City Council Meetings

Automobiles Objected to as a Public Nuisance - C. P. R. Sign Papers Agreeing to Build Wharf - Estimates of Board of Works and Fire and Water Committees.

A meeting of the City Council was held on Monday last, the Mayor, and aldermen Ball, Bailey, and Elliott were present. Alderman Cox was present part of the evening.

The minutes of the previous meeting having been adopted, Mr. Milligan approached the council with reference to buying the old fire engine. Mayor DeHart after asking him what price he anticipated paying, said the matter would be brought up again during the evening, and arrangements would be made with the council.

Among the correspondence next read, was a telegram from Mr. J. P. Forde, informing the council that the necessary papers for the starting of the new wharf, had been signed by the C. P. R.

An amusing letter was also read from one of the ratepayers, asking that motor cars should not be allowed to run, say, for one day each week, so as to allow the farmers' wives and children to go into town without being molested by the machines. The letter was duly filed.

Mayor DeHart remarked that now the C. P. R. had signed the papers, agreeing to build a wharf at the lower end of Water Street, it was quite in order to read by-law No. 60 for a third time. This was done together with by-laws Nos. 61 and 59. The three being passed for a third reading by the council. It was decided to vote on these on Monday, 17th day of May next between the hours of 9 a.m. and 7p.m., and that G. H. Dunn be the returning officer. At the same time, it was decided to vote on the question of putting the clock on one hour, so as to have an extra hour of daylight, it being pointed out by the Mayor that the matter was receiving attention all over the province. He had had information that the idea was generally satisfactory in the eyes of the working man.

The directors appointed by the A. & T. Association were present, with reference to the transferrence of their property to the city. The following agreement was read as a result of the conference :

That the city pay $3,500 cash and a lease of property for one week in each year. The city to repair buildings, fences, and track, and have same ready in time for the show this year. The city have right to terminate lease, on payment to the association of $175 per year for each year lease has to run.

That the city purchase enough land to make a regular half-mile track.

This agreement was satisfactory to the A. & T. trustees and committee, as well as the city council, and it was decided to put the matter in legal form as soon as possible.

The following estimates were submitted by Ald. Bailey, chairman of the Board of Works.

Glen Ave. Grading etc.	$150
Ethel Str. " "	150
Laurier Ave. " "	50

Mrs. D. McLean, re Motors a nuisance.

Telegram from J. P. Forde, re agreement signed on April 27th, by C.P.R.

In looking over the estimates made by Ald. Bailey, Ald. Elliott did not think enough was allowed by him for the improvements of Pendozi Street, and that that street ought to have consideration before Glen Avenue. Mayor DeHart thought the estimates fair, and great credit was due to Ald. Bailey. They were less than those submitted last year by over two hundred dollars.

Ald. Elliott thought Pendozi Street was one of the worst streets and the expenditure of $150 might save it.

Mayor DeHart thought Glen Avenue ought to have the prior consideration, as nothing had been spent on its upkeep while Pendozi Street had received quite a lot of attention. It was decided to let the matter drop for the time being.

The question of selling the old fire engine to Mr. Milligan was next brought up, and a very amusing discussion ensued. It was agreed not to sell it at present as it might become a valuable asset.

A letter from the Vernon council advising that the old ladder truck, which it was proposed to purchase for our fire brigade, was unavailable.

Ald. Elliott did not think it advisable to go further into this matter as he had already ordered a light ladder, and the truck would be unnecessary.

Ald. Elliott was asked to make enquiries about the old extension ladders which belonged to the city. They had been used for painting by various painting firms, and it was about time they were collected together.

The advisability of putting in a permanent pipe system for water, was largely gone into by Ald. Ball, the discussion bordering on the plan of putting water down streets where it is required, under the local improvements act.

Mayor DeHart had not had time to look thoroughly into this matter, but had been advised that it was only possible to put in a water system under the frontage tax. He would give the matter his consideration, and report his views, as he did not think it right for people who did not want water to pay for it.

The attention of the council was drawn to the advisability of setting up a cement watering trough in the city.

Ald. Elliott did not think it advisable, as it had been condemned in so many places.

Ald. Bailey thought it best to combine a watering trough and drinking fountain, it finally being left with the fire & water committee to make an estimate.

The rod on the bridge in Pendozi Street was again discussed and Ald. Elliott promised to have it seen to this week.

The following accounts were referred to the finance committee to be paid if found correct.

D. Mills, Scavenging	$125 00
Crawford, stationery	4 10
B.C. Gazette, court of revision notice	5 00
A. Gagnon, work on streets	31 50
R. Draper, " "	12 50
Wm. Haug	52 10
Noble Engineering Co., castings	52 00
J. Vail, work on Power House	9 00
Wm. Irvin, " " "	2 50
A. O. Burnette, care of engine to April 17th	100 00
W.C. Blackwood, grading streets	179 00
Hinton Electrical Co., supplies	1 50
Hinton Electrical Co., supplies	16 50
Morrison-Thompson, supplies	11 55
Morrison-Thompson, supplies	8 81
Salaries	682 95

The following motions were carried.

Elliott-Ball—That the plan of lots 13 and 14, Block 1, submitted by C. Quinn be accepted.

Ball-Bailey—That the fire and water committee be instructed to enquire into the cost of erecting a watering trough and drinking fountain, and to suggest a suitable location for same.

Ball-Bailey—That the city solicitor be instructed to get the deed conveying the park to the City of Kelowna, duly registered.

Ball-Bailey—That By-laws No. 60 and 61 be voted on by the ratepayers of the City of Kelowna, on Monday, May 17th, from 9 a.m. to 7 p.m., and that G. H. Dunn be the returning officer.

Elliott-Ball—That by-law No. 59, be reconsidered and finally passed.

Elliott-Bailey—That By-laws No. 60 and 61 be read a third time.

The meeting then adjourned to meet on Tuesday, May 4th, at five o'clock p.m.

A meeting of the council was held on Tuesday at five o'clock. The Mayor and Aldermen Ball, Bailey and Elliott being present.

Mr. Lawson attended to ask that certain expenses for fares, etc., incurred in sending the school delegates to Vancouver, be placed on the supplementary estimates. Mr. Lawson explained that this would not be required if the school building did not require every cent of the money subscribed for building purposes. The amount was one of about $110, and he would not like to see the building badly put up for the want of that amount. In reply to a query Mr. Lawson said the school building would be made of brick throughout, and he would like the council to see the plans and make advices on the building.

Mayor DeHart remarked that he thought the delegates expenses might be put on the supplementary estimates, and that the council would be pleased to see the school plans on Monday next.

The most important item on the table was the discussing of the legality of the A. & T. deal.

The city solicitor, Mr. Burne, being present, each clause of the agreement was taken piece by piece and considered. Some legal hitch was due to appear, when it was decided to save this by getting the A. & T. to trade with D. W. Crowley & Co. a certain portion of the grounds, on the West side and and a like amount on the North side. Ald. Bailey, who was responsible for the suggestion, remarked that it was better for the A. & T. to fix up this matter before the deal went through.

The following motion was made by Ald. Ball, seconded by Ald. Elliott.

That the city do purchase from the A. & T. of the Okanagan Mission, that part of lots 44 and 45 owned by the said association, for the sum of $3,500

That the city as a further consideration for the said land agree to lease the land so purchased for one week in each year at a rental of one dollar per year. In the event of the city desiring to sell said lands, at any time during the said lease, they shall have the right to do so upon paying to the A. & T. Association, the sum of $172 for each and every unexpired year of the said lease.

It was also agreed to give the Mayor and City Clerk authority to have the necessary documents prepared to close the foregoing resolution, and to sign same. The meeting then adjourned to meet again on Monday, May 10th, at 7:30 p.m.

Aquatic Association is Incorporated.

The Kelowna Aquatic Association was incorporated as a limited company at Victoria on the 26th of April with a capital of $10,000 divided into 400 shares of $25 each.

The notice which appears in this week's B.C. Gazette expells all reports that the Association was lying dormant. A strenuous effort will be made during the next few weeks to get the required number of subscribers. It is certain this will not be a difficult task, the majority of the directors being already large shareholders. An advertisement of the Association appears on another page, whereby the shares are offered for sale, and it can hardly be out of place to say that those who anticipate making an investment will be putting their money into something great. The benefit the association will be to the city is enormous. Parents will be able to send their children for a dip in the lake, knowing that the Association will have an attendant to look after them, thereby obviating all need of anxiety on the part of the parent. The attendant will be a good swimmer, and will in all possibility conduct a course of lessons for those who are at present unable to swim. The hire of towels and costumes will obviate the carrying of such articles through the streets, while a well directed place for dressing will be a boon to the city. Diving boards and appliances will be ready at hand and it is likely that a special time will be made for the convenience of ladies and young children.

It is likely to be one of the finest investments in the city and the advertisement for the sale of shares ought not to be passed without due consideration.

Kelowna Public School.

The honor roll for April, 1909, is as follows:

1st Primer class—R. Downing, J. McMillan, S. Stiff, R. Hall, D. Francis, B. Davis, B. Dalgleish, R. Dahlberg, R. Forrest, A. Duckworth, A. Bawtinheimer, E. Beatty, C. Wrigglesworth, J. Marshall, T. Day, W. Raymer, G. Hall, S. Wilson.

2nd Primer class—T. Crowley, E. Fletcher, N. Dahlberg, C. Ferguson.

1st class Jr.—H. Herdman, G. Pettigrew, D. Forrest, G. DeHart, F. Plaskett, F. Wheeler.

1st class Sr. —R. Leckie.

2nd class Jr.— B. Cox, R. Raymer.

2nd class Sr.—M. Marks, G. Day

3rd class Jr.—G. Silke, F. Dilworth, G. Langille.

3rd Sr.—A. McLennan, M. Elliott O. Pettigrew, S. Cox.

4th class Jr.—M. Day, B. Thompson, B. Fletcher.

4th class Jr.—E. Hall, Z. Monford E. McLennan, W. Thompson, E. Jones, M. Leckie, R. Elliott, C. Jones A. Lemon.

The annual meeting of the Young Ladies' Auxiliary of the Knox Church was held on Monday last, the names of the new officers elected for the ensuing year were. President, Miss Eva Copeland, Vice-President, Miss Kathleen Morrison, Secretary, Miss Hardie, Treasurer, Miss Maud Newby, Missionary Treasurer, Miss Edith Glenn.

W. Siloer of Peachland arrived on Thursday, and will assist Mr. Cloughton with the Bowling Alley.

La Grippe has had more victims this week, and has delayed the issue of The Record by a day.

A. & T. Association Still in Discussion

A meeting of the A. & T. Association was held in Raymer's Hall last Saturday, a very small attendance being present.

In a general discussion before the minutes of the last meeting were read the members intimated that they were tired of these Saturday afternoon meetings and wished for something to be done that would put a stop to them. The attendance of members had been dwindling down, and now they were only left with the directors and and a few others. It was decided to hold a meeting of Directors before the general meeting started in the hope that more members would turn up during the afternoon, but this was not the case, and the general meeting was proceeded with.

Mr. D. W. Sutherland took the chair, asking the Secretary to read the minutes which were adopted.

A letter from Mr. Raymer (who was unavoidably absent) to Mr. Pridham, was next read, in which Mr. Raymer set forth that he would agree to a proposition to sell the A. & T. grounds to the city, and to obtain a lease of the grounds for one week in the year, at a charge of one dollar per year. The lease to spread over a period of twenty years and to be renewable. He would also agree to the A. & T. issuing stock certificates, but would not agree with the proposition now before the council.

Mr. Pridham said he agreed with Mr. Raymer, and thought that either course would be a wise one to adopt. Taking the question of issuing stock, he had authority in stating that $2,300 was already guaranteed. He thought it best to hold the property so that the right to sell was held in the hands of the A. & T. Association. There was no doubt that that the property would become valuable in time, more especially as the C.P.R. were about to bring their new wharf and warehouses into that locality.

Mayor DeHart remarked that the proposition to issue stock would soon put the A. & T. out of business all together. He thought it would be a difficult matter to deal with a lot of outside shareholders if they desired to sell, while if they were dealing with the council, no doubt some amicable terms and agreements could be made.

Mr. Dilworth remarked that the parties purchasing the shares would expect about 8 per cent. and in the event of that interest not forthcoming, the possibilities were the place would be sold by auction. The present mortgage was one of $1,100 and the interest was 5 per cent., if it was impossible to pay off the interest on that mortgage how could the Association hope to pay off an interest of 8 per cent.

Mr. Speers in the course of an animated speech declared that in his opinion it was best to raise the money to pay off the indebtedness of the Association by subscription. He explained that the park was not a suitable place for a show building, in his opinion the city ought to make the park as presentable as possible and not to court the idea of having an ugly building on its ground. He advocated the present spot because it was away from the hotels and was in a quiet neighborhood and he would like to see every member give five or ten dollars as a subscription to a fund to clear the A. & T. grounds of all debt.

Mr. Sutherland thought it best to take one subject and deal with it first, before putting forward any more suggestions. Referring to Mr. Raymer's letter and Mr. Pridham's endorsement of the arrangements contained therein, neither of the trustees would agree to the lease in the park, in that case it was useless to go further ahead in that direction. He did not know how the issuing of stock would pan out, the stocks would have to be subscribed for by outsiders and that would interfere with the selling of the grounds, he thought it best to submit to the members the issue of stock, on conditions that the ground was not sold if the interest due was not paid. He could not make out why the original agreement had been turned down.

Mr. G. Rose replied that the 8 clause agreement was turned down because one of the council did not agree to clause 8. It was thought very feasable at the time and he did not see why it could not be settled that way. Clause eight was the only one that the council objected to and he thought that clause might be altered to meet the situation. He suggested that the Association should sell the grounds for $3,500 and in return to have the use of the grounds for one week in every year for a term of twenty years, the city agreeing to repair and move the present buildings, and place the fences and track in a good condition, the council to keep the same in good repair. Mr. Rose wished to put it forward as a motion.

Mr. D. McEachren said he had much pleasure in seconding the motion put forward by Mr. Rose, as it appeared to him to be the best plan to adopt. It would make the grounds of some use to the public. It had been a disgrace while the A. & T. had had hold of it, and the fact of the city maintaining its upkeep would greatly improve matters in that direction.

Mayor DeHart and Mr. Elliott did not think the council would pass such a clause, as the agreement to keep the track and fences in repair was not needed. They would not bind themselves to keep it in repair, but as it was the city's property naturally the city would look after it.

Mayor DeHart thought the best plan would be for say two of the trustees and two of the directors be given power to make final arrangements with the council, and also have the authority to sign the papers. The clause put forward amended by Mr. Rose was too fine, and in its present condition would not be passed by any of the council, but it could be altered to meet the council's approval by leaving out the latter part, whereby the council were responsible for the upkeep of the fences and track.

Mr. Elliott said he would not agree to the maintenance part of the clause, maintaining the fences and track for 20 years could not be agreed upon by the council, and if money was spent in this manner where would the revenue come in.

He thought the best thing to do was to adopt Mr. DeHart's suggestion and appoint 4 members to make final arrangements with the council.

Mr. Dilworth pointed out that it was the clause in the agreement to maintain the property that turned the original proposition down. He would suggest that a codicil be added, that if it was not a paying proposition the city would not be bound to maintain.

Mr. Crowley remarked that it was useless to put forward a motion that was not agreeable to both parties.

Mayor DeHart urged the members to make a definite settlement, or else leave it in the hands of the trustees, as the city were about to turn the whole thing down and refuse to assist the A. & T.

Mr. Stirling did not think the city wanted to assist the A. & T., his idea was that the ratepayers through their agents the council, wanted something for nothing. As things stand at present it was understood the council wanted to turn the A. & T. off any time without renumerating. The only consideration they got was that their debts were paid.

There is a strong feeling of dissatisfaction abroad at present amongst the working men of the town owing to the fact that the, to them, somewhat inconvenient hours of the Post Office make it difficult for them to obtain their mail. They do not rent boxes, and do not see why they should be put to that expense, and the hours during which the Office is open for general delivery do not fit in very well with their ordinary working hours.

The Post Office opens at 8 a.m. when the working man is at work, and closes punctually at 12; during the dinner hour, therefore, he has no opportunity of getting his mail. In the evening general delivery business stops at 6, or very soon after, and the chances are that the wicket is closed before he can reach the office after quitting his work.

Our representative had a talk with Mr. Bailey on the question and found him quite willing to do all in his power to set matters right. It was the first he had heard about the difficulty. We venture to think that to approach our genial postmaster direct and explain matters to him would be a better and quicker solution of the problem than "writing to Ottawa," or "raising Cain" through the press, as some are desirous of doing.

Ought not this great fruit district to have some institution whereby the care and management of fruit trees can be explained? Added to this institution, a packing school should be run. There are many people in the town as well as in the country who would cherish the the idea of a packing school, and it ought not to be a difficult proposition to hold such a school, say twice a week during the packing season. The careful handling of fruit and the packing of same is the great point on which the market value of the fruit turns. Kelowna has long been famous for its well packed boxes, its unblemished specimens of fruit, but with the increasing orchard space, and the increase of the market a time will come when all the available master packers are unable to cope with the rush of business, and incompetent hands will have to be employed. Why not teach those in our own valley the art of packing fruit? Many would be pleased to learn, and pay for the upkeep of a packing shed and the salary of and experienced packer.

Owing to lack of space we have been obliged to leave over publication of the winning essays in our Prize Essay Competition until next week. Our next issue will therefore contain the results of the contest and the essays of the prize winners.

Richter Street

8 acres in corporation, suitable for subdivision, 15 minutes walk from Post Office. 1 acre in 8 year-old trees, remainder in 3 year-old. Good five roomed cottage, stable and chicken house.

A BY-LAW for expending certain moneys raised under By-law No. 54 of the City of Kelowna, and not needed for the purposes for which the said sum was raised.

WHEREAS under By-law number 54 of the City of Kelowna, debentures of the said city of the par value of thirty thousand ($30,000.00) dollars were sold for the purpose of purchasing certain lands within the city of Kelowna for a public park.

AND WHEREAS the sale of the said debentures realized the sum of Thirty-three thousand three hundred dollars ($33,300.00) out of which said sum, only, the sum of twenty-nine thousand two hundred and sixty-five dollars ($29,265.00) was found to be needed for the purchase of the lands set out in the said By-law number 54.

AND WHEREAS it is deemed expedient to expend the sum of Four thousand and thirty-five dollars ($4,035.00) of the unexpended balance of the moneys raised under the said By-law number 54, on the laying out and improvement of the said lands purchased under By-law number 54 before mentioned.

NOW THEREFORE the Mayor and Council of the city of Kelowna in open meeting assembled enact as follows:

1. IT shall be lawful for the said Mayor and Council of the city of Kelowna to expend the sum of Four thousand, and thirty-five dollars ($4,035.00), being part of the balance of the sum raised under said By-law number 54, being the City Park By-law 1909, upon the laying out and improvement of that part of District Lot numbered fourteen (14) in group one (1) of the Osoyoos Division of Yale District lying North of Mill Creek and West of Abbott Street in the city of Kelowna and owned by the said city.

2. THIS By-law shall before the final passage therein, receive the assent of the electors of the city of Kelowna in the manner provided for in the Municipal Clauses Act 1906 and Amendment Acts.

3. THIS By-law shall come into force and effect on the day of 1909.

4. THIS By-law may be cited for all purposes as the "City of Kelowna Park Improvement By-law 1909."

Read a first time by the Municipal Council this twenty-fouth day of April, 1909.

Read a second time by the Municipal Council this twenty-fourth day of April, 1909.

Read a third time by the Municipal Council this third day of May, 1909.

Received the assent of the electors of the City of Kelowna this day of May, 1909.

Reconsidered and finally passed by the Municipal Council this day of May, 1909.

Mayor,

Clerk,

Take notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the Clerk's Office in Kelowna, on Monday, May 17th, 1909, between the hours of 9 a.m. and 7 p.m.

G. H. DUNN,
City Clerk.

Old Country News

England to Build Spain's Navy.

The contract for building the ships which are to form the new Spanish Navy, has been settled in favour of the British firm of Messrs. Vickers, Son & Maxim. The contract was actually taken by a Spanish company, which is composed of the members of the above firm. The work of building which will be carried out in Spain, will occupy at least five years, and the contract price amounts to $35,000,000. The staff of workmen will be recruited from the home works and the manufactured materials will be mostly shipped from England.

Queen of Norway Supports Suffragettes.

There was a picturesque reception to the delegates to the International Women's Suffrage Alliance, in Albert Hall just lately Previous to the celebration, there was a procession through the streets, of about a thousand women representing all professions and callings. The Hall presented a brilliant and animated scene during the evening and speeches were made by Miss Carrie Catt of New York. Miss Catt remarked that the Queen of Norway had sent greetings to the congress. This was the first time a queen had ever sent greetings to a women's suffrage convention.

Wants to Build Canadian Canal.

Sir Robert William Perk, who will leave London for Canada shortly hopes to obtain leave from the Dominion Government to start this spring on the projected canal from the St. Lawrence River to the Great Lakes.

Death of Sir Donald Currie

Tee death is announced of Sir Donald Currie, head of the firm of Donald Currie, & Company, and the Union Castle Line. During the part of his life, Sir Donald has given away large sums for public purposes his benefactions including £100,000 to University College, London, £25,000 to Edinborough University and £20,000 to Queen College, Belfast. He was 84 years of age, and it is said was the son of a barber in very low circumstances.

No Belief in Cramming.

Mr. A. R. Picker, of Burnley, in the course of a speech made at the Teacher's Conference at Morecambe, made a slashing attack on the system of examination, and "cramming" for school children. He wished the bright children to develop naturally, and did not like the maxim:

Ram it in, Jam it in,
Children's heads are hollow;
Slam it in, Cram it in,
Still there's more to follow;
Rap it in, Tap it in,
What are teachers paid for;
Clap it in, Slap it in,
What are children made for.

Some schools, Mr. Pickers knew had a system of special classes, which were held during the vacation, and before and after school hours, in order to cram for some exam or other—all for the honor of the school, and the glorification of the teacher.

Operation has Sad Sequel.

An inquest was held at the London Hospital on the body of Mr. Angus B. Wilson, whose death occurred under very remarkable circumstances. Mr. Wilson was attending a female patient who was suffering from laudanum poisoning, and in her struggles she bit his thumb. Blood poisoning set in and death occurred within a week of the injury.

Children on Approval.

A novel plan whereby children can be adopted on trial, has been hit on by the Lambeth guardians. And some few children have already been sent to prospective fathers and mothers "on approval". The new homes are inspected by the adoptions committee, before the child is sent, and by arrangement the would be parents are bound to bring up as members of the family, the children they adopt. At Lambeth a sub-committee of the school committee with three lady members, has recently been formed to take in hand the question of adoption of children. The new system is one of the first practical results of its working.

Dr. Tanner, preaching a health campaign at Los Angeles, recommends that the teeth of all dairy cows should be cleaned twice daily, and says that this law should be compulsory, as he is convinced that bovine teeth harbour many germs that frequent the milk supplied to children. But then, as the "British Medical Journal," commenting on this recommendation, asks—why stop at dental toilet? Why not employ gargles as well as tooth brushes to the cows?

Miss Sweet: Don't you think the opening lines of Tennyson's little poem, "Break, break, break," are plaintive and sad? Stock Broker: Yes. But I think "Broke, broke, broke" is a great deal sadder.

Advertise in The Record It Pays

Sweet Peas For The Home.

It is doubtful, says "Leahurst" in Gardening Illustrated," whether any flower has excited greater interest among the owners of small gardens and the public generally than the Sweet Pea. Unlike many other plants that have become popular for a time, Sweet Peas may be grown entirely in the open, and are independent of a house. They will yield in the course of a season hundreds of delightful blossoms that for table decoration cannot be equalled. Moreover, the growing of this charming annual is not strictly confined to the country garden, although it is where the air is pure and unvitiated that one must look for the best blossoms. Then, again, there is no annual which produces such a number of flowers for cutting as does the Sweet Pea, and the only condition to be observed to maintain a continuity of the supply is summed up in the sentence, "to cut to have."

As soon as one neglects cutting the flowers, and seed pods are allowed to form Just so soon will the plants cease to bloom.

The Japs make a paper cloth that washes like linen.

The last census gave the United States forty-seven frog farms.

Billiard balls crack in winter if kept in too hot rooms.

Beer-drinking races produce large-footed women—see Germany and England.

Rice paper has nothing to do with rice. It is made from the inner bark of the breadfruit tree.

for short hauls. Price of this wood just cost of hauling. Orders filled in rotation.

The Kelowna Aquatic Association, Ltd.

Capital $10,000

Divided into 400 Shares of $25 each

The Association has been formed to promote and encourage all forms of water sports, and to provide proper summer bathing facilities for children, subscribers, and the general public.

Construction of a handsome two-story pavillion will be commenced this month on a site granted in the Park by the City under a lease for 20 years, and it is hoped to get the premises ready by the middle of summer.

Why you should subscribe

There are many reasons why you should subscribe, but it is sufficient to state three:

1. FOR PROFIT. Because the Association will be run economically, and the rents from bathing booths, costumes, towels, and other privileges should pay good dividends after meeting all expenses.

2. FOR PLEASURE. Because your little ones under 14 can use the bathing accommodation absolutely free of charge; and there will be an experienced attendant—a good swimmer—to see that they come to no harm. You and the older members of your family can use the dressing-rooms at a very moderate charge, or you can take out season tickets at reduced rates.

3. FOR PATRIOTISM. Because no other institution can better popularise Kelowna as a summer resort, and your generous assistance to make the town attractive will bring its own reward, as of the many dollars that summer visitors spend, a goodly share may flow into your pockets

SHARES SOLD ON EASY PAYMENTS, viz.: $5 cash on application; balance in equal payments of $5 each on 1st June, 1st August, 1st October, and 1st December.

Subscription List Now Open

Apply to any of the following Provisional Directors, who have power to receive applications and payments, and to give temporary receipts pending issue of shares:

News of the Valley.

Farmers throughout the Canadian west are becoming scared at the prevailing cold weather. Seeding has had a set back, and farmers are now wondering if seeding will be too late to insure a good crop. Optimistic old timers say that the best crops ever reaped went in late, but the majority of farmers and grain men know that wheat that is not seeded by the 1st of May in Manitoba and the 7th of May in Saskatchewan is likely to prove a short crop.

Last Monday the Penticton football boys had a wind-up meeting ovet A. H. Wade's store. We wish it was a case of wind up, and the figures work.

Keremeos have re-organized their gun club and have named a committee to arrange for a shoot on the 24th of May.

Several Kelowna friends of Mr. and Mrs. Hassell spent a most enjoyable musical evening last Saturday at the Bellevue. The arrangements were made through the new telephone, which has been lately installed. A fast trip was made in Campbell's boat "Amelia C" which was specially chartered for the occasion.

The peach and cherry trees are now in full bloom, and if the blossoms show the magnitude of the crop there will be a bumper one this year.

Character Reading From Clothes.

Women who decorate themselves with little frills and furbelows and feathers. and bangles and bracelets and bows are not usually of a simple and unassuming character.

It will generally be found that they are aspiring and ambitious, and that they are, above all things, extremely desirious of "making an impression" wherever they go.

Others again, who (though they can well afford to do otherwise) invariably invest in cheap garments of shoddy material, will be found lacking in all sense of the artistic or the beautiful. Their practical side is developed at the expense of the æsthetic.

Eccentric women are fond of adopting an unusual style of dress—mannish hats, collars and coats, or extremely floppy and limp garments—according to the direction in which their eccentricity manifests itself.—"The Gentlewoman."

What Medical Men Say of Beer.

Beer Kills Quicker Than Other Liquor.

Dr. S. H. Burgeon, a practitioner thirty-five years, twenty-eight in Toledo, says: "I think beer kills quicker than other liquors. My attention was first called to its insidious effects when I began examining for life insurance. I passed as usually good risks five Germans—young business men—who seemed in the best of health, and to have superb constitutions. In a few years I was amazed to see the whole five drop off, one after another, with what ought to have been mild and easily curable diseases. On comparing my experience with that of other physicians, I found all were having similar luck with confirmed beer drinkers, and my practice since has heaped confirmation on confirmation.

The first organ to be attacked is the kidneys, the liver soon sympathizes, dropsy or Bright's disease, both certain to end fatally. And physicians who care to take the time will tell you that among the dreadful results of beer drinking are lockjaw and erysipelas, and that the beer drinker seems incapable of recovering from mild disorders and injuries not usually regarded of a grave character. Pneumonia, pleurisy, fevers, etc., seem to have a first mortgage on him, which they foreclose remorselessly at an early opportunity.

Beer Worse Than Whiskey.

"The beer drinker is much worse off than the whiskey drinker, who seems to have more elasticity and reserve power. He will even have delirium tremens, but after the first fit is gone you will sometimes find good material to work upon. Good management may bring him around alright. But when a beer drinker gets into trouble it seems almost as if you have to recreate the man before you can do anything for him. I have talked this for years, and have had abundance of living and dead instances around me to support my opinions."

A Crop of Lunatics.

Dr. A. McFarland says: "That the iniquities of the fathers are visited upon by the children, that the fathers have eaten sour grapes and the children's teeth are set on edge, are truths that no Scripture is needed to teach. In other words, he who sins through physical excess does not do half the harm to himself that he does to the inheritors of his blood. The penalty must be paid as sure as there is seed time and harvest.

It is your stout old hero, who goes to bed every night with liquor enough under his belt to fuddle the brains of a half dozen ordinary men, and yet lives out his three-score and ten, that will be found at the head of the stock that pours into the world, generation after generation, such a crop of luuatics, epileptics, eccentrics and inebriates as we often see. The impunity with which one so constituted will violate all physical law gets its set-off in a succeding generation, when the great harvest begins.

Dr. S. H. Burgen: "I have told you the frozen truth—cold, calm, scientific fact, such as the profession everywhere recognizes as absolute truths. I do not regard beer drinking as safe for anyone. It is a dangerous, aggressive evil that no man can tamper with any safety to himself. There is only one safe course, and that is to let it alone entirely."

Beer Drinking Shortens Life.

Dr. S. S. Lungren, a leading homeopathic physician and surgeon, has practiced in Toledo twenty-five years. He says: It is difficult to find any part of the confirmed beer drinker's machinery that is doing its work as it should. This is why their life cord snaps off like glass rods when disease or accident gives them a little blow. Beer drinking shortens life. This is not mere opinion; it is a well-settled, recognized fact. Physicians and insurance companies accept this as unqestionably as any other undisputed fact of science. The great English physicians decide that the heart's action is increased 13 per cent. in its efforts to throw off alcohol introduced into the circulation. The result is easily figured out. The natural pulse-beat is, say, 76 per minute. If we multiply this by 60 minutes in an hour, and 24 hours in a day, and add 13 per cent., we find that the heart has been compelled to do an extra work during that time in shrowing off the burden of a few drinks (4.8 ounces of alcohol), equal to 15.5 tons lifted one foot high."

Life Insurance Companies.

The life insurance companies make a business of estimating men's lives, and can only make money by making correct estimates of whatever influences life. Here is a table they use in calculating how long a normal, healthy man will probably live after a given age:

Age.	Expectancy.
20 years	41.5 years.
30 years	34.4 years.
40 years	28.3 years.
50 years	20.2 years.
60 years	13.8 years.
65 years	11 years.

"Now they expect a man otherwise healthy, who is addicted to beer, will have his life shortened from 40 to 60 per cent. For instance, if he is 20 years old and does not drink beer, he may reasonably expect to reach the age of 61. If he is a beer drinker he will probably not live to be over 40 or 45, and so on."

Provincial and General News

Large Works for Kamloops.

The tax rate at Kamloops has been fixed at 18 mills. Many big works are being provided for in the city, among them being a large city hall, costing in the neighborhood of $30,000. An adequate park system is being arranged, and the water and light plant is to be enlarged and improved. It is evident that the civic authorities are determined to keep pace with the progress and expansion that is so prevalent in the entire district.

Convicts as Miners.

Preparations are being made to mine coal by convict labor in the yards of the penitentiary at Edmonton. A seam has been discovered on the river bank nearby and a shaft has been run back and a shaft will be sunk in the penitentiary yard. The warden believes there is enough coal there to supply the jail for years to come.

Burglars Carry off Safe.

During one of the wind storms that have been striking Calgary of late, daring burglars carried off a safe belonging to L. T. J. Turcotte of Sunnyside, a suburb north of the city. The safe which contained about $200 was found the following morning about a mile away, having been battered and broken into by the use of crowbars and other implements. A horse that was in the stable at the rear of the premises was hitched on the delivery rig, and by these means the safe was hauled away. The horse was afterwards fetched back and unhitched. So far there is no clue as to who the thieves were.

Chinamen Likee Horse Shoes.

A Chinamen has been arrested in Vancouver as being suspected of hatching a plot for the wholesale theft and shipment of horse shoes to China. The police had received word that these thefts were going and traced it to two Chinamen, whom it is alleged were placing them in barrels ready for shipment. Old horse shoes it is said obtain a ready market in the Orient, and the thieves would have been richly repaid for their thefts had not the police been advised of it.

May Day in New Westminster.

Every child in the city of New Westminster will remember the May Day celebrations this year. The children attended for roll call in the morning, after which they were immediately given a holiday. The children did not commence till one o'clock, when the royal parade was formed at the Carnegie Library Square proceeding through the business part of the city to Queen's Park. The Crowning of the May Queen, and the dance around the May Pole, together with a long list of races and other sports were held on the arrival of the procession at the park. A special feature of the afternoon was the boys parade drill. A grand ball was given held in the evening at the exhibition buildings, the children holding the floor until ten o'clock. Special cars were run on the Columbia Electric Railway between the City and Vancouver, after the ball.

Grand Trunk Gets Steamship Service.

The Grand Trunk Railway and White Star and Dominion Lines have formed a compact which will enables them to run the railway on the same lines as the C. P. R., and have their own trains to connect with the boats. It is the intention to have an independent port at Maisoneuve at the east end of the city of Montreal.

Won't Believe in Wireless Telegraphy.

An English mining prospector, named Courtney, has arrived at Los Angeles, from San Bernadino, California, after a fifteen years sojourn in the Arizona desert, hunting for gold. His first query was, "How's Her Majesty Queen Victoria," and was most astonished when he heard she dead. Courtney has learned for the first time of Spanish-American and Russo-Japanese wars, and when told that Great Britain had gone through a successful war with South Africa, he threw up his hat and raised a hearty cheer. A passing motor car so astonished him that he flew into an open doorway in alarm, and thinks he is only being fooled when he is told about the marvels of wireless telegraphy.

Does Farming Pay?

A farm of 450 acres has just been sold for the sum of $21,000. This farm is situated at Samford, about 20 miles from Winnipeg, and belonged to Alex. McCurdy. Mr. McCurdy started farming sixteen years ago, with a capital of $750, and has generally developed his holdings until the above mentioned price was offered him. The proceeds of the of the sale of implements and chattels amount to $5,000, all of which have accumulated through legitimate farming. He will take up a residence in Winnipeg, and will in all possibility visit British Columbia with the idea of purchasing land there.

New Bank for Calgary.

Plans of the new Bank of Montreal building at Calgary show a handsome Greek structure, of three storeys, built of brick, with a frontage of 48 feet and a depth of 55 feet. The framework will be made entirely of steel. The building will be one of the handsomest in the city.

Accident to Express.

A serious accident occured last Thursday on the Quebec, Montreal, and Southern Railway at Iberville Junction, 31 miles south of Montreal. The Rutland Express from New York to Montreal, 15 minutes late, was coming along at a good rate, and ran into an open switch smashing into a round house, where locomotives and a box car were standing. One locomotive was a total wreck, and the box car was splintered into small pieces. The fireman of the wrecked locomotive had a leg broken and another trainman was badly scalded. Another had his head badly gashed, but no fatal accident is recorded.

Lighting and Snow.

A violent storm is reported at Chatham, Ont. The storm was accompanied by brilliant flashes of lightning doing much damage. The tower of the Collegiate Institute was struck and gutted by fire. The storm is without precedent in this part of the country at this time of the year.

Edmonton's Phones.

It is reported that Edmonton will hand over its phone system to the province. This locality is the only one that is not under the control of the provincial government. The price of the phones is less than in Calgary under government adminstration and yet brings in a good revenue to the city. As the rural lines are improfitable, it is feared the transfer will bring in less revenue to the city as well as increased rates.

Coal Shortage at Calgary.

Owing to the various strikes that have been going on lately, the coal dealers in Calgary are at loggerheads to know what to do for supplies. Reports go that a man called up a prominent coal dealer and explained that he had a steam plow ready for work, and wanted the coal in order to start operations. The reply was that there was no steam coal available at present, but the aspect looked better in the future. A telegram to E. A. Auckland, Deputy Minister of Labor, states that the department is willing to act as intermediary between the miners and operators, and if requested will send officers for that purpose.

Large Fire in Montreal.

A large fire broke out in the premises of Messrs. Farrell, Beleisle & Co., situate in Notre Dame Street west, Montreal. The warehouse was stocked with millinery all ready for export, and the blaze was tremendous. It is estimated that $10,000 worth of damage was done.

Work for Lazy Man.

John Reison the laziest individual with whom the Vancouver magistrates have ever had to deal was sentenced to serve six months on a chain gang. Reison was arrested for vagrancy, and the only possible thing to do was to send him up for a long term. When asked if he would like to be sentenced for the rest of his life his reply was, "Yes, your Worship."

Where Cheques Are Signed By Thumb-Prints.

Out in Cheyenne, Wyoming, there is a bank which has depositors of so many nationalities that it has found necessary to require identification by some means other than a written signature. The bank officials have therefore, made it a rule that foreign depositors must sign their cheques with the imprint of their right thumb, in addition to their written signatures.

When a would-be depositor asks to open an account with that bank he places on file his written signature, and at the same time the impress of his thumb is filed. Afterwards, when a cheque from this man is received at the bank, it must have the thumb-print attached as well as the written signature, and this thumb-print must, of course, correspond with that on file in the bank's records. — From the "Strand Magazine."

The Heiress—Have you seen papa?

The Duke—Yes; it's all off.

The Heiress—You don't mean to say he refused to give his consent?

The Duke—Oh, no. He said he'd give his consent—but not another cent.

You are fined 10 dollars for contempt of court." "I'm glad, jubge, that this is not a higher court."

A salesman in the old country recommended a certain rich material by saying, "Madam, it will wear for ever, and make a petticoat afterward.

Town and Country News.

It was found impossible for Summerland College to come down here for the Baseball game last Thursday, owing to the pressure of work during the exams. The game had to be cancelled accordingly.

Mr. J. W. Wilks is now a grandfather, he has just received word that his eldest daughter, Mrs. John Masters of Avondale, New Zealand, has been presented with a daughter.

The Westbank Sawmill will be running under the names of its new proprietors, Messrs. Meurling & Wheeler, the first portion of next week.

What is the matter with Brodie? ask the crowd. What is the matter with the crowd? asks Brodie when he appears at his old stand on May 15th. Has he had "La Grippe."

The disappearance of a youth named Herbert McDonald, caused some little consternation in town last week. Chief Hidson was instructed by the lad's father, Mr. D. E. McDonald, to save no expense in trying to trace his son. The chief consequently sent telegrams and descriptions to Vancouver, Kamloops, Sicamous and Calgary, with the result that the boy was eventually found at the last named city. He was recognized as having left the train at Sicamous Junction, but it was not known whether he proceeded east or west from that point. Great credit is due to the Calgary police who were ready for his arrival at about 1:30 in the morning, and only had the description Chief Hidson had telegraphed to aid them in the recovery. They boy will be sent home at once, and will be received with great joy by his anxious parents.

The fishing season has started and several good catches are reported. Some specimens of trout displayed on Saturday evening, appeared to be several days old, and the fishing fleet that drove homeward on Sunday evening was hardly to be called a small one.

It is hardly right to ask one of the fair sex to walk out five miles after a fifty mile drive with someone else; some people do not see it in this light. Did you make the grade Bob?

To break one's leg is usually to be considered a misfortune. Not so with Mr. Dallin, he believes in making the best of such small matters, and was consequently married in his tent to Miss Dale. Is it to save the cost of crutches he resorted to this support last Monday?

The latest addition to the "Motor Brigade" is Mr. H. Lysons, who purchased a beautiful motor this week.

The Hospital Bazaar, for which the ladies have been working for a considerable time past promises to be a highly successful affair. It is to be held in Raymer's old hall, on the 19th of this month, afternoon and evening. A large showing of attractive goods will be offered for sale. The bulk of the proceeds will be applied to paying off the debt on the hospital basement. Contributions are being received by Mrs. Boyce, Mrs. F. A. Taylor, and Mrs. Stirling.

Messrs. James Bros. have found it necessary to enlarge their premises in order to accommodate the building of motor boats.

Where did everyone get to last Thursday. No less than two meetings are reported unattended.

H. H. Millie has extended the local telephone system to embrace the Bellevue Hotel at South Okanagan. The line has cost him over $900. The line will be a toll line to help defray the cost of erection.

Owing to a misthrow on to the "Okanagan" when she was leaving the wharf last Tuesday, a missive containing $25, luckily in bills, was precipitated into the lake. Mr. Leckie made a gallant rescue with the aid of a boat and one oar. The missive was just going down for the third time when he reached it and brought it safely to its owner.

The Ladies' Aid of the Presbyterian Church has begun preparations for a concert to be given on Monday, May 1st in Raymer's New Hall. Several new features to be introduced. Watch for posters and programmes.

A meeting of the W.C.T.U. will be held at the home of Mrs. Martin on Tuesday, May 11th, at 3 o'clock. All members are urgently requested to attend for the annual election of officers. Visitors will also be welcome.

A. & T. Association Meeting

Continued from page 1.

Mayor DeHart said it was possible to make an agreement with the council whereby certain sums were paid to the A. & T. in the event of the city wishing to sell before the twenty years was up.

Mr. Sutherland did not think the council could pledge another city council on any debt, therefore they could not promise a sum if the land was sold.

Mr. Crowley pointed out that the city could not conscientiously turn the whole matter down. The buying of the A. & T. grounds was the wish of the people, they having voted on it, and shown their decision by a large majority.

Mr. Sutherland said the council and the trustees were the ones to be satisfied and would like to put Mr. Rose's motion before the meeting.

Mr. Pridham thought it best to be amended slightly, and the motion was read, that the Association sell the grounds to the city for a sum to be decided on, that sum not to be less than $3,500, and that two trustees and three directors be appointed to make the best deal with the city in the interests of the A. & T., and power be given to sign all necessary papers.—Carried.

Mr. Taylor also moved that, if the committee thus appointed could not come to an agreement with the city council they were at liberty to devise some other arrangement.—Carried.

The committee appointed to attend on the council were, trustees, Messrs. Pridham and Raymer, directors, Messrs. Dilworth, Sutherland and McEachern.

The meeting then dispersed to await the decision of the council and above appointed committee.

The Soil For Daffodils.

"Toe daffodil grows best and gives the finest flowers in soil which is naturally rich and moist," says a writer in "The Gardener," "but it dislikes a waterlogged soil, therefore let the ground be well dug. Soil which was manured some time ago and since cropped will, after digging, be in the best condition. It is not advisable to add animal manure, because such will cause the bulbs to rot. But if it can be got at a reasonable price, then bone meal added to the soil below the bulbs may be used. The quantity to be applied is 1½ oz. to the square yard. The daffodil, like other bulbs, likes phosphates, but objects to ammonia in the soil. If the soil be very sandy and dry, a layer of stable manure may be placed 10 or 12 inches below the surface. On dry sandy soils sulphate of potash may be sprinkled over the ground in December at the rate of ½ oz. to the square yard. It holds moisture in the soil and gives a deeper colouring in the flowers."

YOUR BRAIN.

Keep It Plastic by Not Overeating as You Grow Old.

Up to a certain age the brain remains plastic enough so that if an injury occurs to the thought brain the person can begin over again and create new knowledge centers in the other hemisphere.

This has happened in many cases where young people have lost certain powers or faculties by cerebral lesions and have afterward recovered these faculties by developing new centers in the other brain. It rarely happens after the age of forty-five, and the reason is because most persons after passing that age soon clog their brains with calcareous matter by overeating and destroy the plasticity of their brains by filling them with food waste.

If all people past the age of forty-five would live on twelve ounces or less of solid food per day we should soon find that one may receive new ideas as readily at seventy-five as at fifteen. You cannot do it, however, if your brain is a hardened mass of waste matter. If you overeat you will be "set" in your ways and a has-been at fifty. Keep your phonograph records soft and receptive.—Nautilus.

A STAGE VILLAIN.

His Reputation Clung to Him Outside the Theater.

An actor in a small company was unable one night to get accommodation at the only hotel in an English town, it is said, because its proprietor, a remarkably slow going person for such a place, recognized him as the villain in the melodrama who had stoken a cash box, set fire to a house, killed a detective, damaged a race horse and betrayed the hero's sister.

But something like this really did happen to George Scott, manager of the Alhambra in London. In his younger days Mr. Scott was a stage villain of the deepest dye, and one of his favorite parts was that of the wicked Levison in "East Lynne."

After playing the character a few nights in Blackpool he had occasion for wishing to change his lodgings and, knocking at the door of a house in the next street, was greeted by the good lady who opened it with a shriek and the subsequent exclamation:

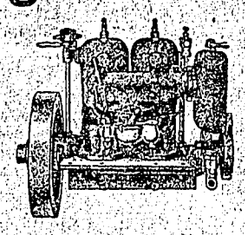
"What! It's Levison, the dirty villain. Ye can't 'ave rooms in my 'ouse! Get out or I'll call the perlice!"—London M. A. P.

His Idea of Him.

Bill—Did you go to see that boy actor last night? Jill—Yes. Bill—Did he get a hand? Jill—What he ought to have got was a shingle."

Investigate the Ferro

The Best Engine on the Market Today. We can show you.



Not an Experiment. Sold to Leading Boat Builders.

Made in 10 sizes - 1, 2, and 3 Cylinders - 3 to 25 H. P.

The Ferro Marine Engine embodies the best features of the finest automobile engines. BROWN BROTHERS COMPANY, NURSERYMEN,

LIMITED, of ONTARIO,

Are extensive growers of all kinds of Fruit Trees, and other Nursery Stock, such as Roses, Shrubs, and Ornamental Trees, and offer to planters of Orchards, choice trees, true to name.

The most experienced planters realize that young trees grown in Ontario, under somewhat similar conditions as prevail in the Interior of this Province, are the best.

We are prepared to furnish "One year old trees," on a three year old root, or a two year old tree on a four year old root, as desired, at prices that will be considered reasonable.

We grow the Duchess Dwarf Pear very extensively, which is being used as a filler by a good many planters.

Our Peach, Apple, Pear, cherry and Plum trees are all of first quality well grown, well rooted, and will please the most critical buyers.

Thorough cultivation in our Nurseries ensure a splendid root system which of course is most necessary in a young tree.

During the past two seasons we have successfully shipped our stock to all parts of the Province, and can guarantee satisfaction to all our patrons.

The members of our firm are all practical Nurserymen, with long experience, and they are giving their whole time to this one business, constantly overseeing every detail of the work of growing, packing, shipping, etc. The fact is, we live among the trees, watching with zealous care the development of every acre of our vast plantings.

This is a Canadian enterprise of 25 years standing, and our reputation is behind all our dealings, give us your order and you will not regret it.

We want a good reliable man to look after our business in Kelowna and vicinity.

Apply for particulars in regard to prices and terms to salesmen to our British Columbia Branch Office.

Corporation of the City of Kelowna.

Byelaw No. 59.

BEING a By-law to carry out a certain agreement hereinafter set out.

WHEREAS Thomas W. Stirling, Benjamin DeF. Boyce, the Corporation of the City of Kelowna and the Canadian Pacific Railway Company have entered into an agreement in the words and figures following:—

THIS AGREEMENT made in triplicate this 27th day of April one thousand nine hundred and nine.

BETWEEN: — THOMAS WILLING STIRLING and BENJAMIN DeFURLONG BOYCE, both of the City of Kelowna in the Province of British Columbia, hereinafter called the "parties of the first part" OF THE FIRST PART.

THE CITY OF KELOWNA hereinafter called the "City" OF THE SECOND PART.

AND THE CANADIAN PACIFIC RAILWAY COMPANY hereinafter called the "Railway Company" OF THE THIRD PART.

WHEREAS the Railway Company purposes to construct a wharf or wharves with warehouses and other buildings and works in connection with its steamboat and rail traffic on the shore of Okanagan Lake and in the city of Kelowna aforesaid:

AND WHEREAS in order to enable the Railway Company to construct the said works the parties of the first part and the city have agreed to convey or to cause to be conveyed to the Railway Company certain lands and premises hereinafter more particularly described:

NOW THIS AGREEMENT WITNESSETH

1. THE parties of the first part will convey or cause to be conveyed to the Railway Company all their right, title and interest in and to those portions of land (including all their rights and interest whatsoever in and to the foreshore and land under water adjacent to the said lands) situate lying and being in the City of Kelowna aforesaid which may be more particularly described as:—

FIRSTLY:—Commencing at the point of intersection of the west boundary of Ellis Street and the north boundary of Smith Avenue, thence following the said north boundary of Smith Avenue westerly a distance of seven hundred and thirty-two (732) feet to the true point of commencement; thence northerly and parallel to the east boundary of Water Street three hundred (300) feet; thence westerly and at right angles to the last described boundary to the shore line of Okanagan Lake; thence southerly along the said shore line to the point of intersection of the said shore line with the westerly production of the northerly boundary of Smith Avenue, thence easterly along the said westerly production of the northerly boundary of Smith Avenue to the true point of commencement as shewn coloured red on the plan hereto attached and thereon denoted and hereinafter referred to as "Parcel A."

SECONDLY: — Commencing at the point of intersection of the west boundary of Ellis Street and the north boundary of Smith Avenue; thence following the said north boundary of Smith Avenue westerly a distance of six hundred and sixty-six (666) feet to the true point of commencement; thence northerly at right angles to the said northerly boundary of Smith Avenue and parrallel to and always distant easterly sixty-six (66) feet from the easterly boundary or Parcel A for a distance of one hundred and twenty (120) feet thence easterly and at right angles to the last described boundary sixty-six (66) feet; thence southerly and at right angles to the last described boundary one hundred and twenty (120) feet to the said northerly boundary of Smith Avenue; thence westerly along the said northerly boundary of Smith Avenue sixty-six (66) feet more or less to the point of commencement as shewn coloured red on the plan of plan hereto attached and thereon described and hereinafter referred to as "Parcel B."

2. THE parties of the first part shall convey or cause to be conveyed to the city of Kelowna for the purposes of a public highway or street so much land as may be required to enable them to continue Water Street is a straight line running due north and south from its intersection with Bernard Avenue to Cawston Avenue as shewn bordered red on the plan hereto attached and thereon denoted "proposed Street."

3. THE city shall forthwith take the necessary legal steps to close that portion of Water Street that lies north of the northerly boundary of Smith Avenue for three hundred (300) feet (and the parties of the first part as owners of the land immediately adjacent to that portion of Water Street, hereby consent to the closing of the said portion of the said street), and shall therein convey or cause to be conveyed to the Railway Company so much of that portion of Water Street aforesaid which lies in Parcel "A."

4. SO SOON AS the Railway Company is ready to commence its proposed works the parties of the first part and the city shall give the Railway Company possession of Parcels A and B.

5. THE necessary title deeds for assuring to the Railway Company Parcels A and B in fee simple shall be prepared by the Railway Company who shall also pay the cost of all necessary surveys for that purpose.

6. THE city shall forthwith have prepared and submit to the vote of the rate-payers and property owners of the city of Kelowna a By-law enabling the city to carry out the terms of this agreement, provided, however, and it is hereby agreed between the parties hereto that in the event of the rate-payers and property owners of the city of Kelowna failing to cast a sufficient number of votes to carry the By-law to be submitted to carry into effect this agreement, then this agreement shall be null and void and of no effect, so far as the city is concerned.

7. THE parties of the first part and the city hereby consent to the application of the Railway Company to the Government of the Province of British Columbia for a lease of the land under water opposite and immediately adjacent to Parcel A, in accordance with the Railway Company's notice of intention to apply for lease, posted on said land and dated the twentieth day of April, 1909.

8. THE Railway Company hereby convenants and agrees with the parties of the first part and the city that in consideration of the premises it shall erect and maintain the necessary carslips, apron, tracks and other structures to enable it to load and unload its cars on parcels A and B and on any extensions to the Railway Company's tracks at Kelowna which may be constructed hereafter.

THE above mentioned works shall be commenced within thirty days from the date of the final reconsideration of the By-law herein before referred to and shall be completed within six (6) months of said date.

9. THIS AGREEMENT shall enure to the benefit of and become binding upon the successors and assigns of the city and the Railway Company and the heirs, executors, administrators and assigns of the parties of the first part.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

AND WHEREAS in order to carry out the said agreement it is expedient to pass this By-law.

BE it therefore enacted by the Mayor and Council of the City of Kelowna in open meeting assembled as follows:—

1. THAT that part of Water Street in the City of Kelowna as shewn of a map or plan of subdivision now on record in the Land Registry Office in the city of Kamloops, British Columbia, as plan number four hundred and sixty-two (462), described as follows:—

COMMENCING at a point of intersection of the west boundary of Ellis Street and the north boundary of Smith Avenue, thence following the said north boundary of Smith Avenue westerly a distance of seven hundred and thirty-two (732) feet to the true point of commencemeet, thence northerly and parallel to the east boundary of Water Street three hundred (300) feet, thence westerly and at right angles to to the last described boundary to the shore line of Okanagan Lake, thence southerly along the said shore line to the point of intersection of the said shore line with the westerly production of the northerly boundary of Smith Avenue, thence easterly along the said westerly production of the northerly boundary of Smith Avenue to the true point of commencement as shewn coloured red on the plan hereto attached and thereon denoted and hereinafter referred to as "Parcel A," is hereby stopped up and closed to public traffic and the following described lands are substituted therefor.

Commencing at a point one hundred and forty (140) feet due north of the junction of the north boundary of Nicolson Avenue with the east boundary of Water Street as shewn on registered plan four hundred and sixty-two (462) now on record in the Land Registry Office at Kamloops, British Columbia, thence running due north to the south boundary of Cawston Avenue as shewn on said plan four hundred and sixty-two, thence due west sixty-six (66) feet, thence due south to the northeast corner of Block fifty-two (52) as shewn on said registered plan four hundred and sixty-two (462) or so much thereof as may be required to continue Water Street in a straight line from Bernard Avenue to Smith Avenue aforesaid.

2. THIS By-law before coming into effect shall be published in the British Columbia Gazette and The Orchard City Record and a certified copy thereof shall be filled in the Land Registry Office at the City of Kamloops being the Land Registry Office of the District in which the said lands are situated.

3. THIS By-law shall come into effect immediately the same has been published and the certified copy thereof filed as set out in clause two (2) hereof.

Read a first time this twentieth day of April, 1909.

Read a second time this twentieth day of April, 1909.

Read a third time this twenty-fourth day of April, 1909.

Reconsidered and finally passed by the Municipal Council this third day of May, 1909.

G. H. DUNN, Clerk. F. R. E. DeHART, Mayor.

THE PEOPLE'S STORE

A Garment with Distinction and Popularity.

Our three button and two button Sacks. Styles and price are things that speak for themselves.

Quality is hidden away inside the linings. The foundation of good workmanship is the special feature of all our Clothing which means that the coat lapels will not turn up at the corners, the pockets will not sag, the coat fronts will not wrinkle and pucker, our trousers bag or become high-water; the coat sleeves will not pull up. In fact all our clothing means

LOCAL BRIEFS

Mr. C. Jones gave a party to a few of his friends, on the occasion of his being thirteen years old, last Tuesday. The afternoon was spent in tennis and general recreation. A most enjoyable time was spent by all present.

Good fishing is reported, both up and down the lake. Messrs. Crichton and Mitchell have been having rare sport at South Okanagan, while Mr. Wilks has stretched his line with a few two pounders. at this point.

A set of doyleys made by Miss Blackwood, and a cushion made by Miss Eva Copeland were raffled off last week, in aid of the Hospital. The first being won by Mrs. G. Raymer and the latter by Dr. Huycke.

Irrigation systems must be looking up. The wharf was covered with wood piping. Quite a large quantity is to be used on Mr. Whelan's ranch.

Natural soda water is reported to have been found in the Black Mountain district. A sample is on the way to a well known physician in New Westminster, who will report on the purity It contains a large quantity of iron, and when bottled the cork has to be tied down, to prevent the gas blowing it out. We now strongly advise the cultvation of lemons on the Belle Vue Farm.

Wild geese are prevalent on the beach just now in some parts, but Dr. Boyce cannot find many in his field near the Hospital. He has consequently invested in some tame geese to supply this deficiency, and it is to be hoped that the difference will be known by anyone who carries a gun.

Mr. T. M. Luckett arrived last Wednesday from Bloemfontein, South Africa. He intends making his future home here.

F. Gosleigh of Trenton, Ontario, passed through this week on his way to Peachland. He has taken a position as processor, at the canning factory at that point.

The Rev. A. Henderson of Vernon, is expected to preach next Sunday, at the Methodist Church, both morning and evening.

We regret to report another accident to Capt. Ridley. After dining at the Palace Hotel, he slipped on some newly oiled linoleum, breaking his leg in the same place as before.

Another accident occurred on the K.LO. ranch. Mr. McKay who was attending to a horse near the barn, had the misfortune to get crushed in such a way as to have his hip fractured. The horse was accidently frightened at something and reared up, afterwards backing and crushing Mr. McKay against the barn. Dr. Knox has the case in hand.

Meeting of Sports Committee

At a meeting of the sports committee it was decided to run the Marathon Race, on a quarter mile track to be made in the park. This decision was the outcome of a general wish from the storekeepers, to have the race run in town instead of in the country. Entries for this race should be made as soon as possible, so that adequate provision can be made for checking the laps. The subscription list has received good support so far as it has been round. The committee elected Mr. A. Muirhead, to assist them in the finances.
