Marked Improvement in Civic Finances

Better Payment of Taxes Has Enabled Several Old Scores to be Wiped Off

Civic finances have been on the up-grade for some time, and the past year especially has put a decidedly brighter aspect upon the municipal balance sheet. At Monday evening's council meeting the collector presented a statement of tax payments to the end of last month. Receipts of taxes this year have been very much better, and in all, including arrears and redemptions of tax sale property, the city has received clear of all expenses in connection therewith over $73,000. This is much brighter than for many years past, and as the mayor pointed out, it has relieved the council of many tiresome obligations some of which have been long outstanding. For instance, the bank loan has now been all paid off and a very substantial amount from the private loans. In addition the city has placed in the Sinking Fund the full quota, or in other words the full Sinking Fund levy for the year, a thing which has not been possible for several years.

A report was received from Mr. J. McMillan, chief engineer at the power house, upon the requirements of the provincial inspector of electrical energy as outlined in his recent letter.

There was one portion of the report which caused considerable discussion, viz., that portion dealing with the requirement of the inspector that greater clearance be given between the city's electric light wires and the Okanagan Telephone Co.'s wires. The clerk was instructed to advise the inspector that the city is endeavoring to carry out all the recommendations made by him with the exception of the one relating to the distance between the wires. The council was of opinion that the city should not be put to any ebpence on this account as the Telephone Company erected their wires after the city's system had been installed, and if it is necessary to make the proposed changes the city is of opinion that the Telephone Company should bear the expense of same.

The chief engineer also submitted an estimate of the cost of extending the street lighting system to the end of Patterson Avenue, also of extending the power circuit to Messrs. Davy & Mills' butcher store. He stated that in his opinion the revenue to be derived from the proposed service would not justify the city going to the expense of making the connection. The council therefore decided that they could not comply with the requests made.

The clerk reported Mr. S. T. Elliottt had intimated that he would expect the city to pay the cost of replacing the grates of the furnace in the building that was rented by the city for the purpose of affording accommodation to the local military unit, his claim being that the grates had been burned out because the ashes had not been kept clear of same, and he contended that the city should replace same.

A letter from the Morrison-Thompson Hardware Co., Ltd. was read certifying to the condition of the grates and enclosing their bill, amounting to $16.20 for replacing same. The matter was laid on the table.

A letter was received from Mr. R. B. Kerr advising the council that he had been requested by Mr. J. H. Trenwith to claim from the city the sum of $38.25 for injury to his motor car on October 3rd last caused by it's running into an unguarded hole dug by the city's employees at the corner of Bernard Avenue and Pendozi Street. He advised that the sum asked for only covered the cost of repairing the car, and if a suit should be necessary all damage arising from the accident would be claimed.

The council, however, refused to acknowledge any liability in the matter.

The mayor reported that Mr. Macnabb, district superintendent of the C. P. R., had met the council in committee and discussed the question of the team track the company proposed to instal near their car slip, and for which they sought to lease a portion of the foreshore belonging to tne city. It had been suggested to Mr. Macnabb that the track be run south towards the power house instead of along the shore to the north. The superintendent had stated that he could see no reason why this suggestion could not be complied with, but before giving a definite answer it would be necessary for him to have a report from the company's engineers.

Ald. Mantle asked the council to confirm the action of the Board of Works in tearing up the plank sidewalk on the west side of Pendozi street between Lake and Park Avenues and constructing a cinder walk in lieu thereof. He stated that he had ordered this work to be commenced before same had been sanctioned by the council for the reason that a large quantity of cinders were available and they could be laid to better advantage at the present time than would be possible in the spring. The action of the Public Works Committee in this connection was approved by the council.

Alderman Duggan reported that it would be necessary to arrange for a further supply of fuel for the power house immediately as the fuel on hand would only run the plant to the middle of January.

During the discussion several members of the council expressed their opinion that it would be very difficult to obtain an adequate supply of fuel and the Light and Water committee was requested to go fully into the matter.

Alderman Lloyd-Jones reported that 17 new cases of Spanish influenza had developed during the last two or three days. The schools and picture theatre had been closed and the medical health officer had recommended that all places of public assembly should also be closed. He considered same to be necessary to protect the public health.

NOTICE

TO PREVENT THE SPREAD OF SPANISH INFLUENZA THE MEDICAL HEALTH OFFICER ORDERS THAT ALL SCHOOLS, THEATRES AND POOL ROOMS BE CLOSED; THAT CHURCH SERVICES AND LODGE MEETINGS BE SUSPENDED; AND THAT NO PUBLIC GATHERINGS OF MORE THAN TEN BE ALLOWED.

D. W. SUTHERLAND,
Mayor.

Influenza Cases Have Increased During Week

Fresh Outbreak of "Flu" Necessitates Reimposing of Ban Against Meetings

"It is never safe to halloo till you're out of the wood." This little bit of ancient wisdom is still good. Last week Kelowna was congratulating itself on having conquered the influenza epidemic and banished it for good. To-day there are nearly twenty cases being treated, and the prohibition against meetings and church services are in full force again. The schools, too, are closed until after the holiday. The emergency hospital in the High school has been fitted up again in readiness, but has not yet been put to actual use.

Died of Pneumonia

John William Major Watson, one of the men engaged on the building of the new dam on the Kelowna Irrigation Co.'s water system, died somewhat suddenly Thursday last of pneumonia, following an influenza cold.

Deceased, who was 31 years of age, came from Whonnock, B.C., about two years ago, seeking a change for the benefit of his health For some time he was with Mr. J. Bowes at the Sunset Ranch, and lately has been at the construction camp connected with the new dam. Though medical aid was summoned as soon as the seriousness of his illness was recognized, his constitution was not equal to the task of grappling with the severe attack of pneumonia which set in.

The funeral was delayed until Tuesday afternoon, pending the arrival of his father from Whonnock. The family consists of, besides the parents, six brothers, three of whom are overseas, and three sisters. Deceased was unmarried.

Minimum Wage for Women Workers

A minimum wage of $12.75 per week for women over 18 years of age in mercantile houses, was set by the Minimum Wage Board meeting last Wednesday at the coast, following an all-day conference with representatives of the employers, employees and general public. Mr. J. D. McNiven, deputy minister of labor, and chairman of the board, announced that an order bringing the minimum wage into effect, would be made without delay. The board was authorized nearly a year ago by the legislature, which was unanimous on the principle of the Minimum Wage Bill, of which Mrs. Ralph Smith, M.L.A., of Vancouver, was the "mother."

Lt. Atkinson returned to Kelowna this week. He is expecting to obtain his release from the army shortly.

Great Britain will demand of Germany £8,000,000,000 for Great Britain and her dominions as reparation for the war, according to the Daily Mail. This is what the war cost Great Britain and her dominions, and British taxpayers will be relieved of £400,000,000 per annum by the German payment. France's bill, it is said, will be larger.

A bad skating tragedy happened at Goose Lake, near Vernon Tuesday night in which two young men and two young women lost their lives by drowning. They had formed a skating party in the evening and had apparently dropped through the ice in a thin place They were not missed until next morning when their bodies were discovered after a search.

Thrift Stamps for Your Small Savings

Start the Youngsters on This New Scheme

War Savings and Thrift stamps are now on sale at all post offices. This plan has been adopted by the federal government in order to encourage Canadians to invest small amounts at an exceptional rate of interest, with the assets of the Dominion as security, to be used to help to finance the country through the critical period of reconstruction which is now at hand.

War savings stamps are issued in the denomination of five dollars each. Each stamp costs the purchaser at the present time four dollars. The government will pay the holder five dollars for each stamp on January 1st, 1924. The rate of interest paid to the holder of the certificate exceeds four and one-half per cent.

For convenience the government gives each purchaser a war savings certificate, which contains spaces for ten war savings stamps, representing fifty dollars, when the spaces for stamps are all filled.

Should the holder desire to obtain cash for his war savings stamps before maturity, their cash surrender value will be paid him at any money order post office, upon ten days' notice.

The thrift stamp is similar to the war savings stamp, but is issued in a denomination of twenty-five cents, for the convenience of those who wish to participate in the advantages offered, but to whom it may not be convenient to pay four dollars for a war savings stamp.

The purchaser of a war thrift stamp is given a "thrift card" which contains spaces for pasting in sixteen thrift stamps, making four dollars in all. When the thrift card is filled in, the owner may take it to a post office, bank or other authorized agency and exchange it for a war savings stamp and certificate blank, by paying a few cents to make up the difference between the four dollars worth of thrift stamps and the price of the war savings stamp, for the month in which the exchange is made.

The thrift stamps do not bear interest, they make it easy for even the children to save in small sums and ultimately to get war savings stamps which do bear interest. No cash can be realized on the thrift stamps until the holder has a sufficient number to obtain a war savings stamp, which may be redeemed as explained above.

The scheme is one that promises not only to obtain in the aggregate large sums of money for the federal treasury, but what is probably even of greater moment, it promises to prove a very strong influence in promoting habits of saving and of thrift among all classes in the communities throughout Canada.

Dr. Nelson Shepherd, who left his dental practice in Kelowna to join the dental corps for overseas, has now volunteered for service with the expedition to Siberia.

Friends in Kamloops have received word from Lt. C. W. Dickson, of Kelowna, that he had been called to Buckingham Palace, where he was decorated with the Military Medal by King George personally. Lt. Dickson went overseas with the 172nd, transferred to the 72nd and was wounded at Vimy Ridge. He naturally feels very proud of his distinction and his many friends in this locality will be much pleased to learn of the same.

—Kamloops Standard

Rutland News

(From our own correspondent).

Earl Hardie has gone to the coast for an extended visit.

While chopping wood last week the Rev. Griffiths was unfortunate enough to cut his hand so severely that surgical aid was necessary.

Mr. and Mrs. Coxworth left on Monday's boat. They will spend a few weeks on the prairie, afterwards going to Victoria to reside until spring.

Mrs. Gordon Caspell and her son from Calgary, Alta., are on a visit to her parents, Mr. and Mrs. Clever.

The Girls' Enterprise Club met Tuesday at the home of Mrs. Clever to discuss plans for their winter work.

At the meeting of the United Farmers, held in the schoolhouse last week, the following resolutions were adopted — Calling attention to the urgent need of better roads, also the building of the C.N.R. from Kamloops to Kelowna; and the advisability of starting the rock crusher during the winter.

The Women's Institute met at the schoolhouse last Wednesday afternoon for the final meeting of the year. Mrs. Campbell Brown, of Oyama, gave an address on "The opportunities and obligations of our new citizenship," which was an inspiration to all the members. Some excellent music was rendered including two violin and pianoforte duets by Miss Morrison and Miss Bruce, and two vocal solos by Miss Dalziel. The directors provided tea. A collection for the Red Cross amounted to $6.75.

Orchard Changes Hands at Westbank

Mr. Scott Blackwood, of Westbank, has just completed the sale of his ten acre orchard to Mr. John Faulkner of the same district. The orchard is a seven-year-old one, mostly planted in apples, and is stated to be in good condition, the returns this year amounting to approximately $2500. The price paid was $7500. Mr. Faulkner is an old-timer in the district, and knows a good buy when he sees it. Mr. and Mrs. Blackwood, owing to a recent bereavement, are seeking a change for a time, but will probab- return in a couple of years.

Earthquake Startles Coast Cities

Distinctly Felt in Many Places Some Damage Done

Residents of the coast cities and Vancouver Island were startled last Friday by an earthquake, which was quite distinctly felt, and in fact did some amount of damage.

The big clock on the Vancouver Block—Vancouver's "Big Ben"—was stopped by the shock, as were other electrically controlled timepieces in the business districts.

There was one tremor, and this was reported by residents in different parts of the city. It lasted for about a minute.

From the Dominion Government Meteorological Bureau it was announced that the shock was very uniform, according to early reports from Seattle, Victoria and other points along the Coast.

The earthquake seemed however to have been more distinctly felt on the west coast of Vancouver Island, where many persons were thrown from their beds. At Estevan Point the beacon was extinguished at the lighthouse, and the gear slightly disarranged.

Slight tremors had been felt in the past, but not with the severity of the quake of Friday, nor over the same extended area.

Late Kaiser Attempts to Commit Suicide

William Hohenzollern, former German Emperor, attempted to commit suicide, following mental depression, according to the Leipzig Tageblatt, quoted in a Copenhagen despatch to the Exchange Telegraph Company. The newspaper says it received its information from a German staff officer, who was wounded in frustrating Wilhelm. The officer said the former Kaiser has been much depressed of late.

Great Britain will use all her influence to make the league of nations a powerful reality, but she can not regard it as a substitute for her own navy in any measurable period of time, Winston Spencer Churchill, the minister of munitions, declares.

At the beginning of the war Great Britain was using submarines which weighed between 300 to 500 tons; now she has underwater ships of 4,000 tons, sheathed in armour and carrying 6-inch guns.

Some alarm has been caused during the past week by the outbreak of a number of fresh cases of influenza which have been sufficiently numerous to warrant the placing in force again of the closing restrictions with regard to schools, church services, and meetings. It is, no doubt, an infernal nuisance to be placed under such a ban, especially so close to Christmas, but we have only to read of the terrible ravages of the disease in some other less favored cities, to become reconciled to almost any precautions to prevent the spread of it here.

So far these restrictions have been received with the utmost cheerfulness and even hearty co-operation. It is reasonable to suppose that if people refrain from gathering in large crowds the spread of the epidemic will soon be checked. Very little good will be achieved unless each individual makes it his business to see that he does not expose himself to unnecessary risks, and also that he takes proper measures in case of suspicious symptons showing themselves. The cold winds we have been having this week are the greatest chill producers of the year, and to stand around in exposed places as many will do, is simply inviting trouble.

When a cold does develope get after it quickly and avoid all unnecessary contact with other people until it is known for certain whether you have influenza or not. Don't let half a dozen other people catch it from you while you are trying to make up your mind whether you have the "flu" or not.

The Red Cross drive—so far as the public appeal is concerned—has been postponed until the third week in the New Year. This was the decision arrived at at a meeting of the provincial campaign committee. It had been realized states Mr. Kearns, the campaign manager, that the Red Cross drive coming so close on the heels of the Victory Loan drive and right in the midst of the Christmas shopping season, was making too heavy demands on the generosity of the mercantile fraternity who were the backbone of the organization to canvass and collect funds.

The Red Cross drive had originally been planned to take place earlier in the fall, but had suffered postponement by reason of the 'flu" epidemic and the Victory Loan drive, and the committee took the view that it would be in the best interests of the Red Cross Society that the drive be postponed till after the New year.

A flea and a fly had the "flu;"
They neither were sure what to do:
Let us fly, said the flea; let us flee,
said the fly.
So they flew through a flaw in a flue.

Orders for Local Scouts

Kelowna Troop
Troop First; Self Last

Edited by Pioneer. Dec. 10, 1918.

Owing to the fresh outbreak of the "flu" there will be no regular parades of the troop until further notice. We hope that the ban will be lifted in time for us to have our annual Christmas bun-feed, at which time we also purpose having the Investiture Ceremony when all recruits who have passed their Tenderfoot tests will make their scout promise and become members of the great Brotherhood.

As there are only ten players in a match and as the Exhibition Building is such a large airy place, we can still go on and play all the basket-ball we can. Some good games were played last Friday and we are anxious now to get Summerland up here whenever they can come. For the purpose of practises the scouts have been divided into three groups. No. 1 group consists of C. Gaddes, Parkinson, Day, Davis, Mantle, Calder J. Groves, L. Gaddes, G. Groves, Buck, and R. Weddell. No. 2 group consists of Hunter, Taylor, McKenzie, C. Cunningham, Whitehead, Sinkinson, Rowcliffe, Hewetson, Small, Duncan, Neish and Ball. No. 3 group consists of Wilson, Clarence, Walker, E. Groves, Fowler, L. Cunningham, McCarthy, Aitken, Cooper, Patmore, Dore and Morden. The first named of each group is to be the convener for his group, and the practises will be held as follows; No. 1's on Fridays at 8.30; No. 2's on Fridays at 7.30, and No. 3's on Mondays at 7.30. Other practises and matches will be specially arranged from time to time.

• • •

A business session of the Court of Honour for leaders was held on Wednesday last after which the leaders were re-examined in the second-class ambulance and signa ling tests. T. L. Parkinson secured the requisite 85 per cent. in both and P. L. Calder in the ambulance.

Recruits Morden, Dore and Patmore were posted to the Otter, Eagle and Wolf patrols respectively.

• • •

To the first scout or cub who can correctly answer this riddle we shall be pleased to award a 1918 photograph of the troop: "What is that which is bought by the yard and worn by the foot?" Competition closes on the 21st inst, and the answer must be original.

• • •

TWO KINDS

Bobby's mother had let him stay home from from school in the afternoon because he complained of having a fever.

After he had looked as sick as he could all afternoon, he asked her after supper if he could go out and play basket-ball.

"No, Bobby," she replied, "not if you have a fever."

"But, ma," exclaimed Bobby, "its the basket-ball fever I've got."

(From the Scout, in part)

The Wolff Agency publishes the abdication of Crown Prince Friederich Wilhelm, dated at Wierengen, December 1st. It says: "I formally and definitely renounce the imperial crown, which might come to me through abdication of the kaiser and king, or other legitimate rights."

Lord Robert Cecil, former assistant secretary of state for foreign affairs, has been asked by the government to take charge of the British section of the peace concongress which is to deal with the question of the league of nations. Lord Robert has made announcement that he cordially accepts the invitation.

Between 300,000 and 350,000 deaths from influenza and pneumonia have occurred among the civilian population of the United States since September 15, according to estimates of the public health service. These calculations are based on reports from cities and states keeping accurate record and public health officials believe they are conservative. The epidemic persists, but deaths are much less numerous.

Nomination Day in England Reveals Great Surprises

Wednesday last was nomination day for candidates for parliament in the coming British general election and among the surprises was the appearance of an opponent for Premier Lloyd George, at Carnarvon. He is Austin Harrison, editor of the English Review, and son of Frederick Harrison, the famous positivist philosopher. Mr. Harrison is standing on the plank of "A League of Nations" and the abolition of conscription.

Another striking feature of the nomination was the large number of unopposed returns. Out of 707 members to be elected to the new parliament, 104 already have been returned unopposed — forty-one Coalition Unionists, twenty-eight Coalition Liberals, eleven Laborites twenty-two Sinn Feiners, one Nationalist and one Independent.

Among those elected were A. J. Balfour, William Brace, parliamentary under-secretary to the home department; John Robert Clynes, former food controller; J. Austen Chamberlin; James William Lowther, Speaker of the House of Commons, and William Crooks, Laborite. Sinn Feiners elected include Prof. Edward De Valera for East Clare; Count Plunkett for North Roscommon, and William Cosgrave for Kilkenny.

The success of the Sinn Feiners in securing twenty-two returns out of a total of 105 Irish seats was another of the day's surprises. They had only six seats in the last parliament.

Among the candidates nominated were four women. They include Miss Christabel Pankhurst, daughter of Mrs. Emmaline Pankhurst, the suffrage leader; Mrs. Frederick Pethick Lawrence, joint editor of Votes for Women; Miss Mary McArthur, secretary of the British Women's Trades' Union, and Countess Georgina Markievicz, of Dublin, the Sinn Fein Leader

Bible is Widely-Read Book

Since August, 1914, the British and Foreign Bible Society on its war service alone, has sent out an average of more than 7000 volumes every working day, for the use of the fighting men, the sick and the wounded, prisoners of war, exiles and refugees, and the members of various labor contingents. This means more than four copies of the Scriptures have been distributed every minute, day and night, since the war began. The books consist of New Testaments, Gospels or Psalms, and have gone out in seventy-five different languages.

Fish Meal as a Live Stock Food

In these days anything that will increase the available quantities of cattle food without decreasing the quality is of immense value. Experiments have proven that this is possible with fish meal, a food stuff that as yet is little known in this country but which is used extensively in Europe. Fish meal should not be confounded with "fish scrap," "guano," or "pomace" or other forms of fish by-products used as fertilizers. The fish meal used is more carefully treated and includes, or should include, only fresh sound fish, or fish offal. The value of fish meal as a cattle food is explicitly set forth in a 4-paged pamphlet No. 17, issued by the Department of Agriculture, Ottawa, and which can be had free on application to the Publications Branch. Results of experiments made at the Central Experimental Farm show that fish meal, where available, is a suitable concentrate for cattle, sheep and for hogs; that fish meal contains 55 per cent. to 60 per cent. of protein, and over 15 per cent. phosphate of lime that if of good quality and properly fed with other meals and with roughages, it is palatable, wholesome, and a good feed for young growing stock and also for milk production; and that if given a fair trial and used in proper proportions it should become one of the most popular and profitable protein supplements for swine feeding.

Hindenburg Has Land Settlement Scheme

The Berlin Tages Zeitung says that Field Marshal Hindenburg addressed the following proclamation to his troops:

"Preliminary work for a land settlement on a big scale is in progress, and will be pushed forward as rapidly as the shortage of coal and building materials will permit. The returning warriors will first receive the thanks of the country for more than four years' work in a thousand battles in which they were unbeaten.

Hundreds of thousands of buildings will be erected on cheaply acquired land with public money loaned at low rates to farmers gardeners and country artisans. Houses will be built for workers, emyloyees and officials belonging tosedentary occupations and transferred to them on payment of a moderate portion of the actual costs.

Only have patience for a little while. Help the wounded fatherland through its hardest time. Save it again by German manly discipline and order and thus make your own future and your own happiness."

Price Fixed on Apples For Export

An order issued by the Fruit Trade Commissioner in Liverpool fiixed the maximum price on apples in Nova Scotia and Ontario exported to England. Primary distributors in Nova Scotia are to be governed by a barrel price of fifty-eight shillings and four pence, while in Ontario the barrel figure is sixty-seven shillings and eight pence, and in boxes nineteen shillings and nine pence.

Wholesalers' profits are fixed at six shillings per barrel and two shillings per box. The maximum retail price is nine pence per pound. It is further stated that no import license will be necessary to enable shippers to deal with the English market.

The record for seven days of the great cow Lakeview Dutchland Artis, Canadian champion is 34.485 lb. fat, equivalent to 43.05 lb. butter 80 per cent. fat. Her milk was 654.5 lb. Her best days milk was 100.4 lb. yielding 5.526 lb. fat.

A vocationist just returned relates having overheard this bit of bucolic dickering.

"Hiram, when are you going to pay me them eight dollars for pasturing your heifer. I've had her now for about ten weeks."

"Why, Sam, the critter isn't worth more than ten dollars."

"Well, suppose I keep her for what you owe me?"

"Not by a jugful! Tell you what I'll do though—keep her two weeks more and you can have her."

Do your Xmas shopping as early as possible.

KELOWNA CREAMERY, LTD.

Printed Butter Wrappers

According to the new Dominion Government regulations all farmers who sell butter either to the stores or privately, are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words "DAIRY BUTTER."

The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces, and in default of same a fine of from $10 to $30 for each offence is imposed. Whey butter must be so labelled even when mixed with dairy butter and dairy butter retains its label though it be mixed with the creamery product.

You can be supplied with neatly-printed wrappers for your butter at the Kelowna Record Office, for the following prices:

100	PAPER & PRINTING INCLUDED	$1.50
200	" "	2.00
500	" "	3.15
1000	" "	4.50

These prices include Both the Paper, which is the best obtainable for the purpose, and the Printing of same. Please note this.

Owing to the extraordinary rise in the price of butter parchment (which has gone up over 100 per cent) we have been reluctantly obliged to raise our prices slightly. Nearly all this paper was previously manufactured in Belgium, and needless to say this supply has been entirely cut off. Unfortunately there is no guarantee against further increases, indeed, they are more than likely.

THE PRESS PUBLICITY

For the Home.

Every week in the year something is needed for the home, something to eat or to drink, some new furniture or new clothes. The list is endless and the worry of the housewife is almost as endless, unless she uses intelligence and system in her purchases.

The advertising columns are intended for such harassed housekeepers. They contain real news that will help to ease her burden and settle her uncertainties. Certainly the advertisers expect to make money. Are they not entitled to it if they make life more comfortable for thousands?

Read the advertisements, with discrimination and intelligence. They will solve many a vexed question.

IN THE SCIENTIFIC WORLD

THE SOUND OF OUR VOICE

Experiments Support Contention That Everyone Hears His Own Voice Differently From Others.

That a man does not hear his own voice as all the rest of the world hears it is shown by an interesting experiment described by Dr. L. Laloy in La Nature (Paris). Says this writer:

"If a person records on a phonograph a few sentences pronounced by himself, together with others by his friends, and causes the machine to reproduce these at the end of a brief period, it generally happens that he easily recognizes his friends' voices, but not his own. On the other hand, the friends recognize his voice perfectly. This singular fact proves that every one hears his own voice differently from others.

"As is remarked by Professor Exner, the difference must lie in the quality of tone. It must be remembered that one hears his own voice not only through the air, as do his auditors, but across the solid parts situated between the organs of speech and those of hearing. The sound thus produced has a different timbre from that conducted to the ear by air alone.

"We may show this as follows: Take the end of a wooden rod between the teeth and pronounce a vowel continuously. Let the other end be alternately taken between the teeth and released by another person, who at the same time stops his ears. The latter will find that every time he seizes the rod in his teeth the sound becomes stronger than when it reaches his ear through air alone, and has a different quality. The experiment may be varied by applying a wooden rod to the larynx of the person observed and touching it, from time to time, to the observer's own larynx. As in the preceding case, it will be found that its passage through a solid body augments the itnensity of the sound and modifies its quality."

SOUND IN THE UNIVERSE.

We live and move at the bottom of an ocean of air, the earth's atmosphere. One consequence of this is that every mechanical disturbance starts waves of compression and rarefaction, which radiate out from the source, and, striking the drum of our ear, may (if of the right strength and quality) cause in us the sensation of "sound." Among such sensations some affect us merely as "noises"; in others we recognize a more or less well-defined "musical pitch," and "tone quality." Physically the "noise" differs from the "musical note" in that the former is an irregular disturbance, while the latter is periodic and of definite frequency. Not that there is any hard and fast line of demarkation; a rapid succession of impulses, which separately would be mere noises, may impress the ear with a definite sense of pitch. Thus the teeth of a saw, cutting in rapid sequence through a wooden board, produce a sound of definite pitch, though lacking perhaps in musical quality. Or, again, a sharp noise of brief duration, proceeding from a point in the neighbourhood of a series of equidistant obstacles, such as a line of fence-rails, or a flight of stone steps, produces upon the observer a sensation in which a more or less well-defined pitch can be recognized. The explanation of this phenomena is that the sound is reflected back from each fence-rail in turn, and since it takes time to travel, each echo reaches the observer a trifle later than that from the neighbouring rail.

To Make Light in a Bottle.

A safe light for going about at night or where there are inflammable materials, as into a store-room, may be made as follows: Take a long glass bottle and put into it a piece of phosphorus the size of a pea; upon this pour pure olive oil heated to the boiling point until this bottle is about one-third full and cork tightly. When light is needed take the cork out and allow the air to enter, subsequently recorking. The empty space in the bottle will then become luminous and give quite an effective light. If it becomes dim it can easily be revived by uncorking the bottle for a few seconds. One bottle will last a whole winter. Small bottles may also be prepared in this way and carried in the pocket.

Small but Strong.

The Katydid, which is closely allied to the grasshopper family, is something of a hauler for its avoirdupois. Recently, an average-looking specimen was harnessed to a kind of sledge made by folding a piece of ordinary notepaper, and then loaded the sledge with various articles. The insect proved able to draw, in addition to the original paper, twelve paper sheets each three by four and a half inches, a large screw, two steel pens, a stone weighing two ounces, and three and a half lead pencils. When the weight became too heavy to draw otherwise the katydid got its fore feet over the edge of the table for a better hold, and on addition of another weight it increased the adhering power of its feet by moistening them in its mouth.

How Deserts are Formed

There is a popular idea that deserts like the Sahara are the bottoms of ancient seas which have been lifted above their original elevation by geological forces. This notion is an erroneous one. It is absolutely certain, high authorities contend, that the sands of all the great deserts have been formed on the spot by the disintegration of the solid rocks on which they rest. Desert sands correspond in all respects, so far as their mode of origin is concerned, to the dust and sand that accumulates on our high roads in summer. All deserts are situated where the winds from the ocean, before reaching them, are exhausted of their moisture by passing over mountains or across extensive tracts of land.

Fruit Union Building Collapses at Summerland

The upper floor of the Fruit Union building at Summerland collapsed early last week. The lower floor was filled up with unpacked boxes of apples, and a large quantity had been stored on the upper floor. It was, without doubt, the load which had been put on the upper floor that caused the collapse, but that the building was not capable of carrying even a greater load was not suspected.

The cause of the collapse was the puncturing of the lower floor by a number of the 12 x 12 square pillars which support the floor above and which were not set squarely over the posts underneath. The middle of the upper floor dropped several feet, and but for the fact that the lower floor was filled to the height of perhaps eight feet with apples, the whole load on the floor above would have been precipitated on to the main floor.

The building is owned by the C.P.R., by whom it is leased to the Fruit Union. It is thought that there will not be any great damage to the fruit beyond a few boxes on the main floor, crushed by the ceiling above. At the time of the accident there were about 25,000 boxes of apples in the building.

CUT GLASS

Glass decorating, one of the most ancient arts, has kept pace with modern progress. This is exemplified in the "Clover Leaf" brand, made by Canadian artists.

Probably no other commercial art shows the artistic skill of the workman to better advantage than in glass cutting. The anglis, mitris and polish must be perfect so that the design looks like nothing so much as brilliant sparkling streaks of silver. Without this skill, it may be cut glass, truly, but more worthless than pressed glass.

Our cut glass is beyond criticism. No table or buffet is complete without several pieces of cut glass. This gift season choose cut glass for some one of your friends.

TOWN AND COUNTRY NOTES

Shop early and avoid the rush.

Mr. W. Morris, of Revelstoke, auditor for the district under the Workmen's Compensation Board, was in town this week.

Mr. G. A. McWilliams of Vernon was a visitor in Kelowna Tuesday.

Mr. and Mrs. Pease came down this week from their ranch at Killiney.

Mr. E. A. Berry of Vernon was a visitor in town Tuesday.

Mr. W. B. Pearson, lately of the local freight office, and now of Vernon, was a visitor in town Friday.

Mr. R. M. Claughton of Penticton was an arrival on Monday's boat from the south.

Mr. and Mrs. Levey and child of Vancouver were visitors in Kelowna over the weekend.

Mr. A. Bracht of Portland, Ore., was a visitor in the city Saturday.

Mr. Mills of Davy & Mill's meat market, is a visitor this week at the coast.

Ploughing is still going on actively in the district in spite of the fact that we are only two weeks from Christmas day.

Mrs. McGibbon and family returned last week from the prairie, where she has been for the past few months.

Ald. W. C. Duggan left yesterday afternoon on a visit to Vancouver.

Mr. and Mrs. Coxworth were passengers yesterday for the coast.

The closing of the schools has enabled the school ssaff to get away earlier than usual for their Christmas vacation, and there was a general exodus yesterday afternoon. Miss McNaughton went to Slocan City, Miss Bullock to Brandon, Miss Wood to Vancouver, Miss Davis to Dewdney, and Miss Page to Mission City.

Knowles' 13th annual watch guessing contest will be held on Saturday, December 14th. No charge.

MAY—FORD

At All Saints Parish Church, Vernon, B. C., on December 3rd, Katherine, Dorothy, eldest daughter of the late Rev. E. W. Ford, Carlisle, England, and Mrs. Ford, Kelowna, B.C., to Arthur May, youngest son of the late Arthur May, Liskeard, Cornwall, England. The Rev. Edward P. Laycock officiated.

Mr. R. H. Wayne was a passenger to Vancouver Friday last.

Rae Ritchie went down to the coast last Friday.

Mr. E. L. Cross paid a visit last week-end to Grand Forks.

Mr. and Mrs. J. N. Cushing left yesterday for Los Angeles where they will spend the winter.

Dr. and Mrs. Gaddes and the two younger children left yesterday for San Diego, Cal.

J. M. Collin, representing the Canadian Freight Association, was in town this week, auditing the C.P.R. records.

Lieut. H. J. Hewetson came in last Thursday on his arrival from overseas, but had to leave again Friday morning for Vancouver.

There will be no services in the English church on Sunday, in accordance with the restrictions being observed to combat the "flu."

Mr. P. A. Scott, left this morning for Toronto and his old home in Bruce country for a long visit. He hopes to be back some time next year.

The Sale of Work advertised by the ladies of the W. A. and Chancel Guild to take place on Saturday, has been postponed owing to the epidemic of influenza.

The rule against the running of cheap excursions introduced as a war measure, still holds good, and in consequence there will be no Christmas excursion this year.

A number of C.P.R. officials, including C. F. Armistead, of Vancouver, travelling freight agent, Fred Stirling, general freight agent, Nelson, and J. S. Carter, district passenger agent, Nelson, were in town this week on business.

A Court of Revision of the Municipal voters' list sat Tuesday morning for two hours. They were undisturbed, however, by any visitors, the citizens apparently being fully satisfied that all who should vote were on the list, and all who should not had been left off.

ANNOUNCEMENTS

Don't fail to guess on Knowles' gold watch Saturday. December 14th. Free to all.

The ladies of the I.O.D.E. have been obliged to postpone their dance, but wish to notify the returned soldiers who received tickets to retain them, as they hope to hold the affair as saon as the ban is removed again.

Of Value to All Business Men

At Last a Real Directory of British Columbia

Mr. Frank H Horn, secretary of the new Wrigley's Directory, is in town this week in connection with the interests of that publication.

The work, which has occupied a staff of over 20 persons for the last ten months, is a remarkable compendium of classified information in regard to the province.

The first 60 out of the 1,000 pages in the book give a list of the *officials of the various government* departments both at Victoria and throughout the province, with an historical review and short articles by the various provincial ministers outlining the jurisdiction of their departments, and indicating the great resources of the province.

In the gazetteer portion of the work a total of 2,010 cities, towns, villages and settlements are listed, in addition to 4,193 geographical points, enabling the reader to at once obtain the location and description of any town, village, lake or mountain.

A classified business directory, with all the business men of the province classified under 1,035 different classifications, is given, forming a valuable business mailing list of the province At the end of the directory is a novel section comprising a directory of trade names, brands, and trademarks, so that the merchant or householder who knows only the *trade name can immediately find* on reference the manufacturer or agent in British Columbia who makes or handles the required line of goods.

The book is a valuable possession in any business office.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and a portion of the Province of British Columbia may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-agent of the district in which the rights applied for are situated.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

(N. B.—Unauthorized publication of this advertisement will not be paid for.)

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that I, G. C. Browse as agent, whose address is Wilson Landing, B.C., will apply for a licence to take and use 25 acre feet of water out of spring rising in Wilsons Gulch, which flows Easterly and drains into Okanagan Lake at Wilson Landing. The water will be diverted from the spring at the spring about 100 yards West of the West boundary of District Lot 3745, and will be used for irrigation purpose upon the land described as District Lot 2186 Osoyoos Division, Yale District. This notice was posted on the ground on the 28th day of November, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the *office of the Water Recorder at Vernon.* Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is Dec. 5th, 1918.

GOODACRE & BROWSE,
Applicant.
By G. C. BROWSE,
3-7 Agent.

The Corporation of the City of Kelowna

VOTERS' LIST FOR 1919

Notice is hereby given that a Court of Revision will be held on Tuesday, December 10th, 1918, at 10 o'clock in the forenoon, at the Council Chamber, Kelowna, B.C., for the purpose of hearing and determining any application to strike out the name of any person which has been improperly placed upon the Municipal Voter's List for the year 1919, or to place on such list the name of any person improperly omitted from same.

G. H. DUNN,
Kelowna, B.C., City Clerk.
November 20th, 1918. 1-3

NOTICE TO CLAIMANTS AND CREDITORS

IN THE MATTER OF THE ESTATE OF KATHERIN LUVIA McCULLOUGH, DECEASED.

NOTICE is hereby given that all persons having claims upon the estate of Katherin Luvia McCullough, late of Kelowna, in the Province of British Columbia, who died on the 19th day of August, 1915, are required to file with Messrs. Conybeare, Church, McArthur & Davidson, Barristers, Conybeare Block, Lethbridge, Alberta, by the 10th day of January, A.D. 1919, a full statement, duly verified, of their claims, and of any securities held by them, and that after that date the Administrator will distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to their knowledge.

Dated at Lethbridge, Alberta, this 23rd day of November, A.D. 1918.

CONYBEARE, CHURCH,
McARTHUR & DAVIDSON,
Solicitors for the Administrator.
Lethbridge, Alberta. 3
