guild that the companies were willing to grant recognition on the same terms as given to the guild in England. This at once cleared the air, recognition being the chief point of dispute, and made possible an immediate resumption of service.

So far as this district was concerned the scare was practically all the harm sustained. The s.s. Sicamous did not interfere with her schedule at all, and the s.s. Okanagan and tug Castlegar merely lost one trip each.

The Commission will still continue to sit until all difficulties have been cleared up, but it is not expected that any further interruption of service will take place.

## *Rutland News*

(From our own correspondent).

Earl Hardie returned yesterday from a short visit to Vancouver.

There are now five young ladies at Mrs. W. Gay's, Miss Olive Gray of Vancouver, being the latest arrival.

Mrs. Bromley Browne, of Kelowna, is at present staying with her mother, Mrs. Hardie, to recuperate after an operation for appendicitis.

Miss Margaret Pennington, principel of Rutland school, and her sister Grace, returned from the coast last week, having spent a very pleasant holiday at the camp of the Y.W.C.A. at Whitecliff.

There will be Harvest Festival at the Methodist church on September 15te. The choir will render special music assisted by Miss Dalzell and Miss Tully.

Mr. Tom Morrison went down to Vancouver yesterday.

## Shooting Season Opens September 14th

The new game regulations for the present season have now been posted giving the dates of the open season for various classes of game. Those in which sportsmen of this district are most concerned, are as follows:—

Deer (all kinds, over one year), Sept. 14th to Dec. 15th.
Bear, open season to June 30, '19
Ducks, Sept. 14th to Dec. 15th.
Grouse, Sept. 14th to Oct. 31st.
Pheasants. There has been some misunderstanding regarding the shooting of pheasants in this district, and in last week's issue, by stating that there was no open season for pheasants here, we doubtless added to the misunderstanding instead of helping to clear it up. Permission has been given to shoot cock pheasants only for a period of two weeks from Oct. 26th to Nov. 8th, the bag being limited to six birds. When this intention of the government became known efforts were made by several local sportsmen to have it rescinded, fearing the extinction of these birds which have only lately begun to establish themselves here. Apparently their efforts were too late to have effect, and the order stands.

## Compiling Register for Sheep Men

The Interior of B.C. Wool Growers' Association is compiling a register of sheep owners having rams, ewes or lambs for sale, and ranchers desirous of purchasing sheep. Those falling within either class should communicate at once with the secretary-treasurer, C. E. Lawrence, Kamloops, giving full particulars. A copy of the register is to be sent to all sheepmen and likely purchasers in the province. The fee for registration is to be 50c and a commission of 5 per cent. is to be charged on all sales.

The Association has also been asked by the Dominion Government Advisory Board on Wild Life Protection to "furnish information as to methods being employed to eradicate coyotes and with what success, in order to formulate a practical policy for dealing with this question, which is not only interprovincial, but international in its scope." The Association therefore makes an appeal to all ranchers to immediately furnish particulars as to their losses, the efforts made to mitigate them and steps they consider either for the individual, co-operatively or by the authorities to render sheep husbandry safe and profitable, especially in view of the world-wide shortage of wool.

## More Offenders Against Automobile Laws

### Police Continue Effort to Enforce Regulations

A further batch of offenders against automobile regulations were brought up in the city police court during the past few days and had to pay fines of various amounts as a penalty for the infraction of the law.

On Saturday night Geo. Allen and Leslie Dilworth were both detected travelling without rear lights, and, as they could not very well do anything else, pleaded guilty and each paid a fine of $5 and costs. J. H. Trenwith was brought up on a like charge, but he pleaded not guilty, claiming that his rear light had been burning all the time. Investigation, however, showed that the glass of the lamp was so encrusted with mud that it failed to perform its office of illuminating the rear number. He was let off with paying $2.50 costs.

Archie Johnson this morning made his second appearance inside of a week. Last Thursday he paid a fine of $5 and costs for having no rear light. This morning he had to pay $10 and costs for speeding. Next week—oh, well, never mind.

## Interest Being Revived in Kelowna's Fall Fair

### Committee Expecting Greatly Increased Entry List

The committee in charge of the Kelowna Fall Fair are anticipating not only a revival of the old-time interest in this annual event but a new enthusiasm which will make it a notable success. The catch-phrase which appears on the posters: "Come and see how Kelowna has answered the call for more and better production," expresses, perhaps, as well as anything, the rivalry in agricultural and horticultural effort which is in evidence this year. Nothing stimulates intelligent progress in all farm work more than this friendly competition at the annual fair, and for this reason it is anticipated that the entries will exceed the records of the best years.

The opening will take place Wednesday, September 11th, at 8 p.m., after all the judging has been completed, and addresses will be given by well-known speakers. The exhibition hall and poultry building will be open until 11 p.m. that evening.

Thursday will be the big day when the horse races and athletic events take place. The stock parade is likely to be a big thing this year. Stock-judging competitions, experimental farm exhibit, bee demonstration, insect and pest exhibits, school work, etc., will be among the attractions. Luncheons and teas will be served by the Ladies' Hospital Aid, and the Kelowna city band will furnish music. "Boucher's big shows," with merry-go-round, ferris wheel, and other excitements will be here both days.

Motorists from over the lake crossing by the ferry will be given free admission to the Fair.

## Carload of Registered Holsteins Arrives

The pure-bred registered Holsteins purchased by the members of the Holstein Breeders' Association arrived yesterday after a three days trip from the coast in charge of Mr. Powley, of Woods Lake, who had undertaken to care for them in transit The animals had been on show at the Exhibition and were much admired. They were sixteen in number, all young stock, though a few were mature cows, three with calves, two being born on the way down. The purchasers are Messrs. J. Murray, A. Reid, M. Hereron, A. R. Davy, Bankhead Orchard Co., W. Price, A. Cooke, A. H. Crichton, G. F. Coventry, E. R. Bailey and F. E. R. Wollaston.

## Good Roads League to Meet at Penticton

### Will Push for Better System of Provincial Highways

The second annual convention of the Good Roads League of British Columbia will be held at Penticton on Tuesday, September 17. This convention is to be held coincident with that of the Union of B.C. Municipalities, and in many ways the meeting of these two associations will result in some immediate and much future benefit to the province.

The programme which has been arranged by the Good Roads League, the subjects that will be dealt with are of the greatest interest to every city, to every municipality and indeed to every district in the province, and it seems especially fit that such an early opportunity should be given for the coming together of so many good roads enthusiasts and civic authorities so that the subjects of such vital importance can be discussed by those who have them most at heart. A provincial campaign for good roads, in order to be successful, must have the support and co-operation of the people in every section of the province and a better opportunity for securing such universal support could hardly be imagined than the one which will be provided at Penticton next month.

With a system of good roads the province will undoubtedly become a mecca for the tourists from south and east. When the three unfinished gaps of the trans-provincial highway are completed it will afford communication by branch roads between Vancouver, coast cities and nearly all settled parts of the interior—north to Ashcroft, Kamloops and North Thompson; South to Similkameen, Okanagan and boundary points, and east to Cranbrook, Nelson and Alberta, making a connection with the Trans-Canadian Highway, and also affording additional facilities for entering the State of Washington, U.S.A.

Even at the present time the tourist traffic is increasing every year, in spite of the fact that the tourist has to go in many roundabout ways to reach a given destination. The bridging of a few gaps, a little improvement here and there, and there is no calculating what a handsome return the investment would bring to the province.

## S.O.S. Boys to Receive Badges Saturday

As elsewhere announced a meeting is to be held in the Methodist church Saturday evening to present S.O.S. badges. Further details regarding these badges are just to hand. The following boys will be entitled to the S.O.S. badges from the Canadian Food Board:—

Those who have registered as S.O.S. boys;

Those who have worked for three months on one farm, or who intend to complete that period this year, or who in exceptional cases have been prevented from working the three full months, but have worked over two full months.

Those who have not completed their full term will be required to sign a Declaration Form on receiving their badge, stating that if they do not complete their term of service the badge will be handed back to the Government representative.

The Service Certificates have been sent to all of the boys, whose names appear on the list at Victoria, and it is necessary that these certificates be signed by the employer and that they be sent to James H. Beatty, Victoria, B.C. If this is not done, those who left school before the term closed will not receive their school standing. For the entrance into the High School, two months' service is necessary and for the matriculation into the University, three months efficient service.

Mr. W. W. Loane returned from the coast yesterday.

## Insect Pest Found Attacking Alfalfa Seed

### District Entomologist Finds Insect New to Valley

Mr. R. C. Treherne, Dominion Etomological Field officer, reports that as a result of his duty of pollinating and seed infesting this summer in the Okanagan, has become aware of the presence of an insect, known as the Alfalfa Seed Chalcid, which apparently is causing considerable loss of seed in some sections.

This insect is known to threaten the production of alfalfa seed in some localities in the United States. It has been found during the past two weeks at Keremeos, Keleden, Penticton, Vernon, Kamloops and Walhachin and there is no reason why it should not also occur at other points in the dry belt. For the purpose of assisting the Department of Agriculture in the effort to determine the range and extent of infestation, growers are asked, as a favor to pick some of the mature seed along their fence rows and place them in a glass tube or bottle with a cotton wool cork. These seeds should be let stand in a dry shaded place and watch should be kept for some minute black flies about one-eighth of an inch long. It is possible that these seeds may have to be kept over winter, as emergence sometimes does not occur until the spring. Later on, if the grower will advise the local representative of the Department as to his findings, giving the locality he will assist very greatly in estimating the degree and range of infestation. Injury by this chalcid is entirely confined to clover, bur clover (medicago hispida) and alfalfa (medicago sativa). The winter is passed in the larval stage within the seed. Adult emergence occurs in the spring. Oviposition takes place through the soft green seed-pods when the pods are half grown. The grubs feed upon the tender growing seeds and the adults, when full grown eat their way out through the shells of the infested seeds and then through the seed-pods. Evidence of attack may be seen at the present time by the presence of a number of minute holes in the dry seed-pod of the uncut first crop of alfalfa seed. Infested seeds may be recognized by their abnormal shape and usually by their dull brown color. The glossy appearance of normal seed may also be interfered with. There are probably two generations of flies in the course of the summer in the Okanagan. According to Urbahns of the U. S. Dept. of Agriculture (1914), this insect causes a loss of from 10 to 30 per cent. of first crop seed and from 30 to 70 per cent. of the second.

At the present time it is advisable to dispose of the screenings of the alfalfa as it is threshed by placing them in a compact heap for three or four months, so that it may become heated and decayed. If this treatment is not carried out all screenings should be burnt. In the autumn, further, all roadside alfalfa plants and clover should be cut, fed or burnt. Only clean seed should be planted next spring as the winter is passed as a larva in the seed. If necessary, suspected seed could be fumigated with carbon bisulphide, 1 oz. to 100 lbs. of seed. The crops should be seeded so as to allow of uniform ripening, and the crop should be harvested as soon as the larger number of pods are ripe. The earlier harvesting should be stacked as soon after cutting as possible, thus rendering emergence of the flies more difficult.

Further information on the local life history of this insect is lacking at the present time, but it is hoped that facilities will be offered to make an investigation.

Three young boys were up in the police court this week on the serious charge of burglary. They had entered the house on Cawston Avenue of Pte. Frank Davis, who is away on military service, and besides turning things upside down generally, had stolen some pictures an flag and military badges. They were let out on suspended sentence.

*Y.M.C.A. AND CRITICISM*

To the Editor of
The Kelowna Record.

Dear Sir,—When so much has been said lately against the work of the Y.M.C.A. at the front, this unsolicited testimonial from one of our own Kelowna boys, Pte. H. Francis, showing the other side of the question should be made public. Kelowna contributed splendidly to the Y campaign and it is satisfactory to know the self-denial needed for raising that contribution was not wasted. The following is an extract from a letter to his sister dated July 24th:—

"I saw a copy of "Jack Canuck" crabbing the Y.M.C.A. One statement was that a sergeant who had been out to France said he had never had a free cup of tea from the Y. That sergeant was probably a 'dingbat' from one of the base camps or something of the sort and had never seen the front line as the free tea is for those only who are really at the front and not for the men with bomb-proof jobs in the rear.

Personally, I've had many a cup and been thankful for it and when I was on a stretcher-carrying party I have also had biscuits and cigarettes free as well.

There was also a cartoon in 'Jack Canuck' showing two notice boards side by side, one giving price list—Tea 5c, Coffee 5c, &c., with 'Paper Free' at the bottom. The other requiring subscriptions of several thousand dollars. Tommy Atkins looking at the second board remarks that the paper he uses does not come to that figure. which is really a libel as it implies that the Y keep the money for their own use.

Some of the benefits we get from the Y at the front besides free tea, are recreation marquees or huts, library with one franc deposit on each book repaid at any Y library on return of book, picture shows and concerts, sport outfits of all sorts and kinds, also a thing which is not widely known even among the men out here and that is giving vegetables, oatmeal or other mess extras or the money to get them with, to the different units at the front. I believe this battalion lately has been benefitting that way to the tune of about 400 francs a month.

Another item they have to contend with is that it is not a very uncommon thing for one of their canteens to get blown up with shells and a lot of goods spoilt, to say nothing of the canteens and stock they lose whenever Fritz makes an advance. There may," he concludes, "be cases of pilfering and graft; it would be almost impossible to run a concern of that size without."

*IRRIGATION WATER SHORTAGE*

To the Editor of
The Kelowna Record.

Dear Sir,—After reading the report in the Rutland News of your paper Aug. 8th, 1918, with reference to the Kelowna Irrigation Co.'s dam located at the head of Mill Creek, I would ask you to favor me by printing these few lines in your next issue.

On the 5th of December last I, in company with two others, camped by the company's dam for five days between Dec. 2nd and 9th. There had been considerable rainfall which had caused quite a flow of water to pass through the dam. On our arrival I expected to find a large body of water, but to my great disappointment and disgust I found nothing but an empty dam, with quite a flow passing through the gate.

I am not in a position to argue as to whether this gate was closed

Continued on page four

Mr. and Mrs. S. V. Bray returned Wednesday.

Mr. L. M. Needham with his wife and son were passengers to Vancouver yesterday.

Mr. L. E. Taylor sent down a couple of his famous Berkshire pigs to the Vancouver Exhibition and had the good fortune to carry off four prizes. There were: first sow, second boar, best Berkshire and best sow sweepstake.

All changes in contract advertisements must be in the hands of the printer by Tuesday evening to ensure publication in the next issue.

## *Public School Notes*

Edited by Principal Gordon

The Public School will re-open on Tuesday next at 9 a.m. Some impression has got abroad that the holidays have been extended till the end of September. It is not so. I hope that the parents will make every effort to have their children at school on Tuesday. There are many reasons why this is desirable. In the first place, the influence on the children of a prompt start is all for their good. Secondly, the children are moved to their new rooms and introduced to their teachers on the morning of the first day. Thirdly, instructions are given concerning the purchase of exercise books and apparatus, which have to be repeated to the children who come late. And fourthly, we are anxious to know exactly how many children are likely to enroll in case it should be necessary to open another room. When we graded in June, we had enough pupils to fill all the eleven rooms. Thirty-six pupils passed out of the Entrance, but we had the names of thirty-five beginners for the Receiving class, and it is possible we did not get all the names. You will see then, that if we get as many as thirty new pupils in addition to beginners, and a great many have come to town during the summer, the School Board will have to consider the opening of another room. You will thus see the necessity of sending the children on the opening day. We want to know as soon as possible how many children are available.

• • •

Pupils should bring their pencil boxes only. No books should be brought on the opening day.

Admission cards will be given to the beginners to be filled up and returned on Tuesday if possible.

Miss Caldwell's class should line up at the south entrance when the bell rings and march into the Principal's room.

Beginners should be accompanied by parents or guardians, or by some of the older boys and girls, and they should be taken right into Miss Wood's room, which is the first room on the left as you enter by the north door. New pupils, not beginners, should report at the office entering by the south door.

Beginners must have attained the age of six years. No beginners will be received after September 16th.

• • •

There will be only one change in the staff. Miss Macintosh has been replaced by Miss Hunter who taught last year in Vernon.

*'GRANDVIEW'*

## *Orders for Local Scouts*

Kelowna Troop
Troop First; Self Last

Edited by Pioneer. Aug. 27, 1918

In the coming season's work there is one thing of which we must make sure this time and that is to establish a bugle band of some sort. Mr. Fred Gore, late of the 172nd Battalion, and now of the Kelowna Fire Brigade, has very kindly consented to do whatever he can to assist us in this respect, and as we have two bugles and a drum all that we now need is the material to blow, and to beat the drums. If we can find that in the troop then we can perhaps get another bugle or two and drum. All scouts who wish to make an effort to get into the band will be given the opportunity if they make their wishes known in time.

• • •

If we can have the use of the Exhibition Building again this coming Fall and Winter, which the Directors of the Association have been so kind as to let us have gratis for the past two seasons, we shall be able to make the basket-ball more interesting and exciting than ever, as Summerland is just aching to get at us, and Penticton will probably also be able to field a team. If we can get teams from our three troops then we shall be able to arrange a regular playing schedule. Then again, if we learn to play well enough, we shall see if a challenge trip to the coast could not be worked. The question of financing such a trip would be the most serious obstacle to be faced, but if we could once arrange the transportation, that would be about all we should have to worry over, as doubtless coast scouts would be very glad to billet scouts from a visiting team for a few days.

• • •

We wish to take this opportunity of thanking all those parents of scouts who so kindly assisted us in entertaining some of our visiting scouts from Summerland on regatta day.

• • •

Scouts shake hands with the left hand, and as the great Kitchener said, "Once a scout always a scout." That is when a boy makes his scout promise he is expected to do his best to live up to that promise as long afterwards as in his body he draws breath, whether he remains actively identified with a troop or not. Of course if a boy wishes to forget he ever made such a promise and deliberately decides not to let it have any further influence or bearing on his daily life, or considers that like an old toy it should be cast aside as one of the childish things of his youth, then we are not particularly anxious to shake hands with him at all, but we earnestly hope that the left-handed shake may continue to be the bond which unites all former members of our little troop down through the years to come, even to the time (for those of us who reach them) when we shall be in our late eighties and nineties.

• • •

We have received 24 of the 1919 Mett's Scout Diaries for which we have paid 1s.3d. each and carriage and duty in addition. We shall sell them to members of the troop at 30c. each, but as there are not enough to go round you had better secure one at once if you wish to have one.

The Wolf Cubs will meet at headquarters on Friday, at 5.30, for a hike to Knox Mountain, where a corn roast will be held. This will be followed by a favorite Cub game. Those who attended the last hike we held will need no second notice. Be sharp on time.

## Notes from the Prairie Fruit Markets Bulletin

By Commissioner J. A. Grant, Calgary.

"Watchful Waiting" is the attitude of jobbers all over the northwestern cities from Winnipeg to Portland, Oregon, in their annual advance fruit-buying campaign—Micawber-like, they are just waiting for something to turn up." Especially is this state noticeable in the apple buying. If the shippers and growers remain firm it does not need very much foresight to see what will happen. The apple crop of the Northwest is below normal. The consuming power is practically the same. Dried fruit and canned goods will be at a premium owing to high prices paid by manufacturers both for sugar and fruit. Fruit has advanced less than any other foodstuffs, and is today one of the cheapest foods. Apple sales in Wenatchee and Yakima have been numerous and prices are steadily advancing. It is reported that nearly all the Jonathan apple crop in Wenatchee and Yakima has left the growers' hands at good prices. From all U.S. points reports are at hand showing moderate movement at greatly increased prices over last year.

B.C. fruit shippers are experiencing an unusual loss in wastage of fruit in transit this year. Correspondents' letters and our own observation bear out the truth of this statement. We are in doubt as to the reason for this, and would suggest a rigid inspection of the state of fruit at shipping point, and a certificate issued covering the state in which fruit is loaded. The cause of the trouble is one of two things, viz.: Fruit is either shipped in an over-ripe and soft condition or the refrigerator service is faulty. The elimination of loss is essential in these war times. We must get at the root of this trouble, in the interests of the growers, shippers, carriers and marketers of our fruit, as well as the consumers. There is no method of handling, icing or ventilation that will overcome careless packing and shipping diseased or over-ripe fruit, but if it can be be established that fruit is leaving shipping points in good condition the refrigerator system and the size of the load will have to be radically changed. The Northwestern States are able to cut out most of the wastage and the time is ripe to investigate the cause of our losses.

Calgary wholesale prices are as follows:—

Pears, B.C., $3 to $3.25.

Apples, slow sale, Gravensteins, per box, $2.75.

Apples, orchard run and No. 3, in crates, (to move) 75c to $1.

Crabapples, very slow, box, $1.75 to $1.90.

Plums, according to quality, 4 basket crate, $1.75 to $2.25.

Peaches, good No. 1, yellow St. John, per box, $1.65 to $1.75.

City market are selling these from same shipper at $1.45 box.

B. berries, rather soft, $3 crate.

Apricots (Royals), small, box, $1.40

There are a lot of soft cots offering at various prices.

Tomatoes from $1 to $1.40 crate.

Vegetable marrows and squash, barely moving.

Onions, 3c per lb.

Pickling cukes, $1 peach crate.

B.C. citron, 4c.

Green corn, 35c doz, large.

Onions,—Stockton, Cal., quotes $2 to $2.25 for Australian Browns and Yellow Globes, f.o.b. there.

Okanagan Valley, $35 per ton f.o.b. there.

Armstrong, B.C., quotes potatoes $28 per ton f.o.b. there.

Stockton, Cal., potatoes, no change.

There seems to be considerable excitement in producing sections in Washington over apple prices and we understand cash buyers are very active paying unheard-of prices for good quality fruit.

Fruit scarcity is the outstanding feature on the market in England, and many restrictions are made as to quantity and the days on which persons can buy it. The embargo on Canadian apples is apparently going to remain for this year, but the trade and the public would welcome its removal were that step possible.

An important fusion of co-operative farming and commercial associations in New Zealand was recently completed under the style of the Farmers' Co-Operative Wholesale Federation (New Zealand), Ltd. This includes some of the strongest farmers' organizations in that country, and will be a large importer of farm and creamery machinery, implement accessories and general farm supplies. The total subscribed capital of the nine associations which have membership in the federation is $8,904,600 with a reserve fund of $1,504,907.

The annual business transacted will be greater than $47,000,000.

Miss Phyllis Gant, a member of the Hammersmith Rowing Club, London, recently swam from Kew to Putney in the record time for a woman. She covered the five miles sixty yards, in just under one hour and a quarter—swimming at the rate of about a mile in 15 minutes. Local swimmers will find interest in comparing this with the long distance swimming recently held at the coast—and our own regatta.

### WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that Edward G. Quick, whose address is Youngstown, Alberta, will apply for a licence to take and use five acre feet per annum of water out of an unnamed spring, which flows westerly and drains into the soil in adjoining lots. The water will be diverted from the spring at a point about 75 feet north of the S.W. corner of Lot 39, Map 426, and will be used for Irrigation purpose upon the land described as Lot 27, Map 426. This notice was posted on the ground on the 27th day of August, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 29th, 1918.

EDWARD G. QUICK, Applicant.
41-5 By IRA McCLURE, Agent.

### WATER NOTICE

STORAGE

TAKE NOTICE that I, David Gellatly, whose address is Gellatly, B.C., will apply for a licence for the storage of 800 acre feet of water out of Jack Lakes, also known as Fish Lakes, and comprising two lakes known as Jack Lake and Gellatly Lake, which flow North-Easterly and drain into South Fork of Power Creek. The storage dams will be located at outlet of lakes. The capacity of the reservoir to be created is about 1200 acre feet, and it will flood about 140 acres of land. The water will be diverted from the stream at a point at present point of diversion, and at point where public road to Peachland crosses Power Creek, and will be used for Irrigation purposes upon the land described as District Lot 487, Osoyoos Division of Yale District. The licence applied for is to supplement a right to take and use water as per Water Record No. 746. It is also proposed to lower the level of Jack Lake by an open cut, 7 or 8 feet. This notice was posted on the ground on the 26th day of August, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 29th, 1918.

*Rhymes from the* South-End Store

Two-bits went out one day on strike
And down to the SOUTH-END STORE did hike.
Says he: "What have you here I like?"
"Two St. Charles Milk, two Pork and Beans,
Two Macaroni, two Scout Sardines,
Two Old Dutch Cleanser, also two Lux—
(When these chase dirt it ain't worth shucks!)
Two Salmon (flats), one ditto (tall)—
A boiled dinner, not too small . . . "
"Gee, whizz, I can't wait to hear all;
I'm going to hike right back to work,
For I really did not mean to shirk."

## TOWN AND COUNTRY NOTES

Mr. D. Leckie was a visitor to Penticton over the weekend.

One of the pleasant affairs of the summer season was a farewell dance given in the aquatic pavilion last week in honor of Amy and Holland Burne, who left for Toronto last Thursday. Mrs. DuMoulin chaperoned the young people, of whom there was a large attendance. Miss Hutchinson and Miss Gaddes acted as hostesses.

A party of young ladies from the Baptist church met at the home of Mrs. P. Harding last Thursday evening for the purpose of surprising Miss G. Gowen, whose wedding is shortly to be announced, with a "shower." Miss Gowen who was greatly surprised, warmly thanked the generous donors for their gifts.

Rev. C. M. Wright, formerly pastor of the Presbyterian Chnrch in Nelson and at present in the boys' department of the Y.M.C.A., and superintendent of the "earn and give" campaign among boys, will preach at the morning service at the United church. A Labor Day service will be held in the evening when the minister will preach.

The death took place last Thursday morning at the Kelowna hospital of Thomas Wallace, aged 66, lately a resident of the K.L.O. bench. Some two months ago he was admitted to the hospital suffering from tubercular trouble, but gradually became worse. The funeral took place Saturday, the Rev. E. D. Braden officiating. Deceased was a native of Cornwall, Eng., and has been living in this district for the past seven or eight years. His wife died last year at Vancouver.

The High School boys who enlisted in the "Soldiers of the Soil" movement to help harvest the crops of the district, during their summer holidays, will be presented with the badges to which their patriotic labor has entitled them, at a meeting to be held Saturday evening at 8p.m. in the Methodist church. The Hon. J. D. MacLean Minister of Education, Rev. C M. Wright, S.O.S. supervisor for Alberta and British Columbia, and J. W. Jones, M.L.A., will be the principal speakers. The chair is to be taken by His Worship Mayor Sutherland. Musical selections will be given at intervals. The public are urgently requested to attend in order to encourage the S.O.S. movement.

## Opening Girls' Rest and Reading Room

Under the auspices of the Kelowna United church a free reading and rest-room for girls has been opened in a vacant store in the Hewetson and Mantle Block on Bernard Avenue. In addition to facilities for reading, resting and writing, a piano and telephone have been installed and it is hoped that the premises will minister to the comfort and enjoyment of the many strangers in the town and district during the fruit season. It is also hoped that the local and country women will feel free to use the rooms. All who use and appreciate the rooms are asked to register in order that the worth of the movement may be tested.

No stringent regulations have been made but it is expected that Y.W.C.A. regulations will be observed as far as possible. Those using the premises are asked to remember that all the furniture and fixtures have been loaned. The rooms will be maintained until the end of the season. Gifts of current literature will be much appreciated.

H. S. Duncan went down to Vancouver Friday.

Mrs. and Miss Fisher returned from a holiday at the coast Friday.

Miss Beatrice Wilson returned Monday from Vancouver.

Mrs. Germyn with her two daughters, from Osoyoos, have been visitors in town this week.

Messrs. L. J. Kelly and A. Woods were down to Penticton Monday.

Mr. and Mrs. J. M. Rice, of Winnipeg, are visitors at the home of Mr. J. W. Jones this week.

Sergt. J. J. Davis was mentioned last week as having sustained a gunshot wound in the arm. This should have been a gunshot wound in the face.

The Kelowna City Band is to give an open air concert in the park on Friday evening, Sept. 6.

Capt. Estabrook was on board the s.s. Sicamous Wednesday morning on his way up to the Landing.

Mrs. H. W. Swerdfager and daughter Jean went down to Vancouver Friday last.

Mrs Whitehead and daughter are visitors to Vancouver this week.

Miss Anderson left last Friday for Virden, Man., on a visit to friends.

A dance will be held in the aquatic pavilion on the second night of the fair, September 12th, when a three-piece orchestra will supply music.

Mr. and Mrs. Beese, who have been guests at the home of Mr. Wm. Haug, left Monday morning for Blythe, Sask.

Mr. H. W. E. Canavan, of Canavan & Mitchell, who in the past have been concerned with several engineering projects in the district was in town last week-end.

The Kelowna Women's Institute will not meet on the first Monday in September (Labor Day), but on September 9th, in the Prisoners of War room.

Ike Chamberlin's "Beauty Silk," which went down to the coast to compete in the Vancouver exhibition races, managed to pull off some of the money, winning third place in the 2.13½ class against a long list of famous trotters.

A number of the Kelowna visitors to Vancouver came in Wednesday morning, probably thinking it better to get home before the strike went into effect and made their return more difficult.

Next Sunday morning in the Baptist church the Rev. W. Arnold Bennett will preach on "The Second Cross, or the Son of God in Redemption." At the evening service his topic will be "The Passing of the Old Regime." After the morning service the Sacrament of the Lord's Supper will be administered. Sunday-school will revert to the afternoon session, commencing at 2.30 p.m.

The young people of the Baptist church had occasion to hold another social evening on Tuesday of this week, when a surprise party was held at the Evans' home, on Woodlawn, to bid farewell to the family who are leaving for the coast. During the evening the Misses Evans were each presented with a gold dress pin as a token of the esteem and good wishes of the circle of friends they were leaving. Miss Dorothy Evans left yesterday and the remainder of the family will leave later. Mr. A. Evans, who has been resident at the coast for some time, was formerly pastor of the Baptist church.

# Printed Butter Wrappers

According to the new Dominion Government regulations all farmers who sell butter either to the stores or privately, are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words "DAIRY BUTTER." The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces, and in default of same a fine of from $10 to $30 for each offence is imposed. Whey butter must be so labelled even when mixed with dairy butter and dairy butter retains its label though it be mixed with the creamery product.

You can be supplied with neatly-printed wrappers for your butter at the Kelowna Record Office, for the following prices:

| | | |
|---|---|---|
| 100 | PAPER & PRINTING INCLUDED | $1.50 |
| 200 | " " | 2.00 |
| 500 | " " | 3.15 |
| 1000 | " " | 4.50 |

*These prices include Both the Paper, which is the best obtainable for the purpose, and the Printing of same. Please note this.*

Owing to the extraordinary rise in the price of butter parchment (which has gone up over 100 per cent) we have been reluctantly obliged to raise our prices slightly. Nearly all this paper was previously manufactured in Belgium, and needless to say this supply has been entirely cut off. Unfortunately there is no guarantee against further increases, indeed, they are more than likely.

## Correspondence

(Continued from Page 1.)

or open more than was necessary. However, the volume of water coming through was great enough and should have caused the water to dam up in the reservoir. The weather was quite cold, part of the time near zero, and the ice being three or four inches thick forced us to cut through the ice to water our horses. The flow seemed to be about the same when we left as when we arrived, and no increase whatever had taken place in the dam for the period of five days which we spent there. I also took particular notice of the height of the water stored in the dam last summer, and from indications, conclusions could be quite accurately formed, and to my judgment the dam in 1917 was far from being full or passing over the spillway. This caused a shortage and an enormous loss to our water users.

When the company's representatives visited the dam in the third week of April, 1918, it should have showed a greater depth of water than 12½ feet. Evidently as the flood water came in in the spring the greater part of it escaped in some way of which I will leave for your readers to form their own conclusions.

It is known by everyone that in the winter of 1917-18 we had our greatest snowfalls of any year since the construction of the dam. Up to the year 1913-14 this dam appeared to be a success and all were given water to the 1st of September as their contracts called for. The year 1916 the water was closed off from the users about the second week of August. The year 1917 we had a very wet spring, and water users didn't require much irrigation until the second or third week of June, excepting for hay, as the soil was furnished with sufficient moisture for vegetables from the rains.

This spring just past we were quite fortunate in getting sufficient rain just after our vegetable crops were planted, and the cold evenings stopped the vegetable growers from using much water. However, when the extreme heat came and water was required, to the surprise of many of the users we were notified that the supply would give out in about twelve days, causing quite a sensation and putting everyone to great inconvenience, for which no one was responsible except the Kelowna Irrigation Co.

How long it will continue no one can tell, but if I am not too hasty in forming conclusions, I am quite sure as times improve and money is more plentiful and buyers of land appear, this dam which has caused so much trouble and loss to the farmers of Ellison, Rutland and Glenmore will again be filled to its utmost capacity and pass over the spillway as in the year 1909.

### SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and a portion of the Province of British Columbia may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

(N. B.—Unauthorized publication of this advertisement will not be paid for.)
