Meeting of the City Council

A meeting of the city council was held on Tuesday last, the Mayor and Aldermen Rowcliffe, Ball, Cox and Bailey being present.

The minutes of the previous general meeting were read and adopted and also the minutes of the Court of Revision held during the morning.

Messrs. Marty were the only persons who obtained a reduction on their assessments and a long and varied discussion was gone into. It was however decided to pass the minutes of the court of revision as read.

A letter was next read from Mr. C. Blackwood asking for connection with the water system. Also from W. R. Megaw of Vernon, who asked for advises re the shipment of road making materials. He pointed out that the city of Vernon were about to make a large shipment, and asked Kelowna if they wanted to buy anything in the road improvement line, if so perhaps they could include their order in the car and so save expense.

The question of a scavenger waggon was brought up at this point, but it was decided to let the matter drop pending the new stock to be shewn at the show at Seattle.

A letter was also received from Oskar Tress offering his team for sale at the price of $550, including wagon racks, etc.

The question was left in the hands of Mr. Elliott to report at next meeting. It was however decided to make further arrangements with Mr. Lloyd-Jones, and to go into his plan of buying a team and selling it back during the winter months.

Sealed tenders for the sidewalks on Bernard Avenue were opened. Mr. Chas. Clement tendered 23½c. per sq. ft. for the north side and 21½c. per sq. ft. for the south side. Mr. Clement also made a reduction of one half a cent less if the whole business was put in his hands The only other tender was from J. L. Wilson who quoted for the north side 24c. per sq. foot and for the south side 26c. per sq. foot. Some discussion arose on the previous work done on the cement sidewalks.

The Mayor thought that by letting the tender out a great relief would come to the Board of Works.

Ald. Cox thought that the machine mixing was far and away ahead of the hand mixing and Mr. Clement had this plant. He would also suggest a lot of pounding as a good solid base and plenty of sand pounded in was his idea of a good sidewalk.

It was finally decided to forge ahead with the work as much more had to be done, and to let the tender to Mr. Clement, he would then be responsible. It was at the same time agreed to let the contractor use the city's water free of charge.

Mayor DeHart said that he had obtained a book giving the report of the Vancouver City Council, and would suggest that the Aldermen look through it and see what Vancouver were spending for their improvements in comparison with Kelowna.

The removal of the sidewalk along Bernard Avenue was next suggested. Ald. Bailey pointed out that in placing them down water street no consideration had been taken of the distance between the telegraph poles and the side of the lots.

The present sidewalk was about seven foot in breadth, and there was only about four foot down Water Street. It was decided to leave the matter in the hands of Ald. Bailey and to let him make arrangements accordingly.

Some little discussion arose about the change of the meeting days from Monday to Tuesday night.

Ald. Ball informed the council that Ald. Elliott was unable to attend on Tuesdays and would like the council to meet on Mondays as before.

The Mayor explained that the meetings had been changed during the last two weeks, owing to Victoria Day falling on a Monday and the present meeting was called so as to be directly after the Court of Revision. Next week, he suggested they return to their usual day.

A discussion arose about the band, and it was suggested that they should be paid $25 a month.

Mr. Ball pointed out that a large and influential committee belonged to the band, not a band committee but a citzen's committee. He had approached this committee and had found that they were not in debt except for the band master's salary. They would be ready to play in public the first week in June, and had already accepted an offer to go to Penticton on the 1st of July at a fee of $75. He also pointed out that the A. & T. owe $100 and that together with the grant of $175 in July, being 7 month's salary and $25 a month after ought to put them on a good footing.

The council agreed to grant the sums mentioned. The Mayor at the same time pointing out that the band stand to be erected in the park should be included in the plans. He thought a presentable band stand could be built for from $200 to $250.

Mr. Chaplin attended and asked what the council proposed doing in respect to the fire on Harvey Avenue. He contended that there was no need to tear up the sidewalk, as the fire brigade did. Mr. Thompson and McTavish who were helping him to put out the fire, had the whole matter under control when the fire brigade came up. He did not think the damage done by the fire was very much, it was more the damage done by the fire brigade.

The Mayor told Mr. Chaplin that the matter was having the attention of the council, and that he had no cause to fear any action being taken in the matter. Mr. Chaplin wished to explain that no liability rested on Mr. T. Morrison, as he did not autorise the fire to be started, as far as compensation for damage, neither he nor Mr. Morrison had been approached on the subject

The matter was allowed to drop at this juncture and the tenders for the painting of the Fire Hall put before the council. Two painters, one for painting all except the roof for $53.00, another $70.00. The tender was awarded to Messrs. Edwards & Finch at the first named sum.

A report was asked for in respect to Mr. A. L. Meugens and the cause of the accident reported at last meeting.

Ald. Cox explained that the matter was having attention but that the committee were unable to report at that meeting.

Tenders were next read from Mr. H. W. Raymer for the removing of the A. & T. building and fences. It was decided to accept the tender for $175 for removing the building, but the fences would be undertaken by the council who already had men working in conjunction with Messrs. Crowley & Buckland.

It was decided to call for tenders for gravelling Glen Avenue, from Richter Street to Ethel Street. The gravel to be used from Harvey's gravel pit.

The following accounts were referred to the finance committee.

R. Draqer, work on streets	$ 6 25
A. Gagnon, "	8 75
B.C. Gazette, advt. by-law No. 59	19 00
D. Mills, scavenging account	125 00
Salaries	418 00
Rent for Council Chamber	15 00
R. H. Parkinson, surveying park	58 00
A. E. Marks, account May	13 72
W. Dallin, teaming	50
F. Samson	91 00
G. H. E. Hudson, 8 blue prints	4 00
J. Chaplin, work on street	10 00
Wm. Haug, pig lead	64 85
Hinton Electrical Co., meters	81 75
Work on Water Plant	219 98
F. Samson, Fire Dept. and Street watering	133 00

Some little discussion arose about the bill presented by Mr. Samson, the charge appearing to be more than was agreed upon. Mr. Samson had charged for three men watering the street at $20 each, while provision had only been made for two men.

The matter was finally left in the hands of the finance committee to pay if found correct.

The city clerk explained that he had not had occasion before to ask for help but with the assessment roll now on hand and other important business he was unable to see his way clear to do all the work, he wished for some help.

He was instructed to obtain same as soon as passible.

The clerk also wished to inform the council that the blue prints showing the plans for the park were issued, and that he had had applications from Vancouver, Penticton and Vernon, for the plans.

The Mayor suggested that swing chairs and other necessary articles ought to be considered in laying out the park.

The location of the water trough was next put before the council.

Ald. Cox remarked that the committee had agreed to place it between the Palace Hotel and the Keller Block. It was agreed that it would be better to get the sidewalks laid down first and then place the trough right up against the sidewalk.

The committee for inspecting the Chinese quarters gave a very favourable report, it being shown that some dwellings of the white man were in a worse state than those in the Chinese quarters.

Mr. Cox asked the council what they thought of building a Pest House in the city. He showed that an outbreak of scarlet fever or any disease would be very disastrous without a house of that description. The Mayor thought it was unnecessary as a tent could easily be erected, and afterwards burned in the case of a very contageous disease nursed in its vicinity.

Some little discnssion arose on the question of letting the power house run during the afternoon, to allow people who use electric sad irons, and water pumps, to make use of the current. It was decided not to take further steps in the matter, the pumping by this plan was not in vogue. The Mayor pointed out that the current was put on soon after 7 o'clock and very little more could be done at present.

The following motions were passed:

Ball-Cox—That the tender of H. W. Raymer for the removal of the Exhibition building be referred to the Board of Works and they to have power to act.

Rowcliffe-Bailey—That Ald. Ball and the city clerk be instructed to secure temporary assistance for the council work during the busy months.

Bailey-Ball—That Mr. Clement's cheque for $100 deposit as guarantee for the satisfactory work on the cement sidewalks on the south side of Bernard Avenue from Pendozi Street to Water Street, be returned to him on condition that the defects on the surface be remedied to the satisfaction of the Board of Works.

The council then adjourned to meet again on Monday, June 6th, at 7:39 p.m.

Mr. T. Morrison has asked us to state that there is no truth in the statements as reported at the council meeting and in the press last week, with reference to the damage by fire done to the sidewalk on Harvey Avenue. It was put forward that both Mr. Chaplin and Mr. Morrison had been approached with reference to making good the damage done, but Mr. Morrison refused to admit a claim. He now wishes us to state that he never was approached on the subject of payment, neither did he give the matter a thought at the time. He did not instruct Mr. Chaplin to start a fire, having told him to dig a narrow strip along the side of the fence to plant a hedge. When Chief Hidson approached Mr. Morrison on the subject, he only asked if Mr. Chaplin had instructions to set fire to rubbish, and on being informed in the negative was referred to Mr. Chaplin.

Power House Burnt Down

Disastrous Fire Completely Destroys New Building

A disastrous fire occurred this morning at about twelve thirty. The power house, on which our electric light and water supply depends, being completely gutted. The alarm was given directly from the power house and before many minutes had elapsed the fire hose was out of the fire station manned by Messrs. Butt, Hidson, Cowen and Wade. Several others joined the reel on Main Street but on arrival at the scene of action it was found impossible to use the hose owing to the pumping arrangements in the power house being out of action. The engine was immediately sent for and on arrival refused to do the work it was commissioned to do owing to a broken valve. The engineer was away from town, and consequently some difficulty was experienced in starting the engine, and when started it was found to be defective. The only way to save the adjoining buildings was to form a bucket brigade, this was immediately done, and water was poured round the building to save any spread. Luckily the wind was blowing the flames towards the lake, and the chance of saving the adjoining property was increased.

By this time a big crowd, aroused by the alarm had congregated, many stood by and watched with wonder the fierce flames as they attacked the frame of the building. The brigade had by this time arrived and soon all possibility of a spread was made impossible. The forms of T. Hidson and F. Samson was seen ordering the brigade and throwing water in all directions.

The cause of the fire was the bursting of the gate of the furnace, thereby igniting some shavings and spreading fire with startling rapidity throught the whole building.

The chief occupant of the power house at the time of the outbreak was Mr. J. S. Crowe, and a conversation with him drew forth the following information: About twelve thirty he had finished stoking up, left the furnace closed, and had gone into the engine room to attend to the engines when he heard a terrific report, he immediately ran to the furnace to see what was happening and found the door had blown out and had set fire to some shavings that were near by for the purpose of fireing. He at once saw it was impossible for him to cope with the fire, and gave the alarm at once. Meanwhile he tried to save the building but was unable to do so, and had to leave it owing to the intense heat. The brigade were unable to battle with the flames owing to lack of suitable material and the only possible thing was to let the structure burn out and save the sawmill and adjoining property.

The flames which defied anyone to approach them, attacked the landing owned by L. C. Aviss and did some damage to his property which was adjacent to the burning building. Several people present tried to push the side of the walls in, and were soon rewarded with the desired result. A whole compact mass of wreckage was all heaped towards the centre, and danger of any timbers falling outside was relieved.

The building is insured and it is expected that it will be a total loss as the dynamo and machinery are practically no good now. The pumping plant which stood the worst of the heat will it is expected be placed out of action, but until engineers arrive the exact extent of the damage will be unknown. That the estimated damage is over and above the insurance there is no doubt and it will be a few months before the plant will again be in working order.

The following people deserve great commendation for the help they rendered at the critical moment, Mr. L. C. Aviss who gave up looking after his own property and did all in his power to save the mill, Mr. Thomas Lawson and Mr. Ball who did excellent work in keeping the people collected, T. Hidson who was one of the first on the scene of action and who worked until morning, and Mr. Samson chief of the brigade who did all in his power to control the brigade and also risked his life in his endeavor to prevent the spreading of the flames.

The water system was reinstated at 9:30 this morning, by means of a supplementary pump. The damage is not so high as was originally estimated. The insurance carried is $8,000.

New Industry in Kelowna.

Wood Pipe Factory to be Started

It is definitely settled that Mr. E. T. Bogart will start up a wood pipe factory in this locality before many weeks are out. The arrival of wood piping on the wharf has caused no little comment of late, and Mr. Bogart was prompted by enormous shipments into this city to start a factory at this point. The machinery is all being got in order for immediate shipment, and although a definate location of the factory cannot at present be given it is likely to be fixed within the next week. The factory will be prepared to turn out all kinds of pipe from the cheapest wood irrigation pipe bored out of rough log, to the first class wire-bound pressure pipe for water systems. A speciality will be the building of continuous stave pipes, a feature in which Mr. Bogart has had great experience being responsible for the large continuous stave plant at Keremeos These pipes will be manufactured in all sizes and lengths. Mr. Bogart will leave Vancouver in about a week or ten days, and will start operations directly he arrives at this point. He will come amongst us with every recommendation, as he assisted largely in the water works of Vancouver, and will know the requirements of the general water arrangements here.

Sports Committee Meet

At a meeting of the sports committee to verify the accounts and pass cheques, it was moved that a balance sheet should be issued to show correctly the expenditure of funds.

A vote of thanks was passed to the Mayor, Starters, Judges, etc., for the work they carried out so successfully, also to the ladies, Miss Copeland and Mrs. Smith, who very kindly made the badges for the occasion.

It was decided to get together a team to visit Penticton on July 1st, those desirous of joining were requested to give their names to the committee. They will be entitled to use the standards for the jumps, and hurdles for practice purposes, upon application to the committee.

Rev. A. W. K. Herdman left this morning by the boat for Okanagan Landing, in order to meet his sister, who is arriving this afternoon from the Orient. Miss Herdman has been a missionary for many years in Northern Central India, and is now home on furlough. She arrived in Vancouver on Saturday night by S.S. "Empress of China," which was five days late. She visited missions in Japan, Korea, and other places en route.

Miss Herdman makes a very short stay in Kelowna at the Manse as she must leave soon for Calgary and Toronto.

The Creeks in Flood

The high water in the Creek during the past few days has given rise to the wildest rumors of bursted dams and prospects of disastrous floods. The water, it was said, was rushing broadcast over lands, washing out ranches, and threatening to envelope the town. The state of the citizens was rising to fever heat, but it gradually dropped to normal when the real facts were brought to town. The dam owned by the Central Okanagan prove d n investigation to be as substantial as ever, but owing to the recent heavy rains had overflowed. A broken sluice gate, too, had caused some trouble, and it was found necessary to turn the water through the main headgate to relieve the pressure on the weakened part. As soon as the water subsides a little the sluice gate will be repaired. The sudden rising of the creek carried along a lot of old lumber and debris which had been lying along its banks, and no doubt the sight of this coming down the swollen stream added to the general excitement.

Mission Creek has also risen very high, and the K.L.O. bridge, owing to the sand in which it was built was broken down and access to the town was impeded. Rumors was about that the dam above Mr. Pease's ranch was broken, but a conversation with Mr. Pease drew the information that the dam was as solid as a rock, and he did not fear any danger from flood fully believing that the creek was able to carry all the water likely to be turned into it.

Kelowna Public School

The honor roll for May, 1909, is as follows:

First Primer Class—J. McMillan, D. Francis, R. Hall, R. Downing, S. Stiff, B. Davis, M. Wallace, R. Elliott, I. Copeland, A. Duckworth, A. Bawtinheimer, H. Graham, E. Beatty, B. White, M. Hinsley, J. Marshall.

Second Primer Class—T. Crowley, E. Fletcher, C. Ferguson, N. Dahlberg, E. Rutledge.

Jr. I. Class—F. Plaskett, D. Forrest, C. Pettigrew, G. DeHart.

Sr. I. Class—R. Leckie, A. Wallace, F. Buckland.

Jr. II. Class—R. Raymer, A. Stiff, B. Cox, A. Duckworth, V. Dahlberg.

Sr. II. Class—M. Marks, W. Raymer.

Jr. III. Class—G. Langille, G. Silke, R. Ritchie.

Sr. III. Class—A. McLennan, O. Pettigrew, B. Campbell.

Jr. IV. Class—M. Day, B. Thompson, B. Fletcher.

Sr. IV. Class—E. Hall, E. McLennan, E. Jones, Z. Monford, A. Lemon.

The scow, bringing pile-driver, cabooses, and the necessary workmen to start work on the new C.P.R. sheds and car-wharf, arrived last Wednesday and anchored in the vicinity they are to start work.

Bills are to hand giving notice of a regatta to be held at Naramata, being the first of a series of three during the present season. The event will take place on Thursday, June 17th. The chief event of the day will be the War Canoe, race for the Naramata Cup, and our team have decided to take part in the competition. They show possibilities of being a very fast team.

The council are meeting frequently now owing to the power house blaze. A preliminary meeting was called today and it is expected that arrangements will be made and put in force at the meeting to be held tomorrow (Friday.)

Rev. T. J. Thompson has been appointed Methodist minister at this point, to succeed the Rev. Wright. He is well known as a good man and fine preacher, and will be welcomed by the people of Kelowna.

Mr. Pridham can be congratulated on having brought to the eyes of the council the fact that some of the potatoes shipped in this week are infested with the California Beetle or potato lice.

It will be remembered that years ago the self-same beetle was imported into Toronto, and great damage was done to the crops. The war that raged to rid the country of the pests was long and expensive, and up to the present the lice are not entirely elminated. Should such a plague strike our valley it would mean loss and expense such as has been experienced away back east. Should we not have some inspector to pass the various seeds that come amongst us? It was reported that one load of these potatoes were already sold, and had not Mr. Pridham taken the steps he did the seeds of iniquity might have been sown and a long warfare against these pests started.

It is a pleasure to find our council have agreed to fix up our band on a good solid basis. It is certainly an awkward position to be placed in, for a city to be without a band. Take the sports of Victoria Day for instance, although a good attendance was present, how many more would have come if some music was provided?

The more people we can get into Kelowna the better is the advertisement, and music is an attraction that appeals to every person. In the hands of Mr. Robertson it is without doubt that a good band will soon be supplying first-class music.

Some little attention has been paid to the unemployed, but there are two kinds, the unemployed, and the unemployable. Mr. Raymer when at the council meeting last week, asked the city to start the moving of the A. & T. buildings, and the repairing and moving of the fences at once, so as to give work for the unemployed. He pointed out that labor would be hard to get in a few weeks time, and it would be well to give those who were out of work something to do to keep them in town. The project was highly commendable, and given in all good faith by Mr. Raymer, but how are we to treat those who are looking for work and hoping that they do not find it in a hurry?

Two instances came to our notice this week, one where a good strong healthy fellow, supposed to be after a job, was told of good renumerative employment, and on enquiries came to the conclusion that the work was to strenuous. Another where a different lad had been looking about for work for some weeks, and when asked if he would like to sweep out Raymer's Hall replied that the job would be "too dusty." Can the council cater for unemployed of this description? How abont starting a knitting school, or better still a school to teach these unemployables how to smoke.

It is certainly a pleasing feature to know that a tour of inspection in the Chinese quarters revealed the fact that Chinatown is kept in a good state of cleanliness. The reports of such good judges of health as Dr. Boyce, Ald. Cox and Chief Hidson can hardly be repudiated, but is it not a pity that their report is marred by the fact that many white people have to be called over coals for dirtiness, more especially in their back yards. Filth is the breeding place of disease, a fact any health officer will endorse, and surely such an offence ought to come under the criminal law. Disease may endanger a neighbor's life, and the sentence of having to pay a fee for having your back yard cleaned up by the city scavenger is too light. Cleanliness is next to Godliness, so the old saying goes, but ought not the two to travel together hand in hand.

New Vancouver Marine Supply House Will Carry Ferro Engines

Vancouver is soon to have one of the most complete marine supply houses in Canada. Mr. John J. Harford has been appointed factory representative for the Ferro Machine & Foundary Co., of Cleveland, O., and has organized the Western Engine & Supply Co., who are now erecting a large store and display rooms in Vancouver.

A large line of Ferro engines in all sizes will be carried for demonstration and immediate delivery, also a stock of boats, canoes, etc., marine hardware, batteries, dynamos, repair parts, and in fact all boat and engine accessories. As Vancouver is the natural shipping point for all British Columbia, this will be a great convenience to all boat owners and customers in the province.

Mr. Harford, who will act as general manager of the Western Engine & Supply Co., is one of the pioneers in the gas engine business in British Columbia. His long experience in handling boats and engines eminently fits him for this new enterprise and he is sure to make a success.

Hr. Harford has engaged the services of some practical assistants so that it will be possible at any time to obtain a demonstration of the Ferro engine and advice and help in selecting boats and installing engines, etc.

This means that Messrs. James Bros. of Kelowna, B.C. will now be able to deliver engines promptly to any local parties through the above supply house.

Sandy McTavish was "no feelin' just weel," so he went to the doctor and stated his complaint.

"What do you drink?" demanded the medico.

"Whasky."

"How much?"—"Maybe a bottle a day."

"Do you smoke?"—"Yes."

"How much?"—"Two ounces a day."

"Well, you give whiskey and tobacco up altogether."

Sandy took his cap and in three steps reached the door.

"Sandy," called the doctor, "you have not paid me for my advice."

"Ah'm no takin' it," snapped Sandy as he slammed the door behind him."

Small Change.—"It's three years since I was in this city," said the stranger as he finished his dinner. "City looks the same." "I don't find much change," said the waiter as he took up the threepenny piece that was left from the two half-crowns.

A Trying Time.—Judge: Why did you strike this man? Prisoner: What would you do, judge, if you kept a grocery store, and a man came in and asked if he could take a moving picture of your cheese?

The charming Canadian Soprano with the San Francisco Opera Company in "Florodora" at the Opera House.

Old Country News

Death of Editor of Truth

The death of Horace Volues, Editor of Truth, at the age of sixty-five is announced. Mr. Voules, who has been ill for some time past, has been unable to attend to his office where he used to do all the editing work, and only a few weeks ago resigned his position in favor of Mr. R. A. Bennett. H. G. Voules was born at Windsor, and after a short apprenticeship started the "Echo" for Messrs. Cassells. He continued at the head of the newspaper until 1876 when it passed into other hands. It was immediately after this break that he started Truth, the first number being arranged with Mr. Labouchere and published in January 1877.

Lord Roberts Celebrates Golden Wedding

Lord and Lady Roberts have just celebrated their golden wedding at their home at Englemere, Ascot, entertaining a large number of friends for the occasion. Lord Roberts is now seventy-six, but carries his years lightly, thanks to the simple life he is leading. It is pleasing to remember that just fifty years ago when on his honeymoon he received a letter commanding him to attend at Buckingham Palace for the bestowal of the Victoria Cross which he won so gloriously in the Mutiny. Of the six children born to Lord and Lady Roberts two daughters now survive. Their heroic son fell at Colenso.

Fire Caused by Sun

A portion of the jute that was recently fired by a youth at the Millwall docks, was carted to Wandsworth and placed on some spare ground there. The heat of the sun caused another fire and before the flames could be extinguished over $1,000 worth of damage was done to the surrounding property.

Mountain Goats for the Zoo

It is reported that the Zoological Society are to receive a shipment of mountain goats from the Canadian Rockies. The specimens will be all picked and will cost from thirty to thirty-five pounds each, with an additional charge of £10 for export duty. When they arrive they will be fitted up with comfortable quarters in the Zoological Gardens at Regents Park, London.

Tricks in all Trades

At Chester, the proprietor of some local cocoanut shies, was heavily fined for deceiving the public. When approached by the inspector he at first refused to allow his cocoanuts to be overhauled, but afterwards allowed the inspector to investigate. Several cocoanuts were found to be sound, but some were just the shells stuck together and filled with lead. The inspector tried shooting at the lead filled samples and found them practically impossible to knock off the poles and hoops.

Earl's Court Exhibition Opened

The Golden West Exhibition at Earl's Court, London, was opened in a blaze of sunshine by the Lord Mayor who attended in state. The show is run with the idea of setting out how America has grown during the last twenty years. In the amusement portion Red Indians do the dance, cow boys and cow girls from Wyoming, Montana and North Dakota who give displays of broncho busting. The cowboys and Indians amalgamate in a scene entitled the Black Hawk Massacre, where a realistic representation of the scalping and torture of settlers is gone through with the final rescue by the cow boys.

Murderer Reprieved

Oscar Slater, alias Otto Sands who was extradited from New York and convicted of the murder of Miss Marie Gilchrist, a woman of 82 years of age, at Glasgow, was granted a reprieve last Thursday. His sentence has been commuted to one of life imprisonment.

A New Use for the Topper

A number of cast off silk hats which were recently purchased by an East end dealer are now serving a new role. Costers are buying them up at sixpence a piece and using them as nosebags for their donkeys.

Death of a Multi-Millionaire

Chas. Morrison ex-chairman of the Trust and Loan Company of Canada, is dead. His estate is estimated at twelve million pounds. The government will receive more than ten million in taxes from the estate. The deceased who was eighty years of age has lived for some time past at Reading where he owns a small estate.

No Proposals for Training Canadian Troops.

In the House of Commons, Mr. Haldane, Secretary of State for War, stated that no definite proposals had been received by the War office in respect to the proposed training of Canadian troops at Aldershot.

News of the Valley.

Colin McKinnon who was engaged in work on the new Myers flat waggon road near Okanagan Falls met with a serious accident last week. Noticing a small bush fire creeping near a supply of blasting powder, he hurried to extinguish the fire, but before he could do so the powder exploded filling his side, arm and face with shattered rock. His left eye was dangerously injured.

Luke Nicholson was driving a team with a load of lumber down the hill by the side of the Okanagan Falls, when he was thrown from his seat and fell under the wheels of the waggon. He sustained injuries that necessitated him being conveyed at once to the Nursing home at Penticton.

The Penticton Athletic Association have decided to hold a celebration on July 1st. Mr. A. H. Wade was elected president, W. J. Clement, Vice-President and J. W. Edmonds, Secretary-Treasurer.

News of the Prairie

A movement is on foot at Weyburn, Sask., to erect a first-class hotel at the corner of Souris Street and Second avenue. The lot is owned by Messrs. Robinson, Walsh & Greig.

Paul Acroose, of Grenfell, Sask., a hitherto unrecognised runner, took the world's record, defeating Fred Appleby, of England, in a race held in the Arena Rink, Winnipeg.

Excavating operations for a new business block in Main Street, Moose Jaw, weakened the walls of the adjoining premises, which fell to the earth with a crash. Several men working both in the structure and the excavation had narrow escapes, but fortunately no one was hurt.

The wheat is reported to be five or six inches above the ground in most of the provinces. Prospects continue to be very favorable for a good crop.

Estevan is to have at no distant date a plant for turning lignite coal into briquettes. The United States Government have already started experiments at Pittsburg with North Dakota coal, with very satisfactory results. The machinery used is of German manufacture and German experts have been brought over to conduct the tests. The coal is about the same quality as that used in Germany and other countries where briquetting is largely done. Briquetting coal means taking out the water and moulding the coal into the shape of a brick.

Reports are to hand that the prairie crocus is already to be seen. After the appearance of this flower, the prairie is one mass of bloom continuing with different varieties through the summer away into the fall.

A Sporting Event.—"My husband does not mind walking the floor with the baby at night and more," said Mrs. Binks. "Why is that?" asked Mrs. Jinks. "He makes believe it's a Marathon," said Mrs. Binks. "He covered the twenty-six miles before twelve o'clock last night."

W. C. T. U. Notes.

Conducted by the Ladies of the Kelowna branch of the W. C. T. U.

Wanted, 2,000,000 Boys?

Have you a boy to spare? The saloon must have boys or it must shut up its shop. Can you find one? It is a great factory, and unless it can have 2,00,000 from each generation, for raw material, some of these factories must close up, and the operatives be thrown out upon a cold world, and the public revenue dwindle. One family out of every five must contribute a boy in order to keep up the supply. Will you help? Which of your boys will it be? Are you a father? Have you given your share to keep up the supply for this great public institution that is helping pay your taxes and kindly electing public officers for you? Have you contributed a boy? If not, some other family has had to give more than its share. Are you selfish? Voting to keep the saloon open to grind up boys, and then do nothing to keep up the supply? Ponder these questions, ye voters, and answer them to God, to whom you will one day give an account for votes as well as prayers. And ye mothers, wives, and daughters, are you, by precept, example and influence in every possible direction, doing all you can to save the boys from the enticements of the horrible liquor saloon, and to hasten the day when it shall be outlawed, and curse our fair land no more? If not, why not?

We clip the following, given as the words of an officer of the Liquor League of Ohio at a meeting in which the interests of the of the saloon business were being discussed:

"It will appear from these facts, gentlemen, that the success of our business is dependent largely upon the creation of appetite for drink. Men who drink liquor, like all others, will die, and if there is no new appetite created, our counters will be empty as will be our coffers. Our children will go hungry, or we must change our business to that of some other more renumerative.

"The open field for the creation of this appetite is among the boys. After men have grown and their habits are formed, they rarely ever change in this regard. It will be needful, therefore, that missionary work be done among the boys, and I make the suggestion gentlemen, that nickels expended in treats to the boys now will return in dollars to your tills after the appetite has been formed. Above all things, create appetite!"

Such a statement seems absolutely fiendish; and yet, whether spoken or unspoken, the fact remains that the traffic exists only by recruits from among the boys. "Wanted, 2,000,000 boys," must be the constant motto of this infamous business, that a few may grow rich, and their children grow in luxury, while their patrons go down to the lowest depths of degradation and poverty.

The incident herein related, which appeared in The Union Signal, has been substantiated, and we desire to hold it before the public, and especially before the fathers, until they pass judgement upon the saloon business. Do you stand for the boys or for the saloon?

Provincial and General News

Quebec Bridge Likely to be Rebuilt

A semi-official announcement is to hand that Messrs. Bautlet, Mojeska & Fitzmaurice the engineering commission appointed by the government, have prepared plans for the new bridge at Quebec. This will come as a surprise after the general debates last session, when it was decided not to start operations until 1911, and that the completion should not be looked for until 1916. Mr. R. L. Borden had shown that the contract terms between the G.T.P. and the government were not binding until the bridge was built, so the freight originating on the prairie section of the G.T.P. would have to be carried via the States. Sir Wilfred Laurier's suggestion of a ferry between Quebec and Levis has not commended itself to the Liberal members, and it is likely that there has been strong pressure brought on the government to hurry on the work. The structure will be built on the cantilever principal, and constructed of nickel steel.

New Churches for Fernie

Since the disastrous fire that struck Fernie last fall, building has been very brisk in the district. Five new churches are to be built at once. The Presbyterians are putting up a $12,000 edifice. The Methodist church will cost $14,000. The church of England already has its foundations dug, and the Roman Catholic and Baptist will proceed as soon as plans are available.

Performs Operation in Heavy Sea

For the first time has an operation been performed on the high seas, with the boat rolling all the time. A passenger on board the Cunarder Saxonia, was suffering from acute hernia, the pain being terrible. Dr. MacIntyre the ship surgeon, after trying all available means to pull his patient through without an operation found it impossible to do so. He estimated that unless an operation was performed at once the patient would die long before the port was reached, he consequently obtained the patient's permission to go ahead. The patient was put under ether and the doctor prepared for the operation. The boat was pitching and tossing in the heavy sea, but the surgeon successfully managed to carry his patient to safety. There was the gravest danger that the motion of the ship might cause the patients death by a false cut, but not one false cut was made. The authorities congratulated the surgeon on his feat at the arrival of the boat at East Boston. The patient was carried by ambulence to the Carney Hospital.

This Year's Fruit Outlook

Mr. W. Maxwell Smith, Dominion fruit Inspector has just issued his report after a tour through the province. He sums up his conclusions as follows: The apple crop will be good all through the province, pears will be light, plums and prunes promise well, peaches will be very light owing to the severe weather, strawberries will be about half a crop, cherries are in doubt, while raspberries and blackberries promise a full crop.

Modern Guido Fawkes

At Selkirk some person or persons unknown at present to the police, set a keg of gunpowder off in the middle of Manitoba Avenue. The windows of houses and stores were severely damaged, many plate glass windows being blown to pieces. The police are busy trying to find the perpetrator of the outrage and it is expected that they have a good clue to work upon.

Strikers Return to Work

The striking laborers on the new parliament buildings at Regina have returned to work. This is the result of an interview held by a delegation from the Trades and Labor Council with Premier Scott. It was suggested that they return at the old rate of 17½ cents per hour pending the enquiries as to the correct rate of wages paid laborers in the city. About one hundred and seventy men are affected by the settlement.

Girl Took Carbolic Acid

A. Ashenburner, a young German girl employed at the College Cafe, Regina, committed suicide by taking carbolic acid. The girl had retired to her room in the usual way when the proprietor heard noises as though the girl was in pain, and found her in the last agony of carbolic acid poisoning. Medical aid was speedily summoned but without avail.

A Great Salvage Feat

The steam tug Daisy which lay submerged, all but a couple of feet of her bow and part of the mast, has been raised by divers DuCosta and J. M. McNeill of the British Columbia Marine Railway Co. The boat was stranded in the Lumbo Island Reef, and all chance of saving her were despaired of. The raising was done by means of a stout wire attached to a scow and made taut at low water, as the tide rose so did the sunken vessel, and soon she was towed into harbor at Sidney. She had been given up as a total loss by the underwriters.

Large Sales of Land in Prince Rupert

It is reported that the proceeds of the sale of Prince Rupert lots surpassed all records in townsite sales in America, where property has been auctioned off lot by lot. The figures have reached over a millon dollars. Several women were among the bidders. Fair prices being realised through the whole of the sale.

Baseball Team Smitten With Small Pox

When the Moosejaw ball team were playing Winnipeg it was found that one of the members was afflicted with small pox. He was immediately isolated and sent back to Moosejaw. Three others were hurredly sent off the second day, the balance of the team remaining to play Winnipeg.

Shot by a Sectionman

A hobo named Robert Conway was shot by a sectionman at Gleichen near Calgary. Conway insisted on forcing his way into the section house. He was warned away, but persisted, whereupon the sectionman shot him in the legs. It is expected the limbs will have to be amputated.

Carried too Much Gold

The Vancouver police arrested William Smithers as he left the Steamer Charmer from Victoria. They had instructions to hold him if the following gold was found in his posession, three $20 gold pieces, one $10 piece and one $5 piece, he was suspected of robbing his partner. If he did not have the money he was to be released. When arrested he was found to have the money in question. An officer will came from Victoria to take him back home.

Eaton's to Install Wireless

A new feature will be the installing of Eaton's Store at Toronto with the wireless telegraphic apparatus. A Toronto electrician is busy putting up the necessary fixtures and it is expected to have direct wireless communication with the Winnipeg store within a few months. The system at present will include Mr. J. C. Eaton's summer residence at Muskoka and also the Eaton Yacht Teckla on Lake Ontario.

Highwaymen in Vancouver

A masked robber last Friday held up a hack containing five people who were returning from the Hastings Hotel, Vancouver. The driver was commanded to stop and he obeyed. One of the passengers became frightened and jumping from the carriage made off among the bush. The robber thinking he was escaping with the money made off after him and left the rest to go unmolested. The robber followed his man and finally made him give up $18, all he had. The police have arrested three men on a charge of vagrancy and it is expected they have the man now under control.

Storms Damage Lobster Fisheries

It is estimated that the storms of the past two weeks have caused loss of about $100,000 to the lobster fishermen of Nova Scotia and Prince Edward Island, about $40,000 loss is due to the gear being destroyed and carried away. There is only one week of open lobster season west of Halifax, but in the east the season lasts a month longer. At Main Adieu the lobster canneries are closed for the season, the fishermen demanding such high prices for their catches. The price was gradually brought down when the canneries closed, but the proprietors firmly refused to open up again, saying they had left it open long enough.

Strawberries Ripe at Epworth

Mr. F. L. Vosper of Epworth brought strawberries into Vancouver last week. These are possibly the first fruit that has been marketed so early in the season. They were grown in the open but were not of the same size as in previous years. Mr. Vosper contends that the strawberry crop will be late, but that it will be up to the average in regards to quantity.

Wreck Sold for a Song

The wreck of the Schooner Soquel which was lost on Seabird rocks near Pachena in January has just been sold for $15. The sails and tackle were bought for $119 while the gear was salved at about $300.

Mistook Gunpowder for Tea

At Anacortes last week, a Mrs. Howell found what she thought was a package of tea in the pantry, and threw it into the stove, it however proved to be gunpowder. The woman was so badly burned about the head and breast that it is doubtful if she will recover. She was carrying a four month old infant at the time of the explosion. The child was horribly burned but it is expected to recover.

AN IDEAL FRUIT RANCH

HAVE YOU EVER CONSIDERED THE ADVISABILITY OF OWNING ONE?

WITH Kelowna winning the highest awards at the different Fruit Exhibitions, this district will receive considerable attention from homeseekers and investors in the Prairie Provinces, United tates and Great Britain. . . . . .

Won 1st Prize and Reserve Champion as best foal at Bodedern Horse Show, 1905; 1st Prize at Toronto as a three-year old, 1908; 1st Prize at Vancouver Spring Show, 1909.

This horse will travel between Woods Lake and Kelowna, and will be found at Blackwood's Livery, Kelowna, every Tuesday night until Thursday morning, and at the Home Ranch, Oyama, Friday until Monday morning.

Mares kept at pasture.

Terms: $20 to ensure; $15 for the season; $10 single leap.

For further particulars apply to owners.

Town and Country News.

Owing to lack of advertising the Swiss Bell Ringers did not get a good audience at the Opera House last Thursday. They however gave a good show to those who had the good luck to be present. The whole performance although given under difficulties, went through without a hitch, each member of the troupe being an accomplished musician.

Do not forget the Legge Willis production tonight, something rare in a theatrical line is promised —a promise that will be fulfilled.

Mr. J. Bouch met with a serious accident last Sunday. When out riding his horse caught his foot in gopher hole and turned a complete summersault throwing Mr. Bouch with terrific force to the ground. Mr. Bouch who has been unconsious for several lengthy spells is likely to undergo an operation.

We welcome to this town Mr. W. M. Parker, who has come amongst us with the idea of starting a jewellery business. He will locate in part of W. R. Trench's store until other suitable premises can be secured. He will go largely into the repairing business, having had a long experience in some of the largest eastern and western towns.

It is possible that Mr. Samson so far holds the record for the largest fish successfully landed this year. Thinking he had hooked a rock he was about to wade in and free his tackle, when the supposed rock plunged forward and proved to be a sixteen pound salmon.

A meeting is called for Wednesday evening at the Presbyterian church in order to discuss the building and plans of the proposed new church. The plans which have been supplied by Mr. Peters constitute a magnificent brick edifice at a cost of $22,000.

Mr. and Mrs. Hugh Rose met with what might have been a serious accident, last Sunday. The horse they were driving was frightened at the rustle made by some cattle in the dry grass, and taking a swerve turned the buggy over. Mrs. Rose was dragged several yards, and severely shaken and bruised, while Mr. Rose was awarded with several good bruises. Luckily, the horse stopped at the fence, and with the help of a few friends the buggy was soon righted and Mr. and Mrs. Rose proceeded on their journey.

The following is taken from the Filmore Press and may be of interest to our readers:—Mrs. Fraser arrived last week from Kelowna, B.C., and is visiting her daughter, Mrs. W. B. Steele. Mr. D. Fraser arrived from Outlook, Sask., last Tuesday.

Several members of the Rifle Club left on Tuesday by the Clovelly to attend the shoot at Vernon, the names include Messrs. Burnett, Marks, C. Harvey, J. Cameron, G. Rose, D. Lloyd, N. Lloyd, S. Elliott, L. Gilliard and Tom Allen.

The members of the "War Canoe" made their first practice last Saturday and promise to be a very fast team.

Messrs. Stirling & Pitcairn are already preparing to cope with the fruit business this year, two car loads of boxes have arrived during the past two weeks.

VANCOUVER, B.C.
Branch Nursery - South Vancouver

A case of poaching for fish came before the magistrate this week in which a very neat contrivance was used. A cows horn was fashioned so as to fit exactly on the end of a stick, a hole was made through the horn and a strong leather throng was knotted to the horn. The implement was used as a spear and when the fish was pierced the horn was made so as to turn round and act as a stay. it was then an easy matter to land the fish by the leather strip. The defendant was fined one dollar and costs, the judge dealing leniently with the case. The maxin-fine is $250.

Miss Catherine Davison who has for some time been giving vocal instructions at the Okanagan College has decided to extend her tuition here. Her advertisement will be found on another page.

The rains that have been so prevalent during the last few days have been serving the country well, and now the prospects of a good crop are better than this time last week. The cherries in some districts are making rapid progress, the little green berries forming and to all general purposes showing prospects of a good crop.

The general fishing aspect is not as good as was expected. Several fishermen say the lake is gradually getting fished out, and that very few fish remain to be caught. Mr. J. Cowan who has been out on the lake in the early mornings during the past week, has seen the lake smothered with fish jumping out of water. He does not agree with the general idea of a scarcety of fish. He managed to catch his first last Tuesday and now belongs to the Piscatorial Society.

An interesting ceremony was performed last Tuesday at the Royal Hotel, when J. Brodie was married by special license to Miss Anne Gold. A room was prepared in the hotel for the purpose, the only witnesses present being Mr. and Mrs. J. E. Wheeler, Mrs. Coon and our reporter. The Rev. Wright officiated. The bride wore a dainty white chiffon blouse with a dark serge skirt. The groom wore a blue serge suit with patent leather boots. The business was quickly through and the usual signing of registers was entered into. The bride and bridegroom afterwards left for the country after receiving the congratulations of those present.

The City Band have accepted an offer to go to Penticton on the 1st of July. Attractions will also be held at this point in the shape of a baseball match, Kelowna versus Summerland. Quite a crowd have agreed to leave here for the south, and it is expected that a special boat trip will be made.

Mr. E. Evans arrived from Peachland last week and was joined at this point by his wife and family, who have come direct from England. They have taken Mr. Morden's house and intend making their future home here. Mr. Evans will preach in the Baptist church here next Sunday.

A meeting of the W.C.T.U. will be held on Tuesday next, May 8th, at the home of Mrs. Charles Wilson. All members are requested to be present.

A. FRANCIS
BOX 80, KELOWNA, B. C.

THE HOME TEAM.

When the home team wins
Pa grins and grins
And warbles a little song,
And says: "Well, well,
It's a cinch to tell
Who'll nail the flag to the mast this year!
Of the final outcome I have no fear,
Though they once in a while go wrong"
And he'll stand around in the kitchen with ma
And josh her a little and say: "I saw
A gown in the window downtown today
That'll look pretty dandy on you. And say
Your hat, I guess,
Wouldn't match the dress,
So you'd better order some new headgear,
You've only had two so far this year."
An then he'll kiss her again and say:
"You just ought to see them home boys play!"
And ma, she's wise, for she says real sweet:
"I know they're a team that can't be beat"

When the home boys lose,
Pa gets the blues
And grumbles around all day,
And says, says he:
"You take it from me
If anyone tells you those mutts can play,
You tell 'em they're off their base!"
And then he'll go out with a scowling face
To ma and say: "There ain't no sense
In running this ranch at such great expense!
I can't quite see,
For the life of me,
Where all the money I give you goes!
You spend altogether to much on clothes,
I work mighty hard for the coin I get
And you can't blow it all in, you bet!"
But ma says nothing for quite awhile,
And then she gives a sarcastic smile,
And says: "Take your hoop and roll it away;
I reckon the home team lost today!"

She Hit it.

"And how is your husband gettting along, auntie?" asked the kind-hearted lady of the old coloured woman who had come for the clothes. "He am pow'rful po'ly like, missus," answered the sable laundress. "He am done got de exclamatory roomertism." "You mean inflammatory rheumatism, auntie," said the lady. "Exclamatory means to cry out." "Den I done said it right, missus," rejoined the queen of the washboard, "foh he jes hollers all de time."

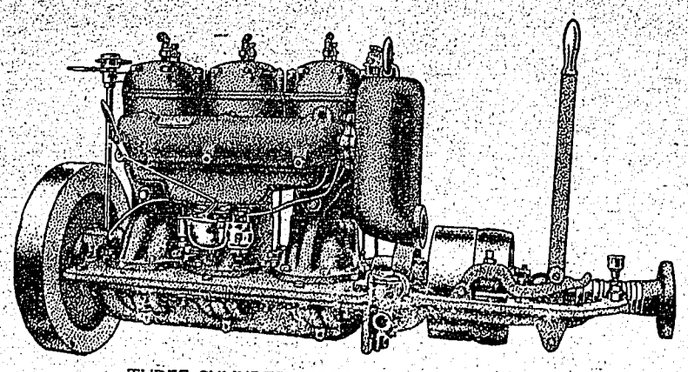
San Francisco Opera Company "Florodora"

"Florodora," which will be the offering of the San Francisco Opera Company at the Opera House on June 10th, will prove, without a question of doubt, the most important in the history of theatricals in the city. The first production of "Florodoro" was given at the Lyric Theatre, London, November 11th, 1899, and within a month after its premiere the strains of "Florodora's," beautiful music swept over Europe and America like an epidemic. All of the box office records of the States are held by "Florodora," even those of the much talked of "Merry Widow" not reaching those established by the English musical comedy. Each and every member of the San Francisco Opera Company is happily cast in "Florodora," and all work as a unit in making the production the gigantic success that it is. "The Silver Star of Love," Dolores' entrance song, has never been better sung than it is by Mabel Day. "In the Shade of the Sheltering Palm" falls to Francis K. Lieb, a handsome young high baritone who never fails to receive at least two encores. "Tell me, Pretty Maiden," or as it is universally known, "The Sextette," is sung and acted by beautiful young women and handsome young fellows in every respect the equal of the originals, the female members of the sextette being Maybelle Seaman, Myrtle Ward, Helen Vick, Hada Freyer, Virginia Marshall, and Mabel Hilliard, and the male members being Charles Albert, Arthur Holloway, Tony Nash, Bowman Johnson, James Hayes, and Arthur Ray. "I Want to be a Military Man" is well handled by Fred Snook, and "Galloping, Galloping," and a new waltz song, entitled "Spring," bring Lucille Palmer the best opportunity of her sweet young life. There are some fourteen other numbers in the original score, and J. Russel Powell interpolates "The Robber's Dream." It is worth the price of admission just to hear Teddy Webb and Mabel Day in "When We Are on the Stage," the comedy hit of the last act of "Florodora." The music is under the direction of Edouard Buechner, and Will Smith, a producer responsible for some of the genuine successes of the past few seasons, has charge of the stage. The female chorus consists of Dot Clare, Marguerite Boyle, Mayme Boyle, Anette Boyle, Helen Frazier, Hada Freyer, Mabel Hilliard, Myrtle Ward, Virginia Marshall, Mabel Seamons, Helen Vick, Marietta Smith, Louise Lynn, Mabel Snook; and the male chorus has James H. Hayes, Bowman Johnson, Arthur Holloway' Antanio Nash, George Sinclaire Lavelle, Arthur Ray, Frank Lynn, and Charles Albert. Harry Mitchell is the master mechanic; James Dunn the property master; and Robert Backus the electrician.

Ferro Marine Engines



THREE CYLINDER FERRO WITH REVERSE GEAR

Some Important Improvements

Offset Cylinder Construction, (Reducing Friction and Vibration, Securing Maximum Power.)

Counterbalanced rank Shaft, (Saving wear on bearings and vibration.)

Accessability of Parts, (Enabling operator to take engine apart without removing it from the bed.)

Other good points. Competent Cooling System, Positive Pressure Oiling System, Interchangeability of Parts, Effective Ignition System for either Jump, Spark or Make and Break System.

1909 Ferro atalogue explains fully these and many other points. This is FREE.

A Practical Treatise on Marine Gasoline ngines gives complete and clear information on construction, operation and installation of marine gasoline engines. Price 25 cents

To reduce production cost and selling price we are making 5,000 FERRO SPECIAL ENGINE at the rate of 30 a day. These are all single cylinder 3 h.p. engines and in every way equal to the higher priced Ferro Models.

Let us demonstrate this engine to you

BROWN BROTHERS COMPANY, NURSERYMEN,
LIMITED, of ONTARIO,

Are extensive growers of all kinds of Fruit Trees, and other Nursery Stock, such as Roses, Shrubs, and Ornamental Trees, and offer to planters of Orchards, choice trees, true to name.

The most experienced planters realize that young trees grown in Ontario, under somewhat similar conditions as prevail in the Interior of this Province, are the best.

We are prepared to furnish "One year old trees," on a three year old root, or a two year old tree on a four year old root, as desired, at prices that will be considered reasonable.

We grow the Duchess Dwarf Pear very extensively, which is being used as a filler by a good many planters.

Our Peach, Apple, Pear, cherry and Plum trees are all of first quality well grown, well rooted, and will please the most critical buyers.

Thorough cultivation in our Nurseries ensure a splendid root system which of course is most necessary in a young tree.

During the past two seasons we have successfully shipped our stock to all parts of the Province, and can guarantee satisfaction to all our patrons.

The members of our firm are all practical Nurserymen, with long experience, and they are giving their whole time to this one business, constantly overseeing every detail of the work of growing, packing, shipping, etc. The fact is, we live among the trees, watching with zealous care the development of every acre of our vast plantings.

This is a Canadian enterprise of 25 years standing, and our reputation is behind all our dealings, give us your order and you will not regret it.

We want a good reliable man to look after our business in Kelowna and vicinity.

Apply for particulars in regard to prices and terms to salesmen to our British Columbia Branch Office.

—P. M. Monckton.

A feature that will be welcomed with open arms will be the enacting of that inimitable musical comedy, "Floradora," by the San Francisco Opera Co. The production will take place at the Opera House on Friday, June 11th. The general aspect of the piece will adapt itself to the actors, such as we know them. One can imagine Mr. Tom Webb, as Tweele Punch, the phrenologist, his bump of affection for a Kelowna audience sticking out like a water melon. The well-known chorus of "Tell me Pretty Maiden," also being a striking feature in the production. The scenery and dresses have been specially arranged, and a gorgeous spectacle can be relied upon. The Opera Co. have a reputation that is unsurpassed for its brilliancy and well picked talent, the cast advertised being an unusually strong one for these shores. The play itself is thoroughly healthy, having had a first-class run in the Old Country about seven years ago, since then it has been continually on the bills at provincial houses at home and abroad.

City of Kelowna

PRIZES FOR PLANS

The city council of Kelowna will receive up to July 1st, at 12 noon, plans for the improvement and development of the city park.

All plans must be based on an early expenditure of $3,500.00, any further outlay to extend over a period of years, and the design to embody a harmonious and progressive development of the park as a whole.

For the most meritorious and practical plans the council will award first and second prizes of $75.00 and $50.00 respectively, but the council reserves the right to award one prize only, either first or second or second or to make no award, should the plans, in the judgement of the park committee, be deemed of insufficient merit.

Blue prints of a typographical survey of the park may be obtained by intending competitors from the city clerk.

Kelowna, B.C., G. H. DUNN,
26-28 May 26, 1909. City Clerk.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Osoyoos Division of Yale District.

(a.) The name, address and occupation of the applicant.—Rosa Casorso, Kelowna, B.C., the wife of John Casorso, Rancher.

(If for mining purposes) Free Miner's Certificate No.

(b.) The name of the lake, stream or source (if unnamed, the description is)—An unnamed stream, flowing from a stream rising 800 feet from North line of D. McEachren's land in South half of Section 8, Township 26.

(c.) The point of division.—At the said Spring.

(d.) The quantity of water applied for (in cubic feet per second)—2½ cubic feet per second, and 1-37 of cubic feet per second for domestic purposes.

(e.) The character of the proposed works.—The erection of a dam at said spring and thence to convey the Water by a ditch, flume or pipe to the place of use.

(f.) The premises on which the water is to be used (describe same)—South half Lot 132, in Group 1, Osoyoos Division of Yale District.

(g.) The purpose for which the water is to be used.—Is agricultural.

(h.) If for irrigation describe the land intended to be irrigated, giving acreage.—The South half of Lot 132, in Group 1, Osoyoos Division of Yale District, containing eighty-five acres more or less.

(i.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return.

(j.) Area of Crown land intended to be occupied by the proposed works.—None.

(k.) This notice was posted on the twenty-sixth day of May, 1909, and application will be made to the Commissioner on the Twenty-sixth day of June, 1909.

(l.) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet.—None.

(Signature) ROSA CASORSO,
(P.O. Address) Kelowna, B.C.

Local Briefs

The time for the Park improvement plans to be before the council has been extended to July. 1st, so as to allow those in the country a chance to compete for the prize.

Miss Forbes Kerby of Grand Forks is visiting Dr. and Mrs. Mathison for a few days.

Miss Wood left for Kamloops last Thursday to attend a course in of training at the new hospital at that point.

Nurse Edgell asks us to thank Mayor DeHart through the columns of the press, for his kindness in donating a ward in the nursing home. The ward will be named after its donor, the DeHart ward, and congratulations must be set out to the Mayor for his thoughtful and generous gift.

NOTICE.

Owing to the several advances in the price of flour, we find ourselves compelled to advance the price of bread in accordance, the advance to take effect on Monday the seventh day of June. The price on that date and until further notice will be fourteen loaves for one dollar.
