Meeting of City Council

Tourist Hotel Scheme Before Council

The council met Monday morning, Mayor Jones presiding and Ald. Sutherland, Copeland, Raymer, Blackwood and Millie present. This was Ald. Millie's first appearance at the board after an absence of some four months, and he received a cordial welcome from the rest of the council.

Mr. A. L. Meugens presented in person to the council a petition for a cement sidewalk on the west side of Water Street from the Bank of Montreal north to the end of the new store buiidings. The petition was signed by the several owners of property concerned, who were desirous of having the sidewalk put in at once.

Mayor Jones, commenting upon the petition recalled the decision of the council not to borrow money for sidewalks this year owing to the unsatisfactory state of the money market.

Ald. Copeland said the sidewalk ought to be constructed this year if possible, as it was very necessary to the four new stores which were being built.

It was pointed out that the amount needed for the one sidewalk was too small to make it worth while issuing debentures, and it was finally suggested that the owners do the work themselves, and the city could refund the money next year.

The following resolution was accordingly passed:

"That the city undertake the construction of a sidewalk along the west side of Water street from the south east corner of Lot 1 to the north east corner of Lot 9, Map 505, on condition that the property owners furnish the funds until such time as a Local improvement By-law is passed for such purpose."

The following accounts were passed for payment:

H. C. Jenkins, work on album presented to H.R.H., Duke of Connaught	5.00

Mr. J. A. Bigger, the city's building inspector submitted a report covering his year of office as follows:

Mayor and Council of Kelowna,

Gentlemen:

In view of the fact that my contract with the city as Building Inspector expires on October 15th, I beg to submit the following report:

During my term of office (twelve months) there has been granted 122 building permits, representing a total cost of $249,960. Of this amount $55,325 has been spent in factories, $86,475 on business places, and the balance of $107,760 on dwelling houses and other buildings of a private nature.

I would like to add that in nearly every case the requirements of your Building By-law has been complied with. Only a few shacks which would not total more than $500 have been erected without a permit.

Respectfully submitted,

J. A BIGGER.

Mr. Bigger, who was present, drew the attention of the council to several clauses of the Building By-law which he thought needed amending. During his past year's experience of applying the by-law he had discovered several matters which called for improvement. He gave several instances showing obvious shortcomings in the by-law and it was decided to ask Mr. Bigger to confer with the building committee with a view to amending the clauses in question.

Commenting upon Mr. Bigger's report, Mayor Jones said he was sure the building inspector had justified his position, and that the expense to the city was well worth while if only in keeping track of the buildings which were going up in the city. He was pleased to note the extent of the building improvements during the year, which made a very creditable showing. Kelowna's building permits during the past year had equalled those of Nelson, with a population twice as large, and, in fact, in proportion to the population, was the largest of any in the province,

Following Mr. Bigger a deputation consisting of Messrs. DeHart, J. F. Burne, A. W. Bowser, Pooley and Dr. Dickson, waited on the council in respect to the site for the new hotel which a local syndicate propose to erect at the corner of the park facing the lake.

The delegation had a proposition to submit upon which they wished to get an expression of opinion from the council. The triangular site owned by the syndicate at the corner of the park was not suitable for the purposes of a good hotel and they wished to make an exchange with the city of the sharp angle at the corner near the ferry wharf for such a portion to the west as would give a square site for the building. The exchange, it was contended, would give the city a valuable piece of land which would widen the approach to the ferry wharf and give a good open space in a place where it was most needed, and at the same time not detract in any way from the beauty of the park. The syndicate would also be willing to make a considerable grant towards the upkeep of the park each year.

Great emphasis was laid both by the council and the delegation upon the great need for a first-class hotel. Ald. Copeland said he believed the city was losing anywhere from $1,000 to $2,000 per day from the fact that the present hotel accommodation was utterly inadequate.

Mr. Bowser said he had known travellers who had business in Kelowna to go straight through to Penticton on the boat, stay over night there, and come up to Kelowna in the morning, hurrying through their business in time to catch the afternoon boat up the lake again. This sort of thing was hurting the town, and should not be allowed to continue.

Several suggestions were made as to the exact location of the hotel, and it was decided that the council should in company with the delegation make a personal inspection of the site. It was also arranged that the council should meet in committee later in the day, when those interested in promoting the hotel should submit a definite proposition with a plan showing the exact site required, and stating what they were prepared to do in the way of assisting with the up-keep of the park. The delegation then withdrew.

A petition was read from owners on Leon avenue for the laying of a sewer along that street. Mayor Jones said they had had a number of petitions in and as the engineers would be ready shortly to commence work on them it would be necessary to pass a resolution officially approving of the petitions so that the preliminaries of assessment, &c., could be proceeded with.

A resolution was accordingly passed that "it was desirable" to construct the sewers mentioned in the petitions received to date.

A resolution was also passed that the salaries of the police be raised, Chief Sutherland to $115 per month and night constable McKay to $85.

The police report for the month was read showing a long list of convictions, all "drunk and disorderly" except three. The gangs of men being brought in for the various railway constuction camps were keeping the police busy. Fines amounting to $149.50 had

Woodrow Wilson is New President

Woodrow Wilson, the Democratic candidate for the presidency of the United States, was elected Tuesday by an overwhelming majority. Roosevelt comes next while Taft was hopelessly defeated with only a very small vote to his credit. Thos. R, Marshall is the newly elected vice-president.

Benevolent Society Reorganises for Winter Work

The Benevolent Society met at the home of Mrs. Geo. Rowcliffe Saturday last when the following officers were elected to carry on the winter's work:—

President–Mrs. H. H. Millie.
1st Vice-Pres.–Mrs. Dan. Campbell
2nd Vice-Pres.—Mrs. W. Cameron.
3rd Vice-Pres.–Mrs. Allan Wilson.
Secretary–Mrs. Capt. Knight.
Treasurer–Mrs. C. C. Josselyn.

Friends having unused clothing (especially children's) are kindly asked to forward same to Mrs. Millie.

Capt. Harman who was in Kelowna a few days ago has along with his associates from the Old Country, made an extensive purchase of Glenmore property, acquiring a block of land to the value of about $40,000. He is making arrangements with the company to have this large tract developed and planted in trees next spring.

Rutland News

(From our own correspondent)

The Halloween social given by the Mount View Ladies Aid, at the Sproul residence, was a big success. A filling supper of Boston baked beans, pumpkin pies, etc., was partaken of by the crowd, who came prepared to enjoy it. Numerous games and music occupied the balance of the evening. Rev. Mr. Vance as chairman introduced the following talented performers: Trio, Messrs. Vance, Clarke & Schell Song, by Mrs. G. Whitaker of Ellison. Duet, Misses Ida Fleming and Flossy Dilworth. Piano Solo, Miss Smith (sister to Tom). Song, A. E. Clarke. Recitation, Miss Annie Gay. Humorous song, Mr. Kelly. The Ladies' Aid Society was enriched by $25 as the result of the social.

Mr. W. Loosemore left on Wednesday for England.

The purchase price of Mr. Geo. E. Yale's property should have been given as $7,100.

Mean Horse Thieves

Mr. M. Hereron and Messrs. W. R. Glenn & Son were the victims of as mean a trick as we have heard of for a long time, this week, and one which should bring the perpetrators. if they can be caught, to a sharp taste of the law.

On Tuesday afternoon, about 5.30, Messrs. Glenns' horse and delivery wagon, which had been left standing outside, disappeared. Mr. Hereron's horse and rig, which was tied outside the Club, also vanished. Although search was made all the evening no trace of the missing outfits could be found.

Mr. Hereron, thinking his horse might have made for home, hired an automobile and went up to Ellison, but as nothing had been heard of it there, he returned to town. Early next morning he hired a horse and buggy from the livery and again went up to his place at Ellison. This time he put some of his men on to search the range, thinking the lost animal might have made for the hills. He was glad, however, to find on his return to Kelowna that his horse had been found over the creek on Abbott street, tied to a tree. His indignation, however, was great when he saw the condition of the poor beast, which is a valuable one. It had evidently been driven hard and furiously the night before, and then, heated and tired, had been tied to a tree to spend the rest of the night without any protection in the chilly air.

In the meantime Mr. Glenn had found his horse in similar plight in the bush by the park.

It is difficult to find any reason for such a contemptible piece, not only of impudence, but of downright cruelty. It is probable that it was the action of some drunken party of rough-nocks who are making things pretty lively for the police just now. But whoever it was it is to be hoped the offenders will be brought to book.

Kelowna Brotherhood Meetings

The first of the winter series of Sunday afternoon meetings of the Kelowna Brotherhood was held last week when a splendid address was given by the Rev. A. Dunn, on the appropriate subject of "Brotherhood." There was a large attendance and the meeting was one of the most enjoyable and successful ever held. Mr. Stanley Hodkinson contributed a solo, "Arm, Arm ye Brave!" which was much appreciated. Next Sunday Mr. Kerr is to speak on "War and Peace," followed by a discussion. The time of meeting it might be mentioned is to be altered in future from 3.30 to 3.45 p.m.

On Monday next the Epworth League of the Methodist Church will hear a paper by Mr. W. J. Clement on "Africa and African Missionary Work."

D. Chapman, foreman on the city sewerage works, returned last week from an interesting trip back east, bringing back a bride from Winnipeg.

Proposed New Tourist Hotel

Scheme Begins to Assume a Definite Shape

Kelowna's need of more and better hotel accommodation has become so painfully well-known not only in the city but outside too, that the urgent need of doing something to relieve the present situation has begun to force itself with ever recurring emphasis upon the Board of Trade, the City Council and the business men and merchants generally. From various causes, and those who live here know best what those causes are Kelowna has come to occupy an important position in the eye of the world amongst the promising cities of the west, and each month sees more and more people anxious to visit Kelowna and investigate at first hand those attractions which have brought the city to the front from an investor's point of view. Not only that but Kelowna offers unrivalled beauties and opportunities for health giving recreation for tourists from the coast and other large cities. These people want to come. But we cannot accomodate them and they go elsewhere.

There are a few men at least in town who have determined this kind of thing can not go on. A new first-class hotel must be provided and that at as early a date as possible. One or two schemes have been mooted but for some reason have died out again. Now however, a local syndicate has been formed which means business and the very attractiveness of their proposition will go a long way towards ensuring them success.

This syndicate, which consists amongst others, of Messrs. J. F. Burne, F. R. E. DeHart, A. W. Bowser, Dr. Dickson, W. R. Pooley, S. C. Cosens, &c., have taken over the triangular piece of ground at the corner of the park, sold by Mr. D. Lloyd-Jones to the People's Trust Co. This location is undoubtedly not only the finest in the city for a first-rate tourist hotel, but the finest in the valley. Centrally located near the wharf and business section, it commands a magnificent view of the lake and mountains, and its convenience for boating and bathing, and its proximity to a park which can be made as beautiful as anything in the province, would afford an unrivalled inducement to tourists.

The triangular shape of the plot however, has been found unsuitable for the satisfactory planning of such a hotel. The syndicate has, therefore, approached the council for an exchange of a portion of the land for another piece to the west. This would give a square site, which would allow of much better treatment from an architecural point of view.

This proposal as now before the council is in brief, that the syndicate undertake to erect a strictly modern first-class hotel, to cost not less than $100,000, exclusive of furnishing, and to have not less than 75 guest rooms.

As a consideration for the city making the desired exchange of land the company pledge themselves to donate to the city for the upkeep of the public park the sum of $5,000 over a period of not less than three years; to lay down in flower beds and grass a certain proportion of the park, and to provide walks, trees, and shrubberies. They also agree after this three years to pay $1000 a year towards the care of the Park, provided they have representation on the Board of Park Commissioners.

This proposal the council seem disposed to accept. It is necessary however, before any part of the park, which is public property, can be disposed of in any way, to submit a by-law to the electors. This by-law is now in preparation, and will in all probability be read at the next meeting of the council.

The Catholic Church Ladies' Aid is making arrangements to hold another "chicken supper" in the Opera House, on or about Saturday November 30th. Further particulars will be announced later.

Sutherland Beats Toler in Wrestling Match

Chief Bob Sutherland added one more to his long list of triumphs on the mat with a decisive victory over Ed. Toler, in the Opera House last night.

The match was arranged and managed by the Fire Brigade boys and though the unpleasant weather conditions had the effect of reducing the attendance there was still a good number present.

A short preliminary programme was gone through before the chief wrestling event.

Dan McMillan and Connie Knight, two young aspirants for honors in the wrestling world were matched against each other, Dan getting the first and third falls and Connie the second.

Then came a boxing bout between Ernest Hoy and Claude Newby, followed by a surprise event in the shape of an exhibition of juggling by Russell Parker, at present fulfilling an engagement at Dreamland. His clever feats in the manipulation of tennis balls, racquets, Indian clubs, lamps, and other articles excited the wonder and applause of the audience.

At about 9.15 the two champions appeared on the stage, and were received with great enthusiasm. Bob, the local man was plainly the favorite, and a popular one too. Toler is a big, powerful fellow, and the two as they faced each other on the mat gave promise of some fine sport.

The visitor showed amazing agility, but his speed availed him little against the great strength and superior science of Bob, who kept his opponent on the defensive practically the whole time. The first round lasted 22 minutes, when Sutherland getting in his powerful "scissors" hold forced Toler's shoulders down amid loud cheering.

The second and last round was shorter still. Toler proved no match for Bob and very soon found himself in a grip from which there was no escape, and at the end of 14 minutes the match had been settled with another fall to Sutherland.

The result puts another feather in the cap of Robert, whose lid is already pretty well adorned in that respect.

J. N. Cameron and family returned this week from Vancouver.

Mrs. Alec. Morrison will not receive again until the second Wednesday in January.

Dr. Gaddes and Mr. N. D. McTavish returned Wednesday from the coast.

Mr. A. McQuarrie will leave Kelowna about the 17th of the mont' to attend the big dairy show at Portland, Ore. His visit will be made on behalf of the Department of Agriculture. Following that he is to visit Ontario where Mrs. McQuarrie is at present staying.

The formal opening of the new Whelan Methodist Church on the Vernon Road, will take place on Sunday, November 17th. The Rev. Dr. Chown, general superintendent of the Methodist Church in Canada, will conduct the dedicatory service and preach in the morning at 11 a.m. The afternoon service at 3 o'clock will be conducted by the Rev. Dr. White, superintendent of missions. Special music will be provided both morning and evening. A cordial invitation is extended to all.

Miss Mary Day has been awarded one of the supplementary bronze medals given by the Duke of Connaught to schools in commemoration of his tour of the province. The Department of Education distributed these medals according to the following plan; To those places to which a bronze medal was not awarded in July last, the supplementary medals have been given to the students standing first in the high school entrance examination held at the end of June last; and to those places to which bronze medals were awarded in July, the supplementary medals have been given to the students standing second in that examination.

The Working of the Municipal Act

Some of the more interesting and important resolutions so far as our own city is concerned, passed at the recent convention of the Union of B.C. Municipalities, were contained in the report read at Monday's council meeting by City Clerk Dunn, who with His Worship Mayor Jones, were delegates from Kelowna.

Considerable attention is being devoted at the present time to the working of the Municipal Clauses Act, which is Bible and Prayer Book of city and district municipal bodies throughout the province. It was through the efforts of the Union that the special committee which sat in Kelowna a short time ago was appointed, and the greater part of this last convention was devoted to the same consideration. Some of the amendments recommended were:—

"That the fee for acceptance of sub-division plans be increased to $5.

That sub-division plans showing new roads be not accepted unless the roads be opened up by the sub-divider.

That municipal councils shall have power to declare that all sub-divisions of property into less than one acre lots shall be cleared.

That municipalities be given power to deal with width of streets in sub-divisions.

That municipal councils be given power to authorize persons to take the householders' and license-holders' declarations under the Municipal Elections Act.

That the Provincial Government be requested to facilitate the drawing up of money by-laws by municipalities so that after these are passed by the ratepayers there may be less chance than at present of having them turned down as illegal on some technical point.

That municipalities be given the power to purchase, own, construct and operate telephone systems within the corporate limits, and within the corporate limits of other municipalities, and into an unorganized district, subject to the approval of the Lieutenant-Governor in Council.

That sections 125 and 126 of the M. C. A. be so drafted as to give the right of the ratepayers to petition for any work, and the council the right to present any by-law for their endorsement without petition."

The Kelowna delegates submitted the following:

"That the Municipal Elections Act be so amended that the property qualifications for municipal voters be the assessed owners of property as shown by the last revised assessment roll at the time the Voter's list is being compiled."

Owing to the great importance of this matter, same was referred to the Union's executive committee with instructions that it bring to the attention of the Municipal Commission and the municipal committee of the Provincial Legislature the great injustice and inconvenience caused by the present Elections Act.

Another resolution from Kelowna was also submitted to the executive:

"That a clause be inserted in the Municipal Act giving municipalities power to pass by-laws for the purpose of raising money by way of debentures for improving public parks."

Old Country Deer for B.C.

After completing a hunting tour which occupied the greater part of two years and which has been conducted in the wilds of three continents, Mr. C. E. Lucas, a famous English hunter and naturalist who is visiting Vancouver, will make arrangements, before his departure, with the British Columbia government and game wardens of the province for the accomodation of several hundred red deer which will be brought from his father's estate at Warnham, Surrey, England, early in September next year. These animals have been given to the government of the province by Mr. C. H. Lucas, sr., the intention being to turn them loose in the wilds of the Rockies and allow them to increase until their numbers warrant the passing of a game ordinance allowing them to be shot in limited numbers.

Spokane experienced its first snowstorm on Wednesday of last week.

Active negotiations are progressing in London with a view to bringing the Balkan war to an end.

Establishing a world's record, Frank Dabron, a youthful Australian shooter, won the first prize at the Victorian Rifle Club's meeting by getting twenty bulls at 700 yds.

Each man, woman and child who lost a breadwinner when the Titanic went down is entitled to close upon $700 each. The money is to be invested and those entitled to a share will be able to draw the interest weekly. Some of the families who lost relatives upon whom they were dependent will be entitled to the income from a funded capital of $6,000 or more.

There has been an outbreak of hog cholera in the district of Brownlee, Sask. The government veterinarians ordered the slaughter of 500 head of swine, practically wiping out all that were in the district. The farmers are complaining bitterly of the widespread losses and blame the methods of inspection. There will be a shortage of pork for several months.

"There could be no better medicine than Chamberlin's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlin's Cough Remedy and the first dose eased them, and three bottles cured them," says Mrs. R. A. Donaldson of Lexington, Miss. For sale by all dealers.

HISTORY OF CANES

Oldest Walking Sticks Were Those Used by the Romans as Attributes of Office and Position.

Unlike many other objects of fashion, the exact age of the cane, or walking stick, has never been fully determined. A Spanish doctor who has studied the subject, maintains that people have used it in one form or another for at least seven or eight thousand years. But this cannot be proved with any greater degree of certainty than can some of the Darwin theories.

Indeed, the oldest walking sticks we know of were those used by the Romans in the time of the emperors. Somewhat later they came into use in other countries in Europe. The first canes we know of were tall staffs, higher than a man's head, and were used only by persons as an attribute of their office. In the sixteenth century walking sticks were first used by persons in private life as a sort of support while walking. These, in this capacity, were used for a long time, then gradually changed into frail-looking things which were the mere plaything of the trifler or the dandy.

In the nineteenth century the canes became an object of fashion in the woman's world, and in Paris received the name of "support des dames." Canes for feminine use were made out of the most expensive materials, such as costly woods inlaid with mother-of-pearl, gold, silver, precious stones, and real pearls.

How Cane Received Its Name

This cane received its name from a popular drama at that time being given on the stage of the Theatre Francais in Paris. Under the same category must be mentioned the "Sprinkling cane," made hollow so that it could be filled with water, and by touching a button could be made to empty its contents on the passer-by. This cane in time proved to be such a nuisance and annoyance to unsuspecting people that the police were obliged to forbid the use of it. There were other curiosities, such as canes which, when hidden springs were touched, could be converted into swords, pipes, umbrellas, and one even which fell apart and became a small table.

The most valuable collection of canes was owned by the late King Edward, and the one among them most greatly prized by his Majesty was a walking stick made from the branch of an oak tree under which the ill-fated Charles II. once took refuge from his pursuers. This historical cane was frequently called into requisition by Queen Victoria when out walking

"FICKLE LOVE"

Three Instances Where Men Have Brought Actions for Breach of Promise but Lost.

It is very rarely that a man brings action against a woman for breach of promise of marriage; it is rarer still for a man to win such a case. The jury being men, their sympathies are invariably with the defendant, and, however hardly used the unfortunate swain may have been, the only result is that he gets held up to ridicule in the public Press, as has been the case with the plaintiff in the recent suit which has been amusing newspaper readers on both sides of the Atlantic.

We refer to "Ruzzielarub," otherwise Mr. Russell Griswold, who claimed $50,000 damages against Miss Helen Smith, the forty-year-old daughter of a wealthy New Yorker.

The postcard with the mystic "K. I.," which Mr. Griswold said represented an eye-kiss, proved of no avail to convince the jury, and he lost his case and had to pay ocsts.

$250 for the Persian.

Almost the only case of recent years in which a man was actually successful in getting damages in a suit of this kind was that brought by a Persian divinity student named Nestorious Marcus.

This gentleman came to England to be trained as a missionary, and meant to return in a couple of years to spread enlightenment in his native land. But a lady crossed his path, an Englishwoman older than himself, who lived at Edgbaston. They met at an hydro in Aberdeen; the lady made love to him, and the poor Persian lost his heart.

They became engaged, and the lady announced her intention of going with him to Persia. She wrote him loving letters, in one of which she reproached him for having his hair cut, and vowed that she would not give him another kiss unless he kept it long.

The day of the wedding was actually fixed, when Mr. Marcus received a thunderbolt in the shape of a formal letter breaking off the negagement, and ordering him to return her letters and photographs.

Mr. Marcus, however, had a better use for the letters. He sued, and obtained $250 damages.

Stout but Fickle.

A more curious breach of promise case than that brought by an American doctor named Deeters never amused a court of law. Deeters became engaged to a lady named Lucy Havens, who was said to be the stoutest woman in the United States — at any rate, she pulled the scales at a little over thirty stone. During Deeter's absence, a few weeks before the marriage, a showman came along, saw Miss Havens, was struck by her possibilities as the fat woman of a circus, and induced her to sign a contract for twelve months.

When Deeters came back he was furious to find that his plump "fiancée" had already gone on the road. He pursued her, found her at Laporte, Indiana and at once brought suit against her and the showman jointly for $5,000 damages. But the stout woman declared that it was a woman's privilege to change her mind and the jury took her view and dismissed the case.

Don't be Tempted

Into the belief that you can buy better or cheaper from anyone else than you can from me. Opportunities come and go, but what is the good if one doesn't grasp them when they come? The secret of success is to be able to see and take hold of a good thing when it comes along.

Now is Your Opportunity
For a Safe and Sound Investment

one that will give you ample returns for your outlay. Come and see me and I can give you ample proof of what others have done, and what they have done you can do; so hurry up while you have the opportunity.

Lumbering a Science

That lumbering should properly be regarded as a science and as a profession, is the substance of resolutions recently adopted by the British Columbia Lumber and Shingle Manufacturer's Association and by the Canadian Forestry Association, favoring the establishment of a course in logging engineering at the new University of British Columbia. The success which has attended the agricultural colleges of Canada and the United States in equipping the farmers' sons with a scientific knowledge of husbandry, is evidence of what might be expected from similar courses devoted to logging engineering. The courses of study in our agricultural colleges have been intensely practical and helpful. The lumber industry deserves the same consideration for those who desire to become expert loggers and lumbermen, in the broadest sense of the term. Logging is rapidly coming to be recognized as one of the most important features in the lumber industry. Each year the difficulties increase and the consequent demand for knowledge grows more apparent.

Weeds Poison Crops

It has been generally supposed that the principal effect upon the soil, of weeds in the growing crops, was that they took away moisture and plant food that should go to the crops. Recent investigation at Cornell University has demonstrated that they had a deleterious effect upon crops in that they poison the plants by the intermingling of their roots. Corn and weeds were allowed to grow side by side in similar soil but with partitions placed so that the roots were kept apart. The corn and weeds grew normally. In another box the corn and weeds were placed so that the roots could intermingle, with the result that the corn was stunted and its growth materially retarded. It is a case of incompatibility of association.

Vancouver's Record Realty Price

Establishing a new record price for the front foot of Vancouver realty, a one-half interest in the Horseshoe Hotel property, situated at the north-west corner of Hastings and Columbia avenue, was sold last week for $70,000, or 5,600 a front foot. The highest price per front foot previously recorded in Vancouver was made on October 20 when the Royal Bank of Canada purchased five lots on the north-west corner of Granville and Hastings streets for $5,575 a front foot.

A proclamation has been issued in the Canada Gazette calling upon His Majesty's subjects in Canada to observe strict neutrality during the war between Turkey and the Balkan states

The purchase of 550,000 acres of land in Northern British Columbia has just been completed by Lauchlin Maclean, of Spokane, and his associates for a considera'ion of $2,730,000.

The cost of Australia's fleet will be $3,150,000 above the amount estimated. This is due to alterations that have been found to be necessary to fit the vessels to patrol the rough seas of the Australian coast.

Robert W. Service, author of "Songs of Sourdough" and other poems and stories of the Yukon and the west is off to the Balkans in the hope of seeing some of the fighting between Turkey and the Balkan States.

A Zeppelin dirigible balloon attached to the German navy, arrived in Berlin after a successful flight with 21 passengers, from Friedrichshafen, across Germany to the North Sea, and thence to Helgoland, from which the return was made over the Baltic to Dantzig, and thence to Berlin. The balloon was in the air 31 hours.

Charles Becker, the former police lieutenant convicted of procuring the murder of the gambler Herman Rosenthal, was sentenced to die in the electric chair at the Sing Sing prison during the week of December 9. Becker's execution, however, will be stayed by a notice of appeal from the verdict of jury soon to be filed by his counsel which may take a year to determine

Is your husband cross? An irritable, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach trouble by taking Chamberlin's Tablets. For sale by all dealers.

AN IRISH HAMLET

Copy of a Play-Bill, Mixing Up Shakespeare and Sleight-of-hand Tricks and Comic Songs.

The following is a literal copy of a curious play-bill issued in the year 1793 by the manager of the Theatre Royal, Kilkenny: —

"Kilkenny Theatre Royal, by his Majesty's company of comedians. On Saturday, May 14, 1793, will be performed by command of several respectable persons in this learned metropolis, for the benefit of Mr. Kearns, the tragedy of 'Hamlet!' originally written and composed by the celebrated Dan Heys, of Limerick, and inserted in Shakespeare's works. Hamlet by Mr. Kearns (being his first appearance in that character), who, between the acts, will perform several solos on the patent bagpipes, which play two tunes at the same time. Ophelia by Mrs. Prior, who will introduce several favourite airs in character, particularly :The Lass of Richmond Hill' and 'We'll all be Unhappy Together,' from the Rev. Mr. Dibden's 'Oddities.' The parts of the King and Queen, by the direction of the Reverend Father O'Callaghan, will be omitted, as too immoral for any stage. Polonius, the comical politician, by a young gentleman, being his first appearance in public. The Ghost, the Gravedigger, and Laertes, by Mr. Simpson, the great London comedian. The characters to be dressed in Roman shapes. To which will be added an interlude, in which will be introduced several sleight-of-hand tricks, by the celebrated surveyor, Hunt. The whole to conclude with the farce of 'Mahomet the Impostor!' Mahomet by Mr. Kearns. Tickets to be had of Mr. Kearns, at the sign of the Goat's Beard, in Castle Street. The value of the tickets, as usual, will be taken (if required) in candles, bacon, butter, cheese, soap, etc., as Mr. Kearns wishes, in every particular to accommodate the public. No person shall be admitted into the boxes without shoes or stockings."

THE PANAMA CANAL

Not Modern In Its Conception — First Projected As Far Back As 1550 and at Various Times Since that Date.

The Panama Canal, although it is one of the most gigantic enterprises of modern times is by no means modern in its conceptions. It was projected as far back as 1550, and under various auspices and at various times since. I do not refer to the particular route of the present canal, but to the scheme of making a waterway across the isthmus between North and South America. The desire to find a short route to India and to the "far Cathay" was father to the thought that then existed. That thought was in the mind of the Ancients, and is almost prehistoric in its origin. It was the guiding star of Columbus in his several voyages and his new found world was merely incidental to a discovery to which it barred the way for the time being and it was the guiding star of many a navigator since his day. In its guests the Panama Canal in many respects resembles the Suez Canal. The two were twins in the Saint Simonian theory of unifying and developing the world and they are today strangely related in the broad scheme of universal commerce.

Suez Led Way

The success of the Suez waterway gave the first real stimulus to a Panama Canal project, which, as I have already stated at various times and in a variety of ways, had been under consideration by various persons and governments from 1550 down. In 1878, Lieut. Wyse of the French army got a concession from the Colombian government, under which, in a modified form, the canal is being built at the present time and it was held by him until 1888. De Lesseps, whose first success had given him great prestige, undertook its construction and projected it as a sea level canal, 48 miles long, 29½ feet deep and 75 feet wide and estimated by him in 1880 to cost 658,000,000 francs. The concession included a monopoly of the Panama railway. The first flotation was a failure, but the second was a huge success. French small savings pouring into in streams. In 1887, the management had reached a degree of corruption unknown in the history of the world, unless it be the climax reached by Law's schemes in France a century or so before. Machinery to the value of 150,000,000 fcs had been brought to the scene of operations and shares to the extent of 1,276,682,657 francs had been sold. 70,000,000 cubic yards of excavation had been made and stock of the Panama Railway Company to the extent of over 93,000,000 francs had been paid for. In 1889 the company became bankrupt.

TOLSTOY REINCARNATED

A Tolstoy legend comes from Spassk, in the province of Kazan. Spassk is a district peopled partly by Greek Orthodox Russians and partly by Moslem Tatars. The Orthodox are usually in an ecstatic mood, and are given to forming sects. They founded a Tolstoyan sect, with much the same tenets as those of the Tolstoyans in the Caucasus. The local peasant commissary began the usual persecution. The sect retorted by predicting that Tolstoy would arrive to save them in April, 1913. The leaders were imprisoned for 'inducing others to leave the Christian religion,' altho they had specifically adhered to Christianity. The other peasants were so incensed with this that they actually did abjure Christianity. They became Mohammedans, sold their land, and joined a Tartar village in the vicinity. They actually grafted Tolstoyism on to Mohammedanism; and the Tartars, more tolerant than the Russian state, accepted the innovation, and welcomed the apostates with joy."

Town and Country

Mr. N. D. McTavish left Friday morning for a visit to Vancouver.

Mr. Wm. Mills returned to town this week from Nelson.

Mr. Chas. Gowen went to Penticton last Friday for a few days business visit.

Casorso Bros. won the second prize ribbon for soft wheat at the Lethbridge Dry Farming Congress.

Mr. and Mrs. W. E. Adams returned Thursday from Victoria, where they have been spending the past few weeks.

The Kelowna Study Club will not meet on Thursday but on the first Thursday in December at the home of Mrs. Capt. Knight.

Mr. and Mrs. Pelton arrived by Saturday's boat from Penticton, and in all probability will take up permanent residence in town.

The Rev. D. J. Welsh and Mr. S. A. Wade left Monday for Victoria to attend the Baptist Provincial Sunday - school convention being held there this week.

A representative of the Victoria and Vancouver Lime Co. will probably address the members of the Farmers' Institute at the annual meeting on the subject of the application of lime to agricultural soils.

The vaudeville turns at Dreamland are proving highly popular, affording a pleasant variety to the moving-picture films. Brandon and Taylor the singing comedians have been the attraction this week, having good houses every night Notwithstanding these additions to the nightly programme, the prices remain the same.

The usual monthly meeting of the Country Girls' Branch of the Ladies' Hospital Aid will be held next Saturday, Nov. 9th, at the home of Mr. A. Patterson, Benvoulin.

Marie Campbell, the popular English Comedienne will be at the Opera House Thursday, Friday and Saturday, of this week. Hellstrom and Myra are also on the bill to raise a laugh with their Swedish Comedy act.

The first rehearsal of the Musical and Dramatic Society's orchestra will be held next Wednesday evening, the 13th, in Lequime's old hall, at 8 p.m, The committee are anxious to see a good turnout of musicians so that a good start can be made.

Raymer's small hall presented a very gay scene Friday night last, the occasion being a leap year masquerade dance and social given to the young men in town at the invitation of the young ladies. The arrangements worked without a hitch, and a thoroughly enjoyable evening was spent by all who attended.

The annual general meeting of the Farmers' Institute is being called for Saturday afternoon, November 23rd at 3.30. At this meeting the usual election of officers will take place. To faciliate the selection of directors, and to ensure adequate representation of each section covered by the institute, meetings are to be held prior to that date in each sub-district to allow the residents there to nominate a director to represent them on the board.

Mr. Geo. J. Brown, partner of Mr. A. McQuarrie in the new machine shop is expected from the coast next week with a car of machinery and equipment, and the new firm expect to have this in shape to commence business by the end of the month. Mr. Brown was until lately in partnership with W. J. Ellison of Kamloops, and previously for five years foreman with the Canada Foundry Co. He is therefore fully conversant with many phases of the engineering trade.

The boy,s appetite is often the source of amazement. If you would have such an appetite take Chamberlin's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers.

To All Parts of the Lake

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

WATCHES THAT KEEP TIME

The value of a watch is in its ability to keep time, and when it fails to do this is really of no use to the owner.

Realizing this, we have endeavored at all times to keep only watches that we can recommend as being accurate.

We do not claim that our watches are all perfect time-keepers, but do claim that they are equal to any and superior to the average.

Each watch is sold under our own personal guarantee, and with eight years of experience in Kelowna we have a good knowledge of the class of watch most suited to a dry climate such as ours.

If you are interested in watches at all come in and let us show you our extensive stock, for out of our large assortment you will undoubtedly see something that will be of interest to you.

J. B. KNOWLES
JEWELER & OPTICIAN - KELOWNA, B.C.

"Highly Recommended."

"I would certainly recommend that you get a Gurney-Oxford, Mary. Mother had one, and when I furnished my house, I got one. Every maid I ever had has been enthusiastic about the Gurney-Oxford."

"What are its good points?"

"Well, the best is that it cooks and bakes like a dream. I never tasted such golden brown biscuits or such flakey pastry as my Gurney-Oxford turns out, and roasts, fowls and puddings are always a success."

"Is it easy to operate?"

"My dear, it's simplicity itself. The Gurney Economizer, which you cannot get on any other range, regulates the fire simply by putting one small lever up or down. You never heard of anything so simple. And by a system of divided flues the oven is always uniformly heated. You know what that means—biscuits, bread, roasts, not one half overdone and the other half underdone, but properly done all through. Yes, my dear, you take my advice as I took mother's, and get a Gurney-Oxford Range."

Meeting of City Council

Continued from page 1

been collected during the month.

Communications were read from Jack Hunjford, offering poles to the city, 8-in. top, at $5 each, and barked at $5.50; from N. D. McTavish notifying the council of the expiration of the $700 fire insurance policy on the fire hall.

Ald. Raymer expressed the view that the contents of the building should also be insured.

C A. Washburn, secretary of the Merchants' Association, wrote asking the council to take steps to improve the crossings on the streets which were in bad shape. Ald. Copeland said the matter was already being attended to.

The following letter was read from Mr. G. F. Teale, the city foreman:—

"Gentlemen,—I beg to inform you that upon several occasions the city stop cocks have been tampered with by plumbers and other persons contrary to the provisions of By-law 80.

Upon several occasions it has been necessary to dig down to the stops after they have been interfered with by people who have no right to touch same.

I have frequently found water being supplied to houses after same has been turned off by myself.

If this situation is allowed to continue it will be only a short time before the water department records will be of no value.

I am bringing this matter to your attention because one of the principal offenders has been warned by myself but has taken no notice of such warning."

Your obedient servant,
J. F. TEAL.

The committee were instructed to take steps to prevent interference with the city's stop cocks.

Ald. Sutherland had some remarks to make on the subject of sub-divisions. A property owner had lately pointed out that if a block adjoining his was sub-divided in a certain way, the value of his property would be very much injured. This was a reasonable complaint, said Ald. Sutherland, and he thought it might be well in future when sub-division plans were submitted to consult the owners of adjoining property, or at least to give them by a notice in the paper, the chance to raise objections.

A report (noticed on another page), of the Municipal Convention at Revelstoke was read by the city clerk who had been present as a delegate.

As there was considerable business still to dispose of the meeting then adjourned until afternoon.

The council met again in the afternoon when several matters of unfinished business were taken up.

Ald. Copeland stated that several people who were building on Long street had asked to have the brush cleared from the street and the stumps pulled out. The committee were authorized to have the work done.

A resolution was passed re-appointing Mr. J. A. Bigger building inspector at a salary of $15 per month.

Ald. Copeland announced that the Board of Works had visited Coronation avenue where the Tobacco Co. wished to have the temporary plank sidewalk placed. The Board recommended that the work be done. They felt that the company was doing a good deal for the town and were entitled to some benefit in return.

On a question from Ald. Sutherland as to where the money was to come from, Ald. Copeland said he thought it might be taken from the money devoted to new streets.

A doubt was raised as to the possibility of this and it was decided to refer the matter to the city solicitor.

Ald. Copeland brought up again the advisability of the city buying a team, and the matter was discussed but no action taken.

Ald. Blackwood mentioned that the work of clearing the recreation ground in the park was not satisfactory. He did not consider that the contract had been completed properly.

Mayor Jones suggested that a meeting of the park commissioners be called to go into the matter.

The meeting then adjourned until Monday next.

Bandmaster Bornholdt from Armstrong is taking in hand the reorganizing of the Kelowna Band and will hold weekly practices, the first to be on Thursday (to-night).

"It is a pleasure to tell you that Chamberlin's Cough Remedy is the best cough medicine I have ever used," writes Mrs. Hugh Campbell, of Lavonia, Ga. "I have used it with all my children and the resuls have been highly satisfactory." For sale by all dealers.

NOTICE TO CONTRACTORS

SEALED TENDERS, superscribed, "Tender for Black Mountain School," will be received by the Honourable the Minister of Public Works up to noon of Wednesday, the 27th day of November, 1912, for the erection and completion of a four-room schoolhouse, to be built of brickwork on concrete foundation at Black Mountain, in the Okanagan Electoral District, B.C.

Plans, specifications, contract and forms of tender may be seen on and after the 6th day of November, 1912, at the office of L. Norris, Esq., Government Agent, Vernon; J. W. Woolsey, Esq, Secretary of School Board, Rutland; and the Department of Public Works, Parliament Buildings, Victoria, B.C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for a sum equal to 10 per cent. of the tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.
