Council Meets Amid Celebration Noise

Health Committee Makes Report on Influenza Epidemic

To the accompaniment of the joyful music of the celebration going on out in the street Monday the city council held its regular fortnightly meeting with a small attendance.

The principal business was concerned with the work of the Emergency Health Committee, which had charge of the fight against the influenza. Ald. W. Lloyd-Jones made a report on what had been done in that connection. Three hospitals had been opened, one in the High school, one for Chinese in the Lum Lock building, and for Japanese on Harvey Ave. It was stated that the supplies for these hospitals had been mostly donated, but some had to be purchased. They were under the supervision of the Emergency Committee, acting with the Health committee of the city.

A resolution was passed authorizing the Health committee to take any necessary action to cope with the epidemic, and make necessary expenditures.

The matter of the city subscribing to the Victory Loan was broached by the Mayor, but it was pointed out by Ald. Rattenbury that the city's sinking fund would not permit of any withdrawals at present, as tax payments did not come in until later in the year.

It was agreed, however, that the city should accept Victory Bonds as payment for arrears of taxes.

C. P. R. superintendent McNabb [illegible] the council for use of [illegible] foreshore land belonging to the city for the purpose of constructing a team track with an approach from Water street. It was decided that if the conditions were favorable the city would consider leasing the land to the company.

The secretary of the Hospital wrote asking for a wider entrance to the Hospital grounds, and for a better lighting service at the gate.

The monthly police report showed a total of six cases, with $47 00 collected in fines.

The city clerk, Mr. G. G. Dunn, who had been on sick leave for some time was present, and received a hearty welcome back to his accustomed place.

School Column

By Principal Gordon

Senior grade pupils should read the newspapers very carefully these days. You should read to your parents and ask questions about things you do not understand. The map of Europe should be always at hand so that you can consult it. Try to get some idea of the battle-front at the time of the signing of the armistice. Trace the course of the Rhine noting the chief cities on its banks or near it and the countries through which it flows.

In history you should read the Stuart period. Compare Charles the First and the Kaiser of Germany. What caused their fall?

Practise grammatical analysis of the five sentences on page 91 of your grammer text-book. Do the analysis on loose-leaf sheets so that your work may be handed in when school re-opens.

In arithmetic review lumber measure and do all the sums on page 176.

Read everything about microbes in your "How to Be Healthy" Now is the time to study them.

* * *

In the coming years of reconstruction the people will have more and more to say about the sort of training their children are to receive. But, if increase of conscious democratic power is not accompanied by a deepening of thought and a broadening of outlook, our educational systems will be at the mercy of noisy faddist and shallow minded self-advisers. If the people are to lead they must prepare themselves for leadership, else democracy will fail as miserably as autocracy has. The people must at the very least qualify themselves to express intelligent opinions about the policies of their chosen leaders.

With this end in view I propose to give in this column expressions of opinion on educational matters by leading educationists.

This week's quotation is from "Problems of To-morrow" by an English writer—Dr. P. T. Forsyth.

"Early specialisation is a wasteful mistake. It is instruction in a hurry. All specialisation, if it is to be fruitful, requires a certain amount of real education to enable the mind to take advantage of it. Let me illustrate. When technical schools were set up in Germany the thing was done with the national thoroughness, and the youths were shot out into their specialized studies at a very early age. But it was soon found that there had not been bred in them enough general intelligence to take advantage of the special facilities; so several steps had to be retraced, and the period of general education prolonged. By the time the Germans had discovered this, however, we had become alarmed at their industrial superiority and we had begun to imitate them and their initial mistake. We set up technical schools too. But we have had to make the same discovery and the same retreat. Let us realize that it takes a good deal of general culture to make a proper and fertile use of technical facilities, and that premature specialisation defeats its own end, like feeding infants on lobster and pickles!

Kelowna Expects to Win the Honor Flag

Will Go Over the Top Before Saturday when Campaign Closes

The Victory Bond campaign is nearing its end, and although Kelowna has still about $25,000 to gather in, there seems to be no doubt that the grade will be made. $200,000 is the mark set, and up last night $175,050 had been handed in to headquarters. The canvassers are bent on reaching that quota and going something beyond it too. Get busy and help them to hoist the Honor Flag before the campaign ends.

Number of "Flu" Cases Diminishing

Six Orientals Have Died During the Week Making Total Death Roll of Ten

After a rather sharp outbreak in Kelowna of the influenza epidemic which has run the total number of reported cases up to 150, the trouble is believed to be again on the wane. Only a very few new cases have broken out during the past few days, and there are no really critical cases under treatment. Six deaths have occurred during the week, bringing the total death roll up to ten. Eight of these were Chinamen, one a Hindoo, and one a Jap.

Three emergency hospitals have been opened altogether to accommodate the patients. The one in the High School for white people has already been mentioned. In addition the old Lum Lock building on Ellis street was fitted up for the Chinamen, with Principal Gordon in charge. He was obliged to reliuquish this duty, however, owing to Mrs. Gordon developing the disease, and the ven. Archdeacon Greene heroically took his place until things had improved sufficiently to release him. A hospital for the Japanese was started under the management of Mr. K. Iwashita in Harvey avenue, and has done good Tork.

The precautionary measures are still in force, and if the public continue to take care, the medical health officer states, the danger will soon be over.

Mr. and Mrs. Scott Blackwood, of Westbank, received news last week of the death, at Riverhurst, Sask., of their only son Francis Melvyrn Blackwood, at the age of 32. Deceased was manager of the Bank of Commerce at that point.

Kelowna Celebrates Peace in Wild Burst of Joy

Work Abandoned for Day Citizens Give Themselves Up to Riotous Enjoyment

News that Germany had indeed signed the armistice terms, and her own death warrant as a fighting force, came to Kelowna by seven o'clock Monday morning. People were cautious, however, after last Thursday's false alarm, and the whistles did not begin to announce the glad news until about 9 o'clock. When the truth at length began to penetrate the effect was electrical. Work was dropped with one accord and sober citizens began to cut loose like a school dismissed. The first thought was to get some decorations out, and soon everything in the nature of a flag, or which bore even the national colors was bought up. Patriotic people who wanted to run up a flag the size of a bed sheet could get nothing more imposing than a little printed Union Jack on a paper napkin.

The outburst was entirely spontaneous. No preparation had been made for a celebration, and all that could be done was to commandeer everything capable of producing noise, and produce. Fireworks were soon gone, but coal-oil cans remained. A hastily organized "band" paraded the street, and in short "joy was unconfined."

Towards afternoon a plan was formed to organize a real celebration and a procession was announced for 2.30.

The convenient roof of the "Courier" office was utilized as a platform for the preliminary ceremonies, and the Mayor, Mr. J. W. Jones, M.P.P., and the local clergy addressed the crowd below.

The ven. Archdeacon Greene led with prayers of thankfulness for victories won and the Doxology was sung. Little was heard of the speeches except by those close by, but it was sufficient that they were punctuated by deafening cheering and waving of flags.

Mr. J. W. Jones spoke of the events which had led up to the great finish of the war, and read the terms imposed upon Germany. The Rev. E. D. Braden took occasion to enforce the claims of the Victory Loan.

The flags of the Allied nations were displayed, and later carried in the procession.

At length amid screeching whistles a start was made. An automobile containing Mr. Hugh Rose with his bagpipes led the van. Next came a motor truck with a good muster of returned veterans, the Mayor with Mr. J. W. Jones and others, the two fire engines, fully equipped with noise-making contrivances, the Boy Scouts the Cubs, shouting and banging away for dear life, followed a car decorated by the National Service girls, and a string of motors, rigs and wagons half a mile long—and everybody yelling, blowing a trumpet or beating a drum! The procession made the round of the city and then broke up into different units keeping up the fun until they were tired out. When the boat came in the noise broke out again. It was a great and glorious time.

In the evening beacon fires were lighted on Dilworth, Knox and Black Mountains, and bonfires were also built in the middle of main street. Effigies of the Kaiser were burnt in many places.

It is to be feared that several private stocks of liquid refreshment suffered sad depletion, but nothing was allowed to interfere with the general rejoicing.

Mr. Homewood, who has started up in the upholstering business, asks that orders be left at the workshop, near Morrison Hall, on Lawrence Avenue.

"Victory" Chapter of Daughters of Empire

Branch of Great Women's Patriotic Organization is Formed in Kelowna

The Imperial Order of Daughters of the Empire has been one of the most useful organizations during the war in promoting women's work of all kinds, and it is pleasing to note that Kelowna has at length fallen into line by the formation of its first branch. This move has been in contemplation for some time, but on Monday last in commemoration of peace, a number of ladies met at the home of Mrs. Telford and formed the "Victory" Chapter of the I.O.D.E.

Mr. J. W. Jones was present and spoke a few words on the aims and objects of the Order, and complimented the ladies on the commendable day chosen to organize.

The avowed objects of the Order are to stimulate patriotism amongst women and to unite women in all parts of the Empire.

The officers elected were as follows: Regent, Mrs. Norman Telford; First Vice Regent, Mrs. J. W. Jones; Second Vice Regent, Mrs. W. Perry; Sec., Mrs. B. McDonald; Echo Sec., Mrs. C. J. Packham; Treasurer, Mrs. Ambler; Standard Bearer, Mrs. W. Lloyd-Jones. The other Charter members are Mesdames L. Dilworth, F. M Buckland G. A. Barrett, R F. Morrison, and W. H. Gaddes.

The meetings are to be held on the fourth Monday of the month at the homes of the different members, at 3 p.m. The next meeting will be at the home of Mrs. J. W. Jones.

Lieut. C. Hereron Gets Wounded

Mr. M. Hereron received a wire this week telling of the wounding of his son Lieut. Charles Hereron. No statement is made as to whether seriously or not, but it is to be hoped not. It would be hard lines on Charlie after going through so much if he were to be badly hurt right at the finish.

Germany's Downfall is Now Complete and Final

Armistice Terms Will Give No Chance to Start Fighting Again

Although a little premature the announcement of last week that Germany had surrendered was justified before very long, as indeed everyone expected it would be. Beaten in the field, exhausted financially and economically, with their Emperor a hunted fugitive and revolution closing in from all sides, Germany could not but sign the Allies' terms and end the war, drastic though those terms must have seemed. Immediately the news of the signing of the armistice and the conclusion of the fighting was officially announced, such a spontaneous outburst of rejoicing broke out all over the Allied countries as has never been known before.

On the ruins of the German Empire is arising, according to despatch, a new republic, absolutely eliminating autocracy and militarism. Though accomplished as yet with little bloodshed, famine is a spectre which is haunting the new rulers.

Following is a summary of the chief armistice clauses:

1. Cessation of hostilities.

2. Immediate evacuation of Belgium, France, Alsace-Lorraine, Luxemberg, to be completed within fourteen days.

3. Repatriation within fourteen days of all the inhabitants of these countries.

4. Surrender of 5000 guns,—half heavy guns and half field guns,—30,000 machine-guns, 3000 minenwerfer, 2000 airplanes.

5. Evacuation of the country on the west bank of the Rhine.

6. No harm to inhabitants of this section, and no destruction of cattle and industries.

7. Surrender of 5000 locomotives, 50,000 wagons and 10,000 motor-lorries in good working order, to be delivered to Allies during next fourteen days. Railways of Alsace-Lorraine to be handed over with material, etc.

8. German command shall reveal mines, location of poisoned wells, etc.

9. Immediate release of Entente and Allied prisoners without reciprocity.

10. Medical treatment for sick and wounded Entente prisoners.

11. German troops now in Russia, Roumania and Turkey to withdraw within frontiers of Germany as they were before August 1, 1914.

12. Evacuation by German troops to begin at once, and all German instructors, prisoners and civilians, as well as military agents, now on the territory of Russia, to be recalled.

13. German troops to cease at once all requisitions and seizures in Roumania and Russia.

14. Abandonment of the treaties of Bucharest and Brest-Litovsk.

15. The Allies shall have free access to the territories evacuated by the Germans on their eastern frontier, either through Danzig or by the Vistula in order to convey supplies to the population of these territories, or for any other purpose.

16. Unconditional capitulation of all German forces operating in East Africa within one month.

17. Repatriation without reciprocity, within a maximum period of one month, in accord with details hereafter to be fixed, of all civilians interned or deported who may be citizens of other Allied or associate states.

18. Reparation for damage.

NAVAL CONDITIONS.

19. Cessation of hostilities.

20. Repatriation of Allied prisoners.

21. Surrender of 160 submarines, including submarine cruisers, equipment, etc.

22. To be interned at Allies' order: Six battle cruisers, ten battleships, eight light cruisers, including two mine-layers, fifty destroyers of the most modern type. All other surface warships (including river craft) are to be concentrated in German naval bases to be designated by the Allies and the United States, and are to be paid off and completely disarmed under the supervision of the Allies.

23. Allies have right to sweep up mine-fields.

24. Freedom of access to Baltic and removal of mines.

25. Blockade against German merchantmen remains.

26. Naval aircraft to be concentrated and immobilized.

27. All ships, stores and materials left in Belgian ports to be abandoned by Germans.

28. Black Sea ports to be evacuated.

29. Merchant ships in German hands belonging to Allies to be returned without reciprocity.

30. No destruction or damage during surrender.

31. Germany to notify neutral governments that all marine restrictions are removed.

32. No transfers of German shipping to neutral flags in meantime.

33. Armistice to last thirty days, with option to extend.

34. Armistice to be accepted or refused within seventy-two hours.

The Bank will trust you

Perhaps you never had an account in a bank—maybe you've never done business in a bank—hardly even cashed a cheque in one. But—

that is no reason why you cannot go to a bank and borrow money to buy Victory Bonds.

If you are a steady, industrious, thrifty citizen, working and saving a part of your income, you are just the kind of person Canada's chartered banks stand ready to help to-day.

Any bank will lend you as much money as you can save during the next twelve months, with which to buy Victory Bonds.

All you have to do is to pay ten per cent. of the amount you want to buy and deposit the receipt for that ten per cent. in the bank.

The bank will lend you the 90 per cent. balance at 5½ per cent. interest and will give you a year to repay it, the interest you get on your bond being just the same as the bank charges you.

This is a fine opportunity for you to begin a real savings account, to make a first class investment and to help your country at the same time.

Why not see a banker to-day—he will tell you all about it and you will be glad of the advice and help he can give you.

Borrow and Buy Victory Bonds

Few of us have as yet been able to adjust our ideas to the thought that the war is no more. The spontaneous outburst of rejoicing at the news that Germany had given in, proves, if any proof were needed, how much the whole horrible business had got peoples' nerves keyed up. And now the tension has been suddenly released. Instead of looking eagerly for war news we shall have to remember there is no war and news is chiefly concerned with the cleaning up of the mess. It is just the morning after, in fact, and although fascinating enough to the student of economics and world politics, it will have lost its grip for the great mass of people.

One thing is evident, however, that a huge feeling of relief and thankfulness has taken possession of people's hearts—relief that the slaughter and turmoil is over, and thankfulness that the work has been brought to so successful a conclusion by the complete downfall of the enemy.

The nation will not forget to honor the men who have done this thing. The soldiers who have fought and died, or fought and still live, and the great leaders of the different peoples who have borne the great burdens of organization and direction of effort. Paralyzed for so long at the outset by want of preparation to meet the powerful barbaric military machine, the obstacles were finally overcome, and those who have done this have achieved a mighty service.

Correspondence

Readers are reminded that opinions expressed in letters inserted under this heading are not necessarily endorsed by us. Letters should be as brief as possible and to the point.

To the Editor of
The Kelowna Record.

Dear Sir,—I trust you will grant me the favor of space in your publication for a few remarks regarding the state of the roads in the Kelowna and other districts in the valley, more particularly in view of the obvious fact that the motor truck for use in hauling fruit, vegetables and other commodities, has undoubtedly come to stay.

It cannot be too strongly brought to the attention of the government at Victoria by the Automobile and Good Roads Association, Boards of Trade and Farmers' Institutes, &c., that larger amounts of money will be urgently needed in the immediate future to make our roads suitable for the rapidly-increasing amount of motor traffic of all descriptions.

I remember clearly the time in the Old Country when all authorities interested in the making and upkeep of roads were faced with the same problem. It was then proved beyond doubt that motor traffic of every kind had a far more disintegrating effect upon the top surface of roads than ordinary horse-drawn vehicles, and especially good and hard materials for the macadamizing of roads were found to be necessary.

It is not likely that parties interested in hauling will be content in the future to continue to utilize motor trucks with a haulage capacity of only one to one and a half tons. They will be looking for trucks capable of hauling from two to three times this amount, as the cost of the man in control of the truck would be the same in any case. When the use of these heavier trucks becomes prevalent our troubles will begin as the roads as constituted at present are absolutely unfitted for such vehicles.

I understand the appropriations for roads, bridges, &c., are considered by the powers that be at Victoria some time in December in each year, so that time is now the essence of the contract and this matter should be brought to the notice of the government authorities forthwith.

Thanking you in anticipation of your kind indulgence,

Yours very truly,
G. A. CHICK

Boy Scout Column

Edited by Pioneer. Nov. 12, 1918

Transcendent above everything else is the realization that at last the long black night is over and a new day has dawned. The terrible suspense under which so many whose husbands and boys are over there have been living, is now lifted, and there has rightly been much rejoicing such as we have never been able to fully enter into since August 1914. At the same time though, while we all rejoice we do not forget that at this time there are many sad hearts in the loved ones left behind of those who paid the price and made it possible for us to rejoice to-day. In the new day which has dawned we must never let these sad hearts feel that the price was paid in vain. The only real object in life for any of us who are left must be to make that part of this old world in which we live and move, be it great or small, something worth the sacrifices that have been made for it.

For the scouts a wonderful future is in store now that the senior scouts and officers who have taken part in the great fight will be coming back. From thousands and thousands of letters that have come from scouts on active service, we know that the scouts to them is one of those things which in the turmoil and stress of these last four years has seemed something worth while. We have suffered through loss and lack of our best officers and scouts, and now that will soon be ended.

One of the saddest things in connection with the war has been to see our young boys growing up during these last few years and to realize what was in store for them so soon as they turned into young men. In our troop when the war broke out all our eldest scouts even were in their early teens, so our Honour Roll is not a long one, and now that it need grow no longer as it would have by leaps and bounds from now on, is a cause for heartfelt thankfulness in us all.

We were all deeply grieved to

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that I, David E. Gellatly, whose address is Gellatly, B.C., will apply for a licence to take and use 260 acre feet and to store 260 acre feet of water out of Lake at headwaters of Powers Creek, lying to the West of Horseshoe Lakes, which flows South and drains into Powers Creek. The storage-dam will be located at outlet of lake. The capacity of the reservoir to be created is about 260 acre feet and it will flood about 25 acres of land. The water will be diverted from the stream at a point about present point of diversion under Record No. 746 about ½ mile from Okanagan Lake on D. Lot 487, and will be used for Irrigation purpose upon the land described as District Lot 487. This notice was posted on the ground on the 18th day of October, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is Thursday, October 17, 1918.

Victory Bonds provide a market for British Columbia Mines and Smelters

Of Canada's total production in the calendar year 1917, of copper, lead and zinc, amounting to $35,750,000, British Columbia produced $21,350,000.

For the fiscal year ending March 31st, 1918, Canada sold on credit to Great Britain and the Allies more than $46,000,000 worth of metals, the greater part of which were produced from the mines of British Columbia. That was more than three times the average exports for the three preceding years.

The Victory Loan 1917 made this production possible because it enabled Canada to give credit to Great Britain and the allies for their metal purchases in this country.

Without this market the mines and smelters of British Columbia could not have sold their outputs.

But the mines have had a market for their ores. The smelters have turned out tremendous quantities of copper, lead and zinc.

This production has not only brought prosperous times to the miners but it has been a mighty factor in helping to win the war, for these metals were absolutely necessary to the production of munitions in both Canada and Europe.

The Victory Loan 1918 will keep the good work going. British Columbia will continue to have a market for her metals and other minerals and these will help to win the war.

By buying Victory Bonds you enable Great Britain to secure needed materials for munitions and you help to maintain prosperity in British Columbia.

TOWN AND COUNTRY NOTES

The war is no more.

Jim Pettigrew came back from the coast Tuesday.

It would have gone hard with anyone whose home caught fire Monday afternoon.

It was a talented musician who on Monday drew melody from the big drum with the aid of a couple of feet of galvanized iron pipe.

Miss Pell, who has been the guest of Mrs. and Miss Millie for some weeks, left on Monday's boat for the south. Many of the young people with whom Miss Pell was popular gathered at the wharf to say farewell.

Sympathy is expressed for those in town who received cables on Monday announcing casualties amongst their relatives and friends at the front. Singularly enough there were more of these than usual and English mail at night, which brought many letters of bad tidings.

Corp. Philip Shaw, son of Mr. and Mrs. A. H. Shaw, of the K.L.O. bench, who has been in France since 1915, crossing from Kelowna with the 102nd R.M.R.'s and later being transferred to a signalling corps, has been awarded a bar to the military cross he won some time ago. for "gallantry and devotion to duty in action."

ANNOUNCEMENT

All members of the Benvoulin Local U.F.B.C. are requested to attend the opening meeting on Tuesday Nov. 19, at 8 p.m., at the school.

The boys will soon be coming home.

An old gentleman (presumed to be a little hard of hearing), when seeing the celebrations Monday morning exclaimed "Why on earth didn't they blow the whistle!"

Not everyone seems to know that the grouse season is now closed for the present year. Only ducks, geese and deer remain open until December 15th.

The syndicate of local Japanese who purchased the 40 acres of land near Mr. DeHart's house, are getting to work preparing it for next season's crop. A tractor and gang plow is tearing up the soil.

Sergt. T. McDonald, says an old country paper, who was killed on September 2nd, has been awarded the military cross. Sergt. McDonald was once a Kelowna man engaged in government road work in the district.

Mr. W. Kaiser and son left Sunday on a very extended tour of foreign countries, commencing with Holland. Victory Bonds will help to keep them moving.

Wm. Fraser, a former Kelowna printer, but of late living on his ranch at Anglemont, near Salmon Arm, died a few days ago at New Westminster Hospital of influenza. He leaves a wife and two children.

Dhu Lipa Singh, a well-known local Hindoo, has fallen a victim to the flu, passing away Tuesday at the emergency hospital. He was badly injured during October in a runaway accident, and had not fully recovered. Another Hindoo, Baga Singh, is amongst the sick.

Last week-end a number of Italians got into trouble with the provincial police on account of offences against the game laws and also for trespassing on private property in order to shoot. On Thursday Martin Angelo and Joe Lefranco were each fined $10 and costs for trespassing on the K.L.O. in pursuit of game. On Saturday Sam Turia and Louis Guidi met a like fate. The latter was also fined an additional $25 for shooting a hen pheasant, and had his gun forfeited besides. He said he mistook it for a grouse, but as grouse are also now out of season this did not help him.

Okanagan Ambulance League

During October the following articles, valued at $438, were sent to headquarters: 42 shirts, 35 ties, 5 surgeons operating gowns, 10 dozen face cloths, 11 towels, 42 suits of pyjamas, 60 stretcher caps, 60 personal property bags, 138 pairs of socks, 1 pyjama coat.

During the month Okanagan Mission sent in 11 suits of pyjamas, 1 separate coat, 14 personal property bags, 11 pairs of socks, 12 stretcher caps, 5 pieces of old linen; Benvoulin sent in 11 dozen face cloths, 11 towels, 7 stretcher caps, 6 pairs of socks, 5 surgeons operating gowns.

The following contributions are gratefully acknowledged: Mrs. Jones, 1 pair of socks; Mrs. W. E. W Mitchell, 2 pairs of socks.

Cash contributions for the month were as follows: J. Ball $1, Mrs. Langille $5, "Fair Day" Proceeds $79.27, Dominion Cannery collection $70, Mrs. R. E. J. Hunt 50c, B.C. Growers $8.40, Mrs. F. A. Taylor $2.50, Mrs. Trench $2, Mrs. Fumerton $5, Miss P. Harvey $4, Mrs. Gaddes $4, Mrs. Weeks $4, Mrs. Temple $3, Western Canners $5 08, Occidental Fruit Co. $5.85, together with a balance from September of $311.40, making a total of $556. Expenses for the month were $66.85, leaving a balance in hand of $489.15.

What Will Become of the Kaiser?

Following his abdication William Hohenzollern is reported to have fled to Holland, but it is doubtful if he will find a safe haven of refuge anywhere. In all probability he will have to stand trial along with his fellow conspirators for the harm they have done.

After the sinking of the Lusitania and during the early days of aerial raids on London he was three times indicted for murder in England. Under international law it is said requisition for his extradition may be made by England under the indictments still standing against him.

According to official figures, Germans had been long engaged in securing profitable investments in Canada. At the beginning of the war German capitalists had over $32,000,000 invested in Canada—chiefly in B.C. A close analysis of these investments show that British Columbia coal mines and coal lands mortgages and mineral lands, to the value of twenty million dollars was held by a German Junker syndicate headed by Wilhelm Hohenzollern.

BOY SCOUT COLUMN

(Continued from Page Two.)

learn that dear old Fong, our last summer's camp cook, was one of the first locally to succumb to the ravages of the "flu" epidemic. He developed pneumonia on top of it which made it an unequal contest for him as his vitality had been sapped through a severe attack of smallpox from which he suffered on a trip to China some ten years ago. Fong had been cook for Mr. DuMoulin in Nelson, and when he moved to Kelowna with his family in 1905, Fong decided that he would come to Kelowna too. He was with Mr. DuMoulin ever since with the exception of a few short periods, during one of which he went to China. Last summer when we were at a loss to find a cook for our camp, Mrs. DuMoulin very kindly came to our rescue by loaning us Fong, and he certainly proved "a good scout." In his last illness all that careful and kind nursing could do for him was done at the home of the family he had served so faithfully, but he did not have a chance. Fong did not die a Christian, but with the light that was given him, in fidelity to his master and in affection for those who showed kindness to him, he measured up to the standards of our Christian faith, so that for him now it is surely not too much to feel that "somewhere the sun is shining."

• • •

We cannot let this column go by without mentioning the fine big "Good Turns" being done by two members of our committee in the persons of Cubmaster Gordon and Archdeacon Greene, who have been nursing the Chinese ill with the "flu" in their isolation hospital.

How Many Crowns for Your Honor Flag?

Of course every city, town and district will earn its Honor Flag.

But how about the crowns?

For every twenty-five per cent. in excess of its quota, each city, town and district will be entitled to add a crown to its flag.

Can you do fifty per cent. better than your quota—that means two crowns for your Honor Flag.

But double your quota and it means four crowns.

Hang a Flag in your hall, that for years to come will show that your city, town or district did better than well—

That it was a real factor in the huge success of CANADA'S VICTORY LOAN 1918.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada
