Discuss Repairs to Pendozi St. Bridge

Council Again Asked to Give Cheaper Water Rates For Gardens

The Pendozi street bridge was again the subject of discussion at the regular meeting of the city council last Monday morning. On behalf of the Board of Works, which had been instructed to take the matter up and obtain expert opinion, Ald. Harvey submitted a report which included a map showing repairs considered necessary to put the bridge into a safe and satisfactory condition for traffic. The plan called for concrete abutments on each side of the creek, carried up so as to form supports for the central span of the bridge. Mr. Harvey explained that these abutments could be made to serve the purpose of retaining walls, and at some future time the earth could be filled in behind them, thus cutting down the length of the bridge by more than half, and doing away with the necessity of renewing the ends which were already in an advanced state of decay, and could not be expected to last more than a year or two. A rough estimate of the cost was between $800 and $900.

The necessity for spending so much money evidently came as a shock to the council, though they admitted that to carry out the plan would make a good permanent job.

Ald. Rattenbury said he had thought that by driving a few piles and jacking up the bridge and supporting it where necessary, it might have been put into shape to last several years.

Ald. Harvey said that the contractors had given it as their opinion that to drive piles in the way suggested would cost at least four or five hundred dollars, and as the job would be a very temporary one there would not be much to show for it. Also in a very short time they would have to renew the ends, which would be a very expensive job.

Mayor Sutherland suggested as an alternative the carrying out of a portion of the proposed plan, putting in concrete foundations which could be used as supports for the present structure. The rest of the work could then be completed at some future date.

It was eventually decided to have specifications prepared, and to call for tenders.

Mayor Sutherland called attentation to the fact that there was at present no regular medical health officer for the city, and the matter was referred to the Health committee to make arrangements.

It was mentioned that Mr. D. Mc Hillan had asked permission to place irrigation water on to his land on Richter street, connecting with the ditch in Ethel street, and conveying the water down one of the lanes north of Bernard avenue. It was arranged that Ald. Harvey and Duggan should go over the ground and report.

Discussion on the former subject brought up the old question of the city allowing a cheaper rate for water used for gardens and lawns. It was Ald. Buck who pointed out that in view of the present demand of the government for greater production, it was very desirable that some such arrangement should be made.

Although a report obtained last year had shown such a scheme so be beyond the capacity of the present pumps, it was decided to go into the matter again.

Announcement was made that an offer had been received for some property which had come into the possession of the city through the tax sale. The price offered was the accumulated arrears of taxes and interest, A small amount had been paid as a deposit. As the council desired to give the original owners every chance to redeem their properties, it was decided to hold the matter over until the former owner had been notified.

The monthly police report showed five cases before the magistrate, and the amount of fines paid, $67.50. Trade licence fees collected had amounted to $160.00, and dog licences to $12.00. A total of 37 complaints had been received by the police and investigated.

Mr. Wilson Macdonald is arranging to produce "In Sunny France" in Vancouver as a part of the coming B. C. Commercial Travellers' War Dance programme in aid of the Patriotic Fund.

Provincial Taxes Will Likely Be Raised

Must Have Increased Revenue from Somewhere---Consider New Taxes

The intention of the provincial government to raise existing tax rates and to impose new forms of taxation in order to raise funds for provincial administration purposes, including maintenance and bond interest is forecasted in what is apparently an inspired article in the Victoria Times. In part it says:

"A number of suggestions have been made to the government as to method by which the revenue may be increased and new sources of income which might be tapped. The government has also before it the systems of other provinces, and these are all being considered together with the plans which the members of the executive themselves have to suggest.

"It it certain that efforts will be made to get the income tax paid regularly, and to secure the large amount of arrears which are outstanding. It is not unlikely that the rate of taxation on the larger incomes will be increased.

"There will be a revision of the taxation on automobiles beyond a doubt. One of the matters which is before the government is that of a tax on theatre tickets, a method of taxation which has been introduced in Quebec and other provinces. Consideration is being given to the rate of taxation on real and personal property, wild lands, coal lands, corporations, railways, and other sources from which a considerable proportion of income now comes.

"Whatever the decision of the ministry may be, the one thing that stands out clearly, as has already been stated is that there must be a larger revenue found somewhere. By what means it will be raised will be seen when the budget speech is made."

Westbank News

(From our own Correspondent.)

Mr. A. Nicol, snr., is spending a few days with friends in Kelowna.

Mrs. J. H. Campbell has been visiting at Glenrosa this week, being the guest of Mrs. G. Elliott.

The packing school has been postponed on account of severe frost and not having a convenient place to hold it in.

Mr. Ben Hoy has been conducting a pruning class here this week. Seven students were seen to take a great interest in the "art."

Mrs. J. W. Nichols, of Okanagan Landing, and son Fred, are visiting her sister, Mrs. Marren, of the Lakeview hotel.

Miss Gellatly was a visitor to Kelowna on Saturday and seemed to have had a busy time judging by the parcels.

Miss L. Morrison, of Peachland, arrived on Monday's boat to take up her duties at the school during the absence of Miss Weeks.

Miss Weeks left the hospital on Friday to go to her home at Penticton, but was in a very low condition, having to be carried on and off the boat.

The school trustees have been obliged to appoint a substitute for the school owing to the illness of the teacher, as there are quite a few boys trying for their entrance this year.

The King Edward clock has arrived and has been placed in position this week. It makes a decided improvement in the school, and just appropriated the funds to five cents.

Mrs. Curtis Hitchner, of Glenrosa was a passenger on Saturday's boat accompanied by her son in khaki. He sure looked fine, with three stripes on his arm. Bert. Hitchner also made the trip.

Mr. Butt, one of the trustees, was in Kelowna Saturday looking out for a teacher for the school. The Rev. Mr. Dunn kindly offered to fill the vacancy if one could not be found, which was very kind of him.

There was a large number of passengers to Kelowna Saturday, the Liberal Association holding a meeting in the city to recommend appointees for government positions. Mr. J. H. Campbell, president of the Westbank Assn., and M. A. Nicol, jnr., secretary, were in attendance. Mr. D. E. Gellatly represented the Gellatly district.

Kelowna Creamery Enlarges It's Plant

Heavy Cream Shipments Are Looked For This Year

Extensive alterations and improvements are being made this week at the Kelowna Creamery in preparation for the coming heavy shipping season, which it is expected will show some big figures in butter production In the first place the premises have been enlarged by the addition of the adjoining store, a doorway having been made to connect the two. In this new addition space will be provided for storage of cans, boxes, etc. This will relieve the overcrowding which has been gradually getting worse, and makes room for several important additions to the plant. These include a 250 gallon ripener, thus more than doubling the capacity of the creamery in this respect by fifty gallons. A larger print cutter, handling a whole fifty pound box of butter at once has also been purchased and several smaller items which have been rendered necessary.

All this necessitates considerable rearrangement, and it will most likely be a few days before the creamerp will be in proper shipshape again.

Since the creamery has started there has been a gradual increase in the number of cattle in the district. Many good cows have been brought in from outside points, and farmers have been paying more attention to the raising of their young stock. Much of this young stock will be coming in this spring, and from present indications the receipts of cream from farmers will show an enormous increase.

South Okanagan Member Gets Busy at Coast

Our new member for the district, Mr. J. W. Jones, M. L. A., is already giving evidence that he has not gone down to the coast merely to enjoy a good time along with the rest of our British Columbia legislators. Mr. Jones is nothing if not energetic, and according to accounts which reach us through the coast papers, he is already getting on to the trail of some of the obstacles to South Okanagan's progress.

In an endeavor to get Vancouverites a little closer to the interior orchards, says a recent issue of the Province, the South Okanagan member has just interviewed the Dominion Express officialswith a view of obtaining a cheaper express rate ver the Kettle Valley Railway and the C. P. R. from Okanagan Lake points to Vancouver. At the present time the same express rate to the coast from Penticton or Kelowna holds good on either the K. V. R. or C. P. R. Sicamous route, although via the K. V. R. from one to two hundred miles is lopped off the distance.

On account of the shorter haul by way of Penticton and the consequent saving in time, the South Okanagan member argues that if a lower express rate were given by the express company that way a good deal more Kelowna and other Southern Okanagan fruit would be expressed into Vancouver as it would have a better chance of competing with Washington fruit sent in over night from Seattle.

In addition to taking up the matter of reduced express rates on fruit via the K. V. R., Mr. Jones also urged the appointment of an express agent at Naramata, with the result that the company has practically agreed to give favorable consideration to the request.

With the Dominion postal authorities in Vancouver Mr. Jones has urged the extension of the Kelowna rural mail delivery to cover the North Kelowna and Woods Lake district. He states that the post office at Vancouver has agreed to recommend the extension to Ottawa.

Dairying, Stock Raising and Seed Growing

Excellent Series of Farmers' Institute Lectures---Endorse Advertising Campaign

In the series of meetings held in the district this week under the auspices of the Farmers' Institute, special emphasis was laid upon dairying and stock raising, and the list of speakers included several well-known experts in this branch of agriculture, which bids fair in the not distant future to rival that of fruit-growing. Farmers are coming gradually to realize that for climate, soil, and general condition the district is admirably adapted to the raising of corn, alfalfa, and other valuable fodder crops necessary for successful dairying, and that moreover mixed farming methods are safer than a too exclusive reliance upon fruit-growing alone. Seed-growing was another line upon which much enlightening information was given, and though yet, so far as this district is concerned, in the experimental stage, it is safe to predict that the production of several kinds of seed will increase, and lessen the dependence of the district upon outside sources.

The meetings commenced in Kelowna Tuesday morning with a demonstration of live stock judging at the Bankhead Farm by Prof. J. A. McLean and Dr. Knight, and those who attended received some valuable pointers.

Prof. McLean is recognized as one of the leading live stock authorities of the rontinent. He came from New England to take the professorship of animal husbandry at the College of Agriculture at the B. C. University, and his remarks are always replete with practical live stock ideas and suggestions. Dr. Knight is the chief provincial veterinary inspector, and he had much of interest to say about the care and treatment of stork in health and disease.

In the afternoon Mr. A. F. Wiancko, dairy instructor with the provincial department of agriculture, and one of the best known dairymen in the province, gave an interesting talk on dairying matters. He laid especial stress upon the need of forming a cow testing association in the district for the purpose of improving the milk-producing efficiency of dairy herds and weeding out of unprofitable "boarders." Greater care in the handling of cream was also advocated, so that a high standard of butter might be maintained. Speaking of the dairy industry in Denmark, Mr. Wiancko mentioned that a farmer in that country who brought in a poor quality of cream to the creamery was held in disgrace by his neighbors. He was pleased to note the success which had attended the establishment of a creamery in Kelowna, and believed that conditions in the district were highly favorable to the building up of a profitable dairy industry.

Mr. J. R. Terry, chief poultry instructor, and an energetic "chicken man," gave a short talk on this subject, and Dr. Knight supplemented his remarks of the morning with a more detailed account of the common stock ailments.

In the evening Mr. Terry, by special gave a more extended lecture on poultry keeping, and the little wrinkles on incubation and bsooding which make the difference between success and failure.

On Wednesday afternoon Prof. McLean dealt with some of the economic aspects af live stock raising, while Mr. W. E. McTaggart, whose valuable work last year as prairie markets commissioner is well-known, gave an instructive address on this very necessary end of the fruit business.

Mr. McTaggart pointed out the need for the vigorous advertising campaign which is being projected by the B. C. Fruitgrowers' Association, more especially in view of the embargo which it is proposed to place on fruit from America to Great Britain.

Last year a total of 5,400,000 boxes of apples went from the United States to Great Britain, and from Canada 3,600,000 boxes, and if fruit shipments were stopped, this nine million boxes would have to be marketed elsewhere. The prairie provinces were the natural market for B. C. fruit. Last year the total prairie consumption was 1,443,600 boxes, of which British Columbia contributed 648,800, or over two thirds of the total 900,000 boxes produced in the province. As much of the fruit from America and Eastern Canadawhich had been going to England would be offered on the prairies, it would thus be seen that if B. C. was to hold the market she had gained there, a very vigorous policy of advertising would have to be followed.

Last year the province spent $6,000 in advertising its fruit. $1,550 of this was contributed by the shippers at the rate of one dollar per car, and the balance by the B. C. government and a special grant of $1,000 from the Dominion.

This year it was desired to raise $10,000, and growers were to be asked to contribute through the shippers at the rate of one cent a box, or only one-fortieth of a cent a pound. This was a trifling sum compared with the benefits to be received from such a campaign.

It was apparent that Mr. McTaggart had produced a deep impression upon the growers present, for after the address a meeting was held and the following resolution endorsed: "That we endorse the idea of continuing and extending the B. C. fruitgrowers' advertising campaign for B. C. fruit, and to make this possible we approve the contribution of one cent per box on all small fruits, apples, crabs, and pears, and 10 per box on all soft fruits marketed in Western Canada."

The probable effect of the British embargo was also discussed, and the following resolution was passed: "That this meeting of growers having discussed the serious situation which has arisen owing to the embargo placed by the Old Country on the importation of apples it is resolved that the British Columbia Fruit Growers' Association executive be asked forthwith to take active steps to ascertain in all government and other quarters what can be done to alleviate the situation, and if necessary to call meetings of the growers throughout the fruit-growing districts of B. C. to further consider the question."

In the evening Mr. A. McMean, of the Dominion Seed Branch, spoke on the production of root and vegetable seeds, for which the government is seeking the cooperation of farmers at the present time. Mr. Ben Hoy lectured on the control of Fire Blight and other orchard pests, and Prof. F. M. Clement, who is in charge of the horticultural branch of the Agricultural College of the B. C. University, gave a timely address on orchard management.

Similar meetings were held Tuesday at Rutland and Glenmore. At Rutland the speakers included Mr. E. Hogan, soil and crop instructor for the province, who particularly emphasized the importance of good seed.

Government Spending No Money on Irrigation

Will Empower Banks to Lend Money for Protection of Users

Irrigation legislation which the provincial government will bring down this session is generally expected to be in the nature merely of a temporary expedient, a sort of stop-gap for the protection of the irrigationists until the time comes when a more permanent policy can be settled upon. The government, it is conceded, does not feel able at the present time to enter upon any undertaking to guarantee irrigation bonds, to assist in the taking over of water systems by municipal corporation or water municipalities or to develope government ownership of storage reservoirs and main ditches.

All that can be done this year, it is understood, will consist of making sure that the various systems are kept in operation for the season, so that the fruitgrowers will not have their orchards ruined by reason of the cessation of water supply.

The proposed legislation of the new Brewster government will likely be a measure enabling banks to lend money to irrigation companies for maintenance and repair purposes, and obtaining a first charge against the seasonal revenue. At the present time banks have no particular status in the matter, and naturally if they must rank as ordinary creditors, would refuse to lend money to the companies. The government apparently does not intend to put out any of its own money for the protection of the irrigationists, although doubtless its legislation will give it authority for that purpose if in any particular instance a company is not able to borrow from the bank. Naturally the companies will not be able to borrow more than a few thousand dollars from the banks, and that but for temporary repairs.

B. C. Legislature Opened Thursday

W. J. Bowser is Leader of Opposition---J. W. Jones is Deputy Whip

The British Columbia legislature opened on Thursday last with the usual ceremonies, after being postponed for several days owing to the death of the Hon. Ralph Smith, to whom sympathetic reference was made by various speakers.

The address from the throne, the reply to which was moved by Mr. H. C. Lane, of Victoria, as the youngest member of the House, gave little indication of the legislation which is to be brought up during the session. There are, it is stated, some thirty bills now in course of preparation, some well advanced and others as yet hardly ready for drafting. The law officers of the government are busy whipping the various measures into shape.

W. J. Bowser, M. L. A., will lead the opposition forces. At a caucus of the Conservative members Mr. Bowser was unanimously selected to fill the position. L. W. Shatford, of Similkameen was selected as chairman of the caucus James H. Schofield, of Trail was appointed party whip, and J. W. Jones, South Okanagan, deputy whip.

No indication has yet been given as to the attitude of the government towards the Prohibition vote, nor as to the course it intends to pursue Amongst the more important measures will be the Civil Service Bill, a new Elections Act, and a complete revision of the Land Act.

There will be too, a change in the system of road supervision. The old method of appointing road superintendents for various districts will be eliminated. The province will be divided into a number of districts, over each of which will be placed a qualified civil engineer, who will have under his direction road foremen.

More Letters From Front

Friends of Sergt. Ian MacRae, formerly police constable in Kelowna, and now with the Canadian forces in France, who have been repeatedly worried by rumors of his death, will be glad o learn that a letter has been received from him and that he is alive and well, or at any rate, nearly well, for he is just recovering from a four months' stay in hospital whither he had been sent by a nasty shell. He expects, however, to be back in the line any day now. His two brothers have not been so fortunate, for Pete, also well-known in Kelowna, is in England, minus his left arm, while his eldest brother has died of wounds. In spite of these misfortunes Sergt. MacRae shows the Highland blood that is in him by his declaration of "never give in!"

Dan McMillan also writes from France, having volunteered for a recent draft for the front. He is in the best of health and spirits, and looking forward to a chance at "Fritz," who, he says, is not so anxious to meet them as he was.

In Mexico there is a 150-foot bridge over a river that is composed entirely of mahogany, worth, at the present price of wood, almost $2,000,000.

An English farm is devoted exclusively to raising butterflies, of which more than 30,000 are sold annually.

Kaiser William has issued a proclamation to the German Empire announcing that the railway systems are now under military control.

The government has now under consideration the daylight saving plan proposed by Victoria City Authorities who want the clocks of the province set ahead one hour from March 14th. to September 15th each year. No dicision has been reached by the government.

A young engineer and architect of Pittsburg, has invented a wireless device that may be used to destroy submarines by causing an explosion of gasses that are always present in submarines. For several years the inventor was connected with the United States Corps of Engineers.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Applications for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory, the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the right applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion lands.

W. W. CORY,
Deputy Minister of the Interior.

Orders for Local Scouts

Kelowna Troop
Troop First; Self Last

Edited by Pioneer. Mar. 6, 1917

Orders by command for week ending 17th of March, 1917.

DUTIES: Orderly Patrol for week, Wolves; next for duty, Eagles.

PARADES: There will be the usual Patrol meetings during the week at the call of the Leaders.

Patrol leaders and seconds will parade at the club-room on Wednesday the 14th of March at 7.15 pm.

The Troop is suffering a loss it can ill afford on Saturday of this week when Scoutmaster Keown together with Mrs. Keown is leaving Kelowna for Vancouver. Mr. Keown is enlisting with the Engineers for active service and our sincere wish is that the ordinary course of his training will not permit him to reach the front before peace is declared in order that he may be back with us again. At a little dinner of the leaders and seconds on Saturday night last Mr. Keown was presented with a Thanks Badge which he has earned so well, and which will be his talisman to bring him luck in all places of danger in which he may find himself. Ever since coming to Kelowna he has actively identified himself with the local troop and his eager keen enthusiasm for scouts and all things scouting has been a stimulant to us all. It is hard to imagine how we are going to be able get on without him, but it is up to us to carry on, in the best way we can, so that when he returns to us he will find a troop of active scouts welcoming him back to his empty place in the councils of Kelowna First.

We are indeed glad that four members of our troop, Troop Leader DuMoulin, Patrol Leader Godfrey Groves, Second Leonard DuMoulin and Scout Jack Groves, were able to rescue Holland Burne from a very perilous position on Friday last. Mr. Burne was skating on the lake opposite Mr. Stirling's boat-house when the ice broke from underneath him and he was in the water up to his neck. The water was very deep there as it was a long way out, and the water at this time of the year is not exactly like a hot bath. In addition he was encumbered with a long heavy overcoat, but very fortunately had his hockey stick in his hands when he went in. Burne was unable to get out as the ice kept breaking with his weight every time he tried, so he just supported himself with his stick held out at arms length in front of him on the ice.

The ice was very thin and unsafe all around and it was a very serious situation. Some of the boys got a boat from the shore, but as soon as it struck the thin ice the bow jambed in it, and although they tried to break the ice and paddle at the same time, navigation was very slow and difficult. Another boy ran for a ladder somwhere but the four above named skated to the boat-house and were able to cut a rope from Mr. Stirling's yacht there. With this rope they skated away round on the thicker ice to where Burne was, but they could not reach him over the thin ice by throwing the rope, so they tied it to a hockey stick one of them had, and with each one holding the rope, they got down on the ice flat on their bodies in single file, the one behind holding the feet of the one in front, and sliding over the ice in this manner Second DuMoulin was able to get near enongh to Burne to let him grab the rope. They were then very fortunately able to haul him out without any further duckings. After a little stimulate to take away the effect of the icy water, (as he had been in it about ten minutes altogether), Burne was as well as ever and everything ended well, for which we are all very thankful.

It was very good work on the part of our scouts and we congratulate them most sincerely on the splendid way in which they used their opportunity. Particulars of of the rescue have been forwarded to Headquarters and all that we can say now is that we shall hear more of it.

The new rules relating to Tenderfoots and Second Class scouts which were recently applied to this Troop have now been applied to every Troop in the province, and are supplementary to the Policy, Organization and Rules for Canada. They also include rules relating to the First Class Tests, and we shall begin publishing them next week. In the meantime they are on the notice board at the club-room and you can also obtain full particulars from your leader.

Honourable mention — Murray McKenzie, Agnes Thomlinson, Gordon Haug, Elfriede Knippel Helen Campbell, Lyle McKinley.

Division 10. Receiving Class
1. Flora Sewell
2. Muriel Jenkins
3. Ivan Murray.

The British gunboat Firefly, which was lost at the time of the retreat from Ctesiphon, has been recaptured. One Turkish ship has been taken and one destroyed.

Seed

Good seed corn is very scarce this year. We have the only large quantity of B.C. grown NORTH WEST DENT CORN, from specially selected seed. Local growers of ensilage corn should order now before outside districts secure all our seed.

BURBANK MOTOR CO., LTD.
Under new management

We are now in shape to handle your repairing, and our work will stand the closest inspection. Ask those who have tried it.

Come in and talk over your winter overhauling.

We specialize in Electrical troubles. Don't leave your starting systems to take care of themselves this time of year, as a battery in a partly discharged condition will freeze very easily. We tell you in a few minutes if they are safe.

Our card system leaves little chance of mistakes or over charges.

A few good bargains in used cars.

OF course you want a new HAT; you cannot afford not to have one. To succeed you must appear well. Stacks of new Spring Hats (the "Nobby" styles) have come in. You come in and see them. You'll find the one to "fit your face"; the price will fit your pocketbook, too. We have Hats for the head of the family and down to the little tots.

Children's Corded and Plain Velveteen Hats, colors brown grey and blue. Priced from.....85c up to $1.75
These styles are just correct for early Spring wear

Furnishings For All the Family

TRY our Underwear and Hosiery, it will fit well, feel well and stand the wear. We sell the "away up" quality, the Price is what we keep down.

We have a Special for you this week in small-sized Children's Cashmere Hose - 25c pr.

Children's fleeced Hose, in all sizes..... 25c
Misses' " " " 30c
Ladies' " " " 35c

TOWN AND COUNTRY NOTES

Mrs. R. F. Morrison left Tuesday on a visit to the coast.

A memorial service for the men of the congregation who have fallen in the war, will be held at St. Michael and All Angels' church, on Sunday morning next, March 11th, beginning at 11 o'clock.

The lake presented Kelowna skaters with one of the finest sheets of ice we have seen for many years last week-end. It was very thin, however, and our Boy Scout column contains details of what might have been a fatal accident but for the prompt action of those around.

At a meeting of the Kelowna branch of the United Farmers of B.C., held last Saturday, it was resolved that the standard of wages for this year should be: White day laborers, a maximum of 22½c per hour; teamsters $40 to $45 per month and board; and Oriental labor $40 to $45 per month, without board.

The children's entertainment at the public school was repeated Thursday evening last, this time for the benefit of the Red Cross. The popularity of the entertainment was shown by the large attendance, probably even larger than the original performance. A sum of $56.85 was handed over to the Red Cross funds after deducting $6.50 for expenses.

The Okanagan Ambulance League financial statement for February shows cash receipts to the amount of $108.25, added to the balance from January of $116.41, making a total of $224.66; expenses for the month were $108.55, leaving a balance in hand of $116. The following have been sent to headquarters: 127 pairs sox, 31 suits pyjamas: 20 day shirts, 20 ties, 18 vermin suits, 4 hotwater covers, 2 scrap books, 1 scarf, 1 bundle odd bandages, 4 pairs bed sox. The ladies thank Mrs. Draper for 12 pairs sox and Mrs. Coventry for 3 pairs; also the Mission branch for 5 pairs of sox and 4 pairs bed sox. A special request is made this month for financial assistance, as it will be a heavy one for expenses.

Miss Buchanan invites the ladies of Kelowna and district to her millinery parlour on Friday and Saturday, the 16th and 17th, to inspect her stock of trimmed and untrimmed hats. The smartest things in the trade are to be found here this season.

Mr. J. Richards was a passenger to Vernon yesterday.

Mr. J. E. Reekie was in town over the weekend from the coast, leaving Monday morning.

Service will be held at St. Andrew's, Okanagan Mission, Sunday next, at 3 p.m.

The monthly meeting of the Country Girls' Hospital Aid will be held at Miss Batchelor's, Woodlawn, on Saturday, March 10th, at 3 o'clock.

At Bradford, England, on February 8th, a daughter was born to Capt. and Mrs. P. Brooke, formerly of Kelowna. Capt. Brooke has been for some weeks in hospital with a painful affection of the eyes.

The W.A., of St. Michael and All Angels' will hold their annual meeting on Friday, March 16th. Corporate communion with address by the rector in the church at 10.30 a.m. Business meeting at 2.30 in the parish hall.

Mr. E. W. Wilkinson enlisted last week in the new overseas draft of the 2nd C.M.R.'s which is being raised in Vernon. He is down this week on a recruiting trip with Troopers W. Lupton and R. H. Perry. It is understood that only a few men are now lacking to complete a draft of fifty.

Rutland News

(From our own Correspondent.)

Mr. Gordon Caspell left this morning for Alberta.

A good programme is being arranged for the eve of St. Patrick, March 16th, when the banquet to raise funds for returned blind and disabled soldiers will be held in the school, commencing at 8 p.m.

The social and concert held last week by the Girls' Enterprise Club came quite up to expectations, and the handsome sum of between $60 and $70 was raised. The chief item on the programme was a playlet entitled "Not a man in the house," in which Miss Farris appeared as lady of the house, with her niece, Miss Joy Fleming, and the Misses Katie Campbell and Blanche Ford (maiden ladies of "the superior" type), whilst Miss Quinn took the more humble part of the servant, whose ambition seemed to be to break the iron rule of discipline and introduce a man into this stronghold of the weaker sex. A very amusing scene was witnessed when a mouse, supposedly liberated by the servant, presented itself amongst these dignified custodians of mannerisms

A sketch by Harry Lauder followed, in which Rita Maxwell took the part of a Scotch soldier (dressed to perfection), and Annie Gay who was introduced to her part only the night previous, of an English servant.

Songs followed by Miss Farriss ("Caroline, don't ye hear me calling"), Mrs. Whitaker ("Somewhere in France"), and Miss Magee ("Nuthin'"). The chair was occupied during the evening by the club's president, Miss Zela Monford. The short programme was supplemented by a whist drive after which supper was served. A candy stall realized $17.

MAGIC BAKING POWDER
READ THE LABEL
NO ALUM

Germany attempted to engineer a plot involving Japan and Mexico in a conspiracy against the United States. Full official information of Germany's intrigue was given at the White House, the state department and in the Senate.

It is stated that agents of the German Government at a cost of $20,000, instigated and carefully engineered all of the food riots that have occurred in New York City during the past weeks, according to information which reached United States secret service men. So trustworthy is the information that the powerful machinery of the service was immediately set in motion to round-up the men and women alleged to have been involved in the plot.

Wilson Landing and Westside Notes

(From our own Correspondent.)

Mr. R. Denby has returned from Armstrong, and will be at home for some weeks longer.

Mr. and Mrs. J. Clarance and Arthur are leaving for Okanagan Mission on Thursday March 8th.

M. Chas. Clarance left Bear Creek for Rocanville Sack. on Thursday last, taking with him the good wishes of the coumunity.

Mr. M. B. Ellis, our Westside novelist paid us a visit on Wednesday last, coming down to the lake and spring, leaving winter and some feet of snow on his ranch up the hill.

Mr. Childers is, we are glad to hear, progressing favorably, after his recent operation, his illness having prevented him joining his regiment the Strathcona Horse. The Bear Creek ranch is, we hear to be rented for the ensuing season.

Distant Fields.

A wealthy lady in Grand Rapids, Mich., went to New York to purchase furniture, believing she would thus get better designs and fashions.

When the furniture arrived, she found that it had been manufactured in Grand Rapids, a few blocks from her home.

Distant fields look green, but if you will refer to our advertising columns, you will find that you can supply your wants right here, quite as well as by sending your money to mail order or other out-of-town houses. Give your own towns people a chance first, anyway.

"Produce more in 1917"—Hon. Martin Burrell, Dominion Minister of Finance.

ROYAL STANDARD FIELD SEEDS

WE are extending our already extensive field seed business for 1917. It is the desire of the Canadian Government that the people produce as much as possible during the ensuing year, and we are arranging with the leading dealers throughout British Columbia and Alberta to carry a complete line of ROYAL STANDARD FIELD SEEDS. These seeds are the choicest it is possible to secure in the World's Market. They are Government inspected and carefully selected for purity.

Seeds should be purchased early as prices inevitably advance as the Season progresses. In all probability the market will be short and it will be difficult later in the year to make purchases.

Order ROYAL STANDARD Field Seeds NOW. If your dealer cannot supply you write us and we will ship to you direct.
