Plenty of Help Ready For Fruit Picking

Mrs. J. C. Kemp Sending Parties ot Girls Boys

Mrs. J. C. Kemp, president of the B.C. Consumers' League and Fruit Harveste s' Bureau, which has been taking up actively at the coast the matter of supplying help for the fruit districts, including the Okanagan, was in town last week-end with the object of gaining first-hand information as to local conditions and possible requirements, In the same way Mrs. Kemp has been visiting various other points in the Okanagan.

According to Mrs. Kemp there seems to be no lack of help to be had, large numbers of both boys and girls having already registered with the Bureau and were awaiting their turn to be sent up country. The chief difficulty appears to be a coming to a definite understanding as to the work awaiting them, and also as to the accommodation which can be provided.

A start has already been made by the K.L.O. Co., which has some sixteen girls and eight boys at work, whilst half a dozen more came in Tuesday to work on the Belgo. orchards. Mr. Bulman has also undertaken to provide work for about fifteen and the Growers' Exchange and Cannery are negotiating.

Of course, the whole thing is somewhat in the nature of an experiment, but according to accounts great success seems to have attended the movement in other parts of the province, and the boys and girls have done very satisfactory work.

Boy Scouts Had Good Time in Camp

The Boy Scouts came back from camp Saturday afternoon. The ferry scow went down to Cedar Creek about noon and found the boys well packed up and ready for departure. In an incredibly short space of time the personal belongings of the Scouts and the camp equipment were loaded on to the barge, and with cheers for everything and everybody, they pulled out for Kelowna, leaving on the beach a line of some fourteen of the Wolf Cubs who had just arrived by road to spend a few days at the same spot. The Cubs were in charge of Mr. Jas. Gordon, the Cub Master, and their few days camping experience was a great success. They returned Tuesday afternoon sun-burnt and happy and busy with questions as to when the next camp would be. The Hon. and Rev. T. R. Heneage acting commissioner for B. C. who had spent the first two weeks with the Scouts in camp also remained over with the cubs.

According to German reports, the American warships convoying the first expeditionary forces destroyed four of their latest type submarines.

A cablegram from the Chinese embassy announces that Chan Hsun and his entire monarchical adherents surrendered on July 12. Less than twelve soldiers and civilians were injured. Complete order now prevails and the Republican party has resumed control.

The Westinghouse interests at Pittsburg are seeking 1000 men who are willing to sign an agreement to enter a new plant to be built for the manufacture of war munitions by a secret process, and remain imprisoned for ten months, all communication with the outside to be shut off. Men who have been approached were told that the plant will manufacture a powerful implement of war, and the secret must be guarded until the government sees fit to make the details public. Only those workmen and officials who will be engaged in the the production of the new weapon will know its character and the detail of manufacture.

More Kelowna Names Added to List of Killed

Alex Thayer, who was reported killed last Friday, was another Kelowna boy added to the lengthening honor roll. A son of Dr. S. W. Thayer, until recently veterinary surgeon here, but now of the B. C. Horse, Vernon, the young fellow was well known here, having attended school for some time. He was only nineteen years of age, and left Kelowna with the 172nd last fall. He is a brother of Jack Thayer of the Royal Bank. Mrs. Thayer and the rest of the boys are now in Alberta.

News has been received at the Mission through the medium of a letter from Mrs. G. B. Ford in England to her mother Mrs. Thompson, that Lawrence H. Garnett, a young rancher of the district, has been killed in action. This is the second time he has been reported killed, and though it is that hoped it may again prove to be wrong, the writer of the letter is very confident about it. Garnett was a young man in his early twenties, and came out from England some few years ago to take up an orchard near the old school at the Mission when the war broke out he joined the B. C. Horse but later transferred to the Imperial forces, in the artillery.

Bad Bush Fire Does Damage at South Kelowna

On Tuesday morning a fire started up on the South Kelowna Land Co's lands, near Mr. Jock Stirlings place and as everything was dead dry at this time, rapidly spread until it became a serious problem, and although now believed to be under control it is not even yet extinguished. The fire broke out from some unknown cause about nine or ten o'clock but it was into the afternoon before many of the residents realized it's danger, and by that time it had secured a good hold. A band of fighters however, got out, and by beating plowing, and turning in of irrigation water, a labor which occupied themthrough the night and until well into Wednesday morning, at length managed to surround the fire and curtail any further chance of spreading. As it was a considerable area was burnt out.

Rutland News

(From our own correspondent).

Earl Hardie has the pleasant job of taking a bunch of girls each day from Rutland to engage in cherry picking on the K.L.O.

Last Thursday the Women's Institute met on the lawn at Mrs. Gay's and held a very enjoyable meeting. Refreshments were provided and sold for the benefit of the Overseas Y.M.C.A., realizing $4.30. Mrs. W. D. Wilson and Mrs. W. A. Fleming gave talks on "Child Training," while Miss Annie Gay gave an interesting reading "With the Land Girls," being ing the experiences of girl farmers in England.

The Rutland ditch was temporarily put out of business Tuesday afternoon by a tree which fell across the trestle work supporting the flume near the headgate. A party of workers at once went out and after about five hours strenuous work got the water running again.

Mrs. Ford was down to Kelowna yesterday to meet her sister and two nieces from Medicine Hat who are coming to stay with her for a short time.

The net proceeds from from the sale of ice cream at the joint Presbyterian and Methodist Sunday school picnic held July 4th at Mission creek, amounting to $17.35 has been donated to the Y.M.C.A. fund.

The city of Merritt tax rate is 35 mills on the dollar.

French Soldiers and Their Prize

French soldiers with a bamb-thrower captured from the enemy

Sergt. Kennedy Honored at Smoker

In honor of Serg. Geo. Kennedy, who had to leave again for the coast after his short stay here, a "smoking concert" was organized and successfully carried out at the Aquatic Pavilion last Thursday evening. The night was a delightful one and the balconies were filled with people whose chief desire probably was to hear Serg. Kennedy's story of his experiences since leaving Kelowna for the front.

Naturally reserved and modest about himself, he did not treat his hearers to any fluent oratory, but his recital nevertheless was one of intense interest. He began by sketching the experiences of the draft of which he formed part, from the time of leaving Kelowna, the trip across to England and the period of training there.

Speaking of the life in the trenches he made many aspects of the operations both offensive and defensive clear by means of a blackboard and chalk. His own part in the fighting and the circumstances of his wounding he was inclined to treat lightly, but it was not difficult to realize that some of his experiences must have left a deep impression on him.

The chair was taken by Mr. J. W. Jones, M.P.P., who spoke of the splendid loyalty of so many of the local boys who had offered their lives for their country. An interesting musical programme was rendered by local artistes.

Mrs. Lang and daughter who have been staying with the Harvey's for some time past, left Monfor Indian Head, being accompanied to Penticton by Mrs. Jas. Harvey, jr.

Owing to the closeness of the voting upon the bill to extend the life of the Federal parliament, a general election seems now almost unavoidable. Premier Borden has made formal announcement that the request to the Imperial authorities to extend the term will not be proceeded with. It is not probable that the election will take place before October or November. How this will effect the Conscription movement is not yet clear.

The crop reports from agents of the Saskatchewan Co-operative Elevator Company show a better outlook, yet farmers think crops will not be nearly as good as last year. Rain is badly needed and spring conditions are telling against the grain now. The C. P. R. croy report describes conditions at points along the railway in the Saskatoon district as good and fair.

Pte. Symonds and Tpr. Bingley Home Again

Pte. Symonds was expected on Thursday afternoon, but owing to delay failed to appear. Consequently when he came in Friday there was not the usual demonstration. However he is just as welcome as if all the whistles in town had blown. He is here only for a visit at present from the hospital where he is quartered at Vancouver, having not yet recovered from the bullet wound through the shoulder which ended his soldiering for the present.

Tpr. Bingley, who came in Saturday and was given an enthusiastic welcome, was at one time engaged with the Belgo-Canadian Co. both during construction of the ditch and later as water bailiff. He left Kelowna early in the war and has seen much service in France chiefly as a despatch rider. His career in this line was ended by a shell which laid him in hospital with a broken leg. Tpr. Bingley has come back to Kelowna to take a position in the office of the Ok. Loan and Investment Co.

German Vessels Destroyed By British Fleet

A despatch from Ymuiden says that four German ships have been sunk by British destroyers in the North Sea, four captured, three stranded and three forced to return to Rotterdam.

Since Saturday seventeen German steamers have sailed from Rotterdam, three at one time and fourteen at another, the despatch says. Of the first group one, the Magdalena Blumenthal, 1535 tons gross, was wrecked off Zandvoort. Of the second group, owing to the action of British destroyers, not one vessel was able to proceed, eight being captured or sunk and three succeeding in putting back to Rotterdam. Of the three remaining steamers which were stranded, two were afire.

This is the second incident recently reported of German merchant vessels being captured in the North Sea. A previous group of shipe were en route to Scandinavia for German supplies. The recent falling off in Scandinavian sailings, due to heavy losses of ships, and desire of ship owners to save their vessels by keeping them in port, may be forcing Germany to take great chances to get much needed supplies.

Dr. Cook of Calgary, a returned medical officer who has seen duty overseas, is staying with his friends in town.

National Holstein Sale Makes World Record Prices

The National Holstein-Friesian Sale Co. of New England has set a new record for dairy cattle auctions. No previous sale has closely approached the prices paid for individuals, both male and female; never before has the average of a large sale rivalled the new record set; and no other auction has witnessed an equal enthusiasm and confidence in the prices paid. It is doubtful whether breeders have ever before paid so high a tribute to the judgment of a man in selecting animals for auction as in this sale, to Mr. H. A. Moyer, sale director.

At Worcester, Mass., June 7 and 8, following the annual meeting of the Holstein-Friesian Assn. of America, the company sold 143 Holsteins for a total of $296,470, an average of $2,073.21. Fifty-nine head brought $1,000 or more each and averaged $4110.50. Fourteen of these were bulls and averaged $7,712.50; the 45 females lacking but $10 on their average of reaching $3,000. A bull calf raised the average of the 143 head $360 and made a sale record for all dairy breeds by selling for $53,200, the highest price ever paid for a dairy bull.

The highest price ever paid for a dairy cow, $18,300, was given for a four-yesr-old; and only exceeded the sum given for a two-year-old by $300. Phenomenal as the prices for individuals seem, when the high three average close to $30,000, the remarkable figure in the list of sales is the average. One animal or three cannot make a sale—an average of more than $2,000 for nearly 150 does. "That average is a price," to quote an auctioneer, "for a good many of them to shoot at." When the averages and totals had been calculated and the last animal led off the sawdust, the unanimous voice of the breeders present could have seen expressed in five words, "This sale makes Holstein history."

Millions Made in Bacon Trust

Revelations as to the millions made by the packing houses in Canada dnring the last two years since the spectacular rise in prices are given in a report just presented to the Minister of Labor by Mr. W. F. O'Connor. A profit of $5,000,000 last year on bacon is declared to be the share of the company headed by Sir Joseph Flavelle, head of the Imperial Munitions Board. The other big company which shared for the most part the bacon monopoly of Canada, namely Matthews, Blackwell, Ltd., cleaned up about a million and a-half.

Mr. O'Connor says:

"The basis of a monopoly in this commodity existed before the war. In 1914, these two companies exported more than half the total bacon exported by Canada. Their control of the bacon situation has been much strengthened since. In 1916 the two companies together sold 140,000,000 pounds out of 151,000,000 pounds sold by all the cold storage companies in Canada."

RESULTS OF HIGH SCHOOL EXAMINATION

The following pupils have passed the second year high school examination, according to a telegram just received: Campbell, Hereron, Budden, Richards, Crowley, Groves. Private study, Mrs. Bowser, Mrs. Ruffell.

A bill was introduced into Congress last Friday providing for an immense aeroplane fleet and appropriating $640,000,000 to obtain it.

Berlin's bank clerks have set an example in self-sacrifice. Aiding in the movement for economy in leather, the clerks have discarded shoes. Scores of barefooted individuals are seen on the principal streets, gingerly stepping along, saving their feet as much as possible. The stores are selling wooden sandals. Leather is exceedingly scarce.

Annual Regatta Will Be Held August 9

Effort Being Made to Get the Youngsters Interested

The annual holiday carnival in the park and aquatic buildings will be held this year on Thursday, August 9th. Only one day this year so make a note of it and bring in all the children in the country on that day and make it a real big picnic.

There will be sports in the park in the morning; races of all sorts, running, hurdling and jumping; amusing races and ball games. Each district in the neighbourhood will be invited to enter a competitor for a series of events on land and in the morning and again in the afternoon when the water sports will be held in front of the grand stand as usual. A special prize will be offered for district competition. Excursions will be run from lake points as usual. In the evening there will be a carnival and dance in the pavilion.

This is to be the great Children's Day of the year and the regatta committee hope that all children will be able to come and enjoy the bathing and boating. There is no finer beach in the world and we should like to see it crowded on that day.

Programmes of the games and sports will be issued soon and you will then be able to see what to enter for.

Big Picture at Theatre on Wednesday

"The Whip," one of Mr. Arthur Collins' most successful dramas at Old Drury, London, Eng., is to be the attraction at the Kelowna Theatre, on Wednesday, July 25. This spectacular drama is replete with thrills and wonderful stage effects.

The title of the play is the name of a race horse which is the centre of the plot. It is entered to run in the famous Saratoga handicap, and for this reason the enemies of the owner and a bookmaker attempt the destruction of the thoroughbred, but in spite of all their efforts "The Whip' with its owner's daughter on its back runs under the wire the winner. The story is a combination of love and romance of the race track and shows some most original scenes that will make an audience sit up and take notice.

There are several climaxes each one more exciting than the preceding one, but perhaps the most realistic one is produced when the Saratoga express, running at a high rate of speed, crashes into a box-car containing "The Whip" which has been cut from the express by the adventurer. The engine and the cars fall over an embankment a twisted mass but the horse is rescued none the worse for its adventure.

Another exciting scene is a race between a train and a motor car, which is eventually won by the big racer.

Those who are fond of horses and dogs should see this picture. There is a fox hunt from the start to the finish. There is a real horse show with some of the finest driving horses on this continent on exhibition and a very realistic scene of the famous Saratoga track itself.

Evidence that millions in German gold are still being poured into effective prepaganda work among Americans has been laid before the state department by a statesman of international reputation.

Minister of Lands Here Tomorrow

Word has just been received that the Hon. T. D. Paitullo, minister of lands, and Mr. Wm. Young, comptroller of water rights, are to be in Kelowna tomorrow (Friday) to go into irrigation matters.

Some of the troubles with regard to irrigation which have been predicted and discussed time after time during the last year or two are at last beginning to threaten, and to-day this section of the Okanagan is face to face with a water shortage which might easily prove disastrous.

The tropical heat which has been experienced during the past few days has further aggravated matters and it is reported that already hundreds of acres of growing crops have been badly damaged and in many cases ruined through the impossibility of getting sufficieat water on to them. The situation locally is critical in the extreme and somebody will have to bestir themselves and that quickly. Farmers of Ellison, Rutland and Glenmore especially are becoming uneasy, and unless relief comes can see their water supply cut off before the irrigation season is half over, a condition which would spell absolute ruin for many. Word also comes from Naramata that they are in even worse shape, and that the greatest alarm is felt throughout the entire district.

It is not that there was any shortage of water, though the supply did fall short of expectations. The trouble is that there has been a vastly increased demand for water from all sides, both on account of the hot drying winds and intense heat which has been experienced and also because of the unusual effort which has been put forward to increase acreage under cultivation and to boost production. The greatly increased acreage put into onions, tomatoes, grain, corn, alfalfa and other crops demanding plentiful irrigation has been one of the strongest features of this year's farming activities, and all would have been well if the various systems had been adequate to the demand. This they have not been, and unless rain comes soon it is feared that the bountiful crops which have promised so well will be reduced to a mere fraction of what they should be.

It seems to be apparent to everyone except those in Victoria who haye power to deal with the matter, that government ownership and the provision of greatly increased reservoir storage facilies is the only real solution. It is an utter absurdity that only a few weeks after being threatened with disaster and damage through floods and high water in the creeks, we should be faced with dried-up water courses and general drought. The building of proper reservoirs to hold back some of this surplus water which now runs to waste would pay handsomely in increased production.

It is reported that a new committee has been appointed to visit the Okanagan to inquire into irrigation conditions. This is very good, but to put it mildly we are getting a little tired of these investigations. What we want now is action. If the numerous commissions and investigators have done their work in the past the government must already be in possession of all the data needed. This is no trifling matter but one which involves the prosperity or absolute ruin of the whole district, and it is up to the government to take hold and provide a remedy.

We understand that in the course of the next few days the Minister of Lands, Hon. Mr. Patullo and Dr. Young, water comptroller, are to be in Kelowna, and it is to be hoped that there will be no hesitation in placing the real situation before them.

Orders for Local Scouts

Kelowna Troop
Troop First; Self Last

Edited by Pioneer. July 17th, 1917

Orders by command for week ending 28th July, 1917.

The last order given at camp was that every scout's camp diary and rough sketch map should be handed in by Monday, the 16th instant. This order has not been obeyed by any member of the troop with two exceptions, these two exceptions being the two latest recruits. We refer you all to the 7th Scout Law once again, and trust that it will not be necessary to refer to this matter again.

As we left camp on Saturday, the cubs came in under Cub Master Gordon. Commissioner Heneage remained with them and they returned home today. We believe that every scout in the camp enjoyed it very much and it was undoubtedly a great success.

Before giving a list of winners of the various competitions, we would like to express our thanks to our many friends who assisted us in various ways particularly in connection with transportation and donations of fruit vegetables etc. Owing to the hurry with which everything arriving in a car was gathered up into the camp, we have not got some of the names of the kind donors of different things. We wish to assure them, however that everything was greatly enjoyed and we are sorry that our friends could not have heard the frequent cheers which were given them while their gifts were appreciated around the camp fire.

We first of all have Mr. DuMoulin to thank for making arrangements as to the cars coming out to camp and also for coming out himself; also the following gentlemen for making trips to camp with parcels etc.: Dr. Gaddes, Messrs. Marshall, Rowcliffe, Graham, Lionel Taylor, Copeland and Day. We also thank Mr. Hayman for his courtesies in transporting us to and from camp and assisting us with his truck car to take home some of the camp material. It is hard to have a more comfortable tent in camp than the Bell, and we are very much indebted to Colonel Perry of the B. C. Horse for the loan of 5 of these tents. The big head quarters tent given to us by the Kelowna boys of the 172nd Battalion, was a splendid help to us.

We wish to thank Mr. Sutherland and Mr. Poole for very generous donations of bread; Dr. Keller for 2 dozen bottles of pop and the loan of his boat; Mr. and Mrs. W. D. Walker for vegetables and cake; Mr. Renfrew for vegetables; Mr. McKenzie and Spall for cherries and Mr. McKenzie for vegetables; Mr. Cunningham for the loan of cooking utensils and stove; the B. C. Evaporators Ltd. for evaporated vegetables; Messrs. P. B. Willits & Co. for fitting out our first aid outfit with drugs bandages etc., Dr. Knox for lemons and sweets; Mr. R. A. Pease for vegetables; Mr' H. Bartholomew for magazines; Mr. and Mrs. DuMoulin for a big box dough nuts; Mr. Crichton for pop; Miss Dora Pease for jam; Mr. F. A. Taylor for cherries; Mrs. Boyce for chocolates; Mr. E. Weddell for cherries; Mr. Hector Johns for hay; The Okanagan Loan & Investment Co. for camp site; Mrs. Cameron for sweets and pork and beans; Mr. Alister Cameron for his services in connection with the railroad trip; Mr. Day for the loan of a horse.

Sixteen boys took part in the trip to the railroad, together with Mr. Cameron and the scoutmaster. We will doubtless hear more of this from some of the diaries when they are handed in. Commissioner Heneage was good enough to offer prizes for the patrol having the best tent, kit and grounds etc., during the whole of camp, and also for the best all round scout, under 15 and over 15, to be determined by vote of the scouts. The tent inspection was won by the Beaver patrol under P. L. Calder, with three other patrols all tying for second place, a remarkable result; only ten points separated the winning patrol from the others, so you will see that competition was very keen.

The tents were inspected daily and the patrol winning the inspection for that day was entitled to the flag. The voting for the best scout resulted in scouts F. Sinkinson and L. Gaddes tying for first place under fifteen, and patrol leaders James Calder and Godfrey Groves tying for first place over fifteen. The Tenderfoot work competition was won by the Eagles under P. L. Snashall; the Second Class Ambulance competition by the Eagles and Beavers tying for first place; the Second Class Signalling was won by the Beavers, and the First Class Ambulance by the Wolves and Otters under P.Ls. Groves and Parkinson, respectively, tying for first place. Kim's game was wou by the Wolves under P. L. Groves. The sports were won by the Beavers with 29 points, followed by the Wolves with 27½ points. The detailed results of the sports are as follows :-

50 yards dash, 13 years and under—
1st Marshall; Eagles; 2nd Clarence; Wolf; 3rd Cunningham; Wolf.

Putting the Weight—
1st Calder; Beaver; 2nd Keller; Beaver; 3rd Gaddes; Beaver.

50 Yards Open—
1st Calder; Beaver; 2nd Groves; Wolf; 3rd Gaddes; Beaver.

Long Jump, 13 and Under—
1st Marshall; Eagle; 2nd Cunningham; Wolf; 3rd Mantle; Beaver.

Run, Hop, Step and Jump—
1st Calder; Beaver; 2nd Gaddes; Beaver; 3rd Groves; Wolf.

Patrol Land Boat Race—
1st Otters; 2nd Eagles; 3rd Beavers.

Three-Legged Race, 13 and Under—
1st Marshall and Rowcliffe; Eagle; 2nd Clarence and Taylor; Wolf; 3rd Cunningham, Wolf, and Hunter, Otter.

Obstacle Race—
1st Taylor; Wolf; 2nd Snashall; Eagle; 3rd Groves; Wolf.

Baseball Throw—
1st Keller; 2nd L. DuMoulin; Wolf; 3rd Calder; Beaver.

Three-Legged Race Open—
1st Calder and Parkinson; Beaver and Otter; 2nd Groves and DuMoulin; Wolf; 3nd Marshall and Rowcliffe; Eagle.

Victoria Cross or Fireman's Lift Race—
1st Groves and Clarence; Wolf; 2nd Copeland and Keller; Eagle; 3rd Calder and Sinkinson; Otter.

Mounted Wrestling—
1st Calder and Sinkinson; Beaver and Otter; 2nd A. DuMoulin and Taylor; Wolf; 3rd Gaddes and Small; Beaver and Otter.

Sack Race—
1st Copeland; Eagle; 2nd Snashall; Eagle; 3rd Marshall; Eagle.

Patrol Relay Race—
1st Beavers; 2nd Otters; 3rd Wolves.

Wheelbarrow Race—
1st Gaddes and Calder; Beavers; 2nd Snashall and Copeland; Eagle; 3rd DuMoulin and McKenzie; Wolf.

Billy-to-Boil Race—
1st Groves; Wolf; 2nd Calder; Beaver; 3rd Thomas; Otter.

The Ford Is Economical

THE average man can easily afford a Ford car. It is the most inexpensive car to drive.

20 to 25 miles on a gallon of gasoline is an every-day occurence. 33 miles is frequently reported by Ford owners. Yearly repair expenses of less than one dollar are not unusual. The car is light in weight, and tires give more mileage on a Ford than on any other car.

You can buy a Ford for yourself and one for your wife for the price of one car at $1000. You can run both Fords at about the same expense as for one large, heavier car.

You can always sell a 'used' Ford at a good price. You have to accept a big reduction for a "used" larger car.

Go and take a ride in the 1917 model. See how comfortable it is. And stylish, too—stream line effect, tapered hood, crown fenders, beautiful finish. You need one for business. Your wife and children need one for pleasure and health.

TOWN AND COUNTRY NOTES

Mr. and Mrs. A. L. Soames returned from the coast Tuesday.

The Imperial Oil Co's new office is now open next to the Creamery.

The Anglican Sunday-school picnic is being held this afternoon.

The name of C. E. Reid, of Kelowna, appears amongst yesterday's list of wounded.

Miss Anderson, of East Kelowna, who is a member of the B. C. Alpine Club, went to Banff for a short holiday this week.

Mr. E. W. Groves came up this morning from Penticton, where he is acting as district superintendent of the Water Rights Branch.

Mr. R. G. L. Clarke, chief Dominion fruit inspector, and Mr. McIntesh, Dominion inspector of fruit transport, were in town today.

The mayor, aldermen and business men of Armstrong have been getting out after closing hours helping the farmers to get in their hay. Half-holidays and in some cases Sundays were also spent in this way.

The appointment by order-in-council was made on Tuesday of J. S. T. Alexander, E. J. E. Davis and F. H. Kidd as investigators to inquire into the existing irrigation systems of the Okanagan Valley at Peachland, Summerland and Westbank.

Mr. Mutton, buying agent for the Grain Growers' Association is in town this week, in company with Manager MacDowell of the Okanagan United Growers. He is making arrangements and enquiries respecting purchases of fruit for his Association during the present season.

The Farmers' Institute proposes to pay a visit to the Summerland Experimental Station on Saturday July 28th, leaving Kelowna about 8 a.m. and returning from Summerland at 5 p.m. The fare will cost $1 each and members must notify the secretary at once if they wish to be of the party.

Mr. W. Miller, inspector of bridges and wharves for the C.P.R., was in town yesterday making arrangements for the rebuilding of the wharf. Owing to the very bad state of the old structure it has been thought desirable to make as early a start as possible, and it is likely that as soon as the rush of the fruit shipments is over a start will be made.

As nearly always happens when the hot weather comes, the discomfort of the high temperature has been added to considerably during the week by the heavy smoke which has pervaded the atmosphere, drifting in from several big fires which are reportad to be ragin different directions. A heavy pall of smoke has been rolling up from the south all the week, the result, it is said, of big bush fires over the American border. Fires have also been reported from the Wood's Lake district.

An old-time minstrel evening and a revival of plantation songs delighted a tent full of Butte amusement seekers who attended last night's Old Virginia Minstrel Show. A company of genuine colored men furnished fun galore and an entertainment which, in these days, is a refreshing novelty. It has often been said that there is no minstrel like the real darky himself. He is as keen to see the fun possibilities in burlesqueing his race as is the white man. A street parade and band concert in the evening prefaced the perforamnce.

Taking the show as a whole it was the best Colored Show ever in Butte. Butte Miner, Butte, Mont.

Miss D. Evans was a visitor to Penticton Thursday.

Mr. and Mrs. Nash left Monday on a holiday to be spent at Victoria.

The usual Church of England service will be held at Rutland on Sunday at 3 p.m.

Messrs. Stirling & Pitcairn yesterday loaded and despatched the first car of cherries of the season. They were sent to Calgary.

Mr. and Mrs. Lawrence Blacknell arrived on Friday from Collingwood, Ont., and have taken up residence in Miss Caldwell's bungalow on Burne Ave.

The Mason-Risch Co. advise that they have three cars of pianos on the way to their branch in Kelowna, one of which, in fact, is being unloaded at the present time.

Miss Eleanor Dawson, who has been staying with her aunt, Miss Caldwell, and attending school in Kelowna, left Saturday for her home in New Denver. Miss Caldwell herself was a passenger Monday for Vancouver.

A beautiful hand crocheted camisole has been donated to the Benvoulin Red Cross funds by Miss McArthur, and is at present on show in Lawson's store where tickets can be purchased for the raffling of the garment. The drawing takes place at the Society's next meeting on Thursday, July 26.

Mr. R. A. Copeland has just completed the purchase of a fine 320 acre farm at Lumby, about sixteen miles east of Vernon and is leaving to-day to take possession, and to make arrangements for the harvesting of the crops, which include several hundred tons each of hay and grain. The property also includes about ninety head of cattle with a number of other stock. Though everyone will wish Mr. Copeland success in his new venture, it is to be regretted that it will necessitate his removal from Kelowna where he has been a respect- and valuable citizen for over ten years. Mr. Copeland's sons will assist him on the farm.

Clifford Scott Writes From France

The following is an extract from a letter received by Mr. Crawford from Pte. Clifford A. Scott, one of the Kelowna boys now at the front:

"The other night a number of old Kelowna boys got together and we had a great time, each one telling his experiences since coming to France (of course some of the yarns were kind of "fishey"). Among the crowd were Colin McMillan, Jack White, Jack Wilson, Hiram Willits, August Casorso, Rube Archibald, Jack Paret, George Leggett, Jack Ferguson, Lloyd McDonald, J. J. Mills, George Curts, Ewin McLennan and two or three others. I met Graham of the Bank of Montreal a few days ago, just before his batt. (the 72nd) went into the line. It was pretty tough luck on George Packer and Walter Raymer, wasn't it?—getting killed on their first trip in the line.

Now I think I've said enough about France, and how is everything in Kelowna ?-suppose it's kind of quiet this summer, nevertheless it would look good to this chicken, and it will be good enough for me if I am spared to get back."

WANTED

"KITCHENER'S" GOOD AND IN GOOD TIME

Veterans of Mons Awaited Their Coming Eagerly, but Doubtfully—Discipline the Test of Quality

Kitchener's army came just in time, wrote a veteran campaigner of the "Old Contemptibles." The regular army and the special reserve had been extinguished, the territorial divisions were hanging on to their sectors of the line by the skin of their teeth; the frontage of each division was much too large; Amsterdam was daily sending news of an impending German offensive; youngsters with a few weeks' training were rushed out to us to fill up the gaps consequent on Hill 60 and St. Julien and were very far from satisfactory, and at the time of our relief we had held the line at St. Eloi without any kind of rest for fifty-six days.

Better Than Expected

The number of wooden crosses in our little graveyard behind the Rosendal Chateau had increased with disconcerting regularity, although nothing in the way of vigorous tactics had been employed by either side. Few can marvel at our joy on hearing the news, "I have seen Kitchener's Army in the flesh."

A few days later I had the opportunity of visiting Ballieul. I saw, and was mightily impressed. Home papers, containing the opinions of great generals, had prepared us for something rather better than the ordinary. While hoping for the best we were inclined to be skeptical, but I confess that our hopes were more than realized. It was a Highland Division I saw first—stout, brawny lads, the Highlanders of history minus their beards. Clean as new pins, they stepped the streets of Northern France with the air of conquerors, and saluted their officers in the manner of guardsmen on Constitution Hill.

Saluting and Discipline

From time to time one reads of a desire to abolish or curtail this military obeisance. It is considered Prussian, denounced as Zabernism, degrading to the soldier, undesired by the officers themselves, irksome, undemocratic, and all the rest. I cannot agree. To me, there is a distinct connection between the right hand salute and the successful attack on a German trench. It is the foundation of discipline, and some more discipline in our land would help us along mightily. Most of the battalions of Kitchener's Army had it, and they were proving its worth at Loos a very few weeks later.

KORMANN STOOD TEST

When Lieut.-Col. Rorke was ordered to proceed overseas with whatever nucleus of the 248th (Grey Country, Ontario) Battalion it had been possible to raise, he found he had nine lieutenants and only needed three. He called the nine lieutenants in, laid the facts before them, and asked if any of them would go as privates. Lieut. Claude Kormann stepped forward. He said he had recruited the boys from Hanover to go to the war, and he proposed to go with them, if not as a lieutenant, then as a private. "Lieut. Kormann," said Col. Rorke, "you go overseas as one of my officers."

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

ADAMS WAGONS

A CARLOAD of the celebrated Adams Wagons due to arrive the first week in August. Do not place your order anywhere else until you have seen them.

Here are a few Reasons why you should purchase an Adams Wagon:

BECAUSE they are made of the very best materials, and Canadian made throughout.

BECAUSE they have stood the test of time.

BECAUSE the pieces of wood that go into an Adams Wagon are piled in the weather for SEVEN YEARS before going into the dry kiln, and from there go into the wagon.

BECAUSE the gears are all clipped instead of bolted.

BECAUSE they have all got steel tires of legal width to carry loads up to three tons, and because they are the best wagons in Canada and the cheapest in the end.
