Kelowna ORCHARD CITY Record

VOL. V. NO. 29. KELOWNA, BRITISH COLUMBIA, THURSDAY, JUNE 12, 1913. $1.50 Per Annum.

LEGISLATIVE ASSEMBLY JUN 16 1913 VICTORIA, B. C.

Meeting of City Council

Enquire into cost of Fire Alarm System

The city council met as usual in the council chamber last Friday morning.

Dr. Gaddes appeared before the council with a sub-division plan of Lots 34 35, 36, and 37, Block 12, Map 202. This was passed.

A plan from Mr. J. Harvey, jr., of Lot 15, Block 54, was also passed.

Mr. Armstrong next appeared witn a request that the road which is a continuation of Abbott street, south of Cadder avenue might have a few loads of gravel deposited on it as he was building a house and cauld not get his building materials hauled near enough by reason of the marshy nature of the road in question. Referred to the Board of Works.

Mr. P. B. Willits requested the council to have the tree immediately in front of his new store removed. The council promised to have the matter seen to and later the Parks committee was instructed to cut down the few trees in front of the stores.

Ald. Thompson reported that some hose was required for use in the park. He also pointed out that the young trees planted on the street required watering.

Ald. Copeland said he had been asked to put a price on the old street sprinkler. The council however decided to retain the sprinkler for watering trees along the streets.

The Mayor read a report of the chief of police for the month and commented on the satisfactory decrease in the number of cases, due probably to the increase in fines paid.

The report of the finance committee recommending payment of the following accounts was read and adopted:

Dominion Express Co., express on castings	$ 19.20
Canadian Pacific Railway Co. Freight on Transformers	9.66
A. E. Boyer, collector of custtoms, duty on castings	17.89
G. H. Dunn, petty cash for May as per vouchers	16.30
Power House pay roll for the month of May	635.00
C. H. Dunn, City Clerk's May salary	156.00
F. V. Royle, Clerk's May salary	90.00
W. H. Rennie, Clerk's May salary	70.00
P. T. Dunn, assessor and collector's May salary	100.00
Robert Sutherland, Chief Constable's May salary	125.00
G. Mackay, night constable's May salary	85.00
J. A. Bigger, building inspector's May salary	15.00
A. R. Davy, scavenger's May salary	166.66
Dr. H.L.A. Keller, office rent for May (2 rooms)	35.00
F. Swainson, work on streets for May	81.00
G. McPhee, work on streets for May	19.50
Duncan McPhee, work on streets for May	58.00
G. F. Teal, work on waterworks	100.00
A. Maidment, work on waterworks	12.33
A. Vole, work on waterworks	3.00
C. Lancaster, work on waterworks	42.16
A. Meohim, work on waterworks	3.66
J. Brodie work on waterworks	60.00
P. Coffey, work on waterworks	18.33
E. Bonjean, work on waterworks	96.50

The mayor reported that the agent of the Gamewell Fire Alarm Company had waited on the city and hau explained the working of his company's system and the appliances in connection with it.

The system seemed to be very satisfactory. The price quoted was $5000 for installing 20 boxes, which a tour of inspection hah shown to be the minimum required in view of the widely spread nature of the city area, extending, as it did from Knox Mountain to the end of Pendozi street. In reference to this matter, Alderman Sutherland thought it would be well if money were raised for a fire-alarm system, to pass a by-law for the raising of $10,000 to include the purchase of combined chemical and motor hose wagon, because many residences which were built of an inflammable material were at such a distance from the fire station that it would be impossible to reach them in time to be of any use.

Ald. Cos- - -orted this suggestion. He stated also that the old fire engine had been removed to the garage and it was estimated that it rould be put in repair for about $15.

Ald. Calder reported that about 30 applications had been rereived for the position o f engineer at the power house. After carefully c nsidering them the Committee had selected Mr. W. Ballantyne af Victoria as second engineer, and Mr. F.B. Hirst, of Vancouver as third engineer.

A resolution was passed by the council ratifying the appointments, the ormer at a salary of $125.00 per month and the latter at $110.00 per month.

The salary of Mr. W.H. Rennie was increased from $70 to $80 per month, while employed as assistant in the city office.

As a result of the city engineer's inspection it was decided to have the pole at the corner of Bernard avenue and the Government road out of the way of traffic.

The question was then broached about including Woodlawn in the city limits. It was contended that there were many nice houses being erected there whose owners worked in the city. The mayor said the residents ought to apply to be included in the city limits and they could then receive the electric and water privileges in due course.

It was stated in discussion that should they not wish to take this step the only condition upon which the light and water systems would be extended was that the total cost of the extension be paid by the users. The light and water would be measured by one meter at the city limits and the account for the total consumption would be sent to one person to whom the council could look for payment. The council should also reserve the right to discontinue the service at any time.

By-law 134, levying rates for street watering was given a first reading.

By-laws 135 and 136 to fix the charges for electric current and water were also introduced.

In reference to the latter by-laws Ald. Sutherland suggested that the present rates for electric current and water, as fixed by resolution of the council be inserted in the by-laws with the possible exception of the meter and transformer rental. He suggested the council consider the advisability of abolishing the meter and transformer rent and substituting a fixed charge per horse power of the motor, quoting Vernon as an instance where a charge was $1.00 per h.p. He further pointed out that under the present arrangement a power consumer could give the city considerable inconvenience and expense by installing a motor with greater capacity than that actually required for his work.

Three Killed and Six Injured

A dreadful accident occurred at the Railway works near Naramata yesterday afternoon in which three Italians were killed and six others badly injured. The cause of the disaster was the premature explosion of four boxes of dynamite. The three victims were blown literally to pieces, while the injured ones are lying in hospital in a more or less critical condition.

BIRTHS.

FISHER—On Saturday, June 7th, to the wife of J. B. Fisher, a daughter.

DUNDAS—On Friday, June 6th, to the wife of C. P. Dundas, a son.

What! lawn social? Yes. When? Next Tuesday evening, the 17th, weather permitting. Where? At R. F. Morrison's, Harvey avenue. Lots of strawberries, ice cream and cake, and plenty of good music. Good! When we are passing in the auto, we shall stop and refresh ourselves.

A moving picture theatre is being installed in Buckingham Palace for the benefit of the younger members of the Royal family and their friends. The King and Queen regard cinematograph entertainments as of educational value.

Stock in New Growers' Exchange Readily Taken

Meeting Appoints Board of Directors

Kelowna has set the pace to the whole of the Okanagan in successfully launching the local Growers' Exchange which is to deal with the recently established central selling agency for the valley.

The work of organizing the new concern, which is to be known as the Kelowna Growers' Exchange, has been difficult and tedious, and has involved considerab,e sacrifice of time and energy on the part of a few of the leading movers in the scheme, but the efforts of these gentlemen have been crowned with a very gratifying measure of success, so much so that at a meeting of the shareholders yesterday it was stated that sufficient stock in the undertaking had already been sold to warrant the company applying to the provincial government for the 80 per cent. loan which they were prepared to advance provided the requisite stock was subscribed. Over 500 shares had been sold, and it was expected that another hundred would be added this number before Monday.

The directors appointed to control the affairs ol the new local company for the present year were Messrs. J.E. Reekie, G. Allen, A. W. Bowser, J. W. Woolsey, Dr. W. W. Jones, C.S. Smith, and G. K. Salvage.

A committee was also appointed to confer with the Farmers' Exchange in the matter of taking over that company's buildings and stock.

Kelowna to be Headquarters Exhibition Fruit Bottling

The Department of Agriculture tends this year making Kelowna its centre for the bottling of fruits for exhibition purposes.

Publicity Commissioner Beaver Jones has been notified by Deputy Minister Scott that he believes that Kelowna, being most centrally located in the Okanagan, is the best situation for such an establishment, and Mr. G. I. Thornton, the government bottling expert is shortly leaving to take up his quarters in Kelowna.

As these exhibits are sent to all parts of the world, and afford one of the best advertisements possible for the Okanagan, the publicity commissioner bespeaks forM r. Thornton the hearty support of all fruit growers. It is proposed that the specimens shall consist of cherries, peaches, apricots, plums ,apples, and pears.

Good central rooms are required,one about 12 by 15, and another slightly smaller which could be easily darkened. The publicity commissioner in the meantime would be pleased to look at suitable premises.

Freddy Welsh May Box Here

Chief Sutherland has just received a letter from J. Pollock, manager for Freddy Welsh, the famous champion lightweight boxer of Great Britain, expressing his desire to arrange for a match in Kelowna. Such a match, if a suitable opponent could be found, would no doubt prove a great event, as Welsh is way up in the boxing world. He is shortly to fight Bailey at the coast, and the winner of that event is to meet Ritchie for the championship of the world. Some effort is to be made to get Patton from the coast to meet Welsh here.

Band Concert in the Park

Following is the programme of the band concert to be given in the park to-morrow night:—

1. March.....Kelowna.....Bornholdt
2. Medlet Overt.....Railto.....Ascher
   Synopsis: Cheer Up Mary, Where the Jessamine is Blooming, Everyone is in Slumberland, Where the Golden Rod is Waving, Molly Dear, When You are Old and Grey, Gee but this is a Lonesome Town, On the Pier at Dreamland, If the Man in the Moon Were a Coon. Finale: All Set, Let'er Go.
3. Romance...Dear One Far Away...Casey
4. Cornet Duet Solo...Jennie Polka...Bever
   N. Bornholdl, W. Pettigrew
5. March.....Uucle Reuben.....Brooks
6. Waltz.....Beautiful Days.....Fulton
7. .....Spring Song.....Mendelssohn
8. March.....Tenth Regiment.....Hall

O! Caanada
God Save the King

New English Church to be Opened Next Sunday

Dedication Services by Bishop A. U. de Pencier

The new church of St. Michael and All Angels on Richter Street will be opened on Sunday next and will be dedicated by the bishop of the diocese, the Rt. Rev. A. U. de Pencier, D.D. The bishop, accompanied by Mrs. de Pencier, will arrive from Penticton on Saturday morning. The morning and afternoon will be spent in motoring through Glenmore, Rutland, K.L.O. orchards and the S.K.L. Co.'s lands. The ladies have arranged a garden party in honor of the Bishop and Mrs. de Pencier, to be held in Mr. DuMoulin's grounds, kindly lent for the occasion. The reception will be from 4 to 6 o'clock.

The services on Sunday will be: at 8 o'clock a celebration of Holy Communion; after Matins at 11 o'clock the bishop will dedicate the church and be celebrant at the Holy Euchari t following; at 7.30 short Evensong followed by confirmation service at which sixteen candidates will be presented for the holy rite.

The bishop and Mrs. de Pencier will leave by Monday morning's boat for points on the Kootenay lakes.

Last Sunday was the last occasion of holding regular public service in the old church of S Michael and All Angels; the rector therefore took advantage of the opportunity to give a brief *resume* of the work carried on during the past eighteen or nineteen years. He recalled in his sermon that in December of 1894 a meeting had been held in a private house to discuss the possibility of erecting a church. The church was opened on October 5th, 1895, and within three months the debt was paid off.

Since those days when there only eighty adherents of the church in all, many changes have been made and many progressive steps taken, the most important of these being a large increase of communicants. There are over 500 parishioners besides 120 or more at Okanagan Mission.

Next sunday will see the opening of the new church by Bishop de Pencier and the great possibilities of a phase of life would lie before the parish as a whole. They were about to occupy, what he believed would eventually be the finest church in the Diocese of Kootenay excepting the coast cities and it was hoped that the debt necessarily incurred for its construction would be paid off in a comparatively short time.

A larger field of work lay ahead and it was the duty of one and all to do his or her share.

The old church was crowded at both services at which appropriate hymns were sung, the concluding one in the evening being, "Lead, Kindly Light."

A wedding involving much local interest took place yesterday at the residence of the Rev. D. J. Welsh, Mr. Alexander Purves, of Kelowna was married to Miss Elizabeth Mary Thrussell of Berkshire, England. After the ceremony the happy pair were driven to Okanagan Centre by Mr. Chas. Gowen, who acted as best man, from which point they took the boat on their honeymoon trip.

The war canoe team have started practising and were out on Monday for the first time. The club will meet on Mondays, Wednesdays and Fridays.

A meeting of the Kelowna Poultry Association was held on June 5th, in the Sons of England room. A good number of members were present. The fixing of the date for the winter show was left to the president and a committee. An interesting demonstration in caponizing was given by Mr. Middleton. On Saturday nfternoon a lecture on Poultry was delivered by Mr. H. D. Reid who laid special emphasis on the necessity of keeping houses clean this time of year and the need of feeding carefully and culling out weak birds.

Local Brick-Making Industry Progressing

Since the days when the Children of Israel made bricks for the Egyptians—under somewhat unfortunate labor conditions, if we remember rightly—and probably long before that, bricks have been regarded as the most useful and adaptable of all building materials. Out here in the West wood may hold its own for a time in the hurry of a city's first period of growth and development, but once that city begins to put on an air of permanency and solidity, brick is the material which begins to dominate in its business and residential buildings.

The increasing use of brick for residences has been particularly noticeable in Kelowna during the past year, and many handsome dwellings of this kind have been erected or are in process of erection.

Kelowna is fortunate in possessing a brickyard of her own, which, under the management of the present proprietors Messrs. Clement-Riggs, Ltd., is gradually being brought to a high state of efficiency, both as to the quantity and quality of its output. Between three and four thousand dollars have been spent this year in new plant and equipment, and this is only part of a programme of reorganization which is to be carried out. Messrs. Clement-Riggs anticipate a big demand for brick in the near future, and it is their intention to be in a position to turn out a first-rate article in quantities which will satisfy any demand.

A "Record" representative paid a visit to the Kelowna brickyard the other day in company with Mr. C. Clement, and was agreeably surprised to notice the many signs of improvement which had been made, and the businesslike activity of the staff at work.

A considerable force was busy digging out the clay from the hill-side, passing it through the grinding, mixing and moulding machines, and conveying the soft bricks to the drying sheds.

"We have material enough in that hill," said Mr. Clement, "to last a hundred years, at double the present output."

Not only are there veins of brick-making clay of various grades, some of the very finest quality, but moulding sand the best kind is to be had from the same pit. This sand is taken to a big drying oven where all the moisture is dried out of it before using.

As the clay is dug from the hill it is taken by trucks on a miniature tramway to an elevated platform, through which it drops to the grinding and mixing machine. In the process of mixing water is sprayed upon it until it assumes the proper consistency.

The class of brick being made at the moment was what is known as the stock sand-mould brick. For these, wooden moulds are provided, each holding six bricks. The moulds are first passed through the sanding machine, which gives them a covering of fine sand to prevent the bricks from sticking. The sanded moulds are then placed successively under the great moulding press, which forces the plastic material under heavy pressure into the correct shape. A revolving turntable with men stationed to perform the various operations of emptying the moulds and replacing the boards on which the bricks are trucked to the drying sheds, makes the process continuous, proceeding without interruption at the rate of 30 bricks per minute, or an output of fifteen or sixteen thousand per day from the one machine. Another machine of a different type makes "wire-cut" bricks and all kinds of draining tiles. Various sizes of hollow bricks are also manufactured for use in interior walls.

The drying racks, roofed in from the weather, are all new, having been put up this spring at a cost of some $2800.

Three kilns are in operation at the present time, and the process of burning or firing is the most important and difficult of the whole manufacture. The greatest care has to be taken in the piling of the bricks and tiles within the kiln, so that the heat is evenly distributed. A single kiln will hold about 250,000 bricks.

Last year the output was about one and a half million, but this will be increased this year by about half a million.

After the season's work is ended in the fall, the company intend taking down the old buildings, and replacing them with more convenient and up-to-date brick structures. Negotiations are also being made with a view to installing machinery for the manufacture of pressed brick for facing.

The future of this important local industry seems very promising, and given fair shipping rates by the C.P.R. there is no reason why a large business should not be d ne w o h points in the valley.

Rutland News

(From our own correspondent)

The Presbyterian service on Sunday morning will be condvcted by Mr. A. Evans, of Kelowna.

A strawberry social is to be held on Tuesday, June 24th, at Mrs. Bob Sproul's home. A good programme has been arranged. No admission is to he charged, but refreshments will be served at reasonable prices.

The largest deal in real estate this spring has been made in Rutland. The orchard owned by H. E. J. Amyot, locally known as "Sam Sproul's Orchard," has been purchased by Mr. J. R. Beale, of London, Eng., who takes possession to-morrow. The price is understood to be $12,000 cash. This sale was put through by the firm of E. W. Wilkinson & Co., of Kelowna.

Local Amateurs will Produce San Toy Next Week

The production of "San Toy" by the local amateur society will take place on Wednesday, June 18th, with repetition performances on Thursday, the 19th and Saturday the 21st. The curtain will rise in each case at 8.15 sharp.

This charming musical comedy promises to exceed any of the work hitherto undertaken by the society. The expenses however are so great that, with great reluctance, the management have been obliged to make a slight increase in the prices of admission. The newly installed opera chairs, numbering 100, will be $1.50, and $1 for the front rush seats. Children half-price as usual.

In response to a telegram Dr. Mathison left for Winnipeg by Wednesday's boat on a visit to his brother who lies seriously ill.

The result of the voting on the by-laws for raising money for the extension of the light and water works goes to show that the public have every confidence that money spent in these works is a profitable investment. The vote was unanimous, thirty-three being for in each case, and no opposition vote.

A sensational suffragette outrage occurred during the running of the Derby last week. While King George's horse Anmer was rounding Tattenham corner the woman rushed on the course and clutched the reins of the horse, which fell and trampled her. Jones, the jockey, who was riding Anmer, was unable to disengage himself from the stirrups and fell to the ground. He was badly injured and had to be attended by a surgeon. The woman has since died as a result of injuries received.

Stiff Fine for Window Smashers

Mr. and Mrs. Pethick Lawrence, Mrs. E. Pankhurst, and Mrs. Mabel Tuke, representing the Women's Social and Political Union, were this week condemned by the King's bench court to pay $1,840 damages in a suit brought by a number of West End London shop-keepers for damages done in the smashing of windows during suffragette raids.

The British Government has decided to lay down three battleships of the present year's naval programme immediately, instead of next March, as originally intended.

This measure is being taken in consequence of the rejection by the Canadian Senate of the Naval Aid Bill to appropriate $35,000,000 for the construction of three Dreadnaughts for the British Navy.

Mr. Winston Churchill, first lord of the admiralty, announced the government's decision in the House of Commons last Thursday.

The Navy Question

After months of acrimonious obstruction by the Liberal minority in the Canadian House of Commons, the Borden navy bill was finally carried in that house and sent up to the Senate.

It was perfectly natural that the opposition in the House of Commons, led by Sir Wilfrid Laurier, should oppose a bill so contrary to the policy outlined by them when in office, but having done their duty as His Majesty's loyal oppasition. it seems passing strange that they should use their undoubted influence to secure the defeat of that bill in the Senate.

Constituted as it is, it difficult for the Senate, when opposed to the government, to see that its power is really advisory. Being only an appointed body and in the present case a body appointed by a government since rejected by the peop,e, it is in the humiliating position of representing a discredited minority.

When we say the Senate is really advisory, we mean that its functions are limited in all important legislation. It cannot amend a money bill and it cannot cause the defeat of a government by an adverse vote, consequently when it presumes to dictate to the government that it shall appeal to the people on the navy question it is assuming to itself powers that it does not possess but when it makes this demand in the name of the people it is simply making a ridiculous exhibition of partizanship under the guise of serving the public interest.

In the first place it may be stated without any fear of intelligent controversy that there is absolutely no sentiment against the Borden naval policy except among professional politicians. Further it seems to us that all parties , at all events among the English speaking population of Canada are at one on the main question of contribution in some form, to the defense of the empire. Now since only the form which that contribution should take is in question, is it not a most mischievous thing that the whole country should be divided on a minor question, that is to say a question which, while it remains outside of active politics, is on miner importance, but which as soon as it becomes a political issue is apt to degenerate into mutual recriminations and charges and counter charges of disloyalty. We are glad to note that Mr. Borden has wisely decided to ignore the hypocritical demanded of the senate for a reference of this question to the people and is determined that the bill will at a later date be submitted to the house, when it is hoped wise counsels will obtain in the senate and the will of the people as expressed by their accredited representatives will eventually prevail.

The True Spirit of Sport

The season of sports is well under way. Each enthusiast after his kind is "boosting" his particular team as a winner, be it in football, baseball or lacrosse. Far be it from us to decry the ambitious efforts of those who, to win the laurels of victory, endure the discomforts of hard training, and the strain and trials incident to the contest. All honour to those young men who for no other reward than the satisfaction of bringing fame to their town and perhaos incidentally to themselves, give up so much of their time to perfecting themselves in their sports. But, are we not often in our desire for glory, forgetting the true end and aim of sport? As we take it, sport to be beneficial to a country should be universal. The purpose of all such athletic games should be to develop the muscles in strength, endurance and quickness of response to the will and to train the mind to decide instantly and decisively to do the proper thing at the proper time. These are qualities which, when developed, are of the greatest advantage to the youth when brought up against the real facts of life, and this is what Wellington meant when he said that the battle of Waterloo was won on the fields of Eton.

Our contention. however, is that sport is becoming commercialized. Instead of enjoying the rigours of the game ourselves, we seem to prefer to watch the contests of athletes in whom we may have little personal interest except in so far as they represent, for a season the particular club in which we are interested.

We are prone to take our exercise by proxy, and we are thus not only losing the benefits of the game, but are lowering its standards. This latter is too evident at many exhibition games played in the valley. A good play is cheered—if made by one team—but is greeted with silence or worse if made by their opponents. We entirely deprecate this spirit, and call upon all true lovers of sport to endeavor to revive the sporting spirit that will generously acknowledge the skill of our opponents, and instead of minimizing, strive rather to emulate their achievements.

Communications

Under this heading communications will be received upon any subject of interest. Letters must be signed, be brief, avoid personalities. The Editor does not necessarily endorse opinions given below.

KELOWNA'S LACK OF LOYALTY.

Editor Kelowna Record,

Dear Sir,—With your permission I would like to refute the statement made by "Canadian" in your last issue that we lack the outward expression of loyalty, though no one doubts the inward feeling.

Those who attended the Durbar pictures will remember the wild enthusiasm shown by the audience not only at the pictures of the King and Queen but also at the appearance of the King's soldiers.

I seldom attend the "Movies" but when the monotony of the constant stream of Yankee pictures is broken by the appearance of the King, the applause is deafening. On Empire Day the audience at the moving picture show was composed most likely, of Russians and Dagoes who would not know the King if they saw him. Nearly all the British residents showed their good judgment by attending "Charlie's Aunt" or the excellent Band concert. When I say British I include of course Canadians.

In conclusion, the writer was present at the reception to the Royal party, and cannot remember any lack of cheering or enthusiasm.

Yours truly,
UNITED EMPIRE LOYALIST.

With the B.C. Horse in Camp

Military Camp, Vernon, June 10th—The military camp to the south ofVernon presents a most attractive sight. The temporary home of 1000 men and officers is located on the hill between Long Lake and Vernon, and is most suitable for the training grounds of cavalry troops.

The following units are in camp :—30th Regiment B.C. Horse, commanded by Col. Bott and Majors Mutrie, Allan, and Clarke (of Kelowna); 31st Regiment, commanded by Col. Flick, and Majors Pragnell and Wilson; the 18th Field Ambulance, of Vancouver, under Major McTavish; the 19th Army Service Corps, commanded Major Montague Moore, of Vancouver; the102nd Rocky Mountain Rifles, under Col. Vicars, of Kamloops; the 2nd Section Corps of Guides, under Major Bryan, of Victoria ; and detachments from the permanent forces at Victoria; No. 3 Company Royal Canadian Engineers; No. 5 Company Royal Canadian Garrison Artillery; Permanent Army Medical Corps, and Canadian Ordinance Corps. Lieut.-Col. McDonnell of the Strathcona Horse, Winnipeg, is Camp Commandant.

The troops settled down to the work on Tuesday, June 3rd, and actual instruction has been in practice since, consisting of advance guard work, skirmishing and rifle practice.

The ceremonial review took place on Saturday, June 7th, and the Commandant complimented the commanding officers on the smart work and efficient drill of the men under their command. The Kelowna squadron was considered by onlookers to present a most creditable appearance.

On Sunday the troops attended the Church parade, which was held in Vernon city park. Captain Thompson, Chaplain to the 31st Regiment, acted as Brigade Chaplain, and took the service, taking his text from the instruction of Moses to the Children of Israel "To go forward." The Chaplain preached a most appropriate sermon, and drew many practical and useful lessons from the subject.

Kelowna was well to the front at the Military Sports on Monday, as Trooper Gordon Stirling easily won the mile race, and repeated another win in the relay race. The mile race was one of the most exciting events of the day's sports, and Trooper Stirling was most enthusiastically cheered as he passed the judges' stand. Major Clarke, of Kelawna, has so far the highest number of marks in the rifle shooting, so that the officers and Clarke, af Kelowna, has so far the themselves and adding more laurels to the "Orchard City."

CREHAN, Military Correspond.

During 1912 over 2000 miles of railway was under construction in British Columbia, involving an expenditure of $15,000,000. The government itself spent over $5,000,000 on 1500 miles of roads and trails.

Registered Standard Bred Stallion
Don Zombro
Registered Number 48391

Don Zombro is a bay stallion, 15.3 hands, sired by Zombro, dam Rambler Maid, by Rodgirl, by Marquis, by Burbon Wilkes.

Don Zombro started last year in the three minute trot or pace at Kelowna and Vernon, winning both races, making a mark at Vernon of 2.33.

Some of his colts are stepping in better than 2.30 before they are two years old, notably Zombronum, which promises to be in the 2.10 list in 1914.

He is a beautiful dark mahogany bay, a great producer, and kind and gentle in disposition.

Don Zombro will stand for service at Max Jenkins & Co.'s stable during the day and at Mr. Copeland's home after 6 p.m.

NOTICE

Notice is hereby given that at the next statutory meeting of the Board of Licensing Commissioners for the City of Kelowna, I, Arthur Peabody, intend to apply for a renewal of my licence to sell liquor by retail in the premises known as the Palace Hotel situated on the north side of Bernard Avenue, between Water Street and Pendozi Street, in the City of Kelowna, B. C.

Dated the 15th day of May, 1913.

Scottish Liberals are beginning to agitate for Home Rule for Scotland, and are introducing a bill into the British parliament with that end in view.

Miss Emily Davison, the militant suffragette who was injured in her attempt to check the king's horse in the Derby, has died as the result of a fractured skull. The suffragettes are of the opinion that this "martyrdom" is all that was needed to secure the vote for women.

CALORIC FIRELESS COOKSTOVE

$15, $17.50, $24, $28, $32.50

SAVE 3 HOURS KITCHEN DRUDGERY DAILY
(OVER 150,000 USED)

NO HEAT, NO ATTENTION, ALL LABOUR SAVED

The "CALORIC" Cookstove is the **Only Fireless Cookstove** with a **Patented Vent Valve**, insuring dry heat when baking **Cakes, Bread, Roasting Meats**, &c.

The **Radiators** supplying the necessary heat for the "CALORIC" are heated for a few minutes over any ordinary flame (same as a flat iron), then placed in the oven. The aluminum utensils containing the food are placed on top of the radiators; close and latch the cover, the "CALORIC" will do the rest.

Simple, Isn't It?

Our traveller will send a "CALORIC" to your home for trial. Convince yourself thoroughly of its advantages over the gas range or stove.

Write to Mr. RIDEN (address below) for full particulars and pamphlet.

Glenmore Notes

(From our own correspondent)

Mr. and Mrs. Batt and family of Sherbroove, Que., arrived in the valley to live on their ranch and are at present visiting Mr. Geo. Kerr.

* * *

Mr. L. Marshall, brother of Mr. Lewis E. Marshall, is in the valley convalescing after an illness of pneumonia and fever.

* * *

Miss Marian Prouse spent a week visiting at Mr. Homuth's, in Rutland.

* * *

Mr. C. E. Prouse has purchased a cow.

* * *

Mr. and Mrs. W. J. Rankin entertained a number of friends on Saturday evening.

* * *

Mr. John Arnold who came west two years ago was in the valley last week and left for Wood's Lake where he intends to build.

Saving Our Forests

"Constant progress in forest conservation," is the keynote of the fourteenth annual report of the Canadian Forestry Association which has just been issued from the office of the secretary, Mr. James Lawler, Canadian Building, Ottawa. The report, which contains all the addresses made by the prominent forestry experts, legislators and officials at the convention held in Victoria, B.C., is replete with the latest views of the most advanced minds in this line of national public activity. The great strides forward of the federal aod provincial gavernments two of whom passed far-reaching legislation within the year, unusual progress of the science of forest protection mong lumbermen, and the numerous changes in the Canadian Forestry Association itself, all indicate most clearly that the country is rapidly taking up the issue and making for more adequate protectiob of the great forest heritage. Copies of the Canadian Forestry Association report are to be had free, from Mr. Lawler, on application.

Imported Hogs

Many people in the neighborhood are awaiting the result of enquiries which are being made in connection with the importation of hogs by the provincial government, After a long delay the following communication has been received by the secretary of tne Farmers Institute from the Live Stock Commission at Victoria:—

Dear Sir,—I have just returned to the office prior to leaving for the east. We have been able to locate a sufficient number of animals for your institute, but I wish to make a personal inspection of them before accepting them. The Berkshires I have in mind are somewhat high in price, viz;- $60 per head. While the animals are probably of such a standard as to justify this price, I doubt if your members would care to pay so much for them. I am hoping to be able to do considerably better at a personal interview. Before making the deal we shall wire you.

W. T. McDONALD,
Live Stock Commissioner.

Mission Work Amongst the Foreigners

The presence of so many foreigners, employees of the Kettle Valley railway contractors, in town has created many problems, and the W.C.T.U., recognising the need for some kind of missionary work, has been active lately in their effort amongst these men. The following account of the work done has been handed in by the superintendents of this department, Mrs. T. Renwick, and Mrs. Allan Wilson.

Twice parcels of magazines and temperance literature in Swedish and Italian, have been sent to five of the Kettle Valley Camps.

Calls have been made in town on inmates of the bunk houses and literature distributed amongst them. Copies of the Gospel in Greek have been handed amongst the men, who seemed glad to get them.

The aid and cooperation of the resident ministers of the various churches was solicited with the result that religious services have been held amongst the men from time to time.

The work is full of difficulty, and the superintendents would gladly welcome any ideas as to the best way of helping the foreigners within our gates. Gifts of magazines or money to buy foreign literature will also be welcome and should be sent to the superintendents above mentioned.

The total quantity of apples marketed in Manitoba, Saskatchewan and Alberta for the season of 1912 was approximately 495,000 barrels, of which Ontario supplied 238,000, British Columbia 75,000, Nova Scotia 18,000 and the United States 164,000.

City and country patronage solicited

Town and Country

Rev. R. J. Douglas preached in the Methodist church on Sunday last, June 8th.

Mr. Geo. Fletcher has been ordained and inducted as an elder of the Presbyterian church.

Mr. R. Duncan has installed folding opera-chairs in the Opera House.

Dr. McNaughton was at Vernon to give medical evidence at the assizes.

Mr. R. Johnson has arrived from Vancouver to take a position with the McKenzie Co. Ltd. Mr. Johnson hails from Dumphries in Scotland and acquired his business experience in Edinburgh.

A party consisting of Mrs. Moon Miss Gardner, Miss Gladish, and the two Miss Coodes arrived in Kelowna early last week. Mrs. Moon is joining her sons, C. and G. Moon of the Spray Factory.

Mr. J. J. Dougan, secretary of the B. C. School Trustees' Association, was in town this week, conferring with the different school boards of the district. Mr. Dougan is also making arrangements for an exhibit of school work which will be one of the interesting features of the forthcoming Vancouver Fair.

On Tuesday, June 24th, the Country Girl's Hospital Aid are holding a sale of work in aid of the hospital at the Aquatic Pavilion at 3 o'clock. The sale will consist chiefly of children's clothes, many of which have been sent from England. Also a few fancy novelties and saleable articles for batchelors. Tea and strawberries will be served.

Mr. S. Riden, a representative of R. Harris & Co. of Victoria, is at present in town. His object is to bring more closely to the notice of the public that firm's well known sanitary specialties and also their "Fireless Cooker," an apparatus which by conserving heat on the same principle as the "Thermos" bottle, will cook a whole dinner without any fire or flame of any kind.

Mr. A. W. Barber last week disposed of his grocery business to a newly constituted firm under the style of the Kelowna Grocery Co. The management will be in the hands of Mr. Geo. Robison, who has had considerable experience in this line before coming to Kelowna. Mr. Barber is returning to Summerbery, Sask., to look after his interests there.

The Kelowna Study Club held their annual picnic last Thursday at Mrs. Frederic Armstrong's on the lake shore. Bathing, launch riding and games was the order of the afternoon, after which a fine picnic lunch was served. The happy party motored home in the early hours of the evening, to meet again on the first Thursday evening in September.

An Interesting ceremony took place last Monday, June 2nd at All Saints Church, Vernon, when Miss Constance Rose Pennell took the style and title of Mrs. Ernest England, of Kelowna. Miss Pennell had arrived in Vernon the same day from Rayleigh, Essex, in company with Mrs. Moon and party. After the ceremony the happy pair took the boat for Naramata where the honeymoon was spent.

Mr. H. Griffiths, lately manager of the men's furnishing department of the Hudson Bay Co. at Vernon, and for some years previously connected with the same company's branch in Vancouver, has taken an interest in the Oak Hall Clothing Co., and has taken the position of secretary-treasurer and director. He will have the management of the buying and selling end of the business, leaving Mr. Tom Morrison to superintend the accounting and office work generally.

Co-operative Fruit Selling in Nova Scotia

The cooperative handling of the fruit crop is probably further developed in the province of Nova Scotia than in any other province in Canada.

Probably two-thirds of this year's crop will be handled through the local associations and their central organizations. The cooperative movement has been making wonderful strides in the fruit growing sections of Nova Scotia during the past few years. The fruit growers of the Annapolis valley can produce prime fruit and believe that they should receive their fair share of the price. The result has been the development of the cooperative movement.

Until a few years ago the entire export crop was handled by European commission houses who had local agents throughout the valley. The commission charges incidental to this system are exceedingly large; the total charges for freight, commission, insurance, etc., amounting to as high as one dollar and fifty cents to one dollar and sixty cents a barrel. In some cases when the shippers received their sales accounts they found that their fruit had sold for less than the commission men's charges and were called upon to make up the difference.

The fruit growers naturally chafed under these conditions, and as early as 1902 an attempt was made to form some kind of a cooperative society. The first successful attempt, however, did not materialize until five years later. The growers in the neighborhood of Berwick organized under the name of the Berwick Fruit Company, with an authorized capital of $10,000.

The company built a large warehouse to which the fruit of the different members was brought and packed by experts. This assured a uniform pack and naturally a higher price was obtained. The first year the company handled nearly two thousand barrels of apples. The next year this number was doubled and the third year it was trebled—ample evidence of the success of the movement.

Movement Spreads

As a result of the success that attended the formation of this first company, other companies were formed until now the number is about thirty. The members agree to pool their apples and receive the average price according to grade and variety. Thus the better a member's fruit is, the larger will be the proportion of No. 1 pack and the better will be the price. The provincial government passed an act especially designed for the formation of such societies.

The growers, realised, however that they were not getting the maximum results that the cooperative system could offer. If the various separate companies were centralized they could do still better. Delegates from the different companies got together and decided to give the centralization idea a year's trial. This was in 1911.

The different companies did not bind themselves by any set rules. The central organization would make sales for the different companies and also buy supplies for them. Messrs. S. C. Parker, John Donaldson and J. N. Chute were chosen from among the delegates to act as an executive. S. B. Chute, one of the well-known fruit growers of the Annapolis Valley, was employed as general manager.

A small percentage was charged on all apples shipped through the central organization. Each of the companies that entered the organization, over twenty in number, paid a fee of five dollars. Nor did the payment of this fee compel the companies to sell their fruit through the central. They could still act as free agents.

That year the central sold over one hundred thousand barrels for the companies. An agent was sent through the west, and over ten thousand barrels of Gravensteins were sold. This was really the advent of Nova Scotia fruit on the western market. Last year eighty-five thousanh barrels went to the same market.

In 1911, Nova Scotia produced the largest crop of apples in its history. The steamship lines were unable to handle the unusually large export traffic. Right here is where the association proved its worth. Additional steamers were chartered and the congestion was relieved.

On A Permanent Basis

The success attending this trial of a central association was so pronounced that steps were at once taken to make it permanent. Last year the company was incorporated with an authorized capital of five thousand dollars. nearly all of which is subscribed. At the time of organization twenty-two companies became affiliated in the central association, which was termed "The United Fruit Companies of Nova Scotia, Limited." Each company subscribed twenty per cent., of its capital stock. Since then, several more companies have come in, making the number about thirty.

All companies agree to give the central complete control of their fruit. Returns are pooled, the same as was formerly done in the small companies. The central now controls over thirty warehouses, with a storage capacity of over four hundred thousand barrels.

The company does not confine its attention merely to the shipping of apples. Large supplies of fertilizer, barrels, pulp heads, nails, etc., are bought and distributed among the 1500 members. This cooperative buying was conducted by many of the small companies, but the central now buys for all and so gets rockbottom prices. On account of the large amount of business handled, insurance is procured at most favorable rates. Several evaporators have been erected for the utilization of the culls.

New Markets Developed

The association is developing broader markets. A European agent has been appointed and the merits of Nova Scotia fruits are being made known to the European consumer. The South African market is being developed also. The association is kept in touch with the market conditions throughout the world, and complete statistics are always kept an hand.

The purpose of the association is ot confined alone to the immediate requirements of the apple industry. It is aiming high. The operating of refrigerator cars, the manufacture of barrels and boxes, and the purchasing of all the commodities required by the members are among the developments that it has in view.—Canadian Horticulturalist.

The Virtues of the Dandelion

The herbalist knows the virtue of the dandelion, and turns them to goo account. In the old days, more so than now, the gathering of the dandelion was quite common, and if the egetable was not used herbally, it as boiled and sweetened, the liquor eing used as a beverage. In former times, dandelion beer was a popular country thirst quencher and an a hot day there can be nothing more refreshing. If we are apt to ignore the vegetable, the Continentals know better. There is such a demand for dandelion abroad that the supply is hardly adequate. It is said the inhabitants of Minorca, when their harvest had been destroyed by locusts, lived for a whole year on "lion's teeth" a fanciful name applied to the leaves. Nature of her own free will supplied the best of vegetables, but we do not always realise the fact. Some people hold the view that all that mankind needs in this line can be obtained in the fields, without troubling to cultivate other sorts in the garden.—"An Observer-', in the "Millgate Monthly.'

In British Columbia last year the total output in natural products was $100,000,000, and in manufactuted products, $20,000,000 (est.). This means a proddction per head for every man, woman, and child in the province, of over $300.

NOTICE TO CONTRACTORS

"Naramata School Extension'.

"SEALED TENDERS, superscribed "Tenders for Naramata School Extension," will be received by the Honourable the Minister of Public Works up to noon of Monday, the 23rd day of June 1913, for the erection and completion of a two-room addition to the schoolhouse at Naramata, in the Okanagan Electoral district.

Work to be commenced immediately on acceptance of tender and completed on or before the 25th August, 1913.

Plans, specifications, contract and forms of tender may be seen on and after the 7th day of June, 1913 at the office of Mr. L. Norris, Government Agent, Vernon, B.C.; Mr. J.C. Williams, Secretary to the school board, Naramata, B.C.; and the Department of Public Works.

Intending tenderers can, for the sum of ten dollars ($10.) obtain one copy of the plans and specifications by applying to the undersigned.

This sum will be refunded when the plans are returned in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable, the Minister of Public Works, for a sum equal to 10 percent, of tender which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheque or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tendered, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH.
Public Works Engineer. Department of Public Works, Victoria, B. C., June 5th, 1913. 29-30

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Letters of a Self-raised Office Boy to His Pal

In which Jimmy tells of Kelowna happenings to Mr. Sidney Harper, of Vancouver, B.C.

Dear Sid,—

Peace and hearts greetings from the land flowing with milk and honey; the honey part of that might be all right, but the milk we get here is bum; must be raised on irrigation. Outside of that Kelowna is great: a veritable gem set in the tarnished gold of the rest of B.C.

Got a letter from the boss the other day. You know I told you he was in Vancouver on a trip. He says to me, "Jimmy, you couldn't run fast enough to give me a house and lot in Vancouver if I had to live here. I think nature worked so hard making our beautiful climate there in Kelowna that when she got to the coast the supply had about run out, and the result is terrible."

Tell Myrtle that I spurn her offers of a reconcilation. She has trampled upon my bruised and bleeding heart for the last time. Tell her I am finding solace for my troubled spirit in the smiles of the lovely daughters of Kelowna.

You remember me telling you about "Charlie's Aunt," given at the Opera House on May 24th? Well, the same bunch is going to give a light opera called "San Toy," next week, and I am right here to say if it's anywhere near as good as "Charlie's Aunt" it will be a hum-dinger of a bill. All the scenery is being painted by a fellow here in town, and take it from me he's some bear-cat of a painter. They got a real actor-man who is staging the production, and from what I hear of the ravishing strains which float from the windows where the company is rehearsing, it's going to be a pippin of a show.

Last Friday night the Kelowna Band gave a concert in the park, which as I told you before, borders on the lake, and during said concert I was floating in a skiff on the peaceful bosom of the Okanagan, and as I gazed into its placid depths, while my soul was thrilled by the dulcet harmonies which rippled like waves from the bandstand, I felt as if I had strayed into some corner of the long lost Garden of Eden. (Forgive me this time Sid, and I promise never to have another fit like that, but you know that stuff is like the measles, it will break out.)

Well, Sid, old-timer, remember me to all the gang. Take good care of yourself and hurry to this favored land, where nature has strewn her gifts with a lavish hand, and opportunity has no limit but the smiling sky above. (!!!!!)

Yours as ever,
JIMMY.

Standard Bred Pacing Stallion
Local Option
Color: Seal Brown

Local Option raced in Indiana and Illionois in 1910 as a three-year-old, principally over half-mile tracks. That campaign was one of the hardest ever given a three-year-old, and only a great colt could have stood it. He started in 16 races that year and took a mark of 13¾.

His breeding is as follows:
Sired by Leland Onward, 2-4½; first dam, Ollie Osborn, by Hawthorn, a son of Nutwood; second dam, Trilby Wilks, by Nutwood Wilks.

TERMS: $5 cash, and $25 when mare proves to be in foal
