Meeting of the City Council

A meeting of the City Council was held on Monday last, a full attendance of aldermen being present, Mayor DeHart being in the chair.

The minutes of the previous meeting having been read and adopted, the following correspondence was dealt with.

Canadian Fairbanks Co., re receipt of cheque.

Canadian Road Machine Co., re scavenger waggon.

Dominion Securities Co., confirming wires and letters.

Chas. Clarke, re connecting C.P.R. new works with water system.

These having been read and filed the police report for April was next dealt with.

Some little discussion ensued as to the number of drunken and disorderly people taken up, but little was left to report.

Mr. H. H. Millie attended to ask the council if they would agree to the extending of his franchise for say five or ten years. He promised an improved system, so as to make it more valuable to himself and present subscribers. He asked that he might collect rates the same as the council are now doing, and to give a rebate of a certain amount if the account was paid within ten days of being issued. The present plans meant expending four or five days in collecting accounts, and he thought that the system of rebate would relieve this task. When asked by the council if he contemplated making a faster service he replied that new switch boards would be fixed next week, and these would relieve the operator of four different movements, consequently accelerating the service. The installation of these switches would occupy Saturday night, all Sunday and possibly up to noon on Monday, but the service would be resumed as quickly as possible. He was quite willing to pay for all legal matters and publishing of by-laws and asked the council to give the matter their consideration.

This matter having been disposed of for the present.

The question of planting trees was before the council. Several trees had been planted in the various conspicuous streets, and in order to finish Mayor DeHart had given 106 more elms.

Ald. Elliott remarked that he had gone into the matter of having a water trough in the city, and so far could not obtain a definite estimate. The sum of $5 had been mentioned for an ordinary wooden horse trough. The question also before the council was the locality of the trough, if it was decided to put one up.

Mayor DeHart did not advocate it being in main street, but Ald. Elliott did not mind if a site was taken right by his shop as it was greatly needed. The advisability of a drinking fountain being attached was also discussed, but no definite movement was made in the matter.

The Mayor informed the council that the agreements between the A. & T. and Messrs. Crowley & Co. were going through, and the deeds were being made out. Mr. Harvey had surveyed the land, and it was found that there would be sufficient to make a regulation track, and leave a space of about 50 feet on the north end, from the track to the outside boundary rails. Mr. Harvey would set out the pegs and grading could be commenced very soon.

In reply to Ald. Ball, Mayor DeHart explained that the work would not cost much owing to the grading being only needed in a few places, and where it was needed the hauls of filling material were very short.

Ald. Ball thought all work ought to be put up for tender.

Mayor DeHart wished for the building inspector's report on Raymer's building, and pointed out that no plans were available with Mr. Sutherland's signature on, showing that they had been passed by the last council.

The Aldermen did not like the look of the wooden pillars used in the front of the building, and thought these ought to be of iron.

Ald. Cox pointed out that he had heard iron was worse than wood in case of fire. The council left him to look further into this statement.

It was moved by Ald. Rowcliffe, seconded by Ald. Bailey that the city clerk be authorised to request H. W. Raymer to submit the plans and specifications of his new building not later than the 24th of May. Also to repair cement sidewalk damaged while removing the building across the street.

The question of sidewalk repairs was largely gone into. Ald. Cox did not think it would be a success to repair the one injured by Raymer's building until after that building was removed. He pointed out that other sidewalks wanted repairing.

Mayor DeHart did not think it possible to go into the sidewalk question until the assessment rolls were returned.

The estimates of the Fire and Water Committee were again laid before the council. It was generally thought that the Fire Brigade had enough hose for present use. The hydrants were close together, and the present hose did not seem in a very bad state of repair.

Ald. Bailey did not like cutting that item entirely out of the estimate, but would sooner see it reduced.

Ald. Elliott said he had estimated as low as possible. 800 feet had been asked for by the fire brigade, and he had cut it down to 500 feet.

Ald. Ball pointed out that the present hose might get damaged by either burning or bursting, and it would be a sorry plight to be left with nothing to fall back upon.

Ald. Bailey thought the idea was one of penny wise pound foolish. If hose was wanted it ought to be included in the estimate, but it was decided to return to the matter at no distant date.

After the water connections had been made on Abbott Street, the Mayor was sure a surplus of money would be left over at this point, and he suggested that that surplus be expended in hose for fire purposes.

Ald. Ball thought 400 feet would be enough and that some fresh couplings were wanted.

Ald. Elliott remarked that he had already sent for couplings. He wished to add to his estimate $120 for sprinkling streets, that sum entailing 5 months work at $40 a month. The life buoys would soon be placed on the wharf, he was waiting for their arrival. Grappling irons had been already prepared.

The following accounts were referred to the finance committee to be paid if found correct.

A. M. Skae, work on water works	$ 5 00
H. H. Millie, phone and telegraph	21 00
C. Nichol, work on water works	8 75
H. Lamond, work on water works	10 00
J. Chaplin, planting 203 trees at 16c	32 50
J. Chaplin, cutting weeds off Spedding's lot	5 00
Canadian Fairbanks Co., electrical supplies	3 26
Canadian Fairbanks Co., electrical supplies	16 28
Canadian Fairbanks Co., electrical supplies	215 05

It was agreed to have the fire hall painted at once, also the inside repaired. Tenders to be put out for the painting.

The estimates of the Board of Works was next taken into consideration.

It was decided not to spend any money on Gertrude Avenue as no traffic went down there. The Mayor mentioned that it was the widest street in town, and he thought as very few vehicles went down it last year, it was needless to expend money on it this year. It was decided to repair Ellice Street, as far as the A. & T. grounds, and to expend $150 on Smith Avenue, as there would be quite a lot of traffic when the new C.P.R. wharves are put in working order. It was decided to proceed with the other estimates as laid before the council last week.

Ald. Cox of the Health Committee asked for a new dump wagon, as the present one was in a terrible state, having been patched up and repaired, it was now practically of no use.

Ald. Ball thought that in the estimates of the Light Committee due consideration should be taken as to what should be directly charged to the council and what should be charged to working expenses. He took for example the salary of the City Clerk. He utilises some of his time preparing the accounts for light. He did not think this ought to be charged to general revenue. Some portion of the salary ought to be written off the general working expenses of the electric light. The light was supposed to be on a paying basis, and to find out if that was so it was necessary to charge up all expenditure against the light account. While the light account ought to be credited with the amount due from the Arc Lights in the streets and other public places.

Mention was made that at the present time, during the rush of work, the city clerk would require some help and it was decided to arrange for this.

It was moved by Ald. Elliott and seconded by Ald. Rowcliffe that the city clerk be instructed to get the A. & T. debentures printed as soon as deeds were signed, carried.

The meeting then adjourned to meet again on Monday next at 8 p.m.

Annual Meeting of W.C.T.U.

The annual meeting of the W. C.T.U. was held on Tuesday last at the home of Mrs. Martin. The reports given by the different departments, of the work engaged in during the past year were very encouraging.

The following officers were elected for the ensuing year:

President—Mrs. D. McEachren
1st Vice-President—Mrs. Hislop
2nd, 3rd and 4th Vice-Presidents—The resident Minister's wives
Corresponding Secretary—Mrs. J. Ball
Recording Secretary—Mrs. W. S. Fuller
Treasurer—Mrs. A. S. Cox

The president was chosen as delegate to attend the provincial convention to be held in Vancouver from 15th to 19th of June, 1909.

Mr. Herdman Goes A-fishing.

The Rev. A. W. K. Herdman had an unpleasant experience the other day, though he can now fortunately afford to laugh over it. He and his little boy, fired with the prevailing enthusiasm, went for an afternoon's fishing in the Creek. The boy's line became entangled in the weeds near a deep pool, and he leaned over the water in an effort to disengage it. Mr. Herdman, seeing his son's position, and fearing that he might overbalance, went to his assistance. The water at this point had undermined the bank, and as soon as Mr. Herdman put his weight upon it, the earth gave way, causing the reverend gentleman to take an involuntary plunge into the muddy steeam, which was deep enough at that part to reach up to his neck. He had not much difficulty in getting out again, and made his way home soaked to the skin, and with his pockets full of mud, and feeling, in his own words, "like a half-drowned rat." What Mrs. Herdman said when he reached home is not on record, but we understand that the greater part of the following morning was spent in scraping off the mud from his clothes.

Board of Trade Monthly Meeting

The monthly meeting of the Board of Trade was held in Raymer's Hall last night, only eleven members being present. Mr. Pitcairn being in the chair. The meeting which was due to start at eight o'clock was greatly delayed by the non-attendance of members.

After the minutes of the previous meeting had had been read and adopted, the Secretary, Mr. R. B. Kerr read the following correspondence.

Letter from the Noble Advertising Co., Vancouver, signed by C. W. Esmond, re the issue of advertising pamphlets.

F. R. Stewart & Co., re sending some choice fruit for show at Seattle.

Clement, of Montreal, Trade with France filed.

Heaton's Agency, re advertising.

Associated Board of Trade of the Okanagan Valley, re advertising and the distribution of Mr. Orchard's Guide book at a reduced rate.

The Vernon Board of Trade, asking for a delegate to be appointed to represent Kelowna, when Vernon sent their delegate to ask for the establishment of a Land Registry Office at Vernon.

Mr. Keer in criticising this letter said it was useless to think of sending a delegate from Kelowna to ask for a Land Registry Office for the following reasons.

Vernon is too small to demand such a project. Such towns as Fernie, Rossland, Kamloops and Revelstoke stand a prior chance, while the Yale district is entitled to a Land Registry Office and would get it before Vernon. He pointed out that we only have one representative in Parliament, while the boundary district has two. It was possible that as soon as we asked for a land registry office through our one member, the other two for the boundary would want one in their constituency, and under the circumstance would get it. To send a delegate from this point would mean a lot of expense for nothing, and he advocated writing Vernon and explaining that the Board did not see their way clear to send a delegate.

The following accounts were recommended to be paid if found correct.

J. Conlin, apples for Spokane Show	$ 7 00
Orchard City Record	27 50
Kelowna Reading Room	3 00

It was proposed by Mr. Leckie seconded by Mr. McTavish that all correspondence dealing with advertising be left in the hands of the publicity committee to deal with.—Carried.

Mr. Kerr said he had received a pamphlet from the Dominion Government on B.C., and although up-to-date in some respects was very out of date in others. Kelowna was marked up with a long article on tobacco growing, and it was set forth that a large tobacco factory had just been started. Grand Forks is mentioned as a marvel, as having taken a gold medal for fruit display, but not a word is said of Kelowna and the Spokane show, neither is mention made of the Gold Medal awarded to the Fruit Grower's Association of Kelowna in competition with the fruit growers of Washington, Oregon and British Columbia, for the best collection of fresh fruit exhibited at the North-West Fruit Grower's Association, at Vancouver in 1907. He did not think this a fair phamplet to be distributed and thought the Board ought to instruct him to write a stiff letter pointing out these facts. The matter was placed in the hands of the publicity committee to deal with.

The chairman said that he had had a telegram handed him by Mr. Stirling, reading: Recommend Hart to take part in provincial fruit exhibit at Seattle, if not someone else. Signed by Senator Bostock.

The chairman thought this matter ought to be taken up and a reply obtained as soon as possible. The telegram was rather vague but it implied that the Government wished for a Kelowna representative and it was only right they should have one. He wished the Mayor was present so that his decision might be arrived at, but it was possible that the Mayor would have to be away six months, and he rather doubted if he could spare such a long period. He would ask the board to name some practical men to be approached should the Mayor be unable to entertain the project.

The following names were then submitted, Mr. B. McDonald, Mr. T. G. Speer, Mr. H. B. Chaplin, Mr. Boyer, sr., and Mr. F. A. Taylor. It was decided to arrange this matter as quickly as possible and give a reply to Mr. Stirling. At the present moment it was impossible to exhibit as there was very little fruit left. It was however proposed by Mr. Kerr, seconded by Mr. Leckie that Mr. Stirling be advised that the Board recommend Mayor DeHart to fill the position.

Mr. Pitcairn asked the publicity committee if anything further had been done about the proposed scheme of putting up a Kiosk for the selling of Kelowna fruit at Sicamous Junction station.

The chairman of the committee, Mr. G. Rose, replied that nothing further had been done in the matter. He however, wished to report that the pamphlets were well on the way and he had been looking into the advisability of advertising in one of the papers in the States. The paper with about the largest circulation, "The Standard of the Empire" charged about $50 a month for an advertisement, only about one inch in length and the width of only a single column, he did not think the board could stand this expense and would look for another paper with cheaper advertising rates and a good circulation.

Mr. G. Rose remarked that he had been interviewed by Mr. Hudson with reference to the purchase of a frame and photos to be hung in the Hotel at Sicamous, and wished to know what steps the board wished taken in this direction.

Mr. Pitcairn was of the opinion that the C.P.R. would not allow advertising matter in their hotels, and if they did he thought the general tendency was to have a frame hung in the Royal Alexandra Hotel at Winnipeg. He suggested that Mr. Kerr be instructed to write the C.P.R. with reference to the matter and should the reply be in the negative to again refer the matter to the board. This view was finally adopted.

Mr. Kerr suggested advertising at Vernon. He had heard that several people only came as far as Vernon, thinking that the rest of the journey down the lake was a kind of a swamp. A few photo there might make them change their minds and go further down the lake.

The chairman, Mr. Pitcairn, then asked what steps were taken with reference to the proposed C.P.R. new sheds and wharf.

Mr. Bailey informed him that the plans had passed through the council and had been signed. Mr. J. P. Forde was to have that day and start operations at once but something had delayed him. He explained that the track was due to run out to Ellis Street and eventually to connect with the tram lines making a country service.

The question of approaching the business men of Kelowna who do not belong to the Board of Trade was discussed, but no action was taken in the matter.

Mr. Rose suggested that as the summer months were now coming on, and the attendances were becoming so irregular, something ought to be done in the matter.

There was an executive committee and he would like to see them asked to attend to the business.

This proposition was seconded by Mr. Buckland who remarked that in the event of any important business being on hand the Secretary should call a general meeting, the general quarterly meeting would of course be attended by all the members.

The general tendency was to have the matter settled in this way, and it was finally carried that the next general meeting should be called by the executive committee.

The meeting then drew to a close, there being no more business on hand to be dealt with.

A New Grocery Firm.

Attention is drawn to the new ad. on another page of Messrs. Biggin & Poole, who have bought out Mr. Hunter's grocery and confectionery business, possession being taken on the 15th inst. A chat with Mr. Biggin elicited the fact that a complete new stock of general and fancy groceries is being put in, which it is planned to heve on the shelves on about opening day, the 15th.

Mr. Poole comes with first-class business recommendations, having been in charge of the bakery department, of the J. F. Cairn's Department store of Saskatoon, for the past five or six years. He will handle the bakery and confectionery part of the business here. Mr. Biggin, everybody knows, having been in charge of the grocery department of the T. Lawson stores here, for the past eighteen months, where he has made a host of friends in the vicinity. Ptevious to this, he was in charge of the grocery department at the same store as his partner, which is the largest store in Saskatchewan. His large experience will be a valuable asset in his new venture.

It is always pleasing to see friends get a foot on the ladder and we are pretty sure that not a few will join with us in wishing Bert and his associate every success.

Another Spokane Diploma

Mr. F.R.E. De Hart has recieved this week another diploma from the comittee of the Spokane Show, in the shape of an honorable mention diploma for the general excellence of the exibit. It is interesting to note that The Kelowna Exibit is the only one that has been selected for special and individual commendation by the judges. This shows that quality of the fruit was greatly appreciated by the judges, as well as inferring that the other diplomas were won outright and not in a "just by the skin of the teeth" style. The Mayor must be congratulated upon the possession of this, as it practically rolls the other diplomas into one. We hope the Board of Trade will allow him to keep it as his own.

Mr. H. W. Raymer is visiting Rossland this week.

The Total amount raised for the Sam Lister fund, is $252.50. The limbs cost $140.00, leaving a balance of $112.50, which will go toward his keep at the hospital and furnish him with a little "ready."

Mrs. Dahlberg has fitted up and started the new restaurant opposite the new Opera House. How much trade is "John," Chinaman going to lose now?

The young Ladies' Hospital Aid Competition closed on Thursday. Miss Haines' side made $175, and Mis Hanley's side made $150.

A meeting of the Sports Committee is called for Saturday next at 7:30. Business of the utmost importance is on hand, and all the committeemen are requested to attend.

Mr. and Mrs. D. Frazer and family, left by to-day's morning's boat for Moose Jaw, Sask., where they will remain for some time, afterwad making a trip to their old home, Filmore, Saskatchewan.

Preparations are in steady progress for the Hospital Bazaar to be held in Raymer's Hall hn Wednesday, May 19th. We wish to state that all are asked to contribute, and that those who feel inclined to give candies or cakes are requested to bring their donations direct to the Hall on the morning the Bazaar opens.

JOB PRINTING

Grumbling is the order of the day—that is, grumbling at the weather. Certainly the reluctance of the cold weather to yield to the laws of nature, has caused some little anxiety, but after all the season is not so late. Last year our shores were visited with an early spring and consequently an early crop was experienced. It is interesting to take the dates upon which fruit was ripe for shipping last year, and by comparison we shall see how early the season was. As far as can be ascertained these dates are as near correct as possible:—

CHERRIES

June 13, Early Purple
19, Governor Wood
20, Black Tartarian
25, Belle D'Orleans
Black Eagle
26, Royal Anne
29, May Duke
30, Black Bigaroon
July 2, Montmorency
3, Black Bing
3, Windsor
3, Yellow Spanish
3, Small Black
9, Lake Duke

Communications

Under this heading communications will be received upon any subject of interest. Letters must be signed, be brief, avoid personalities. The Editor does not necessarily endorse opinions given below.

Editor Orchard City Record,
Dear Sir,

I beg to thank you for placing the position of the working man re the postal arrangements so lucidly, yet forcibly in your last issue and am assured that now Mr. Bailey is acquainted with the facts, he will be one of thefirst to remedy any inconvenience. In the matter of a deputation, considering the working men are so scattered in the course of their several employments, I am afraid that a deputation would fall very flat; as when they get home, they do not feel like forming a deputation, and I think that Mr. Bailey would rather not waste time receiving a deputation. I think that now the matter has been so plainly brooched, we can leave it in his hands.

Yours Sincerely,
A Working Man.

Editor Orchard City Record,
Dear Sir,

For the information of owners of property adjacent to the Vernon-Kelowna Road, who are carrying on, or, who intend to commence fencing operations, it is desirable to give prominence to the fact that the said road has a width of 66 feet.

Thanking you for the courtesy of publication,

Yours obediently,
Hamilton Lang,
Suprintendent.

Divided into 400 Shares of $25 each

The Association has been formed to promote and encourage all forms of water sports, and to provide proper summer bathing facilities for children, subscribers, and the general public.

onstruction of a handsome two-story pavillion will be commenced this month on a site granted in the Park by the ity under a lease for 20 years, and it is hoped to get the premises ready by the middle of summer.

Why you should subscribe

There are many reasons why you should subscribe, but it is sufficient to state three:

1. FOR PROFIT. Because the Association will be run economically, and the rents from bathing booths, costumes, towels, and other privileges should pay good dividends after meeting all expenses.

2. FOR PLEASURE. Because your little ones under 14 can use the bathing accommodation absolutely free of charge; and there will be an experienced attendant—a good swimmer—to see that they come to no harm. You and the older members of your family can use the dressing-rooms at a very moderate charge, or you can take out season tickets at reduced rates.

3. FOR PATRIOTISM. Because no other institution can better popularise Kelowna as a summer resort, and your generous assistance to make the town attractive will bring its own reward, as of the many dollars that summer visitors spend, a goodly share may flow into your pockets

SHARES SOLD ON EASY PAYMENTS, viz.: $5 cash on application; balance in equal payments of $5 each on 1st June, 1st August, 1st October, and 1st December.

Subscription List Now Open

Apply to any of the following Provisional Directors, who have power to receive applications and payments, and to give temporary receipts pending issue of shares:

H. W. RAYMER, W. M. CRAWFORD, P. B. WILLITS, G. C. ROSE, G. JAMES, L. C. AVISS, A. L. MEUGENS (Secretary *pro tem.*).

Corporation of the City of Kelowna.

By-Law No. 61.

A BY-LAW for expending certain moneys raised un er By-law No. 54 of the City of Kelowna, and not needed for the purposes for which the said sum was raised.

WHEREAS under By-law number 54 of the City of Kelowna, debentures of the said city of the par value of thirty thousand ($30,000.00) dollars were sold for the purpose of purchasing certain lands within the city of Kelowna for a public park.

AND WHEREAS the sale of the said debentures realized the sum of Thirty-three thousand three hundred dollars ($33,300.00) out of which said sum, only, the sum of twenty-nine thousand two hundred and sixty-five dollars ($29,265.00) was found to be needed for the purchase of the lands set out in the said By-law number 54.

AND WHEREAS it is deemed expedient to expend the sum of Four thousand and thirty-five dollars ($4,035.00) of the unexpended balance of the moneys raised under the said By-law number 54, on the laying out and improvement of the said lands purchased under By-law number 54 before mentioned.

NOW THEREFORE the Mayor and Council of the city of Kelowna in open meeting assembled enact as follows:

1. IT shall be lawful for the said Mayor and Council of the city of Kelowna to expend the sum of Four thousand and thirty-five dollars ($4,035.00), being part of the balance of the sum raised under said By-law number 54, being the City Park By-law 1909, upon the laying out and improvement of that part of District Lot numbered fourteen (14) in group one (1) of the Osoyoos Division of Yale District lying North of Mill Creek and West of Abbott Street in the city of Kelowna and owned by the said city.

2. THIS By-law shall before the final passage therein, receive the assent of the electors of the city of Kelowna in the manner provided for in the Municipal Clauses Act 1906 and Amendment Acts.

3. THIS By-law shall come into force and effect on the day of 1909.

4. THIS By-law may be cited for all purposes as the "City of Kelowna Park Improvement By-law 1909."

Read a first time by the Municipal Council this twenty-fouth day of April, 1909.

Read a second time by the Municipal Council this twenty-fourth day of April, 1909.

Read a third time by the Municipal Council this third day of May, 1909.

Received the assent of the electors of the City of Kelowna this day of May, 1909.

Reconsidered and finally passed by the Municipal Council this day of May, 1909.

Mayor.

Clerk.

Take notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Clerk's Office in Kelowna, on Monday, May 17th, 1909, between the hours of 9 a.m. and 7 p.m.

C. H. DUNN,
City Clerk.

Old Country News

Boiler Explosion in Wales

A terrible accident is reported from Cardiff, whereby three men lost their lives, three others being severely injured. Shortly after midnight, an engine standing in the pit outside the Rhymney Railway Company's locomotive sheds, suddenly blew up. Portions of the engine weighing many tons, were thrown many feet in the air, and hurled to a distance of about sixty yards. Smaller fragments were scattered over a wide area. Six men were in the immediate vicinity at the time the explosion occurred, but up to the present the cause of the accident is unknown. The locomotive a brass domed, saddle tanked engine, had been sent out shunting, and had developed some defects in connection with its injector, and had been brought back to the shed for repairs. It had just been put over the pit, and the fires were about to be withdrawn, when the explosion occurred. The driver, David Lewis, had just left the engine to superintend the drawing of fires, otherwise he would have been killed, as it was he sustained injuries that will take quite a long time to get over. The fireman was instantly killed, being blown against another engine, and literally dashed to pieces. The smoke stack was lifted many feet in the air, and on decending dashed through the the roof of the Bute engine house, falling on a spot where a moment before a man was sitting at his supper. The injured are progressing favourably.

Uniforms Returned by Tram Strikers

Five hundred employees of the United Tramways Company, struck work at Fulwell. At this point the largest depot of the company, some consternation was felt, but the strikers places were soon filled from other points and the system was not seriously delayed. The strikers demanded the following agreement. Six days work and one day rest each week. Extra payment for Bank Holidays. The abolition of punishment for petty offences, and an eleven hour day. The demands were not acceded to, and a notice was issued to the effect that all uniforms had to be returned. The strikers consequently marched in a body to headquarters, and returned their uniforms, receiving in exchange their two days pay and license. The march of the men in mufti, with their uniforms in bundles on their shoulders, was witnessed by a large crowd.

Forged Borneo Stamps

An elaborate conspiracy to defraud stamp collectors has just come to light. J. Stewart Lowden of Villiers Street Strand and Henry Harmer of Southcliffe on Sea, were charged at Bow Street with conspiracy to defraud the public, by selling postage and revenue stamps of British North Borneo, that were forgeries. It was not suggested that there was any fraud on the revenue of the country, but it was owing to a special issue being rare that forgeries were made to gull the public.

British North Borneo was one of the countries which was originally made over to the administration of a chartered company until 1888, after this date the whole of the country was made into a British Protectorate. The 1887 to 1890 issue, remained valid until December last, when owing to the difcovery that excessive forgeries were extant, it was deemed necessary to cancel the whole issue. The 1894 issue was used for postal purposes, which enchanced the value of the earlier issues. Trading as the West End Stamp Company of Villiers street Strand, and Herbert Mack & Co., of the same address, it was proved that several stamps were sold at high prices, and investigation discovered a plant with litho plates and engraving dies to produce the 1887 to 1890 issue, in a French engraver's office in Paris. Correspondence was also found from H. Mack, H. Mack and Co., and H. Mack Limited. From the books it was also found that large sums had been paid by Mack. A rubber cancelling stamp, which made a correct impress of the cancellation mark on used stamps was unearthed and correspondence was found with reference to stamps of Transvaal, British East Africa, and a large number of other foreign countries. Minute instructions were given as to perforation, paper and color and printing details given. It is believed than an immense stamp forgery will soon be brought to light.

Prince for Next Viceroy of India.

A despatch to the Daily Mail from Calcutta asserts that the British Government is considering the question of placing the Viceroyship of India in the hands of a Prince of the Royal blood. A suggestion has been made that one of the sons of the Prince of Wales be trained for the post. It will be remembered that Lord Minto is the present Viceroy.

Whitaker Wright's Estate Sold.

Witley Court, near Hatemere, one of the finest estates in England has just been purchased by Lord Pierrie. The estate formerly belonged to Sir Whitaker Wright, who committed suicide in 1904, after he had been convicted of embezzlement. The price paid by Lord Pierrie was $100,000, and it is estimated that Whitaker Wright spent over three million dollars on the property.

News of the Valley.

Bush Fires Damage Mara and Lumby.

Early Monday morning some bush fires were seen smouldering near Enderby, nothing serious was thought of the matter at the time, but soon the stiff wind blew these into a good blaze. By noon the wind had increased in velocity, and Mr. A H. Duncan, whose farm lies two miles north of Enderby, on the east side of the river, had noticed a fire on the opposite side of the river. No danger was anticipated at the start, but the wind soon came in gusts and veered in every direction. It jumped the river, and swept the east bank, and lightly-wooded plateau, the Duncan ranch being completely destroyed. The fire swept on towards Mara, burn-bridges enroute, gaining terrific fury, and jumping from point to point over clearing, and hay fields at an awful speed. The mill and machinery of the Rothsay Lumber Co., and a portion of the lumber in the yard were destroyed, and it was only by hard fighting that Mara station was saved. The post office was burned. The mails and everything in connection were destroyed.

At Lambly three separate fires seemed to have started, and with the heavy winds which carried the flames, there was no possiblity of checking their progress. The saw mills and box factory of W. R. Megaw, was laid in ruins. The mill machinery being a total loss with the exception of the boilers which it is thought are not greatly injured. The loss has been tremendous through the district, and calls forth the deepest sympathy to those who have been subjected to the fate of this serious calamity.

Mr. R. FitzGerald Sargent has been in the Valley the past fortnight advertising the business of The British Columbia Trust Corporation, Vancouver. This corporation with its strong Board of Directors, including such men as Mr. F. S. Barnard, the Hon, F. L. Carter-Cotton, M.P.P., and Thomas Ellis should be well patronized in as much as besides acting as Executive and Trustees it is a safe and reliable institution through which investments can be made.

News of the Prairie.

The seeding operations are now finished and some of the crops are showing above the ground. The unusual cold weather has not hurt the germination of the seed as far as can be at present told.

Reports are prevalent that Yellow Grass is quarantined, owing to an outbreak of small pox. The cases are at present known one at the hotel, one at the Bowling Alley and one at the restaurant. A pest house has been established, and those attacked are being well cared for.

The C. P. R. are about to build a new station at McTaggart, near Weyburn. The business of this centre has so increased that the C. P. R. have found it necessary to take these steps. Work on the structure will begin as soon as possible.

Land is now selling at thirty-five dollars per acre around Weyburn Plains.

Prairie fires are causing considerable damage this spring throughout Saskatchewan. Several farmers have been burned out just lately, losing their barns, feed, etc.

Local Option Facts From Owen Sound.

1. Inland Revenue returns show a decrease of 45 per cent. in collections on Liquors entered for consumption.

2. The premises occupied by liquor stores have been vacated by the former license holders and are now otherwise employed.

3. Several former holders of hotel licenses have vacated their premises—some having left town.

4. One brewery has ceased the production of Malt Liquors entirely and confines its operations to the making of Malt.

5. In spite of a great influx of poor people from the old country the amount spent by the Town Council to help the needy is steadily decreasing. The figures for the first nine months of the past five years are:

1903	$528 50
1904	518 86
1905	655 64
1906 (local option)	469 50
1907 (local option)	410 70

6. Hotel men have admitted the efficacy of Local Option by asking for a reduction in assessment owing to loss of bar trade—a claim which the Judge allowed.

7. The secretary of the Owen Sound Board of Trade in his annual statemet reported that excellent business conditions prevail; increased customs, increased grain trade, success in lumber, cement and fruit business, increased business in Post Office from sale of stamps and SAVINGS BANK business, and DECREASED Inland Revenue.

8. The president of the Board of Trade in his annual address before that body said: "Our general business has been satisfactory; our factories have run FULL TIME through the season and found a profitable market for all productf; our TRADE HAS IMPROVED IMMENSELY in the West and prospects are bright for future business there. Our local exports have exceeded all former years and none can contemplate what the trade may be in the near future."

9. HOTEL ACCOMMODATION was never better. Meals are excellent.

Correction—We wish to correct a statement that 5,900 copies of the "Pioneer" are sold every week: this should read 59,000 copies.

The Bishop's Choice.

Sir Frederick Treves, the eminent surgeon, was recently consulted by a certain Anglican Bishop. After a careful examination, Sir Frederic pronounced his verdict and added, "Your lordship must go to Algiers or some winter resort on the Riviera."

"Impossible," replied the bishop, "quite impossible. I have too much work to get through."

"Well," said the doctor, "you must make your choice. It is either Algiers or Heaven." "Dear me!" exclaimed the bishop, with a sigh. "Then I suppose it must be Algiers."

Truth Versus Politeness.

Ethel was going to take supper with a little friend. "Now, dear," said her mother, "when you are leaving, you must bid Marian's mamma good-night, and tell her you have had a very pleasant time."

When the little girl returned her mother asked if she had done as she told her.

"Not 'zactly, mamma," was the reply. "Marian took the biggest piece of the apple and spilled the lemonade on my new dress, so I couldn't say what you told me; but I told her mother good night, and said I guessed Marian had had a very pleasant time."—"Judge."

Mother: "Tommy, are you teaching the parrot to swear?"

Tommy: "No, mother; I'm just telling it what it musn't say."

Provincial and General News

Canada to be Represented in England.

Canada is to be represented in the world-wide military conception, in connection with the International Horse-Show in England. Some time ago, the Dominion was invited to send three horses and men, to compete for a challenge cup, donated by King Edward, and valued at $2500. The cup will be given to a jumping contest, over the society's course. The contest is open to teams of three officers of one nationality. It was also stated that a team could compete for the Connaught Gold Challenge Cup, valued at $1000. The Dominion Government has accepted the invitation, and has selected Capt. D. Young, of the Royal Canadian Dragoons, Lieut. Frank Proctor, of the Mississagua Light Horse, and Lieut. W. Leonards, of the Artillery Corps.

Lake Boat Sinks.

The steamer Adrila Shores, and her crew of sixteen men have been lost in the depths of Lake Superior. The vessel was wrecked during the great storm of last week, and found its doom between Whitefish Point and Huron Island: "The grave-yard of the lake." No trace of the missing men has been found, and it is believed they all perished on the boat. The story of the wreck was brought to Duluth, Minnesota, by Capt. Thomas Stevenson, of the Northwind. He received it from the captain of the steamer, Simon Langell at Portage Lake. The Shores had been missing for nearly a week, and the news of her loss was not surprising. A telegram from the owner admits that they believe the ship and crew lost. She was commanded by Captain Homes.

Seeding Nearly Finished.

Reports from all parts of the prairie show that the seeding of wheat is nearly over. The progress made this week was in the most favourable weather, and the farmers are expectant of a good crop. Nearly 90 per cent. is now in the ground, and before Friday the rest will be completed. Fine weather with rising temperature now prevails through the prairie west, and in the fall wheat country of Alberta, it has turned very warm: conditions are so favourable, that the farmers are getting things in with a rush.

Death Caused by Curiosity.

A strange death occurred at Toronto last week and one whereby Toronto's street cars were stopped for fully a quarter of an hour. Light went out and factories ceased running. The cause of the accident was a fierce thunder storm which rose from Beamville. The wires of the electric light company were broken, and out of curiosity, one Richards of that locality, was attracted by the sparks and went to investigate. This was at two o'clock in the morning and at daylight some neighbors found his lifeless body, burning up across the grounded wires. Manager Fleming at once directed the generating plant at Niagara Falls to stop, while the body was removed. Thousands of volts were passing through at the time and it would have been fatal for anyone to remove the body before this was done. The whole industry of Toronto was tied up as a result.

Corner Stone for Y.M.C.A. Building Laid at Moose Jaw.

With a ceremony befitting the occasion Lieut.-Governor Forget made the first official visit to Moose Jaw to lay the corner stone of the new Y.M.C.A. building. Delightful weather favoured the occasion, and a civic half holiday having been proclaimed, large crowds gathered to greet the representative of the King. The city was en fete with bunting and flags. A guard of honor of the Sixteenth Mounted Rifles met his honor at the railway station, and escorted him into the city. A civic address of welcome was presented on his arrival.

Dynamite Explosion at Field

A dynamite explosion occurred in tunnel number two, on the Field Hill reduction work at Field, Alta., shortly before the two tunnels were joined. In the accident two men were killed, two others being seriously injured. The cause of the trouble was the presence of a quantity of dynamite in a drill hole which had been overlooked. When it was struck the dynamite exploded with terrible results.

New Paper for London.

It has been learned that London, Ontario, is soon to have a Conservative evening newspaper. Those mentioned in connection with the project are Hon. Adam Beck, Dr. F. P. Drake, A. C. Greer and G. McCormick. J. P. Downey of Guelph is to be the editor in chief.

Roberts Encourages Rifle Associations.

Lord Roberts has sent an autograph copy of his book, "Forty-one Years in India," to be competed for as a prize by the Saskatchewan Rifle Association this year.

Big Blaze at Barnet.

The Northern Pacific Lumber Company's Mills at Barnet, were totally destroyed by fire last Thursday. The fire which started shortly before midnight, gained headway so rapidly that the employees, who were quickly on the scene, were of no avail to stop the conflagration. The loss is estimated at about a quarter million dollars, and very little insurance was carried. Much lumber, however, is still on hand, and extensive timber limits are held by the company, and it is probable the rebuilding of the mill will start at once. Several C. P. R. shed adjacent to the mill were burned, along with some freight cags which were standing on a siding. Had it not been for the C. P. R. and the Vancouver fire brigade coming quickly on the field, the surrounding district would have suffered greatly. The C. P. R. estimate their damage at about $5,000.

Grain Will be Shipped West.

The grain crop of Alberta and Saskatchewan, will in future be shipped through Vancouver, via the Horn, and across the Isthmus of Panama. This is the decision of a meeting of C. P. R. officials at Winnipeg last week, and means the shipment of about 75,000,000 bushels, across the Rocky Mountains. Manitoba's crop of 100,000,000 bushels, will go to Europe via Montreal, as heretofore.

Winnipeg to Have New Elevator.

Barnett McQueen, of Minneapolis, has been awarded the contract for the erection of a 300,000 bushel, concrete elevator for the Ogilvie Flour Mills Company, at Winnipeg. The construction is to be started at once.

Chinks try to Bribe Mayor.

Two Chinks tried to bribe Mayor Robinson of Kamloops, in the matter of an assault case, and are now in gaol, their names are, Ah Sing, and Louie, the latter being at the same time, cook at the Royal Inland Hospital. Previously, one Fred Bennet, was before the magistrate, charged with doing damage to Louie's place in Chinatown. He established an alibi and was given his freedom. In the meantime, Sing and Louie waited on the mayor at his home, and promised him money if he would impose a heavy fine on Bennett, or sentence him to a long term in gaol. The Mayor told them to wait upon him in the City Hall, and a constable was placed behind the screen. Louie offered the Mayor $10,00 if he would grant him his wishes, and said he would give him some more money when the deal was through. The chief then effected the arrest.

Deaths by Gas Blowout.

Two unidentified foreign miners, were killed in a serious accident that occurred in No. 7 mine, Coronado, B. C., owned by the Crow's Nest Pass Coal Co. A big blow up of gas and coal occurred. The blow up causeda large quantity of pent up gas to burst, shaking coal with terrible force into dust, and it was impossible for the men in the locality to escape death. Luckily, the accident occurred on the night shift: had it occurred in the day, serious numbers would have been killed. Some time ago a like explosion occurred at the same camp, causing the death of a number of men. It was so serious that the Government closed No. 1 mine, in which the accident occurred.

Vancouver Man Electricuted.

Frank O'Neil of Vancouver, a mechanic employed in the installing of new machinery, lost his life at the B. C. Electric substation, on Queen Street, through coming in contact with a high voltage electric wire carrying 20,000 volts. O'Neil was working in a gallery, and on receiving the shock, immediately fell to the floor below, a distance of twenty-five feet. Medical aid was instantly summoned, but before the doctors arrival the last flicker of life had departed.

Proposal to Hold World's Fair at Winnipeg.

Mayor Keary, of New Westminster, has received a telegram from Mayor Evans, of Winnipeg, stating that a delegation from the prairie provinces is due in New Westminster at the end of this week, for the purpose of discussing with the business men, a proposal to hold a world's fair in Winnipeg in 1912. Arrangements will be made for a public meeting as soon as the party arrives, and it is the feeling of the majority of people, that such a project will receive unbounded support.

Gold and Copper Found Near Kamloops

Reports are to hand from Kamloops, of a quantity of copper and gold ore having been found. A rich strike was made at the Kimberley mines last week, the ore body being very extensive and near the surface. Valuable ore has also been found in the Wheal Tamer mine in the local camp. Herman Beckman, who owns the Kimberley mine has set a large body of men to work and it is expected before long the whole mine will be in a working condition.

AN IDEAL FRUIT RANCH

HAVE YOU EVER CONSIDERED THE ADVISABILITY OF OWNING ONE?

Social and Personal

Mr. C. G. F. Robertson left last Saturday for New York.

Mr. Driscoll left for Edmonton last Saturday.

Miss Ramsdale left by Saturday's boat for Victoria.

Ted Beran has accepted a position with H. H. Millie as night operator on the telephones.

Father Conan of Revelstoke, Roman Catholic Missionary among the Indians, left for Penticton last Monday.

Mr. and Mrs. H. Martin of Victoria are visitors in town this week.

Mr. and Mrs. D. Mandeville arrived here from Brandon last Tuesday.

M. Eastman returned from an extended trip to Vernon last Thursday.

Mr. and Mrs. Stray and family of Spokane arrived here last Saturday with the intention of settling here. Mr. Stray was so taken up with the locality when here last winter, that he decided to go back and bring his family with him.

Mr. Steeples, colporteur of the British and Foreign bible society will be in town for the next few weeks. He preached out at Mount Pleasant last Sunday.

R. T. Heselwood left by Tuesday's boat for Vernon.

Constable Tooth arrived from Penticton on Tuesday after an extended trip both up and down the lake.

Mr. Robert Hughes, who bought land from the Central Okanagan Land & Orchard Co., about two years ago, was in town this week and was surprised at the rapid growth the town has made since his last visit.

Doctor Nast and Mr. Needham, of Peachland, were visitors to town last Tuesday.

C. A. Stross, arrived from Keremeos last Tuesday and is staying at the Lake View.

Mr. S. Lister wishes to thank all those who, by the assistance of Mr. C. A. Marshall and Mr. Childers have so kindly contributed towards his artificial limbs. The kindness of the people of Kelowna has long since been conveyed to his home in England.

We are pleased to see E. Wilkenson around again. Last Tuesday he had a fall from his horse when returning from the Mission, severely bruising himself: he however feels better now.

Dr. Mathison, dentist, next to Post Office. Phone 89.

E. L. CLEMENT

Town and Country News.

Several delegates from the Methodist Church, including Mr. J. W. Jones and Mr. J. A. Biggar and Mrs. Cox left for New Westminster last Monday, to attend the conference of the Methodist Church at that point.

R. E. Lambly left for Gleichen, near Calgary, last Monday. Both he and his father own extensive ranches there, and it is possible that "Bert" will bring back quite a few good saddle ponies.

Mr. H. H. Millie is about to install two new full metallic switch boards, which will greatly improve the telephone service. The service will be all day and all night one except on Sundays when the service will be open from 9. 30 to 10. 30 and from 5 to 6 pm. In case of fire it will only be necessary to call "Fire" down the telephone, and the name of the person calling. The telephone officials will do the rest.

Several fine trout were caught off Mission Creek this week, the largest weighed about ten pounds and was on view at Lequime's Store.

We are asked to acknowledge the sum of $2.00 from Geo. Munford for the Sam Lister fund. The new limbs which have arrived were supplied by Messrs. Willits & Co., at cost price.

Messrs. Sullivan and Gerrard will leave this week on another "Bear Hunt," others will be leaving shortly on a "wild goose chase."

The Rifle Association has started its practices, and quite a few members left here last Thursday to pay a visit to the Rifle Range. A good shoot is reported.

The Baseball team will visit Summerland on May 24th. Posters are out notifying a good day's sport, as well as a baseball game.

Quoits started last Tuesday evening, several good throwers being present in the park. Why not try and again establish a quoit club?

Collett's new livery barn is now budding forth in all its glory. A good job has been made of the concrete walls, and the roof is now in course of erection. It will not be long before the whole is finished and ready for occupation.

The Kelowna Rifle Association is paying visits to the butts every Thursday afternoon. Last Thursday Leon Gerrard came off with top score, closely followed by J. N. Cameron.

The death of William Wilson of Woods Lake, near Okanagan Centre, took place in the Kelowna Hospital after an illness of ten days duration. He died on Saturday night and his remains were taken to the Presbyterian church on Sunday. The funeral service which started at two o'clock was conducted by the Rev. A. W. K. Herdman, the body leaving the church at 2:30 o'clock. At the grave the Rev. Thos. Greene assisted. The pall bearers were Mr. D. W. Sutherland, Mr. Weddell, Mr. Whelan, Mr. Swallow, Mr. W. Haug and Mr. Lloyd-Jones. Mrs. Wilson is at present staying with Mrs. Lloyd-Jones.

W. Blackwood, the new water bailiff is becoming a familiar figure round the town, mounted on his horse and with a long handled spade over his shoulder.

The volunteer fire brigade had to answer a false alarm of fire, last Friday. The alarm was given at the instigation of Mr. Samson, who wished to see how quickly the boys could turn out. The hose reel was out of the fire hall by the time the last whistle blew, and within a few minutes, 500 feet of hose was laid along main street. Great credit is due boys for this display. Are they training for the Marathon?

The new labelling instructions were fully carried out, when Mr. Daniel left last Saturday for Victoria. The label was hard to decipher, but ran something like as follows: I am going to GETMARRIEDMASAIDIMIGHT. He, however was not kicked out of the town with much force, several taking the liberty of removing their boots and placing them on Mr. Daniel's trunk, before seeing him safely on the steamer. Mr. Daniel now wonders why so many people use wire instead of laces to tie their shoes.

The report that our old fire engine is in imminent danger, is without foundation. Two of our prominent business men were contemplating making a trip with it to the States, but it was thought that if it left these shores, it would be nothing to "see at all."

The "Aberdeen" will run a special trip on Victoria day, 24th of May, leaving the Kelowna wharf at eight o'clock p.m., after the races. She will make a southbound trip to all points between Kelowna and Penticton. "Good luck to her."

Dr. Nash, secretary of the Peachland Chess Club was in town this week trying to arrange a contest between Peachland and Kelowna. It is possible a match will be made in the near future.

Mr. G. H. E. Hudson was a travellor to Sicamous last Wednesday. He took with him one of those everlasting proofs that Kelowna is a "picturesque spot."

A. W. Lanne, of St. Louis, arrived in town last Saturday, and will remain here a few days days on business.

Rutland Notes.

Mr. J. L. Dunton and family left for Vancouver Saturday morning to take up their residence there. We wish them success.

The shower this week did a great deal of good, and potatoes and other vegetables are looking well.

Look out for the Mount View Bible Class picnic on the 20th inst. Bring your basket and come along.

PRINCE RUPERT, B.C.

A great city is springing into being in British Columbia. It is Prince Rupert—the city of destiny.

Prince Rupert is the terminus of the Grand Trunk Pacific—the emporium of Northern British Columbia, Alaska, and the Yukon—the centre of the great fishing industry of the north—and destined to become one of the great commercial and industrial centres of population on the continent.

Between 2,000 and 2,400 lots will be offered for sale by public auction in Vancouver, B.C., May 25th to 26th. Terms:—one quarter cash; balance one, two, and three years at six per cent. interest. Titles are absolutely indefeasible, which means that all titles are guaranteed by the British Columbia Government.

No city in the making ever presented to the world greater possibilities than Prince Rupert. What San Francisco is to California—what Portland is to Oregon—what Seattle is to Washington—and what Vancouver is to Southern B. C., Prince Rupert will be to the great developing region of the North.

Result of the Prize Essay Contest.

Our Essay Contest provoked not a little interest amongst the young people, and quite a little batch of chatty and interesting letters have reached our office. The children of Kelowna at least, judging from the tone of some of these letters, have no doubt about the attractions of their city in the summer time.

The First Prize of $2 goes to NETTIE HARVEY, for her chatty little letter which we print below.

The Second Prize of $1 has been won by EWAN McLENNAN.

We have pleasure therefore in informing these two young people that their prizes await them at this office.

First Prize, by Nettie Harvey.

Kelowna, B.C.,
April 28th, 1909.

Dear Mildred:—

Don't you wish you were in Kelowna having a good time with all the girls and boys? It is a very pretty place, and I have lots of fun playing with my neighbors in the summer time, and that pleasant time will soon be here again, and the trees will be out in leaf.

Last summer we used to take our lunch up on the mountain on Saturday morning and would stay till about two o'clock and then come home.

I can play tennis a little. I remember the game I had with a little boy last summer and I won.

I used to go bathing nearly every day in the lake, but I can't swim yet.

There is some beautiful scenery around here. Crawford's Falls is a nice place most people say, but I haven't been up yet to see it.

Last summer we had such a nice time at our Sunday School picnic. We had it at Okanagan Centre. We played games, and watched the boys playing baseball, then gathered pretty stones by the water, till it got quite late, and then we had supper, and when the Okanagan boat came in we went home and was pretty tired when we got there.

They have lots of picnics and seem to find nice places to take them to.

I have been across the lake to the peach orchard and had some fruit, and it is a very pretty place and I had a very nice time.

The night of the Regatta, they had it in the park, I was down and watched the pretty waves roll in, and the lovely boats on the water, lit up with Japanese lanterns and the park was strung with them too. The band played and I enjoyed myself until I had to go home.

I hope I have as good a time this summer as I did last.

So good bye,
Your friend,
Nettie Harvey.
Age 11 years

Second Prize, by Ewan McLennan.

Kelowna, B.C.,
April 23, 1909

Hector McLean,
Chigwell, Alta.

Dear Hector:—

The city of Kelowna is situated on the east side of Okanagan Lake, which affords an excellent swimming place during the summer months. In one place it gets very deep within a few feet of the shore. Here there is a spring board, off of which many delight in diving. There is also another place for beginners, where a person can easily wade out a hundred yards.

Other times you will be enjoying a game of baseball, football or lacrosse. They have already started baseball and football. After you have had a game, and you are hot and tired, it refreshes you to have a swim. The regatta is what we are all looking forward to.

When you begin to get tired of city life, you can take a gun and fishing tackle, and go out for a day of sport in the country. If you like, you can go down to the docks and fish. Sometimes you will catch a trout, but they are not so plentiful as in other parts of the lake. Sometimes we boys catch squaw fish and suckers and sell them to the Chinamen.

We are not always doing the above things. We have to hoe the garden and water it. Besides cutting and bringing in the wood and all the rest of the chores.

During the summer holidays we sometimes get a job and earn some money, which is spent about as fast as it is made. The general places where work is found during the summer is at the sawmill, canning factories, on the farms, on the streets, put up buildings, etc.

Yours truly,
Ewen McLennan.

Teacher: "Now what is the noble Red Indian's wife called?"

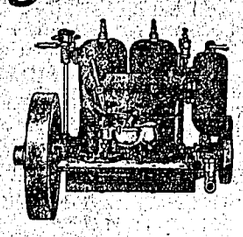
Tommy Jones: "A squaw, miss."

Teacher: "Quite right! And what are the Red Indian babies called?"

Tommy Jones: "Squawkers, miss!"

Investigate the Ferro

The Best Engine on the Market Today. We can show you.



Not an Experiment. Sold to Leading Boat Builders.

Made in 10 sizes - 1, 2, and 3 Cylinders - 3 to 25 H. P.

BROWN BROTHERS COMPANY, NURSERYMEN,
LIMITED, of ONTARIO,

Are extensive growers of all kinds of Fruit Trees, and other Nursery Stock, such as Roses, Shrubs, and Ornamental Trees, and offer to planters of Orchards, choice trees, true to name.

The most experienced planters realize that young trees grown in Ontario, under somewhat similar conditions as prevail in the Interior of this Province, are the best.

We are prepared to furnish "One year old trees," on a three year old root, or a two year old tree on a four year old root, as desired, at prices that will be considered reasonable.

We grow the Duchess Dwarf Pear very extensively, which is being used as a filler by a good many planters.

Our Peach, Apple, Pear, cherry and Plum trees are all of first quality well grown, well rooted, and will please the most critical buyers.

Thorough cultivation in our Nurseries ensure a splendid root system which of course is most necessary in a young tree.

During the past two seasons we have successfully shipped our stock to all parts of the Province, and can guarantee satisfaction to all our patrons.

The members of our firm are all practical Nurserymen, with long experience, and they are giving their whole time to this one business, constantly overseeing every detail of the work of growing, packing, shipping, etc. The fact is, we live among the trees, watching with zealous care the development of every acre of our vast plantings.

This is a Canadian enterprise of 25 years standing, and our reputation is behind all our dealings, give us your order and you will not regret it.

We want a good reliable man to look after our business in Kelowna and vicinity.

Apply for particulars in regard to prices and terms to salesmen to our British Columbia Branch Office.

FOREST FIRES.

Result of Investigation Made by Forest Expert in Alberta.

Forestry in Western Canada (as everywhere else) means far more than the planting of trees. The first step in forestry is the preservation of forests already existing, and, as far as Canada—east and west alike—is concerned, that means the keeping out of fires. Something in this direction has already been done in Canada, but much remains to be done.

Forest fires in the Rockies, their effects and means of preventing them are discussed by Mr. H. R. MacMillan, Asst. Inspector of Dominion Forest Reserves, in the December issue of the Canadian Forestry Journal. His article gives the result of investigations made by him during the season of 1906 in the Crow's Nest district of Southern Alberta, more accurately defined as the valley of the middle fork of the Old Man river between the Livingstone range and the western boundary of Alberta.

Originally this whole region was heavily timbered, so the reports of explorers and other early visitors to the district say, with the exception of a small area (eighteen square miles in extent) situated above timber line. "So numerous and so disastrous have been the fires following in the wake of travellers, settlers and railways," Mr. MacMillan writes, "that at present, of the original 212 square miles of forest, only 33 square miles remain." Moreover, the timber which is easiest to get at is always the first destroyed, and what is left is situated at high levels and in other places where it is hard to get at.

Not only has the timber originally on the land been destroyed, but in some cases all possibility of producing, without going to an enormous expense for artificial planting, more timber (or anything else) on the land has been taken away. In this Crow's Nest Valley alone there are, out of the 212 square miles of its total area, 85 square miles of such land. Originally covered by a heavy forest of fir, it is now but a "poor, gravelly prairie, unfit for agriculture and of very little use for grazing." One fire alone does not usually have this effect, but "a second or third fire rarely fails to kill all the forest reproduction" (i. e., the little trees) "to destroy the remaining seed trees, to burn off the upper layer of soil, and leave a desolate waste" such as the country just spoken of.

On portions of this area nature has made a good start toward creating a new forest. Sixty square miles of the area are covered by a dense growth of young trees, the land so covered lying too high on the hillsides and being too rough, stony and gravelly to be fit for agriculture or valuable for grazing. All that this area requires in order that it may again be covered with dense forests is protection from fire.

Thus fire protection is obviously the great need of the region, and the Department of the Interior, through its Forestry Branch, is devising means to this end. So far, the measures used for the protection of forests from fire in Canada have consisted of the patrol of the forests by rangers, who constantly travel through the forest, keep a look-out for fires (often discovering and extinguishing in their beginnings fires which, neglected, would burn over miles of territory), fight fires and warn campers and travellers against the careless use of fire. This patrol will in all probability form the basis of the system of protection eventually put in operation, supplemented by the use of "look-outs', and the telephone.

New Wash Suits and Skirts

Just received per Express

Ladies' Tailored Linen Costumes, beautifully made, at $10, $11.50, $12, $14
