VOL. I. NO. 26. KELOWNA, BRITISH COLUMBIA, THURSDAY, MAY 27, 1909. $1.50 Per Annum.

CITY COUNCIL MEETING.

A. L. Meugens Claims $100 Damages from City - Ald. Ball Withdraws from Parks Committee - Fire Brigade to Take Part in Competition at Vernon.

A meeting of the city council was held on Tuesday last. The Mayor and Alds. Rowcliffe, Ball, Cox and Bailey being present.

The minutes of the previous meeting having been read and adopted the following correspondence was dealt with.

Municipal Wood Construction Ltd., re wood stave pipes.

Morrison-Thompson, re erecting scaffold for the completion of their building and the Kelowna Furniture Store.

G. A. Stimpson & Co., re debentures.

Dominion Securities Co., re debentures.

R. B. Kerr, re accident to A. L. Meugens.

In the last named letter Mr. Kerr pointed out to the council that Mr. Meugins had on the 22nd of May fallen from his bicycle, when turning the corner of Water Street. The cause of the accident was the presence of some slabs in the middle of the road left there by the council's workmen and Mr. Meugens put forward a claim of $100 for damages to himself and a good suit of clothes.

The Mayor appointed a committee to look into the matter, and to ascertain if Mr. Meugens had a light on his bicycle so as to show up any obstruction.

A letter was also read from Ald. Ball asking leave to tender his resignation from the park committee.

The Mayor and Aldermen accepted the resignation, at the same time expressing their regret at having to do so. Ald. Cox was appointed in Ald. Ball's place.

Ald. Cox after accepting the position remarked that he had noticed quite a few broken glass bottles about the park and thought it time these were moved. On the sports day children were running about with no shoes or stockings on, and laid themselves liable to get cut feet. He would like to see a first move in that direction.

The trustees of the A. & T. Association were present and Mr. J. F. Burne the city solicitor, had prepared the necessary legal documents which now only required signing. The agreements were read by the city solicitor and generally discussed. The agreement between the city and the A. & T. was first read and signed, afterwards the agreement between the A. & T. and Messrs. Crowley & Buckland. A question was then raised as to the length of time notice would be given the A. & T. should the city wish to sell the property, it being agreed to give three month's notice so as to allow the A. & T. to make arrangements for their fall fair should the city wish to sell the land about the same time as that event.

Mr. Samson was present and explained that both he and the other members of the brigade did not like the fuss made by the council at the last meeting, about their "chari-varri." Several members of the volunteer fire brigade had signified their intention to quit owing to the reports that came out in the papers. He thought as Mr. Jenkins was the first among their number to get married, that a little liberty ought to have been given.

The Mayor explained that the fire brigade was certainly doing good work in the city and he did not understand the case in question to have been referred to any persons in particular, it was only a general cry out against the street noises that are prevalent just now.

Ald. Ball explained that his daughter was not at all strong, and should such a noise awake her in the middle of the night the result might prove fatal. Luckily the noise referred to at last meeting did not awaken the child and so no harm was done.

Mr. Samson also wished to ask that a donation should be given for every false alarm or fire, the practices were being put in free of charge and he thought it only right to ask the council for some renumeration. He pointed out that the members sometimes had good clothes on when called to attend a real alarm and some compensation ought to be ready on that score.

He also wished to ask the council to make provision for the brigade to go to Vernon on the 12th of July, to compete with that city in the hose and reel race.

The Mayor informed Mr. Samson that the matter would be taken up and settled later on in the evening.

The system of fire alarms was criticised by the brigade, it being pointed out that so far no notices had been printed giving the public and brigade the signals that defined the locality of the fire. Mr. Samson was instructed to speak to Ald. Elliott and get these printed at once.

Mayor DeHart did not think the whistle blew often enough, he suggested a repetition at least half a dozen times.

Ald. Ball did not think more than three were necessary. So far it had only been repeated three times and had worked well. It was decided to keep to the present system until it proved faulty.

Mr. Samson wished to know if it was possible for the brigade to get an order from the council for all goods to be supplied in connection with fire appliances and tunics etc. The last shipment had not proved a success owing to some complications and Mr. Samson thought the members were more likely to know what they would require and could order better themselves.

Mr. Samson also wished to know what steps the council were taking to get him a room.

The Mayor explained that the fire matters were left in the hands of Ald. Elliott, who was absent. He suggested Mr. Samson seeing Mr. Elliott and making further arrangements with him.

The question of the proposed city team of horses was brought up. The city clerk said that no replies were received as yet to the advertisement placed in the paper.

The mayor remarked that he had heard from Mr. Lloyd-Jones that he was about to get two heavy teams, and that he would be able to sell one to the city at a reasonable price. He also had said that he would be able to buy the team back during the winter months and the council were asked to look further into the matter.

Ald. Cox wished to know if the C.P.R. had started work yet. The mayor explained that a gang of men were due down here last Thursday, but so far had not arrived. The surveyor is at work now and the work will begin shortly.

It was pointed out by the city clerk that there was no map in the council chamber showing the subdivision of lots and this was causing quite a lot of bother. One man was being charged with the dues of himself and perhaps three others. The mayor promised the matter attention.

Mr. Raymer who was present on A. & T. business explained that quite a lot of unemployed were around town at present and wished to urge the council into making some speedy plans for the removal of the A. & T. buildings. This was work, he pointed out that could be started at any time and he advised it being done now so as to give the unemployed work. He knew those men would not stop in town without work, and sooner or later there would be more work than could be handled. While we have the men, he urged, let us hold them.

The Aldermen were of the same opinion and passed a resolution that the city at once call for tenders for the removal of the Exhibition buildings. Also to change the

Ball Team Victorious at Summerland

Return Visit Arranged for July 1st

In a very exciting game our boys at last have achieved a victory over their rivals. The game, while loosely played at the start gradually tightened and in the ninth innings with the score 8–8 it became rather dangerous for those people with a weak heart. In the tenth neither team scored, but in the 11th Coe walked, made 3rd on a wild throw by Manchester, scoring on Pettigrew's clean hit to right, Len McMillan then followed with a clean drive and scored on A. McMillan's out. Summerland was powerless in their half and the game was won with a well earned victory for Kelowna.

The game, while being far from played in midseason form was excellent for the first of the season. Both teams are much better than last season and some good ball can be anticipated. The Kelowna boys are practically a new team as only four of last year's regulars played, and while very light at the bat, even more so than last year, they will gradually improve in that department and are a much more evenly balanced team, fielding in a fast clean style. The team-work is much better than last year and the individual starring is absent, which is highly gratifying. The boys now play the game all the time, taking advantage of every opportunity. Good fielding among the players, which is bound to bring good results, is a prominent feature. They all realize that the winning of the game means a great deal of hard work as Summerland will work all the harder to win the series, and as three of last year's players were not fast enough to make Summerland team, it calls for considerable effort. Practice three times a week is the programme.

Arrangements have been made for Summerland to come here on July 1st, they will charter the Aberdeen, bringing their band and of course Summerland also. Another game on the schedule takes place in Kelowna before then and a good crowd is expected to turn out and give the local boys a send off.

Line up and score by innings.

Miss Brooker left for Regina on Wednesday last.

Mr. Phipps arrived from the Old Country this week, and has returned to his ranch on the Rutland Bench.

J. Conlin has sold his ranch to a gentleman from Indian Head. He acted as his own agent and finally settled the price at $20,000.

The winner of the first prize in the Marathon Race has purchased a horse with the prize money. He will get the gee gee to do all the running now.

We deeply regret to learn that the Rev. H. P. Thorpe, formerly pastor of the Baptist Church at this point, but now of Salmon Arm, has suffered a severe loss in the death of his father at Teignmouth, S. Devon, England. The news came by cable on Monday last, and was received in that same spirit of sorrow as the news will surely be received in Kelowna. That Mr. Thorpe has the sympathy of the people of Kelowna is without a doubt.

Born, on Wednesday, May 27th, to the wife of W. M. Crawford, a daughter.

The Electric Railway to Vernon Scheme

Reported Early Construction of 100 Miles of Line

The following is from the Manitoba "Free Press" of May 18th and will be of particular interest to residents of Kelowna and district.

The construction of the 100 miles of electric railway, tapping the principal fruit growing centres on both sides of Okanagan Lake, is to be started shortly. The line will be completed within eighteen months. The enterprise was started by local capitalists, who are said to have secured the financial support of the Earl of Aberdeen, viceroy of Ireland, who is the owner of the famous Coldstream ranch near Vernon. The new company was incorporated by special act at the last session of the provincial parliament.

According to John F. Langan, of Chicago, who has just returned from a tour through Alberta and the Okanagan, the proposed line will greatly aid the rapid collection of fruit at Vernon, where it is proposed to make a large fruit exchange. From Vernon the main line will run down the west side of the lake as far as Summerland, an important fruit growing point. Another branch will extend down the east side of the same lake as far as Kelowna, a distance of nearly forty miles. The water power in the district will be harnessed in order to furnish the necessary energy for developing electricity.

Sidewalk Burnt on Harvey Avenue

A fire call caused many of the spectators of the races on Victoria Day to be alarmed, several rushing off to their dwelling places to see if the call originated from that locality.

The mile race was just announced and owing to the general stampede had to be abandoned until later in the afternoon. The cause of the fire was the careless dropping of a cigar or cigarette on some dry stuff near the pavement in Harvey Avenue, which broke into flames and immediately attacked the sidewalk. The houses alongside were in great danger, and it was found neeessary to summon the fire brigade. The signals were given in accordance with the arrangements, but the fire brigade were unable to understand them as given. Some little delay was experienced before the locality was found out, and when this was done the fire was soon under control.

New Jewellery Store Opening

We are pleased to welcome to this town Mr. L. E. Shaw who will start in the jewellery business next week. He has been for some twenty years a resident of Souris, following the jewellery trade in that town and comes amongst us with every recommendation. At Souris he was for a number of years a member of the Board of Assessors, besides being financial secretary of the Independant Order of Forresters. He was also associated with the city band of which he was a member, being an accomplished cornet player, and responsible for the building up and upkeep of that organization. He will temporarily occupy the old Courier office in Water Street, next to the Opera House, pending the vacating of Lawson's premises in the Keller Block.

The Rev. Wright will preach a farewell sermon in the Methodist Church on Sunday evening next.

Mayor DeHart left on Thursday for Seattle to make arrangements for the provincial fruit exhibit at that point.

A Day's Sport in the Park

Victoria Day Programme Successfully Carried Out

The morning of the 24th of May opened with a hazy sky, signifying either rain or stuffy weather. Not to mar the enjoyment of the day, the rain kept away, but enshrouded the valley with a close atmosphere that was unlike any of the weather that preceded the day when all Kelowna was to celebrate the anniversary of the birthday of our late beloved Queen Victoria. Victoria Day it was, and a great triumph to those who had the arrangements of a good healthy days sport in hand. Several details were taken in hand in the early morning by the committee and all was ready for the Marathon Race to be run at 10 o'clock.

The arrival of the Aberdeen and Okanagan brought large crowds from Penticton, Vernon and outlying ports, and entries for the large race were made directly on the boat's arrival.

At 10:30 the tinkle of the bell was heard, together with the voice of the Mayor, telling everyone that the Marathon was about to be run off. The entries were, Gordon Stirling, Kelowna; Arthur Bevan, South Okanagan; T. W. Bell, Penticton; E. G. Fuller, Kelowna and W. C. Fuller Kelowna.

Mr. Elliott and Mr. Taylor acted as starters, Mayor DeHart and Mr. Maguire were the judges.

The competitors having lined up, the starters gave the signal and five sturdy men started on a 9 mile course, with five laps to the mile. Sixteen laps had been scored when W. C. Fuller found it necessary to drop out leaving only four to hustle for the places. For a time Bell of Penticton was a fast favorite, soon opinions altered and Arthur Bevan of South Okanagan leaped into fame. What had happened to Gordon Stirling on whom Kelowna's victory everybody was reckoning. Thirty-two laps were scored when Bevan dropped behind and Bell and G. Stirling were ahead, E. G. Fuller taking up the rear, several rounds were made in this order. The Judge called the score, when Stirling seeing it was near the end made away from Bell, leaving him several yards behind. With sprightly step he leaped towards the tape and scored the victory for Kelowna, followed closely by Bell for second place. Meanwhile Fuller who had been lagging behind put on a spirt and passed Bevan in a contest for third place. Kelowna was glad to see her protege win, but it was a good tustle with Bell. Both stayed the course like Trojans, and even while Bevan put up a good pace, Fuller passing him in the last lap and leaving him to take the fourth place. The winner's time was 60 minutes and 49 seconds.

The grand stand was by this time filled with spectators, while others thronged the outside of the course.

Some minor events were pulled off during the morning, as follows,

100 yds. boys race, 1st Albert Raymer, 2nd Aug. Carsorso.

100 yds. girl's race, 1st E. Bird, 2nd Mary Makstsi.

Long Jump, 1st L. J. Carsorso, 16 ft. 8 inches, 2nd D. Lloyd, 16 ft. 5 inches.

High Jump, 1st H. Davies, 5 ft. 1 inch, 2nd H. Royce, 5 ft.

The time for lunch was then at hand, competitors and spectators leaving to provide for the inner man.

After dinner a larger crowd congregated, and the quarter mile race was advertised. Owing to the Pole Jump not being yet pulled off it was decided to run that while the 1-4 mile was being got in readiness. The winners were 1st H. Davies, second E. Woolridge. The quarter mile was a good race and well sprinted, D. Lloyd taking 1st and C. Prather 2nd.

The sack race caused endless amusement. The Carsorso b others taking off both prises, L. Carsorso 1st and C. Carsorso 2nd.

The mile race by far the next best after the Marathon, was won by Whitridge, time 5 minutes, 10 seconds. S. Wright making a good second.

A humorous audience laughed at the antics displayed by the competitors in the Obstacle race. C. Carsorso managed to scramble through barrels, bags and ladder rungs, coming in first closely followed by his brother, L. J. Carsorso.

An interesting race was the hurdle race, cleverly won by Frank Fraser, closely followed by L. J. Carsorso.

The three-legged race followed, causing much amusement, Messrs. Fraser and Roice arrived first at the goal, followed closely by Carsorso Brothers, who took second place.

D. Lloyd scored a good victory in the 100 yds. race, his time being twelve seconds, a distance separated L. J. Carsorso who ran second.

Endless amusement was caused by the competitors of the greasy pole. Even at this slippery job the Carsorso boys were in great competition. P. Carsorso carrying off the Ham presented by Mr. McJannett.

Two runners only were entered for the half-mile race, and in running for places Whitridge was first, 2 minutes, 21 and 3-5 seconds. Prather taking up the rear.

The two-twenty yards was won by D. Lloyd, second C. Prather. Medal and Pocket book being subscribed to the winners by Mr. J. B. Knowles.

The tug of war contest was the next held between the fire brigade team and police team. The fire brigade won but however had to contest the football team for a decisive win. The result was in favor of the fire brigade who carried all honors before them.

The following supplementary races were run.

Boy's three-legged race, A. Weddel and Sutherland 1st, B. Weddel and Fletcher 2nd.

Boy's Sack race, A. Weddell, 1st, B. Weddell 2nd.

Boys under 10, Fletcher 1st, Mills 2nd.

Girls under 8, E. Fletcher, 1st, J. McMillan 2nd.

The races were immediately followed by the football match, Kelowna versus the Benches, a good fast game being presented. Several who had taken prominent places in the races were seen among the team and did not seem to lack any of their previous energy. The score resulted in a tie, a very creditable game being put up by both teams.

The end of a great day's sport was then at hand, to be followed immediately by the prize giving, that took the shape of orders on the several stores. Mrs. Elliott having kindly consented to give them away. A circle was made around the grand stand, and the pleasant duty of awarding the various values was gone through. The whole meeting proved a decided success, great credit being due to those who had the work in hand.

After a vote of thanks had been passed to Mrs. Elliott for giving away the prizes, the ground cleared and a general stampede to the supper rooms took place.

The Bowling Alley started operations last Monday. If you don't know the locality, just walk down by the cannery and listen.

T. Elworthy arrived from a visit to the Old Country last Friday. The Old land has no charms for him, he prefers the Sunny Okanagan.

It is with regret we announce the departure of the Rev. Wright, who for the past three years has associated with the people of Kelowna. He had friends here in all denominations who will be sorry to say good-bye to him. Mr. Wright will leave here for Ladners, B. C., where he has accepted a call to the Methodist Church. His place at this point will be taken by Samuel J. Thompson, of Victoria, B. C.

The fire alarm systems seem at present incapabable of conveying to the fire brigade as well as to the general public, any idea as to the locality of a fire. Last Monday the alarm given was two short and one long whistle which is due to signify that the fire is in the east end of the town. The fire brigade rushed wildly about unable to locate the position of the fire, while the general public went towards their own property each one hoping it was not his or her home that was in danger.

Except through the columns of the press there has hitherto been no notice placed in a conspicuous place where the signals would be made known, surely it is time some steps were taken in this matter, and an efficient code of signals established.

The general outlook on things vegetable, animal and mineral, at the present time looks very rosy. The crops at one time were a source of worry to the farmer, but the heat of the past few days has caused a light to shine in the hazy view, and to display the valley in all its splendour. Messrs. DeHart and Harvey show rye four and a half feet high, grown on irrigated land but a few miles from Kelowna. This in comparison with the prairie reports of wheat and oats, now only two inches above ground, should be enough to make the farmer take heart and remember that he is in a climate unequalled for the growth of fruit, vegetables, and (according to the above) cereals.

We publish a paragraph taken from a leading paper, the "Manitoba Free Press" which informs us that about 100 miles of track will be laid on the north and south side of the lake, from Vernon to Summerland and from Vernon to Kelowna. The cars to run by electric power and traverse the whole fruit growing districts of the Okanagan. Certainly 100 miles is a beginning, but is it likely to cover the vast expanse of the Okanagan? To cover all the fruit districts as advertised in the paragraph three or four times as much line as is stipulated would be required in order to reach the most needed parts.

But what have the C.P.R. to say to all this? Will they sacrifice a portion of their freight and passenger traffic in view of such a project, or will they flatly refuse to run their boats in opposition to the Electric Tramway. It has been surmised that the C.P.R. are running their boats at a loss through the winter, a portion of which loss they make up during the summer service.

It will soon be a question for us to decide as to whether the tramways will be a success or otherwise. Careful thought might be advised before such a project is seriously dealt with and by the paragraph referred to, the date for decision is not so very far away. The C.P.R. is not in the habit of letting a smaller power get ahead of it, and the whole system although appealing to the fruit growers generally, may in the near future be a subject for discussion between the promoters of the project, the C. P. R. and the inhabitants of the Okanagan Valley.

THE PARAGUAYANS.

A Lazy, Happy-go-lucky People In a Bankrupt Republic.

The infusion of Spanish blood and customs into the Guarani has produced a people with the faults and good qualities of both in about equal parts. Dark of complexion, with strongly marked Indian features, essentially gentle when unrestrained or not unduly excited, careless of the morrow, poor and honest, hospitable and generous, indolent and uncultured, strongly Catholic in theory, but generally lax in religious performances as to dogmas—this is a rough sketch of the native people of Paraguay. Asuncion, the capital, and even the smaller places—Villa Rica, San Pedro, Villa del Pilar, Villa Concepcion—have their aristocratic families, of which the daughters and sons are sent to Europe to be educated and which maintain an exclusiveness that must be almost isolation. But in general the people mingle readily.

In the early morning in the streets of Asuncion the women gather in their long white dresses and barefooted to sell their wares. The younger women, judged by our standard, are beautiful and from carrying baskets and water jars on their heads have attained an erect and graceful carriage which our young women could well imitate. Besides, when they laugh they show two rows of pearls, and their speech in soft Guarani patois is worth going far to hear.

When you see Asuncion you see Paraguay, for it is the most advanced city in the republic. Its streets are poorly paved, it has mule cars which run at long intervals and low speed, and the hotel accommodations are not exceptional, but there is a kind of lazy, happy-go-lucky gayety about the city that represents the national feeling. Paraguay is hard up—yes, almost stone broke. The currency is paper and the value so small that for a hundred dollars one receives a basketful of ragged stuff, printed in Germany, to represent some nebulous indebtedness of the republic. Gold does not stay long in Paraguay, nor does it often enter the country.—Van Norden Magazine.

EXPLOSIVES.

Best Way to Destroy Gunpowder and Nitroglycerin.

The best way to destroy ordinary black gunpowder is to throw it into a stream under conditions that prevent any harm coming to human beings or animals through the dissolving of the saltpeter. If no suitable stream is available, the gunpowder may be stirred with water in tubs, or the dry gunpowder may be poured out on the ground in a long thin line and ignited with a fuse at one end.

To destroy dynamite cartridges the paper wrappings should be carefully removed, the bare cartridges laid in a row with their ends in contact and the first cartridge ignited with a fuse without a cap. Even with these precautions a simultaneous explosion of the entire mass may occur, so that it is wise to retire to a safe distance. The row of cartridges should be laid parallel with the wind and ignited at the leeward end, so that the flame will be driven away from the mass.

Frozen dynamite should be handled with special care, as its combustion is peculiarly liable to assume an explosive character. A small quantity of dynamite may be destroyed by throwing it in very small bits into an open fire, or the cartridges may be exploded one by one in the open air with fuses and caps.

Dynamite should never be thrown into water, as the nitroglycerin which it contains remains undissolved and capable of doing mischief. Other explosives which contain nitroglycerin should be treated in the same way as dynamite.

Ammonium nitrate explosives may be thrown in small fragments into an open fire or if they do not contain nitroglycerin may be destroyed by means of water. Explosive caps should be exploded singly with pieces of fuse.—Scientific American.

His Vocabulary.

He was an only child. They were very particular about his manner of speech, constantly correcting him so that he would use beautiful English. He, however, was allowed now and then to associate with other children. He played with a neighbor boy a long while one day, and when he came home there was an ecstatic smile on his face.

"I like that boy, mother," he said. "I like him very much. He swears beautifully. He knows every word."

Getting In Deeper.

"Who is that singing so dreadfully out of tune?"

"It is my wife."

"Perhaps the accompanist plays out of tune."

"She is accompanying herself."—Meggendorfer Blatter.

One Recompense.

"That sheet iron clothing a chap had to wear during the middle ages must have been far from comfortable."

"Still, a fellow could have a permanent crease put in his trousers."—Louisville Courier-Journal.

Not a Bark.

"Then you don't have any dog-watch on this craft?" inquired the anxious passenger, according to a writer in Life.

"No. This is a catboat."

For artificial evils, for evils that spring from want of thought, thought must find a remedy somewhere.—Lowell.

Old Country News

Treasure Searching in the Thames

Much curiosity was excited by the appearance of a diver in full diving costume, ready to decend into the bed of the river Thames ot Kingston. The descent was made from a raft moored about midstream just above Kingston Bridge. The cause of the strange sight was, that a few days previous as a lady was travelling in a steam launch, a gold chain purse containing a large sum of money had fallen into the river. It was for this the diver was looking, the purse being highly prized by the lady, apart from its intrinsic worth. Although the diver traversed the bed from Kingston to Surbiton Promenade, by the evening he was unable to find any trace of the missing article.

Baby Drives Motor Car

It must have been a strange sight a Lincoln, when a motor car came dashing through the streets with a four year old baby at the wheel. The chauffeur had been in the habit of taking the child round with him, and had often before left the car unattended, while he went into his lodgings. It was evident that the child, Master Philip Baldock, knew the working of the car, for he soon got the machinery going, and placing both hands on the steering wheel made off with a "Honk, Honk," at a rate of about 25 miles an hour. The chauffeur aroused by the noise of the car going off, at once started in pursuit. Several others took up the chase soon afterwards, but still the car went merrily on. First it knocked a milk wagon over and then dashed into the chemist shop by the window. Philip however had tumbled out before the latter impact and was picked up unhurt. When the real chauffeur turned up he was surprised to find the car still working and very little damage done.

Scalded to Death in a Bakery

From Chiswick comes the report of a terrible scalding fatality, the victims being Charles Jones and Edward Williams. The two men were employed by Messrs. Chibnall's Ltd., to clean out the steam boiler, and it was necessary to remove the manhole cover of the boiler to do this. When the cover was loosened a great rush of steam enveloped the men and their cries soon brought assistance. They were carried at once to the West London Hospital where they expired after several hours agony.

Boys Escape From Borstal Prison

Excitement prevailed in Kent when it was made public that two young convicts had escaped from Borstal and had taken to the woods. The names were Chas. Richards and George Winoley. They had received every consideration for good conduct, and were allowed extraordinary liberty, and it was never thought that an escape was anticipated. A gang of men were at work in the farm yard, which is an acre in extent, and surrounded by black palisades with pointed tops. The gang was divided, some cleaning and some feeding the horses. The two runaways were in the neighborhood of the staw stack, and the warder in charge had no idea that they had any intention to break away. He was superintending the work when he suddenly saw the two men mount the palisades and make clean away. As no other keeper was near, to pursue would have meant the loss perhaps of the rest of the gang and the runaways had to go. A search is being made but so far the fugitives have not been found.

Death of a Well Known Divine

The Right Rev. Theodore Marshall, Moderator of the General Assembly, died in a railway carriage while travelling from Perth to Crieff where he was to have preached the following Sunday in connection with the Perthshire Chorus annual festival. The tragic end of so eminent divine will cause the profoundest sympathy of all churches north of the Tweed, as well as amongst Presbyterians generally. The moderator of the established church in Scotland enjoys precedence in that division during his term of office, next after the Lord Chancellor.

Meredths Ashes Refused by Abbey

The authorities in Westminster Abbey have declined to allow the ashes of the well known author, George Meredith, to be placed in the Abbey. An appeal to the dean to this end was supported by the Society of Authors in representing all the leading authors. Mr. J. M. Barrie made a personal appeal, but in vain. It was announced that a special memorial service would be held in the Abbey. The funeral took place last Saturday, and the remains were interred at Dorking as previously arranged.

New Railway Line Opened

The new Cheshire line of the London and North Western Railway Co., from Wilinslow to Levenshulme has just been opened. The new line will be the express route, and will be used by the London and Manchester fast trains. This will greatly relieve the pressure on the old main line at Stockport.

News of the Valley.

Summerland College closed last Thursday for the summer holidays, when quite a few of the students with the Rev. D. E. Hatt at their head passed through here on their return home.

Penticton is planning a Marathon Race and sports for 1st July. Many of our boys have decided to pay a return visit on that day.

Reports show that Summerland had a very successful Gala day on the 24th, yachting and motor races occupying the forenoon; the afternoon was taken up with football, baseball, and other athletic sports.

News of the Prairie.

From Melfort, and Sask., Daysart in same district comes the report of a severe earthquake shock being felt. At Melfort a brilliant meteorite with a conspicuous tail passed over the town in a northerly direction. At Daysart a severe shock was felt between the hours of nine and ten. The hotel was shaken and rocked about for a space of two minutes. Reports from the surrounding districts state that many horses tied in the stables broke their halters and rushed about the stable.

Snow is generally reported throughout the prairie towns, and it is expected quite a little damage will be done to the wheat which has already begun to show above the ground.

It is projected to build a fine new Anglican Church edifice at Moose Jaw in the near future.

Mrs. C. B. Fieeman, President of the Ladies' Aid of the Baptist Church at Moose Jaw was a recipient lately of a gift pin of topaz and pearls, in a gold setting of clover leaf. The occasion of the presentation was her departure to Prince Albert, where the Rev. C. B. Freeman has accepted a call to become pastor there. It will be remembered that at one time the Rev. Freeman was likely to accept his call to this point.

Tell Her so.

Amid the cares of married life,
In spite of toil and business strife,
If you value your sweet wife,
Tell her so!

Prove to her you don't forget
The bond to which the seal is set;
She's of lire's sweets the sweetest yet–
Tell her so!

When days are dark and deeply blue,
She has her troubles same as you;
Show her that your love is true–
Tell her so!

There was a time you thought it bliss
To get the favour of one kiss,
A dozen now won't come amiss–
Tell her so!

Your love for her is no mistake–
You feel it, dreaming or awake–
Don't conceal it! For her sake,
Tell her so!

Don't act, if she is passed her prime,
As though to please her was a crime;
If e'er you loved her, now's the time–
Tell her so!

She'll return for each caress,
An hundredfold of tenderness!
Hearts like hers were made to bless!
Tell her so!

You are hers and hers alone;
Well you know she's all your own;
Don't wait to "carve it on stone"–
Tell her so!

Never let her heart grow cold–
Richer beauties will unfold;
She is worth her weight in gold!
Tell her so!

FOREST RESERVES

The Dominion forest reserves occupy an important place in the report for the year 1908 of the Superintendent of Forestry, Mr. R. H. Campbell, which has lately been issued. The Riding Mountain reserve, the largest of these, is the most fully treated. Its topography and condition in regard to numbering are noted and emphasis is placed on the important place it must occupy in regard to the water supply of the adjacent country, both for domestic and industrial purposes. An evidence of the latter is the granting of permission to the Minnedosa Power Co. of Minnedosa, Man., to erect a dam on Clear Lake, in the reserve, so as to render the water of the Little Saskatchewan available for the production of power. The timber survey of the reserve is practically completed. The fire ranging service on the reserve, and, in addition, on the Duck Lake and Porcupine reserves was during the year previous (1907) organized with a Chief ranger in charge and six assistant rangers. The protection of game on the reserve is also being given consideration.

An important aspect of the management of the Moose Mountain reserve results from its use as a summer resort, especially along the shore of Fish Lake. Regulations for granting occupation of camping sites by lease or otherwise are under consideration. The main question in the management of the reserve is its protection from fire.

The setting aside of a permanent forest reserve to the north of the Saskatchewan River, opposite Prince Albert, has also been recommended.

Notice is also taken of the resolution passed by the Irrigation Convention in 1907 favoring a forest reserve on the eastern slope of the Rockies.

TIMBER REGULATIONS

The amended timber regulations adopted in December, 1907, are given in full. The main principle of these is that the timber is to be sold by public auction at the office of the timber agent for the district, and that before being offered for sale each berth shall be surveyed and shall be examined by a competent cruiser. The timber cruiser then submits a sworn report as to the quantity and value of the timber and on this report and upset price for the berth is fixed by the Minister of the Interior.

Nursemaid—I'm going to leave mum.
Mistress—Why what's the matter? Don't you like the baby?
Nursemaid—Yes'm, but he is afraid of a policeman that I can't get near one.—London Tattler.

An old country paper devotes two columns to the discussion of the question "Are Women Honest?" and the conclusion is that they are not honest, but that it is well they are not. But of course, a lot depends on the definition of honesty and and the one used in this case if applied to men would bring the same uncomplimentary conclusion.

"A play," remarked the theatrical manager, "is like a cigar." "What's the answer?" queried the innocent reporter.
"If it's good," explained the t. m. "everybody wants a box, and if it's bad no amount of puffing will make it draw.

Provincial and General News

Failed to Shoot Himself

A strange story comes from Nelson, B.C. H. W. Vaughan of Montreal placed the muzzle of a revolver to his temple, but by a miracle the shell failed to explode. Vaughan next went before Judge Crease and explained that he was being followed by detectives and that he was going to commit suicide. The story was investigated by the police and the bullet was found with the mark of the hammer, but unexploded. Vaughan was at once taken into the charge of the police who will look into the state of his mind.

Large Wholesale House to Open

Western Canada is to have a large wholesale house, Messrs. Georgeson & Co. having announced that they will extend their property. Their sphere of operations will embrace all central Canada. The new company will trade under the same name and will have an authorised capital of $2,000,000. Winnipeg will hold the chief centre store while branches will be set up at Calgary, Brandon, Saskatoon, Edmonton and possibly Regina.

Reform at Western Post Offices

The Postmasters association of the Dominion at the annual meeting at Ottawa waited on the post master general while at the capital to urge minor reforms, namely a letter system for the labelling of newspapers going through the mails, an increase from the $35 generally allowed postmasters at small offices and for the supplying of safes to the various offices for the safe custody of stamps and papers. Mr. Lemieux promised that all the requests would receive attention.

Eaton's Pay Forged Cheques

It was strange that Dr. Peterson of Saskatchewan should receive a parcel from Eaton's Winnipeg store, all charges prepaid. An yet he was unable to find out from whom it was sent. The parcel was sent out without the name of the consignor. It was also strange that when Dr. Peterson got his pass book from the bank he found three cheques amounting to $75 which he could not remember having written. On enquiries it was found that these cheques had gone to pay for the saddle. According to reports a man entered Eaton's store and said he was sent by Dr. Peterson to make the purchase. He then cashed the cheques. The Winnipeg police are on the case but so far no clue is coming forward.

Allan Liner Springs a Leak

A marconigram was received a few days ago from Capt. Fairfull of the Allan Line Steamer, Tunisian, stating that the vessel had met with an accident almost identical with that which recently befel the Lake Champlain. The Tunisian while steaming slowly, inward bound, through heavy fields of ice, struck a very heavy mass which started a plate under the forepeak. The broken plate caused quite a heavy leak, and Capt. Fairfull considered it his duty to head at once for St. John, 60 miles distant, instead of trying to run on to Montreal.

Imprisoned in Ice.

The Allan liner Mongolian has been imprisoned in ice for days, and was only released by the heavy swell which broke up the ice and allowed the boat to go free. She was stuck on 19th of May, just outside St. Johns' Harbour. On the 21st the heavy swell caused a commotion in the great field, and the pressure on the steamer was greater than before. Some fear was felt but when dawn broke the vessel was found in open water. The release will be looked upon with great favour by shipping agents and insurers, as the conditions were such as would have likely damaged the vessel.

Governor General Will Sail For England.

It is definitely settled that the Governor General will go to England for his holiday trip. The time set down for his departure is the first week in June. When in England, Earl Gray will visit all the chief points of interest in the large cities and will possiby secure a large civic welcome in London.

Four Children Burned to Death.

The residence of E. Oldfield on Vaughan Road, Toronto, was the scene of a terrible blaze last Thursday. The mother was putting the children to bed when a lamp in the basement below, burst, and flames spread rapidly. The mother and her eldest boy, nine years of age, managed to escape by jumping from the window, the four other children were burned to death.

Allan Line Makes Mail Record.

The Allan line steamer, Victorian landed her mails at Rimoruski at one o'clock in the evening, on Thursday, May 20th. The ship made an exceedingly fast passage, having sailed from Liverpool on the 14th of May at six o'clock p. m.. The mails were delivered in Winnipeg by last Sunday morning's train, constituting a record of 8½ days from Liverpool to Winnipeg.

Salvationists Buy Land at Calgary

General Booth head of the Salvation Army has just cabled approving the purchase of 10,000 acres of land from the Canadian Pacific Railway. The land is thoroughly irrigated and is situated south of Calgary. A large number of people from the slums of London, England, will be sent out to settle this year. General Booth will visit the settlement about the middle of September.

Fire at Columbian College

Fire broke out at the Columbian College New Westminster, last Thursday and the fire brigade was at once summoned to extinguish the blaze. The flames started under the kitchen range, and burned through the floor into the basement. All though not so serious as was at first anticipated, much damage was done by fire and water. The fire was discovered by Principal Sipprell, who maintained the inmates of the college in an orderly manner.

Edmonton Gambling Den Raided

A report comes from Edmonton that thirty-two prominent citizens and business men were fined $10 a piece for frequenting a gambling house. The proprietors, two in number, were each fined $50. The police, headed by Chief Laucey, raided the house in the early hours of the morning and seized all evidence, taking the names of the people present, afterwards charging them at the police court.

Typhoid Patient Escapes From Hospital

A patient in the general hospital at McLeod, Alta., who has been suffering from typhoid fever, jumped through the window of his ward during the nurses absence. He threw off his night clothes and rushed accross the prairie in a nude state. A mounted policeman over took him some distance away. He is now in a serious condition owing to exposure cuts and bruises.

Forest Fires in Nova Scotia

A large forest fire has been burning fiercely at the back of Annapolis, N.S., since Thursday, but it is thought that it is at last under control. The burned district measures five or six miles in length and about a mile in width. Some of the finest timber in the Annapolis country has been destroyed.

Small Pox Quarintines Town

A serious outbreak of small pox has been reported at Canora, Sask., the whole town having been quarantined. A health officer from Regina is in charge of matters and a mounted policeman watches the railway allowing no one to enter or leave the town. The C.N.R. trains have ceased stopping at the station and speed on their way leaving the ill fated town in disgust.

Burglars Knew Safe Combination

A strange robbery was successfully carried out at Indian Head lately, whereby a safe containing $64 was rifled. The store which belonged to Messrs. Cornell & Travis, did not close till midnight and the thief must have done his work between that and daylight. A hole was bored in the door so as to draw back the bolt, the exact locality being known by the burglars. The safe was opened by means of the combination, which must have been known by the burglars.

Hindoo Cremation Rites

The body of a Hindoo was cremated last week at Cranbrook, B.C., with all the rites and ceremonies belonging to his tribe. The man who died in the hospital was taken away by four of his country men, these four conducting the ceremony. The bones of the hands and feet, the ribs and head will be sent to India and thrown into the Ganges. The people congregated from all parts to see the ceremony and automobiles, rigs and saddle horses were present in large numbers. This is the first time that the government has granted a permit to cremate a body.

Woman Flags Train and Saves Lives.

The presence of mind of Mrs. Peter Toft, wife of a well known rancher living at Echo, saved a freight train from being wrecked. A break in the Futnish drift had carried away a small portion of the track. The break and washout being discovered by Mrs. Soft only just previous to the approach of the train. Grabbing a piece of cloth she signalled so frantically that the train was at once brought to a standstill.

"So you enjoyed my Hamlet," said Mr. Stormington Barnes. "Yes," answered the woman who tries to be complimentary. "I am glad of that. So many people nowadays do not enjoy Shakespeare." "I know that But the way you play it, it doesn't seem the least bit like Shakespeare."

AN IDEAL FRUIT RANCH

J. Downton and wife arrived from Summerland last Saturday, to celebrate Victoria Day at this point.

Miss L. Storey left for the Coast by Saturday morning's boat.

A. H. Prior who for some time has been associated with Lequime's store left on Tuesday for Vancouver where he will make his future home.

Doctor and Mrs. Mathison returned on Tuesday from Summerland where they report a very enjoyable time on Victoria Day.

Mr. R. Mathison, Supreme Secretary of the Independent Order of Foresters, Toronto, Ontario, has been visiting this town. Mr. Mathison, during the week expresses himself as very taken with the climate.

Mr. G. H. E. Hudson is building a house near Frank Small's on the lake shore.

T. Hill is having a house built by J. Curts on his lot purchased from T. W. Stirling on the Orchard property.

Mr. R. Dart and wife arrived from the Old Country and are staying at the Lake View.

Rutland Notes.

Everybody is busy on the irrigation problem. Potatoes are up, and a good crop is looked forward to.

New faces are coming amongst us every little while and our town is increasing rapidly.

A very pleasant picnic party was held at Dan Galigher's last week. Dan joined in the picnic with much gusto, and thoroughly enjoyed himself. The best picnic Dan ever experienced was on the following morning when he set out to pick up the paper left by his friends. He vows he won't have another picnic of that kind.

Dr. Mathison, dentist, next to Post Office. Phone 89.

"Mona's Rocket"

No. 25,438 (Imported)
Foaled June, 1905.

The property of
J. HAYTON and E. W. MORRELL,
Oyama P.O.

"MONA'S ROCKET" is a grand bay. Four white legs and nice flinty bone of the right sort; the best of feet and joints. Present weight is 1,900 lbs.

Won 1st Prize and Reserve Champion as best foal at Bodedern Horse Show, 1905; 1st Prize at Toronto as a three-year old, 1908; 1st Prize at Vancouver Spring Show, 1909.

This horse will travel between Woods Lake and Kelowna, and will be found at Blackwood's Livery, Kelowna, every Tuesday night until Thursday morning, and at the Home Ranch, Oyama, Friday until Monday morning.

Mares kept at pasture.

Terms: $20 to ensure; $15 for the season; $10 single leap.

For further particulars apply to owners.

Town and Country News.

Messrs. Sullivan, T. Leader, D. Barnes and Hinkson left by the Aberdeen together with their guns and horses for Summerland. They will leave that point tomorrow with the idea of hunting big game up in the mountains. They go with high anticipation of a first-class dinner every day, bear steak, aligator pie and rattle snake cutlets being on the bill of fare. Yet they assert they are only going for "bear sport."

It is a pleasure to see the Farmer's Exchange bedecked with a good coat of paint. Are there not several other places the painter would do well to push the brush over?

The Legge-Willis Co. are due to put on a great performance at the beginning of next month. The dates mentioned are the third and fifth of June. We would like to see a strong caste, such as is advertised on another page, open the New Opera House.

Last Thursday what might have been a serious accident occured at the home of Mr. Henry Rice. His son who has been in ill health of late, was seized with a sudden fit of somnambulism, and managed to get out of a window, and fall a distance of about fifteen feet in his sleep. The injuries sustained consisted of a broken foot and severe bruises. The latest reports are favorable.

A fair sample of what irrigation will do was on view at J. Wilk's office last Saturday. A fine variety of vetches and alfafa were in good trim, while some rye stood 4½ feet high. The specimens were taken at random from Mr. Chaplain's ranch at Westbank.

Two launches of new boats were made last Saturday. The Aquatic Association launched their war canoe, while Mr. Harvey launched and tried his new motor boat which now plies the waters under the name of Qu'Appelle. The boat which was made and fitted up with engines by A. H. Jones, showed proficiency in every detail.

The Misses Wilson who have for some time been associated with the Royal Hotel left on Monday for Vancouver.

What might have been a serious conflagration was happily averted by the C.P.R. officials last Tuesday. At about eleven fifteen smoke was seen emerging from the freight sheds and an investigation proved that some nitric acid consigned to P. B. Willitts & Co. had got loose from its containers and was dripping into various other parcels near by. Everything that had been touched by the acid was instantly removed, and great credit is due to the freight agent who fought the fumes that at one time seemed almost overpowering.

The city council advertise for plans of the improvement of the city park, and offer prizes for the first and second accepted plans in order of merit. There is every belief that the competition will be a good one, calling forth much local talent as well as suggestions away out in the country.

Mr. Parkinson started surveying the city park last Wednesday: by the looks of things we shall soon have a presentable patch.

Mr. Wilks gave a dance in the new Opera House last Monday, a fair crowd turned up, but less than was expected. Those present report the new floor excellent to dance on, we await the reports of actors as to whether the stage is a good one to act on.

Owing to the fever of sports which seemed so prevalent on Monday last, The Record published the results of the Marathon Race at Vancouver and the Lacrosse at New Westminster directly they were received by wire.

The concert under the auspices of the Ladies' Aid of Knox Church, which was advertised to take place on Monday next is postponed indefinitely.

Mr. T. W. Stirling is building a motor garage for his new car, by the dimensions of the building a large car will soon be seen on the streets.

A meeting is called for next Wednesday (not Thursday) night in the Presbyterian Church of all subscribers to, and members and adherents interested in the erection of the proposed new church.

Mayor DeHart has been appointed delegate to assist at the provincial fruit exhibit at Seattle and will possibly make arrangements this week.

H. W. Raymer is building a house for Major Audain at Short's Point, the building is forging ahead rapidly and will be finished in a few week's time.

Mr. E. B. McRory has sold his ranch of twenty acres on the Vernon Road, the price realized being $7,000. Two years ago Mr. McRory bought the property from the Central Okanagan Land & Orchard Company, for $3,000. The present purchaser, Mr. John Leithead, who comes from Alberta, is taking possession at once, and his family will be arriving shortly. Mr. McRory is taking up his residence in town.

Two cases were tried at the Court House, before magistrate Burne last Tuesday.

Henry McDougal was fined $50 and costs for supplying intoxicating liquor to Indians.

Antoine Eli, an Indian, being fined $5 and costs for being drunk and disorderly.

South Okanagan strayed outside the fold last Monday and forgot her close alliance with Kelowna. Why this thusness? Did that cricket match go well?

The report that South Okanagan is on the sick list is true. Dr. Keller it is to be hoped will soon pull her safely through.

An interesting rifle shoot will be held at W. C. Cameron's ranch, at Guisachan, on June 3rd. The shooting will all be done with a 22 calibre rifle, both ladies and gentlemen taking part in the sport. The prizes are on view at J. B. Knowle's store and a natty little set they are. A busy day is expected, it being a half holiday, quite a few of the townspeople will be at liberty to attend.

J. Sewell paid a flying trip to the Landing last Wednesday. What's up?

C. C. JOSSELYN GROCERIES FLOUR FEED

FIRE RANGING

During the season of 1907 forty-seven fire rangers were employed patrolling the forest reserves and forested districts, distribution as follows: B. C. Railway Belt 21; eastern slope of the Rocky Mountains, (from the International boundary to the Saskatchewan River,) 7; Edmonton district, 5; Prince Albert district, 7; rangers were also kept along the C. N. R., from Erwood to the Pass, two along the Athabaska River, from Athabaska Landing to Lake Athabaska and in the Lesser Slave District. Attention is called to the great of fire along the G. T. R. construction. Reports of extensive damage by fire to the forests in the district west of Edmonton were not, however officially confirmed.

A strong plea is made for the extention of abequate fire protection to the forest country north of the Saskatchewan, stetching from Hudson Bay to the Rockies.

Tree Distribution.

The value of the work of the Forestry Branch in the distribution of trees from Indian Head to farmers in the Northwest is noted and suggestions made for improved facilities at the Nursery Station. The report of the Chief of the Tree Planting Division, Mr. N. M. Ross, which forms an appendix to the Superintendent's report, announces a distribution of over 1,700,000 trees in the spring of 1907. In 1908 trees were sent to 1424 applicants; of these 464 were in Manitoba, 659 in Saskatchewan, and 301 in Alberta. Planting on the Spruce Woods forest reserve, the growth conifers at Indian Head and the permanent plantations at the Nursery Station are also discussed.

Irrigation.

The subject of irrigation, which also is under the Superintendent of Forestry, constitutes an important part of the report.

The importance of a proper hydrographic survey is dwelt upon. "The determination of the water supply is of the greatest importance, not only to the irrigation interests but for the municipal supply of the rapidly developisg towns of the west, for the operation of railways and for the convenience of the growing population. As the administration of the water resourses of this great district is under the control of the Dominion the responsibility for dealing with this subject rests upon the federal authorities, and the importance of the interests involved would justify the increased expenditure that may be necessary to place the hydrographic survey on an efficient basis."

The inadequalty of the work so far done and the difficulties of the present situation are dwelt upon and the progress made in this line of work in the neighboring states of the Union referred to.

The Irrigation Act is also touched upon. The general principle is stated as follows: "The principle of the law is that the water is public property and that any rights to the use it do not convey any property in it but are granted for beneficial use in connection with a specific location. If any larger right were permitted to exist, a right to water might be held speculatively and not used beneficially. One person or company might get control of the water and have a monoply which would placs the holders of land dependent on the stream at their mercy. The evidence of experience is against the unrestricted transfer of water rights, and the proper policy seems to be to adhere in the main to the principle already established by the Act of making the right to the use of water appurtenant to the land."

The amendments to the act are noted, also recommendations made by various bodies for its amendment, with reasons for and against the suggested amendments and their final disposition.

The "duty of water" and its determination is also taken up.

During the year 1907 137 sales of land, covering a total area of 62,332 acres, for reclamation by irrigation were made. Sales of 470,000 acres to the Alberta Railway and Irrigation Company, and of 380,573 acres to the Soutnern Alberta Land Co. were also under way. Reference is also made to the first Canadian Irrigation Conference at Calgary in July 1907.

National Parks.

The taking over of the Dominion parks by the Department and the organizing of their administration is also treated. During the year (1907) Elk Park had been fenced in order to confine the buffalo, and a new reserve—Buffalo Park—had been set aside.

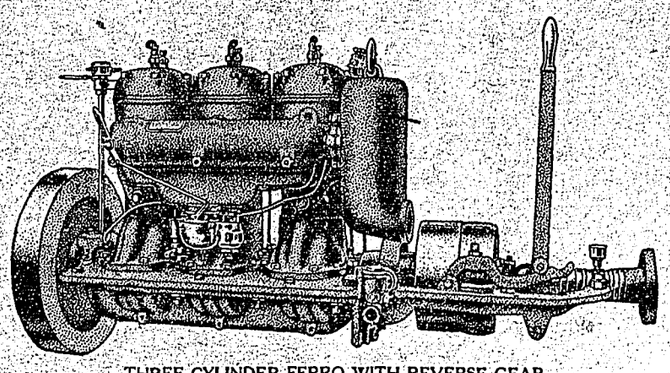
Reports from Norman M. Ross, chief of the tree planting division, James Leamy, Crown Timber Agent at New Westminster John Stewart, Commissioner and Chief Engineer of Irrigation, and other officers of the Branch are given as appendices.

The report is illustrated by a dozen fine full-page half-tone cuts. Copies may be obtained on application to the Superintendent of Forestry, R. H. Campbell, Esq., Ottawa.

Successful Ad.—Several weeks ago a Kansas editor advertised the fact that he had lost his umbrella, and requested the finder to keep it. He now reports: "The finder has done so. It pays to advertise."

The Versatile Growl.—"What's the dog doing, ma?"—"He's eating his dinner, Jimmie."—What makes him growl that way?'—"He's enjoying his dinner."—"Huh! he's different from pa, isn't he?"

Ferro Marine Engines



THREE CYLINDER FERRO WITH REVERSE GEAR

Some Important Improvements

Offset Cylinder Construction, (Reducing Friction and Vibration, Securing Maximum Power.)

Counterbalanced Crank Shaft, (Saving wear on bearings and vibration.)

Accessability of Parts, (Enabling operator to take engine apart without removing it from the bed.)

Other good points. Competent Cooling System, Positive Pressure Oiling System, Interchangeability of Parts, Effective Ignition System for either Jump, Spark or Make and Break System.

1909 Ferro Catalogue explains fully these and many other points. This is FREE.

A Practical Treatise on Marine Gasoline Engines gives complete and clear information on construction, operation and installation of marine gasoline engines. Price 25 cents

To reduce production cost and selling price we are making 5,000 FERRO SPECIAL ENGINES at the rate of 30 a day. These are all single cylinder 3 h.p. engines and in every way equal to the higher priced Ferro Models.

Druggist and Stationer.

BROWN BROTHERS COMPANY, NURSERYMEN,

LIMITED, of ONTARIO,

Are extensive growers of all kinds of Fruit Trees, and other Nursery Stock, such as Roses, Shrubs, and Ornamental Trees, and offer to planters of Orchards, choice trees, true to name.

The most experienced planters realize that young trees grown in Ontario, under somewhat similar conditions as prevail in the Interior of this Province, are the best.

We are prepared to furnish "One year old trees," on a three year old root, or a two year old tree on a four year old root, as desired, at prices that will be considered reasonable.

We grow the Duchess Dwarf Pear very extensively, which is being used as a filler by a good many planters.

Our Peach, Apple, Pear, cherry and Plum trees are all of first quality well grown, well rooted, and will please the most critical buyers.

Thorough cultivation in our Nurseries ensure a splendid root system which of course is most necessary in a young tree.

During the past two seasons we have successfully shipped our stock to all parts of the Province, and can guarantee satisfaction to all our patrons.

The members of our firm are all practical Nurserymen, with long experience, and they are giving their whole time to this one business, constantly overseeing every detail of the work of growing, packing, shipping, etc. The fact is, we live among the trees, watching with zealous care the development of every acre of our vast plantings.

This is a Canadian enterprise of 25 years standing, and our reputation is behind all our dealings, give us your order and you will not regret it.

We want a good reliable man to look after our business in Kelowna and vicinity.

Apply for particulars in regard to prices and terms to salesmen to our British Columbia Branch Office.

First Play in the New Opera House

The Legge-Willis Company in "She Stoops to Conquer."

The first real play to appear in the new Opera House will be Legge-Willis's production of "She Stoops to Conquer," a charming old English comedy and costume play written by Oliver Goldsmith. It is certainly a befitting start to the good welfare of the new theatre that the actors are all picked from talented local celebrities. The caste has already appeared in print, and from the names included a good idea can be gathered of the excellent quality of the acting which may be expected.

The price of the seats, it will be noted, has been reduced, while the time of commencement has been changed from 8 to 8.30. This is to allow the country people to fix up their chores.

The scenery has been hand in during the last few months, Mr. Reed weilding the brush with artistic taste, making a room scene look like a room, and not like a box as is the case with some of the travelling companies we have seen heretofore. The Garden scene will excel all previous gardens, while the inn scene will be painted from an old country hostelry that the painter has well been able to study. The dresses are being made by Davis & Mathie who have turned their work shop into a regular Clarksons. The larger staging room and greater facilities will do away with the long waits that marred a little the last Legge-Willis production, the ten minutes inteaval will be strictly adhered to, and the lightning arrangements will be all under the control of one man. It is usual at an opening performance on a new stage for people to be seated well on time as the mystery of enticing the black cat over the stage to signify good luck, and long life, to both theatre and play is a mystery only once seen perhaps in a life time.

PRIZES FOR PLANS

The city council of Kelowna will receive up to June 14th, at 12 noon, plans for the improvement and development of the city park.

All plans must be based on an early expenditure of $3,500.00, any further outlay to extend over a period of years, and the design to embody a harmonious and progressive development of the park as a whole.

For the most meritorious and practical plans the council will award first and second prizes of $75.00 and $50.00 respectively, but the council reserves the right to award one prize only, either first or second or second or to make no award, should the plans, in the judgement of the park committee, be deemed of insufficient merit.

Blue prints of a typographical survey of the park may be obtained by intending competitors from the city clerk.

Kelowna, B.C., G. H. DUNN,
26-28 May 26, 1909. City Clerk.

CITY COUNCIL MEETING

Continued from page 1

fences. The tenders to be in the council's hands not later than June 1st.

The following accounts were referred to the Finance Committee to be paid if found correct.

Chas. Rimmer, special constable	$ 3 00
Morrison-Thompson, freight on hydrants	28 00
Morrison-Thompson, pipes and hydrants	1092 22

The fire brigade question next came before the council.

Ald. Rowcliffe was of the opinion that they ought to be given all the encouragement possible.

Ald. Cox in praising their good work remarked that they were doing the regular practices on Tuesday and devoting their energies to their work.

The Mayor thought that the least the council could do would be to grant expenses to Vernon, say to the extent of $25, so that the brigade could run in the hose and real race.

Ald. Ball did not agree with this project, he remarked that if the council were going to do this, it would cost quite a lot of money.

Ald. Bailey thought something ought to be done by way of encouragement and nursed the idea of a grant of $25 being made to pay the brigade's expenses.

It was finally moved by Ald. Rowcliffe, seconded by Ald. Bailey, that the city council, wishing to show their appreciation of the good work the volunteer fire brigade is doing, agree to give them $25 as requested by their chief, Mr. Samson, to defray travelling expenses to Vernon to take part in the fire brigade competition. The same to be paid out of the fire and water estimate.

The following motions were carried.

Ball-Bailey—That as soon as the deeds have been executed with the A. & T. deal the sum of $500 be paid over to D. W. Crowley & Co. and a like sum to the trustees of the A. & T. Association.

Permission was also given the Morrison-Thompson Co. and the Kelowna Furniture Co. to erect scaffolds outside, projecting 3 feet on the sidewalk for the purpose of completing their building. The Morrison-Thompson Co. to assume all risk of accident, scaffolds to be removed within two weeks after erection.

Ball-Rowcliffee—That the Board of Works be instructed to have the sidewalks removed (when necessary) from Bernard Avenue, which are to be replaced by cement walks to the east side of Water Street North of Bernard Avenue.

Mr. Budden attended and asked leave to dig a ditch across the road in order to get irrigation water. His crop was badly in need of irrigation and he could not afford time or money to put in a covered box culvert.

The council promised it attention, at the same time remarking that they were unable to give permission of that description. It was best for them to see the situation and then make definite arrangements.

T. Hidson gave his report of the fire that occurred on Monday afternoon. He explained that a Mr. Chaplain was engaged by Mr. T. Morrison to clear some brush from alongside the sidewalk. Mr. Chaplin took it upon himself to burn the brush, and in so doing managed to set fire to the sidewalk. Mr. Morrison had refused to pay for the damage done and Mr. Chaplin did not think he was liable. About 25 to 30 feet had to be chopped away to stop it from spreading and it was advisable to have it seen to at once.

It was finally proposed by Ald. Ball, seconded by Ald. Cox that the Board of Works be instructed to repair the burnt sidewalk on Harvey Avenue and to consult the city solicitor as to person or persons responsible for starting fire and to report at next meeting.

Two cents per word first insertion

One cent per word following insertions

THE PEOPLE'S STORE

A Garment with Distinction and Popularity.

Our three button and two button Sacks. Styles and price are things that speak for themselves.

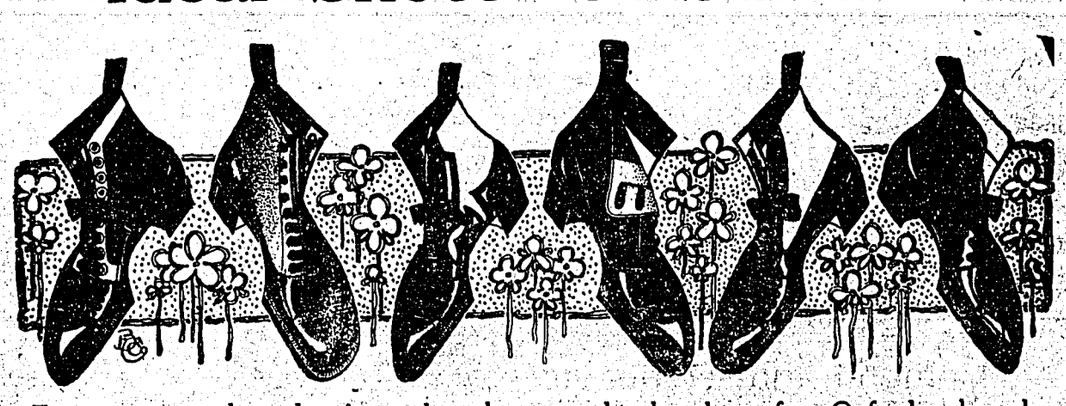
Quality is hidden away inside the linings. The foundation of good workmanship is the special feature of all our Clothing which means that the coat lapels will not turn up at the corners, the pockets will not sag, the coat fronts will not wrinkle and pucker, our trousers bag or become high-water; the coat sleeves will not pull up. In fact all our clothing means

COMFORT, STYLE and DURABILITY

THOMAS LAWSON, Ltd.

Headquarters for The Economical Buyer.

Ideal Shoes for Summer



For a summer shoe, there's no shoe that can take the place of an Oxford or low shoe.
Oxfords being light do not tire your feet the same as boots do.
They fit easily and comfortably and leave your ankles perfectly free.
INVICTUS Oxfords never bulge or sag at the sides.
If you've never worn INVICTUS Oxfords you have yet to learn what genuine hot weather comfort means.
We have INVICTUS Oxfords in all the newest 1909 shapes, in all sizes and all the widths.
