LIBRARY, LEGISLATIVE ASSEMBLY 1913 VICTORIA, B. C.

Meeting of City Council

Proposal to Extend Watering of Streets - Motor Speeding

The Mayor and Ald. Calder, Copeland, Taylor, and Thompson attended the meeting of the council on Friday last. The following correspondence was read:

A letter from Messrs. Deacon, Deacon, & Co., of Vancouver, requesting a copy of the city's Trade License By-law regulating the sale of goods direct to customers by commercial travellers. The clerk was requested to inform the applicants that the city had no spare copies of the by-law on hand.

The city solicitor of Salmon Arm asked for information as to the rules under which the city supplied water and electric light to residents outside the city.

The Gamewell Fire Alarm Telegraph Co., of Seattle, wrote to inform the council of the intended visit of their representative to Kelowna with a view to furnishing an estimate of the cost of installing a fire alarm system here.

Some correspondence was also dealt with relating to the sale of the city's debentures.

An announcement was made that the Conference of representatives of Canadian Municipalities would be held at Saskatoon on July 15th, 16th, and 17th next.

The authorities of the provincial Board of Health informed the city that in future all water used for local consumption would have to be analysed twice a year, and that the last examination was quite satisfactory.

Ald. Copeland urged the necessity of an extension of the street watering limits, and proposed the introduction of a by-law levying rates from the residents of the streets concerned. He suggested that the extensions should include the following:

Park Avenue

Water Street, from the Farmers' Exchange to Causton Avenue

Pendozi Street to the city limits southwgrd

Ethel and Richter Streets, from Bernard Avenue to the Creek

Ellis Street, from Harvey Avenue to Cawston Avenue

Harvey and Eli Avenues

Lawrence Avenue from wbbott Street to Pendozi Street.

It was contended that watering kept the roads in good condition, though the extra work would necessitate the expenditure of $500 for an additional sprinkler.

Ald. Copeland reminded the council of the daogerous position of the light pole at the corner of Bernard Aven. and the government road. It was decided to ask the engineer to make a report on the best way of changing the position of the pole without causing the wires to overhang private property.

The Mayor drew the council's attention to the excessive speed at which motorists proceed withio the city especially along Pendozi Street. Ald. Calder supported the complaint, and the Chief of Police was asked if he could do anything to modify the danger to the public. He replied that the only way to secure convictions against the offenders was to time them, and for this he would require an assistant. He was given full instructions to every legitimate means that he could to reduce the evil.

The following accounts were passed for payment:—

The Macdonalds, Ltd, sub. to forthcoming publication, "Along the Imperial Highway"	23 75

Farmers' Exchange Will Sell to New Association

Kelowna Growers' Exchange Buy Premises and Plant

A combined meeting of the old share holders of the Kelowna Farmers' Exchange and the prospective members of the new local association which is to take its place was held last Saturday in Raymer's small hall. A resolution was unanimously passed that the Exchange should go into voluntary liquidation, and that the real estate, buildings, and plant in Kelowna be turned over to the new concern for $28,000. This figure had been arrived at after considerable discussion, and the assistance of independent arbitrators. Before the meeting took up the question of the new association, a hearty vote of thanks, proposed by Dr. Wansborough Jones and seconded by Mr. C. S. Smith, was passed to the board of directors. In maving the resolution, Dr. Jones said that the Exchange had been going through trying times lately, but he was sure there was no one present but believed that the directors had worked hard and done their best in the interest of the share-holders. Io replying the chairman, Mr. Hobson, agreed that they had had pretty stremuous times of late, and had put in a great deal of time for, he was afraid, very little thanks. He wished the new association every success.

The assembly then resolved itself into a meeting of the new organization, but beyond deciding to adopt the name of "The Kelowna Growers' Exchange" very little business was transacted owing to the Articles of Association having gone astray.

New Board of Trade Offices Completed

The Kelowna Board of Wrade can at last boast the possession of handsome and convenient premises of their own the new building which was made possible by the timely concession of a site at a nominal rental from the C. P.R., having been completed this week by the contractor, Mr. Geo. E. Bowser who deserves some credit for the speed with which the work has been done.

In spite of its comparatively low cost, the offices present a very neat and substantial appearance. The front office is for the use of the secretary and publicity commissioner, while the large room at the rear will be used for meetings of the Board or will be available for meetings of other bodies, and possibly small dances and private parties.

Friday's Band Concert

Following is the programme of the Band Concert to be given in the City Park on Friday evening at 8 o'clock:

1. March.....Officer of the Day.....Hall
2. Overture...Golden Days...Makie-Beyer
3. Mexican Song.....La Paloma.....Yradier
4. Two Step ....We've Had a Lovely Time, So-long, Good-bye...Edwards
5. Serenade...Dreams of the Past....Fulton
6. Spanish Waltz.....Navita.....Hoschna
7. Schottische....Driving in the Park....Beyer
8. Selection.....The Burgomaster.....Luders

O! Canada.

God Save the King

N. Bornholt, Conductor.

Distinguished Visitor

The Marquis of Exeter who has been with a party to his estate in Cariboo was a visitor to Kelowna last Friday having motored in from Kamloops. He was met at the wharf by Mr. P. Edmund Corby, who was for several years his Lordship's architect on his estates in Northamptonshire, England. After a short stay the party crossed the lake to Westbank and continued the journey south. The Marquis, who was through the valley last year, expressed himself delighted with Kelowna and considered it by far the best place in the whole Okanagan.

Royal Commission on Agriculture

Holds Sessions in Kelowna

The Royal Commission on Agriculture which is a present touring the province seeking information and data concerning the condition of and circumstances affecting farming, fruit growing and general husbandry throughout B. C. held sessions in Kelowna Monday and Tuesday of this week.

The personnel of the commission has been well chosen and the result is a body of men, all practical agriculturalists in some branch or other, and keen men of business besides.

The chairman is W. H. Hayward M.P.P. for Duncan and managing director of the Cowichan Creamery Co., Vancouver Island, a co-operative concern which is doing a great service to the dairy farmers and poultry men of that district. The rest are Mr. Alex Lucas, M.P.P., Vancouver; S. Shannon, Cloverdale; W. Duncan, Comox; J. J. Campbell, Nelson; J. Kidston, Vernon; and the secretary, C. B. Christensen, Victoria.

The party arrived Monday noon by auto from Vernon and a session was commenced at 2 o'clock.

Mr. Lionel E. Taylor, manager of the Bankhead Orchard Co. was first one to give evidence. All the witnesses were duly sworn and their evidence carefully noted by the official stenographer for inclusion in the voluminous report which the commission will present to the government at the conclusion of their itinerary.

Mr. Taylor gave a very lucid and detailed account of the work being done by the British government for the benefit of agriculture in the Transvaal, where Mr. Taylor held an appointment for a number of years. He compared the system prevailing there with the methods of the government of British Columbia, rather to the advantage of the former. He considered that in the Transvaal the government were employing more highly salaried experts and consequently were able to draw upon the best men from the United States, Canada and other dountries. Heads of departments in the Transvaal were paid as much as $5000 per year. The B. C. Government were satisfied with young men fresh from college with only a smattering of knowledge and experience. He thought the government here should spend ten times as much as they are doing on agriculture, and not be content with the comparatively spasmodic efforts which they were making to deal with the farmers' problems.

Mr. W. R. Pooley was also severe upon the inefficiency of the present goverment agricultual staff. Farmers, he said, had no confidence in the inspectors sent aronnd because the results they arrived at were contradictory and often ridiculuous. He instanced an experience of his own where he had not sprayed because he thought it unnecessary. A government inspector had been through the orchard and had certified that it was absolutely clean, yet he had reproved him for not spraying. This seemed ridiculous. He did not think the provincial staff was well organized and there was considerable amount of overlaping. He thought it would be a good idea if registers were kept of all orchards and records kept regarding inspections and general conditions, and the means taken to control pests.

Mr. J. L. Pridham also addressed the commissioners, complaining amongst other matters of the assessment of farm lands adjacent to the city for school taxes.

Tuesday's meetings were held in the new Board of Trade building which. though not quite completed was in such shape that the large room could be used.

An address of welcome was delivered by the Mayor, J. W. Jones, who commented upon the fact that that was the first meeting of any kind to be held in the new Board of Trade offices, and he felt that the city was to be congratulated upon the possession of such handsome quarters. Referring to the commissioners he said he was glad to hear that they were all practical and experienced men, and he was sure that the result of their enquiries would have an important bearing on the future of the farming industry in B. C. He hoped they would have time to make a short tour of inspection around the district, and see for themselves something of the progress and development which was going on.

The chairman, in replying, said this was his fourth trip through, and he certainly agreed that there was no sign of going backwards. He was agreeably surprised to see the great areas of land planted in trees which were not there on his last visit. Speaking of the object of the commission, he said that the province of British Columbia was at present importing over thirty million dollars worth of farm produce which should be raised at home. It was so much money going out which ought to be retained and constituted a very serious question. It was their endeavor as a commission to find out something of the conditions of agriculture in the various districts, with a view, if possible, to reduce this great outflow of money by fostering agriculture at home.

Mr. Leopold Hayes, secretary of the Western Canners, Ltd., gave an account of the rapid growth of the Kelowna Canning Co., which developed later into the Western Canners, Ltd., with branches at different points on the lake. In 1910 they had paid out in wages $9,870. Last year the payroll had amounted to $28,506, and $25,998 had been paid to farmers for fruits and vegetables. Tomatoes formed by far the principal product handled with peaches next. Small fruits such as strawberries, etc., were comparatively scarce, the reason for which being the difficulty of obtaining labor for picking. The labor question in fact was the chief difficulty encountered both by the farmers and the cannery. Reference was made to the experiment of bringing in girls from the coast to work in the cannery. Some fifty or sixty had been obtained in this way, many of whom had remained in the district, obtaining situations as household helps or in the tobacco factory. A boarding house had been built for the accommodation of the girls, and a charge of $15 per month made for board. This had proved too small a sum, however, and the company had lost on the transaction.

Mr. R. T. Heselwood had prepared his evidence in manuscript form, which he read before the commissioners. He dealt with several phases of the fruit industry but principally with irrigation, suggesting that reform might be made by the government in the direction of: (1) Better classification of irrigable lands. (2) Better distribution of water by irrigation companies. (3) Better means of settling disputes between companies and private owners regarding the putting in of ditches, and compensation for damage done.

Mr. J. E. Reekie gave evidence of the working of the Central Selling Agency, of which he is president, and which, he said, should have been formed at least two months ago. He described in detail the aims and objects of the Agency and the plans on which it was to be conducted.

He referred to the recent meeting at which it was decided to wind up the affairs of the Kelowna Farmers' Exchange and to obtain the co-operation of local fruit producers under the name of the Kelowna Growers Union, details of which are given elsewhere. The witness was asked how many companies were working in competition with the Central Selling Agency, to which he replied: Four. He contended, however, that the Agency would be able to get quicker returns to the growers for their produce. It was anticipated that the local association would handle about 65 per cent. of the output from the Kelowna district this yer.

The commission then adjourned for luncheon and the session was resumed at 2 p.m., when Mr. W. Adams appeared and gave evidence of the work carried on by the Central Okanagan Lands Co. Mr. Adams described in detail the work of the company together with their plant, irrigation system, acreage, term of operation and prospects offered to settlers.

Bank of Commerce Start Fine New Block

Building operations are to be commenced immediately on the new premises of the Canadian Bank of Commerce which are to be erected on the main street next to the Palace Hotel. The building superintendent for the Bank, Mr. A. D. MacLean, is in town making arrangements for the work of excavating aod the driving of the piles upon which the foundations of the building will rest. He is accompanied by Mr. J. W. Gray, who will be foreman of construction.

The plans, which we have had the pleasure of inspecting, show designs for a handsome two-storey building, having a frontage of thirty-six and a half feet, and a depth of about forty feet. The front elevation gives promise of an imposing edifice which will add considerably to the appearance of the main street. The material is to be pressed brick with a generous ornamentation of stone. The main building will stand back from the sidewalk with a projecting porch of neat design.

The interior arrangement provides every up-to-date convenience both for the public and the staff. The interior finish and the fittings will all be of oak, the fittings being imported from the east.

The upper floor is divided into bed and sitting rooms for the staff. Below is a full basement with furnace for heating.

The dressed stone and steel to be used in the construcion are already on their way from Winnipeg, and it is expected that the building will be ready for occupation by about new year.

The business of the Bank of Commerce has been steadily increasing in Kelowna, and the provision of these fine premises will no doubt give a still further impetus to the extensive connection which is being established.

Three hold-up men, sentenced to a term of seven years in the pen made a daring escape from the provincial gaol at Kamloops last Monday. They picked the lock of the carpenter's shop and forced their way throdgh the wall which is of wood. The alarm was given, aod the police, assisted by the B.C. Horse, scoured the surrounding country, the men being eventually recaptured.

Messrs. F. R. E. DeHart, Henry Birch, D. McLennan and S. T. Elliott were members of the jury in the Indian murder case at Vernon this week.

Mrs. H. G. Bowser will receive at the home of her mother Mrs. J. B. Brown, Bernard avenue, Friday afternoon and evening June 13th.

In connection with the Kelowna Poultry Association a lecture on Poultry will be given by Mr. H. D. Reid, government lecturer in the Sons of England room on Saturday, June 7th, at 2 p.m. All interested in poultry are cordially invited. E. L. Ward, Secretary.

The Rev. D. J. Welsh will present at the Young People's Society of the Baptist church some eighty views of the Grand Ligne mission work in Quebec. A cordial invitation is given to all.

The Kelowna baseball team met their first defeat at Vernon last Thursday with a score of 6-2.

Mr. Bulman was called upon to give his opinion on the chances of success of the scheme of co-operation. He estimated that the Farmers' Exchange had handled about 60 per cent. of the local crop, being the output of about 95 per cent. of the growers of the district.

Farmers, he said, seldom had a proper amount of capital before commencing to produce their commodities and therefore always wanted prompt returns for their work.

Discussing the taking over of the water systems of the neighbourhood he maintained that a board ought to be appointed to judge water records and to value them and by that means a fair price might be placed upon the systems. He thought the companies would be willing enough to sell out

The commission then adjourned and left for Penticton on the boat shortly after.

Rutland News

(From our own correspondent)

Mr. H. D. Riggs will take charge of the Presbyterian service next Sunday morning.

A meeting was held last Thursday by the parishioners of the Anglican church. The Rev. Thomas Greene and Mr. L. Taylor attended. A report was received from Mr. Johnson and arrangements were made for future services.

The school trustees would like to remind the ratepayers that school taxes are subject to a discount of 10 per cent. if paid before end of this month. The receipt of a good-sized amount would greatly assist them financially in closing up the school year.

Black Mountain School Honor Roll

Following are given the names of pupils who have gained marks worthy of mention during May. The figures relate to Studies, Regularity and Punctuality, and Conduct, in the order named:

Division I.

Lillian Sproul	91	100	79
Consuelo Woolsey	95	100	73
Earla McDonald	90	100	79
Merriam Woolsey	90	95	78

Mary Pease	79	85	76
Nora White	75	90	75

Commends New Marketing Scheme

Mr. W. H. Hayward, M.P.P., of Duncan, managing director of the now well-known Cowichan Creamery Co., was in town this week as chairman of the Agricultural Commission, and in the course of a few minutes' conversation he spoke in an interesting way of the work of that institution. The creamery had turned out during the past year 148,000 pounds of butter, 154,000 dozen eggs, and 40,000 pounds of dressed poultry. They had, moreover, brought into the district over $70,000 worth of grain and other feed for poultrymen and farmers. The creamery was purely a co-operative institution.

Speaking of his trip through the valley, he said he would advise the farmers to go in more for mixed farming, and referred to the above figures as showing what could be accomplished in that direction.

Judging from his observations in travelling through the district he considered that there was every reason to be optimistic about the future of the valley. "I have," he said, "not seen anything better than what you have here in Kelowna. What is wanted is co-operation to produce the best results."

Will not the Central Selling Agency scheme solve many of the difficulties we are under at present? Mr. Hayward was asked.

"I most certainly think it will," he replied. "It will tend to regulate the distribution of the fruit, which, of course, is the fundamental principle of organization."

Births

KNIPPEL—On Saturday, May 24, at the Grosvenor nursing home, to the wife of Mr. Paul Knippel, a daughter.

LUPTON—On Saturday, May 24, to the wife of Mr. T. Lupton, a son.

McAULAY—On Sunday, June 1st to the [illegible] Cadder Avenue, a son.

Law for Automobile Owners

In consideration of the number of people who are this year learning to drive motor vehicles in this city the following extracts from the Motor Vehicle Act are given, in hopes that more regard may be paid to the rules and regulations that have been drawn up to protect the motorist as well as the pedestrain and he who still employs the horse.

Motor Traffic Regulation

Every person having control or charge of a motor shall, whenever upon any highway or approaching any vehicle drawn by horse or horses, or any horse upon which any person is riding, operate, manage and control such motor in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse or horses, and to insure the safety and protection of any person riding or driving the same; and—

Meeting or Passing Horses and Vehicles

1. Shall not approach such vehicle, horse or horses, within one hundred yards at a greater speed than ten miles per hour, or pass the same going in the opposite direction at a greater speed than ten miles per hour; and

2. If going in the same direction shall signal his desire to pass, and give the rider or driver an opportunity to turn out so that he may be passed with safety; and

3. If signalled by any driver to stop, or if any horse which a motor is approaching or passing appears frightened or unruly, shall stop such motor, including the engine, and shall remain stationery so long as may be necessary to allow such rider or driver to pass or until directed by such rider or driver to proceed.

Stop on Meeting Funeral Procession

The driver of a motor upon any highway outside the limits of a city shall, upon meeting or overtaking a funeral procession, stop his motor, and where practicable shall turn out into any intersecting street, road or lane until the funeral procession has passed.

Procedure in Case of Accident

In case an accident occurs to any person, whether on foot or horseback or in a vehicle, or to any horse or vehicle in charge of any person in proximity to any motor or owing to the presence of any motor on any highway, the person in charge of such motor shall return to the scene of the accident and give in writing to any one sustaining loss or injury his name and address, and also the name and address of the owner of such motor, anc the number of the licence of the said motor; and from and after the happening of such accident, if in a city municipality, shall, within six hours furnish to the chief of police or other officer of police of such city, and if in a district municipality shall within twenty-four hours furnish to the clerk or to some police officer of the municipality, and if in an unincorporated locality shall within twenty-four hours furnish to some Provincial police officer or constable, a written report of such accident, setting forth with particularity all material facts.

Motor-owner Responsible

The owner of a motor for which a license is issued under this Act shall be held responsible for any violation of this Act, or of any regulations provided by Order of the Lieutenant-Governor in Council, by any person entrusted with the possession of such motor.

Rate of Speed

In addition to the obligation to comply with the provisions of the the foregoing sections of this Act, every person having charge or control of a motor shall be governed by the provisions of this section. No motor shall be run or driven upon any highway within any city town or village at a greater rate of speed than ten miles per hour, or upon any highway outside of any city, town or village at a greater speed than twenty-five miles per hour in open country and twelve miles per hour in wooded country: Provided that the council of any municipality may by by-law set apart any portion of any highway within the limits of the municipality on which motors may be driven at any higher rate of speed than hereinbefore limited for the purpose of testing motors, and may pass by-laws for regulating and governing the use of any such portions of highway for the purposes aforesaid.

Rate of Speed at Crossways

Upon approaching a crossing or inersection of highways, and also in traversing the crossing or intersection, and in crossing a bridge, every person in control of a motor shall run it at a rate of speed less than that above specified, and not greater than is reasonable and proper, having regard to the trafiic and use of the intersecting ways or bridge.

Road Rules

Every person having charge or control of a motor on any highway shall comply with the following rules of the road:

1. Drive always on the left-hand side of the road.

2. On meeting a vehicle, keep to the left.

3. On overtaking and passing a vehicle, pass on the right.

Ford
THE UNIVERSAL CAR

If it's right why change it? A multiplicity of models is evidence that the maker is still experimenting. There is but one Ford model. And for five years our rapidly-growing factories haven't been able to make all we could sell—because it is right.

Our factories have produced more than a quarter of a million Model T's. Prices: Runabout $788; Touring Car $863—f.o.b. Kelowna with all equipment. For particulars get "Ford Times"—an interesting automobile magazine. It's free from Wakerville Factory or from the Kelowna Garage and Machine Works Co., Ltd., Kelowna.

Registered Standard Bred Stallion
Don Zombro
Registered Number 48391

Don Zombro is a bay stallion, 15.3 hands, sired by Zombro, dam Rambler Maid, by Rodgirl, by Marquis, by Burbon Wilkes.

Don Zombro started last year in the three minute trot or pace at Kelowna and Vernon, winning both races, making a mark at Vernon of 2.33.

Some of his colts are stepping in better than 2.30 before they are two years old, notably Zombronum, which promises to be in the 2.10 list in 1914.

He is a beautiful dark mahogany bay, a great producer, and kind and gentle in disposition.

Don Zombro will stand for service at Max Jenkins & Co.'s stable during the day and at Mr. Copeland's home after 6 p.m.

Concrete is the cheapest building material

WHETHER for a silo, a milk-house, or a million bushel grain elevator, concrete is the most economical building material in use today.

Concrete never requires repairs, and the saving in repair-expense alone makes the greater economy of using concrete more apparent every day.

The cost of other building materials is constantly increasing.

The cost of concrete is being reduced.

Canada Cement

which Canadian farmers use, with their own sand, stone and gravel to make concrete, is the only ingredient you have to buy.

We have, by reason of our large output and scientific methods, been able to bring the price of "Canada" Cement so low that it is within the reach of everyone.

An increase in demand results in a greater economy of production, and when conditions have warranted it, we have, from time to time, shared this saving with the consumer by reducing the price of Canada Cement. This demand will continue to increase—as fast as farmers learn of concrete's superiority over other materials.

When you buy cement, see that you get "Canada" Cement; by so doing you will assure the complete success of all your concrete work.

Send a post card for our book "What the Farmer Can do With Concrete." It is free.

There is a Canada Cement dealer in your neighborhood.

If this label is not on every bag it is not Canada Cement.

Canada Cement Company Limited - Montreal

CALORIC FIRELESS COOKSTOVE

A TRULY REMARKABLE INVENTION
(THE ONLY PERFECT MODEL)

No Heat
No Attention
Unfailing Satisfaction
Greatest Labour Saver
Essential in Every Home
INFALLIBLE in Its Work
Simplicity

UNQUESTIONABLY and undeniably the greatest boon to the busy housewife. The fact that over 150,000 "CALORICS" are in daily use proves this assertion.

Instead of the usual cooking drudgery the housewife confines her attention to matters more congenial. You cannot realise the great saving of labour in using this truly remarkable cookstove. The saving of fuel alone pays for the "CALORIC" in a short time.

We do not hesitate in stating that Once Used the "CALORIC" is never cast aside. Its advantages over the hot gas stove or range are manifold. **Remember there is NO HEAT, NO ATTENTION** after the food is placed in the receptacle, and no dirt.

We claim all these points of vantage and our salesman will gladly send a "CALORIC" to your home for free trial. You are under no obligation whatsoever to purchase. We are desirous that you prove to yourself what we claim.

The new "CALORIC" has made a great stride forward in the evolution of Fireless Cooking, which has literally perfected this art, not alone in the Boiling, Steaming and Stewing features, but it has rendered absolutely possible **BAKING and ROASTING as well.**

One of a number of guaranteed bona-fide letters of appreciation

Washington, D.C.

Gentlemen,—

"We have used a 'CALORIC' COOKSTOVE for one year, and it is used daily. I would not part with the 'CALORIC' for triple its price. We show it to all our friends and recommend it to do all that a gas range or coal range will do."

(Signed) A. S. R.

The radiators supplying the necessary heat for "CALORIC" cooking are heated for a few minutes over a flame (same as a flat iron), then placed in the cook-stove. The aluminum utensils containing the foods are placed on top of the radiators; close and latch the cover, the "CALORIC" will do the rest. SIMPLE, ——isn't it? But true.——

Prices are Reasonable:

$15, $17.50, $24, $28, $32.50 COMPLETE f.o.b Victoria.

Our salesman (address below) will explain practically and explicitly everything you desire to know. We request you do not hesitate to communicate with him.

Communications

Under this heading communications will be received upon any subject of interest. Letters must be signed, be brief, avoid personalities. The Editor does not necessarily endorse opinions given below.

Kelowna's Lack of Loyalty

To the Editor of
The "Kelowna Record."

Dear Sir:—

Allow me to enter a public protest against the two-faced profession of loyalty made by some members of the British Empire who decorate the city with large flags, etc., on a public holiday like May 24th (Victoria Day), and yet who cannot so much as raise a note of applause when a portrait of the King appears before a public gathering on the occasion of His Majesty's birthday. A large portrait of the King was thrown upon the screen at Dreamland before a large audience on the day observed as the King's birthday and the National Anthem was played, but the audience was unmoved and remained seated without any exhibition of approbation whatever, or evidence that the tune was French Russian, German, Turk, Chinese or British National Anthem.

People are ready enough to squeal out "The Maple Leaf For Ever," when driven to it, but when "God Save the King" is played at the end of a theatrical performance the main object of the audience is to hurry away as quickly as possible.

It would appear that there is no respect for the King in this country & "Rule Britannia" is almost unheard of. Is not Britannia largely responsible for European peace at this moment?

Why should Americans surpass us Canadians in outward display of patriotism. One is quite willing to accept Canadian professions of loyalty but would like to see some outward manifestations besides flag waving.

Such matters as standing erect and doffing one's hat may seem small but they act as valuable reminders as well as a proof of that patriotism which we all profess to possess.

I may quote in conclusion the disgraceful want of enthusiasm shown when the Duke of Connaught visited this city in spite of press reminders urging our nation to wake up and cheer as if we meant it. The cold welcome displayed must have been one of the many things which made H. R. H. so glad to leave for England despite his proposed return.

I have ascertained that in cinematograph theatres in England, the King is never shown in a moving picture without receiving hearty applause.

Yours truly,
CANADIAN.

Danger of Impure Ice

Leon Ave., June 4, '13

Editor Kelowna Record,

Dear Sir,—With the arrival of the hot weather comes the increased consumption of ice, and seeing that most epidemics of typhoid during the summer are traceable to impure ice, considerable caution is necessary in the use of the commodity. It is a well-known fact that much of the ice in use in Kelowna is taken from the sloughs and stagnant pools adjoining the Lake, which are the repository of all kinds of decaying rubbish, dead dogs, and putrid matters.

It is time that the medical authorities supervised the sale of ice taken from such polluted sources, and insisted upon only pure ice being used in hotels, cafes, etc., as the public are too careless to enquire the source of the ice they use.

Yours truly,
WILFRED FRANCIS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Greenwood, B.C.," will be received at this office until 4 p.m., on Monday, June 16, 1913, for the construction of a Public Building at Greenwood, B.C.

Plans, specifications and form of contract can be seen and forms of tender obtained at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B.C., at the Post Office, Greenwood, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 16, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

City and country patronage solicited

Town and Country

Mr. R. Duncan is visiting the coast this week.

Miss McNair returned from the coast Saturday last.

Mrs. H. J. Williams will be at home Friday next, June 6th and not again until October.

Mr. K. MacKenzie returned to town this week and will take up a position with the Belgo Company.

Mr. H. D. Riggs will conduct a Presbyterian service at Rutland on Sunday morning next at 11 a.m.

Mr. J. F. Burne returned Saturday last from the Old Country where he has been spending the past few months.

Richmond's ready-to-wear store proposes to clear out the balance of the Lequime Bros. stock this month as their store is to undergo many alterations.

School opened again Monday after an interval of two weeks caused by a troublesome epidemic of measles. Tuesday, however, was a holiday for the King's birthday.

Keep Tuesday evening, June 17 free for the garden party and strawberry festival to be held by the Presbyterian Ladies' Aid at the home of Mrs. R. F. Morrison on Harvey Ave.

The Tuesday holiday for the King's Birthday was not generally observed in town, the stores remained open but there was very little doing and the main street had a deserted holiday air about it. Perhaps this was due to the large crowd which made the trip to Vernon to see the baseball match.

The W.C.T.U. will hold a meeting at the home of Mrs. Allan Wilson on Tuesday, June 10th. A missionary program will be rendered by the members. The offering will be in aid of the World Missionary Fund, and a large attendance is requested. Friends are always welcome.

The opening of the new church of St. Michael and All Angel's has been fixed for Sunday, June 15th. It was announced last Sunday that in all probability next week's service would be the last in the old church. Bishop de Pencier will perform the opening ceremony and also hold a confirmation service.

At the Opera House on Friday a two-reel drama called "The Modern Prodigal," will be shown. The usual adjectives hardly describe this picture. It is one of surpassing interest to the average mortal. It is one that runs the whole gamut of human emotions, showing the triump of goodness and the final return of a lost soul to the paths of righteousness. On Saturd ayfive full reels will be shown instead of the usual four.

The "Moosomin World-Spectator" has the following announcement: "It is with deep regret her many friends will learn of the death of Sarah Maria, beloved wife of W. N. Wallace, of this town, which sad event occurred at the home of her daughter, Mrs. McAra, of Regina, on Monday, May 19th, at the age of 72 years." Mr. and Mrs. Wallace spent the winter in Kelowna with Mr. and Mrs. Munro, who occupied Mr. Harvey's house.

Mr. and Mrs. DuMoulin entertained a large party of friends at their home last Wednesday night, dancing commencing at 8.30. The guests included many from Okanagan Mission, K.L.O. Bench and the surrounding district. An excellent supper was served at midnight and dancing was continued until 2.30 when the party dispersed by daylight. A slight diversion was caused by the failure of the electric light for a few moments although it in no way interfered with the proceedings.

Boy Scout Notes

By "MAGISTER."

4. A Scout is a friend to all and a brother to every other Scout, no matter to what social class the other may belong.

If a Scout meets another Scout, even though a stranger to him, he must speak to him and help him in any way possible, either to carry out the duty he may be doing, or by giving him food or as far as possible anything he may be in want of. A true Scout must never be a snob. A snob is one who looks down upon another because he is poor or uneducated, or who is poor and resents another because he is rich. A Scout accepts the other man just as he finds him, and makes the best of him. "Kim," the boy scout frequently quoted in the hand-book, was called by the Indians, "little friend of all the world," and that is the name every boy should earn for himself.

5. A Scout is courteous, that is, he is polite to all, but especially to women and children and old people, invalids, cripples, etc. He must not take any reward for being helpful or courteous.

6. A Scout is a friend to animals: he should save them as far as possible from pain, and should not kill any animal unnecessarily, for it is one of God's creatures. Killing for food is allowable, or killing harmful pests such as flies, etc.

7. A Scout obeys orders—of his parents, patrol-leader, or Scout-master without hesitation or question. Even if he gets an order he doesn't like, he must do as soldiers and sailors do, he must carry it out all the same because it is his duty, and after he has done it he can come and state his reasons against it—but he must carry out the order at once. That is discipline, which is so lacking in our midst.

8. A Scout smiles and whistles under all adverse circumstances, and when he gets an order he should obey it cheerfully and readily not in a slow discontented sort of way. Scouts never grouse at hardships nor whine at each other, nor swear when vexed. When he just misses the mail, or arrives just after the store has closed, he should force himself to smile at once or whistle a tune, and he will be all right. (Since this rule first appeared, many scouts, old and young, have written their appreciation of it to the Chief Scout.)

A Scout goes about with a smile on his face or whistling because it cheers himself and other people, especially in times of danger, for he keeps it up then just the same.

The punishment for swearing or any bad language is for each offence a mug of cold water poured down the offender's uplifted sleeve. It was the punishment adopted by the old British Scout Captain John Smith, three hundred years ago.

9. A Scout is thrifty, that is, he saves every cent he can, and puts it in the Bank so that he may have money when out of work, and thus not make himself a burden to others; or that he may have money to give to others when they need it.

The foregoing are the nine original scout laws on which the whole movement is based, but it was found necessary to add another which speaks for itself, namely:

10. A Scout is pure in thought, word, and deed.

With regard to this last, scoutmasters have no hesitation in speaking absolutely frankly to their boys on the subject, for prudish so-called modesty is as contrary to the Scouting principles as stealing or lying.

The qualifications for a tenderfoot include besides a knowledge of the Scout Laws, the signs or salute, the composition of the Union Jack, the right way to fly it, and the following knots: reef, sheet-bend, clove-hitch, bow-line, fisherman's, and sheep-shank. To describe these knots would involve technicalities which are superfluous in our limited space, but a few words on the Union Jack may be welcome.

This flag is the national flag of the British Empire, and is made up as follows: First we have the flag of St. George, the patron saint of England, whose fight with the dragon is depicted on the British coinage. In 1606 King James I added to it the banner of Scotland, which was a blue flag, with a white St. Andrew's cross superposed; the addition of the banner of St. Patrick of Ireland gave a white flag with a red diagonal cross, so that the "Union" Jack to-day stands for the old-time union of England, Scotland, and Ireland. This flag was called "Jack" either from "Jacques," the French for "James" I, who first started it, or more probably from the "jack" or jacket which the knights used to wear over their armour to show which nation they belonged to; the English knights and Crusaders wore a white jack with the red cross of St. George upon it; this was also their flag.

Stop Killing of Calves

Swift & Co., acting, it is said, for all the packers, have issued a pamphlet calling upon the people to stop eating beef and turn to mutton. Here is the warning:

Eat more lamb and mutton and less beef.

Raise more cattle on the farms.

Stop the useless and wholly indefensible slaughter of calves.

The United States, says the pamphlet, is the greatest veal consuming country in the world. The number of calves slaughtered for food has increased 100 per cent. in the last ten years. The statement is made that unless some nation-wide laws are passed—laws similar to those now in force in South America—forbidding the slaughter of calves, the price of beef is going to be still higher.

The more calves that are killed the fewer cows there will be by and by. This is one of the principal reasons for the constantly increasing cost of all leather. The farmers have been killing or selling their calves rather than keeping them to increase their herds.

Hot weather! Oh yes, but just what the Presbyterian laaies want to ripen the strawberries for their lawn social on Tuesday 17th, at home of Mrs. R.F. Morrison, Glenn avenue.

Standard Bred Pacing Stallion

Local Option

Color: Seal Brown

Local Option raced in Indiana and Illionois in 1910 as a three-year-old, principally over half-mile tracks. That campaign was one of the hardest ever given a three-year-old, and only a great colt could have stood it. He started in 16 races that year and took a mark of 13¾.

His breeding is as follows:
Sired by Leland Onward, 2-4½; first dam, Ollie Osborn, by Hawthorn, a son of Nutwood; second dam, Trilby Wilks, by Nutwood Wilks.

TERMS: $5 cash, and $25 when mare proves to be in foal

Stands at stable of owner,

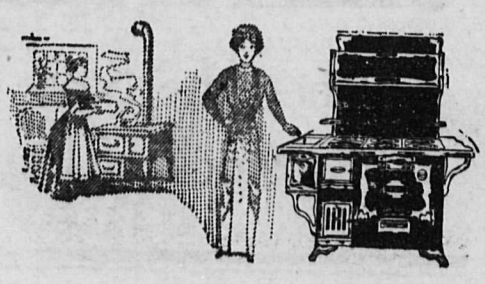
Kelowna Saw-Mill Company, Limited

GURNEY-OXFORD



First Principles

A kitchen range was originally thought of for cooking purposes. The fuel was placed in the fire pot and lighted. Drafts were turned on and the fire burned up. Drafts were checked as soon as the fire was well under way.

From the time the first kitchen range was made until the Gurney Economizer was invented a tremendous amount of heat was wasted, and absolutely wasted. This heat should be retained in the stove for the purpose for which it was created—to cook with.

The Gurney range absolutely retains the heat with the minimum amount of waste.

The Economizer enables you to produce in a few minutes an extreme or moderate heat in the oven whenever and as often as you desire it. What this means every woman knows.

You are not fair to yourself or your purse if you do not investigate the Economizer in buying a new range.

At the same time you will appreciate the exceptional value of the other exclusive features of the range—the Divided Flue, the Special Grate and the Broiler attachment.

The Gurney-Oxford is well able to speak for itself.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of to $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the Applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary to the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion lands.

W. W. CORY,
Deputy Minister of the Interior.

Letters of a Self-raised Office Boy to His Pal

In which Jimmy tells of Kelowna happenings to Mr. Sidney Harper, of Vancouver, B.C.

Dear Sid,—

Your epistle of the 1st inst. to hand and contents noted. What you say about Myrtle don't surprise me in the least. I have long suspected that the faithless hussy was false to me but now I am positive of it. Ah! well, I'll try and bear up under the crushing blow, but I guess I will have to carry this sorrow with me to the grave. Heavens, how I loved that woman!

Changing to a happier subject Sid, the weather man is uncorking a brand of weather in Kelowna right now that you simply couldn't beat anywhere. Talk about your southern California and Italy, why this place has got them lashed to the mast in a stormy sea. With the lake, trees and mountains, my boy, its a regular poet's dream. We've also got some pippin of a park here along the lake shore, and believe me when I say "Its a park what is a park." Right along the beach runs the esplanade, whatever that is, and scattered in careless profusion along this (what I said before) are numerous benches which you find very handy in case you are out with some sweet young thing and are looking for some spot where you can pour out your soul in adoration at her feet—I know what you thinking now: Shall we kill him or let him suffer. Earnest Sid, I think its the climate uncovering this streak of romance in me, I didn't have these spasms at the coast.

The boss left a couple of days ago to take a trip down your way, said he was going down to look around, and see if he could get any new ideas for the Opera House (if there's any new scheme leave it to him, he'll land them). We're still knocking out home runs at the Opera House and people are beginning to come out of their trance and realize what good stuff we are putting on. We've got a pianist who can certainly tackle the ivories, he plays music that suits the pictures. You know how it is in some shows, a picture of a wedding comes on the screen and the pianist plays a funeral march. I've known some cases in real life where this would do but it sounds very bum at the pictures.

You remember I told you in my last letter that victory was perching on our banner, well she fell off yesterday with a dull and sickening thud. The boys went up to Vernon on Tuesday, and some of them must have gotten their feet crossed for we lost 6-2. Well, never mind, we can't always expect to wear the chaplet of victory on our classic brow, and this defeat will but spur us on to renewed effort, With all due apologies to the poet, "Kelowna crushed to earth, will rise again."

Now Sid get busy with your little Waterman and answer this right away, and when you have saved up $16.85 leave that city of gloom and come and bask in the life-giving sun of Kelowna.

Yours as ever,
JIMMY.

P.S.—On later information we find we were not playing Vernon on Tuesday but Seattle.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worafield, Esq., District Engineer, New Westminster, B.C.; F.W. Alymer, Esq. District Engineer, Chase, B.C.; and on application to the Postmaster at Steveston, B. C.

Rich Cut Glass
For June Brides

Out Cut Glass is of that beautiful clear variety that reflects myriad scintillating rainbow hues when placed upon the table. Each piece is cut and polished by hand, special attention being given to deep faceting, a quality so much lacking in the inferior grades of cut glass. Call in to-day. $2 to $40

"The photographer in your town"

SEALED TENDERS addressed to the undersigned, and endorsed "Tender to Complete Jetty at Steveston, B.C.," will be received at this office until 4.00 p.m., on Tuesday, June 17, 1913, for the completion of the Jetty at Steveston, at the mouth of the Fraser River, New Westminster B.C.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfield, Esq., District Engineer, New Westminster, B.C.; F.W. Aymer, Esq, District Engineer, Chase, B.C.; and on application to the Postmaster at Steveston, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 16, 1913.
